

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

the 1990s, the number of people in the world who are undernourished has increased from 600 million to 800 million. The number of people who are malnourished has increased from 1.1 billion to 1.5 billion. The number of people who are obese has increased from 100 million to 300 million.

There is a growing awareness of the need to address the problem of malnutrition. The World Health Organization (WHO) has launched a global strategy to reduce malnutrition. The strategy is based on three pillars: (1) improving the quality of food, (2) increasing the availability of food, and (3) improving the access of people to food. The WHO is working with governments and other organizations to implement this strategy.

There are many reasons why malnutrition is a problem. One reason is that people do not have enough money to buy food. Another reason is that there is not enough food available in some areas. A third reason is that people do not know how to cook food properly. A fourth reason is that people do not have access to clean water and sanitation.

There are many ways to address the problem of malnutrition. One way is to improve the quality of food. This can be done by increasing the use of fertilizers and pesticides. Another way is to increase the availability of food. This can be done by building roads and bridges to connect rural areas to markets. A third way is to improve the access of people to food. This can be done by building schools and health centers in rural areas.

There are many other ways to address the problem of malnutrition. For example, people can be taught how to cook food properly. People can be encouraged to eat a variety of foods. People can be encouraged to drink clean water and use sanitation facilities.

Malnutrition is a serious problem that affects millions of people around the world. It is a problem that can be solved. We need to work together to address the problem of malnutrition. We need to improve the quality of food, increase the availability of food, and improve the access of people to food.

TWELFTH

ANNUAL REPORT

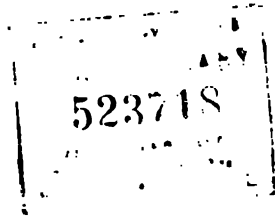

OF THE

DEPARTMENT OF DOCKS,

FOR THE YEAR ENDING APRIL 30th, 1882.

NEW YORK:
EVENING POST JOB PRINTING OFFICE, COR. BROADWAY AND FULTON ST.
(Law Telephone No. 541.)

REPORT.

DEPARTMENT OF DOCKS,
NOS. 117 AND 119 DUANE STREET, }
NEW YORK, October 19, 1882.

To the Honorable WILLIAM R. GRACE,
Mayor of the City of New York :

SIR,—Pursuant to the provisions of subdivision 9 of Section 6, of Chapter 574, Laws of 1871, the Board of Commissioners governing the Department of Docks submits this Report of its transactions from the 1st day of May, 1881, to the 30th day of April, 1882, being its Twelfth Annual Report.

The following-named Commissioners composed the Board on the 30th day of April, 1882 :

JACOB VANDERPOEL,
WILLIAM LAIMBEER,
JOHN R. VOORHIS.

The law provides that the Annual Report shall contain :

First.—The name, occupation and compensation of all persons appointed and employed by said Board :

Second.—A statement of the action of the Board for the past year, classified with reference to the various subjects and duties which have engaged the attention of the Board.

Third.—A list of the orders and rules made by said Board, and a description of the contracts made by said Board ; the payments made by said Board, and the purposes and amounts thereof ; and the leases made by said Board, for what term, at what rent, to whom, and for what property.

FIRST.

The following is a list of all persons appointed and employed by the Board, showing the name, occupation and compensation of each, respectively:

NAME.	OCCUPATION.	COMPENSATION.
-------	-------------	---------------

COMMISSIONERS' OFFICE.

John T. Cuming	Secretary.....	\$8,000 00 p. annum
William M. Whitney ...	Chief Clerk.....	8,000 00 "
Francis E. Moon.....	Assistant Bookkeeper...	1,800 00 "
Edward Dickel.....	Clerk to Secretary. ...	1,500 00 "
James Weir.....	Clerk.....	1,200 00 "
Charles Miller, Jr.....	"	75 00 p. month.
Edward G. Ames.....	"	65 00 "
Frederic Perry.....	Temporary Clerk.....	125 00 "
Hugh J. Kelly.....	"	100 00 "
James R. Byrne.....	"	100 00 "
John J. Moran.....	"	75 00 "
John M. Smith.....	Corporation Wharfinger.	100 00 "
James Fitzpatrick.....	"	100 00 "
John Butler.....	"	100 00 "
William L. McConkey...	Temporary Wharfinger..	100 00 "
Michael J. Gallagher...	"	2 50 p. day.
Jeremiah Hogan.....	"	2 50 "
Frederick W. Beatty...	Office Messenger.....	65 00 p. month.
Theodore S. Croft	"	50 00 "
George S. Hunt.....	Messenger.....	6 00 p. week.
Robert C. Morris.....	Doorman.....	50 00 p. month.
James W. Marshall	Night Watchman.....	2 25 p. day.
Daniel Connolly.....	Sunday Watchman.....	2 60 "

OFFICE OF ENGINEER-IN-CHIEF.

George S. Greene, Jr....	Engineer-in-Chief.....	\$6,000 00 p. annum.
Willard A. Nichols.....	First Assistant Engineer.	3,000 00 "
James Dana, Jr.....	Clerk to Eng-in-Chief...	1,200 00 "
Robert M. Kid.....	Draughtsman.....	1,200 00 "
William Livingstone...	Assistant Draughtsman.	21 00 p. week.
Otto Sibeth.....	Temporary	21 00 "
Frederick Lange.....	Stationery Clerk and Messenger.....	100 00 p. month.

CONSTRUCTION FORCE.

William W. Maclay.....	Superintendent of Section	\$2,500 00 p. annum.
Charlton B. Kid.....	“ “	2,500 00 “
Thomas J. Long.....	Asst. to Superintendent.	1,500 00 “
John H. Staats.....	“ “	1,500 00 “
Thomas Murphy.....	Master Mason.....	1,800 00 “
John Dunn.....	Master Dockbuilder....	1,800 00 “
Patrick White.....	Foreman Dockbuilder...	1,000 00 “
Frederick P. Thompson.	Surveyor.....	1,500 00 “
John B. Packer.....	Temp'ry Asst. Surveyor	100 00 p. month.
William A. Dawson ...	Leveler.....	75 00 “
Robert M. Sterritt.....	Foreman of Gansevoort st. Yard.....	100 00 “
Patrick H. McCullough..	Roundsman.....	100 00 “

During the year the following-mentioned reductions of salary, resignations, increases of pay, removals and new appointments have taken place, and one death occurred :

May 4th, 1881.—Robert M. Kid, promoted to Draughtsman, with compensation at \$1,200 per annum, from the 1st instant.

May 4th, 1881.—Edward C. Reynolds, promoted to Assistant Draughtsman, with compensation at \$1,000 per annum, from the 1st instant.

May 11th, 1881.—Charles W. Raymond, promoted to Surveyor, with compensation at \$1,800 per annum, from 12th instant.

May 11th, 1881.—John G. White, appointed Master Dockbuilder, with compensation at \$100 per month, from 12th instant.

May 11th, 1881.—Frederick P. Thompson, appointed Assistant Surveyor, with compensation at \$1,200 per annum, from 12th instant.

May 15th, 1881.—Daniel Connolly, appointed Sunday Watchman in place of Michael Falvey, removed, with compensation at \$2.60 per day of thirteen hours.

June 2d, 1881.—Resignation of Charles W. Raymond, as Surveyor, accepted.

June 14th, 1881.—William McConkey, Wharfinger, died.

June 15th, 1881.—Frederick P. Thompson, promoted Surveyor, with compensation at \$1,500 per annum, from 15th instant.

June 15th, 1881.—John B. Packer, appointed Temporary Assistant Surveyor, with compensation at \$100 per month, from 20th instant.

June 15th, 1881.—William L. McConkey, appointed Temporary Wharfinger for District No. 1, East River.

June 22d, 1881.—Compensation of John G. White, Master Dockbuilder, fixed at \$1,800 per annum, from this date.

August 4th, 1881.—Compensation of William Livingstone, Assistant Draughtsman, fixed at \$21 per week, from 1st instant.

August 18th, 1881.—Francis E. Moon, promoted to First Assistant Bookkeeper, with compensation at \$1,800 per annum, from this date.

October 19th, 1881.—Thomas Early, Messenger, removed, the position being abolished.

November 16th, 1881.—Resignation of Eugene T. Lynch, as Secretary, accepted.

November 16th, 1881.—John T. Cuming, appointed Secretary.

November 17th, 1881.—George S. Hunt, Messenger, discharged, from and after 30th instant.

November 17th, 1881.—Charles Miller, Jr., appointed a Messenger, with compensation at \$50 per month, from and after this date.

November 30th, 1881.—Discharge of George S. Hunt, as Messenger, on 17th inst., rescinded and annulled.

November 30th, 1881.—Compensation of the Secretary fixed at \$3,000 per annum.

December 30th, 1881.—John G. White, Master Dockbuilder, removed from and after January 1st, 1882.

December 30th, 1881.—John Dunn, appointed Master Dockbuilder, from and after January 1st, 1882.

December 30th, 1881.—Rates of compensation for the following-named persons fixed from January 1st, 1882, as follows :

Thomas J. Long \$1,500 per annum.

Edward Dickel..... 1,500 per annum.

Willard A. Nichols..... 3,000 per annum.

James Dana, Jr..... 1,200 per annum.

December 30th, 1881.—James Weir, promoted to a Clerk, with compensation at \$1,200 per annum, from January 1st, 1882.

December 30th, 1881.—Robert C. Morris, appointed Doorman, with compensation at \$50 per month, in place of Amzi Cook, removed, to take effect January 1st, 1882.

December 30th, 1881.—Patrick H. McCullough, appointed Roundsman, with compensation at \$100 per month, from and after January 1st, 1882.

January 13th, 1882.—Frederic Perry, appointed Temporary Clerk, with compensation at \$1.50 per hour.

January 30th, 1882.—Compensation of John Dunn, Master Dockbuilder, fixed at \$1,800 per annum, from and after January 1st, 1882.

February 1st, 1882.—George T. May, Temporary Clerk, removed, and Francis E. Moon promoted to vacancy as Assistant Bookkeeper.

February 15th, 1882.—Services of Frederic Perry, Temporary Clerk, dispensed with.

March 1st, 1882.—Charles Miller, Jr., promoted a Clerk, with compensation at \$75 per month.

March 1st, 1882.—James R. Byrne, appointed Temporary Clerk, with compensation at \$100 per month.

March 1st, 1882.—Frederic Perry, appointed Temporary Clerk, with compensation at \$125 per month.

March 1st, 1882.—John J. Moran appointed Temporary Clerk, with compensation at \$75 per month.

April 5th, 1882.—Hugh J. Kelly, appointed Temporary Clerk, with compensation at \$100 per month.

April 12th, 1882.—Resignation of Edward C. Reynolds, as Assistant Draughtsman, accepted from and after 6th inst.

April 12th, 1882.—Frederick Lange, promoted Stationery Clerk and Messenger to the Engineer-in-Chief,

with compensation at \$100 per month, from and after the 1st inst.

April 12th, 1882.—Theodore S. Croft, appointed a Messenger, with compensation at \$50 per month, from and after 11th inst.

April 13th, 1882.—Compensation of Robert M. Sterritt, Foreman of Gansevoort Street Yard, fixed at \$100 per month, from and after May 1st, 1882.

April 26th, 1882.—Otto Sibeth, appointed as Temporary Draughtsman, with compensation at \$21 per week, from and after 20th inst.

SECOND.

The Board submits the following statement of the subjects and duties which have engaged its attention during the year ending April 30, 1882.

I.—Organization.

September 21st, 1881.—Hon. John R. Voorhis, appointed, on 13th inst., by His Honor, Mayor Wm. R. Grace, to be Commissioner of Docks, in place of Henry F. Dimock, whose term of office has expired, presented his certificate of appointment for the term of six years, and, after stating that he had taken the oath of office prescribed by law, took his seat as a member of the Board.

November 2d, 1881.—Commissioner Voorhis, elected

President for the remainder of the year ending April 30th, 1882.

November 2d, 1881.—Commissioner Vanderpoel, re-elected Treasurer for the remainder of the year ending April 30th, 1882.

II.—General Duties.

The duties devolved upon this Department by law comprise, among others, the following, many of which are purely legislative, and were exercised by the State Legislature prior to the creation of this Board:—

The management and supervision of all the piers and water-front of the city, an estate worth many millions of dollars.

The duty of seeing that the whole water-front property, both public and private, is kept properly dredged and in suitable condition and repair for general use.

The making of rules and regulations as to the use of all the water-front, and the setting aside of parts of it for such purposes as may be best calculated to promote the interests of our city.

The duty of passing upon all erections, structures and superstructures, and upon every proposed modification or increase of terminal facility on the water-front.

The duty of carrying out the reconstruction, on the new plan, of the whole water-front property.

And, generally, the obligation to watch over and promote the commercial growth of the city, by introducing,

from time to time, every practicable improvement into its wharf and dock system.

Among the several other duties that have fallen to the lot of the present Board, has been the repossessing of wharf property upon the water-front, both upon the North and East rivers, and from which the city has derived no revenue for from ten to thirty years. The Board has taken possession of some pieces under the firm belief that the property of right belonged to the city. Other cases were sent to the Counsel to the Corporation for advice, and in every instance save one the law officer of the city decided that the title was vested in it.

The Board is now investigating other various cases, and making every effort to regain possession of all property upon the water-front belonging to the city, and is preparing maps, plans, and diagrams to that end, for the record of the Department.

III.—Operations on the Water-front.

During the year the construction of the new bulkhead wall on the North river water-front has been progressed as rapidly as possible, but the difficulty of obtaining possession of any considerable length of water-front, without seriously interfering with commercial interests, together with the course pursued by several claimants to water-front rights in restraining the Department by injunctions from improving the premises in conformity with the plans approved therefor by the Commissioners of the

Sinking Fund, has prevented the erection of the wall at the several points on the river front to the extent contemplated by the Department.

Wherever the wall has been completed at any point where the adopted plan provides for a pier to be constructed, the pier has been erected, the work being performed under contract in each case.

For some time prior to the beginning of this fiscal year it was learned that different opinions were entertained by some of our citizens, whose judgment command attention, as to whether the bulkhead wall, then being constructed, and which was substantially the same in every particular as that erected by the Department during the past six years, is the proper construction to be placed along the water-front for the interests of the city.

As this permanent improvement of the water-front is too extensive and important a work to be progressed without the most careful consideration of the large interests of the city, all to be more or less influenced by it, and as the then Commissioners of the Department were unwilling, in view of these expressed differences in the opinions of our prominent citizens, to assume the responsibility of any further expenditures of public moneys upon the improvement until the method adopted by the Department for the construction of this river wall should have the full endorsement of the highest engineering skill obtainable, or the plan be so modified as to secure such endorsement, it was determined by the Board, on the 9th of September, 1881, to solicit the services of Generals

John Newton and Q. A. Gillmore, of the United States Army, and William E. Worthen, Esq., of this city, each one of whom is recognized as an engineer of the highest standing, to make a thorough investigation of the manner of constructing the bulkhead wall then being erected by the Department, and to report their opinion upon the following points, as well as all other information which in their judgment they should deem essential to advise, to wit :

“1st. Is the wall now being constructed the most desirable one, for all the interests of the city, for the sections of the water-front under improvement?”

“2d. If it is not, what changes in its construction should be made to make it so?”

The eminent engineers selected very promptly accepted the invitation of the Department, and after a most exhaustive examination of the construction of the wall in all its detail of every kind, occupying over two months' time, their report was submitted, dated December 27th, 1881.

The result of this examination was highly gratifying to the Commissioners and officers of the Department, and so full an endorsement of its manner of constructing this permanent river-wall, as is given by these Engineers, when they refer to the present cross-section of the wall as being “founded on correct principles of stability and economy, “and the modifications we suggest seem to us to improve “it without changing the ideas characteristic of the plan”

—should be most satisfactory to all our citizens and taxpayers, and not only largely tend to convince them that the work of the permanent improvement of our water-front is being progressed in the most substantial and judicious manner consistent with economy, but should also cause the work to merit the confidence of the whole community.

The Report of General Newton and his associates we have deemed proper to annex hereto, in full, accompanied by a diagram showing the construction of the cross-section of bulkhead wall examined, and which is the plan adopted by this Department in April, 1876, and upon which all the wall erected on the North river water-front commenced since that date has been constructed.

For a detailed account of the works of construction, repair, dredging, surveying, etc., we refer to the report of the Engineer-in-chief, hereto annexed.

IV.—Improvement of the North River Water-front from West Eleventh to West Twenty-second Streets.

The improvement of the district of the water-front on the North river, between West Eleventh and West Twenty-third streets, is a subject which should receive the immediate consideration of all officers and departments of the city government in any way responsible for the future welfare of the trade and commerce of the city.

In the Report of 1880, the Department proposed a plan

for improving this district, giving the fullest detail possible in explanation.

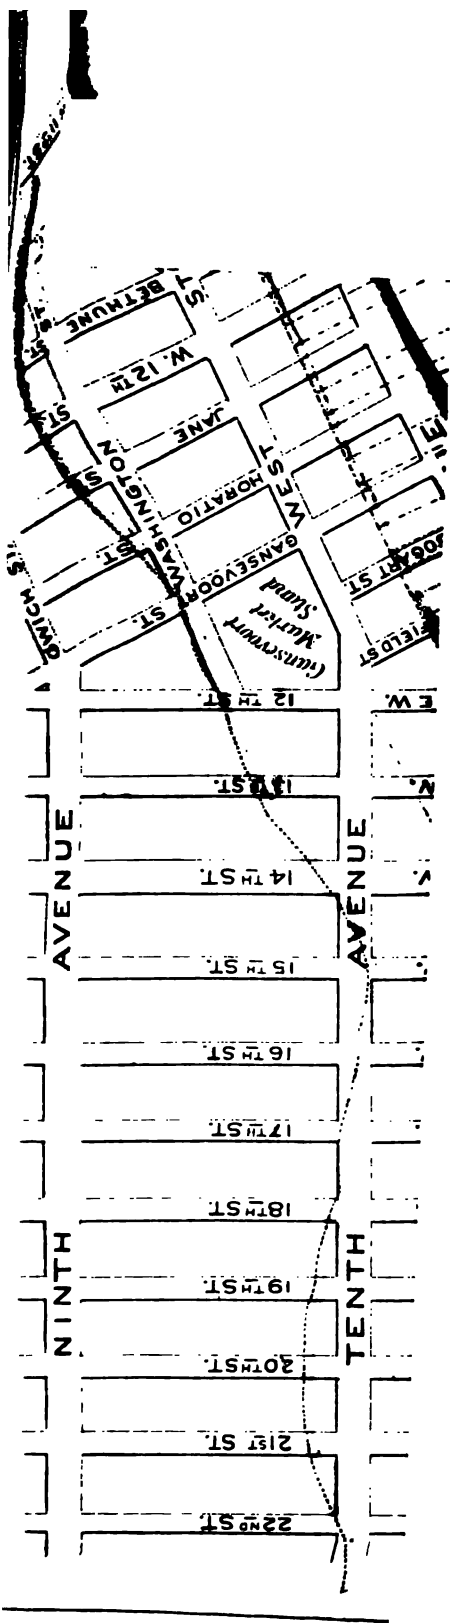

This plan contemplates the extension of West street, at a width of 250 feet, from the foot of West Tenth street northwardly in a direct line until it shall intersect the Thirteenth avenue, just north of the foot of West Twenty-second street.

The plan further proposes the erection of at least twenty piers, extending westerly from this new bulkhead line as established by this proposed extension of West street.

It is proper to state that this Department cannot move in the improvements as proposed until a law is passed by the State Legislature authorizing a change in the improvement of the water-front from the plan adopted therefor under the law of 1871.

The reason why this Board has felt it to be unwise to proceed in this particular district under the plan adopted under the law of 1871, is that the Commissioners were unanimously of the opinion that a better plan, more in the interest of the future welfare of the city, could be devised for the improvement of that portion of the water-front.

The existing adopted plan does not provide for the construction of any piers, and the plan in contemplation by the present Board will provide for piers quite equal in capacity to those south of West Tenth and north of West Twenty-third streets.

As before stated, the detail of this plan is fully given in the Report of 1880 ; and we annex hereto a map showing at a glance the present condition of this district and its condition as it would be if the proposed plan should be adopted.

Our North river water-front south of West Eleventh street is over-crowded with shipping and transportation lines, so that in event this proposed improvement is not carried into effect, all new enterprises of commerce, as well as the increased facilities required for those already established, must either seek the desired accommodations above West Twenty-second street, or be forced to cross to the opposite shores in Brooklyn and New Jersey.

By this improvement ample facilities will be secured, upon its completion, to meet the present pressing demands of commerce and trade, and a water-front obtained for the new Market recently established at Gansevoort street. The growth of our wharf accommodations can then proceed northwardly, pier by pier, as necessity may require.

We are ready to do all in our power to bring about proper action to secure the improvement, and we most earnestly urge upon the municipal authorities the necessity of immediate action.

V.—Revenues, Expenses, etc.

The total revenues of the Department which have accrued within the year have amounted to \$1,059,837.54, being an increase over the accrued revenues of the pre-

ceding year, of \$195,608.79, a larger increase by nearly fourfold than has ever accrued in any previous year.

In addition to this amount there has been a revenue derived from corporation wharf property occupied and used by ferries under leases made by the Commissioners of the Sinking Fund, but which has not passed through this Department, as formerly, approximating the sum of \$120,000.

The actual increase of revenue for the year from the wharf property of the corporation is thus shown to have been over \$315,500, or nearly equal to an increase of thirty-seven per cent.

This increase would have been nearly \$15,000 more but for the action of the courts as previously stated, in restraining the work of the Department, thereby preventing the construction and completion of two piers upon the improved plan, which could have been rented for not less than \$60,000 per annum, and have produced the above additional increase from the date of their completion.

The Department deposited during the year with the City Chamberlain for the redemption of the city debt the amount of \$1,124,618.87.

The audited expenses of the Department during the year amount to \$1,180,097.44; being for new-work construction, \$870,920.18; for repairs to piers, etc., not built on new plan, \$274,282.37; and for office rent, clerk hire and general expenses of principal office, \$34,894.89.

The Department has deposited from May 1, 1877, to

April 30, 1882, an amount of money exceeding its total expenditures by \$1,018,892.51, so that the revenues of the Department have actually reduced the city debt to that extent during the five years.

The expenditures for the past year were largely increased consequent upon the Board, after a thorough examination of the wharf property belonging to the city, deeming it advisable to place many of the piers and slips in better repair and condition, in order to supply the constantly increasing requirements of shipping interests.

The amount of expenditure actually made for these repairs and dredgings during the year, in consequence of this action of the Board, was, therefore, much larger than that of any previous year.

The Department has also expended a portion of the foregoing amount upon the bulkhead wall and new piers being constructed at points on the North river water-front, where the progress of the work has been stopped by injunctions, as previously stated, from which no revenue has been received nor can accrue until the injunctions shall be dissolved and the work completed.

A full statement of the revenues and disbursements for the year is annexed hereto, and it is with a feeling of no little pride that we call attention to the fact that all rents of the fiscal year, payable under leases and permits issued by the Department, were paid and deposited in the City Treasury within the year, except in three items, amounting to less than \$3,100, which were transferred to the Counsel to the Corporation for legal action.

Corporation Wharfinger for the district, to be also recovered from such owner, lessee or occupant.

No. 2. No shed, building, office, tally-house, or other structure shall be erected, nor shall any derrick, hoisting-mast, coal-hopper, sign, or advertising device, or other erection or obstruction of any kind be placed or maintained upon any pier, bulkhead, or other wharf structure, nor upon any reclaimed land, without a written permit therefor being first had and obtained from the Board ; and if the owner, lessee or occupant of any such premises, or the owner, lessee or agent of any such structure, erections, or obstructions, shall fail to comply with a notice served by the Corporation Wharfinger for the district to remove any such structure, erection, or obstruction, after the expiration of the time allowed by such notice for the removal, such owner, lessee, occupant or agent shall forfeit and pay a penalty of twenty-five dollars per day for each and every day which shall elapse before any such structure, erection or obstruction shall be removed, after the expiration of the time for the removal thereof specified in said notice.

No. 3. No cargo shall be discharged from any vessel upon any bulkhead or wharf structure at which such vessel is being unladen, after service by the Corporation Wharfinger for the district upon the owner, consignee, master or other officer or stevedore of such vessel, of a notice that such bulkhead or structure will be endangered by the placing of additional cargo thereon, under a pen-

alty of two hundred and fifty dollars for every such offense, and a further penalty equal in amount to the damages of every description which shall be caused by the further discharging of cargo upon such bulkhead or wharf structure, after the service of the said notice, both of such penalties to be recovered from such owner, consignee, master or other officer or stevedore, severally and respectively.

No. 4. All goods, merchandise and materials of every kind, landed or placed on any pier, bulkhead or other wharf structure, or upon reclaimed land, must be removed therefrom without unnecessary delay, and within twenty-four hours after the Corporation Wharfinger for the district shall have served upon the owner, shipper or consignee of such cargo a notice to remove the same, under a penalty of fifty dollars per day for each and every day during which any part of said cargo shall remain upon such pier, bulkhead, structure, or land, after the expiration of the said twenty-four hours, to be recovered from such owner, shipper or consignee, severally and respectively.

No. 5. All goods, merchandise and materials of every kind encumbering any pier, bulkhead or other wharf structure, or reclaimed land, after the time designated for the removal thereof shall have expired, will be liable to be removed by the Board to any warehouse or yard, at the sole risk and expense of the owner of any such property, and all expense incurred for such removal and storage or

otherwise, shall be and become a lien thereon, and such goods, merchandise and materials will not be delivered to the owner until the expense of such removal and storage has been paid.

No. 6. No person shall construct or maintain any engine-house, tally-house, or other small structure, under a permit of the Board, on any unshedded pier, or other wharf structure, unless the same be placed on wheels, so as to admit of easy removal thereupon when required, and to prevent the accumulation of dirt or refuse thereunder, under a penalty of twenty-five dollars per day for each and every day which may elapse before the discontinuance of such offense.

No. 7. No vessel of any kind shall be loaded or discharged by horse power, nor shall stones or similar cargo be discharged from any vessel upon any pier, bulkhead or other wharf structure, unless proper planking be provided to protect the surface of such pier, bulkhead or other wharf structure from injury consequent upon the travel of the horse or the throwing of the stones or similar cargo thereupon, under a penalty of five dollars a day for each horse so employed, and of twenty-five dollars for each offense of discharging such stones or like cargo upon such pier, bulkhead or other wharf structure, to be recovered from the owner, consignee, master or stevedore of any such vessel, severally and respectively, and if such penalty be recovered for using horses or discharging stones or similar cargo upon wharf property

belonging to the corporation, under lease, it shall be paid to the lessee thereof, but if such penalty be recovered for using horses or discharging stones or similar cargo upon wharf property not owned by the corporation, it shall be paid to the owner thereof.

No. 8. No sand shall be discharged from any vessel unless canvas or similar material be extended from the vessel's side to the bulkhead or wharf structure at which such vessel is being unladen, to prevent the falling of the sand into the water, and if the surface of any such wharf structure is not sufficiently tight to prevent the sand dumped thereon from going through into the water, then no sand shall be discharged thereon from any vessel unless canvas or similar material be first laid thereon to receive the sand, under a penalty of twenty-five dollars for each offense, to be recovered from the owner, consignee, master or stevedore of any such vessel, severally and respectively; and if such penalty be recovered on account of sand discharged upon wharf property belonging to the corporation, under lease, it shall be paid to the lessee thereof, but if such penalty be recovered on account of sand discharged upon wharf property not owned by the corporation, it shall be paid to the owner thereof.

No. 9. The owners, lessees and occupants of every pier, wharf and bulkhead in the City of New York shall keep the same in good repair, and the slips adjacent thereto properly dredged; and whenever, in the judgment of the Board, it shall be necessary so to do, written

notices, signed by the President or Secretary of said Board, shall be served upon the owners, lessees or occupants, or collector of wharfage of any such pier, wharf or bulkhead, or the slip adjoining the same, on or in which repairs or dredging are required by said Board, specifying the nature and extent of the repairs or dredging so required, and the time within which such repairs must be made, or such dredging done; and in case the owners, lessees or occupants so notified fail to comply with the terms and requirements of such notice, they shall forfeit and pay a penalty of fifty dollars per day for every day which shall elapse before they comply with such notice.

No. 10. No ashes, refuse, offal, fruit, vegetables or any other substances, shall be thrown into the waters surrounding or adjacent to any pier or bulkhead, or any other part of the water front of the City, under a penalty of twenty-five dollars for every such offense, to be recovered from the owner, lessee, or occupant, severally and respectively, of any pier, bulkhead, wharf structure or other property, from which any such substance shall be thrown, or from the person actually throwing the same; or if any such substance be thrown from any vessel lying in waters within the jurisdiction of the Department, whether berthed or not, then such penalty to be recovered from the owner, consignee or master of such vessel, severally and respectively.

No. 11. No snow or ice shall be dumped into the waters adjacent to the water front of the City, except

from the piers, bulkheads and other places designated from time to time by the Board for such dumping, under a penalty of twenty-five dollars for each offense, to be recovered from the owner, lessee or occupant of any pier, bulkhead or other wharf property, from which any such snow and ice shall be dumped, or from the person actually dumping the same, severally and respectively.

No. 12. All lumber, brick, or other material in bulk, discharged on any bulkhead not shedded, shall be at once removed, or if not so removed, shall be placed at least twenty feet from the edge of the bulkhead pending removal, under a penalty of fifty dollars per day for each and every day such lumber, brick or other material shall remain on the bulkhead, to be recovered from the owner or consignee of such lumber, brick or other material, or from the person placing, or causing the same to be placed, on such bulkhead, severally and respectively.

No. 13. The charges for wharfage and dockage of all vessels admitted to any of the piers or bulkheads constructed under the new plans adopted by the Department, shall be at the same rates as are now, or shall hereafter be, fixed and established by laws of this State, until otherwise ordered by the Board.

No 14. The term "Board," when used in the foregoing rules and regulations, shall be taken to mean "The Board of the Department of Docks of the City of New York," and the term "Corporation," when so used, shall

be taken to mean "The Mayor, Aldermen and Commonalty of the City of New York."

II.—Description of Contracts made by the Board.

July 29th, 1881.—Awarded to Union Dredging Company, of 83 and 84 Astor House, for dredging at sundry places on North and East Rivers. No. 135, dated July 29th, 1881. Expiration, November 1st, 1881. Estimated cost, \$31,584.

August 2d, 1881.—Awarded to John Gillies, of 192 West Street, Greenpoint, L. I., for repairing Pier 38, East River, and adjoining bulkhead. No. 136, dated August 6th, 1881. Expiration, October 1st, 1881. Estimated cost, \$20,018.

August 2d, 1881.—Awarded to John Gillies, of 192 West Street, Greenpoint, L. I., for building a wooden pier with a dumping-board thereon, at West Nineteenth Street, North River. No. 138, dated August 6th, 1881. Expiration, October 15th, 1881. Estimated cost, \$23,060.

August 2d, 1881.—Awarded to Joseph Walsh, of 114 Wall Street, for repairing and widening Pier 21, East River. No. 137, dated August 5th, 1881. Expiration, September 15th, 1881. Estimated cost, \$10,400.

August 25th, 1881.—Awarded to Ross & Sanford, of 104 Hudson Street, Jersey City, N. J., for building a wooden pier, to be known as Pier New 57, North River.

No. 141, dated August 25th, 1881. Expiration, December 31st, 1881. Estimated cost, \$54,000.

August 25th, 1881.—Awarded to Warren Rosevelt, of 257 South Street, for repairing Piers 44, 46, 60, 61, and the northerly half of 62, East River. No. 139, dated August 25th, 1881. Expiration, October 15th, 1881. Estimated cost, \$29,380.

September 9th, 1881.—Awarded to Union Dredging Company, of 83 and 84 Astor House, for dredging at West Thirty-seventh Street, North River, and at East Twenty-second Street, East River. No. 142, dated September 9th, 1881. Expiration, September 20th, 1881. Estimated cost, \$4,192.

September 13th, 1881.—Awarded to Joseph Walsh, of 114 Wall Street, for additional repairs to Pier 21, East River, and its bulkhead. No. 143, dated September 13th, 1881. Expiration, October 15th, 1881. Estimated cost, \$7,700.

September 14th, 1881.—Awarded to Holmes Brothers, of 220 William Street, for repairing Piers at Seventeenth, Eighteenth, Thirty-fourth, Fortieth, Forty-seventh and One Hundred and Twenty-ninth Streets, North River. No. 140, dated September 14th, 1881. Expiration, November 1st, 1881. Estimated cost, \$23,540.

October 19th, 1881.—Awarded to Morris & Cumings Dredging Company, for dredging the slip between Piers Old 41 and Old 42, North River. No. 144, dated October 21st, 1881. Expiration, November 30th, 1881. Estimated cost, \$4,770.

October 22d, 1881.—Awarded to Thomas & Augustin Walsh, of 114 Wall Street, for repairing and extending pier at West Ninety-sixth Street, North River. No. 145, dated October 24th, 1881. Expiration, February 1st, 1882. Estimated cost, \$31,620.50.

October 22d, 1881.—Awarded to Thomas & Augustin Walsh, of 114 Wall Street, for building a wooden pier at foot of Twenty-first Street, North River. No. 146, dated October 24th, 1881. Expiration, February 1st, 1882. Estimated cost, \$31,450.

November 19th, 1881.—Awarded to John Gillies, of 192 West Street, Greenpoint, L. I., for building a wooden pier at foot of Laight Street, North River, to be known as Pier New 28. No. 147, dated November 19th, 1881. Expiration, April 15th, 1882. Estimated cost, \$56,000.

January 18th, 1882.—Awarded to Mahony Brothers, of 63 Madison Street, for building a wooden pier on North Brother Island, East River. No. 149, dated January 23d, 1882. Expiration, March 1st, 1882. Estimated cost, \$13,300.

January 18th, 1882.—Awarded to Warren Rosevelt, of 257 South Street, for removing certain old structures and building a crib bulkhead at Coenties Slip, East River. No. 148, dated January 28th, 1882. Expiration, March 1st, 1882. Estimated cost, \$25,000.

February 15th, 1882.—Awarded to Joseph Walsh, of 114 Wall Street, for rebuilding pier at Seventy-ninth Street, East River ; repairing the Homeopathic Hospital

Pier at Ward's Island, East River, and building an extension to the Hospital Pier at Hart's Island, East River. No. 150A, dated February 17th, 1882. Expiration, March 15th and April 29th, 1882. Estimated cost, \$9,500.

February 15th, 1882.—Awarded to I. Eugene White, of 23 South Street, for repairing the Branch Workhouse Pier at Hart's Island, East River. No. 150B, dated February 23d, 1882. Expiration, March 15th, 1882. Estimated cost, \$1,198.

February 21st, 1882.—Awarded to John Gillies, of 137 Kent Street, Greenpoint, L. I., for removing all of Pier New 37, North River, the sheds and buildings on same, and for building a wooden pier, to be known as Pier New 37, North River. No. 151, dated February 23d, 1882. Expiration, July 1st, 1882. Estimated cost, \$57,965.

April 10th, 1882.—Awarded to Union Dredging Company, of 83 and 84 Astor House, for dredging at the foot of West Fifty-first Street, North River, and at the foot of East Twenty-sixth street, East River. No. 153, dated April 13th, 1882. Expiration, May 15th, 1882. Estimated cost, \$4,480.

April 17th, 1882.—Awarded to John W. Flaherty and Thomas O'Connell, of 41 Peck Slip, for repairing piers at Fifty-first Street, One Hundred and Thirty-first Street and One Hundred and Fifty-second Street, North River. No. 154A, dated April 19th, 1882. Expiration, June 15th and July 15th, 1882. Estimated cost, \$13,540.

April 17th, 1882.—Awarded to Joseph Walsh, of 114 Wall Street, for repairing pier at One Hundred and

Thirty-eighth Street, North River. No. 154B, dated April 19th, 1882. Expiration, July 15th, 1882. Estimated cost, \$3,630.

April 26th, 1882.—Awarded to Joseph Walsh, of 114 Wall Street, for repairing Pier 58, East River, and its bulkhead. No. 155, dated April 29th, 1882. Expiration, July 15th, 1882. Estimated cost, \$10,500.

April 26th, 1882.—Awarded to Charles M. Pratt, of 128 Pearl Street, for dredging the easterly half of slip between Piers 18 and 19, East River. No. 156, dated April 29th, 1882. Expiration, June 1st, 1882. Estimated cost, \$3,105.

III.—Payments made by the Board.

The Commissioners of Docks have made requisitions upon the Finance Department for payments, in satisfaction of liabilities incurred, from May 1st, 1881, to April 30th, 1882, amounting in all to the sum of \$1,180,097.44; and herewith submitted, in due form of exhibits, annexed to the Statement of the Revenues and Disbursements of the Department for the year, is a full showing of the payments so made by the Board, and of the purposes and amounts thereof.

IV.—Leases made by the Board.

I.—All leases made during the year, both at public sales and by Resolution of the Board, of wharf property owned by the Corporation, including land under water,

and all permits issued by the Board during that period to occupy such property, are shown in the Rent-roll accompanying this report, which fully expresses for what term, at what rent, to whom, and for what property, each of said leases was respectively made, and each of said permits was respectively granted.

The Rent-roll herewith submitted is a complete showing, as required by law, of all leases made during the year. And it, moreover, is a complete showing of all leases terminated during the year, and of all leases and permits in force on the first day of May, 1882; thus including any leases sold at public sales, within the year, to have inception in the ensuing year.

II.—Consents of the Board have been given to the following-mentioned assignments of leases of wharf property, to wit :

June 15th, 1881.—To John H. Starin, to assign to the New York Central and Hudson R. R. Co. lease of east half Pier 6, and adjoining bulkhead, East River, purchased at public sale by William Loyd, April 15, 1878, and subsequently transferred by substitution, with consent of this Board, to said John H. Starin.

August 12th, 1881.—To the Iron Steamboat Company, lessee, to sublet a portion of Pier New 1, North River, to Pim, Forwood & Co.; but without impairment of any obligation of lessee under its lease.

November 2d, 1881.—To Alexander Mason, lessee, to

assign to the New York City and Northern Railroad Company westerly half of Pier 44 and bulkhead, East River, but without impairment of any obligation of lessee under his lease.

December 14th, 1881.—To William D. Brown, to assign to Lucene Gunning Pier at One Hundred and Fifty-Second street, North River, but without impairment of any obligation of lessee under his lease.

December 21st, 1881.—To John H. Starin, lessee, to assign to the Delaware, Lackawanna and Western Railroad Company the lease of Pier New 41, North River, to expire September 1st, 1891.

December 28th, 1881.—To A. Van Santvoord, lessee, to sublet to the New York, Lake Erie and Western Railroad Company the northerly side of the pier at Twenty-second street, North River, but without impairment of any obligation of lessee under his lease.

April 12th, 1882.—To the Iron Steamboat Company, to sublet a portion of Pier New 1, North River, to W. P. Clyde & Co., but without impairment of any obligation of lessee under its lease.

April 12th, 1882.—To George W. Ryerson, to assign to the Long Island Land Fertilizing Company the bulkhead at Thirty-ninth street, East River, but without impairment of any obligation of lessee under his lease.

III.—The leases for the following-named premises have been terminated by the Board:

May 11th, 1881.—For bulkhead at Nineteenth street,

North River, D. C. Newell & Sons, lessees, lease surrendered as from 1st instant. Premises required for the building of a pier thereat.

July 13th, 1881.—For Pier 38, East River, Maine Steamship Company, lessee. Premises surrendered from 1st proximo to the contractor for extensive repairs.

July 13th, 1881.—For pier at Seventy-ninth street, East River, Frank E. Wise, lessee. Lease surrendered from 1st proximo ; premises requiring extensive repairs.

January 25th, 1882.—For pier at Fifty-seventh street, North River, Frederick Schecker, lessee. Dispossessed 1st proximo for non-payment of rent.

IV.—The following mentioned allowances from rent have been made in settlement of claims against the parties named, as compromised by the Counsel to the Corporation, with the consent of the Comptroller when required :

July 31st, 1881.—To David Tracy, lessee of piers at Thirtieth, Thirty-fourth, Thirty-fifth, Forty-sixth and Fifty-seventh streets, North River, for one day's rent under the leases therefor, being for the day upon which he was dispossessed ; allowance, \$65.78.

October 5th, 1881.—To Charles H. Longstreet, assignee, lessee of bulkhead at Fifty-first street, East River ; claim for unpaid rent of \$357.93, compromised for \$250 ; allowance, \$107.93.

January 11th, 1882.—To David Whipple, lessee of westerly half of Pier 12, East River ; claim for unpaid

rent of \$1,927.50, compromised for \$963.75 ; allowance, \$963.75.

January 18th, 1882.—To R. Cornell White, lessee of Pier 37, East River ; claim for unpaid rent of \$15,000, compromised for \$4,700 ; allowance, \$10,300.

February 8th, 1882.—To George Brown, lessee of westerly half of Pier 37, East River ; claim for unpaid rent of \$600, compromised for \$200 ; allowance, \$400.

All of which is very respectfully submitted.

WM. LAIMBEER,
JACOB VANDERPOEL,
JOHN R. VOORHIS,
Commissioners of Docks.

JOHN T. CUMING,
Secretary.

REPORT

OF

GEN. JOHN NEWTON, U. S. A.,

GEN. Q. A. GILLMORE, U. S. A.,

AND

WM. C. WORTHEN, ESQ.,

Made December 27th, 1881,

ON THE

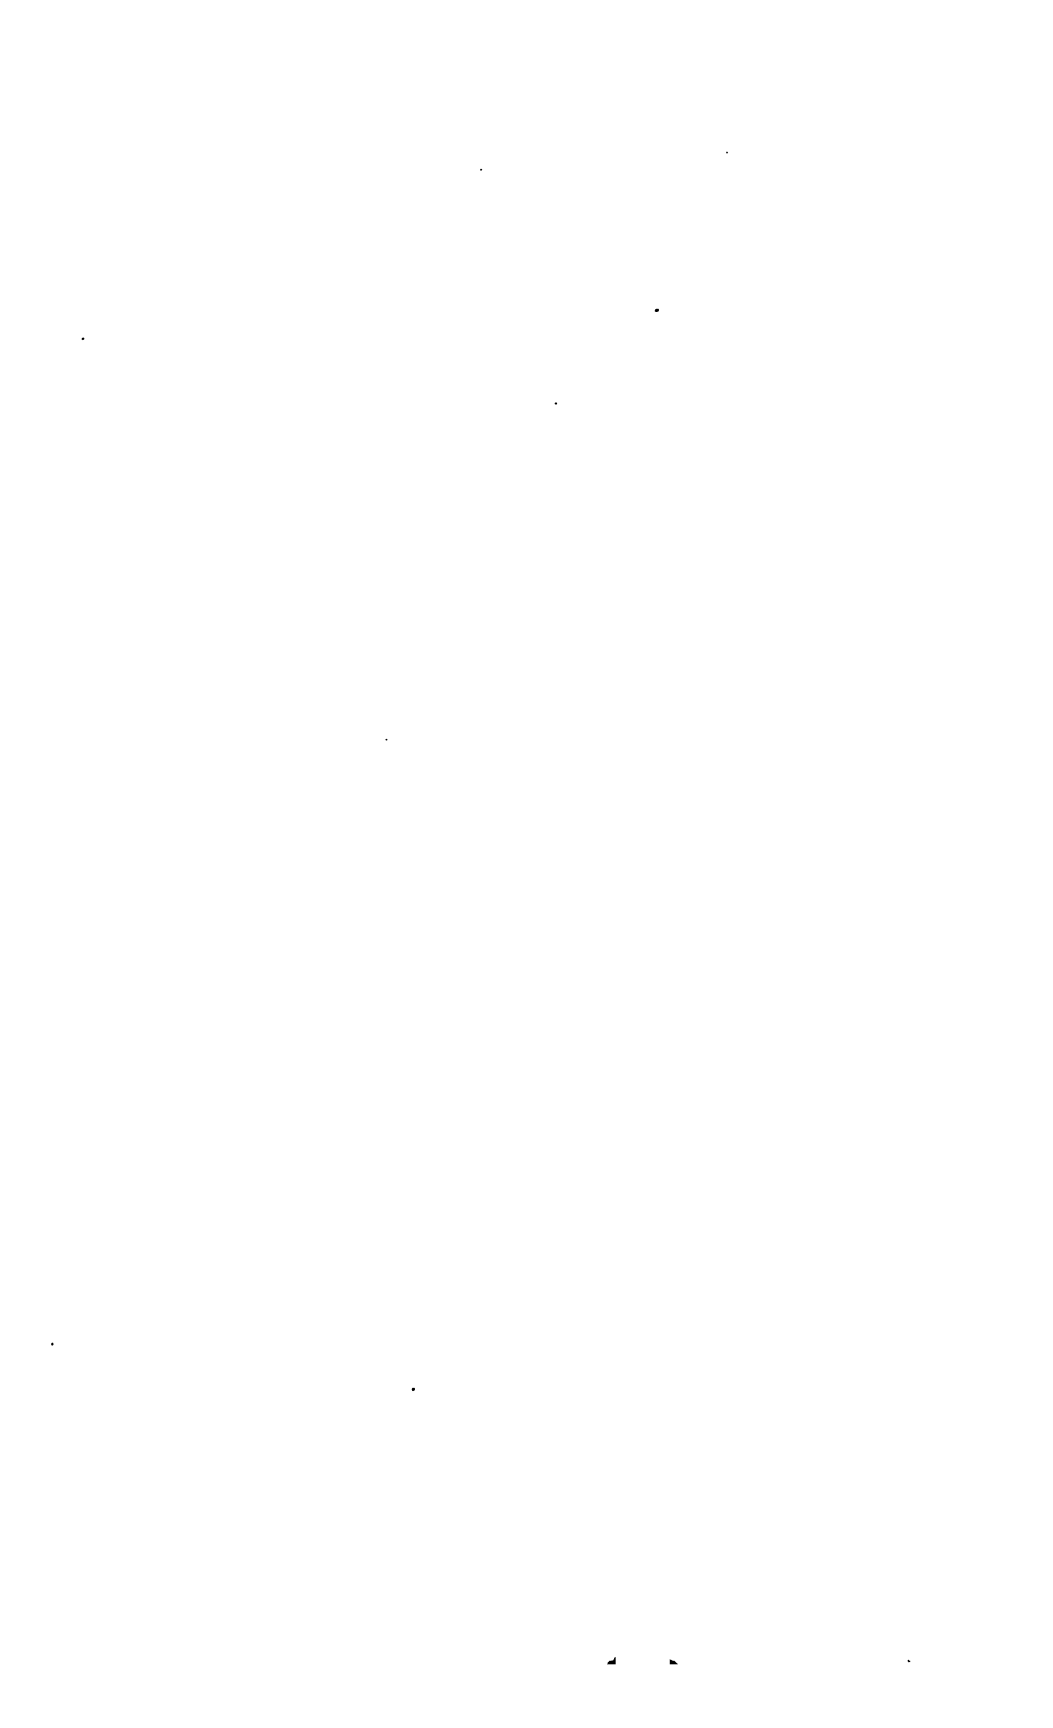

CONSTRUCTION OF THE RIVER WALL

Designed by the Engineer-in-Chief,

GEORGE S. GREENE, ESQ., JUN'R.,

AND

In Progress of Erection on the Water-front since 1876.

REPORT.

To the Commissioners of the

Department of Docks of the City of New York.

GENTLEMEN:

Agreeably to the instructions of your letter of September 14, 1881, and your personal explanations in the interview of the 23d of the same month, we have made "a thorough investigation of the manner of constructing the wall now being erected by the Department," and, as pertinent to your inquiries, an examination of the walls already built by the Department on the same general plan.

We have seen the manner in which the concrete blocks were made, the class of materials used, the proportions in which the cement, sand and broken stone were mixed, their deposit in the boxes, and the manner in which the manipulation was conducted, and have tested the absorption of salt water by the concrete.

At Twenty-fourth street, North river, where the wall is now in progress, we have observed the process of dredging, piling, ballasting, laying the concrete blocks, rip-rapping and back-filling, and we understand the dimensions, quantities and character of material used, and the order of construction. We have been furnished by your Engineer with full plans and details of this work, with profiles of soundings and detailed items of cost.

And we have received, on our request, like plans and drawings of the old work, together with profiles and plans showing the present position of these walls, and what is their deviation vertically and later-

ally from the lines by which they were constructed. We have examined these displacements in the work, and find them to be, in general, very slight; none more than might be expected in so large a work, on a bed of soft, yielding material. Between Piers 41 and 42, where the deviation from old lines is the greatest, and where at one time a vertical crack was apparent, we set *batirs* on the face of the wall, and found that there was a movement of the wall forward bodily, without revolution or overturning.

We find the same facts obtain on the wall between Piers 42 and 43, but in a less degree. The piles on which the piers are built have been carefully examined from time to time, at long intervals, by the direction of your Engineer, and no movement has been found in them.

In the above-named places, where the displacements are the greatest, there is nothing to impair, or evidence of a tendency to impair, the stability of the wall. Nor is there anything that would show movement without critical observation.

At Twenty-fourth street, we have had an experiment made on the laying of the cement mattress on the top of the piles, and a concrete block upon the mattress. To make the conditions as near as possible to those in actual use, and yet so that we could observe the operations and examine ourselves the mattress in position, the usual number of piles for the support of a block were cut off at the time of high water, but only to the level of low water, instead of at the usual depth. At high water, November 17, a diver, blindfolded, laid a mattress in the usual way upon these piles, under our own observation, and a concrete block was set on the mattress. On December 3, at very low tide, we had the concrete block removed, and examined the condition of the mattress. The result was very satisfactory. It proved that the weight of the block could thus be distributed well on the piles, and that the mattress supplied a suitable cup-capping to the same.

We consider this form of capping effective and economical. Of course, its security depends largely upon the diver, but the same ob-

tains with any kind of platform thus laid. It requires that discrimination should be made in the selection of men, and careful supervision by the engineers in charge.

The depth of the mud at Twenty-fourth street and neighborhood is much greater than at any place where a wall has hitherto been built.

Practically, hard bottom is too deep to be reached by piles, and their sustaining power depends almost entirely on the friction of the mud on their sides, or the skin resistance.

Preparatory to beginning this work your Engineer made some experiments on the tenacity of the mud, and had three experimental piles driven into the mud simply; a platform was placed upon them, and loaded successively up to about seventeen tons per pile. The results of these experiments were shown to us, but it seemed better that experiments should be made on piles in the work which had been driven through the usual layer of small stone, and which had also been ballasted with them.

Another platform was therefore made, resting on three piles in the work, and a load of nearly seventy tons placed upon it, about equally distributed at first on the three piles. Subsequent compression of one of the timbers of the platform varied this somewhat. This was completed November 14, and levels were taken on the piles supporting the platform, and on some contiguous thereto, at intervals of a few days. Levels were also thus taken, of the top of the wall in the rear of the pier, and, lately, of piles which were only ballasted, but not quite up to the full load, remote from the pier and the loaded platform. The results were, that the loaded piles sank at first somewhat faster than the unloaded piles that were contiguous, but the difference was trifling.

At present date, there is still some minute settlement, but it is nearly the same for the whole, viz.: the pier, the loaded piles, and the unloaded ones, both near and remote.

Our attention was called by one of your Board to the timbers of the platform in the rear of the wall. From our examination of the timber structures situated at about the same level and under the same con-

dition along the dock front, and from our previous experience in like work, we are satisfied that the platform and its timbers will not be injured by rot or by the *teredo*.

In our previous Report of 1876, to a former Board, we recommended additions of rear platforms to the walls then constructed at Canal and King streets, and the substitution of concrete blocks, constructed in air, and then submerged in the work, for the concrete in mass made *in situ*, and suggested a form of wall on the piles already driven.

Our recommendations were acted on, and your Engineer has designed the present form of concrete block, which secures equal stability with the one we suggested and at less cost. We did not expect that the wall would continue without settlement or delignment, and in reviewing the work, we are satisfied with our recommendation, and that so much stability was secured at so moderate cost.

The conditions obtaining on the present work are somewhat different, as we have already said, from those upon the old work, but from our experience and late observations on the latter, and from the investigations on the work now in progress, we feel prepared to answer the questions of your letter of September 14.

1st Query. Is the wall now being constructed the most desirable one for all the interests of the city for the sections of water-front under improvement?

In answer, we would say that this wall, taken as a whole, is the result of practical growth from the first inception of the work. It combines, in a suitable measure, the necessary elements of strength, endurance and stability; it is ample in its dimensions, has a liberal factor of safety, is not difficult of construction, and appears thus far to have been well and faithfully built. We do not therefore recommend, as necessary, any essential changes of plan, but there are certain modifications which we do recommend, and which will be found in detail in answer to your second query.

2d Query. If it is not, what changes in its construction should be made to make it so ?

In answer, we are of the opinion that the concrete used in the blocks, as well as that formed *in situ* as backing, is unnecessarily rich in Portland cement, and that the best varieties of natural cement would answer very well for this concrete.

If natural cement be used, the proportions to be as follows :

Cement, 1.	}	For the base of the blocks up to the height of one foot above the chain hole.
Sand, 2.		
Broken stone, 5.		

Cement, 1.	}	For the balance of the concrete block and the backing.
Sand, 3.		
Broken stone, 6.		

If Portland cement be used, the proportions may be :

Cement, 1.	}	For the base of block to height above indicated.
Sand, 2½.		
Broken stone, 6.		

Cement, 1.	}	For balance of block and backing.
Sand, 3.		
Broken stone, 7.		

We also recommend the use of a machine for mixing the concrete, whatever kind of cement be used, and that the blocks be kept, before they are put in the wall, at least sixty days, shaded from the direct action of the sun.

The rip-rap in front of the wall covers the head of the piles to about the depth of 2 feet; whilst in this condition it is ample protection for the piles from the *teredo*; but should the dredging of the slips be carelessly done, and the excavation carried into the rip-rap, it will settle away from the walls, and the piles will be denuded, and this may obtain from settlement of the rip-rap without dredging, from the action of the screws of steamships or other causes; and if the piles be exposed, they might soon be destroyed by the worm. To obviate this, we recommend that the base of the concrete block be established at a

level of 17 feet below mean low water mark, that is, adding 1 foot 9 inches to the depth of the bottom of this block, preserving the same curve of outer face, and the vertical rear; the position, as well as the bulk of the rip-rap, being kept as at present.

The thickness and weight of the revetment wall, increased by the expedient of your Engineer, by the inexpensive filling of cobble stones between the piles, and forming a part of the wall, afford considerable resistance to the earth-thrust of the back-filling.

The rip-rap is also indispensable to prevent the heeling of the mass outwards around a lower point, and in this office the bracing piles also lend their assistance. The weight of the wall is directly supported by the skin resistance of the piles, and by the mass of cobble stones resting upon the mud. Contributing in considerable measure to this, the rip-rap extends the bearing surface on each side of the wall, and acts as braces to prevent overturn or settlement.

The whole mass resting thus upon a yielding foundation, and to be regarded, in some sense as floating upon it, will, it is thought, be subject to settlement, but not considerable, and experience has shown that the whole mass will substantially settle together, with little variation, and the front of the revetment will retain its *batir*.

With walls thus supported on mud, it is always desirable to establish as great a symmetry of mass as the other conditions imposed on the structure will admit, in order that the settlement, if any, should take place without tilting.

In this view, we would recommend that the rip-rap on each side of the wall should be in nearly equal masses. Some excess may be given to the portion in the rear of the wall, as the extra thrust may be met by the inclined piles.

We recommend that the ballasting with small cobble stones, the placing of the concrete block, and rip-rap work, be completed as much in advance of the other work as possible, in order that settlement may take place before the wall is completed.

For back-filling, under these circumstances, any material will

answer ; sweepings of streets, collections from houses, ashes, garbage beneath the water, and even dredgings, if not in a liquid state, and all done slowly, working from wall toward shore.

We recommend that where no wall has yet been commenced, and where it will not interfere with wharfage, an experiment be made of filling in broadly on the line of the wall before doing anything else, as by this means the soft mud will be forced out, or in some degree consolidated by its mixture with firmer material.

The present cross-section of the wall, as designed by your Engineer-in-Chief, we regard as founded on correct principles of stability and economy, and the modifications we suggest seem to us to improve it without changing the ideas characteristic of the plan.

Respectfully submitted,

(Signed)

JOHN NEWTON,
Q. A. GILLMORE,
WM. E. WORTHEN.

REPORT
OF THE
ENGINEER-IN-CHIEF.

DEPARTMENT OF DOCKS.

117 AND 119 DUANE STREET.

OFFICE OF THE ENGINEER-IN-CHIEF,

NEW YORK, 1st May, 1882.

To the Board of Docks:

GENTLEMEN,—I have the honor to submit for your consideration the following report of the several works under my supervision during the year ending April 30, 1882:

NORTH RIVER.

Sections South of Canal Street.

BATTERY SECTION.—Embracing the Boat Landing, Pier New 1, North River, and about 80 feet of Bulkhead north of Pier New 1.

Some repairs have been made to the Boat Landing, and repairs have been made to the fender piles upon the pier.

The Iron Steamboat Company have completed the shed upon Pier New 1, and the pier has been used for both passenger and freight traffic during the year.

Specifications for paving the area of the newly-made land at this section have been prepared and submitted to the Board (April 17, 1882).

The pavement will be of granite blocks, laid on prepared bed of sand, with joints between the blocks filled with paving cement obtained from the direct distillation of coal tar.

CHAMBERS STREET SECTION.—Extending from the north side of Pier Old 29 to 91.70 feet north of the north side of Pier New 21, a distance of 651.70 feet.

Length of piling to date.....	607.50 feet.
“ base blocks to date.....	603.42 “
“ “E” course of granite for the year, 76.39 feet;	
to date.....	569.64 “
Equivalent length of completed wall for the year, 00.00;	
to date.....	589.40 “

The wall and brick sewer through it has been entirely completed, and the filling behind the wall has been finished, and the coping between Piers New 20 and New 21 has been set. Temporary plank approaches have been built over the filling to Pier New 21 and the bulkhead between Piers New 21 and 22. A freight shed has been built by the New York, Lake Erie and Western Railroad Company on the bulkhead between Piers New 20 and 21.

PIER NEW 21.—This pier has been completed, and a shed built upon it by the New York, Lake Erie and Western Railroad Company.

The whole section of 560 feet in length, with ferry slip and Piers New 20 and 21, has been in full use by its lessee, the New York, Lake Erie and Western Railroad Company, since last August.

NORTH MOORE STREET SECTION.— Extending from a point 21 feet south of the south side of Pier New 26, North River, to a point half-way between North Moore street and Franklin street, a distance of about 340 feet.

Dredging for this year.....	190.00 feet;	to date, 190.00 feet.
Stone filling “ “	160.00 “ “	160.00 “
Equivalent length of completed wall.....	“ “	34.66 “

Work was begun upon this section by dredging and placing of stone filling, but was stopped by injunction from United States Circuit Court on the 7th July last.

Plans were made for Pier New 25, to be built on this section, but the

contract has not been made, because the site of the pier is in part included in the injunction.

BEACH STREET SECTION.—Extending from 21 feet south of the south side of Pier New 26 to 95 feet north of the north side of Pier New 26, a distance of 196 feet.

Length of piling.....	to date, 172.00 feet.
“ of base blocks	“ “ 168.83 “
“ of “E” course of granite.....	“ “ 121.02 “
Equivalent length of completed wall for the year, 00.	“ “ 167.90 “

The inner end of Pier Old 37 has been removed by the contractors for building Pier New 36. Some filling has been received, plank roadway to pier maintained, and some minor pieces of work done.

Pier New 36.—The shed upon this pier has been entirely completed, and the Old Dominion Steamship Company has been in occupation during the entire year. The dredging of the slips on both sides of the pier has been entirely completed.

LAIGHT STREET SECTION.—Extending from 95 feet north of the north side of Pier New 26, North River, to the southerly side of Pier Old 39, a distance of about 500 feet.

Length of piling for the year.....	118.30 feet; to date, 135.70 feet.
“ “ base blocks for the year, 132.70 “	“ “ 132.70 “
“ “ “E” course of granite for the year.....	81.41 “ “ 81.41 “
Equivalent length of completed wall for the year.....	79.44 “ “ 135.64 “

The wall, for the width of Pier New 28, has been completed on this section and filling placed behind it to the old bulkhead. The building of the wall further to the northward was stopped by injunction of United States Circuit Court on the 11th March last.

Pier New 28 has been built by Mr. John Gillies, contractor, and is ready for occupation by the lessees, with exception of mooring cleats. This pier is 75 feet wide by 542 feet 6 inches long.

This pier and approach to it being ready for use, the dredging for the wall and building of the same to the southward of the pier will proceed as soon as the lessees (the Pennsylvania Railroad Company) can move their freight business to the new pier. The dredging will include the removal of the foundation of the "Old Red Fort," part of which was removed for Pier New 28.

Sections North of Canal Street.

The sections north of Canal Street on which the bulkhead or river wall has been completed are as follows:

SECTION.	Length on "E" or top course of Granite, under Coping.	Equivalent Length of Completed Wall.
Canal Street Section.....	334.95	373.89
Spring " "	139.92	139.92
Charlton " "	406.74	406.74
New King Street Section.....	148.41	148.41
Old King " "	114.49	114.49
Lower Clarkson Street Section.....	152.91	152.91
Houston " "	109.89	109.89
Upper Clarkson " "	102.51	102.51
Leroy " "	561.46	561.46
Morton " "	151.33	151.33
Christopher " "	1,095.22	1,111.51
Total length.....	3,317.83	3,373.06

No work except pointing of joints has been done upon the wall on these sections. The plank roads across the filling behind the wall have been kept in order and some little filling has been received.

The Bureau of Sewers have about completed the marginal sewer from Spring street to West Tenth street, and specifications for paving all of the newly-made land are being prepared.

The Hudson River Tunnel Company have sunk a caisson in rear of the wall near Pier New 42 and have begun the tunnel to the westward.

PIERS NEW NUMBER 34 TO NEW NUMBER 47, INCLUSIVE.

With the exception of Piers New 37 and New 41, all the piers from New Number 34 to New Number 47 have been completed in past years and are in use.

PIER NEW NUMBER 35.—This pier for about 434 feet of its inner end is of old work. The pier was lengthened, with new material, in 1877, about 161 feet on its outer end. The existing lease expires on May, 1883, and it will then be advisable to rebuild all the old work in the pier.

PIER NEW NUMBER 37.—Upon completion of shed on Pier New Number 36, the Inman Steamship Company moved from Pier New Number 37 to Pier New Number 36.

A contract for removing all of the existing pier, which consisted of about 448 feet in length of old work, and of about 140 feet in length of work of an extension to the old pier, made in 1877, and of building an entirely new pier, was made with Mr. John Gillies on the 23d February, 1882.

All of the old work to be removed under the contract has been removed, the dredging on the site of the pier nearly completed, and the work of building the new pier begun. It will probably be completed and ready for use on the 9th of August, 1882, the time required by the contract.

In the contract for this pier it was provided that certain portions of the timber should be treated for its preservation either by what is called the "Thilmany process," by which the wood is impregnated with zinc and baryta, or by "*creosoting*," by which it is impregnated with "*dead oil*" or creosote, at the choice of the contractor. Mr. Gillies selected the creosoting process, and the creosoting is being done by Messrs. Eppinger & Russell, of Brooklyn.

The portions of the timber in the pier that are to be creosoted are principally those which are more exposed to decay than to wear, and which are more difficult to reach when necessary to repair. They are specified in the contract as follows:

"41. The following timber is to be treated for its preservation as provided for in Article number 40 of these specifications, namely, all side caps, cross caps for piles and columns, sill on bulkhead, short girders at inner end of pier, double girders at outer end of pier, interior girders over piles and their fish-plates, side girders, filling pieces between side caps and side girders, mooring post supports and oak planking, all chocks on bulkhead sill, on fifty-sixth row of piles, and on first and sixth or outer rows of columns, all 4-inch decking and 4-inch filling pieces between the streaks of 4-inch decking, and the vertical oak fenders."

And those not to be creosoted, as follows:

"42. The following timber and materials are not to be treated for their preservation, namely, all the piles, column timbers, buffer timber, small mooring post timbers, planking of columns, vertical planking at outer end of pier, column chocks and cleats at low water, chocks between fenders, wedges on heads of bracing piles, under girders, and on bulkhead wall, horizontal and 'A' braces on piles, and the fish-plates for horizontal braces, the 3-inch decking and the backing logs."

The result of this treatment of the timber will probably afford use-

ful data as to the value of the creosoting of timber in the piers, a question which increases in importance every year, as timber is gradually growing scarcer and more costly.

PIER NEW 40.—On the 24th February last I was directed to supervise the removal of the portion of the Central Railroad of New Jersey platform and shed described in my last annual report as remaining on the north side of Pier New 40, and unless the same was removed within thirty days from the date of the order, by the Cunard Steamship Company, to remove it with the force of the Department.

The Superior Court having enjoined the removal of this platform and shed it still remains.

Dredging to depth of 25 feet at mean low water on north side of the pier has been completed.

PIER NEW 41.—This pier has been completed and is in use, and the lessees are building a shed upon it, which is well advanced toward completion.

WEST NINETEENTH STREET.—A pier 60 feet wide by 305 feet long, with a dumping board on its southerly side for the use of the Department of Street Cleaning, has been built at the foot of West Nineteenth street by Mr. John Gillies, contractor. The pier was finished October 27th, 1881.

WEST TWENTY-FIRST STREET.—The old dumping board at the foot of West Twenty-first street has been removed (the Department of Street Cleaning having moved to the new dump on the pier at the foot of West Nineteenth street), and a new pier, 60 feet wide by 463 feet 7 inches long, built by Messrs. T. & A. Walsh, contractors.

The pier was finished on January 30th, 1882.

WEST TWENTY-THIRD STREET SECTION.—Extending from Twenty-third street to Thirtieth street, North River.

Work has proceeded on this section, and the following done:

Length of piling for the year....	953.00 feet; to date, 968.00 feet.
“ base blocks for the year...	699.02 “ “ 771.88 “
“ “ E ” course of granite for the year.....	267.52 “ “ 267.52 “
Approximate equivalent length of com- pleted wall for the year.....	483.00 “ “ 624.00 “

In order to have the new piers on the section ready for use as soon as possible, the building of the wall between the north and south side lines of each of the piers has been pushed. The wall against which Pier New 54 abuts was completed on 21st September, 1881. That for Pier New 55, on 6th March, 1882. That for Pier New 56, on 24th April, 1882. That for Pier New 57 will be ready for the completion of the pier on or about 25th of June next.

The dredging for wall between Twenty-third and Twenty-fourth streets and for Pier New 53 was begun, and some stone filling was put in on wall site between said streets; but all work on this section south of Twenty-fourth street was stopped by an injunction from United States Circuit Court on 29th December, 1881.

The work has also been suspended between Pier New 55 and New 56 by another injunction from United States Circuit Court, causing work to be stopped between middle of block between Twenty-fifth and Twenty-sixth streets and the middle of Twenty-sixth street, on the 14th January, 1882.

Under orders of the Board, the Commission of Engineers appointed by resolution of Board of Docks of 9th September, 1881, were furnished with all information they desired, and such experiments and tests as they desired were made under their direction and supervision.

The piers ordered to be built on this section are Piers New 53, 54, 55, 56 and 57.

PIER NEW 53 has not been built on account of the injunction of 29th December above mentioned.

PIER NEW 54.—This pier, 80 feet wide, by 512 feet long, was completed by John Gillies, contractor, on 7th November, 1881.

A single storied shed has been built upon it by the lessees, Funch, Edye & Co.

PIER NEW 55.—This pier is same size as New 54, and was completed by Holmes Brothers, contractors, on 6th April, 1882.

A two storied shed is nearly completed on the pier, built by the lessees, Messrs. Pim, Forwood & Co., of the "Atlas line."

PIER NEW 56.—This pier is also of same size as Pier New 54. It has been built by Ross & Sanford, contractors, and is nearly completed.

A single storied shed is building on the pier by the lessees, Messrs. Simpson & Spence, and is well advanced toward completion.

PIER NEW 57.—This pier is also of same dimensions as Pier New 54, and others above mentioned on this section. All but the inner 100 feet of it have been completed by Ross & Sanford, contractors. As soon as the granite is set on the wall in rear of it, this inner 100 feet will be built and will probably be completed about the middle of July.

This pier has been intended for general use of the public, and as such it has no shed upon it.

The granite of the wall will be set between Piers New 56 and 57 as soon as that is completed for rear of Pier New 57, and the platform of the wall loaded with filling, and approach to Pier New 57 made thereby from foot of West Twenty-sixth street.

No work of construction has been done on this section north of the wall in rear of Pier New No. 57.

In expectation of going on with the construction of the wall north of Pier 57, the filling of the area east of the line of the wall between Twenty-seventh and Twenty-eighth streets has been begun, and to date 25,830 loads of earth, etc., have been received.

FIFTY-EIGHTH STREET, NORTH RIVER.—A new pier, 306½ feet long by 60 feet wide, has been built by Mr Joseph Walsh, contractor. This pier is situated within the lines laid down on the "new plan," and is leased to the Union Stock Yard and Market Company.

SIXTY-FIFTH STREET TO SEVENTY-SECOND STREET, NORTH RIVER.—The wooden bulkhead, building last year by the New York Central and Hudson River Railroad Company, has been completed, and the filling placed behind it.

NINETY-SIXTH STREET, NORTH RIVER.—The pier at this place was a small platform remaining after the larger part of the pier was carried away by the ice in 1875. This pier was repaired and extended by T. & A. Walsh, contractors. Its dimensions are now 165 feet long by 60 feet wide, and with the hope of maintaining it against the ice, its outer end consists of a block of strong crib work, filled with stone, 60 feet by 60 feet square at top, and about 65 feet high.

EAST RIVER.

On the East River no work has been done upon the new plan, but several of the old piers have been thoroughly repaired by contract.

Among them may be noted the following, which have been put in a condition nearly, if not quite, equal to that of new piers :

Pier Number 12.

Pier Number 21.

Pier Number 38.

Pier at foot of East Seventy-ninth street.

COENTIES SLIP.—A crib work bulkhead has been built across Coenties Slip, by Mr. Warren Roosevelt, contractor, making South street continuous, and the filling in of the slip behind the bulkhead begun.

NORTH BROTHER ISLAND.—A small pier for the use of the Health Department has been built on the north side of the North Brother Island, by Mahoney Brothers, contractors. It consists of a pier head 30 feet by 70 feet, of crib work, which is connected with the shore by a platform on piles 20 feet wide by 220 feet long. The pier is practically finished, though all the details of the specifications are not yet completed.

Plans and specifications for building a section of the bulkhead or river wall from south side of East Twenty-sixth street to north side of East Twenty-eighth street, are being prepared and will shortly be submitted to the Board.

GENERAL REPAIRS.—Under this head the expenditures and work during the past year have been unusually large, and the result is very apparent on the water front.

In the appendix will be found a detailed statement of contracts and other work.

FLOATING PROPERTY.—The floating property of the Department consists of the following :

100-ton derrick "City of New York."

10-ton derrick.

Tug "Manhattan."

Derrick scow "Joe."

2 dredges, Nos. 3 and 4.

12 dredging-machine mud-scows, Nos. 1 to 12.

10 pile-drivers, Nos. 1, 2, 3, 5, 6, 7, 8, 9, 10 and 11.

8 deck-scows, "B," "C," "D," "E," "F," "May," "Jim" and "Willie."

Boring machine "Woodcock."

2 diver's scows.

11 yawl boats, 2 skiffs and 2 bateaux.

THE 100-TON DERRICK "CITY OF NEW YORK" is now in good order, with the exception of some repairs that will soon be made to the deck underneath the boiler. During the past year the derrick has set 69 concrete base blocks in the Bulkhead Wall; hoisted out and lowered the small diver's scow; lifted ways on scow "Jim;" righted one over-turned scow (Sept. 21) for the Department of Street Cleaning; set 2 concrete base blocks on the piling in the vicinity of Pier New 54, North River, for tests made by Messrs. Newton, Gillmore and Worthen, in their examination of the Bulkhead Wall, and lifted them; righted the scow "Willie" (Nov. 26); hired to Cobanks and Theall, February 13th to 20th; hoisted out pile driver No. 8, and shifted granite, &c., at East Seventeenth street yard. The tower was repaired and painted, the capstan gear repaired, boiler overhauled and the deck repaired and calked.

THE 10-TON DERRICK has set 401 pieces of granite in the Bulkhead Wall, and pumped out scow "Willie." The "A" frame was repaired, a new tank fitted, the deck was repaired and calked, and new wearing pieces put on.

THE TUG "MANHATTAN" has done all the towing required by the Department, except during the periods from June 23d to June 28th, from August 13th to August 23d, and from April 3d to April 14th, when she was laid up for repairs. June 23d to June 28th she was docked, calked, painted, and fitted with a new rudder stock. The steering gear was repaired. August 13th to August 23d she was laid up for repairs and for inspection by the United States authorities.

April 3d to April 14th she was laid up for repairs to boiler and machinery, and a new grating was made for wheel house, deck was scraped and braced up, the bulwarks and deck around smoke stack were repaired, iron beams were set, the cylinder was bored out, cushions were upholstered, pilot house, etc., were painted.

THE DERRICK SCOW "JOE" was docked, calked, and the deck re-

paired, and was used for the purpose of carrying plank to the several jobs of repairs to piers and bulkheads on the East and North Rivers.

DREDGES Nos. 3 AND 4.—These dredges have remained in the possession of the Union Dredging Company.

THE TWELVE DREDGING-MACHINE MUD-SCOWS have all continued in the hands of the Union Dredging Company. They have all been kept in serviceable condition.

THE EIGHT DECK SCOWS, "B," "C," "D," "E," "F," "MAY," "WILLIE" AND "JIM," are all in good serviceable condition, having been repaired and painted.

The deck, sides and ends of scows "C" and "D" were calked and repaired; the scow "Jim" fitted with ways for driving bracing piles, was set at work, and the ways were repaired.

The "MAY" and "E" were docked in November, and calked, repaired and painted.

DECK SCOWS.—The "Willie," sunk at Laight street on the night of November 15, and since then has been docked, calked and repaired, and a new deck of 3-inch North Carolina yellow pine has been put in her.

THE PILE-DRIVERS, Nos. 1, 2, 3, 5, 6, 7, 8, 9, 10 and 11, are all in good working order. No. 1 had clutch, steam pipes, engine house, smoke stack, repaired and house painted. No. 2 had house and roof repaired, painted, &c. No. 3 was fitted with new head and tubes, had house, hood and block repaired and ways lettered, and was loaned to Holmes Bros. from February 8th to 11th, and returned by them slightly damaged. No. 5 (the pile cutting machine) cut 1,948 piles in the Bulkhead Wall, and was fitted with new grate bars, and had shaft lengthened for the purpose of removing mud from wall foundation by stirring. No. 6

was fitted with a new steel pinion, new boiler tubes, and was in the possession of Holmes Bros. from May 31st to July 2d. No. 7 had its sides and ends calked, and repaired engine, boiler house, roof, deck and ways, and was in the possession of Holmes Bros. from May 25 to June 1, October 20 to November 18, and from December 14 to 31. No. 8 was lifted out, had bottom calked and repaired deck ways, engine and steam pipes, and painted. No. 9 had engine, boiler, inside of house and roof repaired and painted. Nos. 10 and 11 were fitted with windlasses and chocks, and had ways repaired. No. 11 was completed and set at work. (Nos. 10 and 11 are the new pile drivers referred to in last Annual Report.) The landways for pile driving were in possession of Holmes Bros. from October 1st to 27th.

THE BORING MACHINE "WOODDOCK" was returned May 17th by the New York, Ontario and Western Railroad Co., and was in the possession of Department of Public Works from August 9 to November 16, and was repaired, painted and fitted up for use.

OF THE TWO DIVER'S SCOWS, one, the smaller, is in good condition, but the larger and older one is in bad order, and a new one should be built speedily.

THE ELEVEN YAWL BOATS are in fair order; two are in possession of the Union Dredging Co.

THE TWO SKIFFS were built for use at West Twenty-third street section.

THE TWO BATEAUX were built for use with the pile drivers.

SURVEYING PARTY.—Base lines and bench marks have been verified from time to time in connection with the construction of the Bulkhead Wall and of Piers at the different sections on the North River, and from them lines and levels have been given during the progress of

the work. Lines and levels have also been given for contract work on general repairs.

The quantities of sand, broken stone for concrete, rip-rap stone, and cobble stone, delivered at the various sections, have been measured, calculated and receipts given for the same.

Surveys and examinations have been made over 24,256 linear feet of water front.

These surveys have been plotted and put on file in this office, and tracings have been prepared therefrom.

409 rod soundings to ascertain depth of soft mud have been taken, of which 203 were on the North River, and 206 on the East River, 41,787 disc soundings to ascertain depth of water have been taken on the North, East and Harlem Rivers, in 280 slips, of which 12,154 were for construction, and 29,633 for general repairs, examinations, etc., taken before and after dredging, all of which have been reduced, plotted and are on record in this office.

The measurements of dredging have been made and account of the same kept, and the dumping of dredged material supervised.

GANSEVOORT STREET YARD.—Forty-two concrete base blocks have been made at this yard during the year. There have been received 4,050 barrels of cement, and samples of each lot have been tested. All the iron and blacksmith work for the Department has been done here, and small articles have been issued from the store-house as required.

EAST SEVENTEENTH STREET YARD.—The principal work at this yard has been the receiving, storing and issuing of granite delivered by the contractor, and the receiving and storing of cement. Some slight repairs to the derrick have been made, and also to hoisting engine. The Police Department has used the bulkhead for its scows, also some other parts of the yard.

I submit herewith an appendix, containing

A summary of the work done at each section and at the Department Yards.

A list of general repairs made by contract.

A list of items of general repairs made otherwise than by contract.

A statement in detail of dredging done.

A statement of stock on hand, purchased and issued at Gansevoort Street Yard.

A statement of granite, etc., on hand, received and issued from East Seventeenth Street Yard.

A schedule of items of work done by private parties under permit from Board of Docks, and under my general supervision.

Very respectfully,

Your obedient servant,

G. S. GREENE, JR.,

Engineer-in-Chief.

APPENDIX.

SUMMARY OF JOURNAL OF THE WORK FOR THE YEAR ENDING APRIL 30TH, 1882.

NORTH RIVER WATER FRONT.

Work of Construction under the New Plan, South of Canal Street.

BATTERY SECTION.

PIER NEW 1.

1881.

May 5th to 7th.—Diver took up specimens of wood put under water May 4th, 1878, to show action of the *teredo*.

October 18th to 26th.—Got out and placed eight oak fender piles.

December 9th to 13th.—Repaired approach to pier under Secretary's order 2,171.

1882.

March 3d to 15th.—Repaired approach to pier under Secretary's order 2,322.

April 26th to 28th.—Diver took up specimens of wood put under water May 4th, 1878, to show action of the *teredo*.

BOAT LANDING.

1881.

October 10th to 17th.—Drilled holes for, and placed four galvanized iron ring bolts.

December 6th to 9th.—Repaired the grating.

CHAMBERS STREET SECTION.

BULKHEAD WALL.

Masonry.

1881.

May 2d to 13th.—Force with the 10-ton derrick set 44 pieces of granite (finished for present length of section), also handled concrete backing.

Masons cut and set granite.

Laborers mixed and deposited 202½ batches of concrete backing.

Carpenters repaired and placed mould boards. Made straight edges, and worked on sewer for Pier New 21.

May 12th to June 13th.—Masons pointed wall and laid brick for permanent sewer.

Carpenters made templets for and assisted on the permanent sewer.

Laborers mixed and placed 39½ batches of concrete around same.

June 13th to July 7th.—Force with the 10-ton derrick set 25 pieces of coping stone between Piers New 20 and 21.

Masons cut, set and pointed same.

PIER NEW 21.

1881.

May 2d to 24th.—Contractors' (Ross & Sanford) force finished the inner 100 feet of pier.

June 23d to August 2d.—The Union Dredging Company removed 13,964 cubic yards of mud from slip north side of pier, and 16,787 cubic yards of mud from slip on south side, which finished the dredging for the slips on each side of the pier; total removed, 23,153 cubic yards mud from the slip on the south side, and 13,964 cubic yards mud from the slip on the north side. Total from both, 37,117 cubic yards.

December 14th to 24th.—Repaired roadway to pier under Secretary's order 2,215.

July 6th to 21st.—Laid out plank roadway.

August 4th to 10th.—Diving party, with assistance of dock builders and pile driver, pulled up and removed 255 old broken and sunken piles over area dredged on the north half of the slip, south side of pier.

May 17th to June 17th.—Force of dock builders constructed temporary sewer.

May 26th to June 7th.—Force tore down old sheds on the bulkhead.

May 26th.—Repaired roadway to Pavonia Ferry.

June 2d to 20th.—Removed old work in rear of wall.

June 8th to 30th.—Repaired temporary sewer.

June 13th to 15th.—Repaired roadway to Pavonia Ferry.

July 26th to December 14th.—Received 4,732 loads of filling in rear of wall, 916 of which were rip-rap and cobble-stone, counted as earth filling. From April 16th, 1881, to date, 43,194 loads.

September 14th to October 8th.—Force tore down and removed old Erie freight shed. Also moved and shored up section office.

September 21st to 23d.—Repaired north roadway to Pavonia Ferry.

September 23d to 25th.—Cut off old standing piles in old wood-work rear of bulkhead wall.

November 28th to February 19th.—Shored up old shed north of office, the piles on which it rested were disturbed by the filling south of it.

NORTH MOORE STREET SECTION.

BULKHEAD WALL.

Dredging.

May 30th to June 19th.—The Union Dredging Company removed 22,033 cubic yards of mud from bulkhead wall.

Stone Filling.

June 23d to July 8th.—John A. Bouker deposited 843 cubic yards of cobble-stone, 280 cubic yards of street cobble, and 603 cubic yards of rip-rap stone for wall foundation.

June 24th to July 8th.—Department laborers deposited 891 cubic yards of cobble-stone, and 245 cubic yards of rip-rap stone for wall foundations; material received on Department scows at the Laight street dump free.

May 30th to June 19th.—The Union Dredging Company removed 1,748 cubic yards of mud from site of Pier New 25.

June 29th.—Drove a cluster of piles to fasten scows to.

July 7th.—Injunction served at 4:30 P. M. by United States Circuit Court, and all work stopped.

BEACH STREET SECTION.

BULKHEAD WALL.

Masonry.

May 2d to 6th.—Masons pointed wall.

PIER NEW 26.

May 2d to 11th.—Contractors' (T. & A. Walsh) force removed the southerly inner end of Pier Old 37, also placed, fastened, and chocked 24 fender piles on the south side of Pier New 26, in accordance with Treasurer's order No. 1,743.

May 10th to 13th.—Department force placed and fastened two fenders on the south side of pier.

May 23d to 26th.—Repaired bulkhead at the inner end of Pier Old 37, under Treasurer's order No. 1,913.

May 23d to January 30th.—The Union Dredging Company removed 14,911 cubic yards of mud from slip north side of pier, and from south side of pier 15,202 cubic yards of mud (to date, from both sides, 30,113 cubic yards of mud) and 400 cubic yards of cribwork (Class 1, A).

November 5th to December 15th.—Repaired roadway to pier, under Treasurer's order No. 2,179.

March 11th to 16th.—Repaired roadway to pier.

July 16th to 22d.—Received 557 loads of earth filling (free cobble) at north end of section.

August 26th.—Drove a cluster of piles at the north end of section to protect the woodwork at this point.

December 27th to April 8th.—Force repaired temporary sewer, under Secretary's order 2,362.

LAIGHT STREET SECTION.

BULKHEAD WALL.

Piling and Woodwork.

May 2d to September 5th.—Drove 419 vertical (broke 6) and 60 bracing piles for bulkhead wall, finished piling for present length of section, regulated and staylathed same, made, placed, and fastened in position 6 binding frames with aid of divers and assistants, also cut off piles by hand, and placed chock underneath ends of caps, where out.

June 1st to July 1st.—Carpenters making saw frames and straight edges.

June 2d to July 24th.—Shored up side of Pier Old 38.

June 9th to July 28th.—Divers with assistants bulkheaded the south end of piling to retain the stone filling, and keyed up binding frames.

July 9th to 22d.—Sawed off with sawing machine 150 piles.

July 11th to 19th.—Diving party located foundation piling.

August 6th to November 22d.—Force during 244 hours' tide work placed and fastened in position 396 lineal feet of longitudinal capping and 43 transverse caps, bored for and drove 451 two-inch and 133 (3-inch) three-inch treenails, sawed off by hand and regulated piles to receive the capping; placed chock pieces underneath ends of caps, and dovetailed pieces on same.

September 2d to 6th.—Removed staylath from piles preparatory to sawing off same with sawing machine.

September 14th to 21st.—Sawed off 168 piles with sawing machine and finished, total sawed off 318, the remainder were cut off by hand.

September 17th to 29th.—Diving party located foundation piles to receive the concrete base blocks, and pointed extra piles.

October 12th to November 15th—Divers with assistants bulkheaded south end of section, to retain the stone filling, keyed up binding frames, and assisted surveyors in measuring joints on the concrete base blocks.

November 28th to January 1st.—Placed and fastened down the four-inch decking in rear of bulkhead wall.

Stone Filling.

May 2d to January 7th.—John A. Bouker's force deposited on wall foundation 1,839 cubic yards of cobble-stone and 4,519 cubic yards of rip-rap stone (to date 6,299 cubic yards of cobble, 3,030 cubic yards of rip-rap, 468 cubic yards of small rip-rap stone, and 110 cubic yards of ballast).

May 2d to January 20th.—Received 3,621 cart loads of cobble stone (free on Department scows), 2,838 of which were transferred to West Twenty-third Street Section. The balance, 783 loads, were deposited at this section.

July 11th to 19th.—Diving party leveled off stone filling between piles.

September 17th to 29th.—Diving party leveled off stone filling over area where the blocks were to be placed.

Masonry.

July 22d to October 1st.—Force with the 100-ton derrick set 11 concrete base blocks, finished for the present length of section, and laborers filled chain holes in same.

November 28th to December 23d.—Force with 10-ton derrick set 94 pieces of granite for bulkhead wall. Also handled concrete for backing up same. Masons cut and set granite, and laborers mixed and deposited 298½ batches of concrete backing. Carpenters made, repaired

and placed mould boards to receive the concrete; also made straight edges and wedges.

February 13th.—Force with 10-ton derrick and masons reset one piece of granite which had been knocked out of place by canal boat December 31st.

PIER NEW 28.

May 23d to November 24th.—The Union Dredging Company removed 24,187 cubic yards of mud for Pier New 28, and from slips either side 11,308 cubic yards of mud. Also removed 7,341 cubic yards of crib work (class 1 A) (to date 34,123 cubic yards of mud for pier, and for slips either side 11,308 cubic yards of mud. Also 7,341 cubic yards crib work, class 1 A).

November 23d to April 16th.—Contractor's (John Gillies) force drove 764 piles, regulated, staylathed, tenoned and capped the same, constructed and drove 24 columns, placed and fastened in position longitudinal girders and braces, sheathed and planked up columns, fastened to place bracing piles and armature plates, placed and fastened vertical fenders, laid the deck planking and fastened column sheathing for the pier. Finished all work as called for under the contract April 15th, 1882.

April 8th.—Pulled up a cluster of piles on south side of pier.

April 11th to 14th.—Constructed temporary roadway to pier.

June 30th to July 8th.—Diving party took up sunken timbers in front of wall piling.

September 2d to 10th.—Removed old work in rear of wall.

November 17th to 26th.—Removed old work in rear of wall, and with assistance of diver took up and redrove a cluster of oak piles that had been disturbed by the dredging.

November 28th to January 1st.—Constructed a dumping platform to dump earth filling from rear of wall.

December 31st to May 1st.—Received 16,167 loads of filling in rear of wall. Received tickets for all except 461 loads received free.

February 16th.—Rafted up lot of old material.

March 3d.—Removed a portion of old dumping platform.

March 9th to 12th.—Drove a row of piles at north end of section to keep canal boats from interfering with the work at this point. Injunction served on foreman March 11th at 4 P. M. and stopped all work.

March 20th to April 8th.—Removed old work in rear of wall and repaired roadway to receive the earth filling.

April 14th to May 1st.—Worked on temporary sewer and removed old work in rear of wall.

*Work of Construction under the New Plan, North of
Canal Street.*

CANAL STREET SECTION.

PIER NEW 34.

August 9th to 12th.—Repaired plank roadway to pier with new 3-inch North Carolina yellow pine.

SPRING STREET SECTION.

March 9th to 11th.—Cut scupper holes in backing log on bulkhead between Piers New 34, 35 and 36.

July 7th to 9th.—Pointed joints of wall north of Pier New 35.

February 22d.—Finished clearing the bulkhead between Piers New 35 and 36.

PIER NEW 35.

September 22d and 23d.—Repaired plank roadway to pier with new 3-inch North Carolina yellow pine.

December 13th.—Took up and relaid part of the plank roadway to pier.

CHARLTON STREET SECTION.

May 26th to June 14th.—Pointed joints of wall in vicinity of Pier New 36.

July 11th to 15th.—Pointed joints of wall in vicinity of Pier New 36.

December 8th to 14th.—Cleared the bulkhead between Piers New 36 and 37.

February 9th to 16th.—Cleared the bulkhead between Piers New 37 and 38.

May 4th to July 9th.—Received 1,798 tickets for filling dumped rear of wall.

August 12th to 15th.—Received three loads of filling rear of wall.

PIER NEW 36.

May 11th to June 7th.—The Union Dredging Company excavated 19,307 cubic yards of mud from slips adjoining pier and finished (total for pier 53,573 cubic yards).

May 7th to 20th.—Placed 12 cast-iron mooring posts on pier.

May 9th to 18th.—Laid a roadway of new 3-inch North Carolina yellow pine plank between Pier New 36 and West street.

March 3d.—Repaired plank roadway to pier.

PIER NEW 37.

December 12th to 27th.—The Union Dredging Company commenced work for the new pier to be built on site of pier (Old No. 45, New No. 37), and took out 25,298 cubic yards of mud from half of the slips adjoining.

March 31st to April 21st.—The Union Dredging Company excavated 29,754 cubic yards of mud (to date, 55,052 yards), and pulled 186 piles from site of pier.

November 4th.—Patched hole in deck of pier.

November 19th.—Patched hole in deck of pier.

February 23d.—Contractor John Gillies commenced removing outer end of pier and finished removing old work of pier April 1st.

April 15th to 29th.—Contractor John Gillies drove 78 vertical piles and completed 8 columns for pier.

April 26th and 27th.—Masons cut seats in wall for side caps of pier.

June 13th to July 13th.—Repaired shed roof on old pier.

November 10th and 11th.—Secured truss on shed of old pier damaged November 9th by the steamer *Plantyn*.

November 29th to December 7th.—Repaired shed on old pier.

NEW KING STREET SECTION.

January 18th to 28th.—Clearing the bulkhead in the vicinity of Pier New 38.

PIER NEW 38.

September 15th to 17th.—Repaired plank roadway to Pier New 38, with new 3-inch North Carolina yellow pine.

February 2d to March 4th.—Laid plank roadway to Pier New 38.

OLD KING STREET SECTION.

March 6th.—Removed earth from bulkhead between Piers New 37 and 38.

March 7th.—Cut scupper holes in backing log between Piers New 37 and 39.

LOWER CLARKSON STREET SECTION.

March 7th.—Cut scupper holes in backing log on bulkhead.

HOUSTON STREET SECTION.

March 3d.—Cut scupper holes in backing log on bulkhead between Piers New 39 and 40.

PIER NEW 39.

August 26th.—Repaired plank roadway to pier with old material.

September 17th to 21st.—Repaired plank roadway to pier with new 3-inch North Carolina yellow pine.

March 6th to 11th.—Repaired plank roadway to pier.

January 17th.—Cleared the bulkhead in the vicinity of Pier New 39.

UPPER CLARKSON STREET SECTION.

May 20th.—Received 22 loads of filling in rear of wall.

LEROY STREET SECTION.

June 6th to 8th.—Pointed joints of wall in vicinity of Pier New 41.

September 12th to 16th.—Placed 3 cleats on the backing log in vicinity of Pier New 41.

December 20th to 24th.—Cleared the bulkhead north of Pier New 41.

January 16th.—Cleared the bulkhead between Piers New 40 and 41.

March 3d and 4th.—Cleared earth from bulkhead between Piers New 41 and 42.

November 30th to December 15th.—Received 118 loads of earth filling in rear of wall.

PIER NEW 40.

May 18th to 20th.—The Union Dredging Company excavated 2,983 cubic yards of mud from slip north side of pier and finished (total 35,654 yards).

May 3d.—Repaired plank roadway to pier.

October 8th to 11th.—Repaired plank roadway to Pier New 40 with old material.

November 30th to December 15th.—Repaired plank roadway to Pier New 40 with new 3-inch North Carolina yellow pine.

PIER NEW 41.

May 2d to August 26th.—Contractor I. Eugene White building Pier New 41, North River. Finished August 26th, 1881.

May 26th to June 2d.—Removed 3 pieces of coping from the bulkhead wall to make way for Pier New 41.

September 14th to 27th.—Laid a plank roadway of new 4-inch North Carolina yellow pine between Pier New 41 and West street.

September 27th to October 15th.—Placed 12 cast-iron mooring posts on Pier New 41.

MORTON STREET SECTION.

March 2d.—Cut scupper holes in backing log on bulkhead between Piers New 41 and 42.

March 2d.—Cleared earth from derrick between Piers New 42 and 43.

June 22d.—Received 56 tickets for filling in rear of wall.

PIER NEW 42.

May 4th.—Finished repairing plank roadway to pier.

November 26th to 30th.—Repaired plank roadway to pier with new 4-inch North Carolina yellow pine.

February 15th to 22d.—Repaired plank roadway to pier.

February 15th to 22d.—Repaired plank roadway for coal carts between Piers New 42 and 43.

CHRISTOPHER STREET SECTION.

February 23d.—Cut scupper holes in backing log on bulkhead between Piers New 44 and 46.

December 31st to January 3d.—Excavated trench for draining the bulkhead between Piers New 42 and 43.

January 12th to 14th.—Cleared the bulkhead south of Pier New 43.

PIER NEW 43.

June 1st.—Refastened cluster of piles on pier.

January 10th.—Refastened the piles on south side and the spring piles on southwest corner of pier.

May 18th to 25th.—Repaired water pipe on pier.

August 31st to September 3d.—Boxed in the water pipe on pier.

October 11th.—Repaired the hydrant on outer end of pier.

January 5th to 9th.—Boxed in the water pipe on pier.

February 2d to 16th.—Repaired water pipe, and made box for hydrant on pier.

June 24th to 27th.—Repaired side of shed on pier run into June 15th by lighter *Annie M.*

February 18th to March 1st.—Repaired gate on pier.

February 18th to March 1st.—Tested hose on pier.

February 18th to March 1st.—Placed tide gauge on pier.

March 14th to 18th.—Built steps for tide gauge on pier.

January 11th to 19th.—Repaired plank roadway to pier with new 3-inch North Carolina yellow pine.

February 10th.—Finished repairing plank roadway to pier.

PIER NEW 44.

April 7th to 26th.—Repaired fenders on outer end of pier.

May 9th to 12th.—Repaired plank roadway to pier.

August 1st to 4th.—Repaired plank roadway to pier with new 3-inch North Carolina yellow pine.

November 21st to 25th.—Repaired plank roadway to pier with new 4-inch North Carolina yellow pine.

March 13th to April 19th.—Repaired plank roadway to pier.

PIER NEW 45.

March 18th to 23d.—Placed and cut off fenders on outer end of pier.

March 24th to April 16th.—Repaired Pier New 45.

November 4th to 19th.—Repaired plank roadway to pier with new 4-inch North Carolina yellow pine.

March 24th to April 16th.—Repaired plank roadway to pier.

PIER NEW 46.

June 24th.—Repaired tin roof of shed on pier.

September 15th to October 7th.—Charles Boettger painted outside of shed, including the roof on Pier New 46.

PIER AT NINETEENTH STREET, NORTH RIVER.

August 8th to October 27th.—Contractor John Gillies excavated 15,760 cubic yards of mud from site of and built a pier 60 x 305 feet 2½ inches, with a dumping board thereon.

PIER AT TWENTY-FIRST STREET, NORTH RIVER.

November 3d to 7th.—Contractors T. and A. Walsh removed old dumping board.

November 7th to 10th.—Excavated 6,433 cubic yards of mud from site of pier.

November 11th to January 27th.—Built a pier 60 x 463 feet 7½ inches, with all its appurtenances.

January 30th.—Pier just occupied.

WEST TWENTY-THIRD STREET SECTION.

BULKHEAD WALL.

Dredging.

May 2d to March 16th.—The Union Dredging Company excavated 48,414 cubic yards of mud (to date, 164,329) from site of bulkhead wall.

July 28th.—Diver examined site of wall, after dredging, at Twenty-seventh street.

September 3d.—Diver examined site of wall, after dredging, between Twenty-fifth and Twenty-sixth streets.

December 12th.—Diver examined site of wall, after dredging, between Twenty-third and Twenty-fourth streets.

Stone Filling.

May 2d.—Diver examined stone filling south of Twenty-fifth street.

May 2d to April 30th.—John A. Bonker placed 12,941 cubic yards of cobbles, 13,899 cubic yards of rip-rap, and 2,426 cubic yards of small street cobbles. John Voorhis placed 115 cubic yards of rip-rap (April 14 to 25), and Department laborers placed 6,811 cubic yards of cobbles (furnished free), 3,272 cubic yards of rip-rap (furnished free), and 589 cubic yards of granite spawls (from East Seventeenth street yard) over site of wall, between the caps and in front and rear of piling, from Twenty-third to Twenty-eighth streets.

December 29th.—The placing of stone filling between Twenty-third and Twenty-fourth streets was stopped by injunction.

The total amount of stone filling placed to date is as follows:

	Cobbles.	Rip-rap.	Street Cobbles.	Ballast.	Spawls.	Cubic Yards.
By Requisition . .	14,960	17,215	2,746	307	35,228
By Department . .	7,471	3,318	589	11,378
	<hr/>	<hr/>	<hr/>	<hr/>	<hr/>	<hr/>
	22,431	20,533	2,746	307	589	46,606

May 7th to 9th.—Bulkheaded the south end of piling, to keep the stone filling in place.

May 13th and 14th.—Drove 7 temporary mooring piles for the stone scows between Twenty-fifth and Twenty-sixth streets.

June 2d.—Diver examined stone filling north of Twenty-sixth street.

July 28th.—Drove 10 temporary mooring piles for the stone scows at Twenty-seventh street.

March 8th to 10th.—Diver, assisted by tug *Manhattan*, with steam

pump and hose, washed mud from wall foundation in vicinity of Twenty-fifth and Twenty-seventh streets.

April 4th to 10th.—Diver, assisted by hired tug *Reindeer*, with steam pump and hose, washed mud from wall foundation rear of Pier New 57.

April 14th to 27th.—Diver, assisted by tug *Manhattan*, with steam pump and hose washed mud from wall foundation rear of Pier New 57 and north of Pier New 56.

April 24th.—Bulkheaded wall, to retain cobbles, south of Piers New 56 and 57. Diver leveling cobbles for foundation blocks.

Piling and Woodwork.

May 4th to April 13th.—Placed 36 binding frames (to date, 42).

May 5th to April 22d.—Cut 1,620 piles (to date, 1,889) with the circular saw.

May 9th to April 21st.—Drove 2,548 vertical (to date, 3,066) and 411 bracing piles (to date, 496).

May 11th to April 21st.—Placed 171 transverse (to date, 185) and 1,705 feet of longitudinal caps (to date, 1,945).

June 25th.—Drove 4 temporary mooring piles for the pile drivers between Twenty-sixth and Twenty-seventh streets.

March 6th.—Diver finished locating foundation piles south of Pier New 55.

April 20th.—Diver finished locating foundation piles between Piers New 56 and 57.

April 26th.—Finished planking rear of wall back of Pier New 56.

Masonry.

May 16th to March 29th.—Set 58 concrete base blocks (to date, 64) and filled chain grooves.

July 28th to April 22d.—Set 307 pieces of granite.

August 2d to April 22d.—Made and placed 1,059 batches of concrete backing.

September 16th to 22d.—Masons pointed joints of wall under Pier New 54.

Filling in Rear of Wall.

May 26th to 31st.—Moved piles and timber inshore at Twenty-seventh street to make way for rip-rap filling.

June 10th.—The Union Dredging Company dumped 250 cubic yards of rip-rap (from old crib at Laight street) about 125 feet east of the bulkhead line between Twenty-seventh and Twenty-eighth streets.

July 27th.—Commenced filling in rear of wall, and received to date 38,799 loads, as follows:

COMMENCED.	LOCATION.	PAID TICKETS.	FREE LOADS.	BLACK- HURST.	DEPT. STREET CLEANING	TOTALS.
Oct. 1, 1881.	W. 24th st..	607	7,610	4,653	12,870
Feb. 18, 1882.	W. 25th st..	85	85
Mar. 29, 1882.	W. 26th st..	14	14
July 27, 1881.	W. 27th st..	25,457	373	25,830
Totals....		26,163	7,610	373	4,653	38,799

Guard Piling.

January 17th.—Drove a row of 7 guard piles between the old and new bulkhead about 25 feet north of Pier New 55.

January 18th.—Drove a row of 7 guard piles between the old and new bulkhead north of Pier New 56, and pulled them up again on January 20th.

PIER NEW 53.

November 30th to December 22d.—The Union Dredging Company excavated 17,650 cubic yards of mud from site of pier and half the slips adjoining.

PIER NEW 54.

May 2d to August 12th.—Contractor John Gillies completed all of Pier New 54 except the inner 100 feet in length.

November 7th.—Contractor John Gillies fully completed Pier New 54.

October 19th to December 7th.—Fastened 18 cast iron mooring posts on Pier New 54.

December 28th to January 5th.—Fastened 2 extra cast iron mooring posts on Pier New 54—total, 20.

July 18th to December 17th.—The Union Dredging Company excavated 34,572 cubic yards of mud from slips adjoining Pier New 54. Dredging completed. Total, 58,249 cubic yards.

September 21st to 29th.—Built a temporary approach to Pier New 54.

December 23d and 24th.—Chocked up the temporary approach to Pier New 54.

December 30th to January 20th.—Laid a roadway of new 4-inch spruce between Pier New 54 and Thirteenth avenue.

March 25th.—Finished planking roadway to Pier New 54.

PIER NEW 55.

May 2d to April 30th.—The Union Dredging Company excavated 86,339 cubic yards (to date 58,482) of mud from site of and slips adjoining Pier New 55.

May 27th to November 25th.—Contractors Holmes Brothers completed all of Pier New 55 except the inner 100 feet in length.

April 6th.—Contractors Holmes Brothers fully completed Pier New 55.

August 20th.—Diver examined column system of Pier New 55.

October 25th to November 4th.—Diver repaired the columns of Pier New 55.

April 27th to 30th.—Placing 2 cast iron mooring posts at outer end of Pier New 55.

January 17th.—Commenced building a temporary approach to Pier New 55.

April 7th.—Finished planking temporary approach to Pier New 55.

April 24th.—Finished planking the widening of temporary approach to Pier New 55.

PIER NEW 56.

May 3d to December 20th.—The Union Dredging Company excavated 48,058 cubic yards of mud (to date, 55,782) from site of and slips adjoining Pier New 56.

May 23d to September 24th.—Contractors Ross & Sanford completed all of Pier New 56 except the inner 100 feet in length.

July 15th to August 12th.—Contractors Ross & Sanford removed the old pier foot of Twenty-sixth street.

December 10th.—Diver examined and located pile stumps left standing on site of old pier foot of Twenty-sixth street.

July 28th.—Diver examined column system of Pier New 56.

April 5th.—Contractors Ross & Sanford resumed work on inner end of pier, and drove to date 150 vertical piles, putting on rangers, &c.

November 30th.—Commenced fastening cast iron mooring posts on Pier New 56; to date, 8.

January 18th.—Commenced building a temporary approach to Pier New 56.

April 24th.—Commenced the extension and widening of temporary approach to Pier New 56.

PIER NEW 57.

June 24th to November 3d.—The Union Dredging Company commenced excavating site of and slips adjoining Pier New 57, and took out to date 36,965 cubic yards of mud.

August 30th to December 28th.—Contractors Ross & Sanford completed all of Pier New 57 except the inner 100 feet in length.

November 22d.—Diver examined columns of Pier New 57, broken by railroad barge November 20th.

March 24th to 29th.—Contractors Ross & Sanford drove 60 vertical piles for the inner 100 feet in length of Pier New 57.

OFFICE.

March 7th to 16th.—Moving office and shop from Twenty-fourth street Pier to half way between Twenty-fourth and Twenty-fifth street on filling.

EXAMINATION OF WALL BY MESSRS. NEWTON, GILLMORE AND WORTHEN.

October 28th.—Began preparing piles for test.

November 14th.—Set 2 concrete base blocks in vicinity of Pier New 54 for mattress and pile tests.

December 3d.—Lifted mattress test block south of Pier New 54.

March 25th.—Lifted pile test block north of Pier New 54.

PROPOSED PIER AT FORTY-SIXTH STREET, NORTH RIVER.

December 31st to January 4th.—Drove 9 test piles.

AUTOMATIC TIDE GAUGE.

June 1st and 2d.—Placed automatic gauge in Grand street, East River, Ferry House.

June 3d.—Placed automatic gauge in Hunter's Point Ferry House, foot of Thirty-fourth street, East River.

June 3d.—Repaired gauge in Staten Island Ferry House.

DEPARTMENT YARDS.

GANSEVOORT STREET YARD.

May 1st, 1881, to May 1st, 1882.—Blacksmiths made and repaired iron work for floating property; also for sections north and south of Canal street, North River, and for general repairs.

May 1st, 1881, to May 1st, 1882.—Carpenters repaired concrete moulds, cones and concrete railroad; also engaged stripping and setting up concrete moulds.

May 1st, 1881, to May 1st, 1882.—Laborers assisted carpenters on the moulds; also made 42 concrete base blocks—1,387, 26 cubic yards of concrete, and received 4,050 barrels of Portland cement.

EAST SEVENTEENTH STREET YARD.

1881.

May 3d to June 3d.—Received granite under contract from Cape Ann Granite Company.

May 25th.—Receiving cement.

June 7th.—Receiving cement.

June 7th.—Tested boiler of hoisting engine.

June 8th.—Receiving cement.

June 11th to 14th.—Loaded coping stone for Chambers Street Section.

June 20th.—Tightened trusses of storehouse roof.

June 25th to 30th.—Receiving cement.

July 1st to 7th.—Received granite under contract from Cape Ann Granite Company.

July 12 to 13th.—Repaired guy post of derrick.

July 16th to 18th.—Loaded granite for West Twenty-third Street Section.

August 2d to 4th.—Received granite under contract from Cape Ann Granite Company.

August 17th.—Repaired the derrick.

August 30th.—Loaded granite for West Twenty-third Street Section.

September 3d to October 13th.—Received granite under contract from Cape Ann Granite Company.

October 14th to 23d.—Repaired the storehouse roof.

November 7th.—Repaired railroad track.

November 17th to 22d.—Loading granite for Laight Street Section.

November 23d to December 31st.—Receiving granite under contract from Cape Ann Granite Company.

1882.

January 7th to 9th.—Loaded granite for West Twenty-third Street Section.

January 12th to 20th.—Received granite under contract from Cape Ann Granite Company.

January 31st.—Oiled falls of derrick.

February 9th to March 15th.—Loaded granite for West Twenty-third Street Section.

March 27th to April 29th.—Received granite under contract from Cape Ann Granite Company.

April 24th to 30th.—Moving granite with the 100-ton derrick.

GENERAL REPAIRS.

The following Piers have been repaired by Contract and completed during the year.

ON THE NORTH RIVER.

Number of Contract.	CONTRACT FOR.	BEGUN.	COMPLETED.
140	Repairing Piers at 17th, 18th, 34th, 40th, 47th and 129th streets.....	Sept. 14, 1881.	Dec. 2, 1881.
145	Repairing Pier at 96th st..	Oct. 24, 1881.	Jan. 27, 1882.

ON THE EAST RIVER.

Number of Contract.	CONTRACT FOR.	BEGUN.	COMPLETED.
148	Crib bulkhead, Coenties Slip	Jan. 28, 1882.	Apr. 12, 1882.
126	Repairing Pier 12.....	Feb. 28, 1881.	June 27, 1881.
137	Repairing Pier 21.....	Aug. 5, 1881.	Oct. 15, 1881.

Finished April 8th, 1882.

Canal Street Sewer.—An examination made of sewer. Finished April 11th, 1882.

Pier Old 42.—Patched 27 square feet of deck with 3-inch North Carolina yellow pine plank. Finished July 28th, 1881.

Pier Old 42.—Patched 3,668 square feet of deck, and 400 square feet of sheathing with second-hand plank, laid 8,002 feet B. M., 3-inch North Carolina yellow pine plank sheathing, and drove 14 fender piles. Finished October 14th, 1881.

Pier New 46 and Approach.—Removed old sheathing, and laid 1,408

square feet of new 3-inch yellow pine plank sheathing. Finished May 25th, 1881.

Bulkhead East side Approach to Piers New 46, 47.—Patched 546 square feet of deck with 4-inch plank, 80 square feet with second-hand plank, laid 9,514 square feet of 3-inch yellow pine sheathing. Finished May 18th, 1881.

Bulkhead East side Approach to Piers New 46 and 47.—Shored and fastened piles, put on 5 half-round fenders. Finished December 13th, 1881.

Pier New 47 and Bulkhead South side.—Patched 80 square feet of deck with new 4-inch yellow pine plank, and laid 2,155 square feet of sheathing with new 3-inch yellow pine plank. Finished May 4th, 1881.

Platform at Pier New 47.—Put on 13 half-round fenders, fastened loose fenders. Finished December 1st, 1881.

Bulkhead at West Tenth Street.—Tearing up bulkhead and excavating in rear. Finished October 14th, 1881.

Bulkhead at West Tenth Street.—Patched 268 square feet of deck with old plank, laid 392 square feet with new 4-inch yellow pine plank, laid 130 lineal feet square timber for backing log, chocked rangers. Finished November 21st, 1881.

Bulkhead South side Pier Old 54.—Drove 45 bearing piles, let in 573 feet of caps, 312 feet of rangers, laid 389 lineal feet of backing log, and 9,714 feet, B. M., of 3-inch yellow pine plank in platform. Finished August 29th, 1881.

Platform South side Pier Old 54.—Tore up and rebuilt platform. Finished February 27th, 1882.

Pier Old 54.—Patched 100 feet of sheathing with new yellow pine plank. Finished May 12th, 1881.

Pier Old 54.—Patched sheathing with new plank, cut out old mooring piles, set, chocked and braced two new ones. Finished June 9th, 1881.

Pier Old 54.—Laid 8,651 feet, B. M., yellow pine sheathing, set 6 mooring posts, and repaired backing log. Finished July 13th, 1881.

Pier Old 54.—Patched holes in deck with second-hand plank. Finished September 30th, 1881.

Pier Old 54.—Patched deck with new 4-inch plank, and relaid 73 square feet of old sheathing. Finished October 27th, 1881.

Pier Old 54.—Patched 73 square feet of deck with new 4-inch yellow pine plank, and relaid 216 square feet of old sheathing. Finished November 12th, 1881.

Pier Old 54.—Patched deck with 64 feet, B. M., new 3-inch yellow pine plank. Finished November 30th, 1881.

Pier Old 54.—Relaid 40 square feet of sheathing with old plank. Finished December 23d, 1881.

Pier Old 54.—Patched 100 square feet of deck with new 3-inch yellow pine plank. Finished January 27th, 1882.

Pier Old 54.—Cleaned pier. Finished March 25th, 1882.

Pier at West Eleventh Street.—Drove, chocked and fastened 12 oak fender piles; drove 10 new bearing piles; braced mooring post. Finished January 18th, 1881.

Pier at Bethune Street.—Removed old backing log; drove 1 bearing pile, 2 spring and 5 fender piles; patched 84 square feet of deck, and 779 square feet of sheathing with second-hand plank; laid 721 square feet of sheathing with new 3-inch yellow pine plank; set 1 mooring post; put on corner bands. Finished July 30th, 1881.

Pier and Bulkhead at Bethune Street.—Filled in hole with earth and stone, and graded same. Finished November 26th, 1881.

Public Bath at Bethune Street.—Fastened 4 fender floats to bath. Finished June 16th, 1881.

Public Bath at Bethune Street.—Put on extra chain fastening to floats. Finished June 21st, 1881.

Pier at Bethune Street.—Closed gangway with 8 feet backing log. Finished October 14th, 1881.

Pier at Jane Street.—Drove 1 bearing pile; put on 1 fender; patched

deck with second-hand plank; laid 1,021 feet, B. M., 3-inch yellow pine sheathing; set 1 mooring post. Finished September 7th, 1881.

Pier at Horatio Street.—Drove and fastened 9 bearing and 2 mooring piles; put on side caps; removed old deck and sheathing; patched deck with old plank and 385 feet, B. M., yellow pine plank; laid 6,678 feet, B. M., new 3-inch yellow pine plank sheathing; put on close fenders with new 4-inch yellow pine plank; put on 18 half-round fenders, 216 lineal feet of backing log and 1 corner band. Finished August 2d, 1881.

Pier at Gansevoort Street.—Drove 4 spring piles; put on 5 half round fenders. Finished September 9th, 1881.

Pier at Bogart Street.—Drove 4 spring piles; put on 5 half round and 4 square fenders; laid 31 lineal feet of backing log; choked and fastened fender piles. Finished September 4th, 1881.

Pier at Bloomfield Street.—Drove 1 bearing and 1 spring pile; laid 34 lineal feet of backing log; patched close fenders with new 4-inch yellow pine plank; put on 9 white oak half-round fenders; refastened old fenders; choked mooring piles; patched deck and sheathing with 5,591 feet, B. M., new 3-inch yellow pine plank. Finished July 13th, 1881.

Bulkhead South side Little Twelfth Street.—Put on 4 half round fenders. Finished July 20th, 1881.

Pier at Little Twelfth Street.—Drove 8 bearing, 2 fender and 2 spring piles; put on 12 half-round fenders, 66 lineal feet of backing log; patched heads of close fenders with 5-inch second-hand oak plank; patched 48 square feet of deck and 726 square feet of sheathing with new 3-inch yellow pine plank. Finished July 21st, 1881.

Pier foot of Thirteenth Street.—Built fence across pier. Finished Nov. 26th, 1881.

Pier foot of Thirteenth Street.—Rebuilt fence across pier. Finished December 2d, 1881.

Pier foot of Thirteenth Street.—Rebuilt fence across pier. Finished December 5th, 1881.

Pier 100 at Southworth Street — Patched deck and sheathing with old plank and boards 18 inches wide of pine. Finished April 17th, 1882.

Pier 101 at Southworth Street — Patched deck and sheathing with old plank and boards 18 inches wide of pine. Finished April 17th, 1882.

Pier 102 at Southworth Street — Patched old deck and sheathing, greenish pine, various kind of bark with various sized joints. 133 square feet new and 3 inch yellow pine plank laid 1,441 square feet of sheathing with new 2 inch yellow pine plank 18 inches and fastened 1 bearing, 2 for deck and 4 spring plank laid 63 linear feet of backing log; built runway, put on 1 plank, patch and boards 2 bearing planks and refastened benches. Finished August 12th, 1881.

Pier at Fillmore Street — Removed old deck and sheathing; patched 1,441 square feet of deck with new and second-hand plank; laid 4,127 square feet of sheathing with new 2-inch yellow pine plank; put on 2 square and 8 half round fenders; braced and fastened mooring piles. Finished August 31, 1881.

Pier at Southworth Street. Patched 780 square feet of deck with new and second hand plank; laid 2,485 square feet of sheathing with new 3-inch yellow pine plank; laid 24 linear feet of backing log; put on 23 white oak benches; patched close fenders on outer end of pier; set 1 mooring post, drove 4 bearing and 10 fender piles. Finished July 21st, 1881.

Pier at Southworth Street. Patched deck with 500 feet, R. M., 3-inch yellow pine plank. Finished August 1st, 1881.

Pier at Southworth Street. Patched deck with 400 feet, R. M., 3-inch yellow pine plank. Finished August 2d, 1881.

Pier at Southworth Street. Patched deck 50 deck with new and second hand plank. Finished June 1st, 1881.

Pier at Southworth Street. Patched deck with new and second-hand plank. Finished May 2nd, 1881.

Pier at Southworth Street. Patched 200 square feet of deck with second hand plank, 100 feet, R. M., 3-inch yellow pine plank.

sheathing, and 252 square feet old sheathing; put down 20 lineal feet of backing log; refastened deck. Finished October 7th, 1881.

Pier at foot of Twenty-eighth Street.—Patched 145 square feet of deck with old plank; laid 430 square feet of sheathing with new 3-inch yellow pine plank. Finished December 16th, 1881.

Pier at foot of Twenty-eighth Street.—Patched deck and sheathing with old plank. Finished February 18th, 1882.

Pier at Thirtieth Street.—Patched deck with new and old plank. Finished May 24th, 1881.

Pier at Thirtieth Street.—Removed old deck and sheathing; patched deck with second-hand plank, laid 502 feet, B. M., new 3-inch plank sheathing; drove 6 bearing and 4 spring piles. Finished July 5th, 1881.

Pier at Thirtieth Street.—Patched deck with second-hand plank and laid 17,578 feet, B. M., 3-inch yellow pine plank sheathing. Finished September 14th, 1881.

Pier at Thirtieth Street.—Patched 632 square feet of deck with new and old plank. Finished November 17th, 1881.

Pier at Thirtieth Street.—Patched 273 square feet of deck with new and second-hand plank; laid 415 square feet of sheathing with new 3-inch yellow pine plank. Finished December 16th, 1881.

Pier at Thirtieth Street.—Patched deck and sheathing with new and old plank. Finished February 20th, 1882.

Pier at Thirtieth Street.—Patched deck and sheathing with old plank. Finished March 11, 1882.

Pier at Thirtieth Street.—Patched deck and sheathing with old plank. Finished April 15th, 1882.

Pier at Thirtieth Street.—Patched deck and sheathing with old plank. Finished April 26th, 1882.

Pier at Thirty-fourth Street.—Patched deck with old plank, and laid 537 feet, B. M., new 3-inch yellow pine sheathing; refastened loose sheathing. Finished August 2d, 1881.

Pier foot of Thirteenth Street.—Rebuilt fence across pier. Finished December 8th, 1881.

Pier foot of Thirteenth Street.—Patched deck and sheathing with old plank, and fenced off outer end of pier. Finished April 11th, 1882.

Bulkhead at Fourteenth Street.—Removed old deck and sheathing; patched 923 square feet of deck with second-hand plank, 233 square feet with new 3-inch yellow pine plank; laid 3,668 square feet of sheathing with new 3-inch yellow pine plank; drove and fastened 3 bearing, 2 fender and 6 spring piles; laid 42 lineal feet of backing log; built runway; put on 1 cleat; reset and braced 2 mooring posts, and refastened fenders. Finished August 12th, 1881.

Pier at Fifteenth Street.—Removed old deck and sheathing; patched 1,482 square feet of deck with new and second-hand plank; laid 4,127 square feet of sheathing with new 3-inch yellow pine plank; put on 2 square and 5 half-round fenders; braced and fastened mooring piles. Finished August 3d, 1881.

Pier at Sixteenth Street.—Patched 786 square feet of deck with new and second hand plank; laid 2,435 square feet of sheathing with new 3-inch yellow pine plank; laid 24 lineal feet of backing log; put on 23 white oak fenders; patched close fenders on outer end of pier; set 1 mooring post; drove 2 bearing and 10 fender piles. Finished July 21st, 1881.

Pier at Seventeenth Street.—Patched deck with 300 feet, B. M., 3-inch yellow pine plank. Finished August 1st, 1881.

Pier at Eighteenth Street.—Patched deck with 460 feet, B. M., 3-inch yellow pine plank. Finished August 2d, 1881.

Pier at Twenty-sixth Street.—Patched holes in deck with new and second-hand plank. Finished June 15th.

Pier at Twenty-eighth Street.—Patched deck with new and second-hand plank. Finished May 24th, 1881.

Pier at Twenty-eighth Street.—Patched 300 square feet of deck with second-hand plank; laid 8,442 feet, B. M., new 3-inch yellow pine plank

sheathing, and 252 square feet old sheathing; put down 20 lineal feet of backing log; refastened deck. Finished October 7th, 1881.

Pier at foot of Twenty-eighth Street.—Patched 145 square feet of deck with old plank; laid 430 square feet of sheathing with new 3-inch yellow pine plank. Finished December 16th, 1881.

Pier at foot of Twenty-eighth Street.—Patched deck and sheathing with old plank. Finished February 18th, 1882.

Pier at Thirtieth Street.—Patched deck with new and old plank. Finished May 24th, 1881.

Pier at Thirtieth Street.—Removed old deck and sheathing; patched deck with second-hand plank, laid 502 feet, B. M., new 3-inch plank sheathing; drove 6 bearing and 4 spring piles. Finished July 5th, 1881.

Pier at Thirtieth Street.—Patched deck with second-hand plank and laid 17,578 feet, B. M., 3-inch yellow pine plank sheathing. Finished September 14th, 1881.

Pier at Thirtieth Street.—Patched 632 square feet of deck with new and old plank. Finished November 17th, 1881.

Pier at Thirtieth Street.—Patched 273 square feet of deck with new and second-hand plank; laid 415 square feet of sheathing with new 3-inch yellow pine plank. Finished December 16th, 1881.

Pier at Thirtieth Street.—Patched deck and sheathing with new and old plank. Finished February 20th, 1882.

Pier at Thirtieth Street.—Patched deck and sheathing with old plank. Finished March 11, 1882.

Pier at Thirtieth Street.—Patched deck and sheathing with old plank. Finished April 15th, 1882.

Pier at Thirtieth Street.—Patched deck and sheathing with old plank. Finished April 26th, 1882.

Pier at Thirty-fourth Street.—Patched deck with old plank, and laid 537 feet, B. M., new 3-inch yellow pine sheathing; refastened loose sheathing. Finished August 2d, 1881.

Pier at Thirty-fourth Street.—Drove, chocked and fastened 5 spring piles. Finished March 8th, 1882.

Pier at Thirty-fifth Street.—Removed old deck and sheathing; patched deck, and laid 13,041 feet, B. M., 3-inch yellow pine plank sheathing; drove and fastened 4 bearing piles, 3 spring and 6 fender piles; put on 4 white oak half-round fenders. Finished July 13th, 1881.

Pier at Thirty-eighth Street.—Patched 175 square feet of deck, and 75 square feet of sheathing with old plank; laid 1,250 square feet of sheathing with new 3-inch yellow pine plank; drew 10 and redrove 8 bearing piles. Finished January 10th, 1882.

Pier at Fortieth Street.—Patched holes in deck. Finished June 28th, 1881.

Pier at Fortieth Street.—Patched 248 square feet of deck with new 3-inch yellow pine plank. Finished July 7th, 1881.

Pier at Fortieth Street.—Patched 75 square feet of deck with second-hand plank, and laid 1,428 feet, B. M., new 3-inch yellow pine plank sheathing. Finished July 21st, 1881.

Pier at Fortieth Street.—Patched sheathing with 441 feet, B. M., new 3-inch pine plank. Finished August 1st, 1881.

Pier at Fortieth Street.—Patched 120 square feet of deck with second-hand plank, laid 3,168 feet, B. M., 3-inch yellow pine plank sheathing. Finished August 15th, 1881.

Pier at Fortieth Street.—Laid 2,007 square feet new 3-inch yellow pine sheathing. Finished March 20th, 1882.

Pier at Forty-sixth Street.—Patched 4,402 square feet of deck with new 3-inch yellow pine plank. Finished June 1st, 1881.

Pier at Forty-sixth Street.—Laid 2,827 feet, B. M., 3-inch yellow pine plank sheathing. Finished August 22d, 1881.

Pier at Forty-sixth Street.—Let in ranging timbers, repaired deck with second-hand plank, laid 10,453 feet, B. M., 3-inch yellow pine plank sheathing. Finished October 4th, 1881.

Pier at Forty-sixth Street.—Patched 400 square feet of sheathing

with old plank, laid 338 square feet of sheathing with new 3-inch yellow pine plank. Finished November 3d, 1881.

Pier at Forty-sixth Street.—Patched 168 square feet of deck with old plank, laid 274 square feet of sheathing with new 3-inch yellow pine plank. Finished December 27th, 1881.

Pier at Forty-sixth Street.—Drove 1 test pile. Finished February 17th, 1882.

Pier at Forty-sixth Street.—Patched deck and sheathing with 2,060 feet, B. M., new 3-inch yellow pine plank. Finished April 3d, 1882.

Pier at Forty-sixth Street.—Patched deck and sheathing with 467 feet, B. M., new 3-inch yellow pine plank, and 806 feet, B. M., 3-inch old plank. Finished April 15th, 1882.

Pier at Forty-seventh Street.—Laid 3,293 feet, B. M., 3-inch yellow pine sheathing; fastened spring piles. Finished June 4th, 1881.

Pier at Forty-seventh Street.—Patched 317 square feet of deck with new 3-inch yellow pine plank. Finished July 27th, 1881.

Pier at Fifty-first Street.—Laid 4,463 feet, B. M., new 3-inch yellow pine plank sheathing. Finished June 9th, 1881.

Pier at Fifty-first Street.—Patched deck with new and second-hand plank; laid 13,833 feet, B. M., new yellow pine plank sheathing; relaid 50 square feet of sheathing with old plank; drove, chocked and fastened 10 fender piles; put on 10 4-inch yellow pine fenders; laid 125 lineal feet of backing log. Finished September 5th, 1881.

Pier at Fifty-first Street.—Patched deck with new and old plank. Finished October 14th, 1881.

Pier at Fifty-first Street.—Patched sheathing with 360 feet new 3-inch yellow pine plank. Finished January 20th, 1882.

Pier at Fifty-first Street.—Patched 17 square feet of deck with new 3-inch yellow pine plank. Finished February 15th, 1882.

Pier at Fifty-first Street.—Patched 100 square feet of deck with new and old plank. Finished March 13th, 1882.

Public Bath at Fifty-first Street.—Fastened 4 fender floats to bath. Finished June 20th, 1881.

Public Bath at Fifty-first Street.—Closed gangway built for bath. Finished October 11th, 1881.

Timber Basin at Fifty-seventh Street.—Secured loose timber; re-fastened boom logs. Finished May 24th, 1881.

Timber Basin at Fifty-seventh Street.—Secured and re-fastened boom logs. Finished September 5th, 1881.

Timber Basin at Fifty-seventh Street.—Re-fastened boom logs. Finished October 24th, 1881.

Timber Basin at Fifty-Seventh Street.—Re-fastened boom logs. Finished January 7th, 1882.

Timber Basin at Fifty-seventh Street.—Re-fastened boom logs. Finished January 28d, 1882.

Timber Basin at Fifty-seventh Street.—Secured timber and re-fastened boom logs. Finished March 25th, 1882.

Pier at Fifty-seventh Street.—Patched 42 square feet of deck with second-hand plank. Finished May 7th, 1881.

Pier at Fifty-Seventh Street.—Removed old sheathing and patched deck and sheathing with second-hand plank. Finished June 18th, 1881.

Pier at Fifty-seventh Street.—Patched deck with second-hand plank; laid 17,282 feet, B. M., 3-inch yellow pine plank sheathing; put down backing log; redrove spring and fender piles; set, chocked and braced mooring posts. Finished September 30th, 1881.

Pier at Fifty-seventh Street.—Patched 90 square feet of sheathing with new 3-inch yellow pine plank. Finished December 27th, 1881.

Pier at Fifty-seventh Street.—Patched deck with old plank. Finished February 18th, 1882.

Pier at Fifty-seventh Street.—Laid 32 square feet of sheathing with new 3-inch yellow pine plank. Finished February 20th, 1882.

Pier at Fifty-seventh Street.—Patched deck with old plank. Finished March 30th, 1882.

Pier at Fifty-seventh Street.—Patched deck and sheathing with old plank. Finished April 15th, 1882.

Pier at Fifty-seventh Street.—Patched 20 square feet of deck with new 3-inch yellow pine plank. Finished April 28th, 1882.

Approach to Pier at Fifty-seventh Street.—Patched deck with second-hand plank. Finished January 17, 1881.

Approach to Pier at Fifty-seventh Street.—Patched 306 square feet of deck with second-hand plank; 72 square feet deck with new 3-inch yellow pine plank; relaid 160 square feet of old deck and laid 1,873 square feet of 3-inch yellow pine sheathing. Finished August 29th, 1881.

Approach to Pier at Fifty-seventh Street.—Patched deck with second-hand plank; laid 5,905 feet, B. M., new 3-inch yellow pine plank sheathing and relaid 300 feet old sheathing. Finished October 15th, 1881.

Approach to Pier at Fifty-seventh Street.—Patched 30 square feet of deck with old plank; relaid 32 square feet of sheathing with new 3-inch yellow pine plank. Finished December 27th, 1881.

Approach to Pier at Fifty-seventh Street.—Patched deck with old plank. Finished February 13th, 1882.

Approach to Pier at Fifty-seventh Street.—Patched deck with 72 feet, B. M., 3-inch yellow pine plank and 28 feet, B. M., old plank. Finished March 13th, 1882.

Approach to Pier at Fifty-seventh Street.—Laid 64 square feet of deck and sheathing with new 3-inch yellow pine plank and 32 square feet old plank. Finished April 14th, 1882.

Approach to Pier at Fifty-seventh Street.—Laid 39 square feet new 3-inch yellow pine plank sheathing. Finished April 28th, 1882.

Pier at Fifty-eighth Street.—Chocked and refastened fender piles. Finished August 1st, 1881.

Examination of river bottom at Seventy-ninth Street.—Drove and pulled 15 test piles. Finished February 24th, 1882.

Pier at Ninety-sixth Street.—Built fence across inshore end of pier to close it against public use. Finished October 8th, 1881.

Pier at Ninety-sixth Street.—Rebuilt fence. Finished October 14th, 1881.

Bulkhead at Ninety-sixth Street.—Repaired stone bulkhead. Finished December 31st, 1881.

Pier at One Hundred and Twenty-ninth Street.—Drove and fastened 8 oak spring piles; patched deck with 674 feet, B. M., 3-inch yellow pine plank; refastened outer end of pier. Finished June 14th, 1881.

Bulkhead between One Hundred and Twenty-ninth and One Hundred and Thirtieth Streets.—Built fence across bulkhead. Finished February 1st, 1882.

Pier at One Hundred and Thirty-eighth Street.—Drove 4 test piles. Finished February 14th, 1882.

Pier at One Hundred and Fifty-second Street.—Fenced off pier with old plank. Finished November 12th, 1882.

EAST RIVER.

Approach to Pier 6.—Patched 81 square feet of deck with new 3-inch yellow pine plank; sheathed 163 square feet of deck with new 3-inch yellow pine plank. Finished November 29th, 1881.

Pier 6.—Erected fence across pier. Finished April 20th, 1882.

Pier 7.—Patched 64 square feet of deck, and laid 2,447 square feet of sheathing with 3-inch yellow pine plank; put on 9 half-round fenders and 30 square feet of close fenders. Finished June 14th, 1881.

Pier 8.—Drove 5 bearing piles; raised platform; laid 1,623 square feet of sheathing with 3-inch yellow pine plank; relaid 600 square feet of deck; put on 932 square feet of 4-inch yellow pine close fenders, 23 half-round fenders; refastened old fenders, and laid 31 lineal feet of backing log. Finished July 19th, 1881.

Pier 8.—Built fence around hole in rear of bulkhead. Finished September 13th, 1881.

Bulkhead between Piers 11 and 12.—Laid 192 feet of ranging timber; 4,839 feet, B. M., 3-inch yellow pine plank sheathing; patched 122 square feet of deck with 3-inch yellow pine plank; laid 109 feet of

backing log, and put on 18 white oak half-round fenders. Finished October 28th, 1881.

Pier 12.—Bored scupper holes in deck. Finished October 19th, 1881.

Pier 12.—Relaid Belgian pavement. Finished July 11th, 1881.

Pier 15.—Built fence across pier. Finished December 3d, 1881.

Pier 15.—Drove 4 test piles. Finished December 17th, 1881.

Pier 15.—Cut holes in deck for examination of pier; patched same with old plank. Finished December 17th, 1881.

Bulkhead between Piers 18 and 19.—Laid 1,600 feet, B. M., 3-inch yellow pine sheathing. Finished September 6th, 1881.

Pier 19.—Patched 2,183 square feet of sheathing with 3-inch yellow pine plank. Finished June 4th, 1881.

Pier 19.—Patched deck with second-hand plank, and reset mooring posts. Finished October 17th, 1881.

Pier 19.—Put on new close fenders, and patched old ones with new 5-inch Georgia pine plank; put on 10 new half-round fenders; shored piles under caps; put on 2 new corner bands. Finished January 21st, 1882.

Pier 19.—Set, chocked and braced 1 new mooring post. Finished February 10th, 1882.

Bulkhead West side of Pier 25.—Patched 8 square feet of deck with new 3-inch yellow pine plank; laid 28 lineal feet of old square timber for caps. Finished January 20th, 1882.

Pier 37.—Refastened spring piles and backing log. Finished September 2d, 1881.

Pier 37.—Drove, chocked and fastened 3 spring piles. Finished March 11th, 1882.

Pier 38.—Drove 6 test piles. Finished June 9th, 1881.

Pier 38.—Pulled sunken piles and timber and deposited same on bulkhead. Finished December 29th, 1881.

Bulkhead between Piers 39 and 40.—Put on 4 new fenders; 47 lineal

feet of backing log; 4 new chocks; filled in rear of bulkhead with earth. Finished December 8th, 1881.

Pier 43.—Laid 7,155 square feet of sheathing with new 3-inch yellow pine plank. Finished June 2d, 1881.

Pier 43.—Cut off heads of old fenders and pieced them with new 5-inch Georgia pine plank. Finished February 15th, 1882.

Pier 48.—Bored scupper holes in deck. Finished October 19th, 1881.

Public Bath, Pier 51.—Fastened 4 fender floats to bath. Finished June 11th, 1881.

Public Bath, Pier 51.—Repaired and refastened fender floats. Finished August 24th, 1881.

Public Bath, Pier 51.—Closed gangway built for bath. Finished October 26th, 1881.

Pier 53.—Patched deck with 600 feet, B. M., 3-inch yellow pine plank. Finished July 18th, 1881.

Pier 53.—Patched deck with 424 feet, B. M., 3-inch plank, and 107 feet, B. M., old plank; put in 1 mooring pile. Finished February 28th, 1882.

Pier 57, South side.—Patched 157 square feet of deck with new 4-inch yellow pine plank; laid 935 square feet of sheathing with new 3-inch yellow pine plank. Finished December 31st, 1881.

Pier 58.—Drove, chocked and fastened 3 fender piles; patched 150 square feet of sheathing with new 3-inch yellow pine plank. Finished May 27th, 1881.

Piers 58 and 59.—Drove and pulled test piles. Finished December 8th, 1881.

Piers 58 and 59.—Built fence across piers. Finished December 8th, 1881.

Pier 59.—Patched 17 square feet of sheathing with 3-inch yellow pine plank. Finished May 27th, 1881.

Pier 60.—Drove and fastened 9 fender piles; put down 53 feet of

backing log; patched 717 square feet of sheathing with new 3-inch yellow pine plank. Finished May 27th, 1881.

Pier 60.—Refastened butts of sheathing. Finished December 20th, 1881.

Bulkhead, Pier 60.—Fastened on 2 cleats for use of tug boats. Finished May 3d, 1881.

Bulkhead, Pier 60.—Rebuilt bulkhead north side of Rivington street, next adjoining Pier 60, from low water up a distance of about 55 feet. Finished January 4th, 1882.

Bulkhead, Pier 60.—Put on 12 lineal feet of backing log, and leveled off bulkhead. Finished February 24th, 1882.

Pier 61.—Patched holes in deck with second-hand plank. Finished July 16th, 1882.

Pier 61.—Patched 320 square feet of sheathing with second-hand plank, and 112 square feet with new 3-inch yellow pine plank. Finished July 27th, 1881.

Pier 61.—Removed old dumping board and let in rangers. Finished October 12th, 1881.

Pier 61.—Drove, chocked and fastened 15 old fender piles, put in fender rack. Finished March 8th, 1882.

Pier 62.—Removed old sheathing, and laid 803 square feet of sheathing with new 3-inch yellow pine plank. Finished June 25th, 1881.

Pier 62.—Patched 183 square feet of deck with second-hand plank, and 144 square feet of sheathing with new 3-inch yellow pine plank. Finished June 29th, 1881.

Pier foot of Third Street.—Erected fence across pier. Finished November 23d, 1881.

Pier foot of Third Street.—Patched 448 square feet of deck with new 4-inch yellow pine plank. Finished December 5th, 1881.

Pier foot of Third Street.—Patched deck with 160 square feet of 4-inch yellow pine plank. Finished April 20th, 1882.

Public Bath at Fifth Street.—Fastened 4 fender floats to bath. Finished June 3d, 1881.

Pier at Fifth Street.—Drove 5 bearing piles, put in rangers, side cap, and backing log; patched deck, and laid 300 feet, B. M., 3-inch yellow pine sheathing. Finished September 10th, 1881.

Pier at Fifth Street.—Put in 2 side caps; laid 392 feet, B. M., 4-inch yellow pine sheathing; relaid 35 square feet old sheathing; patched fenders, and laid 21 lineal feet of backing log. Finished October 29th, 1881.

Bulkhead at Fourteenth Street.—Put on 6 half-round fenders. Finished May 18th, 1881.

Bulkhead at Fifteenth Street.—Put on 5 half-round white oak fenders and 1 old fender. Finished May 17th, 1881.

Bulkhead at Sixteenth Street.—Set and chocked 1 mooring post; drove 1 fender pile. Finished May 19th, 1881.

Bulkhead at Seventeenth Street.—Put on 2 new wooden cleats. Finished November 19th, 1881.

Bulkhead at Seventeenth Street.—Put on 1 iron cleat. Finished December 17th, 1881.

Bulkhead at Seventeenth Street.—Bulkhead for a distance of 56 feet, rebuilt from low water up, 22 fender piles driven, and necessary chocks put on. Finished January 28th, 1882.

Bulkhead at Eighteenth Street.—Drove and fastened 1 fender pile. Finished May 19th, 1882.

Public Bath at Nineteenth Street.—Fastened 4 fender floats to bath. Finished June 18th, 1881.

Public Bath at Nineteenth Street.—Built platform and stairway for bath, and put up railing to protect same. Finished July 2d, 1881.

Pier at Twenty-third Street.—Drove spring piles; put down rangers and backing log; reset mooring posts. Finished September 13th, 1881.

Pier at Twenty-sixth Street.—Laid 7,456 feet, B. M., new 3-inch yellow pine sheathing; reset 1 mooring post. Finished July 21st, 1881.

Pier at Twenty-sixth Street.—Drove 6 test piles. Finished December 20th, 1881.

Pier at Bellevue Hospital.—Drove, chocked and fastened 3 spring piles. Finished June 4th, 1881.

Bulkhead at Bellevue Hospital.—Drove 4 bearing and 12 fender piles ; laid 30 feet side caps ; 63 feet backing log ; chocked fender piles. Finished October 17th, 1881.

Piers at Twenty-sixth and Twenty-seventh Streets.—Drove and pulled test piles. Finished January 14th, 1882.

Pier at Twenty-seventh Street.—Put on 1 fender and refastened old braces. Finished July 2d, 1882.

Pier at Twenty-eighth Street.—Laid 719 feet, B. M., 3-inch yellow pine sheathing. Finished August 3d, 1881.

Pier at Twenty-eighth Street.—Patched deck, and laid 2,000 feet, B. M., new 3-inch yellow pine sheathing. Finished September 23d, 1881.

Pier at Twenty-eighth Street.—Laid 1,936 square feet of deck with 4-inch spruce plank, 2,060 square feet with old plank ; put down 275 feet of old backing log ; chocked up rangers. Finished November 21st, 1881.

Bulkhead at Twenty-ninth Street.—Patched 5 square feet of deck with old plank. Finished November 21st, 1881.

Pier at Thirtieth Street.—Drove 9 fender piles ; set, chocked and fastened 2 mooring posts and rebuilt bulkhead. Finished June 28th, 1881.

Pier at Thirty-second Street.—Refastened chocks. Finished November 22d, 1881.

Pier at Thirty-third Street.—Put on 9 half-round fenders and laid 9,874 square feet of 3-inch yellow pine plank sheathing. Finished June 23d, 1881.

Public Bath at Thirty-seventh Street.—Fastened 4 fender floats to bath. Finished June 27th, 1881.

Pier at Thirty-seventh Street.—Patched deck with 97 feet, B. M., 4-inch plank ; laid 9,791 feet, B. M., 3-inch yellow pine plank sheathing. Finished August 12th, 1881.

Pier at Thirty-seventh Street.—Patched deck with second-hand plank; laid 6,590 feet, B. M., 3-inch yellow pine plank sheathing. Finished September 3d, 1881.

Pier at Thirty-seventh Street.—Patched deck, and set 1 mooring post. Finished September 13th, 1881.

Pier at Thirty-eighth Street.—Drove 7 bearing piles; set, blocked up and fastened rangers; put on side caps and cross-caps; reset and braced mooring posts; laid 11,456 feet 4-inch plank for deck; 223 feet backing log; 376 square feet 4-inch yellow pine close fenders; put on 2 cleats. Finished October 13th, 1881.

Platform between Thirty-eighth and Thirty-ninth Streets.—Tore up old platform; excavated and filled in rear of platform; put on 11 half-round fenders; pulled 8 piles, redrove same for fender piles; drove 3 bearing piles; put down caps with new and old timber; laid 7,222 feet, B. M., 4-inch plank for deck; set 3 mooring posts; chocked caps and fender piles; spiked deck. Finished April 6th, 1882.

Bulkhead North side of Forty-second Street.—Built up bulkhead; paved and graded same. Finished February 28th, 1882.

Dumping Board at Forty-sixth Street.—Removed wreck. Finished March 22d, 1882.

Bulkhead at Forty-eighth Street.—Drove 3 bearing and 5 spring piles; put on 1 cleat. Finished May 11th, 1881.

Bulkhead and Dump at Forty-ninth Street.—Drove 10 bearing and 13 fender piles; built up bulkhead; put down 90 feet of backing log; laid 828 square feet of deck with 3-inch yellow pine plank; put up railing. Finished May 28th, 1881.

Platform at Fifty-first Street.—Patched 128 square feet of deck with new 3-inch plank, and 24 square feet with old plank. Finished December 17th, 1881.

Pier at Fifty-first Street.—Patched deck with 22 feet, B. M., 3-inch plank. Finished January 26th, 1882.

Bulkhead between Sixtieth and Sixty-first Streets.—Drove 1 bearing

pile; let in 237 feet of rangers; raised and blocked up platform; patched deck, and put on 1 half-round fender. Finished May 7th, 1881.

Platform at Sixty-first Street.—Patched deck with old plank. Finished February 15th, 1882.

Bulkhead at Sixty-first Street.—Patched 8 square feet of deck with new 3-inch yellow pine plank. Finished January 28th, 1882.

Bulkhead between Sixty-first and and Sixty-second Streets.—Raised and shimmed up platform. Finished May 14th, 1881.

Bulkhead between Sixty-first and Sixty-second Streets.—Patched holes in deck with new 3-inch yellow pine plank. Finished July 23d, 1881.

Bulkhead between Sixty-first and Sixty-second Streets.—Patched deck with second-hand plank; laid 10,937 feet, B. M., new 3-inch yellow pine plank. Finished August 30th, 1881.

Pier at Seventy-ninth Street.—Patched 9 square feet of deck with new 4-inch spruce plank. Finished December 8th, 1881.

Pier at Eighty-sixth Street.—Drove, chocked and fastened 8 fender piles; patched deck with old plank, and refastened fenders. Finished December 3d, 1881.

Pier at Eighty-sixth Street.—Ripped up dumping board. Finished March 10th, 1882.

HARLEM RIVER.

Pier at One Hundred and Ninth Street.—Patched 4 square feet of deck with new 3-inch yellow pine plank. Finished January 19th, 1882.

Pier at One Hundred and Ninth Street.—Patched deck with 250 feet, B. M., new 3-inch yellow pine plank. Finished February 27th, 1882.

Public Bath at One Hundred and Twelfth Street.—Fastened 4 fender floats to bath. Finished June 16th, 1881.

Pier at One Hundred and Twelfth Street.—Built up and closed gangway to bath. Finished October 26th, 1881.

Pier at One Hundred and Seventeenth Street.—Fastened fender and spring piles; choocked rangers; sheathed backing log; cleaned deck; patched 622 square feet of deck with new 4-inch yellow pine plank; 95 square feet with old plank; laid 512 square feet of sheathing with new 3-inch yellow pine plank; put in 6 rangers of new 4-inch yellow pine; refastened backing log. Finished February 27th, 1882.

Pier at One Hundred and Twenty-fifth Street.—Patched deck with second-hand plank; laid 1,150 feet, B. M., new 3-inch yellow pine plank sheathing; put on 4 5-inch Georgia pine close fenders; set, choocked and braced 1 mooring pile. Finished September 12th, 1881.

Pier at One Hundred and Twenty-fifth Street.—Patched 15 square feet of deck with 4-inch yellow pine plank. Finished January 19th, 1882.

BLACKWELL'S ISLAND.

Charity Hospital Pier.—Drove, choocked and fastened 9 oak fender piles. Finished November 25th, 1881.

Riverside Hospital Pier.—Drove, choocked and fastened 8 fender piles. Finished November 29th, 1882.

Upper Coal Pier.—Drove, choocked and fastened 10 oak fender piles, set 2 mooring posts. Finished January 25th, 1882.

RANDALL'S ISLAND.

Pier at Randall's Island.—Patched deck with second-hand plank and with 260 feet, B. M., 3-inch yellow pine plank; laid 5,088 feet, B. M., spruce 4-inch plank for deck, and 3,744 feet, B. M., 3-inch yellow pine sheathing; drove 10 oak fender piles and 5 spruce spring piles. Finished November 2d, 1881.

Passenger Pier.—Ripped up old plank; made and put on new choocks; refastened spring piles; put on new cleats; laid 1,201 feet, B. M., 3-inch

yellow pine sheathing; patched deck with 496 feet old plank. Finished February 6th, 1882.

Coal Dock.—Drove 1 pile; put on 2 cleats for coal derrick. Finished February 3d, 1882.

WARD'S ISLAND.

Pier at Ward's Island.—Drove and fastened 5 fender piles; set, choaked and fastened 2 mooring posts; laid 160 feet, B. M., 3-inch yellow pine plank for deck, and 328 feet 3-inch plank for sheathing. Finished July 15th, 1881.

STATEMENT OF WORK DONE BY PRIVATE PARTIES
*Under Supervision of the Engineer-in-Chief, by Order of
 or under Permit from the Board of Docks.*

NORTH RIVER.

Pier New 1.—Erection of shed on pier by Iron Steamboat Company. Commenced April 6th, 1881. Finished June 28th, 1881.

Pier 8.—Erection of platform south side of pier, and sheds on the platform and pier, by the Central Railroad Company of New Jersey. January 17th to April 30th, 1881.

Pier 22.—Erection of platform at the south side by the Stevens and Condit Transportation Company. July 6th to 13th, 1881.

Pier Old 28.—The work of repairing pier within the existing lines, under permit granted to the Old Colony Steamboat Company. Commenced about November 8th, 1881. Work still in progress.

Pier Old 29.—The work of repairing pier by Providence and Stonington Steamship Company. Commenced April 10th, 1882. Finished April 19th, 1882.

Piers New 20 and 21.—Erection of shed upon Bulkhead between piers New 20 and 21, North River, by New York, Lake Erie and Western Railway Company. Commenced November 30th, 1881. Finished January 19th, 1882.

Shed between Piers New 20 and 21.—Laying plank roadway, 50 feet wide, in front of shed between Piers New 20 and 21, North River, together with an approach thereto in the centre 25 feet wide. Commenced December 10th, 1881. Finished December 15th, 1881.

Pier New 21.—Erection of shed on pier by New York, Lake Erie and Western Railroad Company. Commenced January 3d, 1881. Finished July 30th, 1881.

Pier New 26.—Erection of shed on pier by Old Dominion Steamship Company. Commenced January 12th, 1879. Finished June 6th, 1881.

Pier New 36.—Laying railroad tracks on the pier by John G. Dale. July 9th to 20th.

Pier New 38.—Replacing iron mooring posts on outer end of pier by Williams and Guion. January 27th.

Bulkhead between Piers New 39 and 40.—Erection of coal derrick by G. W. Brush. June 13th.

Pier 44.—Building three ramps on the north side of pier by the Citizens' Steamboat Company. May 2d to 12th, 1881.

Pier New 46.—Fitting a new door in south side of shed by the Anchor Steamship Company. May 9th to June 8th, 1881.

Pier New 55.—Removal of two mooring posts from outer end of pier by the Atlas Steamship Company. January 5th to 9th.

Bulkhead between Thirteenth and Fourteenth Streets.—Laying water pipe through by V. W. Macfarlane. May 23d to 26th.

Pier at Twentieth Street.—Repairing the outer end by the Knickerbocker Ice Company. February 20th to March 22d.

Bulkhead between Twentieth and Twenty-first Streets.—Repairing by the Knickerbocker Ice Company. February 20th to March 16th.

Pier at Twenty-second Street.—Repairing the outer end of the old pier and widening and extending it by A. Van Santvoord. March 26th to May 26th, 1881.

Pier at Twenty-second Street.—Widening and extending shed on the pier by A. Van Santvoord. March 26th to June 8th, 1881.

Pier at Twenty-second Street.—Removal of sheds from Twenty-fourth street by A. Van Santvoord. October 25th, 1880, to June 8th, 1881.

Platform at Twenty-third Street.—Driving ten piles at outer end of, by Jacob Sharpe. May 5th and 6th, 1881.

Platform at Twenty-third Street.—Driving fifteen piles alongside of, by S. A. Jenks & Co. July 13th to 18th, 1881.

Pier New 54.—Erection of shed by Funch, Edye & Co. September 14th to February 14th.

Pier New 55.—Additional to, by Pim, Forwood & Co. April 29th, 1882.

Pier New 55.—Placing and using of hoisting engine on, by Pim, Forwood & Co. January 25th to April 28th, 1882.

Dredge No. Four.—Placing crane in by the Union Dredging Company. March 7th to 27th, 1882.

Pier at Fifty-eighth Street.—Construction of gangway in end of pier by the Union Stock Yard and Market Company. July 23d, 1881.

EAST RIVER.

Pier 2.—Repairs to east side of pier by S. A. Jenks & Co. June 4th to 17th, 1881.

Pier 13.—Repairing the pier by S. A. Jenks & Co. August 22d to October 27th, 1881.

Pier 14.—Driving twelve piles on southerly side by S. A. Jenks & Co. June 20th and 21st, 1881.

Piers 18 and 27.—Driving piles under the piers by S. A. Jenks & Co. June 25th to August 5th.

Pier 16.—Repairing outer end from low water mark up by Union Ferry Company. February 20th to March 23d, 1882.

Pier 20.—Driving three piles and placing mooring posts by C. H. Mallory & Co. February 14th and 15th, 1882.

Pier 27.—Extensive repairs by S. A. Jenks & Co. June 25th to July 27th.

Pier 36.—Driving piles under pier by Warren Rosevelt. February 9th to 25th, 1881.

Pier 47.—Repairing pier by S. A. Jenks & Co. December 5th, 1881, to February 24th.

Pier 38.—Placing six fender piles by Maine Steamship Company. April 7th to 11th, 1882.

Pier 44.—West bulkhead. Dredging and building platform and shed by New York Central and Northern Railroad Company. January 10th to February 21st, 1882.

Work done by Private Parties under my Supervision.

EAST RIVER.

Pier 49.—Driving piles under pier by Warren Roosevelt. April 12th to 19th, 1881.

Piers 49 and 50.—Platform between, 40 x 105 feet, by Duryea & Co. December 2d to 28th, 1880.

Bulkhead between Thirtieth and Thirty-first Streets.—Driving fender piles by Warren Roosevelt. June 29th to July 7th, 1881.

Pier at Thirty-first Street.—Driving spring piles at north side and end by Joseph V. Brown. April 30th to May 5th, 1881.

Pier at Thirty-ninth Street.—Dumping board by G. W. Ryerson. January 20th to March 4th, 1882.

Thirty-ninth and Fortieth Streets.—Building of bulkhead by W. L. Cutting. November 12th, 1880, to September 30th, 1881.

Fortieth and Forty-first Streets.—Building bulkhead north side of Fortieth street, and filling in by W. L. Cutting. June 23d, 1880, to December 31st, 1881.

Bulkhead north of Forty-second Street.—Erection of shed, 20 x 57 feet, by New York City and Northern Railroad Company. December 8th to 20th, 1880.

South of Seventy-fourth Street.—Removal of ledge under water and erection of wall by John Macarthur. Work in progress.

Ninetieth to Ninety-first Streets.—Repairing bulkhead and platform by A. Raymond. February 7th to March 18th, 1882.

DEPARTMENT OF DOCKS.

At a meeting of the Board of Docks, held May 4, 1881.

Present—The full Board.

On motion, Commissioner Dimock took the chair.

The minutes of the meetings held 22d, 25th, and 27th ultimo were read and approved.

The following communications were received, read, and,

On motion, laid on the table to await action, as stated, to wit :

From D. C. Newell & Sons—As to surrendering lease of bulkhead at Nineteenth street, North river, for purposes of building pier thereat.

From Charles E. Boardman, lessee—For consent to assign lease of bulkhead at West Eleventh street, North river, to Ransom Parker, and to erect platform and scales for conducting thereat a business in ice. Application denied for the present.

From Atlas Steamship Company, lessee—Inclosing plans for addition to the foundations of pier, new 55, North river, in order to properly sustain the shed to be erected by them upon said pier. Engineer in-Chief directed to examine and report on the same.

From James Wilson and others—To have pier built by the Department at Forty-ninth street, North river. Engineer-in-Chief directed to examine and report the condition of the premises.

From Fulton Market Fish Dealers—Stating that a stringer about eight inches square, fastened to the surface of Pier 22, East river, and extending the length of the pier, seriously interferes with the traffic thereat. Corporation Wharfinger for the district directed to examine and report on the same.

From Daniel S. McElroy—For permission to erect bulkhead and fill in behind the same on north side at Twenty-eighth street, East river. Engineer-in-Chief directed to examine and report on the condition of the premises.

From Bogert & Morgan, lessees of Pier, new 25, North river—Inclosing plans for shed to be erected by them thereat. Engineer-in-Chief directed to examine and report on the same.

From James B. Smith, Prodgers & Company—For permission to erect dumping board between Piers 2 and 3, North river.

MAY 4, 1881.]

2

The following communications were received, read, and,

On motion, placed on file, action being taken where necessary, as stated, to wit :

From Comptroller—Approving of sureties to contract of Joseph Walsh, for building pier Fifty-eighth street, North river, under estimates publicly opened 22d ultimo.

From John H. Starin—Accepting terms of resolution in reference to assignment of lease Pier, new 41, North river.

From New York City Ice Company, lessee—To have dredging done at bulkhead at Gansevoet street, North river. Engineer-in-Chief directed to make requisition for the necessary dredge, scow and labor, to excavate and remove from said premises such an amount of material so as to obtain depth of about ten feet at mean low water thereat.

From T. Eldridge, lessee—To have dredging done at bulkhead at Forty-second street, East river. Engineer-in-Chief directed to make requisition for the necessary dredge, scows and labor, to excavate and remove from the aforesaid premises such an amount of material as to obtain a depth of 10 feet at mean low water thereat.

From Engineer-in-Chief—Report as to work performed during the week ending April 30, 1881.

From Drew & Bucki—For consent to assign lease of part of bulkhead, between West Twelfth and Bloomfield streets, North river, and to erect platform and scales thereon for the discharging of ice. Application denied for the present.

From Old Dominion Steamship Company—Advising that their occupation of Pier, new 43, North river, terminates May 1, 1881. Secretary stating that the Corporation Wharfinger for the district had been directed to collect wharfage at said pier, from all vessels using the same, after May 1, 1881. Action approved.

From East River Bathing Company—For permission to place floating-bath at the Battery, for season of 1881. Application denied.

From R. Cornell White and others—For permission to erect a small passengers' house on Pier at Thirty-first street, East river. Application denied.

From Alexander Mason, lessee—To have dredging done at Pier 44, East river. Dredging already ordered by the Department to be done at the aforesaid premises.

From Counsel to the Corporation—In reference to chapter 147, Laws of 1881, relating to contracts.

From Michael Gregory, Night Watchman—Asking that he be allowed a hearing to answer malicious charges which had been made against him by the Engineer-in-Chief. Secretary directed to reply that no such charges had been preferred, and that he was discharged solely for being found absent from his duty.

From Bogert & Morgan—Asking that in case the Department should commence operations to demolish Pier, old 36, North river, and build on the site thereof a new pier by contract, the proper pro rata of rent for the unused time be credited to them, as rental of Pier, new 37, North river, from the date of their removal from Pier, old 36. Secretary directed to state in reply that, in such event, the rent of said pier will be properly adjusted by this Department.

From East River Bathing Company--For permission to place floating-bath at Pier at Third street, East river. Referred to the Treasurer with power.

From Engineer-in-Chief--Being report of additional force required in his Department.

From Police Department--Stating that there were two dangerous holes in the surface of Pier, East river. Engineer-in-Chief directed to repair said holes.

A communication was received from A. H. Bohler and others, asking that additional wharf accommodations be provided on the East river in the vicinity of Eighty-sixth street, and, being read, was,

On motion, referred to Commissioner Laimbeer to examine and report.

On motion of Commissioner Laimbeer, the following resolutions were adopted :

Resolved, That the Secretary be and hereby is directed to present all communications to some one of the Commissioners as soon as received.

Resolved, That tickets be issued by this Department at a cost to the purchasers of 20 cents for each single cart-load of clean sand, gravel or other suitable material, to be deposited at the several places now being filled up under the jurisdiction of this Department, such material to be subject to the supervision of the Engineer-in-Chief of this Department.

A communication was received from Matthew J. Brennan, resigning his position as Draughtsman in the Department, and, being read,

On motion, his resignation was accepted.

On motion of Commissioner Laimbeer, the following resolution was unanimously adopted :

Resolved, That the action taken in the case of Matthew J. Brennan, Draughtsman, not having been sufficiently well considered by the Board, is hereby reconsidered, and the resolution passed at its meeting held on 27th April, ultimo, be and the same is hereby rescinded.

On motion, the following resolutions were adopted :

Resolved, That Robert M. Kid be and is hereby appointed Draughtsman, to take charge of work, papers and material in Draughtsmen's Room, with compensation at \$1,200 per annum, for the present, to take effect from and after the 1st instant.

Resolved, That Edward C. Reynolds be and is hereby appointed Draughtsman, with compensation at \$1,000 per annum, for the present, to take effect from and after the 1st instant.

A communication was received from the Comptroller, remitting penalty imposed by this Department, against Ross & Sanford, contractors, for building Pier, new 36, North river, and, being read,

On motion, the following preamble and resolution was adopted :

Whereas, By virtue of the power vested in the Finance Department, by section 31 of chapter 335, Laws of 1873, the Comptroller has decided to remit the penalty imposed by this Department, against Ross & Sanford, for non-completion of work to be done within the time agreed upon under

MAY 4, 1881.]

4

their contract, for building Pier, new 36, North river, dated July 24, 1880, and deducted in sum of \$2,700 from audited claims, Nos. 6,750 and 6,791, on March 9, 1881, and April 20, 1881 respectively; therefore,

Resolved, That a requisition be and hereby is directed to be drawn upon the Comptroller the sum of \$2,700, being the amount now due said Ross & Sanford, under said audited claims, consequent upon the said penalties being remitted, and that the Bookkeeper charge the amount to said contract, so that the accounts of the Department shall exhibit Estimates No. 4 and No. (final), under said contract as settled and paid in full, in the sums of \$9,750, and \$35,700 respectively.

On motion, William D. Bryan was appointed a laborer.

On motion, the Board adjourned.

EUGENE T. LYNCH, Secretary.

At a special meeting of the Board of Docks, held May 6, 1881.

Present—The full Board.

On motion, Commissioner Dimock took the chair.

The Auditing Committee presented an audit of seven bills or claims, amounting to the sum of \$12,271.48, and, being read, was,

On motion, accepted and adopted, and the Secretary directed to forward the said bills, together with proper requisitions for the amount, to the Finance Department for payment.

The Committee of the full Board, to whom was referred the communication of John E. Walsh for building bulkhead wall by use of a coffer-dam, etc., received from the Commissioners of the Sinking Fund for examination, reported that the matter had been duly considered, and recommended that the Secretary be directed to address a communication to the Commissioners of the Sinking Fund, inclosing copy of communication from the Board to John E. Walsh, dated February 9, 1881, and to state, that the work now being constructed by this Department, at Chambers, Laight, and Twenty-third street sections, on the North river, was ordered to be performed by the force of the Department, otherwise than by contract, and that said work is at the present time so far advanced as to make it, in the opinion of this Board, very prejudicial to the city's interests to have it performed by contract; that the Commissioners of this Board have had for some time, and still have the question before it, of contracting the work in future for the construction of the bulkhead wall, but that the subject has not as yet been settled definitely in their minds, and that the cost of the bulkhead now being constructed by this Department, as can be shown by the records, is far below the price at which Mr. Walsh has offered to do similar work, and that, as the Commissioners of the Sinking Fund have not indicated the kind of report and nature of the

[MAY 6, 1881.]

information required, the Commissioners have submitted the foregoing, and will be pleased to furnish any additional information in their possession applicable to the subject.

On motion, the report of the Committee was accepted and the recommendation therein contained adopted.

On motion, the Board adjourned.

EUGENE T. LYNCH, Secretary,

At a special meeting of the Board of Docks, held May 9, 1881.

Present—The full Board.

On motion, Commissioner Dimock took the chair.

The minutes of the meeting held the 29th ultimo were read and approved.

On motion of Commissioner Dimock, it was unanimously

Resolved, That in accordance with the resolution of this Board passed unanimously March 16, 1881, the proper officers of this Board be and hereby are directed to execute the contract with the Union Dredging Company, referred to in said resolution.

Commissioner Dimock moved for adoption the following resolution :

Resolved, That Commissioner Laimbeer be and hereby is requested to sign said agreement for and in the place of the President of the Board.

The ayes and noes being called for and taken on the adoption of the resolution, it was adopted by the following vote :

Ayes—Commissioners Dimock and Vanderpoel.

No—Commissioner Laimbeer.

The application of James B. Smith, Prodgers & Co., for permission to erect dumping board between Piers 2 and 3, North river, was,

On motion, taken from the table and denied.

On motion, the Board adjourned.

EUGENE T. LYNCH, Secretary.

At a meeting of the Board of Docks, held May 11, 1881.

Present—The full Board.

On motion, Commissioner Dimock took the chair.

The minutes of the meeting held the 4th instant were read and approved.

The following communications were received, read, and,

On motion, laid on the table to await action, as stated, to wit :

From C. H. Mallory & Co., lessees—To have repairs made to Pier 21, East river, and dredging done.

From B. Wright, lessee—To have repairs made to Pier 61, and Pier at Thirty-eighth street, East river, and dredging done thereat.

From New Haven Steamboat Company, lessee—To have repairs made to Pier 25, East river, and dredging done thereat.

From Thomas F. Meagher, applying for position as Draughtsman in the Department.

From Engineer-in-Chief, as follows :

1st. In reference to condition of bulkhead between Twenty-eighth and Twenty-ninth streets, East river. Daniel S. McElroy, applicant for permission to erect bulkhead at upper side of Twenty-eighth street, East river, informed, that if he will obtain the consent of the lessee of Pier at Twenty-eighth street to the proposed improvement, then this Department will take the subject of his application under careful consideration.

2d. As to condition of Pier at Forty-ninth street, North river. James Wilson and others, applicants to have a pier built at foot of said street, requested to call on the Commissioners in reference thereto.

The following communications were received, read, and,

On motion, placed on file, action being taken where necessary, as stated, to wit :

From John H. Benner, lessee—To have repairs made to bulkhead at Forty-ninth street, East river. Engineer-in-Chief directed to repair the premises in accordance with his request.

From East River Ferry Company—Inclosing check for rent for ferry premises at Thirty-fourth street, East river, and reserving the rights on the question of title to the property.

From New York Central and Hudson River Railroad Company With approval of draft of lease for land under water, between Sixty-fifth and Seventy-second streets, North river. Counsel to the Corporation requested to prepare said lease for execution in accordance with the communication already transmitted to him.

From Health Department—In reference to the unsafe condition of pier at Fifty-seventh street, North river. Secretary directed to advise that the Engineer-in-Chief was, on 20th ultimo, directed to make the necessary repairs to said premises.

From Edward Dexter—For permission to erect a dumping-board on bulkhead at Thirtieth street, East river. Application denied.

From Comptroller—In reference to statement of accounts of the Department to be furnished him.

From Engineer-in-Chief, as follows :

1st. Reporting that he had suspended Charles Peters, Night Watchman, and Charles Meyers, Day Watchman, for having been found asleep while on duty at their posts. Action approved, and the said watchmen discharged.

2d. Report of the material excavated and removed by the Union Dredging Company, in Department dredges and scows, during the month of April, 1881. Secretary directed to forward bill to said company for the amount due for the use of said dredges and scows, with the request that they pay said amount to the Treasurer of this Department.

3d. As to the progress of the work of building Pier, new 55, North river.

4th. As to progress of the work of removing Pier, old 37, North river, and building Pier, new 26, North river.

From G. W. Rader and others—To have a pier built at Fifty-second street, North river. Applicants informed that it will not be practicable for this Department to build a pier at said premises, at present, as the lease thereof does not expire till May 1, 1882.

A communication was received from John G. Dale, agent, Inman Steamship Company (Limited), stating that as Pier, new 36, North river, is not yet completed and ready for use, the mooring-posts not being in position thereon, no rent should be charged for said pier till completed, and, being read,

On motion, it was

Resolved, That the effect of the resolution adopted by this Board on April 27th, ultimo, whereby May 1st, instant, was fixed as the time from which the rent of Pier, new 36, North river, should commence, be and is hereby suspended, until the Engineer-in-Chief of this Department shall have reported that the mooring-posts thereon are in position, and the pier completed and ready for use.

A report was received from William McConkey, Corporation Wharfinger, in reference to the permanent obstruction claimed to exist on Pier 22, East river, and, being read, was,

On motion, referred to Commissioner Laimbeer.

An application was received from Charles W. Raymond, Assistant Surveyor, asking that he be made Surveyor in the Department, and, being read,

On motion, it was,

Resolved, That Charles W. Raymond be and hereby is appointed Surveyor, with compensation at \$1,800 per annum, to take effect from and after the 12th instant, inclusive.

A communication was received from L. S. Wandell, offering to clean the dirt and refuse from the surface of piers at Thirteenth, Twenty-sixth, Thirtieth, Forty-sixth, Forty-seventh, and Fifty-first streets, North river, for the sum of \$65 each, in all, \$390, and, being read,

On motion, the Engineer-in-Chief was directed to make requisition upon the Treasurer for the cleaning of said piers, and that officer requested to have the work performed by L. S. Wandell.

On motion, the communication from D. C. Newell & Sons, offering to surrender their lease of bulkhead at Nineteenth street, North river, in order that a pier may be built thereat, was taken from the table and placed on file, and the following resolution adopted:

Resolved, That D. C. Newell & Sons be and hereby are informed that this Department accepts the surrender of the lease of bulkhead at Nineteenth street, North river, held by them, expiring May 1, 1882, from and after 1st instant, it being the intention of this Department to construct a pier thereat.

On motion, the application of George W. Bush, for permission to place a derrick on bulkhead between Piers, new 39 and 40, North river, was taken from the table and placed on file, and the applicant informed that this Department has no objection to his erecting and maintaining, during the pleasure of the Board, on the bulkhead between Piers, new 39 and new 40, North river, a derrick for the discharge of cargo thereat; provided that no charge shall be made for the use of said derrick to boats regularly berthed at the premises by the Harbor Master of the district.

On motion, the report of the Engineer-in-Chief on Secretary's order 1871, in reference to additional force required in the Department, was,

On motion, taken from the table and referred to Commissioner Laimbeer.

On motion, the application of J. and R. Darrow to erect platform between Forty-seventh and Forty-eighth streets, North river, and the report of the Engineer-in-Chief in reference thereto, were taken from the table and placed on file, and the following resolution adopted:

Resolved, That permission be and hereby is granted to J. and R. Darrow to drive piles and erect a platform in front of the southerly portion of the bulkhead between Forty-seventh and Forty-eighth streets, North river, occupied by them; the northerly line of said platform to extend westwardly about 27 feet to the line of the platform now existing, and thence to extend in a southerly direction to the point where the said bulkhead intersects the northerly line of the pier at Forty-seventh street, thereby forming a triangle. The work to be done under the supervision of the Engineer-in-Chief of this Department, and to remain during the pleasure of the Board.

On motion, the application of the Maine Steamship Company, lessees, to continue occupation of Pier 38, East river, after May 1, 1881, during the pleasure of the Board, at the same rate of rent as paid previously under their lease, was taken from the table and placed on file, and the following resolution adopted:

Resolved, That the Maine Steamship Company, lessee of Pier 38, East river, under lease expiring May 1, 1881, be and hereby is informed, that it is the intention of this Department, as soon as practicable, to rebuild the pier, and that said company can continue to occupy the premises, at the same rental as under the previous lease, until such time as this Department shall require possession of the pier for the purpose of rebuilding, and that in such case said company shall, upon five days' notice from this Department, vacate the premises.

The Treasurer, to whom was referred the application of the East River Bathing Company, to place floating bath at Pier at Third street, East river, reporting that he had arranged with the applicant to pay \$400 for the season, being same rate as paid by it last year, and to be payable in advance on July 15, 1881,

On motion, the action of the Treasurer was approved and confirmed.

Commissioner Laimbeer, to whom was referred the application of John G. White, for position as Master Dock-builder in the Department, reported that the subject of said appointment had received careful consideration, and recommended the adoption of the following resolution :

Resolved, That John G. White be and hereby is appointed Master Dock-builder, with compensation at the rate of \$100 per month.

On motion, the report was accepted, and the resolution so recommended adopted.

On motion, the Secretary was directed to notify the Old Dominion Steamship Company that the term of their lease of Pier, new 26, North river, is to be for ten years from May 1, instant, but that the rent for said pier is to be from the 1st of January last, as heretofore agreed upon, and that the change in date of the term of lease is made necessary, inasmuch as the pier was not set aside by action of this Board for the special kind of commerce, as carried on by said company, until the 27th ultimo.

On motion, it was

Resolved, That the term of the lease of Pier, new 26, North river, leased to the Old Dominion Steamship Company, be and hereby is fixed as for ten years from 1st May, instant, instead of from 1st January, 1881, as understood heretofore to have been agreed upon.

On motion, it was

Resolved, That every tenant or occupant of Corporation wharf property be and hereby is respectfully informed, that all rents must in the future be paid to the Treasurer, at the office of the Department, when due ; or proceedings will be at once taken to enforce payment, in accordance with the terms of their leases.

On motion, it was

Resolved, That Frederick P. Thompson be and hereby is appointed Assistant Surveyor, with compensation at \$1,200 per annum, to take effect from and after the 12th instant, inclusive.

On motion, it was

Resolved, That the Chief Clerk transmit to the Treasurer, on or before 12th instant, a statement of rents due and from whom due, up to date ; those in the hands of Counsel to the Corporation for collection not included.

A communication was received from John A. Bouker, offering to furnish rip-rap and cobble stone to the Department, and, being read,

On motion, it was unanimously

Resolved, That the Treasurer be and hereby is directed to purchase such quantities of cobble and rip-rap stone as may be required under the requisitions of the Engineer-in-Chief, to be delivered for the work of the Department, of John A. Bouker, at the following prices : for cobble, 98 cents per cubic yard, and for rip-rap, 62 cents per cubic yard, it being understood that not more than 5,000 cubic yards of each quality, nor more than 10,000 cubic yards of cobble and 15,000 cubic yards of rip-rap shall be required to be delivered on or before July 1, 1881, at said prices.

The report of the Engineer-in-Chief, dated April 20th ultimo, in reference to repairs required on piers, etc., the cost of which is in excess of \$1,000, was,

On motion, taken from the table and placed on file, and the Engineer-in-Chief directed to prepare specifications for having repairs made by contract to the following piers :

On North River.

Pier at Seventeenth street.
Pier at Eighteenth street.
Pier at Fortieth street.
Pier at Forty-seventh street.

On East River.

Piers, 21, 38, 44, 46, 58, 59, 60, and 62.

Commissioner Laimbeer, to whom was referred the application of H. Bohler and others, to have additional wharf accommodations provided in the vicinity of Eighty-sixth street, East river, reported that he had carefully considered the matter, and recommended that the said application be referred to the Engineer-in-Chief, with directions to prepare plans for building two bulkheads in the vicinity referred to, without delay.

The Board here went into executive session.

A communication was received from A. D. Williams, Chairman of Sub-Committee of the Committee on Commerce and Navigation of the Assembly, giving notice that Messrs. Cowdrey and Franklin had been appointed to examine the records of the Department, and, being read,

On motion, the Secretary was directed to request said Chairman to forward to this Department a certified copy of the resolution adopted by the Assembly, whereby power was given for the examination of the records of this Department.

A communication was received from William R. Grace, Mayor, inclosing communication of J. N. Watson, in reference to the lease of outer half of upper side of Pier 22, East river, purchased by the Morrisania Steamboat Company, at public sale held March 13, 1879, and also as to the lease of Pier 40, East river, purchased by Phelps Brothers, at public sale held March 22, 1881, and, being read,

On motion, the Secretary was directed to advise in reply, 1st, that at the sale of March 13, 1879, referred to, the Morrisania Steamboat Company was the highest bidder at public sale for the

property referred to, and that any arrearages of rent due from said company before that time have been fully paid; 2d, that the lease of Pier 40, East river, was offered by the Department at public sale held March 22, 1881, about one year before the expiration of the present lease, in consideration of the following facts: That Phelps Brothers & Co., occupants of the pier under lease to terminate May 1, 1882, were desirous of making very costly and extensive improvements to the premises, free of expense to the city. But as all of such improvements would revert to the city at the termination of the lease, they did not feel justified in making them, unless a longer lease than one year could be guaranteed by the city; that the improvements were absolutely necessary to enable the said occupants to provide for their rapidly increasing trade, and would be of much value to the city, and that the Department decided it was judicious to continue the lease. This could only be done at public auction. In order to guard against the possibility that a low rent might be bid under the circumstances, the Department placed on the property the very large upset price of \$9,000, instead of \$5,000, which it was then producing: the price of \$9,000 is a very full one, even after all the improvements shall have been made. And that the Department had full lawful power to do what was done, and that it was greatly for the interest of the city.

On motion, the following appointments were made, to wit:

W. Shortbridge, permanent Watchman.

J. H. Strickland, temporary Watchman.

Isaac T. Reeve, Watchman.

Otto Wickman, Watchman.

Michael Falvey, Watchman.

John Farrell, and James Attridge, Laborers.

On motion, the Board adjourned.

EUGENE T. LYNCH, Secretary.

At a meeting of the Board of Docks, held May 18, 1881.

Present—The full Board.

On motion, Commissioner Dimock took the chair.

The minutes of the meeting held the 9th instant were read and approved.

The minutes of the meeting held the 11th instant were then read.

Commissioner Laimbeer moved that the minutes be corrected, so that the resolution which was adopted appointing Charles W. Raymond, Surveyor, and fixing his compensation at \$1,800, should be changed so as to read \$1,500.

Commissioner Laimbeer here stated that he was confident that in the motion as passed the sum fixed was \$1,500 instead of \$1,800. Commissioner Dimock here stated that he distinctly re-

membered that in the motion which passed, and which was offered by Commissioner Laimbeer the sum of \$1,800 was named, and that the minutes in this respect were a precisely correct record of what actually transpired, and that if it was desired by Commissioner Laimbeer to change the salary, the only way in which it would be proper and legal to do this, under the circumstances, would be by a motion to reconsider.

The ayes and noes being called for and taken on the motion of Commissioner Laimbeer, it was lost by the following vote :

Aye—Commissioner Laimbeer.

Noes—Commissioners Vanderpoel and Dimock.

On motion of Commissioner Dimock, the minutes of the meeting held 11th instant, as read, were approved as correct, by the following vote :

Ayes—Commissioners Vanderpoel and Dimock.

No—Commissioner Laimbeer.

The following communications were received, read, and,

On motion, laid on the table, to await action, as stated, to wit :

From Health Department—To have Riverside Hospital Dock, Blackwell's Island, repaired. Engineer-in-Chief directed to examine and report the repairs required.

From Mutual Benefit Ice Company, lessee—To have repairs made and dredging done at Pier 62, East river, upper-half.

From Mutual Benefit Ice Company, lessee—To have repairs made and dredging done at Piers at Fifteenth, Sixteenth, and One Hundred and Twenty-ninth streets, North river. Repairs and dredging to the aforesaid premises already ordered by the Department, except dredging at Fifteenth street.

The following communications were received, read, and,

On motion, placed on file, action being taken where necessary, as stated, to wit :

From Police Department—In reference to removal of dumping board from Twenty-first street, North river, to Nineteenth street, North river.

From William D. Brown—Asking that a lease be granted him of pier at Fifty-first street, North river. Applicant informed that said pier cannot be leased, except at public auction.

From Joseph McDonald & Co.—In reference to repairs needed to pier at Twenty-eighth street, North river. Engineer-in-Chief directed to repair said pier, to render it fit for immediate use.

From Consumers' Ice Co., lessee—To have repairs made and dredging done at Pier at Horatio street, North river. Dredging and repairs to the aforesaid premises already ordered by the Department.

From Frank E. Wise, lessee—To have repairs made and dredging done at Seventy-ninth street, East river. Dredging and repairs to the aforesaid premises already ordered by the Department.

From Joseph Cooper, lessee—To have repairs made to Pier 60 and adjoining bulkhead, East river. Engineer-in-Chief directed to repair said premises, so as to be safe for immediate use.

From T. Eldridge, lessee—To have dredging done at bulkhead at Forty-second street, East river. Dredging already ordered to be done at said premises.

From Engineer-in-Chief, as follows :

1st. Report as to work performed during the week ending May 7, 1881.

2d. As to repairs required to the following named piers, to put them in safe condition until contracts can be made for rebuilding them, or extensive repairs made thereto, viz. :

On North River.

Pier at Twenty-eighth street, at a cost of about \$150.

Pier at Thirtieth street, at a cost of about \$400.

Pier at Forty-sixth street, at a cost of about \$600.

Pier at Forty-seventh street, at a cost of about \$275.

Pier at Fifty-first street, at a cost of about \$200.

Pier, old 54, at a cost of about \$600.

Engineer-in-Chief directed to repair said piers in accordance with his report.

From Assembly, Albany—Being copy of resolution adopted authorizing a Committee to investigate the affairs of the Department of Docks.

From Daniel Dailey, lessee—To have dredging done at bulkhead at Fourteenth street, East river. Dredging thereat already ordered by the Department.

From Police Department—As to proposed change in the dimensions of the runway and dumping board proposed to be built at Nineteenth street, North river, for the use of said Department. Engineer-in-Chief directed to prepare plans, etc., for building said dumping board, in connection with the pier, by contract, in conformity with the suggestions of the Police Department.

From Engineer-in-Chief, submitting form of contract and specifications for dredging at various piers and bulkheads on the North and East rivers, as ordered on Secretary's orders, 1875, 1876, and 1877. Secretary directed to have a sufficient number of proposals for doing said work printed and submitted to the Board for approval.

An application was received from dock-builders employed by the Department, asking for an increase of wages, and, being read, was,

On motion, referred to a Committee of the full Board.

A communication was received from the Engineer-in-Chief, as to the condition of water-front, between Thirty-seventh and Thirty-eighth streets, East river, and, being read, was,

On motion, referred to Commissioner Vanderpoel.

A communication was received from the Counsel to the Corporation, to have tracings made of the water-front, between Sixty-fifth and Seventy-second streets, North river, to attach to lease to New York Central and Hudson River Railroad Company, and, being read, was,

On motion, referred to the Engineer-in-Chief, to have said tracings prepared, and forward the same to the Counsel to the Corporation, in accordance with his request.

An application was received from Edward Brown, to lease portion of the water-front, between Ninety-second and Ninety-third streets, East river, and, being read, was,

On motion, referred to Commissioner Vanderpoel for examination and report.

An application was received from Lewis S. Wandell, offering to clean dirt and refuse from piers at Fortieth and Fifty-seventh streets, North river, and, being read, was,

On motion, referred to Commissioner Vanderpoel, with power.

A communication was received from A. Sherman and R. Parker, as to the lumber incumbering the bulkhead at Little Twelfth street, North river, and, being read,

Commissioner Dimock offered for adoption the following resolution :

Resolved, That the Corporation Wharfinger for the district be and hereby is directed to serve a notice in due form upon the owners of the lumber incumbering the bulkhead at Little Twelfth street, North river, to remove the same, and that in case of neglect on their part so to do, then this Department will impose the penalty, as provided for by the regulations of this Board.

The ayes and noes being called for and taken, on the adoption of the resolution, it was adopted by the following vote :

Ayes—Commissioners Vanderpoel and Dimock.

Commissioner Laimbeer not voting.

On motion, the Engineer-in-Chief was directed to replace the stone dump in front of the bulkhead at Forty-ninth street, East river, without delay.

The Auditing Committee presented an audit of thirty-one bills or claims, amounting to the sum of \$47,732.76, and, being read, was,

On motion, accepted and adopted, and the Secretary directed to forward the said bills, together with proper requisitions for the amount, to the Finance Department for payment.

David Whipple appeared in reference to the amount of rent due from him as lessee of the westerly half of Pier 12, East river, and, being heard at length,

On motion, the subject matter was referred to Commissioners Laimbeer and Vanderpoel.

On motion, the subject of repairs to be made to the pier at Fortieth street, North river, was referred to Commissioner Vanderpoel, to confer with James McClenahan, the lessee of the pier.

The Secretary presented form of lease of the Manhattan Real Estate Association, for the Department Offices, at 117 and 119 Duane street, etc., dated April 30, 1881, for the term of one year from May 1, 1881, at the yearly rent of \$6,000.

On motion, the same was approved, and the officers of the Board empowered and directed to execute the same.

Commissioner Laimbeer offered for adoption the following resolution :

Resolved, That the practice of paying car fares for employees be abolished from June 1, proximo.

The ayes and noes being called for and taken on the adoption of the resolution, it was adopted by the following vote :

Ayes —Commissioners Vanderpoel and Laimbeer.

No—Commissioner Dimock.

On motion of Commissioner Laimbeer, it was

Resolved, That no compensation be paid to employees of this Department, when absent from duty by sickness or otherwise, unless excused by one of the Commissioners.

On motion of Commissioner Dimock, the following resolutions were adopted.

Resolved, That the Chief Clerk be and hereby is directed, in closing the books of the Department for the fiscal year ending 30th ultimo, to charge the following accounts to the Counsel to the Corporation for collection, and that a statement of the particulars thereof be transmitted to that officer, to wit :

John W. Manning	\$45 00
Charles P. Martin.....	25 00
Adolph L. Kerker.....	2,100 00
David Whipple (Assignee).....	1,927 50
John Burns	50 00
Morrisania Steamboat Company.....	250 00
Hudson Tunnel Railway Company.....	1,500 00

Resolved, That the Treasurer be and hereby is authorized and directed to transmit to the Counsel to the Corporation, from time to time, as they may accrue, any and all claims for arrearages of rent or otherwise, which, in his judgment, he may deem advisable for the interests of the city to have collected in that manner.

Commissioner Laimbeer, to whom was referred the report of Corporation Wharfinger, Wm. McConkey, in reference to the obstruction reported to exist upon the surface of Pier 22, East river, reported that he had examined the premises, and would recommend that the Union Ferry Company, lessee of the lower side of the pier, be directed to cause the removal of the timber, about 8 inches square, now fastened to the surface of the westerly side of Pier 22, East river, so that the space reserved for passengers shall not exceed a space of five feet in width.

On motion, the report was accepted and the recommendation therein adopted.

A special report was received from James Fitzpatrick, Corporation Wharfinger, in reference to the non-removal of the lumber owned by Decker & Rapp from bulkhead between Bank and Canal streets, North river, after notice to remove the same had been served, and also as to the piling of brick on Pier at foot of Forty-seventh street, North river, landed from the barge S. H. Daytor,

and sloop Mary A. Smith, on the 3d and 7th instant, respectively, after notice to discontinue landing the same had been given, and, being read,

On motion, the following resolution was unanimously adopted :

Resolved, That a penalty be and hereby is imposed upon Decker & Rapp, in the sum of \$1,900, being \$50 per day, from April 1 to May 9, 1881, in all thirty-eight days, for failure to remove the lumber owned by them from bulkhead between Jane and Horatio streets, North river, after notice to remove the said lumber had been served upon them by the Corporation Wharfinger of the district, in compliance with the regulations adopted by this Department for piers, bulkheads, and slips.

Commissioner Dimock moved that James Fitzpatrick, Corporation Wharfinger, be directed to serve a notice upon the owners of the brick piled upon Pier at foot of Forty-seventh street, North river, to remove the same, and in case they shall neglect so to do, a penalty of \$50 will be imposed for each day said brick shall remain after the time has expired within which they shall have been notified to remove the same.

The motion of Commissioner Dimock was passed by the following vote :

Ayes—Commissioners Dimock and Vanderpoel.

No—Commissioner Laimbeer.

Commissioner Laimbeer stated, that in voting against the resolution he did so, because in his opinion, sufficient notices have already been given by the Corporation Wharfinger for the removal of said brick.

A communication was received from the Counsel to the Corporation in reference to the balance due John M. C. Scully, contractor, viz. : \$756.39 under contract dated July 14, 1879, and, being read,

On motion, the Chief Clerk was directed to prepare the said final estimate for the next audit of the Department.

On motion, Thomas Cassidy and John Healy were appointed as laborers, and George Feiss as watchman.

On motion, the Board adjourned.

EUGENE T. LYNCH, Secretary.

At a meeting of the Board of Docks, held May 25, 1881.

Present—The full Board.

On motion, Commissioner Dimock took the chair.

The minutes of the meetings held the 6th and 18th instant, were read and approved.

The following communications were received, read, and,

On motion, laid on the table to await action, as stated, to wit :

From P. White's Sons—To have dredging done on north side of Pier 61, East river, for berth used by Health Department. Engineer-in-Chief directed to examine and report the dredging required.

From Allan Campbell, Comptroller, in behalf of the Commissioners of the Sinking Fund—Asking that he be furnished with a statement of the reasons why it is desirable that the lines of Piers, new 49 and new 51, North river, be changed, as provided for in resolution adopted April 2d last.

Commissioner Dimock requested to confer with the Comptroller in reference thereto.

From New York and Baltimore Transportation Line—Asking that an examination be made of the slip between Piers 6 and 7, North river, and if in the opinion of this Board, any dredging is necessary thereat, that notice be sent to the owners of said piers to have the work performed. Engineer-in-Chief directed to examine and report the condition of the slip.

From Stephen A. Frost—In reference to the repairs required to Pier 19, East river. Engineer-in-Chief directed to prepare plan for repairing the westerly side thereof in conjunction with the owners of the easterly side.

Draft of advertisement for sale, at public auction, of old material, etc., belonging to the Department.

From Engineer-in-Chief—Reporting the completion of Pier, new 36, North river.

The following communications were received, read, and,

On motion, placed on file, action being taken where necessary, as stated, to wit :

From Police Department—As to repairs required to Piers 58 and 59, East river. Secretary reporting that on the 21st inst., by direction of the Commissioners, the Engineer-in-Chief had been directed to repair the aforesaid premises, to render them safe for travel, until they can be thoroughly repaired. Action of Commissioners approved.

From Police Department—In reference to the manner of constructing the proposed dumping board, and approach thereto on Pier at Nineteenth street, North river. Engineer-in-Chief directed to prepare plan, etc., for building the said dumping board, etc., in connection with the pier, by contract, in accordance with the suggestions contained in said communication. Directions to the Engineer-in-Chief on 18th instant, on Secretary's order, 1908, in relation to said dumping board, countermanded.

From Department of Public Works—To have repairs made to the bulkhead at Pier, old 37, North river. Engineer-in-Chief directed to repair said bulkhead in accordance with his report on Secretary's order, 1914, at a cost of about \$50.

From Iron Steamboat Company—To have timber, etc., removed from the vicinity of Pier at Twenty-third street, North river, in order to facilitate the mooring of the boats of said company thereat. Engineer-in-Chief directed to have said timber removed.

From Department of Public Works—To have fenders, floats, etc., placed for the protection of the free floating baths to be moored at Gouverneur slip, Fifth, Nineteenth, Thirty-seventh, and One Hundred and Twelfth streets, East river, at the Battery, and at Bethune and Fifty-first streets, North river. Engineer-in-Chief directed to do the work in accordance with said application.

From John Taylor Johnston—To have the dumping-board at West Twelfth street removed to some other locality. Applicant informed that said dumping-board is in use by the Police Department, and that consequently any application for its removal should be made to that Department.

From J. B. Bacon—Applying for position of Inspector in the Department of Docks.

From Austin Baldwin & Co.—In reference to a lease of Pier, new 37, North river, applied for by them.

From James Fitzpatrick, Corporation Wharfinger :

1st. As to removal of lumber by Drew and Bucki, from bulkhead south of Little Twelfth street, North river.

2d. As to removal of brick from pier at Forty-seventh street, North river.

From Engineer-in-Chief, as follows :

1st. Report as to work performed during the week ending May 14, 1881.

2d. Reporting that he had suspended Otto Wyckman, Night Watchman, for being found asleep, while on duty at his post. Action approved and the said watchman discharged.

3d. As to repairs ordered to the bulkhead at Thirtieth street, East river.

4th. In reference to completion of Pier, new 40, North river, and dredging thereat.

From Knickerbocker Ice Company, lessee of south side of Pier at Thirty third street, East river—To have piles and timber removed therefrom. East River Ferry Company, owner of said piles, directed to remove the same in order that the surface of said pier may be repaired by this Department.

From Morris Wasel—To lease Piers at Thirtieth street, and Fifty-first street, North river. Applicant informed that said piers cannot be leased except at public auction.

A report was received from John Butler, Corporation Wharfinger, recommending the removal of the coal hoppers now upon Pier at Twenty-third street, East river, and, being read, was,

On motion, referred to Commissioner Laimbeer.

An application was received from the Department of Public Charities and Correction, to have repairs made to the coal dock at Ward's Island, East river, and being read, was,

On motion, referred to Commissioner Laimbeer.

A report was received from the Engineer-in-Chief—As to repairs made, for and on account of Thomas Fitzpatrick, lessee, to Pier at Forty-seventh street, North river, at a cost of \$50.03, and, being read, was,

On motion, referred to the Treasurer for collection.

A communication was received from C. H. Mallory & Company, lessees of Pier 21, East river, asking that when said pier is repaired by the Department, it be widened ten feet on the westerly side, and, being read, was,

On motion, referred to the Engineer-in-Chief for examination and report.

A communication was received from the Engineer-in-Chief, as to notice to be given to Ross & Sanford, contractors, for building Pier, new 56, North river, as provided for by paragraph 66, under their contract, and being read,

On motion, it was

Resolved, That Ross & Sanford be and hereby are notified and informed, that the dredging by the Department for the site of the outer portion of Pier, new 56, North river, was completed on May 21, 1881, and that in conformity with paragraph 66 of their contract, dated March 1, 1881, for building said pier, the work of construction thereunder must proceed without delay; and further that the date of expiration of said contract is extended, consequent upon said dredging, to September 20, 1881.

A communication was received from the Engineer-in-Chief, as to dredging required at the following piers and bulkheads on the North river, leases of which have been recently sold at public sale, viz.: Pier north of Bloomfield street, Piers at Fifteenth, Seventeenth, and Eighteenth streets, and bulkhead at Fourteenth street, and, being read,

On motion, the Engineer-in-Chief was directed to have the dredging of said slips included in the contract and specifications for dredging various slips, ordered by the Board to be printed on the 18th instant.

Commissioner Vanderpoel, to whom was referred with power the application of L. S. Wandell, to remove the dirt and refuse from surface of Piers at Fortieth street and Fifty-seventh street, North river, reported he had conferred with the applicant, and had arranged with him to have his work performed for the price of \$65 for each pier.

On motion, the action as had, was approved.

N. L. McCready, President of the Old Dominion Steamship Company, appeared in reference to the rent to be charged for the partial use by said company of Pier, new 26, North river, and being heard at length in reference thereto,

On motion, it was

Resolved, That the Old Dominion Steamship Company be and hereby are notified and informed that consequent upon the partial occupation and use of Pier, new 26, North river, by said company, awaiting its entire completion, a charge, as for rent, is hereby made from January 1, 1881, to May 1, 1881, at the rate of \$15,000 per annum.

A. T. Decker, of Decker & Rapp, appeared and stated that it would be impossible to continue his business, if he was obliged to remove his lumber from piers and bulkheads as soon as discharged, and, being heard at length,

On motion, the Secretary was directed to notify said firm, that no final action was had upon the subject of the immediate removal of the lumber owned by them, now incumbering several bulkheads on the North river, and that action has been suspended, to allow a further consideration of the subject by the Board.

On motion of Commissioner Laimbeer, it was,

Resolved, That the resolution of this Board, adopted the 18th instant, whereby certain fines were imposed upon Decker & Rapp, for non-compliance with the notice of the Corporation Wharfing of the district, for the removal of lumber owned by them, from bulkheads on the North river, be and the same is hereby rescinded.

On motion, the Engineer-in-Chief was directed to take down and remove, with the force of the Department, the old shed on the bulkhead between Piers 30 and 32, North river, lately occupied by the New York, Lake Erie and Western Railroad Company.

On motion, the following preamble and resolution was adopted :

Whereas, A claim of \$1,927.50 against David Whipple, assignee, lessee of the west half of Pier 12, East river, for rent due to May 1, 1881, was directed by this Board on the 18th instant to be transmitted to the Counsel to the Corporation for collection ; and ;

Whereas, The said pier is being thoroughly repaired, and has been in the possession of the contractor since about February 15, 1881, therefore,

Resolved, That the Secretary be and hereby is directed to advise the Counsel to the Corporation of all the facts connected with the breaking down of said pier, and its occupation by the contractor, and to state that in the judgment of this Board, a fair allowance should be made, if it may legally be done, from the said claim, consequent upon the said lessee not enjoying possession of the premises during the full term of his lease.

On motion, the following appointments were made, to wit :

Mike McCarthy, as Engineer, on trial, at \$18 per week.

Thomas J. Mallon, Inspector of dumping dredged material.

James Cavanagh, Dock-builder.

William Fitzgerald, temporary Mason, for one week.

Hugh Murray, John Sheehan, John Murray, Jeremiah Sweeny, James Coffee, John Clampett, William Butler, Patrick Reynolds, Thomas Noonan, Thomas Sullivan, Francis Fitzpatrick, John

[MAY 25, 1881.]

Loge, Patrick Devin, John McGilbrey, William Boyce, Neil McLeod, John Reilley, William Hayes, August Johnson, and John Tietgen, as laborers.

On motion, the Board adjourned.

EUGENE T. LYNCH, Secretary.

By consent of the Commissioners, the regular meeting to be held on Wednesday, June 1st, was postponed until June 2, 1881.

Wednesday, June 1, 1881.

EUGENE T. LYNCH, Secretary.

At a meeting of the Board of Docks, held June 2, 1881.

Present—The full Board.

On motion, Commissioner Dimock took the chair.

The minutes of the meeting held 25th ultimo were read and approved.

The following communications were received, read, and,

On motion, laid on the table to await action, as stated, to wit:

From Franklin Wight—For permission to insert drain-pipe from 229 South street to the bulkhead between Piers 39 and 40, East river. Applicant informed orally to call at the Department of Public Works, and ascertain if a proper connection can be made with the public sewer in Market street.

From Engineer-in-Chief—In reference to the additional foundations for Pier, new 55, North river. Secretary directed to notify Pim, Forwood & Co., agents, Atlas Steamship Company, that if they will obtain and file in this Department a certificate from the contractor for building said pier, that the additional foundations which they propose to place thereat, at their own cost and expense, can be done without detriment to any obligation on his part under his contract, then this Department will further consider the subject of their application.

The following communications were received, read, and,

On motion, placed on file, action being taken where necessary, as stated, to wit:

From Thomas Clyde, lessee—To have repairs made and dredging done at Piers 33 and 34 East river. Applicant informed that the work of repairs and dredging required at said premises, had been ordered to be performed prior to the receipt of his communication.

From Department of Public Charities and Correction—To have Pier at Bellevue Hospital, East river, repaired; also report from the Engineer-in-Chief on the same. Engineer-in-Chief directed to make the repairs in accordance with his report, at a cost of about \$400.

From Atlas Steamship Company—In reference to the slow progress of work of building Pier, new 55, North river. Secretary reported that, by direction of the Commissioners on 28th ultimo, a communication had been sent to Holmes Brothers, contractors for building said pier, that the work must be prosecuted with greater dispatch, and stating that, in their judgment, the work of construction might be facilitated by procuring an additional pile-driver.

From Holmes Brothers—Stating their intention of placing an additional pile-driver on the work of constructing Pier, new 55, North river.

From J. L. & D. S. Riker—In reference to the notice served upon them by the Corporation Wharfinger of the district, for the removal of casks of bleaching powder on Piers 3 and 4, East river, and stating that the goods did not now belong to them. Corporation Wharfinger McConkey to confer with Burdett & Dennis, auctioneers, as to the ownership of said casks, and then to notify the owners to remove the same forthwith.

From Austin Baldwin & Company—In reference to their application for lease of a new pier, etc.

From G. B. Massey—In reference to the mooring of a floating bath owned by Isaac Hall, on the North river, in front of the Battery. Applicant heard in reference to same and informed that no permission had been granted by this Department for placing the bath at the point designated.

From John H. Starin and Knickerbocker Ice Company—In reference to the piles incumbering the service of the north side of the Pier at Thirty-third street, East river, preventing the free use of the premises. East River Ferry Company, owner of said piles, directed to remove the same forthwith.

From Charles W. Raymond—Resigning his position as Surveyor in the Department. Resignation accepted.

A communication was received from the Engineer-in-Chief in reference to the delivery of cement under contract with William H. Thompson, and, being read,

On motion, the following resolution was adopted:

Resolved, That this Board hereby certify to the Comptroller that the failure of William H. Thompson to deliver, within the several times stipulated therefor, the several quantities of cement to be furnished the Department under his contract for about 5,000 barrels of Portland cement, dated March 25, 1881, has not caused the Corporation to sustain any loss or damage whatsoever, nor has the work of the Department been delayed thereby; the construction of the several sections of the bulkhead wall for which the cement was ordered, having been delayed by other unavoidable causes.

A report was received from the Engineer-in-Chief submitting form of contract and specifications for building Pier, new 57, North river, and, being read,

On motion, it was

Resolved, That the form of specifications and contract, as prepared by the Engineer-in-Chief, for building Pier, new 57, North river, be and hereby is approved and adopted, subject to the approval of the Counsel to the Corporation as to form, and that the Secretary be and hereby is directed to have a sufficient number of blank forms of proposals printed, and proper advertisements inviting bids for doing said work, inserted in the papers designated by law.

An application was received from the East River Bathing Company for permission to place bath at Fifty-first street, East river, and, being read, was,

On motion, referred to Commissioner Vanderpoel.

The Auditing Committee presented an audit of twenty-five bills or claims, amounting to the sum of \$33,823.39, and, being read, was,

On motion, accepted and adopted, and the Secretary directed to forward the said bills, together with proper requisitions for the amount, to the Finance Department, for payment.

An application was received from P. and A. McDonnell, for permission to change the location of the derrick on the bulkhead north of Pier, new 1, North river, and, being read, was,

On motion, referred to Commissioner Vanderpoel.

An application was received from George S. Thompson, on behalf of Frank & Son, and others, dealers in building materials, for additional wharf accommodation above Sixty-second street, East river, and, being read, was,

On motion, referred to a Committee of the full Board.

An application was received from George S. Thompson, on behalf of cartmen and transporters of freight from vessels, residents of the Nineteenth Ward, of the City of New York, for additional wharf accommodation above Sixty-second street, East river, and, being read, was,

On motion, referred to a Committee of the full Board.

The subject of the title to the several portions of the water-front between Eighty-sixth and Ninety-sixth streets, East river, shown upon the tracings prepared by the Engineer-in-Chief, was,

On motion, referred to Commissioner Laimbeer, for examination and report.

A communication was received from the Old Dominion Steamship Company, stating that the President of said Company was temporarily absent from the city, and that upon his return he would call upon the Commissioners in reference to the unadjusted rent for Pier, old 37, North river, and being read, was,

On motion, laid on the table, and the Secretary directed to request him to call at this Department upon his return to the city.

On motion, the Board adjourned.

EUGENE T. LYNCH, Secretary.

At a meeting of the Board of Docks, held June 8, 1881.

Present—The full Board.

On motion, Commissioner Dimock took the chair.

The minutes of the meeting held the 2d instant were read and approved.

The following communications were received, read, and,

On motion, laid on the table to await action, as stated, to wit :

From Iron Steamboat Company—For permission to cut down the end of Pier, new 1, North river, in two places, to facilitate the landing of their passengers from their boats. Engineer-in-Chief directed to examine and report on the same.

From Stephens and Condit Transportation Company, lessees—For permission to erect small triangular platform at Pier 22, North river. Applicants requested to call on the Commissioners in reference to the same.

From Engineer-in-Chief—As to the widening of Pier 21, East river, on its westerly side. C.H. Mallory & Company, applicants for said improvement appeared, and were heard in reference to the additional rent to be charged for the addition, if made, to the pier.

From James Fitzpatrick, Corporation Wharfinger—As to incumbrances on bulkhead between Bank and Jane streets, North river, bulkhead south of Pier at Little Twelfth street, and bulkhead between Twenty-first and Twenty-second streets, North river.

From Schwarzschild & Sulzberger—For permission to erect platform between Forty-fifth and Forty-sixth streets, East river. Engineer-in-Chief directed to examine and report the condition of the premises.

The following communications were received, read, and,

On motion, placed on file, action being taken where necessary, as stated, to wit :

From Theodore F. Tone, lessee—To have repairs made and dredging done at Piers at One Hundred and Twenty-ninth, One Hundred and Thirtieth and One Hundred and Thirty-first streets, North river. Applicant informed that repairs and dredging to be done at said premises have been ordered.

From John J. McCook, lessee—To have repairs made and dredging done at bulkhead at Fourteenth street, North river. Applicant informed that repairs and dredging to be done at said premises have already been ordered.

From Counsel to the Corporation—In reference to form of contract for dredging various slips on the North and East rivers.

From New York, Ontario & Western Railway Company—In reference to the use of the Borer "Woodcock," loaned to it by the Department; also report of the Engineer-in-chief in reference to the same. Engineer-in-Chief directed to report when the boring rods belonging to said machine, lost while in service by said company, are replaced.

From Daniel Dailey, lessee—To have dirt and refuse removed from the bulkhead at Fourteenth street, East river. Secretary directed to address a communication to the Police Department, calling attention to the communication sent them on the 29th of April last, in reference to the removal of the refuse from the aforesaid premises, and requesting that the said dirt and refuse be removed without delay, as the lessee cannot use the premises in their present condition.

From John Russell's Sons and others—To have the Public Bath removed from Pier at Fifty-first street, North river, in order to afford additional wharf accommodations thereat. Commissioner of Public Works requested to advise this Department in writing if it is possible and expedient to have said bath removed to some other location.

From D. P. Turcott—In reference to his discharge from service in the Department.

From T. Eldridge—To have dredging done at Forty-second street, East river. Applicant advised that dredging at said premises has already been ordered.

From Union Stock Yard and Market Company—To have a runway cut in the end of pier to be built by this Department, at Fifty-eighth street, North river. Applicants informed that this Department has no objection to them having said runway made under the supervision of the Engineer in-Chief of this Department, provided they make arrangements with the contractor for building said pier, to do the work at their own cost and expense, and obtain from him, and file in this office an agreement to the effect that the making of said improvement shall not in any way affect his obligations under the contract with this Department for building said pier.

From Maine Steamship Company—To repair shed on Pier 38, East river, and hold occupation of said pier till May 1, 1882. Applicant informed that his request cannot be granted, as it is the intention of this Department to enter very soon upon the premises for the purpose of rebuilding the same.

From P. Hotchkiss—In reference to stone incumbering the bulkhead between Horatio and Gansevoort streets, North river. Corporation Wharfinger for the district directed to notify the owners of said stone to remove it forthwith.

From T. Clyde, lessee—In reference to having repairs made to the portion of Piers 33 and 34, East river, owned by private parties, at the same time that this Department is repairing the portions owned by the city. Engineer-in-Chief directed to prepare form of contract and specifications for having the work done by the private owners conjointly with this Department.

From Arthur D. Williams, Chairman—In reference to resolution of Legislature limiting the time for investigating the affairs of the Department of Docks.

From New York, Lake Erie, and Western Railroad Company—Requesting that the coping be so placed on bulkhead wall, between Piers, new 20 and new 21, North river, occupied by them, as to bring it on a level with the piers, in order to facilitate the discharge of freight, etc., and also to erect sheds on said bulkhead, etc. Secretary directed to state in reply, that this Department cannot comply with its request in either case, it never having agreed to give permission for the erection of sheds upon the said bulkhead, or others constructed upon the new plan adopted by this Department for the improvement of the water-front; and further, that the Engineer-in-Chief has been instructed to proceed with the work of placing the coping in position from the north to the south end of the bulkhead in question.

From Theodore F. Tone, lessee—To have spring piles placed at Pier at One Hundred and Twenty-ninth street, North river, for the protection of steamboats landing passengers thereat. Engineer-in-Chief directed to do the work.

From William McConkey, Corporation Wharfinger—In reference to the casks of bleaching powder incumbering Piers, 3 and 4, East river. Secretary directed to notify the owners of said piers, and J. L. and D. S. Riker, and Wing and Evans, consignees of said casks, to remove the same forthwith, in default of which the penalty of \$50 per day, established by this Department for failure to comply with the notice of removal, will be imposed.

From Engineer-in-Chief—Reporting the return of Department Pile-driver No. 7, loaned to Holmes Brothers. Secretary directed to forward bill to said Holmes Brothers, for the amount due for the use of said pile-driver, with the request, that they pay said amount to the Treasurer of this Department.

A communication was received from the Hoboken Land and Improvement Co., in reference to their application to improve the ferry premises at Barclay street, North river, and, being read, was,

On motion, referred to a Committee of the full Board.

A communication was received from the Engineer-in-Chief, suspending Thomas Potter, Watchman, for absence from duty, and, being read, was,

On motion, referred to Commissioner Vanderpoel.

Commissioner Vanderpoel, to whom was referred the application of the East River Bathing Company to locate a bath at Pier at Fifty-first street, East river, reported that he had conferred with the applicants, and that they had consented to pay the sum of \$200 as rent for the use of said premises.

On motion, the report was accepted, and the following resolution adopted :

Resolved, That permission be and hereby is granted to the East River Bathing Company to place and maintain during the pleasure of the Board at the foot of Fifty-first street, East river, a floating bath ; provided said company shall file in this Department an agreement to pay, on the 15th of July next, the sum of \$200 as rent for said premises for the season of 1881.

Commissioner Vanderpoel, to whom was referred the application of P. & A. McDonnell, to have the location of the derrick on bulkhead north of Pier, new 1, North river, changed, reported that he had conferred with the applicants, and recommended that their petition be denied.

On motion, the report was accepted, and the aforesaid application denied.

The application of Crawford Maxwell, for permission to insert drain-pipes through the bulkhead at Jackson street, East river, was,

On motion, taken from the table and denied.

The Secretary reporting that, by direction of the Commissioners, permission had been granted on the 4th instant to Franklin Wight to insert a six-inch drain-pipe in bulkhead, between Piers, 39 and 40, East river, the consent of the owners of said bulkhead having been filed in this office,

On motion, the action of the Commissioners was approved.

W. J. Preston appeared, and was heard in reference to the application for building a pier at Forty-ninth street, North river, and stated he would confer with those interested, and advise what rent he would be prepared to give for said pier when built.

N. L. McCready appeared in reference to the rent to be charged for Pier, old 37, North river, and, being heard in reference thereto,

On motion, it was

Resolved, That the Treasurer be and hereby is authorized and directed to cause to be charged and collected from the Old Dominion Steamship Company, in conformity with resolution adopted July 16, 1879, the sum of \$1,000, as wharfage, due for the use of a portion of Pier, old 37, North river, while awaiting the completion of Pier, new 26, North river, erected on the site thereof.

On motion, the Secretary was directed to notify C. H. Mallory & Company, lessees of Pier 21, East river, that before the Department can proceed to make the desired improvement, it will be necessary that they file in this office an agreement, in writing, to pay as rent for the addition to the width of the pier the sum of \$800 per annum, and also to obtain the written consent of the lessees of the bulkhead between Piers 20 and 21, to the proposed widening of Pier 21.

Commissioner Laimbeer reporting that he had on the 6th instant suspended Thomas McCarthy, Senior, Foreman of earth-filling at Chambers street section,

On motion, the matter was referred to Commissioner Laimbeer for examination and report.

A report was received from the Engineer-in-Chief submitting form of contract and specifications for repairing piers at Seventeenth, Eighteenth, Thirty-fourth, Fortieth, Forty-seventh, and One Hundred and Twenty-ninth streets, North river, and, being read,

On motion, it was,

Resolved, That the form of specifications and contract as prepared by the Engineer-in-Chief for repairing piers at Seventeenth, Eighteenth, Thirty-fourth, Fortieth, Forty-seventh, and One Hundred and Twenty-ninth streets, North river, be and hereby is approved and adopted, subject to the approval of the Counsel to the Corporation as to form, and that the Secretary be and hereby is directed to have a sufficient number of blank forms of proposals printed, and proper advertisements, inviting bids for doing said work, inserted in the papers designated by law.

The Board here went into executive session.

An opinion was received from the Counsel to the Corporation as to the powers of this Department to reject bids received by the Department after being duly advertised according to law, and, being read, was,

On motion, placed on file.

A communication was received from the Counsel to the Corporation in reference to certain data regarding the occupation of Pier 37, East river, and, being read, was,

On motion, referred to the Secretary to furnish any facts which he can obtain in reference to the subject.

On motion, the following resolution was unanimously adopted :

Resolved, That hereafter, no lumber, brick, or any other material in bulk be permitted to be discharged on any of the bulkheads not shedded, on the North and East rivers, except it shall be at once removed, or if not so removed when landed, that it shall be placed at least twenty feet from the edge of the bulkhead, pending removal, and that a penalty of \$50 per day will be imposed upon the owner or owners of such material so placed on any of said bulkheads, except as herein provided, for each and every day he or they shall permit it to remain thereat.

On motion, the following appointments were made, to wit :

James Flaherty, John Farley, Henry Crum, Charles Conklin, Lorenzo D. Tompkins, Truman Hyde, as dock-builders ; William Fitzgerald, as mason ; and Patrick Quinn, Peter Miller, William L. Newbagin, Edward C. Smith, and Cornelius Grimes, as laborers.

On motion, the Board adjourned.

EUGENE T. LYNCH, Secretary.

At a meeting of the Board of Docks, held June 15, 1881.

Present—The full Board.

On motion, Commissioner Dimock took the chair.

The minutes of the meeting held the 2d instant, were read and approved.

The following communications were received, read, and,

On motion, laid on the table to await action, as stated, to wit :

From Atlas Steamship Company—In reference to addition to foundations of Pier, new 55, North river, and also as to temporary occupation of Pier, new 43, North river.

From Union Stock Yard and Market Company—Inclosing consent of contractor for building Pier at Fifty-eighth street, North river, to construct runway. Engineer-in-Chief directed to report a proper plan upon which said work can be done.

From Central Railroad Company of New Jersey—For a lease of south half of Pier 14 and bulkhead between Piers 13 and 14, North river. Secretary directed to address a communication to Allan Campbell, Comptroller, calling his attention to the interview had with the Commissioners of this Department some time since in reference to the question of granting a lease of the aforesaid premises, and stating that said railroad company have this day made application for a renewal of

their lease for a term of ten years, and requesting him to inform this Board, in writing if the negotiations pending between him and said railroad company have arrived at such a point as will allow this Department to arrange for a lease of the premises applied for, without detriment to the interests of the city involved in the claim against said company.

The following communications were received, read, and,

On motion, placed on file, action being taken where necessary, as stated, to wit :

From Stephen A. Jenks & Co.—For permission to drive piles and repair Pier 14, East river. Secretary stating that, on the 14th instant, by direction of the Commissioners, permission had been granted to do the work within the existing lines of the pier. Action approved.

1st. From Edward Dexter, lessee—To have repairs made to bulkhead at Thirtieth street, East river.

2d. From Joseph Cooper, lessee—To have repairs made to Pier 60, East river.

3d. From Mutual Benefit Ice Company, lessee—To have repairs made to Piers at Fifteenth and Sixteenth streets, North river. Repairs to the aforesaid premises ordered previously.

From William M. Kingsland and others—As to their title to premises between Twenty-fourth and Twenty-fifth streets, North river.

From William McConkey, Corporation Wharfinger, stating that the casks of bleaching powder heretofore incumbering Piers 3 and 4, East river, had been removed.

From Lawrence & Co. and J. J. White—As to the barge "Charles H. Marshall," sunk in slip at Water and Corlears streets, East river. Secretary directed to address a communication to the Commissioners of Pilots, requesting them to take measures for the prompt removal of said barge, as its present condition is dangerous to boats discharging cargo in the vicinity.

From S. L. Merchant—To have a test made of three different brands of Portland cement. Engineer-in-Chief directed to have a test made of said cement, and report quality, etc.

From Drew & Bucki, lessees—Stating that the surface of Pier at Little Twelfth street, North river, is in a dangerous condition. Engineer-in-Chief directed to repair the surface of said pier, to make it safe for use till more extensive repairs can be made.

From Commissioners of the Sinking Fund, with approval of change in lines of Piers, new 49 and new 51, North river.

From Engineer-in-Chief—Reporting that he had suspended Daniel Donovan, Day Watchman, and Henry Roach and John Logue, Acting Watchmen, for neglect of duty. Action approved, and the said watchmen discharged.

A communication was received from the Continental Railway Company, in reference to lengthening and widening Piers 1 to 13, North river, and, being read, was,

On motion, referred to a Committee of the full Board, and the applicants requested to call on the Commissioners in reference to the same.

A communication was received from Thomas W. Wightman, agent, to place a small office on Pier 41, East river, and, being read, was,

On motion, referred to Commissioners Vanderpoel and Laimbeer.

An application was received from John B. Packer, applying for position as Assistant Surveyor, and, being read,

On motion, the following resolutions were adopted :

Resolved, That John B. Packer be and hereby is appointed temporary Assistant Surveyor, at the rate of \$100 per month.

Resolved, That Frederick P. Thompson be and hereby is appointed Surveyor, at the rate of \$1,500 per annum.

Commissioner Vanderpoel, reporting that the applicants for building small platform at Pier 22, North river, had called upon him in reference to granting permission for doing the work,

On motion, the application of Stephens and Condit Transportation Company was taken from the table, and placed on file, and the following resolution adopted :

Resolved, That permission be and hereby is granted to the Stephens & Condit Transportation Company, lessee of south half of Pier 22 and adjoining bulkhead, North river, to drive piles and erect a triangular platform at the intersection of said pier and bulkhead, to extend thirty feet in length along the bulkhead, and thirty feet along the pier. Said platform to be erected under the supervision of the Engineer-in-Chief of this Department, and to remain during the pleasure of the Board.

Commissioner Laimbeer, to whom was referred the application of the Commissioners of Emigration, to have the pier at Ward's Island, opposite One Hundred and Tenth street, East river, repaired, reported that he had examined into the matter of said application, and would recommend that the Secretary advise said Commissioners, in writing, that this Department would willingly repair the premises occupied by them, if it was at all clear that the pier in question was the property of the city, but this Department has no authority for the expenditure of the proceeds of Dock Bonds for the aforesaid purpose ; but if they can submit any evidence that the pier in question belongs to the city, then this Department will at once repair the same.

On motion, the said recommendation was approved and adopted.

Commissioner Laimbeer, to whom was referred the communication of John Butler, Corporation Wharfinger, recommending removal of coal hoppers from Pier at Twenty-third street, East river, reported that said coal hoppers had been removed.

An application was received from J. J. Van Allan, for permission to erect platform and scales for discharging ice, etc., at Pier 43, East river, and, being read, was,

On motion, laid on the table ; the Commissioners to visit the premises.

Commissioner Laimbeer, to whom was referred the suspension of Thomas McCarthy, Foreman of earth-filling at Chambers street section, reported that he had examined the subject, and recommended that said Foreman be discharged.

On motion, the recommendation of Commissioner Laimbeer was approved, and said Foreman discharged.

Commissioner Vanderpoel, to whom was referred the communication from the Engineer-in-Chief, as to suspension of Thomas Potter, Watchman, for absence from duty, reported that he had examined into the matter, and recommended that said watchman be suspended for one week.

On motion, the recommendation of Commissioner Vanderpoel was approved, and said watchman suspended.

On motion, the following resolution was unanimously adopted :

Resolved, That the Commissioners of the Sinking Fund, pursuant to authority vested in them by subdivision 11 of section 6, chapter 574, Laws of 1871, be and are hereby respectfully requested to direct the Comptroller of the City of New York to prepare and issue Dock Bonds of the City of New York, for the amount of \$250,000 (two hundred and fifty thousand dollars) for the uses and purposes of the Department of Docks.

On motion, the Engineer-in-Chief was directed to make temporary repairs to the surface of Pier at Fortieth street, North river.

A communication was received from C. H. Mallory & Co., agreeing to pay additional rent for the proposed widening of Pier 21, East river, leased by them, and, being read,

On motion, the report of the Engineer-in-Chief in reference thereto, was taken from the table and placed on file, and the Engineer-in-Chief directed to prepare form of contract and specifications for doing said work, subject to the approval of the Counsel to the Corporation, as to form, and when completed, the Secretary directed to have a sufficient number of blank forms of proposals printed, and proper advertisements, inviting bids for doing said work, inserted in the papers designated by law.

The Board here went into executive session.

A communication was received from the New York, Lake Erie and Western Railroad Company, in reference to rent to be charged for the use of the premises, north side of Pier, old 29, North river, and O. Chanute, Chief Engineer of said company being present and heard at length in reference to the subject,

On motion, the communication was laid on the table to allow Mr. Chanute to confer further with the President of said company, in reference to the rent for said premises due this Department.

The Auditing Committee presented an audit of thirty-three bills or claims, amounting to the sum of \$76,208.49, and, being read, was,

On motion, accepted and adopted, and the Secretary directed to forward the said bills, together with proper requisitions for the amount, to the Finance Department for payment.

Commissioner Laimbeer presented for adoption the following preamble and resolution :

Whereas, The present existing resolutions passed by the Board of Docks in 1880, authorizing the construction of bulkhead or river wall at Chambers, Laight, North Moore, Twenty-third, Twenty-fourth, Twenty-fifth and Twenty-sixth streets, North river, the same having been com-

menced and now in course of construction, the dredging and granite having been contracted for, a large portion of the concrete blocks prepared, and other portions being done now by the Department forces, and it is hoped will soon be completed; the question now must soon be met, as to whether this, the present mode of constructing such bulkhead or river wall shall be continued, or whether some other suitable plans should be adopted; now, therefore,

Resolved, That his Honor the Mayor of the City of New York, as Chairman of the Commissioners of the Sinking Fund, be and hereby is respectfully requested to appoint a suitable Commission to examine and report to him as to whether in their judgment any change should be made in the present mode of bulkhead or river wall construction, or in the work to be hereafter built.

The above preamble and resolution being duly considered, was,

On motion of Commissioner Laimbeer, laid over.

A communication was received from John G. Dale, agent, Inman Steamship Company (Limited), in reference to execution of lease of Pier, new 36, North river, and, being read, was,

On motion, placed on file.

Commissioner Laimbeer, to whom was referred the application of the Department of Public Charities and Correction to have repairs made to the coal dock on Ward's Island, East river, reported that he had made a personal examination of the premises and found the dock covered with sand to the depth of four feet, and recommended that said Department be informed that when the sand is removed the necessary repairs will be made to the pier.

An application was received from John H. Starin and Twombly & Co., requesting that the east half of Pier 6, East river, now standing in the name of the former, be transferred to the New York Central and Hudson River Railroad Company, and, being read,

On motion, it was

Resolved, That the consent of this Board be and hereby is given to John H. Starin, to assign to the New York Central and Hudson River Railroad Company, the lease of the east side of Pier 6 and the adjoining bulkhead, East river, purchased at public sale, held April 15, 1878, and under resolution adopted by this Board, February 12, 1879.

On motion, the following appointments were made, to wit:

William L. McConkey, temporary Wharfinger.

Michael Shea and Michael Farrell, Watchmen.

Charles Brennan, Richard Cunningham, Thomas Kaighin, Samuel Lockwood, John H. Reeves, Dock-builders;

Bernard Fitzgerald, James McKay, Rudolph Couch, Barthly Shannon, George Hallowell, temporary Stonecutters; and

George F. Stark, Patrick J. McCann, James Coburn, as Laborers.

On motion, the Board adjourned.

EUGENE T. LYNCH, Secretary.

At a meeting of the Board of Docks, held June 22, 1881.

Present—The full Board.

On motion, Commissioner Dimock took the chair.

The minutes of the meeting held the 15th instant, were read and approved.

An application was received from John G. Dale, agent, lessee of Pier, new 36, North river, for permission to lay rail tracks upon said pier, and, being read,

On motion, it was

* Resolved, That permission be and is hereby granted to John G. Dale, agent for the Inman Steamship Co. (Limited), lessee of Pier, new 36, N. R., to place and retain thereon and also upon the space recently created by this Department, from the easterly end of said pier across to the westerly line of West street, where it has a width of seventy feet, rail tracks for the purpose of facilitating the transportation to and from said pier, of freight in cars drawn by steam; said tracks to be laid under the direction and supervision of the Engineer-in-Chief of this Department, in such manner as not to interfere with the ordinary use of the pier, to remain thereon only during the pleasure of this Board or its successor; to be removed whenever so ordered by this Department, free of expense to the city; this Department reserving the right to remove said tracks upon the refusal of the said lessee to comply with such demand, but at the cost and expense of said lessee; said tracks to be accessible to all lines of cars carrying freight connecting therewith; it being hereby expressly understood and provided that the said tracks shall, on request, be used by any railroad corporation landing freight in New York City upon precisely equal terms; and the Department expressly reserves the right to order the removal of the said tracks for any violation of the above provisions.

A communication was received from the Department of Public Works, inclosing copy of chapter 447 of the Laws of 1881, authorizing and directing the construction of an additional free public floating bath in the Fifth Ward of the City of New York, and requesting this Department to fix a suitable location for said bath, and, being read, was,

On motion, referred to a Committee of the full Board.

The following communications were received, read, and,

On motion, laid on the table to await action, as stated, to wit:

From John H. Starin, assignee—To transfer lease of Pier 1 and bulkhead adjoining, East river.

From Henderson Brothers, lessees—To have repairs made and dredging done at Pier 46, East river. Repairs to said pier ordered previously, and the Engineer-in-Chief directed to examine and report the dredging required at said pier, to accommodate the vessels using the same.

From P. White's Sons—To have dredging done on north side of Pier 61, East river. Engineer-in-Chief ordered previously to examine and report the dredging required.

The following communications were received, read, and,

On motion, placed on file, action being taken where necessary, as stated, to wit :

From Department of Public Charities and Correction—To have the Bellevue Hospital Pier at foot of Twenty-seventh street, East river, repaired. Engineer-in-Chief directed to make the necessary repairs to said pier.

From Board of Commissioners of Pilots—Stating that the sunken barge " Charles H. Marshall," at Corlears street, East river, was being removed by the owners.

From James Fitzpatrick, Corporation Wharfinger—Reporting that the stone upon bulkhead between Horatio and Gansevoort streets, North river, was removed by the owners.

From Herman T. Livingston, lessee—As to payment of rent for Pier, old 36, North river, under protest.

From William R. Grace, Mayor—In reference to resolution of the Board of Aldermen, No. 539, as to leasing of Pier, new 41, North river.

From Wm. L. McConkey, Acting Corporation Wharfinger—In reference to platform erected by J. J. Van Allan, on Pier 43, East river, for landing ice, etc.

From Stephen A. Jenks & Co.—For permission to repair the surface of Pier 27, East river. Secretary stating that on the 16th instant, by direction of the Commissioners, permission had been granted to do the work within the existing lines of the pier ; action approved.

From Frank E. Wise, lessee—To have repairs made to Pier at Seventy-ninth street, East river. Repairs to said pier ordered previously.

From Daniel Dailey, lessee—To have dirt and refuse removed from bulkhead at Fourteenth street, East river. James S. Coleman, Commissioner of Street Cleaning, notified and requested to have said bulkhead cleaned without delay.

From J. H. Strickland—Applying for position as Corporation Wharfinger.

From Hencken & Co., lessees from private owners—For permission to extend the bulkhead between Stanton and Houston streets, East river. Application denied, and the applicants requested to call upon the Commissioners in reference to the strip of land about six feet in width covered by the existing bulkhead, which is claimed to be the property of the city.

From Engineer-in-Chief—As to proposed extension of Pier 39, East river. Application of Peter Charles, lessee, for permission to extend said pier, was taken from the table and placed on file, and the applicant notified that before this Board can grant permission to extend said pier, it will be necessary that the owners thereof make application to this Department for permission to make the improvement.

From Maurice Meagher—Applying for position as Inspector of dredging.

Counsel on behalf of the Continental Railway Company appeared and was heard at length in reference to the application to extend Piers 1 to 13, North river, and was informed that the property in question, with the exception of Piers 12 and 13, was claimed as private property.

The Committee of the full Board, to whom said application had been referred, recommended that the application of said company be denied.

On motion, the recommendation was approved.

A communication was received from Bogert & Morgan in reference to their occupation of Pier, new 37, North river, and, being read,

On motion, the Secretary was directed to advise that the term of their occupancy of Pier, new 37, North river, will commence from about the 1st to the 15th of July, proximo, and that the Engineer-in-Chief has been directed to examine and report what repairs, if any, are necessary to be made to the premises; and further, that this Department will favorably consider any application for such improvements or changes to be made on Pier, new 37, North river, at their own cost and expense, to fit it for their special use, upon receipt of information in detail as to what they may deem to be necessary for their purposes.

On motion, it was

Resolved, That Bogert & Morgan, agents, be and hereby are permitted to occupy during the pleasure of the Board about fifty feet of the inner end of Pier, old 36, North river, pending its removal for the construction of Pier, new 37, North river, they to pay to this Department such rent for the use of said premises as may be hereafter agreed upon.

On motion of Commissioner Laimbeer, it was

Resolved, That the compensation of John G. White, Master Dock-builder, be and hereby is fixed at \$1,800 per annum, from this date.

On motion, the communication from John G. Dale, agent Inman Steamship Co. (Limited), in reference to execution of lease of Pier, new 36, North river, was taken from file, and the following resolution adopted:

Resolved, That John G. Dale, agent Inman Steamship Co. (Limited), be and hereby is notified and informed that the date for the commencement of the term of the lease for Pier, new 36, North river, is June 1, 1881, and that all previous resolutions adopted by this Board relative to said date of commencement be and hereby are rescinded and annulled.

On motion, the following appointments were made, to wit:

John Brennan, Charles Raynor, Henry McShane, Dunning Brown, John Hawkins, Christopher Walsh, James Fitzsimmons, Joseph McMullen, as Dock-builders; Robert Kyles as Engineer and pile driver, and Allan Trip as Inspector.

On motion, the Board adjourned.

EUGENE T. LYNCH, Secretary.

At a meeting of the Board of Docks, held June 29, 1881.

Present—The full Board.

On motion, Commissioner Dimock took the chair.

The minutes of the meeting held the 22d instant were read and approved.

The following communications were received, read, and,

On motion, laid on the table to await action, as stated, to wit :

From J. B. and J. M. Cornell—For permission to fill in water-front at Twenty-sixth and Twenty-seventh streets, North river. Engineer-in-Chief directed to examine and report under what restrictions the work can be proceeded with.

From Engineer-in-Chief—As to penalty incurred by John Gillies, contractor for building Pier, new 54, North river.

The following communications were received, read, and,

On motion, placed on file, action being taken where necessary, as stated, to wit :

From B. Wright, lessee—As to repairs necessary to Pier 61, East river, and Pier at Thirty-eighth street, East river. Secretary directed to advise in reply that the repairs referred to had been ordered to be made previous to the receipt of his communication.

From Committee of Board of Aldermen—In reference to meeting to be held for considering the question of having Pier, new 41, North river, kept open for public use and not leased, etc. Secretary reported that, by direction of the Commissioners, he had called at the time designated in said notice, but found that the Committee were not in session.

From Lawrence Ennis—Resigning his position as Engineer in the Department. Resignation accepted.

From Department of Public Works—Stating that it is inexpedient to remove the public bath from Pier at Fifty-first street, North river, as it is the only suitable location between Thirty-fifth and Sixtieth streets for use of said bath. Secretary directed to advise John Russell's Sons and others, applicants to have said bath removed, of the opinion of the Commissioner of Public Works.

From George W. Stilwell, Jr.—For permission to place a small office 8 by 8 feet on Pier 3, East river. Application granted, provided the same is placed on wheels, so as to be easily moved.

From James S. Coleman, Commissioner of Street Cleaning—To have slips at Seventeenth, Market, and Stanton streets, East river, and at Canal street, North river, dredged.

Engineer-in-Chief directed to make requisition for the necessary dredge, scows and labor to excavate and remove 1,700 cubic yards of mud from Seventeenth street, 1,000 from Stanton street, 350 from Market street, and 2,500 from Canal street slips, respectively.

From Department of Public Works—

1st. Consenting to the placing of a drain-pipe in bulkhead at Jackson street, East river.

2d. In reference to placing hydrant at Laight street, North river, to enable Department tugs and pile-drivers to obtain a supply of Croton water.

From Stephen A. Jenks & Co. —For permission to drive piles and make repairs to Piers 18 and 27, East river. Application granted, the work to be done under the supervision of the Engineer-in-Chief of this Department, and within the existing lines of the piers.

From Manhattan Gas-light Company, lessee—To have dredging done at Piers at Seventeenth and Eighteenth streets, North river.

From John G. Dale, agent—In reference to permission granted for placing rail-tracks on Pier, new 36, North river.

From Warren Rosevelt—For permission to repair the bulkhead between Thirtieth and Thirty-first streets, East river. Application granted, the work to be done under the supervision of the Engineer-in-Chief of this Department and within the existing lines of the structure.

From New York Board of Fire Underwriters --For temporary use of bulkhead at Seventeenth street, East river, for the purpose of testing a new fire engine. Application granted.

From Engineer-in-Chief, as follows :

1st. In reference to dredging at various dumping boards on North and East rivers. Directions for doing the work given this day.

2d. Stating that the westerly side of Pier 19, East river, had been repaired, conjointly with the owners of the easterly side thereof.

3d. Stating that the missing boring-rods belonging to the Boring Machine " Woodcock " had been returned by the New York, Ontario and Western Railway Company.

4th. Stating that it would be injudicious to cut runways into the end of Pier, new 1, North river, petitioned for by the Iron Steamboat Company, lessees. Application of said company taken from the table and denied.

5th. Reports as to work performed during the weeks ending May 21st, 28th, and June 4th, 11th, 18th, and 25th.

6th. As to dredging required on north side of Pier 61, East river, petitioned for by the Health Department. Engineer-in-Chief directed to make requisition for the necessary dredge, scows and labor, to excavate and remove about 2,000 cubic yards of material from said pier.

From John M. Smith, Corporation Wharfinger, as to the dirt encumbering Pier, old 54, North river. Commissioner of Street Cleaning requested to have the surface of said pier cleaned.

A report was received from the Engineer-in-Chief, submitting form of contract and specifications for dredging at the following named places :

On North River.

Bulkhead south of Pier, old 54.

Pier near foot of Bloomfield street.

Pier at Little West Twelfth street.

Bulkhead platform at West Fourteenth street.

Pier at West Fifteenth street.

Pier at West Sixteenth street.

Pier at West Seventeenth street.

Pier at West Eighteenth street.

Pier at West Thirty-fourth street.

Pier at West Thirty-fifth street.

Pier at West Fortieth street.

Pier at West Fifty-seventh street.

Pier at West One Hundred and Twenty-ninth street.

Pier at West One Hundred and Thirty-first street.

On East River.

Pier 7.

Pier 24, east half, and half bulkhead adjoining.

Pier 25, west half, and half bulkhead adjoining.

Pier at East Seventy-ninth street.

And, being read,

On motion, it was

Resolved, That the form of specifications and contract as prepared by the Engineer-in-Chief, for dredging at the aforesaid places, be and hereby is approved and adopted, subject to the approval of the Counsel to the Corporation as to form, and that the Secretary be and hereby is directed to have a sufficient number of blank forms of proposals printed and proper advertisements, inviting bids for doing said work, inserted in the papers designated by law.

A report was received from the Engineer-in-Chief submitting form of contract and specifications for repairing Pier 21, East river, and Pier 38, East river, and the adjoining bulkhead, and building Pier and dumping board at Nineteenth street, North river, and, being read,

On motion, it was

Resolved, That the form of specifications and contract as prepared by the Engineer-in-Chief, for repairing Piers 21 and 38, East river, and building Pier and dumping board at Nineteenth street, North river, be and hereby is approved and adopted, subject to the approval of the Counsel to the Corporation as to form, and that the Secretary be and hereby is directed to have a sufficient number of blank forms of proposals printed, and proper advertisements, inviting bids for doing said work, inserted in the papers designated by law.

The Auditing Committee presented an audit of seventeen bills or claims amounting to the sum of \$34,560.04, and, being read, was,

On motion, accepted and adopted, and the Secretary directed to forward the said bills, together with proper requisitions for the amount, to the Finance Department for payment.

On motion, it was

Resolved, That the position, on the Construction force, be and hereby is established, to be known as a dockbuilder's helper, and that the compensation to be allowed to all persons so designated on the pay-rolls of the Department shall be at the rate of 22 cents per hour.

A communication was received from the Engineer-in-Chief in reference to the delivery of cement under contract with William H. Thompson, and, being read

On motion, the following resolution was adopted.

Resolved, that this Board certify to the Comptroller that the failure of William H. Thompson to deliver the required quantity of cement within the time stipulated therefor, under his contract for furnishing about 5,000 barrels Portland cement, dated March 25, 1881, has not up to the 23d instant, caused the Corporation to sustain any loss or damage whatsoever, the work of the Department for which the cement was purchased not being in a sufficiently advanced state to admit of the cement being used.

The Board here went into Executive session.

A communication was received from the Commissioners of Accounts, requesting certain information concerning the cost of construction of the Bulkhead wall, and, being read, was referred to the Engineer-in-Chief to furnish the necessary data.

A communication was received from A. B. Cornell, Governor, asking that the Department of Docks express its views on the provisions of Senate bill No. 264 which, among other things, prohibits the erection of any pier or other structure between the pier at the foot of West Twenty-second street and the pier at the foot of West Twenty-fourth street, and the widening of the piers at Twenty-second and Twenty-fourth streets, as at present fixed; and, being read, and the Secretary stating that by direction of the Commissioners on the 28th instant, a communication had been sent to the Governor, protesting against the said bill becoming a law, and stating at length the injurious effect the passage of the bill would have upon the work of this Department, and the interests of the city in the improvement of the water front under the new plans adopted, and urging upon him to veto the bill.

On motion, the action of the Commissioners was approved.

A communication was received from the Comptroller, returning voucher in favor of Lewis S. Wandell, amounting to \$520, for removing dirt and refuse from certain piers on the North river, and stating that the duty of causing all streets, wharves, piers, etc., to be cleaned, devolved upon the Police Commissioners under chapter 677, Laws of 1872, etc., that no authority to perform the work was vested in the Dock Commissioners, and that no expenditure of money raised from dock bonds could be legally made for such purpose, and, being read,

On motion, the Secretary was directed to state in reply that the work ordered to be performed was made necessary in consequence of the accumulation, during the past winter, of great quantities of rubbish and dirt upon the said piers, and that the piers in question, some of which had been recently leased for a term of years, required repairs more or less extensive, in order to place them in safe and proper condition, and that it was impossible to arrive at any close estimate of the repairs required to the surface of said piers until the dirt should be removed and a thorough examination made, and that in the opinion of the Commissioners this course of action was imperative, as the unsafe condition of the premises made it extremely dangerous for travel, and delay in making repairs needed might have involved the City in suits for damages sustained.

A communication was received from the Hudson Tunnel Railway Company in reference to the lease executed by it, for premises between Moron and Leroy streets, North river, and, being read, was,

On motion, placed on file with the lease of said company.

A communication was received from the Comptroller, stating that the negotiations with the Central Railroad Company of New Jersey, in reference to certain arrearages of rent due the city have been closed satisfactorily, and that there existed now no reason for further delaying the disposal of the lease, by public sale, of south side of Pier 14 and adjoining bulkhead, North river, for the term of ten years, from May 1, 1881, and, being read,

On motion, the application of the Central Railroad Company of New Jersey, in reference to the lease of the premises, was taken from the table and placed on file, and

The Secretary directed to arrange with James M. Oakley & Co., auctioneers, to offer at public sale, to be held on a date to be fixed hereafter, for purchase to the highest bidder, the right to collect and retain all wharfage for the term of ten years, from 1st May, 1881, which shall accrue at the south side of Pier 14 and bulkhead adjoining, North river, and at such other piers and bulkheads as may be designated by the Commissioners, subject to the terms and conditions set forth in the advertisement prepared by the Secretary, and cause said sale to be published for ten days in the CITY RECORD and other newspapers designated by law for corporation notices.

A communication was received from Henry Roche, in reference to his discharge from the Department, and, being read,

On motion, he was reinstated as a laborer.

On motion, the following appointments were made, to wit :

Patrick W. Moran, John McEntee, Watchmen, and Martin Saeger, Patrick McGarvey, and Walter O'Brien, as Dockbuilders.

On motion, it was

Resolved, That when the Board adjourns, it shall adjourn to meet on Wednesday, July 13 proximo, at 11 o'clock.

The Treasurer, reporting that he had effected, under the authority given him orally by the Commissioners, the renewal of the \$65,000 Fire insurance on the sheds on Piers, new 43 and new 46, North river, for one year, from June 25, 1881, at an annual rate of 60 to 65 cents,

On motion, the action of the Treasurer was approved and confirmed.

On motion, the Board adjourned.

EUGENE T. LYNCH, Secretary.

At a special meeting of the Board of Docks, held June 29, 1881.

Present—The full Board and the Comptroller of the City.

On motion, Commissioner Dimock took the chair.

Three estimates were received for furnishing labor and material for building Pier, new 57, North river, as follows :

No. 1. From Joseph Walsh, for \$59,000, with certified check for \$750 on Metropolitan National Bank.

No. 2. From John Gillies, for \$52,000, without certified check or currency inclosed.

No. 3. From P. S. Ross and Joseph B. Sanford, for \$53,000, with certified check for \$750 on Bank of North America (not a National Bank).

And, being read, were

On motion, laid on the table for examination.

Two estimates were received for repairing piers at Seventeenth, Eighteenth, Thirty-fourth, Fortieth, Forty-seventh, and One Hundred and Twenty-ninth streets, North river, as follows :

No. 1. From Joseph Walsh, for \$30,000, with certified check for \$250 on Metropolitan National Bank

No. 2. From P. Sanford Ross and Joseph B. Sanford, for \$22,500, with certified check for \$250 on Bank of North America (not a National bank).

And, being read, were

On motion, laid on the table for examination.

On motion, the Secretary was directed to address a communication to the Counsel to the Counsel to the Corporation stating the facts connected with the above-stated bids received this day, and requesting to be advised in writing as to the duty of this Board in making the award.

On motion, the Board adjourned.

EUGENE T. LYNCH, Secretary.

At a meeting of the Board of Docks, held July 13, 1881.

Present—The full Board.

On motion, Commissioner Dimock took the chair.

The minutes of the meetings held 29th ultimo were read and approved.

The following communications were received, read, and,

On motion, laid on the table to await action as stated, to wit :

From Department of Public Charities and Correction—To have various piers and wharves under its control repaired by this Department. Engineer-in-Chief directed to examine and report the repairs required.

From Atlas Steamship Company—Submitting plans for foundation of Pier, new 55, North river, and for shed to be erected thereon. Engineer-in-Chief directed to examine and report on the same.

From J. McDonald & Company—In reference to sunken scow at pier at Twenty-eighth street, North river. Engineer-in-Chief directed to examine and report as to the ownership of said scow, and the cost of removing the same.

From Department of Public Charities and Correction—To have the dock at Branch Workhouse, Hart's Island, repaired. Engineer-in-Chief directed to examine and report the repairs required.

From James Fitzpatrick, Corporation Wharfinger—In reference to damage done to pier at Ninety-sixth street, North river, etc. Engineer-in-Chief directed to examine and report the damage done, and the cost of replacing said pier in good order.

The following communications were received, read, and,

On motion, placed on file, action being taken where necessary, as stated, to wit :

From John J. McCook, lessee—In reference to repairs and dredging to be done at bulkhead at Fourteenth street, North river.

From Ogden & Co.—For permission to repair the bulkhead between Twentieth and Twenty-first streets, North river. Application granted, the work to be done under the supervision of the Engineer-in-Chief of this Department and within the existing lines of the present structure.

From John G. Dale, agent—Surrendering possession of Pier, new 37, North river.

From Stephen A. Jenks & Co.—For permission to drive six piles at Pier, new 1, North river, and fifteen piles at pier at Twenty-third street, North river. Application granted, provided they shall notify the Engineer-in-Chief before the work of driving said piles is commenced.

From Department of Public Works—As to repairs needed to Pier at Fifth street, East river. Secretary reporting that on the 17th inst., by direction of the Commissioners, the Engineer-in-Chief had been directed to repair said pier to make it safe for the present.

From John G. Dale, agent—In reference to the time fixed for the commencement of the rent for Pier, new 36, North river.

From White Star Line—As to repairs needed to the approach to Piers, new 44 and 45, North river. Engineer-in-Chief directed to repair the premises referred to.

From Police Department—In reference to repairs needed to the surface of Pier 53, East river. Engineer-in-Chief directed to make the necessary repairs to said pier.

From Pacific Mail Steamship Company, lessee—To have the approach to Pier, new 34, North river, repaired. Engineer-in-Chief directed to repair said approach.

From Wm. L. McConkey, Corporation Wharfinger :

1st. As to repairs needed to Pier 46, East river.

2d. As to repairs needed to Pier 53, East river.

From Department of Public Works—To have a bridge provided for public bath at Nineteenth street, East river. Secretary reporting that on the 5th instant, the Engineer-in-Chief had been directed to do the work. Action approved.

From Department of Public Charities and Correction—Stating that the sand incumbering the dock at Ward's Island had been removed.

From Stephens & Condit Transportation Company—To have repairs made to Pier 22, and bulkhead adjoining, North river. Repairs already ordered to be made.

From A. J. Murray—Asking that he be permitted to discharge piles from schooner "D. S. Williams," at pier at Twenty-sixth street, North river, without payment of wharfage, said piles being delivered for the construction of the pier being built for the Department in the vicinity. Application denied.

From Warren Roosevelt—To drive piles at east side of Pier 57, East river. Permission granted, the work to be done under the supervision of the Engineer-in-Chief, within the existing lines of the pier.

From Joseph V. Brown, lessee—To have repairs made and dredging done at Pier at Twenty-eighth street, East river. Repairs ordered to said premises, and Engineer-in-Chief directed to examine and report the dredging required.

From Counsel to the Corporation—Requesting that certain data be furnished him respecting the lease of Pier 29, North river, to Erie Railway Company. Secretary directed to furnish the information required.

From Ryerson & Yungling—In reference to ownership of Pier between One Hundred and Thirty-fifth and One Hundred and Thirty-sixth streets, Harlem river.

From D. F. Robertson, lessee—To have pier at Thirty-seventh street, East river, repaired. Repairs already ordered to be made.

From Joseph Walsh :

1st. In reference to award of contract for repairing various piers on the North river.

2d. In reference to award of contract for building Pier, new 57, North river.

From Engineer-in-Chief, as follows :

1st. Reports as to work performed during the weeks ending July 2d and 9th.

2d. Recommending that, as the columns for Piers, new 55 and 56, North river, cannot be driven to a greater depth than 84 feet, the length thereof be reduced to 84 feet instead of 94 feet. Secretary reporting that, by direction of the Commissioners, the Engineer-in-Chief had been instructed to have said columns driven in accordance with his recommendation; action approved.

3d. Stating that there is now a depth of 10 feet at mean low water at Pier 46, East river. Henderson Brothers, lessees, applicants to have dredging done at said premises, informed that there now exists a depth of 10 feet at mean low water at said pier, as required by the terms and conditions of sale under which the lease of the pier was purchased by them.

4th. In reference to the runway constructed at Pier at Fifty-eighth street, North river.

5th. Reporting the return of Department pile-driver No. 6, loaned to Holmes Brothers.

Secretary directed to forward bill to said Holmes Brothers for the amount due for the use of said pile-driver, with the request that they pay said amount to the Treasurer of this Department.

From Patrick Mara—Requesting that he be paid for 10 days lost time by reason of sickness. Application denied.

From B. Wright, lessee—In reference to unsafe condition of Pier 61, East river. Secretary reporting that by direction of the Commissioners, the Engineer-in-Chief had been directed to make temporary repairs to said pier, to make it safe for travel. Action approved.

From Comptroller—Requesting that a certificate be furnished him to the effect that the cleaning of certain piers on the North river, of dirt and refuse by L. S. Wandell, was done in order to enable the Department to estimate the repairs necessary to be made to the premises. Engineer-in-Chief directed to certify to the facts, as above.

From J. H. Staats, Assistant to Superintendent—Asking for leave of absence for one month. Application granted with full pay.

Commissioners Laimbeer and Vanderpoel, to whom was referred the application of Thomas W. Wightman, agent, to place small office on Pier 41, East river, leased by him, reported that they had examined the matter and recommended that the application be granted, provided said office be placed upon wheels.

On motion, the recommendation of the Commissioners was approved and adopted.

A communication was received from the Engineer-in-Chief as to the delivery of granite stone by the Cape Ann Granite Company, and, being read,

On motion, the following resolution was adopted:

Resolved, That this Board certify to the Comptroller that the failure of the Cape Ann Granite Company to make the delivery of the second 2,000 cubic yards of granite within the time stipulated therefor, under their contract for furnishing granite stones for the bulkhead or river wall, dated February 2, 1881, has not caused the Corporation to sustain any loss or damage whatsoever, the section of the said wall, for which the granite was ordered, not being in a sufficiently advanced state to admit of the stones being placed in position.

A report was received from the Engineer-in-Chief, in reference to the desirability of filling in the water-front between Twenty-seventh and Twenty-eighth streets, North river, and, being read,

On motion, the following resolution was adopted :

Resolved, That the Engineer-in-Chief be and hereby is directed to make suitable arrangements for a dump at Twenty-seventh and Twenty-eighth streets, North river, so that the space inside of a line about 25 feet westerly of Eleventh avenue, and between the centre lines of said streets, may be filled in with solid filling.

The application of J. B. & J. M. Cornell, to fill in the water-front, between Twenty-seventh and Twenty-eighth streets, North river, was taken from the table and placed on file, and the applicants informed that they will be permitted to deposit under the supervision of the Engineer-in-Chief at the dumping grounds established by this Department, between Twenty-seventh and Twenty-eighth streets, North river, such good filling-in material as may be produced at their work, without charge.

The Auditing Committee presented an audit of 19 bills or claims, amounting to the sum of \$48,878.88. and, being read, was

On motion, accepted and adopted, and the Secretary directed to forward the said bills, together with proper requisitions for the amount, to the Finance Department for payment.

A communication was received from the Engineer-in-Chief, recommending that certain old material belonging to the Department be disposed of at public sale, and, being read,

On motion, the Secretary was directed to arrange with James M. Oakley & Co., auctioneers, for the sale of said old material at public auction, on 22d instant, and to cause proper notices of the same to be inserted in the several newspapers designated by law.

A communication was received from Wm. R. Grace, Mayor, dated July 5th instant, transmitting resolution No. 635, of the Board of Aldermen, in relation to having Pier, new 41, North river, kept for general use, and not leased by the Department, and requesting that the Commissioners report as to the facts of the leasing of said pier, and any other data applicable thereto, and, being read, and the Secretary stating that by direction of the Commissioners, a reply to said communication had been transmitted on the 9th instant, giving all the facts connected with the leasing of said Pier, new 41, North river,

On motion, the communication was placed on file, and the action of the Commissioners approved.

An application was received from J. S. Coleman, Commissioner of Street Cleaning, to have Pier 12, East river, assigned for the purposes of a dumping board, etc., and, being read,

On motion, the following resolution was adopted :

Resolved, That in accordance with the requisition of James S. Coleman, Commissioner of Department of Street Cleaning, and pursuant to the provisions of section 4, chapter 367 of the Laws of 1881, the westerly side of Pier 12, East river, be and hereby is set apart and designated for the uses and purposes of said Department as a dump.

On motion, the Secretary was directed, when transmitting the above resolution to Mr. Coleman, to advise that the city owns only the lower half of said Pier 12, East river, the upper half being claimed as private property, and that this Board in taking action as above, to set apart said premises for his use, does so in the belief that the provisions of the act referred to are mandatory.

A communication was received from William R. Grace, Mayor, asking that speedy action be taken by this Board in assigning Pier 12 to J. S. Coleman, Commissioner of Department of Street Cleaning, for the purposes of a dumping board, and, being read, and the Secretary stating that by direction of the Commissioners a reply had been sent on the 6th inst., to the effect that this Board would take action on the matter at its next meeting,

On motion, the action of the Commissioners was approved.

On motion, the Engineer-in-Chief was directed to prepare plans for improving the water-front at Eighty-sixth and Eighty-seventh streets, East river, by contract.

On motion, the Secretary was directed to address a communication to the Counsel to the Corporation, calling his attention to the communication addressed to him on December 28, 1876, wherein he was requested to take immediate action in the matter of acquiring for the Mayor, Aldermen and Commonalty of the City of New York, the northerly half of Pier 33, and the southerly half of Pier 34, North river, and to respectfully request that legal proceedings taken in compliance therewith be now continued or commenced anew, as may be necessary, in order that the title to said property may become vested in the City of New York, with the least possible delay, to enable this Department to proceed with the work of improving the water-front at the point referred to.

On motion, the Secretary was directed to notify J. F. Ames, agent, Maine Steamship Company, lessee of Pier 38, East river, that bids for the repairing of said pier will be opened on Friday, 29th instant, and the contractor will probably take possession of the pier within ten days thereafter, and, therefore, to hold himself in readiness to surrender the premises upon five days' notice as heretofore agreed upon.

The Board here went into Executive Session.

A communication was received from the Counsel to the Corporation, requesting that his account be credited with the sum of \$404.11, being amount due and collected from the Treasurer of this Department and deposited with the Chamberlain of the city, and, being read, was,

On motion, placed on file, and the Bookkeeper directed to have the amount credited on the books of the Department, as requested by the Counsel to the Corporation.

A communication was received from the Comptroller, indorsing opinion from the Counsel to the Corporation in reference to proposed settlement of the suit against R. Cornell White, for the collection of rent due and unpaid for use of Pier 37, East river, and stating that it appeared on a full consideration of the facts of the case that the interests of the city would best be served by accepting from Mr. White the sum of \$5,000, a compromise of said claim, and, being read,

[JULY 13, 1881.]

On motion, the Secretary was directed to advise in reply that it is the unanimous opinion of the Commissioners that in view of the facts presented in the opinion of the Counsel to the Corporation, the interests of the city would best be served by a compromise of the suit ; provided Mr. White shall pay in full settlement the sum of \$5,000 in cash.

On motion, it was

Resolved, that when this Board adjourns, it shall adjourn to meet on Friday, July 29, at 11 o'clock.

A communication was received from Frank E. Wise, lessee of pier at Seventy-ninth street, East river, stating that the condition of the pier was such as to require entire rebuilding, and that in order to secure good wharf facilities at that point, he was willing to surrender his lease of the pier, etc., and, being read,

On motion, it was

Resolved, That Frank E. Wise be and hereby is informed that this Department accepts the surrender from and after August 1, 1881, of lease of pier at Seventy-ninth street, East river, held by him, expiring May 1, 1884, in order that the pier may be thoroughly repaired above low-water mark, and put in good condition to accommodate the large commercial interests of the city in that vicinity.

On motion, Peter Miller, W. L. Newbagin, Patrick Tannam, and John McShane, were appointed as Dockbuilders.

On motion, the Board adjourned.

EUGENE T. LYNCH, Secretary.

At a special meeting of the Board of Docks, held July 15, 1881.

Present—The full Board and the Comptroller of the City.

On motion, Commissioner Dimock took the chair.

Two estimates were received for dredging various slips on the North and East rivers, as follows :

No. 1. From Wm. M. Tebo, at 33 cents per cubic yard, with certified check for \$500 on National City Bank.

No. 2. From Union Dredging Co., at 30 cents per cubic yard, with certified check on Chase National Bank for \$500.

And, being read, were,

On motion, laid on the table for examination.

The Comptroller here withdrew.

On motion, the Secretary was directed, when transmitting the above resolution to Mr. [unclear] to advise that the city owns only the lower half of said Pier 12, East river, the upper half being claimed as private property, and that this Board is taking action as above, to set aside the premises for his use, does so in the belief that the provisions of the act referred to are not

A communication was received from William R. Grace, Mayor, asking that speedy action be taken by this Board in assigning Pier 12 to J. S. Coleman, Commissioner of Department of Cleaning, for the purposes of a dumping board, and, being read, and the Secretary stating the direction of the Commissioners, a reply had been sent on the 6th inst., to the effect that the Board would take action on the matter at its next meeting.

On motion, the action of the Commissioners was approved.

On motion, the Engineer-in-Chief was directed to prepare plans for improving the streets at Eighty-sixth and Eighty-seventh streets, East river, by contract.

On motion, the Secretary was directed to address a communication to the Counsel, calling his attention to the communication addressed to him on December 28, 1880, in which he was requested to take immediate action in the matter of acquiring for the Mayor, Agent of the Community of the City of New York, the northerly half of Pier 33, and the southerly half of Pier 34, North river, and to respectfully request that legal proceedings taken in compliance with the above resolution be now continued or commenced anew, as may be necessary, in order that the title to the same may become vested in the City of New York, with the least possible delay, to enable the Board to proceed with the work of improving the water-front at the point referred to.

On motion, the Secretary was directed to notify J. F. Ames, agent, Maine Steamship Company, lessee of Pier 38, East river, that bids for the repairing of said pier will be opened on the 20th instant, and the contractor will probably take possession of the pier within ten days thereafter, and, therefore, to hold himself in readiness to surrender the premises upon five days' notice as above agreed upon.

The Board then went into Executive Session.

A communication was received from the Counsel to the Corporation, requesting an account be casted with the sum of \$404.11, being amount due and collected from the City of New York and deposited with the Chamberlain of the city, and, being read, was

On motion, placed on file, and the Bookkeeper directed to have the amount credited to the books of the Department, as requested by the Counsel to the Corporation.

A communication was received from the Comptroller, informing upon the part of the Corporation in reference to proposed settlement of the suit against B. Cornell White, for the collection of rent due and unpaid for use of Pier 37, East river, and stating that in consideration of the facts of the case that the interests of the City would be promoted by paying from Mr. White the sum of \$5,000.

A communication was received from the Engineer-in-Chief, with his approval of plans submitted by the Atlas Steamship Co., for placing additional foundations at Pier, new 55, North river, to be occupied by them, and, being read,

On motion, the Secretary was directed to prepare a form of letter to be addressed to the Department and signed by Holmes Bros., contractors, for building the pier, wherein they should agree that the work of putting in said additional foundations, at the expense of the lessees, should not in any form or manner affect their obligations under their contract with the Department.

A communication was received from the Engineer-in-Chief, as to the suspension of Edward Meany, Night Watchman, for inattention while on duty, and, being read,

On motion, the said Edward Meany was discharged.

A communication was received from the Atlas Steamship Co., in reference to berthing their vessels at Pier, new 43, North river, and for occupying the pier after September 1st next, for a stated term, etc., and, being read,

On motion, the Secretary was directed to state in reply that their steamers can occupy a berth at said pier at the legal rates of wharfage, until September 1st, next, and that if said pier shall not in the mean time have been leased from that date, this Department will then negotiate with them for the occupation of said pier, for a stated term from September 1st.

A communication was received from W. H. Turner, agent, Norwich Line, in reference to the filthy condition of slip at Pier, old 40, North river, and, being read, was,

On motion, laid on the table, and the Engineer-in-Chief directed to examine and report on the same.

A communication was received from Patten, Vickers & Co., as to the use of Pier, new 37, North river, for their steamers, and, being read,

On motion, the Secretary was directed to advise in reply that Pier, new 37, North river, recently occupied by the Inman Steamship Company, in consequence of an injunction order of the United States District Court, is held by this Department for the present, for use by any vessel which may be duly assigned berths thereat, at regular rates of wharfage, and that as soon as said injunction shall be removed the pier will be occupied by Bogert & Morgan, pending the completion by this Department of a new pier to be occupied by them.

A communication was received from Richardson & Spence, in reference to the time for the completion of Pier, new 56, North river, and, being read,

On motion, the Secretary was directed to ascertain from the Engineer-in-Chief when said pier is expected to be finished, and to advise the applicants in accordance therewith.

On motion, Michael McShane and Thomas Johnson were appointed as Dockbuilders.

On motion, the Board adjourned.

EUGENE T. LYNCH, Secretary.

At a meeting of the Board of Docks, held July 29, 1881.

Present—The full Board.

On motion, Commissioner Dimock took the chair.

The minutes of the meetings held 13th and 15th instant, were read and approved.

The following communication was received, read, and,

On motion, laid on the table to await action, to wit :

From Engineer-in-Chief—In reference to repairs required to Pier, new 37, North river.

The following communications were received, read, and,

On motion, placed on file, action being taken where necessary, as stated, to wit :

From Murphy & Nesbit—As to repairs required to be made at Pier at Thirty-seventh street, East river. Secretary stating that, by direction of the Commissioners, the Engineer-in-Chief had been directed to examine and report the condition of the premises and amount of repairs required ; action approved.

From William R. Grace, Mayor (July 18)—Requesting to be furnished with certain data respecting the leasing of Pier, new 41, North river. Secretary reporting that, by direction of the Commissioners, the necessary data had on the 19th instant been transmitted ; action approved.

From Comptroller—In reference to certain wharf property belonging to the city to be sold on 19th October next for unpaid taxes. Secretary directed to make an examination into the facts of the case and when completed to advise the Comptroller thereof.

From A. J. Kerwin—For permission to erect a retaining wall, between Fifty-ninth and Sixtieth streets, East river, upon property being improved by him thereat. Application granted, the work to be done under the supervision of, and to the satisfaction of, the Engineer-in-Chief of this Department.

From J. B. & J. M. Cornell—Requesting that they be furnished with tickets for the dumping of material at Twenty-seventh street, North river. Secretary stating that, by direction of the Commissioners, tickets for the depositing of 250 loads of material had been sent to them ; action approved.

From Counsel to the Corporation—In reference to forms of estimates to be advertised for by the Department.

From Pim, Forwood & Company, agents Atlas Steamship Company—Inclosing agreement signed by Holmes Brothers, contractors, for building Pier, new 55, North river, to the effect that the additional foundations to be put in said pier by them shall not in any manner interfere with the provisions of their contract with this Department. Engineer-in-Chief informed that the work of putting in said additional foundations can now be proceeded with.

From S. L. Lanman—For permission to lay rail tracks on Pier at One Hundred and Twenty-fifth street, Harlem river, to facilitate the placing of manure on ves-els berthed thereat. Application

granted, the work to be done under the supervision of the Engineer-in-Chief of this Department provided he shall pay to this Department monthly in advance the sum of \$15. in addition to and legal wharfage as may become due from the vessels berthed at said pier.

From Henderson Brothers—In reference to repairing of Pier 46, East river. Repairs to said pier ordered previously.

From Bogert & Morgan—In reference to occupation of Pier, new 37, North river, and repairs required thereto. Applicants informed that the matter referred to will, of necessity, have to remain as it now stands for the present.

From Frederick Schecker, lessee, W. J. Warwick, J. H. Haven & Son, and Engineer-in-Chief—In reference to repairs required to Pier at Fifty-seventh street, North river. Engineer-in-Chief directed to repair said pier, in accordance with his report, provided the cost thereof shall be within the sum of \$1,000.

From William L. McConkey, and New York, Lake Erie and Western Railroad Company—In reference to repairs required to bulkhead between Piers 7 and 8, East river. Engineer-in-Chief directed to repair the aforesaid premises, provided the cost shall be within the sum of \$1,000.

From Department of Public Charities and Correction, and Engineer-in-Chief—In reference to repairs needed to dock at Ward's Island. Engineer-in-Chief directed to repair said dock, in accordance with his report, at a cost of about \$65.

From Iron Steamboat Company, and Engineer-in-Chief—In reference to having fender piles, etc., replaced at Pier, new 1, North river. Engineer-in-Chief directed to do the work in accordance with his report of 25th inst.

From Theodore F. Tone, lessee—To have repairs made and dredging done at Pier at One Hundred and Thirtieth street, North river. Repairs and dredging for above already ordered.

From Henry Bergh—As to dangerous condition of Pier 62, East river.

From Joseph Cooper, lessee—As to dredging required to Pier 60, East river. Engineer-in-Chief directed to make requisition for the necessary dredge, scows, and labor to do the necessary dredging at said pier, if the work can be done within \$1,000.

From Frederick W. Wright—In reference to repairs required to Pier 43, East river. Repair to the aforesaid premises ordered previously by this Department.

From Warren Roosevelt—To drive fender piles between Thirty-fourth and Thirty-fifth streets, East river. Action of the Commissioners on the 15th instant, granting permission for the work, approved.

From E. G. Blackford, lessee—To have repairs made to bulkhead at West Tenth street, North river. Engineer-in-Chief directed to examine and report the amount of repairs required.

From Engineer-in-Chief, as follows:

1st. Report of the material excavated and removed by the Union Dredging Company, in Department dredges and scows, during the months of May and June, 1881. Secretary directed to forward bill to said company for the amount due for the use of said dredges and scows, with the request that they pay said amount to the Treasurer of this Department.

2d. Reports as to work performed during the weeks ending July 6 and 23, 1881.

3d. As to water-front being filled in between Fifty-ninth and Sixtieth, and Eightieth and Eighty-second streets, East river, and the platform being erected between Forty-ninth and Fifty-first streets, East river. Secretary stated that, by direction of the Commissioners, the Corporation Wharfinger for the District had been directed to cause the work of filling in to be stopped, and the occupant of water-front between Forty-ninth and Fifty-first streets had been directed to remove said piles and platform. Action of the Commissioners approved.

4th. As to removal of the old shed from bulkhead north of Pier, old 44, North river. Secretary stated that, by direction of the Commissioners, the Engineer-in-Chief had been directed to remove said shed, and use any of the material which may be suitable, for repairing wharf property.

5th. As to repairs required to Pier 62, East river. Engineer-in-Chief directed to include the repairs to said pier in the next estimate to be advertised by the Department.

6th. As to repairs required to Pier at Fifth street, East river. Joseph V. Brown, lessee of said pier, directed to repair the premises; 8 bearing piles, 100 feet backing log, and 300 feet of 3-inch plank being required.

7th. As to repairs required to Riverside Hospital Dock, Blackwell's Island. Engineer-in-Chief directed to repair said dock, in accordance with his report, at a cost of about \$116.

8th. As to dredging required at various dumping-boards on the North and East rivers. Engineer-in-Chief directed to prepare specifications and form of contract to have dredging at dumping boards, at Twenty-second street, East river, and at Thirty-seventh street, North river, done by contract. Action of the Commissioners in directing the Engineer-in-Chief to make requisition for the necessary dredge, scows and labor to dredge at Jackson, Fifth, Thirty-eighth, and Forty-sixth streets, East river, and at Twelfth, Twenty-first, and Forty-seventh streets, North river, in accordance with his report on Secretary's Order No. 1843, approved.

9th. As to repairs required to dock at Ward's Island, estimated cost \$200; dock and sluiceway at Randall's Island, estimated cost \$525, and dock at Charity Hospital, at a cost of \$125. Engineer-in-Chief directed to make the repairs as soon as possible, in accordance with his report.

10th. As to repairs needed to the platform, between Sixtieth and Sixty-second streets, East river. Engineer-in-Chief directed to repair said platform, in accordance with his report, at a cost of about \$165.

11th. As to repairs required to Pier at One Hundred and Twenty-fifth street, Harlem river. Engineer-in-Chief directed to repair said pier at a cost of about \$225.

12th. Stating that the sunken scow at Pier at Twenty-eighth street, North river, is claimed to be owned by Peter Conroy. Secretary directed to notify the owner to remove said scow at once.

13th. As to test of cement furnished by W. W. Clark, Baltimore.

14th. In reference to progress of work, by contractors, of dredging at Piers, new 54, 55, and 56, North river.

From John Butler, Corporation Wharfinger—In reference to the driving of piles and erecting platform, between Forty-ninth and Fifty-first streets, East river. Occupants notified to remove at once the aforesaid structure, no permission having been granted by this Department for its erection.

From Comptroller—Requesting information concerning the injury to a horse owned by Owen Gallagher, on Pier at Fifty-seventh street, North river, on June 3, 1881. Secretary directed to forward facts to the Comptroller.

From Phelps Brothers—In reference to occupation of Pier, new 37, North river. Applicants informed that in consequence of an injunction order of the United States District Court, said pier is held by this Department for the present for use by any vessels which may be duly assigned berths thereat, at regular rates of wharfage, and that as soon as said injunction shall be removed, the pier will be occupied by Bogert and Morgan, pending the completion by this Department of a new pier to be occupied by them.

A communication was received from the Engineer-in-Chief in reference to the delivery of lumber and final estimate under contract with Thomas J. Crombie, and, being read,

On motion, the following preamble and resolution was adopted :

Whereas, The Engineer-in-Chief of this Department has this day submitted the final estimate under the contract with Thomas J. Crombie, for furnishing spruce and white oak timber, dated April 6, 1881, exhibiting a balance of \$123.14 due to the Corporation, consequent upon a penalty of \$50 per day, for forty-two days' delay in delivery of said material, being in amount \$2,100, having been imposed under the terms of said contract ; and

Whereas, The said Engineer-in-Chief has reported to this Board in writing, this date, that the delay in the delivery of said material has not caused and is not likely to cause any detriment to the Department ; therefore

Resolved, That this Board certify to the Comptroller that the failure of Thomas J. Crombie to deliver the material specified in the final estimate (No. 2) within the time stipulated therefor under his contract for furnishing spruce and white oak timber, dated April 6, 1881, has not caused the Corporation to sustain any loss or damage whatsoever, that portion of said material, the delivery of which was delayed, not being required for the work of the Department prior to its delivery.

A communication was received from the Engineer-in-Chief, in reference to the delivery of spikes and final estimate under contract with George J. Goetz, and, being read,

On motion, the following preamble and resolution was adopted :

Whereas, The Engineer-in-Chief of this Department has, this day, submitted the final estimate under the contract with George J. Goetz, for furnishing wrought iron spikes, dated April 7, 1881, exhibiting a balance of \$180 due the Corporation, consequent upon a penalty of \$50 per day, for twenty-one days' delay in delivery of said material, being in amount \$1,050, having been imposed under the terms of said contract ; and

Whereas, The said Engineer-in-Chief has reported to this Board, in writing, under date of 21st instant, that the delay in the delivery of said material has not caused nor is it likely to cause any detriment to the Department ; therefore,

Resolved, That this Board hereby certify to the Comptroller, that the failure of Geo. J. Goetz, to deliver the material specified in the final estimate (No. 1) within the time stipulated therefor, under his contract for furnishing wrought iron spikes, dated April 7, 1881, has not caused the

Corporation to sustain any loss or damage whatsoever, that portion of said material, the delivery of which was delayed, not being required for the work of the Department prior to its delivery.

A communication was received from the Engineer-in-Chief in reference to the delivery of cement and final estimate under contract with William H. Thompson, and, being read,

On motion, the following resolution was adopted :

Resolved, That this Board certify to the Comptroller that the failure of William H. Thompson to deliver the required quantity of cement within the time stipulated therefor, under his contract for furnishing about 5,000 barrels Portland cement, dated March 25, 1881, has not caused, nor is it likely to cause the Corporation to sustain any loss or damage whatsoever ; the work of the Department for which the cement was purchased not being in a sufficiently advanced state to admit of the cement being used.

Special reports were received from James Fitzpatrick, Corporation Wharfinger, in reference to non-removal of lumber owned by Ogden & Co., Decker & Rapp, Drew & Bucki, and Bell Brothers, from various bulkheads on the North river, after written notice had been given to that effect, and, being read,

On motion, the following resolutions were adopted :

Resolved, That a penalty be and hereby is imposed upon Ogden & Co., in the sum of \$200, being \$50 per day from 14th to 18th of July, in all four days, for failure to remove the lumber owned by them from bulkhead between Twenty-first and Twenty-second streets, North river, after notice to remove the said lumber had been served upon them by the Corporation Wharfinger of the district, in compliance with the regulations adopted by this Department for piers, bulkheads and slips.

Resolved, That a penalty be and hereby is imposed upon Decker & Rapp, in the sum of \$250, being \$50 per day from 13th to 18th July, in all five days, for failure to remove the lumber owned by them from bulkhead between Jane and Twelfth streets, North river, after notice had been served upon them by the Corporation Wharfinger of the district, in compliance with the regulations adopted by this Department for piers, bulkheads and slips.

Resolved, That a penalty be and hereby is imposed upon Decker & Rapp, in the sum of \$250, being \$50 per day from 13th to 18th July, in all five days, for failure to remove the lumber owned by them from bulkhead between Bank and Bethune streets, North river, after notice to remove the said lumber had been served upon them by the Corporation Wharfinger of the district, in compliance with the regulations adopted by this Department for piers, bulkheads and slips.

Resolved, That a penalty be and hereby is imposed upon Drew & Bucki, in the sum of \$250, being \$50 per day, from 13th to 18th July, in all five days, for failure to remove the lumber owned by them from bulkhead between Little Twelfth and West Thirteenth streets, North river, after notice to remove the said lumber had been served upon them by the Corporation Wharfinger of the district, in compliance with the regulations adopted by this Department for piers, bulkheads and slips.

Resolved, That a penalty be and hereby is imposed upon Bell Brothers, in the sum of \$200, being \$50 per day, from 14th to 18th July, in all four days, for failure to remove the lumber owned

by them from the bulkhead between Twenty-first and Twenty-second streets, North river, after notice to remove the said lumber had been served upon them by the Corporation Wharfinger of the district, in compliance with the regulations adopted by this Department for piers, bulkheads and slips.

A communication was received from the Comptroller, with his approval of the sureties on estimate of the Union Dredging Co., and, being read,

On motion, the bids received and opened on 15th inst., for dredging various slips on the North and East rivers, were taken from the table and placed on file, and the following resolution adopted:

Resolved, That the contract for dredging at sundry places on the North and East rivers, be and is hereby awarded to the Union Dredging Company, their bid for doing said work being the lowest under estimates publicly opened 15th instant, and the Comptroller having advised, in writing, the 22d instant, that said party is not in default or arrears to the Corporation.

The Auditing Committee presented an audit of 20 bills, or claims, amounting to the sum of \$50,690.34, and, being read, was,

On motion, accepted and adopted, and the Secretary directed to forward the said bills, together with proper requisitions for the amount, to the Finance Department for payment.

A communication was received from the Engineer-in-Chief as to repairs required to east half of Pier 24, East river, and, being read, and the Treasurer stating that the Commissioners had had an interview with Wm. H. Goodspeed, Vice-President of the Hartford and New York Steamboat Company, lessee of said premises, and that said lessee had agreed to make all the repairs necessary to said premises, under the supervision of the Engineer-in-chief of this Department, for the sum of \$850,

On motion, the Engineer-in-Chief was directed to make the necessary requisition for making said repairs, provided the said lessee shall file in this Department a written agreement to the effect that upon the completion of said repairs the Department and Corporation shall be wholly released from any and all obligations to make any of the repairs to the said premises, whether assumed or implied by the terms of sale held March 29, 1881, at which the lease of the said wharf property was purchased by the Hartford and New York Steamboat Company.

A communication was received from the Counsel to the Corporation, stating that as this Department, in receiving estimates for building Pier, new 57, North river, and for repairing certain six piers on the North river, advertised to be opened on June 29, 1881, omitted and failed through a misapprehension of the requirements of chapter 147, Laws of 1881, to ascertain and examine the five per cent. security to be deposited with each estimate, prior to its being placed in the Estimate Box; in consequence of which omission one bidder deposited his estimate unaccompanied by any security whatever, and another bidder accompanied his estimate with certified check on a State bank, and only one bidder accompanied his estimate with a certified check on a National Bank of the City of New York; and that an opinion was being prepared, advising that the receiving and opening of said bids was irregular, and that the Department should reject them, and readvertise for new estimates for both of said contracts,

On motion, the three estimates for building Pier, new 57, North river, and the one estimate for repairing certain six piers, received and opened June 29, 1881, were taken from the table and rejected, and the Secretary directed to have a sufficient number of blank forms of proposals printed and proper advertisements, inviting bids for doing said work, inserted in the papers designated by law.

Commissioner Laimbeer presented for adoption the following preamble and resolution :

Whereas, There are now several pieces of property upon the water-front of the North and East rivers alleged to belong to the City of New York, which have been in the possession of citizens, having no title thereto, and who for several years have collected the rents and income therefrom ; therefore,

Resolved, that the Commissioners of the Sinking Fund request the Counsel to the Corporation to assign special counsel to examine titles and report to this Board all the facts, in order that proper rents may be demanded and the interests of the city be cared for and protected ; and further,

Resolved, That the Treasurer be and hereby is requested to make demand upon any and all such tenants for such proper amounts as may be due to this date.

Commissioner Dimock offered as an amendment, the following addition to the preamble :

And, whereas, it is stated to the Board by Commissioner Laimbeer, that he understood the Counsel to the Corporation to inform him that special counsel could only be assigned to him of the Commissioners of the Sinking Fund.

The ayes and noes being called for and taken on the amendment, it was lost by the following vote :

Aye — Commissioner Dimock.

Noes—Commissioners Laimbeer and Vanderpoel.

The resolution as offered, was thereupon adopted by the affirmative votes of Commissioners Laimbeer and Vanderpoel.

Commissioner Dimock here stated that he did not vote on the resolution, as he thought the proper way to do this thing was to ask the Counsel to the Corporation directly.

On motion of Commissioner Laimbeer, it was

Resolved, That the Chief Engineer be directed to prepare plans and specifications for building Pier at the foot of Twenty-third street, North river.

The Board here went into Executive Session.

A communication was received from the Commissioners of the Sinking Fund, inclosing copy of resolution adopted by them on 16th instant, whereby this Department is requested to furnish a detail statement of the actual cost per lineal foot of the bulkhead or river wall now building and heretofore built in each year, and also to report specifically upon the proposition of J. E. Walsh, to build bulkhead wall by means of a coffer-dam, and, being read, was,

On motion, laid on the table, and the Secretary directed to address a communication to the Commissioners of the Sinking Fund, advising in reply that the Commissioners of Accounts are now engaged in making a thorough examination of the accounts of this Department, and the method by which it is and has been prosecuting its work of improving the water-front of the city, and that the

said Commissioners are also carefully examining into the cost of the bulkhead wall referred to, and as soon as they shall have arrived at a conclusion, then this Department will answer in detail the several inquiries, as set forth in the resolution above referred to.

A copy of resolution of the Board of Aldermen, adopted July 26, 1881, in relation to the leasing of Pier, new 41, North river, was received, and, being read, was,

By the unanimous vote of the Commissioners, ordered to be placed on file.

A communication was received from Wm. R. Grace, Mayor, requesting that Pier, new 41, North river, be retained for general use and not leased, etc., and, being read, was,

On motion, referred to Commissioners Laimbeer and Dimock, to prepare a reply thereto.

A communication was received from the Counsel to the Corporation, requesting information in reference to leases of certain wharf property, etc., and, being read,

On motion, the Secretary was directed to furnish the information desired.

On motion of Commissioner Vanderpoel, the action of the Commissioners in dispensing with the services of the Janitress was approved.

Commissioner Laimbeer called up the preamble and resolution offered by him on 15th June, in reference to the construction of the bulkhead wall, and entered in full on the minutes, and moved to amend the same by striking out the words "his Honor the Mayor of the City of New York, as Chairman of," as they occur in lines 19 and 20, page 133 of the minutes, and substituting the word "them" in place of the word "him," as it occurs on line 23, and adding after the word "them," so substituted, the words "and also to this Board," which amendment was,

On motion, approved and adopted.

Commissioner Laimbeer thereupon moved the adoption of the said resolution as amended, which was not adopted by the following vote:

Aye—Commissioner Laimbeer.

Noes—Commissioners Dimock and Vanderpoel.

On motion, it was

Resolved, That the question of the construction of the bulkhead wall be and hereby is referred to a committee of the full Board, of which committee Commissioner Laimbeer shall be Chairman.

The Engineer-in-Chief submitting form of contract and specifications for repairing Piers 44, 46, 60, 61, and 62, East river, and, being read,

On motion, it was

Resolved, That the form of specifications and contract, as prepared by the Engineer-in-Chief, for repairing Piers 44, 46, 60, 61, and 62 East river, be and hereby is approved and adopted, subject to the approval of the Counsel to the Corporation as to form, and that the Secretary be and hereby is directed to have a sufficient number of blank forms of proposals printed and proper advertisements, inviting bids for doing said work, inserted in the papers designated by law.

On motion, the Board adjourned.

EUGENE T. LYNCH, Secretary.

At a special meeting of the Board of Docks, held July 29, 1881.

Present—The full Board, and Henry J. Storrs, representing the Comptroller of the city.

On motion, Commissioner Dimock took the chair.

Three estimates were received for building new wooden pier and dumping board at foot of Nineteenth street, North river, as follows :

	CLASS 1. Dredging 11,200 Cubic Yds.	CLASS 2. Building Pier, etc.
1. From P. S. Ross and J. B. Sanford (with \$350, in bills).....	\$0 30	\$23,600 00
2. From John Gillies (with \$350, in bills).....	30	19,700 00
3. From Joseph Walsh (with certified check, \$350).....	30	24,700 00

—and, being read, were,

On motion, laid on the table for examination.

One estimate was received for repairing and widening Pier 21, East river, as follows :

No. 1. From Joseph Walsh, for \$10,400 ; with certified check for \$150 ;

—and, being read, was,

On motion, laid on the table for examination.

Three estimates were received for repairing Pier 38, East river, and the adjoining bulkhead, as follows :

	CLASS 1. Crib Dredging, 4,050 Cubic Yds. Per Cubic Yd.	CLASS 2. Dredging Around Crib, 3,000 Cubic Yds. Per Cubic Yd.	CLASS 3. Repairing Pier and Bulkhead.
1. From Warren Roosevelt (with certified check for \$250).....	\$1 10	\$0 30	\$16,949 00
2. From Joseph Walsh (with certified check for \$250).....	1 20	30	15,900 00
3. From John Gillies (with \$250, in bills).....	1 20	30	14,258 00

—and, being read, were,

On motion, laid on the table for examination.

On motion, Patrick Reilly and Terence Hunt were appointed watchmen.

On motion, the Board adjourned.

EUGENE T. LYNCH, Secretary.

A special meeting of the Board of Directors August 2, 1898.

Present: The full Board.

On motion, Commissioner Lynch took the chair.

A communication was received from the Engineer with the approval of the estimates of John Gillies and Joseph Walsh and being read.

On motion, the said estimates and report of said estimate for repairing Pier 31, East river, and the adjoining bulkhead, building pier and widening Pier 21, the foot of Nineteenth street, North river, and repairing and widening Pier 21, East river, were taken from the table and placed on file, and the following resolution adopted:

Resolved, That the contract for repairing Pier 31, East river, and the adjoining bulkhead, be and is hereby awarded to John Gillies, of 102 West Street, New York, at the sum of \$12,000 for doing said work being the lowest under estimate opened to bid, and the Contractor having signed a writing, the 2d instant, that the said party is not in default or arrears to the Corporation.

Resolved, That the contract for building a new wooden pier with a dumping board thereon, at the foot of West Street, New York, be and is hereby awarded to John Gillies, of 102 West Street, New York, at the sum of \$12,000 being the lowest under estimate publicly opened to bid, and the Contractor having signed a writing, the 2d instant, that said party is not in default or arrears to the Corporation.

Resolved, That the contract for repairing and widening Pier 21, East river, be and is hereby awarded to Joseph Walsh, of 114 Wall Street, New York, being the lowest for doing said work under estimates publicly opened to bid, and the Contractor having signed in writing, the 2d instant, that said party is not in default or arrears to the Corporation.

On motion, Robert McLeod and Frank Smith were appointed as Engineers on pile drivers.

On motion, the Board adjourned.

EUGENE T. LYNCH, Secretary.

At a special meeting of the Board of Docks, held August 4, 1881.

Present—The full Board.

On motion, Commissioner Dimock took the chair.

Commissioners Laimbeer and Dimock, to whom was referred the communication from his Honor the Mayor, in reference to the leasing of Pier, new 41, North river, presented a report in answer to said communication, which, being read, was,

On motion, laid on the table for final action on 5th instant.

On motion, it was

Resolved, That the compensation to be paid to William Livingstone, Assistant Draughtsman, be and hereby is fixed at \$21 per week, to take effect from and after the 1st instant.

On motion, the Board adjourned.

EUGENE T. LYNCH, Secretary.

At a special meeting of the Board of Docks, held August 5, 1881.

Present—The full Board.

On motion, Commissioner Dimock took the chair.

The report of the Committee appointed to reply to the communication from his Honor the Mayor, in reference to the leasing of Pier, new 41, North river, etc., was,

On motion, taken from the table, and, being duly considered, the following resolution was unanimously adopted :

Resolved, That the report of the Committee on the subject of the leasing of Pier, new 41, North river, be approved and adopted, and the Secretary directed to forward a copy of the same to his Honor the Mayor.

On motion, the Board adjourned.

EUGENE T. LYNCH, Secretary.

At a meeting of the Board of Docks, held August 12, 1881.

Present—The full Board.

On motion, Commissioner Dimock took the chair.

The minutes of the meetings held 29th ultimo, and 2d, 4th, and 5th instant, were read and approved.

The following communications were received, read, and,

On motion, laid on the table to await action as stated, to wit :

From Morrisania Steamboat Company—For permission to drive piles in front of their land on Harlem river, east of Third avenue bridge. Engineer-in-Chief directed to examine and report on the same.

From Joseph V. Brown, lessee—In reference to repairs ordered to be made to Pier at Fifth street, East river. Referred to Engineer-in-Chief for examination and report.

From Tupper & Beattie—For permission to retain small office on bulkhead between Piers 16 and 17, East river. Referred to Commissioner Vanderpoel for examination and report.

From Pim, Forwood & Company, Agents Atlas Steamship Company—In reference to plans submitted for shed to be erected by them on Pier, new 55, North river. Applicants requested to call on the Commissioners in reference to the same.

From William L. McConkey, Corporation Wharfinger—As to position of ferry rack on east side of Pier 2, East river. Engineer-in-Chief directed to examine and report on the same.

From Engineer-in-Chief—As to repairs required to Pier 37, East river. Engineer-in-Chief directed to refasten the spring piles on the south end of the pier, in accordance with his report.

The following communications were received, read, and,

On motion, placed on file, action being taken where necessary, to wit :

From John Gillies—Accepting award of contracts for building Pier at Nineteenth street, North river, and repairing Pier 38, East river, under estimates publicly opened 29th ultimo.

From Joseph Walsh—Accepting award of contract for repairing and widening Pier 21, East river, under estimates publicly opened 29th ultimo.

From Counsel to the Corporation, as follows :

1. In reference to estimates received for repairing certain six piers on the North river.
2. In reference to estimates received for building Pier, new 57, North river.
3. In reference to lease of Pier, new 36, North river, to John G. Dale, agent.

From John D. Crimmins—In reference to unsafe condition of Pier at Fortieth street, North river.

From William L. McConkey, Corporation Wharfinger—In reference to skids upon the bulkhead, between Piers 17 and 18, East river.

From Police Department—In reference to repairs needed to Pier at Fifty first street, North river. Repairs to said pier already ordered by the Department.

From Bogert & Morgan, agents—Inclosing check for rent of Pier, old 36, North river.

From John Butler, Corporation Wharfinger—Report as to platform near bulkhead at Fourteenth street, East river.

From Alexander Mason, lessee—In reference to repairs to be made to Pier 44, East river, and loss of use of pier thereby.

From East River Ferry Company—Inclosing check for rent for premises foot of Thirty-fourth street, East river.

From William L. McConkey, Corporation Wharfinger :

- 1st. As to logs incumbering various bulkheads on the East river.
- 2d. In reference to bad condition of Pier 22, East river, and bulkhead between Piers 11 and 12, East river.

From Theodore F. Tone, lessee—To have repairs made to Pier at One Hundred and Twenty-ninth street, North river. Applicant informed that the repairs to said pier have been ordered by the Department and will be done very soon.

From John Butler, Corporation Wharfinger—As to removal of platform between Forty-ninth and Fifty-first streets, East river. William C. Brainard, occupant of said platform, notified and directed to remove the same within ten days.

From Engineer-in-Chief, as follows :

- 1st. Reports as to work performed during the weeks ending July 30 and August 6, 1881.
- 2d. Reporting that he had suspended John J. McEntee, Night Watchman, for having been found asleep while on duty at his post. Action approved and the said watchman discharged.
- 3d. As to the condition of ferry rack, east side of Pier 21, East river. Captain Hunt, of the Union Ferry Company, requested to call upon the Commissioners in reference thereto.
- 4th. In reference to condition of ferry rack at east side of Pier 55, East river. Action of the Commissioners on 6th instant, in directing the occupants of the ferry premises to take up the ferry rack alongside of said Pier 55, and to place it far enough away to prevent its striking the pier when struck by their ferry boats, approved.
- 5th. As to repairs required to bulkhead between Piers 11 and 12, East river. Action of the Commissioners, on the 6th inst., in directing the Engineer-in-Chief to repair said bulkhead, approved.
- 6th. As to repairs required to Pier at Ninety-sixth street, North river. Engineer-in-Chief directed to include all repairs necessary to said pier in the contract for extending said pier.

From James McClenahan, lessee—In reference to dredging being done at slips at Pier at Fortieth street, North river, etc. Secretary directed to advise, in reply, that as the promises which he avers were given to him by Commissioners Laimbeer and Vanderpoel, that this Department would dredge the slips to the extent of 100 feet on each side of said pier, were made long after the purchase by him of the lease of said pier, this Board cannot consent to do any greater

amount of dredging at the premises than has already been ordered, and further, that estimates are now advertised for making repairs to said pier.

From Funch, Edye & Co. --In reference to execution of lease of Pier, new 54, North river. Secretary directed to advise that said lease will be ready for execution in about two months, and that the lease granted to them of said Pier, new 54, North river, is considered by this Board to be fully as binding on this Department and the city as if the lease was formally executed, and that leases of the new piers, although arranged for before the structures are completed, are never executed until after the piers are completed.

From Department of Public Works--Requesting that the "Woodcock" Boring Machine be loaned it. Action of the Commissioners, in directing the Engineer-in-Chief to deliver said machine as requested, the Department of Public Works to assume and pay all expenses incurred for labor and towing, and to return said machine in as good order as when received, at the end of about thirty days, approved.

From Daniel Dailey, lessee--In reference to obstruction on bulkhead at Fourteenth street, East river, etc. Secretary directed to advise that said platforms are in the street and not on said bulkhead, and that no deduction from rent for said premises can be made by this Department.

From John Roach & Sons For permission to repair Pier at Ninth street, East river. Application granted, the work to be done under the supervision of the Engineer-in-Chief of this Department, and within the lines of the pier.

From David Whipple--For permission to repair Pier 13, East river. Application granted, the work to be done under the supervision of the Engineer-in-Chief of this Department, and within the existing lines of said pier.

From Wm. D. Brown, lessee--In reference to surrendering lease of Pier at One Hundred and Fifty-second street, North river. Secretary directed to advise that this Department cannot release him therefrom, and that the rent due this Department for said pier must be paid without delay.

From Department of Public Works--To have fenders at floating baths at the Battery and at Gouverneur street, East river, repaired. Engineer-in-Chief directed to make the repairs as requested.

From Elliott F. Driggs and others--In reference to repairing Piers 38, 44 and 46, East river. Secretary directed to advise, that the repairs to be made to said piers to be done by contract are now advertised, and that the Department will do all in its power to have said repairs proceeded with, so as to afford the least possible inconvenience to parties doing business in the vicinity.

From W. D. Morgan, lessee--To have repairs made to the surface of the east half Pier 18, East river. Applicant notified that he must make the necessary repairs to said pier at his own cost and expense, in accordance with the terms and conditions of sale held March 13, 1879, under which the lease of said premises was purchased by him.

From Alexander Mason, lessee--As to repairs and dredging required at Pier 44, East river. Secretary directed to advise that the repairs to Pier 44, East river, leased by him, are now advertised to be done by contract, and that the Engineer-in-Chief has been directed to issue requisitions to have the necessary dredging done on the northerly side of said pier, as requested.

A communication was received from the Engineer-in-Chief, stating that he had suspended Murtha Gallagher, Night Watchman, for ten days, he having been found inattentive while on duty, and, being read, was,

On motion, referred to Commissioner Laimbeer for examination and report.

A communication was received from Bell Brothers, in reference to removal of lumber from bulkhead between Twenty-first and Twenty-second streets, North river, and, being read, was,

On motion, referred to Commissioner Laimbeer to examine and report.

A communication was received from the Comptroller, remitting the penalty imposed by this Department against George J. Goetz, for furnishing wrought iron spikes, and, being read,

On motion, the following preamble and resolution was adopted :

Whereas, By virtue of the power vested in the Finance Department by section 31 of chapter 335, Laws of 1873, the Comptroller has decided to remit the penalty imposed by this Department against George J. Goetz, for non-delivery of wrought iron spikes within the times agreed upon under his contract for furnishing said material, dated April 7, 1881, and deducted in the sum of \$1.050 from Estimate, No. 1 and final, dated July 11, 1881, under said contract, therefore,

Resolved, That the final Estimate (No. 1) under said contract be and hereby is made as for the sum of \$870, that being the amount now due to the said George J. Goetz, in full settlement and payment of said contract, consequent upon the penalties, amounting to \$1,050, having been remitted as advised by the Comptroller, under date of August 4, 1881.

A communication was received from the Comptroller, remitting the penalty imposed by this Department against Thomas J. Crombie, for furnishing spruce and oak timber, and, being read,

On motion, the following preamble and resolution were adopted :

Whereas, By virtue of the power vested in the Finance Department by section 31 of chapter 335, Laws of 1873, the Comptroller has decided to remit the penalty imposed by this Department against Thomas J. Crombie, for non-delivery of spruce and oak timber within the times agreed upon under his contract for furnishing said material, dated April 6, 1881, and deducted in the sum of \$2.100 from Estimate, No. 2 and final, dated July 28, 1881, under said contract, therefore,

Resolved, That the final Estimate (No. 2) under said contract be and hereby is made as for the sum of \$1,976.86, that being the amount now due to the said Thomas J. Crombie in full settlement and payment of said contract, consequent upon the penalties, amounting to \$2,100, having been remitted, as advised by the Comptroller, under date of August 4, 1881.

A communication was received from the Engineer-in-Chief as to completion of Pier, new 21, North river, etc., and, being read,

On motion, the following resolutions were adopted :

Resolved, That under the powers vested in this Board by subdivision 6 of section 6, chapter 574, Laws of 1871, the bulkhead extending northerly five hundred and sixty feet from the northerly line of Pier, old 29, North river, to the northerly line of Pier, new 21, North river, including Piers, new 20 and new 21, together with the slips belonging and adjacent thereto, be and are hereby appro-

priated to the sole use of the special kind of commerce carried on by steam transportation by the New York, Lake Erie and Western Railroad Company.

Resolved, That the Counsel to the Corporation be and is hereby directed to prepare in proper form a lease in triplicate to the said company, for the said premises, for a term of ten years from August 1, 1881, subject to the terms and conditions stipulated under resolution adopted by this Board on July 14, 1875, except that provision is to be made for an allowance of \$3,097.83 on the rent to be paid for the quarter from August 1, 1881, to November 1, 1881, consequent upon the premises not being wholly completed and appropriated for the use of said company, until August 12, 1881, and for the rent accruing under the lease to be payable quarterly in advance, and that the officers of this Board be and are hereby authorized and empowered to execute the said lease, when approved as to form by said Counsel to the Corporation.

An application was received from the New York Central and Hudson River Railroad Company, for permission to erect a shed on Pier at Sixty-sixth street, North river, with plans, and, being read,

On motion, the following resolution was adopted :

Resolved, That permission be and the same is hereby granted to the New York Central and Hudson River Railroad Company, owners and occupants of the Pier at Sixty-sixth street, North river, which said company has built upon land lying under water belonging to the City, and leased to said company by this Department, to erect thereon, at their own cost and expense, a two-story shed for the reception and delivery of freight received and discharged thereat by steam transportation ; the said shed to be erected subject to chapter 249, Laws of 1875, the work of erecting said shed to be done under the supervision of the Engineer-in-Chief of this Department, and in accordance with the plans submitted and on file in this office, if, upon examination, that officer shall give his approval thereto. Said shed to revert to and become the property of the City of New York, free of any claim for cost or otherwise, whenever the pier upon which it is constructed shall revert to the City under the provisions of the lease thereof.

An application was received from the Iron Steamboat Company, for permission to assign a portion of Pier, new 1, North river, leased by it, to Pim, Forwood & Company, and, being read,

On motion, the Secretary was directed to notify said company, that this Department has no objection to the assignment, by the said company, of a portion of said pier, to Pim, Forwood & Company, for strictly commercial purposes, but the permission is in no wise to impair any of the obligations of said company, under the lease of the pier.

On motion of Commissioner Laimbeer, it was

Resolved, That the Secretary be directed to request the removal of sheds and buildings in front of bulkhead, south of White Star Steamship Company Pier, No. 45 ; also north of Cunard Pier, No. 40, and that if not removed by the 1st of September, the Chief Engineer is hereby directed to remove the same after that date.

On motion of Commissioner Laimbeer, it was

Resolved, That the Treasurer be requested to post a notice on the wall of this building, warning parties not to intrude upon the time of the employes of this Department during business hours.

On motion of Commissioner Laimbeer the following resolution was adopted :

Resolved, That any bulkhead wall hereafter built shall be done by contract, and the Engineer-in-Chief is hereby directed to confine his requisitions for the finishing of the sections now being constructed, and that all suitable materials now on hand be used for that purpose.

This resolution shall not apply to the sections now being done by the day, pursuant to resolutions of this Board prior to January 1, 1881.

On motion, the following resolution was unanimously adopted :

Resolved, That the Commissioners of the Sinking Fund pursuant to authority vested in them by subdivision 11 of section 6, chapter 574, Laws of 1871, be and are hereby respectfully requested to direct the Comptroller of the City of New York to prepare and issue Dock Bonds of the City of New York, for the amount of two hundred and fifty thousand dollars (\$250,000), for the uses and purposes of the Department of Docks.

The Auditing Committee presented an audit of twenty-four bills or claims, amounting to the sum of \$29,694.65, and, being read,

On motion, accepted and adopted, and the Secretary directed to forward the said bills, together with proper requisitions for the amount, to the Finance Department for payment.

A report was received from the Engineer-in-Chief, submitting form of contract and specifications for dredging at Twenty-second street, East river, and at Thirty-seventh street, North river, and, being read,

On motion, it was

Resolved, That the form of specifications and contract as prepared by the Engineer-in-Chief for dredging at the aforesaid places, be and hereby is approved and adopted, subject to the approval of the Counsel to the Corporation as to form, and that the Secretary be and hereby is directed to have a sufficient number of blank forms of proposals printed, and proper advertisements inviting bids, for doing said work, inserted in the papers designated by law.

A communication was received from Decker & Rapp in reference to the repairs made to Pier at Bethune street, North river, leased by them, and, being read, was,

On motion, referred to the Engineer-in-Chief for examination and report.

A communication was received from Wm. H. Goodspeed, Vice-President of the Hartford and New York Steamboat Company, lessee, in reference to repairs to be made by him to the east side of Pier 24, East river, etc., and, being read,

On motion, the Secretary was directed to request said Goodspeed to send without delay to his office an agreement, on his part, to do the necessary repairs to the easterly side of Pier 24, East

over and indebtedness, amounting to him, of the sum of \$850, and the new timber now he removed, to the sum of 600, and that when said errors are corrected, then this Department and the Corporation shall be wholly released from any and all obligations to make any of the repairs he had assumed whether assumed or omitted by the terms of said lease March 29, 1880, which he used to be and start property was purchased by the Hartford and New York Street Railway.

In action the secretary was directed to forward to the Counsel of the Corporation the report of the auditor of this Department, upon Decker & Rapp for \$500, Ogle & Co. for \$300, Drew & Baker for \$250, and Bell Brothers for \$200, for failure to remove lumber and logs from the Hudson River, with the request that he cause legal proceedings to be taken for the collection of the same.

The Board were sent into Executive Session.

A communication was received from the Commissioners of Accounts, in reference to the method of keeping the account of the Department of Public, recommending certain changes therein, and that the work of the Department be increased by the employment of an additional competent accountant, and being read.

In action the Chief Clerk was directed to carry out the system of keeping the accounts of the Department in compliance with the communication of the said Commissioners of Accounts, and the Commissioner undertakes and undertakes to secure the services of a competent accountant.

A communication was received from Wm. C. Grace, Mayor, recommending that the wages of messengers employed by this Department be increased to per cent, and, being read.

In action, the secretary was directed to acknowledge receipt of this communication, and in reply to state that some time before the receipt of said communication, the Commissioners took up the whole question of the rates of wages paid to the employees, and after a thorough examination of the various grades of the employees, and an extensive inquiry as to the compensation paid by private parties for similar services performed in advance of the rates of wages as then paid, was made up the Department, which communication establishes a rate of pay fully equal to that now experienced by the employees, and that this increase of pay was made by the City of New York, and that it was not in a fair and equitable to the employees, but that the Department of Public would not be served thereby.

Resolved, That J. McQuinn, David Fennell, and Francis Kelly were appointed as watchmen.

Resolved, That Board adjourned.

EUGENE T. LYNCH, Secretary.

At a special meeting of the Board of Docks, held August 18, 1881.

Present—The full Board and the Comptroller of the City.

On motion, Commissioner Dimock took the chair.

Two estimates were received for building Pier, new 57, North river, as follows :

- No. 1. From Thomas Pearson, for \$59,000, with \$750 cash.
 - No. 2. From Ross & Sanford, for \$54,000, with certified check \$750.
- and, being read, were,
- On motion, laid on the table for examination.

Two estimates were received for repairing Piers at Seventeenth, Eighteenth, Thirty-fourth, Fortieth, Forty-seventh, and One Hundred and Twenty-ninth streets, North river, as follows :

- No. 1. From Holmes Brothers, for \$23,540, with \$250 cash.
 - No. 2. From Thomas Pearson, for \$30,000, with \$250 cash.
- and, being read, were,
- On motion, laid on the table for examination.

Two estimates were received for repairing Piers 44, 46, 60, 61, and north half of 62, East river, as follows :

- No. 1. From Warren Rosevelt, for \$29,380, with certified check \$350
 - No. 2. From T. & A. Walsh, for \$49,000, with certified check \$350.
- and, being read, were,
- On motion, laid on the table for examination.

On motion, it was

Resolved, That the repairs to Pier 12, East river, contemplated to be done by the owners, must be done in accordance with plans to be approved by the Engineer-in-Chief of this Department.

On motion, it was

Resolved, That Francis E. Moon be appointed First Assistant Bookkeeper from and after this date, at a salary of \$1,800 per year.

On motion, John P. Atkinson was appointed as a watchman, and Martin Hanran as a laborer.

On motion, the Board adjourned.

EUGENE T. LYNCH, Secretary.

been broken down, etc., caused by the ferry racks striking the dock. Union Ferry Company notified and directed to make the necessary repairs to said pier above referred to.

7th. Reporting that Joseph V. Brown, lessee of Pier at Fifth street, East river, had refused to repair said pier as ordered by this Department. Engineer-in-Chief directed to repair said pier at the cost and expense of said lessee.

8th. In reference to repairs to Piers at Fifteenth, Sixteenth, and One Hundred and Twenty-sixth streets, North river, leased by Mutual Benefit Ice Co.

9th. In reference to repairs made to Pier at Bethune street, North river, leased by Decker & Kapp.

Action of the Commissioners on the 20th instant, in directing the lessees of said pier to place temporary platforms thereon for the use of horses which are hoisting cargo thereat, approved.

From Wm. H. Goodspeed, vice-president, lessee—Agreeing to make certain repairs to east side of Pier 24, East river.

From Atlas Steamship Co.—Stating that they will not require Pier, new 43, North river, for their use.

From Wm. L. McConkey, Corporation Wharfinger—As to repairs required to Pier 18, East river.

From Frederick Schecker—Offering to surrender lease of Pier at Fifty-seventh street, North river.

From James Keating—Applying for position as roundsman.

From Department of Public Works—To have fenders replaced at floating baths at Battery and at Gouverneur street, East river.

From Maurion Meagher—Applying for position as inspector of dredging; application granted.

From John Butler, Corporation Wharfinger—As to collection of wharfage at Pier at Ninety-fourth street, East river.

From Department of Public Works—Advising that orders for the repairing of sewer under the bulkhead between Piers 11 and 13, East river, had been issued by said Department.

From R. J. Cortis, agent, White Star Line—In reference to the order issued by this Department for the removal of shed on south side of Pier, new 45, North river. Secretary directed to advise that nothing further will be done in reference to the removal of said shed until further notice thereof shall be issued from this Department.

From Mutual Benefit Ice Co., lessee—In reference to non-completion of repairs to Pier 62, East river, and requesting a reduction from rent on account thereof. Applicant informed that no deduction from rent for said premises can be made by this Department.

From Thomas Fitzpatrick, lessee—Requesting that this Board reconsider its action taken in reference to the claim against him for repairing Pier at Forty-seventh street, North river, leased by him. Secretary directed to advise that this Board declines to grant his request, and that he must pay said claim without delay, otherwise it will be forwarded to the Counsel to the Corporation for immediate collection.

At a meeting of the Board of Docks, held August 26, 1881.

Present—Commissioners Dimock and Vanderpoel.

Absent—Commissioner Laimbeer.

On motion, Commissioner Dimock took the chair.

The minutes of the meetings held 12th, 18th, and 25th instant, were read and approved.

The following communications were received, read, and,

On motion, laid on the table, to await action, as stated, to wit :

From Engineer-in-Chief—In reference to repairs required to platform between Seventy-eighth and Seventy-ninth streets, East river. Owners of said platform requested to call at the next meeting of the Board in reference to the same.

From Counsel to the Corporation—Opinion in reference to title to the northerly half of Pier 59, East river.

From Engineer-in-Chief--Reporting that the Pier at Thirty-eighth street, East river, is in a dangerous condition, and requires extensive repairs, and that the dumping board thereon will have to be taken down and replaced. Secretary directed to address a communication to the Commissioner of Street Cleaning in reference to the above report and to request him to advise this Board if he will bear the expense of removing and replacing said dumping board; that, if so, then this Department will make the necessary repairs to said pier, etc.

From Health Department—To have dock constructed on North Brother Island. Engineer-in-Chief directed to examine and report on the same.

The following communications were received, read, and,

On motion, placed on file, action being taken where necessary, as stated, to wit :

From Engineer-in-Chief, as follows :

1st. Report as to work performed during the week ending August 13, 1881.

2d. Reporting that he had suspended P. W. Moran, Terence Hunt, and Geo. Feiss, Night Watchmen, for having been found asleep while on duty at their posts. Action approved and the said watchmen discharged.

3d. Reporting that he had suspended William Brennan, Chainman, he being unfit for duty through use of liquor. Action approved, and the said chainman discharged.

4th. In reference to repairs to bulkhead between Piers 18 and 19, East river.

5th. Reporting that in order to obtain a depth of 20 feet at mean low water in slip, between Piers 6 and 7, North river, about 18,600 cubic yards of material are required to be removed therefrom. Owners of said slip notified and directed to dredge the same in accordance with the above report.

6th. Reporting that the bridge between the outer and inner cribs of Pier 22, East river, had

been broken down, etc., caused by the ferry racks striking the dock. Union Ferry Company notified and directed to make the necessary repairs to said pier above referred to.

7th. Reporting that Joseph V. Brown, lessee of Pier at Fifth street, East river, had refused to repair said pier as ordered by this Department. Engineer-in-Chief directed to repair said pier at the cost and expense of said lessee.

8th. In reference to repairs to Piers at Fifteenth, Sixteenth, and One Hundred and Twenty-ninth streets, North river, leased by Mutual Benefit Ice Co.

9th. In reference to repairs made to Pier at Bethune street, North river, leased by Decker & Rapp.

Action of the Commissioners on the 20th instant, in directing the lessees of said pier to place temporary platforms thereon for the use of horses which are hoisting cargo thereat, approved.

From Wm. H. Goodspeed, vice-president, lessee—Agreeing to make certain repairs to east side of Pier 24, East river.

From Atlas Steamship Co.—Stating that they will not require Pier, new 43, North river, for their use.

From Wm. L. McConkey, Corporation Wharfinger—As to repairs required to Pier 18, East river.

From Frederick Schecker—Offering to surrender lease of Pier at Fifty-seventh street, North river.

From James Keating—Applying for position as roundsman.

From Department of Public Works—To have fenders replaced at floating baths at Battery and at Gouverneur street, East river.

From Maurice Meagher—Applying for position as inspector of dredging; application granted.

From John Butler, Corporation Wharfinger—As to collection of wharfage at Pier at Ninety-fourth street, East river.

From Department of Public Works—Advising that orders for the repairing of sewer under the bulkhead between Piers 11 and 13, East river, had been issued by said Department.

From R. J. Cortis, agent, White Star Line—In reference to the order issued by this Department for the removal of shed on south side of Pier, new 45, North river. Secretary directed to advise that nothing further will be done in reference to the removal of said shed until further notice thereof shall be issued from this Department.

From Mutual Benefit Ice Co., lessee—In reference to non-completion of repairs to Pier 62, East river, and requesting a reduction from rent on account thereof. Applicant informed that no deduction from rent for said premises can be made by this Department.

From Thomas Fitzpatrick, lessee—Requesting that this Board reconsider its action taken in reference to the claim against him for repairing Pier at Forty-seventh street, North river, leased by him. Secretary directed to advise that this Board declines to grant his request, and that he must pay said claim without delay, otherwise it will be forwarded to the Counsel to the Corporation for immediate collection.

From A. E. Outerbridge and Company, agents—In reference to dredging and repairs required at Pier, new 47, North river, leased by them. Secretary directed to advise that soundings recently taken by this Department at said pier show a depth of 10 feet at mean low-water, which is in accordance with the terms and conditions of sale held, under which the lease of said premises was purchased by them, and requesting that they shall advise this Department of the nature of the repairs which they state are required to said pier.

From M. Cohn—In reference to wharf accommodation between Twenty-third and Twenty-eighth streets, North river. Secretary directed to advise that he will have to apply to the Harbor Master for wharf accommodation in the vicinity above referred to.

From Department of Street Cleaning—As to dredging required at pier at Thirty-seventh street, North river. Secretary directed to advise that estimates for dredging at said pier are now advertised for, to be opened on September 1, 1881.

From Mutual Benefit Ice Company—As to repairs required to Piers at Fifteenth, Sixteenth, and One Hundred and Twenty-ninth streets, North river. Secretary directed to forward a copy of report of the Engineer-in-Chief in reference to repairs which have already been made to the piers above referred to.

From New York Central and Hudson River Railroad Company—To have blank forms of leases forwarded to them. Secretary directed to advise that this Department has no printed copies of leases referred to.

From Counsel to the Corporation—In reference to provisions of lease of Pier, new 26, North river, to the Old Dominion Steamship Company. Lease for said pier to be executed.

A communication was received from John E. Knapp, as to furnishing this Department with piles, etc., and, being read, was,

On motion, referred to the Treasurer.

A communication was received from the Comptroller, remitting the penalty imposed by this Department against William H. Thompson, for furnishing Portland cement, and, being read,

On motion, the following preamble and resolution was adopted :

Whereas, By virtue of the power vested in the Finance Department, by section 31, chapter 335, Laws of 1873, the Comptroller has decided to remit the penalty imposed by this Department, against William H. Thompson, for non-delivery of cement within the times agreed upon under his contract for furnishing about 4,000 barrels Portland cement, dated March 25, 1881, and deducted, in the sum of \$2,600, from audit claims, Nos. 6,859, 6,920 and 6,954, on June 1st and 29th, and July 27th, 1881, respectively ; therefore,

Resolved, That a requisition be and hereby is directed to be drawn upon the Comptroller for the sum of \$2,600, being the amount now due said Wm. H. Thompson, under said audited claims, consequent upon the penalties being remitted, and that the bookkeeper charge the amount to the said contract, so that the accounts of the Department shall exhibit estimates No. 1, 2 and 3 (final under said contract, as settled and paid in full in the sums of \$3,487.60, \$2,176.43 and \$4,463.56, respectively.

The Auditing Committee presented an audit of 25 bills or claims amounting to the sum of \$38,238.54, and, being read, was,

On motion, accepted and adopted, and the Secretary directed to forward the said bills, together with proper requisitions for the amount, to the Finance Department, for payment.

On motion, the application of the Morrisania Steamboat Company for permission to drive three bunches of piles inside the bulkhead line on Harlem river, between Lincoln avenue and Harlem Bridge, in front of property leased by them, for the purpose of mooring their steamboats, etc., and the report of the Engineer-in-Chief in reference thereto, were taken from the table and placed on file, and said application granted.

The Engineer-in-Chief, submitting form of contract and specifications for additional repairs to Pier 21, East river, and repairing bulkhead, and, being read,

On motion, it was

Resolved, That the form of specifications and contract as prepared by the Engineer-in-Chief for additional repairs to Pier 21, East river, and repairing bulkhead, be and hereby is approved and adopted, subject to the approval of the Counsel to the Corporation as to form, and that the Secretary be and hereby is directed to have a sufficient number of blank forms of proposals printed and proper advertisements, inviting bids for doing said work, inserted in the papers designated by law.

On motion, the Secretary was directed to address a communication to the Department of Parks, inclosing a tracing of the water-front between Eighty-fourth and Eighty-sixth streets, East river, stating that it is the intention of this Department to erect a bulkhead along said water-front, extending into the river from the present wall laid in cement, to about 55 feet at Eighty-fourth street, 45 feet at Eighty-fifth street, and 50 feet at Eighty-sixth street: the construction of said improvement to afford additional wharf facilities at that point of the water-front, and requesting said Department to inform this Board if any objection exists to the said work being done for commercial purposes.

On motion, it was resolved, that when this Board adjourns, it shall adjourn to meet on Friday, the 9th proximo.

On motion, James J. Hayes and George Ormsby were appointed watchmen, and Michael Gallagher as pile-driver engineer.

On motion, the Board adjourned.

EUGENE T. LYNCH, Secretary.

At a special meeting of the Board of Docks, held September 1, 1881.

Present—The full Board, and Henry J. Storrs, representing the Comptroller of the City.

On motion, Commissioner Dimock took the chair.

One estimate was received from the Union Dredging Company, for dredging slips at Thirty-seventh street, North river, and Twenty-second street, East river, at thirty-two cents per cubic yard, with certified check for \$60, and, being read, was,

On motion, laid on the table for examination.

William H. Simonson appeared in reference to the platform between Seventy-eighth street and seventy-ninth street, East river, occupied by him, and stated that his counsel could not be present day, and asked that the matter might be postponed until he could appear before the Board, and, being heard at length,

Commissioner Laimbeer moved that the resolution of the Board, adopted December 7, 1871, whereby William H. Simonson was permitted to erect platform on piles, between Seventy-eighth and Seventy-ninth streets, East river, and retain the same during the pleasure of the Board, be rescinded.

Commissioner Dimock moved as an amendment that the consideration of the subject be postponed until to-morrow the 2d instant, at 12 o'clock M., to enable the parties in interest to be heard.

The ayes and noes being called for and taken on the amendment, it was lost by the following vote:

Aye—Commissioner Dimock.

Noes—Commissioners Laimbeer and Vanderpoel.

The ayes and noes being called for and taken on the adoption of the resolution, it was adopted by the following vote:

Ayes—Commissioners Laimbeer and Vanderpoel.

No—Commissioner Dimock.

Commissioner Dimock, in reconsidering his vote, desired that it be recorded on the minutes, that he was in favor of the parties having a hearing before action should be taken by the Board.

Commissioners Laimbeer and Vanderpoel here stated that, as far as they were concerned, they already given a hearing to Mr. Simonson.

On motion, Corporation Wharfinger John Butler, was directed to collect all wharfage which accrued at the premises between Seventy-eighth and Seventy-ninth streets, East river, from and after this date, and the Secretary directed to notify William H. Simonson of this action of the Board.

Commissioner Dimock here stated that he desired to have it recorded on the minutes, that he opposed to the action being taken as above, until the parties had an opportunity of being heard.

A communication was received from the Comptroller, in reference to substitution of Andrew A. Bremner, in place of Timothy J. Campbell, as surety on estimate of Holmes Brothers for repairing certain six piers on the North river, under bids opened the 18th ultimo, and, being read,

On motion, it was

Resolved, That pursuant to the requirements of section 27, of chapter VIII. of Revised Ordinances of the City of New York, consent be and hereby is given to the substitution of Andrew A. Bremner, in place of Timothy J. Campbell, as surety to the contract proposed to be awarded under the estimate of Holmes Brothers, received and opened August 18, 1881, for repairing certain six piers on the North river.

A communication was received from the Fire Department, requesting that about eight spring piles be driven at the bulkhead at Pier, new 1, North river, to facilitate the berthing of fire steamer Wm. F. Havemeyer, and, being read, was,

On motion, laid on the table, and the Engineer-in-Chief directed to examine and report on the same.

A communication was received from Holmes Brothers, contractors for building Pier, new 55, North river, requesting that no penalty be imposed and deducted from their estimate until the final estimate be made under their contract, and, being read,

On motion, the Secretary was directed to notify the applicants that until the completion of the contract no action could be taken for the deduction of the penalty referred to.

The Secretary reporting that by direction of the Commissioners on the 29th ultimo, John H. Starin had been informed that Pier, new 41, North river, leased by him, had that day been completed and ready for occupancy, and that the rent therefor, under said lease, would commence from 1st proximo, and that said pier would be, at a meeting of the Board to be held the 1st proximo, appropriated to the sole use of the special kind of commerce carried on by steam transportation.

On motion, the action of the Commissioners was approved.

On motion, the following resolutions were adopted:

Resolved, That by virtue of the power vested in this Board by subdivision 6, of section 6, chapter 574, Laws of 1871, Pier, new 41, North river, be and hereby is appropriated to the sole use of the special kind of commerce carried on by steam transportation.

Resolved, That the Counsel to the Corporation be and is hereby directed to prepare in proper form a lease, in triplicate, to John H. Starin, for the said premises, for a term of ten years from September 1st, 1881, subject to the terms and conditions stipulated under resolutions adopted by this Board, on September 15th, 1880, and April 29th 1881, and that the officers of this Board be and are hereby authorized and empowered to execute the said lease, when approved as to form by the said Counsel to the Corporation.

An application was received from John H. Starin, with plans, for permission to erect a shed on Pier, new 41, North river, and, being read,

On motion, it was

Resolved, That permission be and the same is hereby granted to John H. Starin, to erect and maintain, during the pleasure of this Board, on Pier, new 41, North river, leased by him, a shed for the protection of property received and discharged thereat by steam transportation; the shed to be constructed subject to the regulations required by chapter 249, Laws of 1875, and in conformity with plans to be first submitted to and approved by the Engineer-in-Chief of this Department, and all the work to be done under the supervision of that officer; provided, that the said shed shall file in this Department, within five days after the receipt hereof, a written agreement, but the said shed shall revert to and become the property of the Corporation of the City of New York, upon the expiration or sooner termination of the lease for said pier, free of all claims of every kind whatsoever.

A petition was received from Lucene Gunning, owner of water-front between One Hundred and Fifty-second and One Hundred and Fifty-third streets, North river, asking that the boat-house owned by the Carman Rowing Association, of which A. L. Soulard is President, be removed from said premises, and, being read, was,

On motion, laid on the table, and the Secretary directed to notify said A. L. Soulard of the above complaint, and requesting him to appear before the Board at its meeting to be held on Friday, the 9th instant, at 12 o'clock M.

On motion, the Board adjourned.

EUGENE T. LYNCH, Secretary.

At a meeting of the Board of Docks, held September 9, 1881.

Present—The full Board.

On motion, Commissioner Dimock took the chair.

The minutes of the meetings held 26th ultimo and 1st instant were read and approved.

The following communications were received, read, and,

On motion, laid on the table to await action, as stated, to wit:

From P. White's Sons, contractors—To have dredging done at Pier at Thirty-eighth street, North river. Engineer-in-Chief directed to examine, and report the amount of dredging required.

From Simpson & Spence, les-ees—For permission to erect shed upon Pier, new 56, North river. Applicants requested to submit plans for the erection of said shed for examination, and notified that the said pier will be ready for the erection of the shed in about two weeks.

From New York, Lake Erie, and Western Railroad Company—In reference to pier proposed to be built at Twenty-third street, North river. Said company advised that this Board desires

confer with them at any time to be named by them, next week, as it is the intention to build the pier referred to by contract at an early day.

From New York Central & Hudson River Railroad Company—Submitting plans for the erection of piers at Port Morris, East river. Engineer-in-Chief directed to examine and report on the same.

From W. S. Andrews—Application for a map of the water-front of the city. Applicant requested to call on the Treasurer of this Department in reference thereto.

From Engineer-in-Chief—As to cost of building pier on North Brother Island for Health Department.

From Department of Public Charities and Correction—To have repairs made to dock attached to Branch Workhouse, Hart's Island. Engineer-in-chief directed to examine and report the repairs required, and cost of doing the work.

The following communications were received, read, and,

On motion, placed on file, action being taken where necessary, as stated, to wit :

From William Cruikshank—In reference to dredging ordered to be done between Piers 6 and 7, North river, by the owners.

From Warren Rosevelt—Accepting award of contract for repairing Piers 44, 46, 60, 61, and northerly half of Pier 62, East river, under estimates publicly opened 18th ultimo.

From Charles H. Longstreet, Superintendent Iron Steamboat Company—To have fender piles replaced on end of Pier, new 1, North river. Applicant requested to inform this Department when the work of replacing said piles can be done without interfering with the traffic thereat, when it will be attended to.

From John Duke—Applying for position as Chainman in the Department.

From Department of Public Works—To have fenders at Bath at the Battery repaired. Work already ordered.

From William L. McConkey, Corporation Wharfinger :

1st. Reporting that the iron and other merchandise, incumbering Pier 23, East river, was being removed.

2d. As to condition of bulkhead at Pier 8, East river.

From Cunard Steamship Company, lessee—In reference to removing shed, etc., from north side of Pier, new 40, North river. Applicants requested to call on the Commissioners on the 29th instant, in reference to the removal of said shed.

From Alvan T. Payne—In reference to sale of leases of piers at auction. Secretary directed to advise that a sale of leases of piers, etc., will soon be held, which will be duly advertised in the CITY RECORD.

From John Keating—Applying for position of Rodman in the Department of Docks. Application denied.

From National Line of Steamships, lessees—To have the roadway to Pier, new 39, North river, repaired. Engineer-in-Chief directed to repair the same, to render it fit for travel.

From William R. Grace, Mayor—As to closing the offices of the Department on Thursday, September 8th instant, in accordance with the proclamation of the Governor of the State.

From James McNamee—In reference to lease of wharf property lying westerly of Pier 1, East river, held by the Staten Island Ferry Company. Secretary directed to advise that said lease was de by this Department, in accordance with the law, and that any maps of the locality in the session of this Department, he may desire to examine, will be shown to him at this office on dication.

From Supervisor of the CITY RECORD—Stating his inability to continue the insertion of notices roposals of this Department in the various newspapers designated by law. Secretary directed to iest the Board of the CITY RECORD to take such action in the premises as may be found necessary nsure the publication in the designated papers of the public notices of this Department as tofore.

From James W. Elwell—As to incnmbrances on Pier 23, East river. Secretary directed to is that this Department cannot order the removal of dutiable goods from piers, until they are ghed by the Customs officers, and that this Department will see that no goods shall be permitted emain an unreasonable time upon piers, after they have been weighed.

From James Lyall, Manager, Chelsea Jute Mills—In reference to water supply and drain pipes Twenty-fifth street, North river. Engineer-in-Chief directed to confer with said Lyall as to the thod of placing said pipes over the wall and under the pier at Twenty-fifth street, N. R.

From Mutual Benefit Ice Company, lessee—In reference to wharfage accruing at Pier 62, East er, while being repaired by contractor. Secretary directed to advise that the contractor is entitled the possession of said pier during the time he is repairing the same, but has no right to collect / wharfage from vessels berthed thereat, and that all wharfage accruing at said pier belongs to :lessee thereof.

From Board of Commissioners of Pilots—As to old lumber set adrift at Pier 38, East river, ile being repaired. Secretary directed to advise that every precaution is taken by this Depart- nt to prevent any old timber from being set adrift from said pier while the contractor for repair- the same is doing his work.

From William H. Webb—For permission to repair bulkhead, between Fifth and Seventh ets, East river, claimed to be owned by him. Application granted, the work to be done uncier supervision of the Engineer-in-Chief of this Department, and within the existing lines of said head, but without prejudice to any rights the City of New York may have in the said nises.

From Department of Public Works—For permission to bore holes through about one dozen rete blocks on bulkhead near Gansevoort street, North river, etc. Application granted, the k to be done under the supervision of the Engineer-in-Chief of this Department.

From D. S. Newell & Sons—Requesting this Department not to construct a dumping-board on at Nineteenth street, North river, as proposed. Request denied.

From E. W. Youmans and Engineer-in-Chief—As to repairs required to Pier, old 42, North r. Engineer-in-Chief directed to repair said pier, in accordance with his report, at a cost of at \$500.

From Engineer-in-Chief—Reporting that the cost of driving about eight spring piles along the bulkhead wall, south of Pier, new 1, North river, for the protection of the fire steamer W. F. Havemeyer, would be about \$188. Engineer-in-Chief directed to do the work in accordance with his report.

From Department of Public Charities and Correction and Engineer in-Chief, as to repairs required to the Dead-house Pier and bulkhead in front of Bellevue Hospital. Engineer-in-Chief directed to repair the same in accordance with his report, at a cost of about \$400.

A communication was received from Frederick Schecker, lessee, in reference to cargo being discharged at Pier at Fifty-seventh street, North river, and, being read, was,

On motion, referred to Commissioner Laimbeer for examination and report.

A communication was received from the Comptroller, advising that the Union Dredging Company is not in default or arrears to the Corporation, and, being read,

On motion, the bids received and opened on 1st instant, for dredging at the foot of Thirty-seventh street, North river, and at foot of Twenty-second street, East river, were taken from the table and placed on file, and the following resolution adopted :

Resolved, That the contract for dredging at the foot of Thirty-seventh street, North river, and at foot of Twenty-second street, East river, be and is hereby awarded to the Union Dredging Company, their bid for doing said work being the lowest, under estimates publicly opened 1st instant, and the Comptroller having advised in writing, the 6th instant, that said party is not in default or arrears to the Corporation.

An application was received from P. H. Warren for position of Engineer in the Department, and, being read,

On motion, said application was denied.

The Auditing Committee presented an audit of twenty-one bills or claims, amounting to the sum of \$42,428.63, and, being read, was,

On motion accepted and adopted, and the Secretary directed to forward the said bills, together with proper requisitions for the amount, to the Finance Department for payment.

A communication was received from the Engineer-in-Chief in reference to the repairs required to bulkheads between Piers 7 and 8, East river, etc., and, being read,

On motion of Commissioner Laimbeer, the following preamble and resolutions were adopted :

Whereas, In the opinion of this Board, it is highly desirable that South street should be extended from the easterly side of Pier 6 to the westerly side of Pier 8, East river, and that the slips inside of the northerly line of said proposed extension be filled in, thereby adding additional space for the extensive travel at that point ; and

Whereas, In compliance with the request of this Department, the Counsel to the Corporation, under date of May 22, 1878, has given his opinion, that this Board is empowered to construct a

retaining structure inside of the established bulkhead line, and fill-in behind the same at that portion of the water-front ; be it therefore

Resolved, That the Engineer-in-Chief be and hereby is directed to prepare plans and specifications for the construction of a suitable structure inside of the established bulkhead line, extending from the easterly side of Pier 6, to the westerly side of Pier 8, East river, on the line of the southerly line of South street extended, in order to retain the solid filling to be placed inside thereof.

Resolved, That the Department of Public Works be and hereby is requested, to immediately provide for the ten drains and sewers now discharging into Coenties slip, as shown by the tracing prepared by the Engineer-in-Chief, it being the intention of this Department to fill in the said slip without delay, and extend the present bulkhead lines thereat, to the exterior line of South street.

On motion of Commissioner Laimbeer, the following resolution was adopted :

Resolved, That the Engineer-in-Chief be and is hereby directed to prepare plans and specifications for the rebuilding of Pier at foot of Twenty-sixth street, East river, the one now there having been destroyed by overloading it with coal by the Department of Public Charities and Correction.

On motion of Commissioner Laimbeer, it was

Resolved, That the Engineer-in-Chief be and hereby is directed to remove, on or before the 20th of September, 1881, the office of the Department from its present location on West street, foot of Chambers street, to the reclaimed ground west of the railroad track, north of Pier new 21, North river.

On motion of Commissioner Laimbeer, the following resolution was adopted, Commissioner Dimock voting in the negative :

Resolved, That the resolution adopted March 25, 1881, suspending action upon a portion of resolution adopted February 23, 1881, in relation to the incumbrance of new-made grounds, etc., be and hereby is rescinded, and the resolution of February 23, 1881, shall now and hereafter be in full force, and the Secretary be and hereby is directed to notify all steamship companies, and Messrs. J. L. & D. S. Riker, and Wing & Evans, and other importers, that it is the intention of this Board to carry out the provisions of said resolutions.

On motion of Commissioner Laimbeer, the following preamble and resolution was adopted :

Whereas, There has been, by the Board of Docks, in the past, granted, permits or leases upon several pieces of property on the water-front of the city, during the pleasure of the Board, at seemingly low prices ; therefore,

Resolved, That the Secretary be and is hereby directed to notify the following named lessees, that it is the intention of this Board to consider and take action upon the question of values, and of renting for periods that may be mutually satisfactory, all the aforesaid properties at public sale, in order to secure a more equitable income for the city, and that the said lessees be respectfully invited to confer with the Commissioners to that end.

On North River.

New York and Baltimore Transportation Line, between Piers 6 and 8, under resolution January 2, 1878.

John H. Starin, between Piers 18 and 20, under resolutions, May 15, 1873, and December 15, 1875.

Providence and Stonington Steamship Company, north side of Pier 33, under resolution August 1, 1872.

Bogert & Morgan, agents, south side of Pier 36, under resolution August 8, 1877.

Drew & Bucki, south of Thirteenth street, under resolution November 1, 1876.

Knickerbocker Ice Company, extension to pier at Forty-third street, under resolutions, September 25 and November 21, 1873.

On East River.

C. H. Mallory & Company, south of Pier 20, under resolution March 27, 1878.

S. F. Shortland & Brother, between Piers 35 and 36, under resolution May 2, 1877.

Peter Charles, between Piers 38 and 39, under resolution June 16, 1875.

Harlem River and Port Chester Railroad Company, between Piers 50 and 51, under resolution May 7, 1874.

Schmitt & Koehne, between Fifty-sixth and Fifty-seventh streets, under resolution April 27, 1877.

Jabez A. Bostwick, north of Sixty-second street, under resolutions, March 20 and December 24, 1878.

Ehrenreich Brothers, south of Sixty-third street, under resolutions, April 24 and December 24, 1878.

Thomas Patten, at Seventy-fourth street, under resolution November 21, 1877.

On motion, the Engineer-in-Chief was directed to repair Pier at Twenty-eighth street, North river, and keep the same in good order for use.

An application was received from R. J. Cortis, agent, White Star Line, to have the mooring-posts on the bulkhead north of Pier, new 45, North river, replaced by the Department, and, being read, was,

On motion, referred to the Secretary, to examine the lease for said premises, and if said lessees, in accordance with the terms thereof, are bound to replace the mooring-posts on said pier, to so notify them.

On motion, the subject of the collection of wharfage from platform occupied by T. H. Simonson, between Seventy-eighth and Seventy-ninth streets, East river, was referred to Commissioner Laimbeer for examination and report.

The Committee of the full Board presented the following report :

The Committee appointed by resolution adopted at meeting of the Board of Docks held July 1, 1881, to consider the subject of the construction of the Bulkhead Wall now being erected by the Department, beg leave to report that they have decided, after a careful consideration of the extensive and important work, in view of the different opinions held by many citizens, whose judgment demand attention, as to whether the wall now being built is the best for all the interests of the city, to recommend to the said Board the adoption of the following resolutions, to wit :

Resolved, That in order to secure for the future the erection of a river wall on the water-front of the city, which shall have the full indorsement of the highest engineering skill obtainable, and thereby merit the confidence of all citizens, the Board of Docks hereby respectfully solicit the services of General John Newton, General Q. A. Gillmore, and William E. Worthen, Esquire, to act as a Board of Consulting Engineers, for the purpose of making a thorough investigation of the manner of constructing the wall now being erected by the Department, with the request that the said Board of Consulting Engineers will report to this Board, at the earliest practicable date, their opinion upon the following points, as well as all other information, which, in their judgment, they may deem essential to advise, to wit :

1st. Is the wall now being constructed the most desirable one for all the interests of the city, for the sections of the water-front under improvement ?

2d. If it is not, what changes in its construction should be made to make it so ?

Resolved, That the Engineer-in-Chief of the Department, be and hereby is authorized and directed to furnish the Board of Consulting Engineers, hereby constituted, with such information, drawings, and statistics of the Department as the said Board may, from time to time, require, and to render such service as may be necessary, to facilitate the investigation proposed of the work of construction of the existing wall.

On motion, the said report was approved, and the resolutions therein contained adopted.

A communication was received from John H. Starin, accepting the terms of resolution of September 1, 1881, whereby permission was granted for the erection of shed upon Pier, new 41, North river, and, being read, was,

On motion, placed on file.

On motion, Daniel Doran was appointed as Watchman.

On motion, the Board adjourned.

EUGENE T. LYNCH, Secretary.

At a special meeting of the Board of Docks, held September 12, 1881.

Present—Commissioners Vanderpoel and Laimbeer, and the Comptroller of the city.

Absent—Commissioner Dimock.

On motion, Commissioner Vanderpoel took the chair.

One estimate was received for furnishing labor and material for additional repairs to Pier East river, and its bulkhead, as follows :

No. 1. From Joseph Walsh, for \$7,700, with \$75 in bills, and, being read, was,

On motion, laid on the table for examination.

On motion, the Board adjourned.

EUGENE T. LYNCH, Secretary.

At a special meeting of the Board of Docks, held September 13, 1881.

Present—Commissioners Vanderpoel and Laimbeer.

Absent—Commissioner Dimock.

On motion, Commissioner Vanderpoel took the chair.

A communication was received from the Comptroller, with his approval of the sureties on estimate of Joseph Walsh, for additional repairs to Pier 21, East river, and its bulkhead, and, being read,

On motion, the bid received and opened 12th instant, for additional repairs to Pier 21, river, and its bulkhead, was taken from the table and placed on file, and the following resolution adopted :

Resolved, That the contract for additional repairs to Pier 21, East river, and its bulkhead is hereby awarded to Joseph Walsh, his bid for doing said work being the lowest under mates publicly opened 12th instant, and the Comptroller having advised in writing, that date, said party is not in default or arrears to the Corporation.

A communication was received from the Comptroller, transmitting the application of H. Brothers for the substitution of William H. Adams, of 351 Second avenue, in place of Andre Bremner, as a surety on their estimate for contract No. 140, for repairing certain six piers on North river, and, being read,

On motion, it was

Resolved, That pursuant to the requirements of section 12, article 1, chapter 17, of the revised Ordinances of the Corporation, consent be and is hereby given to the substitution of W.

Adams in place of Andrew H. Bremner, as surety to the contract proposed to be awarded an estimate of Holmes Brothers, received and opened August 18, 1881, for repairing certain six piers on the North river.

On motion, James White was appointed watchman on floating property.

On motion, the Board adjourned.

EUGENE T. LYNCH, Secretary.

At a special meeting of the Board of Docks, held September 14, 1881.

Present—Commissioners Vanderpoel and Laimbeer, the Comptroller of the city, and W. W. Merritt, on behalf of the People's Line of steamers, occupants of Pier, old 41, North river.

On motion, Commissioner Laimbeer took the chair.

The Secretary presented the certificate of the Supervisor of the CITY RECORD, showing that the advertisement inviting proposals for estimates for dredging slip between Piers, old 41 and old 42, North river, had only been inserted nine days (instead of ten days, as required by law), no publication of said paper having been issued on Thursday, 8th instant, in consequence of the proclamation of the Governor designating said day as a legal holiday; and the Comptroller, in consequence thereof, objecting to the opening of the estimate-box containing the estimates received;

On motion, the Secretary was directed to address a communication to the Counsel to the Corporation, stating that estimates were advertised to be received and opened at this Department this day for dredging slip at Pier, old 41, North river, and that said advertisement was inserted in the CITY RECORD on September 3, and has been inserted in every issue of that paper to this date including that the Governor of the State, by proclamation issued subsequent to the first publication on the 3d instant, made Thursday the 8th instant a legal holiday, and no issue of the RECORD was made on that date, and the Clerk of the CITY RECORD has furnished the Department with a certificate that the notice of the opening of said bids was published in that paper for nine days consecutively; that the Comptroller, being present, objected to the opening of the estimate-box and receiving of the bids, for the reason that the charter required that said notice be published at least ten days, and requesting him to advise this Board in writing on, or before noon on the 16th instant, whether it may proceed with the said opening of the bids, or if said estimates must be advertised for.

A communication was received from the Comptroller, with approval of sureties, to contract of Holmes Brothers, for repairing certain six piers on the North river, and, being read,

On motion, the bids received and opened on 18th ultimo were taken from the table and placed in file, and the following resolution adopted:

Resolved, That the contract for repairing piers at Seventeenth, Eighteenth, Thirty-fourth, fortieth, Forty-seventh and One Hundred and Twenty-ninth streets, North river, be and is hereby

awarded to Holmes Brothers, of 220 William street, their bid for doing said work being the lowest, under estimates publicly opened the 18th ultimo, and the Comptroller having advised in writing, the 13th instant, that said parties are not in default or arrears to the Corporation.

On motion, it was

Resolved, That Commissioner Laimbeer be and hereby is authorized and directed to sign the contract to be prepared for the above award, and also the contract for additional repairs to Pier # East river, awarded to Joseph Walsh, on 13th instant, as acting President of the Board.

On motion, the Board adjourned.

EUGENE T. LYNCH, Secretary.

At an adjourned meeting of the Board of Docks, held September 16, 1881.

Present—Commissioners Vanderpoel and Laimbeer.

Absent—Hon. John R. Voorhis; nominated by his Honor the Mayor, and confirmed by the Board of Aldermen, on 13th instant, as a Commissioner of Docks, but who has not as yet taken his seat as a member of the Board.

On motion, Commissioner Laimbeer took the chair.

The Counsel to the Corporation having given an oral opinion that the estimates advertised to be opened on the 14th instant, not having been published for ten days prior to the date designated for opening the same, as required by the Charter, cannot be opened,

On motion, the following preamble and resolution were adopted:

Whereas, The Counsel to the Corporation has orally advised this Board, that consequent upon the notice given, the estimates for dredging the slip between Piers, old 41 and old 42, North river, would be received until 14th September, 1881, at 12 o'clock M., having been published in the CITY RECORD only nine days, owing to the 8th instant having been made a legal holiday by proclamation of the Governor of the State, instead of ten days, as required by section 91 of chapter 335, Laws of 1873, the estimate received that date from the Union Dredging Company cannot be opened, and that new estimates must be advertised for; therefore,

Resolved, That the Secretary be and hereby is authorized and directed to transmit, unopened, to the Union Dredging Company, the estimate for dredging the slip between Piers, old 41 and old 42, North river, deposited by the company in the estimate-box on 14th instant, being the only estimate received, and that the Chief Clerk be and hereby is authorized and directed to surrender the security deposit accompanying said estimate, upon the return to him of the receipt given therefor.

On motion, the Secretary was directed to have proper advertisements, inviting new bids for dredging the slip between Piers, old 41 and old 42, North river, inserted in the papers designated by law.

On motion, the Board adjourned.

EUGENE T. LYNCH, Secretary.

At a special meeting of the Board of Docks, held September 21, 1881.

Present—Commissioners Vanderpoel and Laimbeer.

Hon. John R. Voorhis appointed on the 13th instant, by his Honor the Mayor, as a Commissioner of Docks, in place of Henry F. Dimock, whose term of office has expired, being present, submitted his certificate of appointment, and after stating that he had taken the oath of office prescribed by law, took his seat as a member of the Board.

On motion of Commissioner Vanderpoel, Commissioner Laimbeer took the chair.

On motion of Commissioner Vanderpoel, the following preamble and resolutions were unanimously adopted :

At this time of profound national grief for the untimely loss of the beloved President of our country, who was stricken down by an act of assassination, the outgrowth of vile partisanship heresies, the Commissioners of Docks of the City of New York desire to enter this minute upon the record of the Board.

Resolved, That this Board deeply deplores the death of James Abram Garfield, late President of the United States, believing the country and the age have suffered a loss which seems almost irreparable.

Resolved, That the members of this Board most respectfully and sincerely tender to the widow, who so nobly performed her heartrending duty, and to her family, in this hour of deep sorrow, their heartfelt sympathy for the loss of the good husband, father, and wise counselor.

Resolved, That as a further mark of respect for the memory of the deceased President, who was America's foremost citizen, the offices of the Department be draped in mourning, and that the Board adjourn until Wednesday, the 28th instant, at 11 o'clock A. M., and unite in the mournful ceremonies for the burial of the nation's dead.

On motion, the Secretary was directed to have copies prepared of the foregoing resolutions, and sent to all the city daily papers for insertion.

On motion, the Secretary was directed to enter the appointment of Commissioner Voorhis in all on the minutes.

MAYOR'S OFFICE,
NEW YORK, September 13, 1881.

I hereby certify that, in pursuance of the statute in such case made and provided, I have this day, by and with the consent of the Board of Aldermen, appointed John R. Voorhis a member of the Board of the Department of Docks of the City of New York, for the term of six years, in place of Henry F. Dimock, whose term of office has expired.

[SEAL]

(Signed)

W. R. GRACE, Mayor.

On motion, Thomas Canning was appointed as a Dockbuilder.

On motion, the Board adjourned.

EUGENE T. LYNCH, Secretary.

At a special meeting of the Board of Docks, held September 23, 1881.

Present—The full Board.

On motion, Commissioner Laimbeer took the chair.

General John Newton General Q. A. Gillmore, and William E. Worthen, Esquire, Civil Engineer, appeared in accordance with the request of the Commissioners, and a conference was had as to the method of constructing the bulkhead wall, preparatory to action under the resolution adopted by this Board, 9th instant.

The Auditing Committee presented an audit of thirty-four bills or claims, amounting to the sum of \$39,371.13, and, being read, was,

On motion, accepted and adopted, and the Secretary directed to forward the said bills, together with proper requisitions for the amount, to the Finance Department for payment.

On motion, John Gangloff, was appointed as a Dockbuilder.

On motion, the Board adjourned.

EUGENE T. LYNCH, Secretary.

At a meeting of the Board of Docks, held September 28, 1881.

Present—The full Board.

On motion, Commissioner Laimbeer took the chair.

The minutes of the meetings held the 9th, 12th, 13th, 14th, 16th, 21st, and 23d instant, were read and approved; Commissioner Voorhis voting for approval of the minutes of the meetings held subsequent to the date of his taking his seat as a member of the Board.

The following communications were received, read, and,

On motion, laid on the table to await action, as stated, to wit:

From Department of Public Charities and Correction and from Engineer-in-Chief—In reference to having extension made to dock at Hart's Island. Engineer-in-Chief directed to examine and report thereon.

From S. D. Barnes & Company, owners of east side of Pier 57, East river—Stating that the premises were in need of repairs. Engineer-in-Chief directed to examine and report the repairs required.

From Department of Public Charities and Correction—To have repairs made to steamboat dock at Homœopathic Hospital, Ward's Island. Engineer-in-Chief directed to examine and report the repairs required.

From New Haven Steamboat Company, lessees—To make the necessary repairs themselves to the westerly half of Pier 25, East river. Engineer-in-Chief directed to furnish specifications for the repairs required to the premises, with an estimated cost of doing the work.

From Counsel to the Corporation—In reference to claim, vs. The New York, Lake Erie and Western Railroad Company, for unpaid rent due for use of Pier, old 29, North river. Mr. Atterbury, attorney for said Company, appeared and was heard in reference to said claim.

From C. H. Mallory & Company, lessees—To have gangways cut in the lower side of Pier 21, East river. Secretary directed to advise in reply that their application will be examined by the Board and the result determined at an early date.

From New York, Lake Erie and Western Railroad Company—In reference to plans for making improvements upon and outside of the bulkhead leased by it, between Piers, new 20 and new 21, North river, and H. B. Clafflin & Company and others, recommending that the application of said Company be granted. Engineer-in-Chief directed to confer with O. Chanute, Chief Engineer of said railroad company, in reference to providing such structures at the premises as shall be free from objectionable features.

The following communications were received, read, and,

On motion, referred to Commissioner Voorhis for examination and report :

From Counsel to the Corporation—In reference to suit, vs. C. H. Longstreet, for unpaid rent for Pier at Fifty-first street, East river.

From Engineer-in-Chief—Suspending F. J. McDonnell, Michael Walsh, and Michael Falvey, Night Watchmen.

From Old Dominion Steamship Company—Asking that the Board relieve it from furnishing sureties under their lease of Pier, new 26, North river.

The following communications were received, read, and,

On motion, placed on file, action being taken where necessary, as stated, to wit :

From Comptroller—In reference to the pay-rolls of the Department forwarded for payment. Secretary directed to advise in reply that as far as can be ascertained, there has been no delay on the part of this Department in transmitting the pay-rolls referred to, and further that this Department will, as heretofore, have the pay-rolls forwarded to him with the least possible delay.

From William E. Worthen—Accepting invitation to conference as to construction of bulkhead wall.

From General John Newton—Accepting invitation to conference as to construction of bulkhead wall.

From General Q. A. Gillmore—Accepting invitation to conference as to construction of bulkhead wall.

From Holmes Brothers—Accepting award of contract for repairing various piers on the North river, under estimates publicly opened August 18, 1881.

From People's Line of Steamers, occupants of Pier, old 41, North river—As to dredging slip by contract.

From Department of Public Works—In reference to Croton water supply at Pier, new 43, North river.

From Department of Public Charities and Correction—To have an examination made of Pier at Twenty-sixth street, East river.

From Frank Phelps, lessee—Asking that the lease of Pier 40, East river, be executed and forwarded to him. Applicant informed that said lease is now being prepared, and will shortly be sent to him for execution, and the Secretary directed to request the Counsel to the Corporation to have said lease forwarded to this Department with the least possible delay.

From Benjamin Wright, lessee—To have dredging done at Pier 61, East river. Engineer-in-Chief directed to examine and report the dredging required.

From J. L. Moffatt—In reference to refuse thrown into the river from Pier 27, East river. Applicant informed that complaint of such violation of law must be made to the Pilot Commissioners.

From Thomas F. Meagher—Resigning his position as Chainman in the Department. Resignation accepted.

From Department of Street Cleaning—For use of Department derrick in righting scow. Secretary reporting that by direction of the Commissioners, orders have been issued to have the work performed; Treasurer requested to send statement of the cost incurred to said Department for payment.

From George Yonge, Agent, lessee of Pier, new 35, North river—Requesting that a modification be made in the terms of resolution adopted by this Board, providing for the removal of incumbrances from the new-made ground west of the westerly line of West street. Applicant informed, that after a careful examination of the facts presented by him, the Commissioners are unanimously of the opinion, that it is the duty of this Board to adhere to the terms of the resolution referred to, and consequently his request to be permitted to occupy the space adjacent to Pier, new 35, North river, for the storage of goods, cannot be granted.

From H. W. May—In reference to furnishing the Department with yellow pine piles. Applicant requested to furnish this Department with prices therefor.

From Hudson Tunnel Railway Co.—For permission to place temporary derricks, swinging track, etc., at the bulkhead at Leroy street, North river, for the purpose of removing excavated material. Secretary directed to advise in reply that, while this Department is willing to accord to them all reasonable facilities for the prosecution of their work at that point, it cannot grant their application, as the present plan submitted is considered objectionable.

From Counsel to the Corporation—Inclosing transcript of judgment obtained against David Tracy and Benjamin P. Fairchild, in the sum of \$4,873.86, and requesting that said amount be credited to him on the books of this Department. Bookkeeper directed to make the proper entry in accordance with said request.

From Department of Public Works—Asking that it be permitted to use the Borer "Woodcock" for additional thirty days; Secretary reporting that by direction of the Commissioners, on the 15th instant, said application had been granted. Action approved.

From Engineer-in-Chief, as follows :

1st. As to having Pier, new 43, and Pier at Fortieth street, North river, and Pier 61, East river, cleaned, there being about twenty-seven loads of dirt thereat; Secretary reporting that, by direction of the Commissioners, on the 21st instant, he had requested the Commissioner of Street Cleaning to have said dirt removed. Action approved.

2d. As to repairs required to Pier at Twenty-sixth street, East river.

3d. As to condition of bulkhead between Piers 39 and 40, East river. Owners of said bulkhead notified and directed to repair the same within ten days from receipt of notice, in default of which this Department will make the repairs at their cost and expense.

A report was received from the Engineer-in-Chief, submitting forms of contracts and specifications for repairing and extending Pier at Ninety-sixth street, North river, and building Pier at the foot of Twenty-first street, North river, and, being read, on motion, it was

Resolved, That the forms of contracts and specifications, as prepared by the Engineer-in-Chief, for repairing and extending Pier at Ninety-sixth street, North river, and building Pier at Twenty-first street, North river, be and hereby are approved and adopted, subject to the approval of the Counsel to the Corporation as to form, and that the Secretary be and hereby is directed to have a sufficient number of blank forms of proposals printed, and proper advertisements, inviting bids for doing said work, to be opened on the 19th proximo, inserted in the papers designated by law.

A communication was received from Simpson & Spence, inclosing plans for shed to be erected by them on Pier, new 56, North river, and, being read, was,

On motion, laid on the table.

On motion of Commissioner Laimbeer the following preamble and resolution was adopted :

Whereas, In the opinion of this Board, it is desirable to secure greater uniformity of architectural design on the river and street fronts of the structures erected on the piers constructed under the plans for the permanent improvement of the water-front and facing on the widened river street ; therefore,

Resolved, That the Engineer-in-Chief be and hereby is directed to prepare without delay a general plan of design suitable for all structures of sheds which may hereafter be required to be erected on the North river water-front, for the protection of goods and merchandise received and discharged at the piers constructed on the said plans for the permanent improvement thereof; and further, that upon the adoption of said design by this Board, all structures and sheds thereafter erected by permission of this Board shall be constructed in conformity therewith.

Commissioner Laimbeer offered for adoption the following resolution :

Resolved, That R. M. Sterritt be and is hereby promoted to the Duane street office as clerk, compensation to be twelve hundred dollars a year, and that G. W. Wanmaker be promoted as clerk, at one thousand dollars a year, to the Gansevoort street office.

On motion, said resolution was laid on the table.

On motion of Commissioner Laimbeer, the following preamble and resolution was adopted ;

Whereas, The City Paymaster has stated that the payment of wages to the laborers employed by this Department would be facilitated by having the pay term end on the 15th and last days of each month, instead of fortnightly, as at present ; therefore,

Resolved, That the pay term of laborers employed by the Department, on and after the 1st proximo, be and hereby is fixed and established as on the 15th and last days of each and every month, and, in consequence thereof, that the days for auditing by the Board, of bills or claims, be and hereby are fixed and established from and after said 1st proximo, as on the second and fourth Wednesdays of each and every month.

C. L. Atterbury, Esq., on behalf of the New York, Lake Erie and Western Railroad Company, appeared in reference to the location of Pier, new 53, North river, proposed to be built at West Twenty-third street, and being heard at length as to the necessity of so locating said Pier, that it shall not inconvenience the operation of the ferry of said Company, by reducing the area of the slip occupied for ferry purposes ;

Commissioner Vanderpoel moved that the said Pier, new 53, North river, be constructed of a width of 45 feet ; but, the motion not being seconded,

Commissioner Voorhis moved that the width of the said Pier, new 53, North river, be 50 feet, which motion was adopted by the votes of Commissioners Laimbeer and Voorhis, Commissioner Vanderpoel voting in the negative. Subsequently, Commissioner Vanderpoel requested to have the adoption made unanimous, which was agreed to.

On motion of Commissioner Voorhis, it was

Resolved, That the Engineer-in-Chief be and hereby is directed to prepare plans and specifications for the erection of a pier to be known as Pier, new 53, North river, said pier to be of a width of 50 feet, and 508 feet in length, and the southerly side thereof to be located ten feet south of the northerly line of West Twenty-third street, extended and parallel thereto.

On motion, Hugh McCann, Michael Dally, Arthur McKiver were appointed as dock-builders, and John Campbell, as watchman, in place of Michael Falvey.

On motion, the Board adjourned.

EUGENE T. LYNCH, Secretary.

At an adjourned meeting of the Board of Docks, held September 29, 1881.

Present—The full Board.

On motion, Commissioner Laimbeer took the chair.

The following communications were received, read, and,

On motion, placed on file, action being taken where necessary, as stated, to wit :

From John M. Smith, Corporation Wharfinger In reference to notices served on lessees of new piers on North river, as to encumbering the bulkheads. Said Wharfinger directed to report the lessees who have complied with the order served upon them on 14th and 15th instant, to remove goods from bulkheads on North river, and also such lessees as have not complied with such order, and the nature of the encumbrances remaining.

From Police Department and Union Ferry Company—As to the bad condition of Pier 15, East river. Owners of said pier notified and directed to make the necessary repairs to said pier within ten days from the receipt of this notice, in default of which this Department will proceed to repair the same at their cost and expense.

From Department of Public Works—To have fenders, etc., removed from the public baths on North and East rivers. Engineer-in-Chief directed to have the work performed without delay.

From James Fitzpatrick, Corporation Wharfinger—As to removal of lumber from Pier at One Hundred and Twenty-ninth street, North river.

From Knickerbocker Ice Company—In reference to lease for land under water at Pier at Forty-third street, North river.

From Central Railroad Company of New Jersey—Asking that a time be fixed for the disposal at public sale of the lease, for the term of ten years, of the south side of Pier 14, North river, from 1st May, 1881, they agreeing to bid as rental for said lease the sum of \$14,000 per annum. Chief Clerk directed to prepare a list of wharf property, including the above leases, which shall be sold at public sale on Tuesday, October 18, proximo.

From Counsel to the Corporation—Opinion as to advertisements of proposals invited by the Department.

From Funch, Edye & Company, lessees—To erect a number of derricks on Pier, new 54, North river, for hoisting cargo. Applicants informed that, after a full consideration of the subject, the permission sought for cannot be granted.

From Department of Public Works—In reference to the sewer outlets at Coenties slip to be provided for, when the space thereat is filled in by this Department. Engineer-in-Chief directed, in preparing for the filling in of Coenties slip, to provide outlets for the drains now emptying thereat, and also to provide outlets for the sewers, which the Department of Public Works intends to construct thereat on either side of said slip, and that the Commissioner of Public Works be advised of the action of this Board,

From Engineer-in-Chief, as follows :

1st. Recommending that Pier at Twenty-eighth street, East river, be rebuilt. Engineer-in-Chief directed to carry out the orders contained in Secretary's order, No. 1858, as to repairing said premises.

2d. Reports of work performed during weeks ending August 20 and 27th, and September 3, 10, 17, and 24th.

3d. Submitting form of contract and specifications for building Pier at Twenty-first street, North river. Directions issued on the 28th instant for printing and advertising the same.

4th. As to plans for shed to be erected by the lessees on Pier, new 56, North river. Secretary directed to notify the lessees of Piers, new 41, 54, 55, and 56, North river, to call upon the Commissioners for consultation, before commencing the work of construction of sheds on said piers.

5th. As to additional repairs required to Pier 61, East river. Engineer-in-Chief directed to make repairs to said premises in accordance with his report, at a cost of about \$150.

A communication was received from General John Newton, requesting to be furnished, for the information of the Consulting Engineers, with the following information :

1st. The plan of the new bulkhead wall, showing any change that has taken place in its position, laterally or vertically.

2d. Longitudinal section of the river bottom along the bulkhead line, showing the character of the strata.

3d. The report showing the McClellan bulkhead section.

4th. Large drawings of the bulkhead walls now under construction, from which those in the report for 1877 were reduced.

On motion, the Engineer-in-Chief was directed to furnish the data required.

C. L. Atterbury, Esq., attorney for the New York, Lake Erie and Western Railroad Company, appeared, and was heard as to the claim of said company to be released from any charge for rent of the north side of Pier 29, North river, lately occupied by said company under lease from the City, and Mr. Henry F. Dimock, late Commissioner of Docks, being present, and making a full statement in reply, and setting forth all the facts relating to the occupation of said pier and of the premises constructed under the new plans adjacent thereto, occupied by said company, under lease from this Department,

On motion, the communication from the Counsel to the Corporation, in reference to the claim against the New York, Lake Erie and Western Railroad Company for unpaid rent for the use of north side of Pier 29, North river, and the communication from the said company in reference thereto, dated June 9, 1881, were taken from the table and placed on file, and the Secretary directed to prepare a reply, embodying the facts of the case and the reasons why, in the opinion of this Board, said claim, as transmitted to him for collection, should be paid by said company.

A communication was received from William R. Grace, Mayor, transmitting petition of John C. McCarthy to have Pier, new 43, North river, thrown open to public use, etc., and, being read, was,

On motion, referred to a Committee of the full Board.

A communication was received from the Engineer-in-Chief, stating that he had suspended certain dockbuilders for disobedience of orders issued by him, forbidding them to apply to the Finance Department until notified that their wages were ready for payment, and, being read,

Commissioner Laimbeer moved that the action of the Engineer-in-Chief be approved and the men named be discharged the service of the Department, which being seconded by Commissioner Vanderpoel,

Commissioner Voorhis moved as a substitute, that the action of the Engineer-in-Chief as to the suspension of the men be approved, to remain in force pending an investigation by the Board.

The vote being taken on the substitute offered by Commissioner Voorhis,

On motion it was unanimously adopted.

On motion, the communication from the Engineer-in-Chief was referred to Commissioner Voorhis to examine and report.

On motion, Michael Devine, Aaron Webb, and Peter Nolan were appointed as dockbuilders, and James Sheehan as watchman, in place of David Fenall, resigned.

On motion, the Board adjourned.

EUGENE T. LYNCH, Secretary.

At a special meeting of the Board of Docks, held September 30, 1881.

Present—Commissioners Vanderpoel and Laimbeer, and James J. Sullivan, representing the Comptroller of the city.

Absent—Commissioner Voorhis.

On motion, Commissioner Laimbeer took the chair.

Two estimates were received for dredging slip, between Pier, old 41, and Pier, old 42, North river, as follows :

No. 1.—From Union Dredging Company, at thirty cents per cubic yard, with certified check for \$150.

No. 2.—From Morris & Cumings Dredging Company, at thirty cents per cubic yard, with certified check for \$150.

And, being read, were,

On motion, laid on the table, and the Secretary directed to request the Counsel to the Corporation to give his opinion, what action it is the duty of the Board to take, in view of the fact that here is no lowest bidder.

Commissioner Voorhis here appeared and took his seat.

On motion of Commissioner Voorhis, the action of the Board in requesting the Counsel to the Corporation to advise as to its duty in regard to the above estimates was reconsidered, and,

On motion of the said Commissioner, the two estimates were taken from the table, and the following resolution adopted :

Resolved, That the estimates for dredging the slip between Piers, old 41 and old 42, North river, received this date from the Union Dredging Company and the Morris & Cumings Dredging Company be and hereby are rejected, the price named by each company being the same, and there being no lowest bidder to whom to make an award of the contract; and further that the Chief Clerk be and hereby is authorized and directed to surrender to the said companies the security deposit accompanying their respective estimates, upon the return to him of the receipts.

On motion, the Secretary was directed to have proper advertisements, inviting new bids for dredging the slip between Piers, old 41 and old 42, North river, inserted in the papers designated by law.

On motion, the following appointments were made, to wit : James Smith, John Daniels, and James Quinlan, as dockbuilders, William McCarthy as chainman, Eugene Matthews as laborer, in place of John Sheehan, and Peter Smith as watchman, in place of J. H. Strickland, resigned.

On motion, the Board adjourned.

EUGENE T. LYNCH, Secretary.

At a meeting of the Board of Docks, held October 5, 1881.

Present—The full Board.

On motion, Commissioner Laimbeer took the chair.

The minutes of the meetings held 28th and 29th ultimo, were read and approved.

The following communications were received, read, and,

On motion, laid on the table to await action, as stated, to wit :

From John M. Smith, Corporation Wharfinger, as to encumbrances on bulkheads on the North river water-front.

From Theodore F. Tone, lessee—To have repairs made to Pier at One Hundred and Thirty-first street, North river. Engineer-in-Chief directed to examine and report the repairs required.

From Mutual Benefit Ice Company, lessee—As to repairs made to Piers at Fifteenth, Sixteenth, and One Hundred and Twenty-ninth streets, North river. Engineer-in-Chief directed to examine and report on the same.

From New York Central and Hudson River Railroad Company—For permission to erect a derrick upon Pier at Thirty-eighth street, East river. Applicants requested to furnish a diagram showing the location and dimensions of said derrick.

From Commercial Manufacturing Company, consolidated—For permission to fill in water-t, between Forty-eighth and Forty-ninth streets, North river. Engineer-in-Chief directed to inquire and report on the same.

The following communications were received, read, and,

On motion, placed on file, action being taken where necessary, as stated, to wit :

From J. & R. Darrow—For permission to extend platform between Forty-seventh and Forty-ninth streets, North river. Application denied.

From Theophilus Masac—Applying for position as Clerk in the Department of Docks.

From Wm. R. Thornton—Applying for position as Clerk in the Department of Docks.

From Frank Phelan—For permission to place coal hopper on bulkhead east of Pier 54, East river. Application denied.

From Wm. L. McConkey, Corporation Wharfinger :

1st. As to repairs required to be made to Pier 6, East river. New York Central and Hudson River Railroad Company, lessee, notified and directed to make the necessary repairs to said pier in ten days from the receipt of notice from this Department, in default of which, the Engineer-in-Chief shall make the repairs thereto at their cost and expense.

2d. As to repairs ordered to be made to bulkhead between Piers 39 and 40, East river. Engineer-in-Chief directed to repair said bulkhead, in accordance with his report on Secretary's report, No. 2049.

From Engineer-in-Chief, as follows :

1st. As to work of dredging slip at Pier 7, East river, by the Union Dredging Company.

2d. Report as to work performed during the week ending October 1, 1881.

3d. Recommending that certain old material belonging to the Department be disposed of at public sale. Secretary directed to arrange for the sale of said old material at public auction, and to cause proper notices of the same to be inserted in the several newspapers designated by law.

From Holmes Brothers—To hire Department diver and pile-driver ways, for use in building new Pier 55, North river, and repairing Pier at Fortieth street, North river. Action of the Commissioners on 30th ultimo, in directing the Engineer-in-Chief to allow said Holmes Brothers the use of diver, apparatus, etc., from time to time, as they can be spared, at \$5 per day for apparatus, and wages of men at Department rates, also the use of a pile-driver ways at \$2 per day, approved.

From Atlas Steamship Company, lessee—In reference to shed to be erected by it on Pier, new North river. Secretary directed to advise that this Board trusts at an early day to be able to signify the time when the construction of the proposed shed can be commenced, and to request said company to confer with the Commissioners as to the architectural design of the shed and river ends before the work of erection shall begin.

On motion of Commissioner Voorhis, the action of the Board in requesting the Counsel to the Corporation to advise as to its duty in regard to the above estimates was reconsidered, and,

On motion of the said Commissioner, the two estimates were taken from the table, and the following resolution adopted :

Resolved, That the estimates for dredging the slip between Piers, old 41 and old 42, North river, received this date from the Union Dredging Company and the Morris & Cumings Dredging Company be and hereby are rejected, the price named by each company being the same, and there being no lowest bidder to whom to make an award of the contract; and further that the Chief Clerk be and hereby is authorized and directed to surrender to the said companies the security deposit accompanying their respective estimates, upon the return to him of the receipts.

On motion, the Secretary was directed to have proper advertisements, inviting new bids for dredging the slip between Piers, old 41 and old 42, North river, inserted in the papers designated by law.

On motion, the following appointments were made, to wit : James Smith, John Daniels, and James Quinlan, as dockbuilders, William McCarthy as chainman, Eugene Matthews as laborer, in place of John Sheehan, and Peter Smith as watchman, in place of J. H. Strickland, resigned.

On motion, the Board adjourned.

EUGENE T. LYNCH, Secretary.

At a meeting of the Board of Docks, held October 5, 1881.

Present—The full Board.

On motion, Commissioner Laimbeer took the chair.

The minutes of the meetings held 28th and 29th ultimo, were read and approved.

The following communications were received, read, and,

On motion, laid on the table to await action, as stated, to wit :

From John M. Smith, Corporation Wharfinger, as to encumbrances on bulkheads on the North river water-front.

From Theodore F. Tone, lessee—To have repairs made to Pier at One Hundred and Thirty first street, North river. Engineer-in-Chief directed to examine and report on repairs required.

From Mutual Benefit Ice Company, lessee—As to repairs required on Fifteenth, Sixteenth, and One Hundred and Twenty streets, North river. Engineer-in-Chief directed to examine and report on the same.

From New York Central and Hudson River Railroad Company—For permission to erect a derrick upon Pier at Thirty-eighth street, East river. Applicants requested to furnish a diagram showing the location and dimensions of said derrick.

From Commercial Manufacturing Company, consolidated—For permission to fill in water-front, between Forty-eighth and Forty-ninth streets, North river. Engineer-in-Chief directed to inquire and report on the same.

The following communications were received, read, and,

On motion, placed on file, action being taken where necessary, as stated, to wit:

From J. & R. Darrow—For permission to extend platform between Forty-seventh and Forty-ninth streets, North river. Application denied.

From Theophilus Masac—Applying for position as Clerk in the Department of Docks.

From Wm. R. Thornton—Applying for position as Clerk in the Department of Docks.

From Frank Phelan—For permission to place coal hopper on bulkhead east of Pier 54, East river. Application denied.

From Wm. L. McConkey, Corporation Wharfinger:

1st. As to repairs required to be made to Pier 6, East river. New York Central and Hudson River Railroad Company, lessee, notified and directed to make the necessary repairs to said pier within ten days from the receipt of notice from this Department, in default of which, the Engineer-in-Chief shall make the repairs therein at their cost and expense.

2d. As to repairs ordered to be made to bulkhead between Piers 33 and 44, East river. Engineer-in-Chief directed to repair said bulkhead, in accordance with his report on Secretary's letter, No. 2049.

From Engineer-in-Chief, as follows:

1st. As to work of dredging slip at Pier 7, East river, by the Union Dredging Company.

2d. Report as to work performed during the week ending October 1, 1881.

3d. Recommending that certain old material belonging to the Department be disposed of at public sale. Secretary directed to arrange for the sale of said old material at public auction, and to cause proper notices of the same to be inserted in the several newspapers designated by law.

From Holmes Brothers—To hire Department diver and pile-driver ways, for erecting and repairing Pier at Forty-fifth street, North river, and repairing Pier at Forty-fifth street, North river. Action of the Commissioners on 30th ultimo, in directing the Engineer-in-Chief to allow said Holmes Brothers diver, apparatus, etc., from time to time, as they can be spared, at \$5 per day for approximately wages of men at Department rates, also the use of a pile-driver ways at \$2 per day, approved.

From Atlas Steamship Company, lessee—In reference to shed to be erected by said company at Pier 55, North river. Secretary directed to advise that this Board trusts at an early opportunity to specify the time when the construction of the proposed shed can be commenced, and to request the company to confer with the Commissioners as to the architectural design of the construction of the shed, before the construction shall begin.

A communication was received from W. J. Warwick, as to the bad condition of Pier at Fifty-seventh street, North river, and, being read, was,

On motion, referred to Commissioner Laimbeer for examination and report.

A report was received from the Engineer-in-Chief, submitting form of contract and specifications for building Pier, new 28, North river, and, being read,

On motion, it was

Resolved, That the form of specifications and contract, as prepared by the Engineer-in-Chief for building Pier, new 28, North river, be and hereby is approved, subject to the approval of the Counsel to the Corporation, as to form, and that the Secretary be and hereby is directed to have a sufficient number of blank forms of proposals printed, and proper advertisements, inviting bids for doing said work, inserted in the papers designated by law.

Thomas Costigan, Supervisor of the CITY RECORD, appeared and stated, that in consequence of the appropriation for the insertion of brief notices, in the various papers designated by law, having become exhausted, he would be unable to comply with the request of this Department, to have its advertisements inserted in other papers than the CITY RECORD, and being heard at length in reference to the subject,

On motion, the Secretary was directed to have brief notices of all advertisements of this Department which shall be published in the CITY RECORD, inserted in the papers designated by law.

On motion, the following preamble and resolution was adopted :

Whereas, This Board deem it advisable to make, and have decided upon an alteration and change in the length and location of the proposed Pier, new 53, North river, from the line therefor, as laid down upon the plan adopted by the Department of Docks, on October 27, 1880, therefore be it

Resolved, That the Commissioners of the Sinking Fund be and hereby are respectfully requested, in pursuance of the provisions of chapter 738, Laws of 1872, to consent to and approve the length and location of the said proposed Pier, new 53, North river, being so altered and changed from the lines therefor, as laid down on the plans proposed by this Department, and approved by the said Commissioners of the Sinking Fund, November 4, 1880, as to establish the following lines, to wit, the northerly and southerly lines of said pier to be ten feet southerly of and parallel with those as now established, respectively, and to make the length of said pier five hundred and eight feet, instead of five hundred and twelve feet, as now established, measured westerly from the established bulkhead line.

On motion, the Secretary was directed to notify the New York, Lake Erie and Western Railroad Company, as the conclusion of a conference between Mr. C. L. Atterbury, attorney for said company, and the members of this Board, in reference to the location of the proposed new Pier, near foot of Twenty-third street, North river, that in conformity with the plans prepared by the Engineer-in-Chief of this Department and submitted at said conference, the Board have established

the southerly line for the said pier, to be known as Pier, new 53, North river, ten feet southerly of the north line of Twenty-third street produced, and parallel thereto.

On motion, the Engineer-in-Chief was directed to prepare plans and specifications for building Pier, new 37, North river, on lines as at present established.

Commissioner Voorhis, to whom was referred the communication from the Old Dominion Steamship Company, requesting that they be not required to furnish sureties to their lease of Pier, new 26, North river, in view of the security already afforded to the city by the large expenditure by said company, for the shed upon said pier, reported, that the matter had received careful consideration, and that the records of the Department failed to show that any special action had been had, whereby said company had been required to furnish sureties under their lease, and further, that this Department had been advised by the Counsel to the Corporation, under date May 3, 1877, that it is discretionary with the Commissioners of this Department, how much, if any, security they will require from lessees of wharf property, and would recommend to the Board, that the Old Dominion Steamship Company be informed, that this Department will not require them to furnish sureties to the lease of Pier, new 26, North river, provided that said company shall assign to this Department, policies of insurance against loss of said shed by fire, in the sum of \$60,000.

On motion, the report was accepted, and the said recommendation approved and adopted.

Commissioner Voorhis, to whom was referred the communication from the Engineer-in-Chief, advising the suspension by him, of Michael Falvey and F. J. McDonald, night watchmen, for dereliction of duty, the former for being found asleep, and the latter for being absent from his post, reported that he had carefully examined into the circumstances of such dereliction of duty, and heard the statements of said watchmen and of the Department Roundsman in relation thereto, and submits the aforesaid case to the Board for action.

On motion, the report was received, and the said watchmen discharged.

Commissioner Voorhis, to whom was referred the communication from the Engineer-in-Chief, advising the suspension of Michael Walsh, night watchman, for being found asleep while on duty, reported that said Walsh had admitted to him that the charge was true, and that his being found asleep was in consequence of fatigue caused by previous attendance on his sick children at home, and recommended that the case was, in his opinion, a fit subject for favorable consideration by the Board.

On motion, the report was received, and the said Michael Walsh discharged.

Commissioner Voorhis, to whom was referred the communication from the Counsel to the Corporation in reference to an offer made for the settlement of claim against C. H. Longstreet, for unpaid rent for Pier at Fifty-first street, East river, transmitted to him for collection, reported that he had duly considered the subject, and would recommend to the Board, that the said Counsel to the Corporation be advised, that in consideration of the surrender of the said lease to the city by said Longstreet, and of the improvements placed by him, at his own cost, on the premises, which have

reverted to the city, the Commissioners are of the opinion, that the interests of the city would best be served by accepting the offer of £250 in settlement of said claim.

On motion, the report was accepted, and the recommendation therein made, adopted.

Commissioner Voorhis, to whom was referred the communication of the Engineer-in-Chief as to the disobedience of orders by Luke A. Gallagher and James Woods, dockbuilders, in going to the Finance Department for their wages before being notified that the sums due them were ready to be paid, reported that he had carefully examined into the facts of the case, and had heard the men in relation thereto, that they had expressed great regret for the aforesaid disobedience of orders, and had promised never again to give cause for complaint, and that in view of the fact that the men had already lost two weeks' pay by reason of said suspension, recommended, that they be reinstated, and that the Comptroller be advised of the action of the Board.

On motion, the report was accepted, and the said recommendation adopted.

A communication was received from the Comptroller in reference to lease of Pier at Twenty-third street, East river, to be sold for ferry purposes, and, being read, was,

On motion, laid on the table.

On motion, John J. Britt was appointed as a laborer.

On motion, the Board adjourned.

EUGENE T. LYNCH, Secretary.

At a meeting of the Board of Docks, held October 12, 1881.

Present—Commissioners Vanderpoel and Laimbeer.

Absent—Commissioner Voorhis.

On motion, Commissioner Laimbeer took the chair.

The minutes of the meetings held 30th ultimo and 5th instant were read and approved.

The following communications were received, read, and,

On motion, laid on the table to await action, as stated, to wit :

From Engineer-in-Chief—Reporting the repairs required to the westerly half of Pier 25, East river. New Haven Steamboat Company, lessee of said premises, requested to call upon the Commissioners in reference to the same.

From Wm. L. McConkey, Corporation Wharfinger—As to condition of outer end of Pier 22, East river. Superintendent Wright, of the Union Ferry Company, requested to call at once on the Commissioners in reference to the same.

From Wm. B. Finley—To have George Martin appointed as a stone-cutter in the Department Docks.

The following communications were received, read, and,

On motion, referred to Commissioner Voorhis for examination and report :

From Engineer-in-Chief—Suspending George Ormsby and James White, night watchmen.

From Austin, Baldwin & Company—Application for temporary use of Pier, new 37, North river.

The following communications were received, read, and,

On motion, placed on file, action being taken where necessary, as stated, to wit :

From John W. Campbell, Auctioneer—In reference to sale of old material by the Department of Docks.

From John M. Smith, Corporation Wharfinger—In reference to lessees of wharf property on the North river water-front, who are now incumbering bulkheads with goods.

From E. Daly—Requesting permission until the 18th instant, to remove the row-boats now upon the bulkhead at Piers, 39 and 43, East river. Application granted.

From Captain of the Port—Requesting copy of rules and regulations of the Department of Docks. Secretary directed to advise, that as soon as an amended copy of said rules and regulations, now in print, shall be received, it will be duly forwarded to him.

From Wm. L. McConkey, Corporation Wharfinger—As to mooring pile to be replaced at outer westerly end of Pier 19, East river. Engineer-in-Chief directed to replace said mooring pile without delay.

From John F. Doyle, agent for the owners of the south half of Pier 15, East river—Asking additional time to make the necessary repairs to the south half of the pier in conformity with the orders issued by this Department. Applicant advised that the repairs to said pier must be made within ten days from the receipt of this notice ; in default of which, this Department will proceed to make the same at his cost and expense, and Engineer-in-Chief directed to do the work, if not performed by said Doyle within the time specified.

From Engineer-in-Chief, as follows :

1st. As to repairs made to bulkhead adjoining Pier 8, East river.

2d. Report as to work performed during the week ending October 8, 1881.

A report was received from the Engineer-in-Chief, suspending Arthur McKiver, dock-builder, and, being read, was,

On motion, referred to Commissioner Vanderpoel for examination and report.

A report was received from the Engineer-in-Chief, stating that several holes exist in the deck of south half Pier 57, East river, which should be repaired with five-inch plank, or the deck sheathed with three-inch plank, estimated cost about \$275, and, being read,

On motion, the communication from S. D. Barnes & Company, in reference to the same, was taken from the table and placed on file, and the Secretary directed to notify William H. Wood, lessee of said premises, to repair the same in accordance with the report of the Engineer-in-Chief, within ten days from receipt of this notice, in default of which, this Department will proceed to make the same at his cost and expense.

A report was received from the Engineer-in-Chief as to the condition of water-front between Forty-eighth and Forty-ninth streets, North river, and, being read,

On motion, the application of the Commercial Manufacturing Company, Consolidated, for permission to erect a retaining structure, and to fill in behind the same, between said streets, was taken from the table and placed on file, and the following resolution adopted:

Resolved, That permission be and hereby is granted to the Commercial Manufacturing Company, Consolidated, lessees of property adjoining the southerly side of Forty-ninth street, North river, to erect a retaining structure, extending southerly from the southerly side of Forty-ninth street, North river, for a distance of about 100 feet to the northerly end of the solid filling between Forty-eighth and Forty-ninth streets, and to fill in behind the same, the work to be done under the supervision of the Engineer-in-Chief of this Department, and upon plans to be first submitted to and approved by that officer.

On motion, the application of Funch, Edye & Company, lessees of Pier, new 54, North river, for permission to erect derricks upon the sides of said pier, in accordance with the plans submitted by them, for the hoisting of cargo for steamers berthed thereat, was taken from the table, and the permission asked for granted, the work to be done under the supervision of the Engineer-in-Chief of this Department, and to the satisfaction of that officer, in accordance with plans on file in this office.

The Auditing Committee presented an audit of 26 bills or claims, amounting to the sum of \$47,690.33, and, being read, was,

On motion, accepted and adopted, and the Secretary directed to forward the said bills, together with proper requisitions for the amount, to the Finance Department for payment.

On motion, the application of the New York Central and Hudson River Railroad Company for permission to place a coal derrick at the south side of pier at Thirty-eighth street, East river, about 50 feet from its outer end, and to pass through the deck of the pier to the river bottom, was taken from the table and placed on file, and the action of the Commissioners on the 7th instant in granting the permission referred to above, approved.

A communication was received from the Comptroller in reference to transmission of pay-rolls of the Department of Docks, and, being read, was,

On motion, placed on file, and the Secretary directed to prepare a proper reply thereto.

A communication was received from the Engineer-in-Chief, as to dimensions of piles in Pier, new 57, North river, stating that six piles, when cut off, were of a diameter slightly less than the

fifteen inches, as called for in the contract, while other piles, adjacent to them, were much larger, and that the variations were of no essential consequence, and, being read,

On motion, the Engineer-in-Chief was directed to accept the work so far as said piles are concerned, as the Board is also of the opinion that the variations referred to are immaterial.

A communication was received from the Counsel to the Corporation, inclosing transcript of judgment obtained against Heinrich A. Tiedemann, in the sum of \$1,993.33, for arrearages of rent under leases for piers at Seventy-ninth street, East river, and One Hundred and Twenty-ninth street, North river; also check, in the sum of \$1,125, for rent due August 1, 1881, from Scott & Company, lessees of pier at Thirty-fifth street, North river, and requesting that said amounts be credited to him upon the books of this Department. Bookkeeper directed to make the proper entry, in accordance with said request.

A communication was received from the Street Cleaning Department in reference to the slow progress of the work of repairing the Pier at Forty-seventh street, North river, occupied in part by said Department as a dumping board, and, being read,

On motion, the Secretary was directed to notify Holmes Brothers, contractors for repairing said pier, that they will be held by this Department, strictly to the terms and conditions of their contract for repairing said premises, and to take measures at once for having the repairs to said pier completed at an early day; also to notify the Engineer-in-Chief to examine and report as to the progress of the work of repairing piers on the North river by Holmes Brothers, contractors.

Commissioner Laimbeer, to whom was referred the communication from W. J. Warwick as to the bad condition of Pier at Fifty-seventh street, North river, reported that he had examined the premises, and would recommend to the Board that the centre bridge of said pier be removed and the pier reconstructed.

On motion, the report was received and laid on the table.

The Secretary reporting that the Old Dominion Steamship Company, lessee of Pier, new 26, North river, had filed in this office policies of insurance against fire on the shed constructed on said pier, to the amount of \$60,000, duly assigned to this Department, and that, by direction of the Commissioners, the lease of said pier, duly executed, had been delivered to said company.

On motion, the action of the Secretary was approved.

On motion, Anthony Schoppe was appointed as a dock-builder, and Abraham Schmidt as a watchman.

On motion, the Board adjourned.

EUGENE T. LYNCH, Secretary.

At a special meeting of the Board of Docks, held October 13, 1881.

Present—Commissioners Vanderpoel and Laimbeer, and Henry J. Storrs, representing the Comptroller of the City.

Absent—Commissioner Voorhis.

On motion, Commissioner Laimbeer took the chair.

An estimate was received from the Morris and Cumings Dredging Company, for dredging the slip between Pier, old 41, and Pier, old 42, North river, at thirty cents per cubic yard, and, being read, was,

On motion, laid on the table for examination.

On motion, the Board adjourned.

EUGENE T. LYNCH, Secretary.

At a meeting of the Board of Docks, held October 19, 1881.

Present—The full Board.

On motion of Commissioner Vanderpoel, Commissioner Laimbeer took the chair.

The minutes of the meetings held October 12 and 13, 1881, were read and approved.

A communication was received from the Comptroller, advising the approval of the sureties to the estimate of the Morris and Cumings Dredging Company, for dredging the slip between Piers, old 41 and old 42, North river, and, being read, and the Secretary stating that the President of the New Jersey Steamboat Company had also approved the sureties,

On motion, the following resolutions were adopted :

Resolved, That the contract for dredging the slip between Piers, old 41 and old 42, North river, be and is hereby awarded to the Morris and Cumings Dredging Company, their bid for doing said work being the lowest under estimates publicly opened the 13th instant, and the Comptroller having approved, on the 15th instant, and the President of New Jersey Steamboat Company, on the 19th instant, of the sureties thereto.

Resolved, That Commissioner Laimbeer be and hereby is authorized and directed to execute the contract to be made under the above award, as Commissioner acting as President.

The following communications were received, read, and,

On motion, laid on the table to await action, as stated, to wit :

From Warren Roosevelt—Application to drive piles at Piers, 38 and 41, East river. Secretary directed to request the applicant to call and explain his application.

From A. Van Santvoord, lessee.—Application for consent to sublet a portion of Pier at Twenty-second street, North river, to the New York, Lake Erie and Western Railroad Company.

From Fulton Market Fish Mongers' Association—Petition for the removal of an obstruction on Pier 22, East river. Referred to Commissioner Voorhis for examination.

From Oceanic Steam Navigation Company—Application for repairs to roadway to Piers, new 44 and new 45, North river, and complaining of piles of refuse dirt, accumulated in the vicinity by the contractor for building sewer in West street. The Engineer-in-Chief directed to examine and report cost of repairing the roadway, and the Corporation Wharfinger for the district directed to notify the said contractor to remove the refuse complained of without delay.

From New York and Charleston Steamship Company—Referring to application previously made for a lease of Pier, new 37, North river. Referred to Commissioner Voorhis for examination.

From Engineer-in-Chief—Advising suspension of Daniel O'Connell, Watchman. Referred to Commissioner Voorhis.

The following communications were received, read, and,

On motion, placed on file, action being taken where necessary, as stated, to wit :

From Holmes Brothers, contractors—Advising date when dump on Pier at Forty-seventh street, North river, will be completed and ready for use. The Secretary reporting that, by direction of one of the Commissioners, the information was transmitted on the 15th instant to the Street Cleaning Department, the action was approved.

From Department of Public Charities and Correction—Application for repairs to Pier at Twenty-sixth street, East river. The Secretary directed to inform the said Department that it is contemplated in the immediate future to rebuild the said pier, and the Commissioners are not willing to make any further repairs to the existing structure.

From Police Department—Reporting easterly side of Pier 57, East river, in an unsafe condition. The Secretary directed to notify the owner to make the necessary repairs, under the supervision of the Engineer-in-Chief, within ten days, otherwise the Department will do the work at his cost and expense.

From Fulton Market Fish Mongers' Association, lessee—Petition to have certain repairs ordered to be made by the Department, done at expense of said lessees. Several members of the association, and Superintendent Wright, of the Union Ferry Company, were present, and, being heard relative to the damage done to said pier by boats of said company, the Secretary was directed to notify the said lessee that the repairs ordered must be proceeded with without further delay.

From Matthew Baird—Application for permission to dump clean material between Barrow and Christopher streets, North river. Denied, but to be informed that the material may be dumped at foot of Twenty-fourth street, North river, free of charge.

From George W. Quintard—Advising the unsafe condition of bulkhead at Pier 27, North river. The Secretary directed to notify owner to make necessary repairs, under the supervision of the

Engineer-in-Chief, within ten days, otherwise the Department will do the work at his cost and expense.

From Department of Public Works—Application to have lumber removed from foot of Charlton street, North river, being an obstruction to the building of the sewer in that vicinity. The Secretary directed to reply that the obstruction complained of exists without the consent of the Department, and will be ordered removed at once, and to notify the Corporation Wharfinger of the district to cause the removal of the lumber forthwith.

From J. J. Astor—Advising the necessity of repairing Pier at Thirteenth street, North river, and asking if the work can be done jointly with the Corporation, owners of the northerly half of said pier. The Engineer-in-Chief directed to prepare plans and specifications for a new Pier at Thirteenth street, North river, to extend westerly only to the established exterior line, and the Secretary directed to request said Astor, claiming to be the owner of the southerly half of said pier, to agree in writing to join with the Corporation in the construction of the proposed new pier.

From Joseph V. Brown, lessee—Application for rebuilding and lengthening of Pier at Twenty-eighth street, East river, agreeing to pay increased rent therefor. Secretary directed to reply that the terms of sale at which the lease of the said pier was purchased will be conformed to, as regards repairs, which have already been ordered to be done.

From Holmes Brothers, contractors—Application to hire a pile-driver. Engineer-in-Chief directed to deliver a machine, if not required by the Department, the applicants to first file a written agreement to pay for its use \$10 per day, and to be liable for all damage sustained while in their charge, beyond ordinary wear and tear.

From the Common Council—Resolution, amending the Revised Ordinances of 1880 (page 226), establishing the office hours of all public offices of the city from 9 o'clock A. M. to 4 o'clock P. M.; so that such offices shall be closed on Saturdays at 3 o'clock, P. M.

From C. H. Mallory & Co., lessees—Relative to extending the widening of Pier 21, East river, on its westerly side to the bulkhead.

From the Engineer-in-Chief, the following :

1st. Report of crib-work and mud excavated and removed by dredges and scows of the Department, by Union Dredging Company, during the months of July, August and September, 1881. The Treasurer requested to collect the claim against said company for hire of said floating plant, as heretofore agreed.

2d. Report that the Morris and Cumings Dredging Company had commenced dredging slip between Piers, old 41 and old 42, North river.

The Secretary reporting that, by direction of a Commissioner, the said company had been notified on the 18th instant, that it would be advisable not to prosecute said work until the contract therefor should be awarded and executed, the action was approved.

3d. Report of the progress of repairs to certain six piers on the North river, under contract with Holmes Brothers.

4th. Report of work performed during week ending October 15, 1881.

5th. Report of condition of substructure of Pier 22, East river, and damage, if any, done thereto by the Union Ferry Company.

A report was presented by Commissioner Voorhis relative to the suspension by the Engineer-in-Chief of James White, Night Watchman, recommending that he be discharged, and, being read,

On motion, the communication of the Engineer-in-Chief, dated the 11th instant, was taken from the table and placed on file, and the recommendation of the Commissioner approved and adopted.

A report was presented by Commissioner Voorhis relative to the suspension by the Engineer-in-Chief of George Ormsby, Night Watchman, recommending that he be reinstated and directed to report for duty, and, being read,

On motion, the communication of the Engineer-in-Chief, dated 6th instant, was taken from the table and placed on file, and the report of the Commissioner received and filed.

On motion of Commissioner Laimbeer, the said George Ormsby was discharged—Commissioner Vanderpoel and the Chair voting in the affirmative and Commissioner Voorhis in the negative.

A report was received from Commissioner Vanderpoel relative to the suspension by the Engineer-in-Chief of Arthur McKiver, a dock-builder, recommending that he be reinstated and directed to report for duty, and, being read,

On motion, the communication from the Engineer-in-Chief, dated 8th instant, was taken from the table and placed on file, and the recommendation of the Commissioner approved and adopted.

Subsequently, on motion of Commissioner Voorhis, the action reinstating the said Arthur McKiver as a dock-builder was reconsidered, and,

On motion of that Commissioner, said Arthur McKiver was discharged by a unanimous vote.

The Secretary reporting that, by direction of a Commissioner, the Comptroller had been advised on the 18th instant, that the Board holds the upset price of \$5,000, named orally by the Department as the annual rent for the Pier at Twenty-third street, East river, as based upon the pier remaining in its present state, and not to be shedded or covered, and with a reservation at its southerly side for the school ship "St. Mary's," to be a fair and ample valuation under the conditions upon which the price was named; and that, in the judgment of this Board, it is most injudicious, in view of the greatly increased demand and necessity for wharf facilities at that section of the water-front, to set apart and appropriate exclusively for ferry purposes, any considerable portion of the said Pier at Twenty-third street, East river, to the detriment of its general use for commercial interests;

On motion, the communication from the Comptroller, dated 3d instant, relating to said subject, was taken from the table and placed on file, and the action, as above stated, approved.

A report was received from the Engineer-in-Chief relative to the condition of Pier 2, East river, and, being read,

On motion, the communication from Corporation Wharfinger McConkey was taken from the table and placed on file, and the Secretary directed to notify the lessee of the westerly half and the owner of the easterly half of said pier to make the necessary repairs thereto within ten days, under the supervision of the Engineer-in-Chief, otherwise the work will be done by this Department at the cost and expense of said parties respectively.

A report was received from the Engineer-in-Chief relative to the repairs required to certain three piers on the North river, under lease to the Mutual Benefit Ice Company, and, being read,

On motion, the communication of the said company, dated 29th ultimo, was taken from the table and placed on file, and the Secretary directed to reply thereto, that the Pier at One Hundred and Twenty-ninth street, North river, is being repaired under contract, and that the Piers at Fifteenth and Sixteenth streets, North river, had been repaired to the extent contemplated at the date of the sale of the leases therefor, and that, if additional repairs are necessary, the work will have to be done by the lessees of the premises, free of expense to the Corporation.

A report was received from the Engineer-in-Chief relative to the dredging required at Pier at Thirty-eighth street, North river, and, being read,

On motion, the communication from P. White's Sons, dated August 26, 1881, was taken from the table and placed on file, and the Engineer-in-Chief directed to make requisition for services of a dredge, scows, and labor necessary to do the dredging in accordance with his said report.

A report was received from the Engineer-in-Chief relative to the repairs needed to the wharf structure at Ward's Island, and, being read,

On motion, the application from Department of Public Charities and Correction, dated 14th ultimo, was taken from the table and placed on file, and the Engineer-in-Chief directed to prepare specifications therefor in conformity with said report.

A report was received from the Engineer-in-Chief relative to the extension to the wharf structure at Hart's Island, and, being read,

On motion, the application of Department of Public Charities and Correction, dated 6th and 16th ultimo, and the report of the Engineer-in-Chief on Secretary's Order 1977, relating to repairs to Branch Workhouse Dock at Hart's Island, were taken from the table and placed on file, and the Engineer-in-Chief directed to prepare proper specifications for doing the work to both premises by contract, in conformity with said reports.

The Engineer-in-Chief reporting orally that the widening to the westerly side of Pier 21, East river, was completed, and that the pier was ready for occupancy,

On motion, it was

Resolved, That C. H. Mallory & Co., lessees of the westerly half of Pier 21, East river, be and are hereby notified that the rent of \$800 per annum for the widening thereof, under resolution adopted June 8, 1881, is to commence on this date, and is payable in advance on the usual quarter days.

The Secretary presenting a list, prepared by the Commissioners, of thirty-seven lots of Corporation wharf property, leases for which are to be offered at public sale,

On motion, the Secretary was directed to arrange with William Kennelly, auctioneer, to offer at public sale, to be held on Monday, October 31, 1881, for purchase by the highest bidder the right to collect and retain all wharfage accruing at said thirty-seven lots, subject to the terms and conditions set forth in the advertisement prepared by the Secretary, and cause said sale to be published for ten days in the CITY RECORD and other newspapers designated by law for Corporation notices.

The Engineer-in-Chief submitting specifications for a contract for the extending of South street, across Coenties slip, East river, and reclaiming the land northerly of the exterior line of said street, and, being read,

On motion, it was

Resolved, That the form of specifications and contract, as prepared by the Engineer-in-Chief, for extending South street across Coenties slip, and reclaiming the land northerly of the exterior line of said street, be and hereby is approved and adopted, subject to the approval of the Counsel to the Corporation as to form, and that the Secretary be and hereby is directed to have a sufficient number of blank forms of proposals printed, and proper advertisements, inviting bids for doing said work, inserted in the papers designated by law.

On motion, it was

Resolved, That the lessees of the easterly half of Pier 6 and adjacent bulkheads, of Pier 7, and of the westerly half of Pier 8 and adjacent bulkheads, East river, be and hereby are notified that in conformity with the provisions therefor, contained in the terms of sale at which the leases of said wharf property were purchased, this Department will, in about thirty days hereafter, enter upon and take possession of all the portions of the said piers and bulkheads lying northerly of the existing exterior line of South street, produced and extended, for the purpose of continuing the said street across Coenties slip, and filling in and reclaiming the land under water inside of the said exterior line.

On motion of Commissioner Laimbeer, the following resolutions were unanimously adopted, to wit :

Resolved, That, hereafter, all requisitions for material and supplies shall be presented to the Commissioners on the Monday previous to the regular Board meeting on Wednesday, of each week, in order that the same may be duly considered and such disposition made of them as the Board may direct ; provided that a requisition may be approved at times other than above specified, by the signatures of the three Commissioners.

Resolved, That, from this date, all communications and reports, and also all correspondence relating to the business of the Department, shall be made and directed to the Board, and the Secretary is hereby requested to notify all who may have any business with the Department, of this action of the Board.

OCTOBER 19, 1881.]

108

At a meeting of the Board of Docks, held October 26, 1881.

Present—The full Board.

On motion, Commissioner Laimbeer took the chair.

The reading of the minutes of the meetings held the 19th and 22d instant was,

On motion, dispensed with.

The following communications were received, read, and,

On motion, laid on the table to await action, as stated, to wit :

From Alexander Mason, lessee—To sublet south side of Pier 44 and its bulkhead, East river, to the New York City and Northern Railroad Company.

From Engineer-in-Chief—As to placing drain-pipes at Twenty-fifth street, North river, by Chelsea Jute Mills.

The following communications were received, read, and,

On motion, referred to Commissioner Voorhis for examination and report :

From C. H. Mallory & Co., lessees—In reference to dredging at Pier 21, East river, and rent of same.

From Daniel Babcock and others—To have incumbrances removed from bulkheads at Forty-seventh and Forty-eighth streets, East river.

From Engineer-in-Chief—As to suspension of Michael Farrell, night watchman.

From C. H. Mallory & Co., lessees—To erect shed on Pier 21, East river.

The following communications were received, read, and,

On motion, referred to Commissioners Voorhis and Vanderpoel for examination and report :

From Engineer-in-Chief—As to condition of piers, bulkheads, etc., leases of which are to be sold at public sale.

From Wm. L. McConkey, Corporation Wharfinger—As to incumbrances upon piers, bulkheads, etc., on the East river.

From Citizens' Steamboat Company—To lease Pier 43, North river.

The following communications were received, read, and,

On motion, placed on file, action being taken where necessary, as stated, to wit :

From General Q. A. Gillmore—As to report on condition of bulkhead wall.

From Wm. L. McConkey, Corporation Wharfinger—As to canal boat sunk at Pier 47, East river.

From Captain of the Port—Stating that the slip between Piers, 6 and 7, East river, was now clear of vessels, and that the work of dredging the premises could now be proceeded with.

From Morris & Cumings Dredging Company—Accepting award of contract for dredging slip between Piers, old 41 and old 42, North river.

From John G. Dale, agent—In reference to execution of lease of Pier, new 36, North river.

From Engineer-in-Chief, as follows:

1st. As to repairs required to bulkhead in front of West Tenth street, North river. Engineer-in-Chief directed to repair said bulkhead, in accordance with his report, at a cost of about \$500.

2d. As to repairs needed to the surface of Pier at Forty-sixth street, North river. Engineer-in-Chief directed to repair said pier, in accordance with his report, at a cost of about \$150.

3d. As to repairs required to Pier at Third street, East river. Engineer-in-Chief directed to repair said premises, in accordance with his report, at a cost of about \$160.

4th. Suspending Peter Smith, night watchman, for seven days, for being found inattentive and negligent while on duty on 21st instant. Action approved.

5th. As to completion of repairs by contract, of Pier 21, East river.

6th. Report as to work performed during the week ending October 22, 1881.

From John F. Doyle, agent—Requesting an additional ten days in which to make the necessary repairs to south half Pier 15, East river. Application granted.

From Alfred Silleck—For permission to place coal hopper on bulkhead east side of Pier 3, East river. Application denied.

From Commissioners of the Sinking Fund—Approving of alteration in lines of Pier, new 1, North river. Secretary directed to notify the Engineer-in-Chief of the above action.

From Warren Roosevelt—For permission to drive about twelve piles at Pier 39, East river and seven piles at Pier 41, East river. Application granted, the work to be done under the supervision of the Engineer-in-Chief of this Department, and within the existing lines of the said piers.

From Wm. L. McConkey, Corporation Wharfinger—As to dangerous condition of Piers 22 and 23, East river. Engineer-in-Chief directed to examine and report on Pier 23, East river.

From James McDonald & Company—In reference to lumber incumbering pier at Twentieth street, North river. The Secretary reporting, that, by direction of one of the Commissioners, the Corporation Wharfinger for the district was notified on the 21st instant to have said lumber removed. The action was approved.

From Counsel to the Corporation—Inclosing draft of lease for the New York, Lake Erie and Western Railroad Company, of Piers, new 20 and new 21, and adjacent bulkhead, North river, for examination and to be returned to him. Secretary directed to forward the same to said company for examination and return to this Department, with the least possible delay, in order that the lease may be duly executed.

From Union Dredging Co.—Stating that until the slip between Piers 6 and 7, East river, shall be freed from vessels, it will be impossible to do the dredging required thereat under the contract. Secretary directed to notify said company to proceed with the work of dredging the slip without delay, the Captain of the Port having advised this Department that sufficient space was clear, for the prosecution of the work, the vessels moored thereat having been removed.

[OCTOBER 26, 1881.

A report was received from the Engineer-in-Chief stating that the pier and dumping board at Nineteenth street, North river, had been completed by the contractor, and, being read,

On motion, the Secretary was directed to notify the Commissioner of Street Cleaning that the dumping board thereat is ready for occupancy, and requesting him to vacate the dumping board at Twenty-first street, North river, and transfer the business to the dumping board at Nineteenth street.

The Auditing Committee presented an audit of thirty-one bills or claims, amounting to the sum of \$43,488.71, and, being read, was,

On motion, accepted and adopted, and the Secretary directed to forward the said bills, together with the proper requisitions for the amount, to the Finance Department for payment.

A communication was received from the Counsel to the Corporation in reference to the execution of the lease of Pier, new 26, North river, to the Old Dominion Steamship Co., and, being read, was,

On motion, directed to be entered in full upon the minutes.

LAW DEPARTMENT,
OFFICE OF THE COUNSEL TO THE CORPORATION, }
NEW YORK, October 14, 1881.

EUGENE T. LYNCH, Esq., *Secretary of the Department of Docks:*

SIR—I have received two letters from your Department, dated respectively the 5th and 11th instant, informing me that, in the opinion of the Department, no bond is necessary for the lease executed by the Old Dominion Steamship Company, for Pier, new 26, North river, they having duly assigned to the Department the policies of insurance on the shed and other property erected by them on the pier; and I have, therefore, this day, duly exchanged with the said company the properly executed duplicates of the lease therefor, prepared and approved as to form by me. The duplicate to be retained by the city, I herewith transmit to your Department.

Respectfully yours,

(Signed,)

WM. C. WHITNEY, Counsel to the Corporation.

An application was received from the Citizens' Steamboat Company for a berth at Pier at Thirtieth street, North river, to lay up their steamers during the coming winter season, and, being read, was,

On motion, referred to the Treasurer.

Commissioner Voorhis, to whom was referred the communication from the Fulton Market Fish Mongers' Association, asking that the timber which is now fastened upon the westerly side of the surface of Pier 22, East river, for the protection of foot passengers, be removed, reported that he had examined carefully into the matter, and was of the opinion that said timber was no longer necessary for the protection of pedestrians upon the pier, and would recommend to the Board that the applicants be permitted, at their own cost and expense, to remove the said timber from the pier.

On motion, the report was accepted, and the recommendation therein contained adopted.

A communication was received from the Health Department, in reference to dock to be built on North Brother Island, and, being read,

On motion, the Engineer-in-Chief was directed to prepare plans and specifications for building dock on North Brothers Island, and when completed, the Secretary directed to have a sufficient number of blank forms of proposals printed, and proper advertisements, inviting bids for doing said work, inserted in the papers designated by law.

Commissioner Voorhis, to whom was referred the communication from the Engineer-in-Chief, as to the suspension of Daniel O'Connell, night watchman, for being found under the influence of liquor while on duty, reported that he had fully examined into the merits of the case, and was of the opinion that said charge was not sustained by the evidence presented, and recommended to the Board that said Daniel O'Connell be reinstated to his position as watchman.

On motion, the report was accepted, and the recommendation therein contained adopted.

Commissioner Laimbeer presented for adoption the following resolution :

Resolved, That the question of the advisability of leasing the piers and bulkheads, as now advertised, on the North river, at public sale, be and is hereby referred to Commissioners Voorhis and Vanderpoel, with power.

The ayes and noes being called for and taken on the adoption of the resolution, it was adopted by the following vote :

Ayes—Commissioners Voorhis and Laimbeer.

No—Commissioner Vanderpoel.

On motion, the following resolution was unanimously adopted :

Resolved, That the Commissioners of the Sinking Fund, pursuant to authority vested in them by subdivision 11 of section 6, chapter 574, Laws of 1871, be and hereby are respectfully requested to direct the Comptroller of the City of New York to prepare and issue Dock Bonds of the City of New York, to the amount of \$250,000 (two hundred and fifty thousand dollars), for the uses and purposes of the Department of Docks.

On motion, the Engineer-in-Chief was directed to examine and report specially on the condition of Pier at Thirteenth street, North river.

O. Chanute, Chief Engineer of the New York, Lake Erie and Western Railroad Company, appeared, and was heard at length upon the various plans presented by him for a structure to be erected by said company at the bulkhead between Piers, new 20 and 21, North river, for the reception and delivery of freight.

On motion, John Dawson was appointed as a dock-builder, and Wm. Newman as a watchman, in place of Peter Smith, removed.

On motion, the Board adjourned.

EUGENE T. LYNCH, Secretary.

At a meeting of the Board of Docks, held November 2, 1881.

Present—The full Board.

On motion of Commissioner Vanderpoel, Commissioner Laimbeer took the chair.

Commissioner Vanderpoel moved that the Board organize by the election of its officers, and nominated Commissioner Voorhis for President, who was, the nomination being seconded by Commissioner Laimbeer,

On motion, elected President of the Board for the remainder of the year ending April 30, 1882.

The President here took the chair.

On motion of Commissioner Voorhis, Commissioner Vanderpoel was re-elected Treasurer of the Board for the remainder of the year ending April 30, 1882.

The minutes of the meetings held 19th and 22d October, 1881, were read and approved.

The counsel for the New York City and Northern Railroad Company being present, and having been heard relative to the proposed occupation by the said company of the westerly half of Pier 44 and adjoining bulkhead, East river,

On motion, the application of Alexander Mason, lessee, dated 20th ultimo, for consent to sublet the said premises to the said company, was taken from the table and placed on file, and the following resolution adopted by this vote :

The ayes and noes being called thereon, to wit :

Ayes—Commissioners Vanderpoel and the President.

No—Commissioner Laimbeer.

Resolved, That leave and consent be and hereby is granted to Alexander Mason, lessee of Pier 44 and bulkhead westerly, East river, to underlet or assign to the New York City and Northern Railroad Company, the westerly half of the said pier and the said bulkhead, during the unexpired term of the lease purchased by him at public sale, held March 29, 1881, and approved and confirmed by resolution, adopted March 30, 1881, provided that the said lessee, and the sureties to the lease, when executed, shall agree in writing, that their obligations under the provisions of the said lease shall not be affected, consequent upon such consent and assignment.

A communication was received from Joseph Walsh, contractor for repairing Pier 21, East river, requesting that the penalty imposed and deducted from payments made under the contract for the work be remitted, and, being read,

On motion, it was

Resolved, That this Board hereby certify to the Comptroller that the failure of Joseph Walsh to complete the work specified in the final Estimate (No. 2), within the time stipulated therefor under his contract for repairing and widening Pier 21, East river, dated August 5, 1881, was caused

by the Department stopping the progress of the work in order to contract for repairs to the inner end of the pier and its bulkhead, additional to those stipulated for in said contract, which were discovered to be necessary upon the removal of the old structure by the said contractor, and which additional repairs were not known to this Department to be necessary, and could not have been ascertained except by progressing the work under the said contract of August 5, 1881.

A communication was received from C. M. Bell, M. D., requesting permission to repair Pier 47, East river, accompanied by an application from S. A. Jenks & Co., to do the work, and, being read,

On motion, it was

Resolved, That permission be and hereby is granted to Christopher M. Bell, to make the necessary repairs to Pier 47, East river, claimed to be owned by him, provided that all the work shall be done within the existing lines of said pier, and under the supervision of the Engineer-in-Chief of this Department.

A communication was received from Borden & Lovell, agents, Old Colony Steamboat Company, asking permission to repair Pier 28, North river, and, being read,

On motion, it was

Resolved, That permission be and hereby is granted to the Old Colony Steamboat Company to make the necessary repairs to Pier 28, North river, claimed to be leased by said company, provided that all the work shall be done within the existing lines of said pier, and under the supervision of the Engineer-in-Chief of this Department.

An application was received from C. H. Eldridge and John J. Burchell for permission to drive close piling on westerly side of Pier 53, East river, and, being read,

On motion, it was

Resolved, That permission be and hereby is granted to C. H. Eldridge and John J. Burchell to drive close piling at the westerly side of Pier 53, East river, claimed to be owned by them, or to make the necessary repairs thereto, provided that the work shall be done within the existing lines of said pier, and subject to the directions and supervision of the Engineer-in-Chief of this Department.

The following communications were received, read, and,

On motion, laid on the table, to await action, where stated, to wit :

From Oceanic Steam Navigation Company—Application for repairs to Piers, new 44 and new 45, North river. Referred to Engineer-in-Chief to examine and report.

From Benner & Zeller—Application to erect a dumping board between Seventeenth and Eighteenth streets, East river. Referred to the President for investigation.

From Department of Street Cleaning—Application for dredging at Twenty-second street, East river. Referred to the Engineer-in-Chief to examine and report.

From Department of Public Charities and Correction—Application for repairs to docks at Ward's and Randall's Islands. Referred to the Engineer-in-Chief to examine and report.

From John J. Lawrence, advising bad condition of bulkhead at Thirty-second street, East river. Referred to Engineer-in-Chief to examine and report.

From Mutual Union Telegraph Company—Application to drive piles at Seventy-fifth street, North river. Referred to the Engineer-in-Chief to examine and report.

From Western Transportation Company—Application to remove derricks on Pier 7, East river, from the inner to the outer end. Secretary directed to inform applicants that the assent hereto of the lessee of the pier will be required before action is taken.

From New Haven Steamboat Company, lessee, requesting that the repairs ordered to be made to Pier 25, East river, may be delayed until after the present winter season. Referred to Engineer-in-Chief to examine and report whether the existing condition of the said pier justifies the granting of further delay in making the repairs ordered.

From Daniel Dailey, lessee, reporting obstruction, preventing his free enjoyment of bulkhead at Fourteenth street, East river, and requesting to be furnished with his lease of the said premises. Secretary directed to advise said lessee that new leases are now being prepared, and that his copy will be ready for signatures as soon as the forms are printed, and to notify Corporation Wharfinger Butler to examine and report on the obstruction complained of.

From Maine Steamship Company—Application to erect a shed on Pier 38, East river. Secretary directed to request the Captain of the Port to advise whether the said pier was so used and occupied prior to May 6, 1875, as to make it unlawful under chapter 249, Laws of 1875, to grant the permission applied for.

From Health Department—Requesting that repairs previously asked for to Riverside Hospital Dock, Blackwell's Island, may be made without delay. Referred to Engineer-in-Chief to examine and report the progress made.

The following communications were received, read, and,

On motion, placed on file, action being taken where necessary, as stated, to wit :

From Department of Public Works—Application to have cleats placed on bulkhead at Seventh street, East river, to prevent hydrant from being used for mooring purposes. The Secretary stating that, by direction of Commissioner Laimbeer, the Engineer-in-Chief had been directed on instant to do the work, the action was approved.

From John Monks—Application to drive piles at bulkhead between Jackson and Corlears streets, East river. The Secretary stating that, by direction of Commissioner Vanderpoel, permission to do the work under the supervision of the Engineer-in-Chief had been granted on 27th ultimo, the action was approved.

From John H. Strahan, Attorney.—Advising that the land east of Avenue A, between Sixth and Sixty-first streets, East river, is claimed to be owned by the Metropolitan Gas-light company, and that such ownership will be announced at any sale at which the Department may offer lease thereof. The Secretary directed to reply that the premises referred to were withdrawn from sale of leases held 31st ultimo, prior to the receipt of said communication, and that in the opinion of the Board the title to said property is vested in the Corporation.

From Corporation Wharfinger Fitzpatrick—Reporting dangerous condition of the street at foot of Bethune street, North river. The Engineer-in-Chief to be directed to make such repairs as properly belong to the Department, but not to exceed a cost of \$1,000.

From John F. Doyle—Requesting that the lessees of easterly half of Pier 15, East river, be required to make repairs thereto, conjointly with owners of westerly half. Secretary directed to notify Union Ferry Company, lessee of said easterly half, to make necessary repairs thereto, within ten days after receipt of notice.

From Joseph McDonald & Co.—Advising that pier at Twenty-eighth street, North river, is incumbered with lumber. Corporation Wharfinger Fitzpatrick to be directed to cause the lumber to be removed without delay.

From American Society of Mechanical Engineers—Requesting permission for non-resident members, now visiting the city, to inspect the work of the Department. Secretary directed to reply that the several places where the work of the Department is in progress may be visited by all caring to inspect it.

From Alexander Mason, lessee—Petitioning for a deduction of rent for Pier 44, East river, consequent upon occupation of the premises for repairing. The Secretary directed to inform said lessee, that in the judgment of the Commissioners, the Board has no power to allow such a deduction, nor would it be warranted in considering such a claim, in view of the terms and conditions of the sale at which the lease of said pier was purchased.

From Oceanic Steam Navigation Company, relative to repairs needed to approach to Piers, new 44 and new 45, North river.

The Secretary directed to reply that the work will be done as rapidly as possible.

From the Engineer-in-Chief, the following :

1st. Report of repairs required to bulkhead adjoining westerly side of Pier 25, East river. The Engineer-in-Chief to be directed to do the work in conformity with said report.

2d. Report of work performed during the week ending October 29, 1881.

Commissioners Voorhis and Vanderpoel, a committee appointed 26th ultimo, presented a report, stating that they had deemed it advisable and in the public interest to withdraw from the sale of leases of corporation wharf property held 31st ultimo, lots Nos. 2, 3, 4, 5, 6, 7, 8, 10, 11, 12, 14, 16, 18, 20, 21, 26, 27, 29, 30, 32, 33, 35, 36, and 37, and, being read,

On motion, the report of Engineer-in-Chief, dated 25th ultimo, relating to the condition of several premises to be leased, was taken from the table and placed on file, and the report of the Committee received and filed, and the action had, as therein stated, confirmed.

A report was received from the Engineer-in-Chief, relative to the repairs needed to the approaches to Piers, new 44, and new 45, North river, and, being read,

On motion, the application for said repairs from the Oceanic Steam Navigation Company, dated 18th ultimo, was taken from the table and placed on file, and the Engineer-in-Chief directed to make the repairs in accordance with his said report, and the Secretary directed to request the

Department of Public Works to compel the contractor for building the sewer in West street, now in progress, to remove, without delay, from the vicinity of said approaches, the piles of refuse dirt accumulated by him, in order that the said repairs may proceed at once, and the approaches to the piers in the vicinity be free of incumbrances.

A report was received from the Engineer-in-Chief submitting two plans proposed, for the handling and protecting of freight at the bulkhead between Piers, new 20 and new 21, North river, leased to the New York, Lake Erie and Western Railroad Company, and, being read, was,

On motion, placed on file.

A report was received from the Engineer-in-Chief relative to the repairs needed to the Pier at One Hundred and Thirty-first street, North river, and, being read,

On motion, the application of Theodore F. Tone, lessee, dated 4th ultimo, for said repairs, was taken from the table and placed on file, and the Engineer-in-Chief directed to prepare proper specifications and plans for making the repairs by contract.

A report was received from Commissioner Voorhis relative to the suspension of Michael Farrell, Night Watchman, and recommending that he be discharged, and, being read,

On motion, the report of the Engineer-in-Chief dated 25th ultimo, advising said suspension, was taken from the table and placed on file, and the report received, and the recommendation therein contained adopted.

The Secretary stating that the right to collect and retain all wharfage accruing at the following named piers and bulkheads, had been sold to the highest bidders therefor, as named below, at public sale, held by William Kennelly, auctioneer, on 31st ultimo, pursuant to the action of the Board on 19th ultimo, and for the terms and at the prices stated opposite each lot respectively, to wit :

Lot 1. South half Pier 14 and bulkhead adjoining, North river, (the present lessee claims the right to remove the shed on the pier at any time during the present occupancy), to Francis S. Lathrop, for nine years and six months, from November 1, 1881, at \$17,250 per annum ; upset bid, \$13,500.

Lot 9. Pier at Fifty-first street, North river, (except reservation at northerly side for public bath), to Andrew Dettinger, for three years and six months from November 1, 1881, at \$3,200 per annum ; upset bid, \$1,500.

Lot 13. Pier 38, and half bulkhead westerly, East river, (these premises are now in the possession of the contractor for repairs, which will be completed in about ten days), to Maine Steamship Company, for five years and six months from November 1, 1881, at \$12,000 per annum ; upset bid, \$12,000.

Lot 22. Bulkhead at Thirty-ninth street, East river, to G. W. Ryerson, for three years and six months, from November 1, 1881, at \$800 per annum ; upset bid, \$800.

Lot 23. Bulkhead at Fortieth street, East river, to Charles H. Todd, for three years and six months, from November 1, 1881, at \$400 per annum ; upset bid, \$400.

Lot 24. Pier at Forty-sixth street, East river, (except reservation on southerly side for dump), to Michael Kane, for three years and six months, from November 1, 1881, at \$100 per annum; upset bid, \$100.

On motion, it was

Resolved, That the sale of said right, at the several lots of wharf property, upon the terms as reported by the Secretary, be and hereby is approved and confirmed, and the officers of the Board be and hereby are authorized and empowered to execute the necessary leases therefor, when prepared and approved as to form by the Counsel to the Corporation.

The Secretary further stated that no bids were made at the said sale for the above named right at the following named lots of corporation wharf property, to wit :

Lot 15. Pier 48, East river; upset bid, \$6,500.

Lot 17. Outer end Pier 55, East river, (to be used and occupied only as a passenger steamboat landing); upset bid, \$800.

Lot 19. Bulkhead at Sixteenth street, East river (except reservation of the rights of steam tugs to have at all times free passage to the hydrant located thereat, for the purpose of taking water only); upset bid, \$200.

Lot 25. Small pier at Fifty-first street, East river; upset bid, \$400.

Lot 28. Bulkhead at north side of ferry premises, foot of Ninety-second street, East river, (no repairs or dredging will be done at these premises by the Department); upset bid, \$200.

Lot 31. Bulkhead at One Hundred and Fourth street, Harlem river; upset bid, \$250.

Lot 34. Platform at One Hundred and Ninth street, Harlem river; upset bid, \$400.

The Secretary stating that the advertisement calling for estimates for building Pier, new 28, North river, to be opened this date, had been withdrawn from publication on the 1st instant, for the purpose of amending the specifications for the work, so as to provide that white pine piles may be used in the construction of the pier,

On motion, it was

Resolved, That the specifications for building Pier, new 28, North river, be and hereby are amended, so as to provide that white pine piles may be used in its construction, and that the time for the completion of the work be extended to April 15, 1882, and that the Secretary be and hereby is directed to re-advertise, in the papers designated by law, for estimates therefor, to be opened on the 16th instant, at 12 o'clock, M.

The following requisitions for material and supplies were considered, and,

On motion, approved, by the affirmative votes of Commissioner Vanderpoel and the President, Commissioner Laimbeer voting in the negative, on each, to wit :

Register No. 3338—For telescopic jacks and turnbuckles, estimated cost.....	\$80 00
“ 3340—For ash oars, estimated cost.....	1 50
“ 3341—For sail for surveyor's boat, estimated cost.....	6 00
“ 3343—For spruce and white oak, “	350 00

Register No. 3344—For brass clocks for pile-drivers, estimated cost.....	\$12 00
“ 3351—For clamp screws and chains, “	25 00
“ 3353—For report blanks and stationery for engineers, estimated cost	85 00

On motion, the Secretary was directed to record that Commissioner Laimbeer voted in the negative on above Register No. 3,341, for the reason that the estimated cost for a sail, as stated, did not include the total expense of supplying the surveyor's boat with sail power, and on above register No. 3,343, for the reason that the quantity of spruce and white oak called for therein would not be the entire quantity required for the work on the West Twenty-third street section of the New Bulkhead wall, and that he favored a larger purchase by contract.

On motion, Lawrence A. Buckley was appointed as a Dockbuilder.

On motion, the Board adjourned.

WM. M. WHITNEY, Secretary pro tem.

At a special meeting of the Board of Docks, held November 14, 1881.

Present—The President and Commissioner Vanderpoel.

Absent—Commissioner Laimbeer.

The Auditing Committee presented an audit of 26 bills or claims, amounting to the sum of \$61,097.36, and, being read, was,

On motion, accepted and adopted, and the Secretary directed to forward the said bills, together with proper requisitions for the amount, to the Finance Department for payment.

On motion, the Board adjourned.

EUGENE T. LYNCH, Secretary.

At a special meeting of the Board of Docks, held November 16, 1881.

Present—The full Board, and Henry J. Storrs, representing the Comptroller of the city.

Three estimates were received and opened for furnishing materials and labor, for building Pier, new 28, North river, as follows:

No. 1. From Joseph Walsh, for \$68,000, with certified check for \$700.

No. 2. From Ross & Sanford, for \$58,228.58, with \$700 in bills.

No. 3. From John Gillies, for \$56,000, with \$700 in bills; and, being read, were,

On motion, laid on the table for examination.

On motion, the Board adjourned.

WM. M. WHITNEY, Secretary pro tem.

At a meeting of the Board of Docks, held November 16, 1881.

Present—The full Board.

The minutes of the meetings held October 26, and November 2 and 14, 1881, were read and approved.

An application was received from Funch, Edye & Co., for permission to lay rail tracks on Pier, new 54, North river, and, being read,

On motion, the communications from the said parties, dated June 16 and 25, and October 23, 1880, relating to leasing the said pier, were taken from the table and placed on file, and the following preamble and resolutions were unanimously adopted, to wit :

Whereas, This Board, as appears by its minutes of the meeting held June 30, 1880, notified Funch, Edye & Co., that their application of June 16, 1880, for a lease of a pier to be erected above Twenty-third street, North river, upon plans adopted for the permanent improvement of the water-front, would take priority of all other applications, that the terms and conditions for the lease would be as set forth in said minutes, and that, whenever the Department was prepared to perfect an agreement, the said applicants would be advised, and

Whereas, The Department has since constructed the then contemplated pier, which is now completed and ready for occupancy, and known as Pier, new 54, North river ; therefore,

Resolved, That a lease of Pier, new 54, North river, be and hereby is granted to Funch, Edye & Co., agents, for a term of ten years from and after January 1, 1882, at an annual rent of \$20,000, payable quarterly in advance, with a covenant for a renewal term of ten years, at an annual rent of \$25,000, payable quarterly in advance ; the said agents to file in this Department a written acceptance of the said lease, subject to the terms, as stated therein.

Resolved, That under the powers vested in this Board by subdivision 6, chapter 574, Laws of 1871, Pier, new 54, North river, be and hereby is appropriated to the sole use of the special kind of commerce carried on in steamships between Europe and this port, and that the Counsel to the Corporation be and hereby is requested to prepare in proper form a lease in triplicate for the said pier to Funch, Edye & Co., agents, for a term of ten years, from January 1, 1882, subject to the terms stipulated under resolution adopted by this Board this date ; and that the officers of this Board be and hereby are authorized and empowered to execute the said lease when prepared and approved as to form by said Counsel to the Corporation.

Resolved, That permission be and hereby is granted to Funch, Edye & Co., agents, lessees of Pier, new 54, North river, to place and maintain thereon, and upon and across the ground recently filled in thereat, but not to extend easterly from the inner end of said pier beyond the westerly line of Thirteenth avenue, where it has a width of 100 feet, rail tracks, for the purpose of facilitating the transportation, to and from said pier, of freight in cars drawn by steam ; said tracks to be laid under the direction and supervision of the Engineer-in Chief of this Department, in such manner as not to interfere with the ordinary use of the pier, to remain thereon only during the pleasure of this Board or its successor, to be removed whenever so ordered by this Department, free of expense to the city ; this Department reserving the right to remove said tracks upon the refusal of the said lessee to com-

ply with such demand, but at the cost and expense of said lessee; said tracks to be accessible to all lines of cars carrying freight connecting therewith, it being hereby expressly understood and provided, that the said tracks shall, on request, be used by any railroad corporation landing freight in New York City, upon precisely equal terms; and the Department expressly reserves the right to order the removal of said tracks for any violation of the above provisions.

A communication was received from the Finance Department, advising that the penalty imposed by this Department upon Joseph Walsh, contractor for repairing and widening Pier 21, East river, is remitted by the Comptroller, and, being read,

On motion, the following preamble and resolution were adopted:

Whereas, By virtue of the power vested in the Finance Department, by section 31, chapter 335, Laws of 1873, the Comptroller has decided to remit the penalty imposed by this Department against Joseph Walsh, for non-completion of work within the time agreed upon under his contract for repairing and widening Pier 21, East river, dated August 5, 1881, and deducted, in the sum of \$1,500, from Audited Claims, Nos. 7063 and 7120, on September 21, and October 26, 1881, respectively; therefore,

Resolved, That a requisition be and hereby is directed to be drawn upon the Comptroller for the sum of \$1,570, being the amount now due said Joseph Walsh, under said audited claims, consequent upon the penalty being remitted, and that the bookkeeper charge the amount to the said contract, so that the accounts of the Department shall exhibit Estimates Nos. 1 and (final) 2, under said contract, as settled and paid in full, in the sums of \$2,998.03 and \$7,401.97, respectively.

An application was received from the American Contracting and Transportation Company for permission to erect a temporary wharf in the vicinity of the foot of One Hundred and Fifty-fifth street, Harlem river, accompanied by the written consent of Wm. Lynch, the alleged owner of the upland thereat, and, being read,

On motion, it was

Resolved, That permission be and hereby is granted to the American Contracting and Transportation Company, to drive piles and erect and maintain during the pleasure of the Board, at or near the foot of One Hundred and Fifty-fifth street, Harlem river, a temporary platform or structure, 90 feet by 45 feet, to connect with the upland by trestle work, to facilitate the filling in of sunken ground between One Hundred and Forty-third and One Hundred and Fifty-fifth streets, Harlem river, westerly of Eighth avenue: provided that the said structure shall not extend easterly of the established exterior pier and bulkhead line: that all the work shall be done under the direction and supervision of the Engineer-in-Chief of this Department, and upon plans to be first approved by that officer, and that the said company shall agree in writing to remove the said structure, when so ordered by this Department, free of cost and expense to the Corporation.

A communication was received from William Cruikshank, agent of the owners of Piers 6 and 7, North river, and John S. Krems, agent of the New York and Baltimore Transportation Line, lessees of the bulkhead between, requesting that the action of the Board in directing the said premises to be dredged be rescinded, and, being read,

On motion, the application of the New York and Baltimore Transportation Line, dated May 23, 1881, for such dredging, was taken from the table and placed on file, and the following resolution adopted, to wit :

Resolved, That the owners of Pier 6, North river, be and hereby are notified, that the dredging ordered by this Board to be done thereat, under date of August 26, 1881, must be proceeded with at once, it being the unanimous opinion of the Commissioners that it is necessary to dredge the premises, and that the work should not be further delayed.

An application was received from Richard Heckscher, Jr., for permission to place and retain two coal hoppers on the westerly half of Pier 53, East river, accompanied by the written consent thereto of the alleged owners of said premises, and, being read,

On motion, it was

Resolved, That Richard Heckscher, Jr., be and hereby is notified, to remove from the water-front without delay, the two coal hoppers now incumbering Pier 53, East river, and that if not so removed, this Department will make the removal, and hold him liable for all expenses therefor, his application to retain the said hoppers being denied.

An application was received from David Whipple, Wharfinger, for permission to retain on the bulkhead between Piers 12 and 13, East river, the small watchman's house now located thereon, and a protest from Frederick W. Fisher against such retention, and a communication from the police captain of the precinct, recommending the removal of said house, being also received, and, being read,

On motion, it was

Resolved, That David Whipple be and hereby is notified to remove from the water-front, within ten days from this date, the small house on wheels now incumbering the bulkhead between Piers 12 and 13, East river, and that if not so removed, this Department will make the removal and hold him liable for all expense incurred therefor, the police captain for the precinct having recommended that the structure be removed.

The following communications were received, read, and,

On motion, laid on the table to await action, as stated, to wit :

From New York, Lake Erie & Western R. R. Co.—Application to have reclaimed land between Piers, new 20 and new 21, North river, planked over.

From P. White's Sons—Reporting the bad condition of pier at Thirty-eighth street, North river. The Secretary stating that, by direction of the President on the 10th instant, the Engineer-in-Chief had been directed to examine and report the repairs necessary and cost of doing the work, such action was approved.

From New York City and Northern Railroad Co., lessee—Application for permission to erect a shed on bulkhead westerly of Pier 44, East river, accompanied by a plan therefor. Mr. William Allen Butler, Jr., of Butler, Stillman & Hubbard, was heard on behalf of the company and further hearing postponed for one week.

The following communications relating to condition of certain wharf-property were received, read, and,

On motion, laid on the table, and the Engineer-in-Chief directed to examine the several remedies named therein, and report the repairs necessary, and the estimated cost of doing the work in each case, respectively, to wit :

From Department of Public Charities and Correction—Upper coal dock at Blackwell's Island.

From Atlas Steamship Company—Approach to Pier, new 1, North river.

From James McClenahan, lessee—Pier at Fortieth street, North river.

The following communications were received, read, and,

On motion, placed on file, action being taken where necessary, as stated, to wit :

From R. J. Cortis, agent—Application to occupy Pier, new 43, North river, from 27th instant to 22d proximo. The Secretary stating that, by direction of the President on the 10th instant, the applicant had been informed that the said pier, and Pier, new 37, North river, could be occupied at regular rates of wharfage, provided the Harbor-master for the district furnished berths thereat, such action was approved.

From Maritime Association of the Port of New York—Requesting that no permit be granted to shed Pier 38, East river. The Secretary directed to reply that the several suggestions contained therein will receive due and proper consideration before final action is had in the premises by the Board.

From his Honor Mayor Grace—Relative to employes of the Department being assessed for political purposes. The Secretary directed to reply, that the Board, and the Commissioners in their individual capacity, most fully and heartily concur in the views and sentiments expressed in said communication, and that the members of the Board are opposed to any such assessment upon employes, and are not aware that any has been laid upon any person employed in this Department.

From Quebec Steamship Company, lessees—Application for repairs to roadway to Pier, new 47, North river. The Secretary stating that, by direction of the President on the 5th instant, the said company had been informed that the repairs should be proceeded with as soon as practicable, such action was approved.

From Department of Street Cleaning—Application to use the dumping board at Twenty-first street, North river, on 3d instant. The Secretary stating that, by direction of Commissioner Van-erpoeel on 3d instant, that Department had been informed that, if the contractor, then in possession of said premises, had no objection to their being so used, this Department would not object ; such action was approved.

From Dunbar Box and Lumber Company—Reporting that coal boats obstruct the use of Pier at Twenty-eighth street, North river. The Secretary directed, in reply, to refer said company to the Harbor-master for the District for relief.

From Gaskell, Greenlie & Co.—Claim amounting to \$1,604.20 for iron material, etc., furnished to Holmes Brothers under contracts with the Department.

From Wm. Coverly, lessee—Application by Henderson Brothers for an allowance of rent for Pier 46, East river, while being repaired. The Secretary directed to reply that, in the judgment

of the Commissioners, the Board has no power to allow any deduction from the rent payable under the lease of said pier, consequent upon any loss of wharfage sustained while the premises were being repaired, nor would the Board be warranted in considering such a claim, in view of the terms and conditions of the sale under which the lease was purchased.

From Union Ferry Company.—Application for raising the grade of pavement at Fulton Ferry premises to correspond with that of Pier 21, East river. The Secretary directed to refer the said company to the Department of Public Works, the necessary grading of the street in the vicinity named not being within the jurisdiction of this Department.

From G. W. Ryerson, lessee—Reporting that bulkhead at Thirty-ninth street, East river, is piled full of lumber. The Corporation Wharfinger for the district to be directed to cause the lumber to be removed forthwith and the premises kept clear for use thereafter.

From Cunard Steamship Co., lessees—Application to have roadway to Pier, new 40, North river, constructed.

The Engineer-in-Chief directed to do the work, and the Secretary directed to request the agents of the said company to call at the Department on 21st instant, in reference to the removal of the shed at north side of said pier.

From Engineer-in-Chief, the following :

- 1st. Report of work performed for week ending November 5, 1881.
- 2d. Report of work performed for week ending November 12, 1881.
- 3d. Statement relating to times for delivery of timber under requisitions, Register Nos. 3335 and 3369, required to complete the bulkhead wall for the Twenty-third street, North river, section.

A report was received from the Engineer-in-Chief, relative to the necessity of dredging at the dumping board on Pier at Twenty-second street, East river, and, being read,

On motion, the application of the Department of Street Cleaning, dated 25th ultimo, for such dredging, was taken from the table and placed on file, and the Secretary directed to inform said Department that there already exists sufficient depth of water for its scows, except at the inner end of the slip, where it cannot be dredged, there not being room to do the work.

A report was received from the Engineer-in-Chief relative to the application of the Mutual Telegraph Co., dated October 31, for permission to drive piles at Seventy-fifth street, North river, and, being read,

On motion, the subject was referred to Commissioner Laimbeer, for investigation and report.

A communication was received from William McCarthy, Chainman, on the surveying force, reporting his inability to work, consequent upon sickness, and, being read,

On motion, the question of allowing wages to said Chainman, was referred to the President with power.

The President here presented the resignation, dated 15th instant, of Eugene T. Lynch, Secretary to the Board, made necessary, consequent upon his election to the Presidency of a large corporation in this city, and, being read,

On motion of Commissioner Vanderpoel, the following preamble and resolution were unanimously adopted, to wit :

In accepting the resignation of the Secretary, the Board desires to enter upon its record this minute, to testify to the high esteem in which he is held by its members, and to express their high appreciation of his ability as an officer of the Department, and of his sterling character and genial disposition, so uniformly shown during his eleven years of office; therefore,

Resolved, That this Board hereby accepts with great regret the resignation of Mr. Eugene T. Lynch, as its Secretary, and extends to him the best wishes of its members for his future welfare and prosperity, and trust that his untiring energy, with his large business experience, will secure for his new undertaking a long-continued success.

Commissioner Laimbeer offered the following resolution, which was seconded by Commissioner Vanderpoel, to wit :

Resolved, That John T. Cuming be and hereby is appointed Secretary to fill the vacancy caused by the resignation of Eugene T. Lynch.

The President stated that he was unacquainted with the nominee, and unadvised as to his special qualifications and fitness for so important an office, and that having failed, upon inquiry of his colleagues, to obtain any evidence justifying so prompt an indorsement by the Board for so responsible a position, he moved the nomination be laid upon the table for the purpose of affording an opportunity to the members of the Board to ascertain whether or not the nominee is a proper person to fill the office of Secretary.

The ayes and noes being called on the motion of the President to lay on the table, it was not adopted, by the following vote :

Aye—The President.

Noes—Commissioners Vanderpoel and Laimbeer.

The ayes and noes were then called upon the resolution offered by Commissioner Laimbeer, which was adopted by the following vote, to wit :

Ayes—Commissioners Vanderpoel and Laimbeer.

No—The President.

On motion, the Board took a recess until the 17th instant, at 11 o'clock, A. M.

On convening after recess,

Present—The full Board.

A communication was received from the Engineer-in-Chief relative to the non-completion of the work under contract with John Gillies, for building pier and dumping board at Nineteenth street, North river, within the time stipulated therefor, and, being read,

On motion of the President, it was

Resolved, That this Board hereby certify to the Comptroller, that the failure of John to complete the work specified in the final estimate, No. 3, within the time stipulated under his contract for building pier and dumping board at West Nineteenth street, North river, dated August 6, 1881, has not caused the Corporation to sustain any loss beyond the amount of wharfage which might have accrued from vessels berthed thereat by the Harbor for the district, and that the work under said contract was virtually completed, and the pier was put for use on October 24, 1881, being nine days after the date of the expiration of the contract.

A report was received from the Engineer-in-Chief as to the unsafe condition of Pier at Thirteenth street, North river, and, being read,

On motion, the communication from J. J. Astor, dated 18th ultimo, relative to repair of said pier, was taken from the table and placed on file, and the following resolution adopted, to wit:

Resolved, That J. J. Astor, alleged owner of the southerly half of Pier at Thirteenth street, North river, be and hereby is notified, that the said pier is in an unsafe and useless condition, and requires to be rebuilt without delay, and he is hereby requested to file in this office an agreement to enter into contract jointly with the Corporation, owner of the northerly half of said pier, to rebuild the structure upon plans and specifications to be prepared by the Engineer-in-Chief of this Department, which shall provide that the said pier shall not extend westerly of the established pier line.

The following communications were received, read, and,

On motion, placed on file, action, where necessary, being taken, as stated respectively.

From Union Dredging Company—Advising that \$540 had been deducted by the Department from estimate No. 5, as audited by this Department under dredging agreement dated May 9, 1881. Secretary directed to reply that the Comptroller has not applied to this Department for any explanation respecting said estimate nor for any information regarding the same.

From Department of Public Works—Granting permission to tap the water-main at Fifth street, North river. Engineer-in-Chief to be directed to make necessary requisition for labor and material to furnish water at that point for the work of this Department.

From Mutual Benefit Ice Company—Transmitting copy of summons and complaint filed by Philip Franklin, administrator, vs. said company, for damage sustained at Pier at One and Twenty-ninth street, North river, leased by said company. Secretary directed to refer same to Counsel to the Corporation to take such action in the premises, as may be required to protect the interests of the Corporation.

From John H. Strahan, attorney—Requesting to be informed of the grounds of the premises held by the Department, that certain property between Sixtieth and Sixty-first streets, East river, belongs to the Corporation. Secretary directed to reply that it does not appear of record that the Corporation has ever parted with its title to said premises.

From the Engineer-in-Chief, the following :

1st. Reporting damage to shed on Pier, new 37, North river, on 9th instant, by steamer "Plantyn," and that the repairs were to be made by the agents. The Treasurer requested to present to said agents a bill for the expense incurred by Department in making shed safe before commencement of said repairs.

2d. Reporting damage to fenders at Boat Landing at Battery.—The Engineer-in-Chief to be directed to make the necessary repairs at a cost of about \$12.

3d. Reporting unsafe condition of Pier at One Hundred and Fifty-second street, North river. The Secretary directed to notify William D. Brown, lessee, to make the necessary repairs within 10 days, otherwise the Department will proceed to do the work at his cost and expense.

4th. Reporting accumulation of dirt on Pier, old 54, North river. The Secretary directed to request the Department of Street Cleaning to clean the premises without delay.

5th. Reporting that a portion of the bulkhead extension to Pier 60, East river, is moving out of the river. The Engineer-in-Chief to be directed to make the necessary repairs thereto, at an expense not exceeding about \$500.

6th. Reporting the time that Holmes Brothers had used the Department diving apparatus, as permitted by Commissioners on 30th September, 1881. The Treasurer requested to present a proper claim to said Holmes Brothers for such use of Department property.

A report was received from the Engineer-in-Chief, stating that Aaron W. Webb, James Gard and Walter O'Brien, dockbuilders, had been laid off from work, they not being up to the requirements of the Department, and, being read,

On motion, the action was approved and the said dockbuilders discharged.

A communication was received from the Engineer-in-Chief, advising that William Newman, night watchman on Pile-driver No. 11, had been suspended for being found asleep on the 9th instant, and, being read,

On motion, the action was approved and the said watchman discharged.

A report was received from the Engineer-in-Chief, stating that the repairs directed to be done on the westerly half of Pier 2, East river, had not been commenced by the lessees thereof, and, being read,

On motion, the communication of Corporation Wharfinger McConkey, relating to said repairs, was taken from the table and placed on file, and the Secretary directed to notify the Union Ferry Company, lessees of said premises, that unless the necessary repairs thereto are commenced within 10 days after receipt of notice, the Department will do the work at the cost and expense of said company.

A report was received from the Engineer-in-Chief, stating that the derrick erected on Pier at Forty-eighth street, North river, will damage the pier, as placed, and, being read,

On motion, the application of the New York Central and Hudson River Railroad Co., dated 13th September, 1881, for permission to erect said derrick, was taken from the table and placed on

On motion of the President, it was

Resolved, That this Board hereby certify to the Comptroller, that the failure of John Gillies, to complete the work specified in the final estimate, No. 3, within the time stipulated therefor under his contract for building pier and dumping board at West Nineteenth street, North river, dated August 6, 1881, has not caused the Corporation to sustain any loss beyond the amount of wharfage which might have accrued from vessels berthed thereat by the Harbor-master for the district, and that the work under said contract was virtually completed, and the pier ready for use on October 24, 1881, being nine days after the date of the expiration of the contract.

A report was received from the Engineer-in-Chief as to the unsafe condition of pier at Thirteenth street, North river, and, being read,

On motion, the communication from J. J. Astor, dated 18th ultimo, relative to repairing said pier, was taken from the table and placed on file, and the following resolution adopted, to wit:

Resolved, That J. J. Astor, alleged owner of the southerly half of Pier at Thirteenth street, North river, be and hereby is notified, that the said pier is in an unsafe and useless condition and requires to be rebuilt without delay, and he is hereby requested to file in this office a written agreement to enter into contract jointly with the Corporation, owner of the northerly half of said pier, to rebuild the structure upon plans and specifications to be prepared by the Engineer-in-Chief of this Department, which shall provide that the said pier shall not extend westerly of the established pier line.

The following communications were received, read, and,

On motion, placed on file, action, where necessary, being taken, as stated respectively, to wit:

From Union Dredging Company—Advising that \$540 had been deducted by the Finance Department from estimate No. 5, as audited by this Department under dredging agreement, dated May 9, 1881. Secretary directed to reply that the Comptroller has not applied to this Department for any explanation respecting said estimate nor for any information regarding the auditing thereof.

From Department of Public Works—Granting permission to tap the water-main at Twenty-fifth street, North river. Engineer-in-Chief to be directed to make necessary requisition for labor and material to furnish water at that point for the work of this Department.

From Mutual Benefit Ice Company—Transmitting copy of summons and complaint in matter of Philip Franklin, administrator, vs. said company, for damage sustained at Pier at One Hundred and Twenty-ninth street, North river, leased by said company. Secretary directed to request the Counsel to the Corporation to take such action in the premises, as may be required to protect the interests of the Corporation.

From John H. Strahan, attorney—Requesting to be informed of the grounds of the opinion held by the Department, that certain property between Sixtieth and Sixty-first streets, East river, belongs to the Corporation. Secretary directed to reply that it does not appear of record that the Corporation has ever parted with its title to said premises.

From the Engineer-in-Chief, the following :

1st. Reporting damage to shed on Pier, new 37, North river, on 9th instant, by steamer antyn," and that the repairs were to be made by the agents. The Treasurer requested to present to said agents a bill for the expense incurred by Department in making shed safe before commencement of said repairs.

2d. Reporting damage to fenders at Boat Landing at Battery.—The Engineer-in-Chief to be directed to make the necessary repairs at a cost of about \$12.

3d. Reporting unsafe condition of Pier at One Hundred and Fifty-second street, North river. Secretary directed to notify William D. Brown, lessee, to make the necessary repairs within days, otherwise the Department will proceed to do the work at his cost and expense.

4th. Reporting accumulation of dirt on Pier, old 54, North river. The Secretary directed to direct the Department of Street Cleaning to clean the premises without delay.

5th. Reporting that a portion of the bulkhead extension to Pier 60, East river, is moving out to the river. The Engineer-in-Chief to be directed to make the necessary repairs thereto, at an expense not exceeding about \$500.

6th. Reporting the time that Holmes Brothers had used the Department diving apparatus, as permitted by Commissioners on 30th September, 1881. The Treasurer requested to present a proper claim to said Holmes Brothers for such use of Department property.

A report was received from the Engineer-in-Chief, stating that Aaron W. Webb, James Gard and Walter O'Brien, dockbuilders, had been laid off from work, they not being up to the requirements of the Department, and, being read,

On motion, the action was approved and the said dockbuilders discharged.

A communication was received from the Engineer-in-Chief, advising that William Newman, night watchman on Pile-driver No. 11, had been suspended for being found asleep on the 9th instant, and, being read,

On motion, the action was approved and the said watchman discharged.

A report was received from the Engineer-in-Chief, stating that the repairs directed to be done on the westerly half of Pier 2, East river, had not been commenced by the lessees thereof, and, being read,

On motion, the communication of Corporation Wharfinger McConkey, relating to said repairs, was taken from the table and placed on file, and the Secretary directed to notify the Union Ferry Company, lessees of said premises, that unless the necessary repairs thereto are commenced within five days after receipt of notice, the Department will do the work at the cost and expense of said company.

A report was received from the Engineer-in-Chief, stating that the derrick erected on Pier at thirty-eighth street, North river, will damage the pier, as placed, and, being read,

On motion, the application of the New York Central and Hudson River Railroad Co., dated 17th September, 1881, for permission to erect said derrick, was taken from the table and placed on

file, and the Secretary directed to notify said company that the said derrick must either be placed upon the bottom of the river or on the blocks in the pier.

A report was received from the Engineer-in-Chief, stating that no repairs had been made to the Riverside Hospital Dock, Blackwell's Island, owing to the prevalence of small-pox there, and, being read,

On motion, the communications from the Health Department, dated May 16, 1881, and 1st instant, relating to said repairs, were taken from the table and placed on file, and the Engineer-in-Chief directed to prepare proper specifications for having the work done otherwise than by the force of the Department.

A report was received from the Engineer-in-Chief stating that further dredging is not required at Pier 61, East river, and that portions of a crib extend beyond the southerly line of the pier, and, being read,

On motion, the application of Benjamin Wright, lessee, dated September 1, 1881, for such dredging, was taken from the table and placed on file, and the Engineer-in-Chief directed to examine and report the cost of removing the projecting portion of said crib, and if the work can be done without injury to the pier.

A report was received from the Engineer-in-Chief relating to the repairs ordered to be made to the westerly half of Pier 25, East river, being delayed until the coming spring, and, being read,

On motion, the application of the New Haven Steamboat Company, lessee, dated 1st instant, for such delay, was taken from the table and placed on file and the Secretary directed to notify said company that the Board has no objection to delaying the repairs to the said pier till next spring, provided the said company will not permit the pier to become overloaded with freight.

On motion, the application of Simpson & Spence, lessees of Pier, new 56, North river, dated September 1, 1881, for permission to erect a shed thereon, was taken from the table, and placed on file, and the following resolution adopted :

Resolved, That permission be and hereby is granted to Simpson and Spence, agents, lessees of Pier, new 56, North river, to erect and maintain thereon, a shed for the protection of property received and discharged thereat by steam transportation ; the said shed to be constructed subject to the regulations required by chapter 249 Laws of 1875, and in conformity with the plans approved by the Engineer-in-Chief of this Department, and on file in this office, as supplemented by designs of elevation for the street and river fronts for said shed, adopted by this Board this date ; provided, that all the work shall be done under the supervision of that officer, and that the said lessees shall file in this Department within five days after receipt hereof a written agreement, that the said shed shall revert to and become the property of the Corporation of the City of New York, upon the expiration or sooner termination of the lease of said pier, free of all claims of every kind whatsoever.

On motion, the pay-roll of the construction and general repairs force for the half month ending 15th instant and amounting to \$6,066.35, was approved and audited, and the Secretary directed to forward the said pay-roll, together with the proper requisitions for the amount, to the Finance Department for payment.

On motion of Commissioner Laimbeer, the following preamble and resolutions were adopted, wit :

Whereas, No necessity exists for the service of George S. Hunt, Messenger ; therefore,

Resolved, That he be and hereby is discharged from further duty, to take effect from and after 16th instant.

Resolved, That Charles Miller, Jr., be and hereby is appointed a Messenger to this Department, at a compensation of \$50 per month, to take effect from and after this date.

The following named requisitions for materials and supplies were considered, and,

On motion, approved, and the Treasurer requested to issue the necessary orders therefor, to wit :

Register No. 3361.	For manila rope, estimated cost	\$425 00
" 3370.	For residuum oil, estimated cost.....	15 00
" 3371.	For bar iron, estimated cost.....	47 25
" 3372.	For repairing watchman's detector, estimated cost	2 00

On motion, the Board adjourned.

WM. M. WHITNEY, Secretary pro tem.

At a special meeting of the Board of Docks, held November 19, 1881.

Present—The full Board.

A communication was received from the Comptroller, with his approval of the sureties to estimate of John Gillies for building Pier, new 28, North river, and, being read,

On motion, the bids received and publicly opened, 16th instant, for building Pier, new 28, North river, were taken from the table and placed on file, and the following resolution adopted :

Resolved, That the contract for building a new wooden pier at the foot of Laight street, North river, to be known as Pier, new 28, North river, be and hereby is awarded to John Gillies, of 192 West street, Greenpoint, L. I., his bid for doing said work being the lowest under estimate publicly opened 16th instant, and the Comptroller having approved of the sureties to the estimate of said John Gillies, on the 18th instant.

On motion, the Board adjourned.

JOHN T. CUMING, Secretary.

At a special meeting of the Board of Docks, held November 23, 1881.

Present—The President, Commissioner Vanderpoel, and Henry J. Storrs, representing the Comptroller of the City.

Absent—Commissioner Laimbeer.

Two estimates were received for removing certain old structures and for building a crib bulkhead, with appurtenances, at Coenties slip, East river, as follows:

No. 1. From John W. Flaherty & Thomas O'Connell, for \$17,750, with \$200 in bills.

No. 2. From Warren Rosevelt, for \$25,000, with certified check of \$200, and, being read and examined,

On motion of the President, the following resolutions were adopted, to wit:

Resolved, That the estimate blank presented this day by John W. Flaherty and Thomas O'Connell, purporting to be a bid for building a crib bulkhead, etc., at Coenties slip, East river, be and hereby is rejected, as required by law, it being informal, in that the said bidders failed to place their signatures thereto, and neglected to furnish two sureties for the faithful performance of the proposed contract.

Resolved, That the estimate of Warren Rosevelt, presented this day, for building a crib bulkhead, etc., at Coenties slip, East river, be and hereby is declined to be received, the right to make such declination having been reserved by this Department, and the interest of the Corporation in the judgment of this Board, demanding such action, the estimate being so largely in excess of the estimated cost of the work as made by the Engineer-in-Chief of this Department, and the public interest requiring that there should be two or more bids for all work so extensive as that to be performed under the proposed contract.

On motion, the Secretary was directed to have proper advertisements, inviting new bids for building a crib bulkhead, etc., at Coenties slip, East river, inserted in the papers designated by law.

On motion, the Board adjourned.

JOHN T. CUMING, Secretary.

At a meeting of the Board of Docks, held November 23, 1881.

Present—The President and Commissioner Vanderpoel.

Absent—Commissioner Laimbeer.

On motion of Commissioner Vanderpoel, the reading of the minutes of meeting not previously approved was dispensed with.

The following communications were received, read, and,

On motion, placed on file, action being taken where necessary, as stated, to wit :

From Department of Public Works—In reference to obstructions to approaches to Piers, new 4, etc., North river.

From American Society of Mechanical Engineers—Resolutions, thanking this Board for invitation to inspect work of Department.

From Providence and Stonington Steamship Company—Requesting Department to pay bill of \$45.22 for repairs to Pier, old 29, North river. Secretary directed to reply that this Board does not consider itself liable for the claim, either in law or equity.

From Cunard Steamship Company (Limited), lessees—Advising inability to be present on 21st instant, to confer as to shed on Pier 40, North river, as requested by Commissioners.

From Department of Street Cleaning—Asking what rights or privileges it has to Pier, old 42, North river. Secretary directed to inform said Department that it has only the use of that portion of the pier which has been lawfully appropriated for the purpose of a dumping board, as per resolution of June 16, 1880.

From Frank L. Froment & Co.—In reference to dangerous condition of Pier 15, East river. Secretary directed to reply that, consequent upon the reported dangerous condition of said pier, the Department would close it to public use, until the premises are repaired and put in good condition by the owners and lessee.

From Wm. Allen Butler—Requesting one week's extension of time for his hearing on the application for a shed, on bulkhead westerly of Pier 44, East river. Secretary directed to reply that his request is granted.

From John Gillies—Accepting the award of contract for building Pier, new 28, North river.

From Engineer-in-Chief :

1st. Reporting that John Gillies, contractor, has not yet completed the repairs to Pier 38, East river.

2d. Report of work done during week ending November 19, 1881.

3d. Reporting that John Gillies, contractor, has completed his contract for repairs to Pier 38, East river.

4th. Reporting the suspension of Timothy Ring, night watchman, for neglect of duty. Action of Engineer-in-Chief approved.

5th. Reporting the suspension of John Tietgen, Sr., night watchman, for neglect of duty. Action of Engineer-in-Chief approved, but the said watchman to be reinstated from this date.

6th. Reporting the suspension of Daniel Doran, night watchman, for seven days, for neglect of duty. Action of Engineer-in-Chief approved.

From John Butler, Corporation Wharfinger—Reporting the dangerous condition of pier at Third street, East river. The Engineer-in-Chief to be directed to close from use by the public until repaired.

The following communications were received, read, and,

On motion, laid on the table, to await action, as stated, respectively, to wit :

From Bristol City Line of Steamers—Claiming cost of two blooms lost through the deck of Pier, new 37, North river. Referred to Engineer-in-Chief and the Corporation Wharfinger for investigation and report.

From Thomas Thedford—Complaining that Pier at Twenty-eighth street, North river, is incumbered with lumber. Corporation Wharfinger for the District to be directed to examine and report thereon.

From Joseph McDonald—In reference to obstructions on Pier at Twenty-eighth street, North river. Corporation Wharfinger for the District to be directed to examine and report thereon.

From Thomas Clyde, lessee—Offering to repair easterly half of Pier 33, and westerly half of Pier 34 and intervening bulkhead, East river, for \$950. The Treasurer requested to obtain estimates for the work, based upon necessary requisition and specifications to be furnished by the Engineer-in-Chief.

From Captain of the Port—In reference to dredging the slips between Piers 10 and 11, East river, so as to allow vessels of deep draft to berth therein. The Engineer-in-Chief directed to have soundings taken, and estimate made of the dredging necessary to be done.

From James Cruikshank—In reference to obstructions on Piers 2, 3 and 4, East river. Corporation Wharfinger for the District to enforce the rules of the Department relating to obstructions.

From John F. Doyle, on behalf of owners of westerly half of Pier 15, East river. In reference to rebuilding Pier 15, East river. The Secretary directed to notify Superintendent Wright, of the Union Ferry Company, to call upon the Commissioners in relation to rebuilding the pier.

From Peter H. Morris—Application to lease for a term of years the water-front west of the Hudson River Railroad Company, between One Hundred and Twenty-ninth and One Hundred and Thirtieth streets, North river.

From Engineer-in-Chief—In reference to the ferry racks at Twenty-third street, North river.

An application was received from the Greenpoint Ferry Company, lessee, for permission to repair bulkhead between Twenty-third and Twenty-fourth streets, East river, and, being read,

On motion, it was

Resolved, That permission be and hereby is granted for the period of thirty days from date, to the Greenpoint Ferry Company, to drive piles and make the necessary repairs to the bulkhead between

Twenty-third and Twenty-fourth streets, East river, leased by said company; provided that all the work shall be done within the existing lines of said bulkhead, and under the supervision of the Engineer-in Chief of this Department.

A communication was received from the Engineer-in-Chief, reporting that the dredging on the site of Pier, new 28, North river, had been completed, prior to the date of the contract for building said pier, and, being read,

On motion, it was

Resolved, That John Gillies, contractor for building Pier, new 28, North river, be and hereby is notified in conformity with paragraph 65 of his contract, that the dredging for the site of the outer portion thereof was completed prior to the date of said contract, and that the work of construction must proceed without delay, and further that the date of expiration of said contract will be April 15, 1882, as stated therein.

A communication was received from the Engineer-in-Chief, reporting the unsafe condition of Pier 59, East river, and, being read,

On motion, it was

Resolved, That William D. Andrews and George H. Andrews, alleged owners of the southerly half of Pier 59, East river, be and hereby are notified that the said pier is in an unsafe and dangerous condition, and that it is the intention of this Board to close it to public use and to repair the same, and they are hereby requested to file in this office, within five days, a written agreement to enter into contract jointly with the Corporation, owner of the southerly half of said pier, to repair the structure within its existing lines, under specifications to be prepared by the Engineer-in-Chief of this Department, and to pay one-half the cost thereof.

A report was received from the Engineer-in-Chief as to condition of approach to Pier, new 1, North river, and, being read,

On motion, the communication of the Atlas Steamship Company, dated 5th instant, was taken from the table and placed on file, and the Engineer-in-Chief directed to make the repairs with 3-inch plank, at a cost not exceeding about \$127, in conformity with the said report.

A report was received from the Engineer-in-Chief, on condition of sewer outlet at Pier, old 40, North river, and, being read,

On motion, the communication of the Norwich and New York Transportation Company, in reference thereto, was taken from the table and placed on file therewith.

A report was received from John Butler, Corporation Wharfinger, stating that no obstruction exists on bulkhead at Fourteenth street, East river, and, being read,

On motion, the communication from Daniel Dailey, lessee, relating thereto, was taken from the table and placed on file, and the Secretary directed to inform said lessee, that on examination of said bulkhead, no obstruction is found to exist thereon.

The Auditing Committee presented an audit of 26 bills or claims, amounting to the sum of \$46,301.27, and, being read, was,

On motion, accepted and adopted, and the Secretary directed to forward the said bills, together with proper requisitions for the amount, to the Finance Department for payment.

The Treasurer, to whom was referred the application of the People's Line of Steamboats, for permission to berth one of their steamers on southerly side of Pier at Thirtieth street, North river, reported orally, recommending that the permission be granted for a period not exceeding four months, provided the said line shall pay wharfage at the rate of \$8 per day, for such occupancy.

On motion, the recommendation of the Treasurer was approved and adopted.

A report was received from the Engineer-in-Chief, stating that the required force of dock-builders had been secured, who were willing to work near the Riverside Hospital, Blackwell's Island, and, being read,

On motion, the action of the Board on 17th instant, directing the Engineer-in-Chief to prepare proper specifications for repairing the dock at said hospital, otherwise than by the force of the Department was rescinded and annulled.

On motion, the Secretary was directed to issue the necessary orders to the Engineer-in-Chief to examine and report upon the condition of all wharf property referred to in the weekly reports of the Corporation Wharfingers, as being in need of repairs, not heretofore reported upon, together with an estimate of the cost of doing the work respectively.

The following named requisitions for materials and supplies were considered, and,

On motion, approved, and the Treasurer requested to issue the necessary orders therefor, to wit:

Register No. 3314, for rubber knee boots, estimated cost.....	\$36 00
“ 3383, for paper for blue process copying, estimated cost.....	10 00
“ 3384, for repairing surveying instruments, estimated cost... ..	10 00

On motion, the Board adjourned.

JOHN T. CUMING, Secretary.

At a meeting of the Board of Docks, held November 30, 1881.

Present—The full Board.

The minutes of the meetings held November 16, 17, 19, and 23, were read and approved.

The following communications were received, read, and,

On motion, placed on file, action being taken, as stated, to wit :

From G. W. Ryerson, lessee—Advising that the bulkhead at Thirty-ninth street, East river, is incumbered with lumber. Secretary directed to reply that the Department has caused the lumber to be removed.

From Arrow Line Steamers, lessees—Agreeing that shed on Pier, new 56, North river, shall revert to the Corporation on the termination of lease.

From C. H. Delamater & Co.—In reference to reducing the length of Pier at Thirteenth street, North river.

From New York Central and Hudson River Railroad Company—In reference to derrick on pier at Thirty-eighth street, East river.

From Funch, Edye & Co., lessees—Acceptance of terms for lease of Pier, new 54, North river.

From Assembly Sub-Committee on Investigation—Advising date on which the said Committee will convene to complete investigation. Secretary directed to reply that every facility will be extended to the said Committee in the discharge of their duties.

From Wilson & Adams—Advising that the Pier at Thirty-ninth street, East river, is clear of lumber. Secretary directed to notify lessees that the incumbrance complained of is removed.

From D. Whipple—Application for permission to retain small shelter house on Pier 11, East river. The Corporation Wharfinger to be directed to extend the time already given for its removal, for six days.

From Department of Public Works—Requesting that cleats be put on the bulkhead at Seventeenth street, East river. The Engineer-in-Chief to be directed to do the work.

From Engineer-in-Chief :

1st. Reporting the upsetting of the scow "Willie," on the 15th instant, and the suspension of Timothy Ring.

2d. Report of repairs made to bulkhead at Pier 27, North river.

3d. Report that repairs were made to Pier at Ward's Island, opposite One Hundred and Tenth street, East river, by the Commissioners of Emigration.

4th. Report of dredging done at Pier at Thirty-eighth street, North river.

5th. Reporting cost of repairs to Pier at Fifth street, East river, to be \$127.97. Treasurer requested to present claim therefor to the lessee of the pier.

6th. Reporting the bad condition of Pier at Forty-sixth street, North river. The Engineer-in-Chief to be directed to make necessary repairs, to place the pier in safe condition for public use.

7th. Advising that the Union Ferry Company had driven piles between the ferry rack and the easterly side of Pier 21, East river. The Engineer-in-Chief to be directed to examine and report.

8th. Reporting condition of Pier at Fifty-first street, East river. The Engineer-in-Chief to be directed to make necessary repairs thereto.

9th. Reporting that the Union Ferry Company had not commenced the repairs to Pier 15, East river, ordered to be made on 2d instant. Secretary directed to notify the said company, lessees of the easterly half, and the alleged owners of the westerly half of said pier, to make the repairs within ten days.

10th. Reporting that no repairs had been made to the bulkhead between Twentieth and Twenty-first streets, North river, by Ogden & Co., under permit of July 13, 1881. Engineer-in-Chief to be directed to examine and report whether or not the title to the premises is vested in the Corporation.

11th. Reporting repairs required to Upper Coal Dock at Blackwell's Island, East river. The Engineer-in-Chief to be directed to make the repairs at a cost of about \$250.

12th. Reporting condition of Pier 23, East river. Secretary directed to notify the owners of the easterly half and lessees of the westerly half of said pier, to make the necessary repairs thereto.

13th. Reporting bad condition of plank roadway to Pier, new 26, North river. The Engineer-in-Chief to be directed to make the necessary repairs thereto.

An application was received from Van Vleck & Co., for permission to retain on Pier 11, East river, a small house, required by their clerks for the proper transaction of their business, and, being read, was,

On motion, referred to Commissioner Laimbeer, who immediately reported that all such obstructions on piers should be removed, and recommended that the application be denied.

On motion, the report was received and the recommendation therein contained approved and adopted.

A communication was received from William A. Butler, Jr., attorney for New York City and Northern Railroad Company, asking consent to withdraw the application of that company for permission to erect a shed on the bulkhead westerly of Pier 44, East river, and, being read,

On motion, the request was granted. Commissioner Laimbeer requesting that his vote be recorded in the negative.

The Engineer-in-Chief submitted draft of specifications and contract for rebuilding Pier at Seventy-ninth street, East river; for repairing Homeopathic Hospital Pier at Ward's Island; for building an extension to the Hospital Pier, and repairing the Branch Workhouse Pier, at Hart's Island; the work being divided into four classes, and estimates to be invited on each class respectively, and, being read,

On motion, it was

Resolved, That the said form of specifications and contract, as prepared by the Engineer-in-Chief, be and hereby is approved and adopted, subject to the approval of the Counsel to the Corpor-

tion, as to form, and that the Secretary be and hereby is directed to have a sufficient number of blank forms of proposals printed, and proper advertisements, inviting bids for doing said work, inserted in the papers designated by law.

The following communication was received, read, and,

On motion, laid on the table to await further consideration, to wit :

From George V. Hecker & Co.—Application for permission to lay an eight-inch iron water-pipe on Pier 43, East river.

The application of the Maine Steamship Company to erect shed on Pier 38, East river, was

On motion, taken from the table and placed on file, and the following preamble and resolution unanimously adopted :

Whereas, A shed was erected on Pier 38, East river, in 1865, by permission of the proper authority then having control of the water-front of the city, which shed was maintained thereon continuously up to and including the year 1875, and until recently removed to enable the pier to be repaired ; therefore

Resolved, That permission be and hereby is granted to the Maine Steamship Company, lessees of Pier 38, East river, to reconstruct and maintain thereon a shed (to replace the one recently removed by direction of this Department in order to repair the pier), for the protection of property received and discharged thereat by steam transportation, the said shed to be constructed subject to the regulations required by chapter 249, Laws of 1875, and in conformity with the plans approved by the Engineer-in-Chief of this Department, and on file in this office ; provided that all the work shall be done under the supervision of that officer, and that the said lessees shall file in this Department, within five days after receipt hereof, a written agreement, that the said shed shall revert to and become the property of the Corporation of the City of New York, upon the expiration or sooner termination of the lease of said pier, free of all claims of every kind whatsoever.

The application of the New York, Lake Erie and Western Railroad Company, for permission to erect a shed on bulkhead between Piers, new 20 and new 21, North river, was,

On motion, taken from the table and placed on file, and the following resolution unanimously adopted :

Resolved, That permission be and hereby is granted to the New York, Lake Erie and Western Railroad Company, lessees of the bulkhead between Piers, new 20 and 21, North river, to erect and temporarily maintain, at the pleasure of the Board, said permission however not to extend beyond June 1, 1882, a shed for the protection of property received and discharged thereat by steam transportation ; the said shed to be constructed subject to the regulations required by chapter 249, Laws of 1875, and in conformity with the plans submitted to this Department by the New York, Lake Erie and Western Railroad Company, marked Plan No. 2, and on file in this office ; provided that all the work shall be done under the supervision of the Engineer-in-Chief, and that the said lessees shall file in this Department, within five days after the receipt hereof, a written agreement, that the said shed shall revert to and become the property of the Corporation of the City of New York, upon the expiration or sooner termination of this license or permit, free of all claims of every kind whatsoever.

On motion of the President, the following resolution was unanimously adopted :

Resolved, That the Engineer-in-Chief be and he hereby is directed to prepare and submit to the Board in suitable form, for the reception of estimates and proposals thereon, the necessary plans and specifications for the grading and paving with granite blocks, from a point commencing at or near the foot of Canal street to a point at or near the foot of West Tenth street, the new made ground between the present line of pavement on the westerly side of West street, and the bulkhead facing the North river; also, in like manner, to prepare and submit plans and specifications for paving the new made ground in front of and adjoining Pier, new 1, North river.

On motion of Commissioner Vanderpoel, the following resolution was unanimously adopted.

Resolved, That the preamble and resolution adopted by this Board on the 17th instant, whereby George S. Hunt, a Messenger in the Department is to be discharged from and after this date, be and hereby is rescinded and annulled, and that he be assigned as Messenger to the Secretary and Chief Clerk.

Commissioner Vanderpoel offered the following resolution :

Resolved, that the compensation of the Secretary of this Board be and hereby is fixed at \$3,000 per annum.

The President having moved to amend by inserting \$2,500 instead of \$3,000,

The amendment was not adopted by the following vote, to wit :

Aye—The President.

Noes—Commissioners Vanderpoel and Laimbeer.

The resolution as offered by Commissioner Vanderpoel was then adopted by the following vote, to wit:

Ayes—Commissioners Vanderpoel and Laimbeer.

No—The President.

On motion, the five pay-rolls for the current month, amounting in the aggregate to the sum of \$5,662.12, were approved and audited, and the Secretary directed to forward the said pay-rolls, together with proper requisitions for the amount, to the Finance Department for payment.

Captain Wright, the Superintendent of the Union Ferry Company, appeared and was heard relative to repairing the easterly half of Pier 15, East river, and being informed that the Board would require the premises to be placed in good condition, he requested that further consideration of the subject be postponed until the 5th proximo, at 12 o'clock, M., to afford an opportunity to the company to consult as to the terms of the lease made by the city in May last.

On motion, the plans for the front and river elevations of the shed to be erected on Pier, new 54, North river, leased by Funch, Edye & Co., presented by their architect, were referred to the Engineer-in-Chief for examination and report.

On motion of Commissioner Laimbeer, it was

Resolved, That when this meeting adjourns, it shall adjourn to meet on the 1st proximo, at 11 o'clock, A. M.

On motion, the Board adjourned.

JOHN T. CUMING, Secretary.

At an adjourned meeting of the Board of Docks, held December 1, 1881.

Present—The full Board.

The following communications were received, read, and,

On motion, placed on file, action being taken, as stated, to wit :

From Pacific Mail Steamship Company, lessees—Application to have one-half of dredging required at southerly side of Pier, new 34, North river, done at expense of the Corporation. Secretary directed to inform said company that the terms of the lease require the work to be done at the cost and expense of the company.

From Inman Steamship Company, lessees—In reference to lease of Pier, new 36, North river. Secretary directed to advise said company that as soon as lease is prepared for execution, notice will be given to the company.

From Phelps Bros., lessees—Application for permission to make necessary repairs to Pier 40, East river. Granted.

From Engineer-in-Chief—

1st. Reporting that repairs were completed on the bulkhead at West Tenth street, North river.

2d. Reporting completion of repairs to various piers on East river.

3d. Reporting completion of repairs to various bulkheads on East river.

4th. Reporting completion of repairs to bulkhead at Bethune street, North river.

5th. Reporting completion of repairs to Pier, new 37, North river.

6th. Reporting condition of bulkhead at Thirty-second street, East river.

7th. Reporting completion of repairs to Pier at Twenty-eighth street, East river.

8th. Reporting that Pier at Thirteenth street, North river, has been closed to public use.

9th. Reporting completion of repairs to docks on Ward's, Randall's and Blackwell's Islands, East river.

10th. Reporting completion of additional repairs to Pier 61, East river, at a cost of \$200.74.

11th. Reporting completion of repairs to roadway to Pier, new 44, North river, at a cost of \$132.92.

12th. Report of work done during week ending November 26, 1881.

13th. Report in reference to ferry rack on premises east side of Pier 55, East river. Secretary directed to notify the New York Ferry Co. to remove within ten days the said rack, so as not to bear against or strike the pier.

14th. Reporting completion of repairs to Riverside Hospital dock, Blackwell's Island.

15th. Reporting completion of repairs to various piers on North river.

16th. Reporting the suspension of John Reordan, night watchman, for being found asleep on night of November 29, 1881. Action approved and said watchman discharged.

From Corporation Wharfinger, Wm. L. McConkey, the following reports :

1st. In reference to coal hoppers on Piers, 53 and 54, East river.

2d. In reference to incumbrances on Piers, 2, 3 and 4, East river. The Corporation Wharfinger to be directed to notify Twombly & Co., that their explanation to the Board is not satisfactory and that the incumbrances must be removed.

From Corporation Wharfinger, James Fitzpatrick—Report on complaint as to incumbrances on Pier at Twenty-eighth street, North river.

From Corporation Wharfinger, John M. Smith—Report on claim of Bristol City Line of Steamers, for value of property lost on Pier, new 37, North river. Secretary directed to advise the agents of the line that investigation of the circumstances shows that the Department is not liable for the loss of said property, it having been placed on a portion of the pier, in direct violation of the directions given by the watchman, who notified the stevedore in charge of the steamer not to place any of the cargo on such portion.

From Corporation Wharfinger, John Butler—

1st. Report on lumber incumbering bulkhead at Thirty-ninth street, East river.

2d. Reporting ownership of bulkhead north side and at foot of Fourth street, East river.

The following communications were received, read, and,

On motion, laid on the table to await action, as stated, to wit :

From William D. Brown, lessee—Application to assign right to collect wharfage at Pier at One Hundred and Fifty-second street, North river. Referred to President with power.

From Engineer-in-Chief—Reporting condition of Pier 15, East river, and estimate of cost of repairs needed.

From New York, Ontario, and Western Railroad Company—Application to lease Piers, new 31 and new 32, with bulkhead between, North river, when constructed by Department.

The President stating that he had considered the application of Benner and Zeller for permission to erect a dumping-board between Seventeenth and Eighteenth streets, East river, and was not in favor of granting the permission ;

On motion, the said application was taken from the table and placed on file, and the permission asked for denied.

The following requisition—Register No. 3396, for broken stone, estimated cost, \$405, was considered, and,

On motion, approved, and the Treasurer requested to issue the necessary order therefor.

Mr. George H. Andrews appeared and was heard respecting the subject of repairing Pier 59, East river, and on the subject of his claim to one-half of said pier ; he stating that the Law Department had given an opinion to the effect that one-half of the pier was his property, without specifying which particular half.

The President stated that this Board was not called upon to determine the lines of ownership in the present proceeding, as that related solely to repairing the said pier, and having it put in good and safe condition.

On motion, it was

Resolved, That the Engineer-in-Chief be and hereby is directed to prepare proper plans and specifications for making the repairs necessary to place Pier 59, East river, in a safe and serviceable condition, the work to be performed by contract, one-half the expense of which shall be borne by the Corporation, and further, that William D. and George H. Andrews, alleged owners of one-half interest in said pier, be and hereby are notified that the Corporation will hold them liable for the payment of one-half the cost of said proposed contract, and they are respectfully requested to confer without delay with the said Engineer-in-Chief, relative to such required repairs.

On motion, Stephen A. Blunt was appointed as a watchman in place of John Reordan.

On motion, the Board adjourned.

JOHN T. CUMING, Secretary.

— — — — —

At a meeting of the Board of Docks, held December 7, 1881.

Present—The full Board.

The minutes of the meetings held November 30th and December 1st, were read and approved.

The following communications were received, read, and,

On motion, placed on file, action being taken where necessary, as stated, to wit :

From Abner Bartlett, agent for Astor estate—As to being heard before the Board, respecting Pier at Thirteenth street, North river. Secretary to notify Mr. Bartlett as to time of Board meeting.

From Counsel to the Corporation—Opinion in reference to award of contract.

From James Fitzpatrick, Corporation Wharfinger—Reporting removal of fence at Pier at Thirteenth street, North river. Engineer-in-Chief to be directed to replace the same.

From James McClenahan, lessee—Notice of payment under protest of rent for Pier at Fortieth street, North river.

From Gaskell, Greenlie & Company—Notice withdrawing claim or lien filed November 7, 1881, on contract with Holmes Brothers.

From Department of Public Charities and Correction—In reference to bad condition of dock at Homeopathic Hospital, Ward's Island. Secretary directed to advise that plans and specifications have been prepared and approved, and this Board has ordered proposals to be advertised for, to do the repairs.

From J. and R. Darrow—For permission to use Pier at Forty-seventh street, North river, to store brick on. Application denied.

From Counsel to the Corporation—Reporting collection of rent from William D. Brown for Pier at One Hundred and Fifty-second street, North river, and inclosing check for \$50 so collected. Check to be paid over to the Treasurer.

From Engineer-in-Chief—

1st. In reference to delivery of broken stone by James H. Perkins.

2d. Report of work done for week ending December 3, 1881.

3d. Reports of completion of work, etc., on Secretary's orders Nos. 1783, 1794, 1841, 1861, 1938, 1942, 2192, 2165, 2202, 2120 and 2167.

4th. Report on amount of damage done by the "Lord Collingwood" to shed on Pier, new 37, North river. Secretary to notify agent or consignee of that steamer to make the necessary repairs to shed under supervision of the Engineer-in-Chief within five days, or this Department will have the repairs made and charge the cost thereof to them.

5th. Reporting repairs required to the plank approach to Pier, new 21, North river. Engineer-in-Chief to be directed to do the work.

6th. Reporting the bad and unsafe condition of Piers, 58 and 59, East river, and recommending that they be closed. Engineer-in-Chief to be directed to close said piers from public use.

7th. Reporting that clean filling of ashes can be received at Pier, new 54, North river. Secretary directed to advise Street Cleaning Department that clean ashes and street-cleaning dirt will be received at that place.

8th. Reporting that permit granted to Thomas W. Wightman, agent, July 13, 1881, had not been acted upon. Permit revoked, and Secretary directed to advise said Wightman of the action of the Board.

9th. Reporting dredging necessary at Pier at Twenty-eighth street, East river. Engineer-in-Chief to be directed to make requisition for the necessary dredging to secure a depth of ten feet at mean low water.

10th. Recommending the discharge of Patrick Mara, deck-hand on tug "Manhattan," for absence from duty. Action approved and the said Mara discharged.

11th. Reporting in reference to certain Secretary's orders, issued as follows :

No. 1467, December 17, 1879 - That the Knickerbocker Ice Company had not erected the platform under the permit issued to them, and have not decided whether they will do so or not. Permit revoked, and Secretary directed to notify said company of the revocation.

No. 1659, August 18, 1880—That Schwarzschild & Sulzberger, lessees, have not made the repairs ordered to be made to bulkhead at Forty-fifth street, East river, Engineer-in-Chief reporting that such repairs are unnecessary, as the bulkhead has been closed and the street fenced off. Secretary to advise parties that repairs are unnecessary.

No. 1750, November 30, 1880—That the Glen Cove Starch Manufacturing Company had not built a shed on the platform between Piers 49 and 50, East river, pursuant to the permit issued to

them. Permit revoked, so far as it relates to building said shed, and Secretary directed to notify said company of such revocation.

No. 1785, February 16, 1881.—That Charles E. Boardman, lessee of Pier at Eleventh street, North river, had not replaced 15 piles at said pier, as directed by order of this Board. Secretary directed to notify said Boardman to have the repairs made within five days, or this Department will cause the repairs to be made and charge the cost thereof to him.

From John M. Smith, Corporation Wharfinger—As to dirt at bulkhead, between Piers, new 36 and new 37, North river. Engineer-in-Chief to be directed to examine and report, and, if necessary, to do the work.

From John Butler, Corporation Wharfinger—

1st. Reporting Pier at Seventy-ninth street, East river, in an unsafe and dangerous condition. Engineer-in-Chief to be directed to examine and report if the same should be closed.

2d. As to repairs necessary to Pier at Fifty-first street, East river. Engineer-in-Chief to be directed to repair said pier.

From William L. McConkey, Corporation Wharfinger—

1st. Reporting that the outer end of Pier 47, East river, is considerably sunk. Engineer-in-Chief to be directed to examine and report on same.

2d. Reporting repairs necessary to Pier 53, East river. Engineer-in-Chief to be directed to examine and report on same.

The following communications were received, read, and,

On motion, laid on the table to await action, as stated, to wit :

From R. W. Cameron & Co.—In reference to, and requesting the retention of, a steam hoisting engine and small clerk's house on Pier 9, East river. Secretary directed to advise that due consideration will be given to the matter by the Board.

From Andrew Dettinger, lessee—Application to have dredging done at Pier at Fifty-first street, North river. Engineer-in-Chief to be directed to have soundings taken, and report the quantity of dredging necessary to be done to secure the proper depth.

From Andrew Dettinger, lessee—For necessary repairs to be made to Pier at Fifty-first street, North river. Engineer-in-Chief to be directed to examine and report on same.

From New York City and Northern Railroad Company—Application to lease a parcel of land under water between Piers, 43 and 44, East river, and to erect a shed thereon.

From Greenpoint Ferry Company, lessees—For permission to build new ferry houses and racks between Twenty-third and Twenty-fourth streets, East river. Secretary directed to advise said company to have their plans properly perfected for presentation to the Board.

From T. & A. Walsh, contractors—Claim for compensation for extra work in dredging at Pier at Ninety-sixth street, North river.—Secretary directed to advise that the Board desires to have full details from Messrs. Walsh respecting the matter.

From Engineer-in-Chief—Reporting the suspension of Daniel O'Connell, night watchman

on tug "Manhattan," for being found asleep on November 29, while on duty. Referred to the President.

From John Gillies, contractor—As to remitting penalties imposed under various contracts with this Department, as follows: building Pier, new 54, North river, building Pier at Nineteenth street, North river, and repairing Pier 38, East river. Engineer-in-Chief to be directed to report to this Board as to the cause of delay on the part of the contractor on each contract, and when the several piers were ready to receive and berth vessels.

From F. Buse—In reference to incumbrances on bulkhead between Sixtieth and Sixty-second streets, East river. Referred to Commissioner Vanderpoel, to have written report from Corporation Wharfinger as to the incumbrances on said bulkhead.

A report was received from the Engineer-in-Chief in respect to the preservation of timber in piers, and recommending that portions of the timber used in Pier, new 37, North river, be treated, with a view to prolonging its preservation, and, being read, it was,

On motion of the President,

Resolved, That the Engineer-in-Chief be and hereby is directed to include in the specifications for the building of Pier, new 37, North river, a provision that the several portions of timber therein recommended and designated for use in the construction of said pier, shall be impregnated either with dead oil, creosote, or zinc and baryta, in such manner as is indicated and stated in his report of 6th instant on the subject.

A communication from John F. Doyle, in reference to repairing Pier 15, East river, was received, read, and placed on file.

On motion, the previous communications of John F. Doyle, of November 23, 1881, and of the Engineer-in-Chief of December 1, 1881, were taken from the table and placed on file, and the following preamble and resolutions, offered by the President, were unanimously adopted:

Whereas, The unsafe condition of Pier 15, East river, has made it necessary for this Department to fence it off from public use until placed in good repair; and

Whereas, It is the judgment of this Board that Pier 15, East river, should be immediately and thoroughly repaired, so as to place the same in a safe and usable condition, and the alleged owner of the westerly half of said pier having informed the Board of his desire to have the repairs made forthwith, under the direction of the Department of Docks; and

Whereas, The Union Ferry Company, lessees of the easterly half of said pier, have, through their Superintendent, Captain Wright, orally informed Commissioner Vanderpoel, the Treasurer of this Board, that the company claim that the terms of the lease for the premises do not require the company to comply with the order of this Board, under date of 30th ultimo, to have the repairs made by said lessees; therefore,

Resolved, That the Engineer-in-Chief be and hereby is directed to prepare proper plans and specifications for repairing Pier 15, East river, by contract, and that the Union Ferry Company, lessees of the easterly half thereof, be and hereby are notified and informed, that the Corporation will hold the said company liable for the payment of one-half of the cost and expense of the work to be done under said proposed contract.

Resolved, That the alleged owner or owners of the westerly half of Pier 15, East river, be and hereby are notified to file in this Department, within five days after receipt hereof, a written agreement that he or they will enter into a contract, jointly with the Corporation, for repairing said pier, under plans and specifications to be prepared by the Engineer-in-Chief of this Department, and will become liable for the payment of one-half of the cost and expense of doing such work.

A communication from James McClenahan, lessee, as to repairs made at Fortieth street, North river, was received, read, and placed on file.

On motion, the previous communication of said McClenahan, laid on the table November 16, 1881, was taken therefrom and, with the report of the Engineer-in-Chief as to repairs necessary to said pier, was ordered on file, and,

On motion, it was ordered that a roadway on the middle of said pier be planked 20 feet in width and 400 feet in length, and that the Engineer-in-Chief be directed to prepare specifications therefor, and the Treasurer to get estimates for doing said work.

The Engineer-in-Chief having reported the condition of Pier at Thirty-eighth street, North river, and the estimated cost of the repairs necessary thereto,

On motion, the communication of P. White's Sons was taken from the table and placed on file, and the Engineer-in-Chief directed to make the necessary repairs to said pier, as specified in his report on Secretary's order No. 2149, at a cost not to exceed 600.

On motion of the President, the following resolution was unanimously adopted :

Resolved, That the Engineer-in-Chief be and hereby is directed to remove the existing Pier, new 37, North river, and to build a new pier in place thereof, upon the lines as now established, and to dredge upon the site of said pier and upon the slips on each side thereof, to one-half of their width, to the depth of twenty-five feet below mean low water mark, and that all of the work hereby ordered be done otherwise than by contract, as required by subdivision 5 of section 6 of chapter 574, Laws of 1871, and that it be done by the force of the Department by day's work, except so much of the labor as is now or may hereafter be directed to be contracted for, and that all the material, dredging, machinery, tools, etc., necessary therefor, not heretofore contracted for, or which may not hereafter be contracted for, be purchased by the Treasurer otherwise than by contract.

On motion of Commissioner Laimbeer, the following resolution was unanimously adopted :

Resolved, That the question of removing all steam hoisting incumbrances upon the piers and bulkheads upon the water-front of the North and East rivers, be considered by this Board, and that all merchants, stevedores, and others interested in the commerce and shipping of this port, be asked to present their views upon the need for the use of such hoisting portable engines, in writing, and that a day be named by this Board when all can be heard upon the subject, and until such time as they shall be heard, the order to remove is hereby suspended: meeting to be on Tuesday, December 13, 1881, at 11 o'clock A. M., and the Secretary is directed to notify through the Wharfingers all who may now be using the same.

C. L. Atterbury appeared as attorney for the New York, Lake Erie and Western Railroad Company, and was heard on the subject matter of the shed to be erected by that company on the bulkhead between Piers, new 20 and new 21, North river, claiming that the shed to be erected should not absolutely revert to the corporation at the expiration of the term for which permission was granted to them to maintain it.

On motion of the President, the resolution adopted on the 30th ultimo was amended by adding after the last word thereof, the following, "unless the shed is wholly removed within thirty days after the receipt of an order from the Department so to do," which was unanimously adopted.

On motion of Commissioner Laimbeer, the matter of Wm. Newman, discharged on 17th ultimo, for neglect of duty, was referred to the President.

On motion of the President, the plans for the front and river elevations of the shed to be erected on Pier, new 54, North river, were approved, and the Engineer-in-Chief to be directed to superintend the construction thereof.

On motion of the President, the Corporation Wharfingers were directed to report to this Board on or before Monday, 12th instant, all incumbrances on the piers in their several Districts.

George V. Hecker appeared and was heard in reference to application to place an 8-inch iron pipe on Pier 43, East river; further hearing postponed until proper plans shall be prepared and presented.

Abner Bartlett appeared and was heard in reference to Pier at Thirteenth street, North river; no action was taken, and said Bartlett was given further time to communicate with the Board on the matter.

James F. Chamberlain, one of the Trustees of Trinity School, was heard in reference to bulkhead between Seventy-eighth and Seventy-ninth streets, East river; no action was taken, further hearing being postponed.

John H. Lynch, lessee of outer end of the westerly half Pier 23, East river, appeared and was heard in reference to repairs to said pier. The Engineer-in-Chief was requested to point out to said Lynch what repairs were required and necessary to the portion of said pier leased to said Lynch.

On motion, the Board adjourned.

JOHN T. CUMING, Secretary.

At a special meeting of the Board of Docks, held December 8, 1881, at 12 o'clock, M.

Present—Commissioners Vanderpoel and Laimbeer.

Absent—The President.

The Comptroller of the city, as well as the President, being absent, the Commissioners present decided to await the arrival of the Comptroller, before proceeding to open the bids which might be offered.

The Comptroller of the city appeared at 12:20 o'clock, when, the President being still absent, On motion of Commissioner Vanderpoel, Commissioner Laimbeer took the chair.

On motion of Commissioner Laimbeer, the following resolution was adopted :

Resolved, That the opening of the bids to-day for removing certain old structures and building a crib bulkhead at Coenties slip, East river, be and is hereby laid over, because of the opinion of the Counsel to the Corporation being such as to warrant this being done.

Pursuant to the foregoing resolution, two envelopes purporting to contain estimates for removing certain old structures and building a crib bulkhead at Coenties slip, East river, presented by the following-named parties, to wit :

Flaherty & O'Connell, with a deposit of \$200 in money ;

Holmes Bros., with a deposit of \$200 in money ;

—were not opened, but were laid over.

The Board then proceeded to open estimates for building a new wooden pier on North Brother Island, East river. Two estimates for said work were received as follows :

No. 1. From Joseph Walsh, for \$14,500, with certified check for \$125 ;

No. 2. From Mahony Bros., for \$13,300, with certified check for \$125 ;

and, being read, were,

On motion, laid on the table for examination.

Joseph J. O'Donoghue appeared, and was heard in reference to the matter of Grand street ferry rack striking against the adjoining Pier 55, East river.

Commissioner Laimbeer offered the following resolution, which was adopted :

Resolved, That because of the statements made by Joseph J. O'Donoghue in regard to the and street ferry rack, and his wishing to bring the question before his Board of Direction, action is suspended until Tuesday next, 13th instant; in the meantime Superintendent Chappell will confer on the matter with our Engineer-in-Chief.

On motion of Commissioner Laimbeer, the Secretary was directed to notify the New York, Lake Erie and Western Railroad Company, that they are required to remove the ferry rack and all

other obstructions of any kind in the way of building the new bulkhead and the new pier at and near the foot of West Twenty-third street, North river, under the plans and specifications now ordered and prepared, and that any and all information as to the lines of said bulkhead and pier will be given by the Engineer-in-Chief of this Department, who has been directed to proceed at once with the work.

On motion, the Secretary was directed to give a similar notification to Jacob Sharp, respecting the platform and shed, and all other obstructions at the same location.

On motion, the Board adjourned.

JOHN T. CUMING, Secretary.

At a special meeting of the Board of Docks, held December 13, 1881.

Present--The full Board.

The special business before the meeting was the hearing of arguments from merchants, stevedores, etc., as to the use of steam hoisting engines on the piers and bulkheads on the water-front of the city.

The communication of R. W. Cameron & Co., in reference to use of steam engine on Pier 9, East river, was taken from the table and placed on file.

The following communications were received, read, and placed on file:

From George B. Lawton—On the subject of obstructions on piers and bulkheads.

From Nesmith and Sons—Asking for a change in the order relating to use of engines on piers.

The following-named gentlemen appeared and were heard at length on the subject:

Mr. Minck, representing William P. Clyde & Co., Piers 33 and 34, East river.

Napoleon B. Sinclair, representing R. W. Cameron & Co., Pier 9, East river.

A. B. Philips, as a Committee from the Stevedores' Association, and also individually, Pier 1, East river.

Benjamin J. Hall, Piers 16 and 17, East river.

William Ostran, representing Sutton & Co., Pier 19, East river.

Robert B. Van Vleck, representing the California Line of Clippers, Pier 11, East river.

All these gentlemen represented and claimed that the use of steam hoisting engines was necessary and indispensable to the proper carrying on of their business and that small tally houses were of the most absolute necessity for the use of their clerks in the transaction of their business.

ness, and that it would be detrimental to the interests of the shipping merchants if they should be prevented from using these necessary adjuncts for the proper dispatch of their business.

No action was taken, the further consideration of the matter being laid over.

On motion, Patrick Kane was appointed deckhand on tug "Manhattan," in place of Patrick Mara, removed.

On motion, the Board adjourned.

JOHN T. CUMING, Secretary.

At a meeting of the Board of Docks, held December 14, 1881.

Present— The full Board.

The minutes of the meetings held December 7, 8 and 13, were read and approved.

The following communications were received, read, and,

On motion, placed on file, action being taken where necessary, as stated, to wit :

From James Fitzpatrick, Corporation Wharfinger—Reporting dangerous condition of Pier at Fifty-seventh street, North river. Engineer-in-Chief to be directed to examine and report.

From Maine Steamship Company, lessees.—As to obstructions in slip on east side of Pier 38, East river. Engineer-in-Chief to be directed to examine and report.

From Funch, Edye & Co., lessees—To have two mooring piles placed on Pier, new 54, North river. Engineer-in-Chief to be directed to do the work.

From James McClenahan, lessee—Claiming loss of \$380, by reason of delay by the contractor in completing repairs to Pier at Fortieth street, North river. Engineer-in-Chief to be directed to report cause of delay on part of the contractor, and Chief Clerk to make memorandum of amount on contract of Holmes Brothers.

From Williams & Guion, lessees—In reference to iron mooring pile on Pier, new 38, North river, carried away. Secretary directed to advise that it should be replaced, at their own expense, under the supervision of the Engineer-in-Chief.

From William L. McConkey, Corporation Wharfinger—Reporting dangerous hole in bulk-head, between Piers, 28 and 29, East river. Secretary directed to notify owner to have the same repaired forthwith.

From Adolphus Norraikow—As to set of books on engineering which he desires to sell to board.

From B. D. Silliman, Attorney for Union Ferry Co., lessees—In reference to repairing Pier 5, East river. Secretary directed to advise that by the terms of the lease to the ferry company they are obligated to repair the pier in question.

From Mayor Grace—In reference to condition of pier at Twenty-sixth street, East river. Secretary directed to reply that the Engineer-in-Chief had been directed in September last to prepare plans and specifications for the reconstruction of the same.

From New York, Lake Erie, and Western Railroad Co., lessees—Application for permission to lay plank roadway to shed between Piers, new 20 and new 21, North river. Application granted during the pleasure of the Board, and Engineer-in-Chief to supervise the construction thereof.

From Hoboken Land and Improvement Co.—In reference to rebuilding the ferry house, etc., at Barclay street, North river. Secretary directed to advise, that this Board does not think that any reason is offered to change their previous views on the matter, but are willing to confer further on the subject if desired by them.

From Broadway and Seventh Avenue Railroad Company—Requesting Board to designate some pier from which they could dump snow removed from their tracks during the winter. The Engineer-in-Chief to report as to what piers on the water-front can be used for that purpose during this winter.

From Warren Rosevelt—As to remission of penalties for delay in completing contracts for repairing piers on East river.

From Captain of the Port—As to shoaling of slip between Piers 14 and 15, East river. Engineer-in-Chief to be directed to have soundings taken and report quantity of dredging necessary to give required depth to accommodate vessels using said slip.

From Edward Brown, lessee—In reference to proceedings commenced by the Astoria Ferry Co. to dispossess him from premises at Ninety-second street, East river. Secretary directed to request the Counsel to the Corporation to attend to said matter, the premises in question being the property of the city, and rented by this Department to Mr. Brown.

From Simpson & Spence—As to repairs made to shed on Pier, new 37, North river, damaged by steamship "Lord Collingwood."

From Market Boatmen—Protest against granting application of George V. Hecker & Co., to place eight-inch pipe on Pier 43, East river.

From New York, Lake Erie and Western Railroad Company, lessees—In reference to agreement executed by company respecting shed between Piers, new 20 and new 21, North river, and inclosing same. Secretary directed to file said agreement therewith.

From Comptroller of the City—Approving sureties on the proposal of Mahony Brothers, for building new pier at North Brother Island, East river.

From Win. L. McConkey, Corporation Wharfinger—

1st. Reporting steam hoisting engines on piers in his district.

2d. Reporting on the condition of bulkhead between Piers, 14 and 15, East river; bulkhead between Piers, 27 and 28, East river; bulkhead between Piers, 28 and 29, East river, and the outer westerly end of Pier 24, East river. Engineer-in-Chief to be directed to examine and report as to the condition of the same.

From John M. Smith, Corporation Wharfinger—

1st. Reporting steam hoisting engines, etc., on piers in his district.

2d. Reporting that timber had all been removed, pursuant to order on Secretary's order No. 16, from foot of Charlton street, North river.

From John Butler, Corporation Wharfinger—Reporting steam hoisting engines, etc., on piers in his district.

From James Fitzpatrick, Corporation Wharfinger—Reporting steam hoisting engines, etc., on piers in his district.

From Engineer-in-Chief—

1st. As to delivery of granite by the Cape Ann Granite Company under the contract with them.

2. Reporting completion of contract by Holmes Brothers, for repairing piers at Seventeenth, Eighteenth, Thirty-fourth, Fortieth, Forty-seventh and One Hundred and Twenty-ninth streets, North river.

3d. Reporting cost of repairs made by Department to Pier 6, East river, as being \$131.86½. Treasurer requested to collect same from the New York Central and Hudson River Railroad Company, lessees of said pier.

4th. Reporting condition of bulkhead between Thirty-eighth and Thirty-ninth streets, East river, and estimate of cost of necessary repairs thereto at \$800. Engineer-in-Chief to be directed to prepare plans and specifications, and Treasurer to receive estimates thereon.

5th. Reporting on condition of pier at Seventy-ninth street, East river, as to closing same to public use, that deck of same can be made secure for the present at a cost of \$10. Engineer-in-Chief to be directed to do the work.

6th. Reporting repairs necessary to Pier at Fifty-seventh street, North river. Engineer-in-Chief to be directed to put pier in safe condition and to report on advisability of filling in the centre of the pier, also the cost of repairs, etc., made to said pier during the past year.

7th. Reporting condition of Piers at One Hundred and Seventeenth and One Hundred and Twenty-fifth streets, Harlem river. Engineer-in-Chief to be directed to make necessary repairs to Pier at One Hundred and Twenty-fifth street, Harlem river.

8th. Report of work done during the week ending December 10, 1881.

9th. Reporting completion of work, etc., on Secretary's orders, Nos. 1964, 2091, 2118, 2124, 2163, 2177, 2197, and 2214.

10th. Reporting the suspension of Stephen A. Blunt, night watchman, on tug "Manhattan," for being found asleep on duty. Action of Engineer-in-Chief approved, and said watchman discharged.

The following communications were received, read, and,

On motion, laid on the table, to await action, as stated, to wit :

From Wm. D. Andrews & Co.—In reference to repairs to Pier 59, East river. Referred to the President.

From G. W. Ryerson, lessee—Application for leave to erect dumping-board on bulkhead

between Thirty-eighth and Thirty-ninth streets, East river. Secretary to notify applicant that the Board would hear him at its next meeting.

From Engineer-in-Chief—Submitting plans and specifications for repairing Pier 59, East river. Referred to the President.

A report was received from the Engineer-in-Chief, submitting plans and specifications for building Pier, new 37, North river, and, being read,

On motion, the Secretary was directed to have a sufficient number of proposals for doing said work printed and submitted to the Board for approval.

A communication from the Atlas Steamship Company was received, read, and placed on file, and the previous communications from said company were taken from the table and placed on file, and the following preamble and resolutions, offered by the President, were unanimously adopted:

Whereas, This Board, as appears by its minutes of the meeting held July 7, 1880, notified Pim, Forwood & Co., that their application of July 2, 1880, for a lease of a pier to be erected at or near the foot of Twenty-fifth street, North river, upon plans adopted for the permanent improvement of that section of the water-front, would take priority of all other applications; that the terms and conditions for the lease would be as set forth in said minutes, and that whenever the Department was prepared to perfect an agreement, the said applicants would be advised; and

Whereas, The Department is constructing the said proposed pier, which it is now expected will be completed and ready for occupancy about February 15, 1882, and will be known as Pier, new 55, North river; therefore

Resolved, That a lease of Pier, new 55, North river, be and hereby is granted to Pim, Forwood & Co., agents for Atlas Steamship Company (Limited) for a term of ten years from and after February 1, 1882, at an annual rent of \$20,000, payable quarterly in advance, with a covenant for a renewal term of ten years, at an annual rent of \$25,000, payable quarterly in advance, it being hereby understood that a pro rata allowance of rent will be made, until the date of completion of said pier, as reported by the Engineer-in-Chief of this Department, provided that the said agents shall file in the office within five days after receipt hereof, a written acceptance of, and an agreement to execute the said lease when prepared, subject to the terms as stated therein.

Resolved, That under the powers vested in this Board by subdivision 6, chapter 574, Laws of 1871, Pier, new 55, North river, now in process of construction shall, upon completion, be and is hereby appropriated to the sole use of the special kind of commerce carried on in steamships between the West Indies and this port, and that the Counsel to the Corporation be and hereby is requested to prepare in proper form a lease in triplicate for the said pier, to Pim, Forwood & Co., agents for Atlas Steamship Company, (Limited), in conformity with the terms and provisions set forth in the preamble and resolution adopted this date; and that the officers of this Board be and hereby are authorized and empowered to execute the said lease when prepared and approved as to form by said Counsel to the Corporation.

Resolved, That permission be and hereby is granted to Pim, Forwood & Co., agents, proposed lessees of Pier, new 55, North river, to erect and maintain thereon, a shed for the protection of property received and discharged thereat by steam transportation, the said shed to be

constructed subject to the regulations required by chapter 249, Laws of 1875, and in conformity with the plans approved by the Engineer-in-Chief of this Department, August 18, 1881, and on file in this office, and supplemented by designs of elevation for the street and river fronts for said shed, approved by this Board this date; provided that all the work shall be done under the supervision of that officer and that the said lessees shall file in this Department, within five days after receipt hereof, a written agreement, that the said shed shall revert to and become the property of the Corporation of the City of New York, upon the expiration or sooner termination of the lease to them of the said pier, free of all claims of every kind whatsoever.

Resolved, That Pim, Forwood & Co., agents of the Atlas Mail Steamship Company, be and they are hereby granted permission to remove at their own expense two mooring piles on Pier, new 55, North river, such removal to be made under the supervision of the Engineer-in-Chief of this Department.

Judge T. J. Campbell appeared on behalf of Warren Rosevelt, one of the bidders for the contract for removing certain old structures and for building crib bulkhead at Coenties slip, East river, opened on 23d ultimo, and claimed that said contract should be awarded to said Rosevelt, as his was the lowest legal bid made.

On motion of Commissioner Laimbeer, it was unanimously

Resolved, That the proposals offered by Flaherty and O'Connell, and Holmes Brothers, on the 5th instant, for removing certain old structures and building a crib bulkhead at Coenties slip, East river, be unopened by the Board, and that the Secretary be directed to notify Messrs. Flaherty & O'Connell, and Messrs. Holmes Brothers, requesting them to call and reclaim the same at their earliest convenience.

Commissioner Laimbeer moved that the whole matter be referred to the Treasurer, with full power as to awarding to Mr. Rosevelt the contract, and settling as to the amount thereof.

The President objected, on the ground that Mr. Rosevelt's bid was fifty per cent. more than the estimates made by the Engineer-in-Chief, and the bid by Flaherty & O'Connell, which was rejected for informality, and also on the ground, that the liabilities of this Department at present and to accrue under existing contracts, were largely in excess of the authorized issue of bonds for the purposes of this Department.

Commissioner Laimbeer stated, that the Counsel to the Corporation having given an opinion to the effect that Mr. Rosevelt was entitled to be awarded this contract, he should be in favor of awarding the contract to Mr. Rosevelt, but in consequence of the statement by the President that the funds to the credit of this Department were insufficient to meet the present liabilities, he should be in favor of laying over the further consideration of the matter, and,

On motion of Commissioner Laimbeer, the matter of awarding said contract was laid on the table.

On motion of Commissioner Laimbeer, the Bookkeeper was directed to prepare forthwith a statement of amount of money in the hands of the Comptroller of the city, appropriated for the use of this Department, unapplied, and the amount of the liabilities of this Department.

The application of the New York City and Northern Railroad Company, to lease a parcel of land under water, between Piers, 43 and 44, East river, and to erect a shed thereon, was taken from the table and placed on file.

On motion of the President, the application was granted, and the following resolution in relation thereto, offered by the President, was adopted, Commissioner Laimbeer voting in the negative:

Resolved, That permission be and hereby is granted to the New York City and Northern Railroad Company, assignees of the lease, and occupants of the westerly half of Pier 44 and adjoining bulkhead, East river, to drive piles in front of said bulkhead, and erect thereon a platform extending thirty-six feet southerly from said bulkhead, and forty-four feet westerly from said pier, with the privilege to cover said platform with a shed, for the protection of freight received and discharged thereat by steam transportation, to be constructed in conformity with the requirements of chapter 249, Laws of 1875, and in accordance with the plan submitted with the application and approved by the Department; provided that all the work shall be done under the direction and supervision of the Engineer-in-Chief of this Department, and that the said company shall file, within five days after receipt hereof, a written agreement to pay to this Department quarterly in advance, from and after January 1, 1882, the sum of \$600 per annum, as rent for the land under water to be covered by said platform; to obtain and maintain at all times, by dredging, a depth of fifteen feet at mean low water under the said platform, and that all of the said improvements shall revert to the Corporation of the City of New York at the expiration or sooner termination of the lease of said pier and bulkhead, free of all claims whatsoever for cost and expense or otherwise.

The application from George V. Hecker & Co., to lay an eight-inch iron pipe on or under Pier 43, East river, was taken from the table and placed on file, and the following resolution, offered by the President, was unanimously adopted.

Resolved, That permission be and hereby is granted, during the pleasure of the Board, to George V. Hecker & Co., to insert in the bulkhead opposite the easterly side of Pier 43, East river, an eight-inch iron pipe, and extend it along and under the surface of the easterly side of said pier for a distance of about 100 feet southerly, with an opening in the deck of said pier and adjoining the string-piece not to exceed sixteen inches in diameter, for the purpose of connecting a portable hopper with said pipe, said hopper, when not in actual use, to be removed and the opening covered over flush with the deck of the pier, with a cast-iron lid, securely fastened; said eight-inch iron pipe to be used for the purpose of conducting grain to the mills of said Hecker & Co.; provided that the work shall be done under the supervision of the Engineer-in-Chief of this Department, and in conformity with the diagram plan approved this date, but the Department reserves the right to cause the removal of the said pipe at any time, upon the revocation of the written consent therefor, given by the lessee of said pier, and provided also, that the said George V. Hecker & Co., pay to this Department the annual rent of \$50, quarterly in advance, from and after January 1, 1882, for the privilege of such an opening in and use of the bulkhead, and that the lessee of said pier agrees that the payment of such rent shall not affect in any way the terms of his lease.

Commissioner Vanderpoel, to whom was referred the communication from F. Buse, as to incumbrances upon bulkhead between Sixtieth and Sixty-second streets, East river, reported that no incumbrances existed on the bulkhead within the jurisdiction of this Department.

On motion, the report was received, and the communication taken from the table and placed on file.

The President, to whom was referred the matter of the discharge of William Newman, Night-Watchman, reported that after investigation he was of opinion that the action of the Board in discharging Newman was proper.

On motion, the previous action of the Board in discharging Newman was approved.

The President, to whom was referred the communication from the Engineer-in-Chief suspending Daniel O'Connell, night watchman on tug "Manhattan," for being asleep while on duty, reported thereon, and recommended the dismissal of said Daniel O'Connell.

On motion, the communication of the Engineer-in-Chief was taken from the table and placed on file, and the report was received and the recommendation adopted.

The President, to whom was referred the communication of the New York and Charleston Steamship Company, for lease of Pier, new 37, North river, reported thereon that the said pier is about being rebuilt, and is required by the public for purposes of general commerce, and therefore recommended that the application be denied.

On motion, the communication was taken from the table and placed on file, the report received and the application denied.

The President, to whom was referred the application of Austin, Baldwin & Co., for temporary use of Pier, new 37, North river, reported thereon, that said pier is required for public use for the purposes of general commerce, and is about being rebuilt, and therefore recommended that the application be denied.

On motion, the communication was taken from the table and placed on file, the report was received and the application denied.

The President and Commissioner Vanderpoel, to whom was referred the application of the Citizens' Steamboat Company, for lease of Pier, new 43, North river, reported thereon, that said pier is required for the uses of this Department as a shifting-pier, for use by vessels occupying leased piers while the same are being rebuilt, and, when not so used, is required for use by the public for purposes of general commerce.

On motion, the communication was taken from the table and placed on file, the report was received and the application denied.

The President, to whom was referred the application from William D. Brown, for leave to assign right to collect wharfage at Pier at One Hundred and Fifty-second street, North river, reported thereon, in favor of granting leave.

On motion, the communication was taken from the table and placed on file, the report was received and the following resolution adopted :

Resolved, That leave and consent be and hereby is granted to William D. Brown, lessee of Pier at One Hundred and Fifty-second street, North river, to under-let or assign to Lucene Gun-

ning the said pier, during the unexpired term of the lease purchased by him at public sale held March 22, 1881, and approved and confirmed by resolution adopted March 23, 1881, provided that the said lessee, and the sureties to the lease, when executed, shall agree, in writing, that their obligations under the provisions of the said lease shall not be affected consequent upon such consent and assignment.

The Greenpoint Ferry Company presented plans and specifications for new ferry house and racks, etc., at the slip between Twenty-third and Twenty-fourth streets, East river, which were laid over for examination.

Mr. Fearon, of S. A. Jenks & Co., appeared and applied for an extension of twenty days time for the completion of the contract for repairing Pier 23, East river.

On motion, the time was granted.

William Hays and Joseph J. O'Donoghue appeared on behalf of Grand Street Ferry Company, respecting ferry rack, and were requested to send a communication to the Board, agreeing to keep Pier 55, East river, in good order.

On motion, the following requisitions were approved :

Register No. 3408, for 21 piles, estimated cost.....	\$283 90
“ 3409, for stationery, for Engineer-in-Chief, estimated cost....	20 00
“ 3410, for yellow pine plank, estimated cost.....	120 00
“ 3411, for rip-rap stone, estimated cost.....	496 00
“ 3412, for cobble stone, estimated cost.....	800 00
“ 3413, for rip-rap stone, estimated cost.....	1,240 00
“ 3414, for draughtsman's supplies, estimated cost.....	35 00

The Auditing Committee presented an audit of 42 bills or claims, amounting to the sum of \$86,878.62, and, being read, was,

On motion, accepted and adopted, and the Secretary directed to forward the said bills, together with proper requisitions for the amount, to the Finance Department for payment.

On motion, the Board adjourned.

JOHN T. CUMING, Secretary.

3d. Reporting dangerous condition of the deck at pier at Forty-sixth street, North river. Engineer-in-Chief to be directed to examine and report thereon.

From John M. Smith, Corporation Wharfinger—

1st. Reporting condition of bulkhead between Piers, new 41 and 42, North river. Engineer-in-Chief to be directed to examine same and have dirt leveled to proper grade.

2d. Reporting bad condition of roadway leading to Pier, new 43, North river. Engineer-in-Chief to be directed to examine and report thereon.

The Engineer-in-Chief made a report designating piers and bulkheads, and suggesting their use, for the purpose of dumping clean snow and ice from, during the present winter.

On motion, the report was placed on file, and the following resolution, offered by Commissioner Laimbeer, unanimously adopted.

Resolved, That it being necessary to provide suitable places along the water-front of the city from which to dump clean snow and ice removed from the streets and thoroughfares in this city during the winter season, that the following piers and bulkheads belonging to the city be and the same are hereby designated and assigned to be used for that purpose :

North River.

1. Bulkhead north of Pier, new 1, North river.
2. North end of new-made land between Jay and Duane streets, North river.
3. Old bulkhead north of Pier, new 26, North river.
4. Old bulkhead south side of old dump at Laight street, North river.
5. Outer end of Pier at Nineteenth street, North river.
6. Dump at foot of Twenty-seventh street, North river.
7. New-made ground between Fifty-sixth and Fifty-seventh streets, North river.
8. New-made ground between Fifty-seventh and Fifty-eighth streets, North river.

East River.

9. Outer end of Pier 12, East river.
10. " " 19, East river.
11. " " at Third street, East river.
12. Bulkhead at Sixteenth street, East river.
13. Outer end of pier at Thirty-second street, East river.

Harlem River.

14. North end of Second avenue.

And that the following leased piers and bulkheads may also be used for such purpose, provided the consent of the lessees thereof be obtained by the parties desiring the use thereof:

North River.

1. Outer end of Pier, old 42, foot of Canal street, North river.
2. " " new 41, foot of Leroy street, North river.

3. Outer end of Pier at Eleventh street, North river.
4. " " at Bethune street, North river.
5. " " at Jane street, North river.
6. " " at West Thirty-fourth street, North river.
7. " " at West Fortieth street, North river.
8. " " at Fifty-first street, North river.

East River.

9. Outer end of Pier 23, East river.
10. Bulkhead at Corlears street, East river.
11. Pier 55, East river.
12. Pier at Fifth street, East river.
13. Pier at Twenty-eighth street, East river.
14. Bulkhead at Forty-second street, East river.
15. Pier at Fifty-fourth street, East river.
16. Pier at Eighty-sixth street, East river.

That the Secretary prepare and issue a circular, notifying the railroad companies and all others interested, and also the Police authorities, of the action of the Board on this matter.

The following communications were received, read, and,

On motion, laid on the table, to await action, as stated, to wit :

From John J. Astor—In reference to pier at Thirteenth street, North river, as to disposal of interest in same to the city. Referred to Commissioner Laimbeer.

From Engineer-in-Chief—Reporting form of specifications for sheathing Pier at Fortieth street, North river.

From Comptroller of the City—In reference to application of Greenpoint Ferry Co., to build new ferry-houses at Twenty-third street, East river.

From Engineer-in-Chief—Reporting on condition of water-front between Piers 52 and 53, East river, and the repairs required thereto. Referred to Commissioner Laimbeer to report as to ownership of property, and also the necessity for repairs.

Commissioner Laimbeer, to whom was referred the application of the Mutual Union Telegraph Company for leave to drive piles, and enlarge the cable-house now at Seventy-fifth street, North river, reported adversely thereon, unless rent be paid by the company to the city for the premises.

On motion, the application was taken from the table and placed on file, the report received, and the application denied.

The President, to whom was referred the communication of William McCarthy, Chairman, as to inability to report for duty on account of sickness, reported adversely to compensating him for time absent.

On motion, the communication was taken from the table and placed on file, the report received, and the recommendation adopted.

The application of G. W. Ryerson, lessee, for permission to erect a dumping-board on bulkhead at Thirty-ninth street, East river, was,

On motion, taken from the table, and the following preamble and resolution offered by Commissioner Laimbeer adopted, the President voting in the negative :

Whereas, It having become a public necessity to provide in some suitable manner for the prompt and proper removal from within the city limits of stable manure, the large accumulations of which in and about the premises used by the horse-car lines and livery stables in which a large number of horses are kept, keeps the neighborhood in which they are situated filled with offensive odors, detrimental alike to the health and enjoyment of those citizens residing in the immediate vicinity thereof, and the Board deeming that the public interests demand that a suitable place be provided for the removal of the same ; therefore

Resolved, That G. W. Ryerson be and is hereby granted permission to erect and maintain, during the pleasure of the Board, a dumping-board about 165 feet in length on the bulkhead at foot of Thirty-ninth street, East river (said bulkhead running parallel with the centre line of said street), to be used for the exclusive purpose of removing stable manure from the city, provided that the said work be done under the supervision of the Engineer-in-Chief of this Department, and that the said G. W. Ryerson, the lessee of said premises, file with this Department within five days after notice hereof, an agreement that he will pay for such privilege in addition to the annual rent he now pays for said premises, such further sum therefor as may be fixed by the Treasurer of this Board, payable quarterly in advance, until the expiration or sooner termination of the lease of said bulkhead, or the revocation of the permit hereby granted, and that the said dumping board shall revert to and become the property of the Corporation of the City of New York, free of all claims whatsoever for cost and expense, or otherwise, unless the same be wholly removed within ninety days after notice from the Board so to do.

A communication from John H. Starin, lessee, asking leave to assign lease of Pier, new 41, North river, to Delaware, Lackawanna, and Western Railroad Company, was received, read, and,

On motion, placed on file, and the following resolution, offered by Commissioner Laimbeer in relation thereto, was adopted, the President voting in the negative :

Resolved, That this Board hereby gives its leave and consent to the assignment by John H. Starin to the Delaware, Lackawanna and Western Railroad Company, of the lease of the Pier, new 41, North river, and of all rights acquired by said Starin to or in connection with said pier, as requested by him in his letter dated December 19, 1881, and that the officers of this Board are directed to execute an instrument in form approved by the Counsel to the Corporation, showing such leave and consent, if such instrument shall be deemed proper or necessary.

Edward S. Knapp appeared on behalf of the Greenpoint Ferry Company, in reference to building new ferry-house and racks at Twenty-third street, East river, etc.

On motion of the President, the plans and specifications were referred to the Engineer-in-Chief for examination and report.

Commissioner Laimbeer offered the following preamble and resolution, which were unanimously adopted :

Whereas, This Board having in the past made contracts and done other work by the day, and in this way contracting a debt in advance of any appropriation of dock bonds by the Commissioners of the Sinking Fund ; and

Whereas, The right to do so is now questioned, and this Board not desiring to do anything in violation of law, and in view of the fact that a large amount has been expended this last year, and much needs to be done upon the East river, above Grand street, to make the dock property more useful, and also to increase its income ; therefore

Resolved, That the Counsel to the Corporation be and is respectfully asked to give this Board his opinion as to our right of doing work prior to the issue of bonds, and whether, under the law, we can continue as heretofore.

Commissioner Vanderpoel offered the following resolution, which was unanimously adopted :

Resolved, That the question of all incumbrances on piers and bulkheads on the East river, be and is hereby referred to Commissioner Laimbeer, and all incumbrances on piers, bulkheads and new-made lands on the North river, be and is hereby referred to Commissioner Voorhis to make a report to the Board upon each case, with such recommendations as may, from a personal examination, appear needful for the accommodation of merchants, shippers and all commercial interests, local or otherwise.

The President offered the following preamble and resolution, which were unanimously adopted :

Whereas, It has heretofore been the custom of the Commissioners of the Sinking Fund to authorize the issue of dock bonds of the City of New York only in amounts necessary to meet, from time to time, the audited expenditures of this Department ; and

Whereas, In the judgment of the Commissioners at present composing the Board of Docks, it is not only expedient but eminently proper and just for its members to inform the Board of Commissioners of the Sinking Fund of the amount of funds to be required to meet the expenses of the Department, prior to the ordering of any work or the incurring of any liability or obligation therefor, in order that the said Commissioners of the Sinking Fund may consider the necessity, and authorize the issue of a proper amount of dock bonds to provide for the payment of the work to be performed by this Department, and all other expenses and disbursements relating to its powers and duties ; and

Whereas, This Board approximates the expenditures of the Department from the 15th instant until April 1, 1882, as eight hundred and twenty-six thousand six hundred and eighty-five dollars and seventy-two cents, to be appropriated as follows :

For completion of contracts awarded, to wit :

No. 124. Building Pier, new 55, North river ; expired.....	\$31,470 00
No. 125. Granite for bulkhead wall ; expired.....	29,220 86
No. 127. Building Pier, new 56, North river ; expired.....	20,559 00
No. 132. Dredging for new wall, etc.; to expire March 1, 1882.....	91,885 45
No. 141. Building Pier, new 57, North river ; to expire December 31, 1881	23,625 00
No. 145. Repairing Pier at Ninety-sixth street, North river ; to expire February 1, 1882.....	25,340 79
No. 146. Building Pier at Twenty-first street, North river ; to expire February 1, 1882	24,674 09
No. 147. Building Pier, new 28, North river ; to expire April 15, 1882.....	49,280 00
	<u>\$296,055 19</u>

For material, supplies, and labor, under Treasurer's orders issued, to wit :

On Construction Account.....	\$74,140 03
On General Repairs Account.....	5,515 50
On Annual Expense Account.....	1,175 00
	<u>\$80,830 53</u>

For contracts to be awarded under estimates received and opened, to wit :

No. 148. Extending South street across Coenties slip, East river ; to expire April 1, 1882.....	\$25,000 00
No. 149. Building Pier at North Brother Island, East river ; to expire March 11, 1882.....	13,300 00
	<u>\$38,300 00</u>

For work contemplated to be done by contract ; specifications now being prepared, to wit :

Building Pier, new 37, North river ; estimated cost.....	\$70,000 00
Building Pier, new 53, North river ; estimated cost.....	40,000 00
Building Pier, new 25, North river ; estimated cost.....	60,000 00
Paving part of reclaimed ground east of the new wall on district from Canal to West Tenth street, North river ; estimated cost.....	60,000 00
Repairing Pier at Seventy-ninth street, and Piers on Hart's and Ward's Islands, East river ; estimated cost.....	8,000 00
Repairing one-half Pier 58, and one-half Pier 59, East river ; estimated cost.....	10,000 00
Building new Pier at Twenty-sixth street, East river ; estimated cost.....	40,000 00
Building new Pier on lines of Twenty-seventh street, East river ; estimated cost ..	15,000 00
Repairing Pier at One Hundred and Thirty-first street, North river ; estimated cost.....	2,500 00
Repairing Pier at One Hundred and Fifty-second street, North river ; estimated cost.....	1,500 00
Repairing and dredging Pier at Fifty-first street, North river ; estimated cost.....	4,500 00
	<u>\$311,500 00</u>

For three month's work by force of Department, to wit :

For materials and supplies.....	\$40,000 00
For labor pay-rolls.....	30,000 00
For general expenses, including office rent, etc., and salaries.....	30,000 00
	<hr/>
	\$100,000 00

Summary.

For completion of contracts awarded.....	\$296,055 19
For materials, supplies, and labor, under Treasurer's orders issued.....	80,830 53
For contracts to be awarded, under estimates received and opened.....	38,300 00
For work completed to be done by contract	311,500 00
For work by force of Department, including salaries, etc.....	100,000 00
	<hr/>
	\$826,685 72

And, Whereas, The unexpended balance of proceeds of Dock Bonds, heretofore authorized by the Commissioners of the Sinking Fund, available for the uses and purposes of the Department on the 15th instant, was only about fifty-six thousand dollars ; therefore,

Resolved, That the Commissioners of the Sinking Fund, pursuant to authority vested in them by subdivision 11, of section 6, chapter 574, Laws of 1871, be and hereby are respectfully requested to direct the Comptroller of the City of New York to prepare and issue Dock Bonds of the City of New York, for the amount of (\$750,000) seven hundred and fifty thousand dollars, for the use, and purposes of the Department of Docks.

The President offered the following preamble and resolution, which were unanimously adopted :

Whereas, It has been agreed by and between the Department of Docks of the City of New York and the alleged owners of the westerly half of Pier 15, East river, to contract for the repairing of said pier, in order to place it in a safe and good condition for travel, it being so unsafe at present as to make it necessary to close it from public use ; and

Whereas, The easterly half of said pier, owned by the Corporation, is in the possession of the Union Ferry Co. by virtue of a lease purchased of the Commissioners of the Sinking Fund of the City of New York, at a public sale, held April 14, 1881, which stipulates for the maintaining of the piers, slips, bulkheads and premises held thereunder, at the expense and cost of the said company the lessees ; therefore,

Resolved, That the Union Ferry Co., lessees of the easterly half of Pier 15, East river, be and hereby are notified that unless the said lessees, within five days after receipt hereof, enter into an agreement with this Department or with the alleged owners of the westerly half of said pier to make, under the supervision of this Department, the necessary repairs required to place the pier in a safe and serviceable condition, and to pay one-half of the cost and expense of doing the work, then this Board will take immediate action to cause the said lease to cease and determine, and this Department will thereupon at once re-enter, possess and enjoy the said easterly half of said Pier 15, East river, as covenanted for in said lease.

Commissioner Laimbeer offered the following resolution, which was unanimously adopted :

Resolved, That immediately after the 1st of January next this Board take into consideration the revision of the annual rentals charged by this Department for premises situated on and along the water-front, and leased to various parties pursuant to resolutions or by permits issued by this Department, and by their terms only remaining in force during the pleasure of the Board, the compensation paid to the city for the use of premises so granted being in many instances entirely inadequate for the privileges enjoyed by the grantees using the premises under the permits at present in force; and this Board, deeming it proper for the best interest of the Corporation to have the same properly equalized.

On motion, the following requisitions were approved :

Register No. 3419, for 350 oak treenails ; estimated cost..	\$5 25
" " 3420, for yellow pine plank ; estimated cost.....	50 00
" " 3421, for 100 feet 3-inch 4-ply rubber hose ; estimated cost.....	30 00
" " 3422, for repairs to Pier at Fortieth street, North river ; estimated cost ...	800 00

On motion, Daniel O'Connell was appointed as a laborer.

On motion, the Board adjourned.

JOHN T. CUMING, Secretary.

At a meeting of the Board of Docks held December 28, 1881.

Present—The full Board.

The minutes of the meeting held December 21 were read and approved.

The following communications were received, read, and,

On motion, laid on the table to await action, as stated, to wit :

From Engineer-in-Chief—In reference to pipe proposed to be carried over the bulkhead wall foot of Twenty-fifth street, North river. Referred to the President.

From Edward Dickel—Petition for increase of compensation.

From People's Ferry Co.—Form of proposed agreement respecting Pier 55, East river.

From Engineer-in-Chief—Reporting on the plans and specifications presented by the Green-int Ferry Co., for new ferry-house, racks, etc., at foot of Twenty-third street, East river.

The following communications were received, read, and,

On motion, placed on file, action being taken where necessary, as stated, to wit :

From Department of Street Cleaning—As to what portion of Pier, old 41, North river, was to be apart for use by that Department. Secretary having stated that he had replied thereto, by action of the President, the action of the Secretary was approved.

From Department of Street Cleaning—In reference to paving approach to Canal street dump. Secretary directed to advise that Board will give due consideration to the matter.

From Funch, Edye & Co.—In reference to completion of and occupancy by them, of Pier 54, North river. Secretary to advise that it will be ready for their use January 1, proximo. Engineer-in-Chief to repair and complete the roadway to the same at once.

From Joseph M. Deuel—Requesting statistical information. Action of Secretary furnishing same approved.

From George V. Hecker and Co.—Agreeing to terms and conditions of resolution permitting them to lay a pipe under Pier 43, East river, and through the bulkhead.

From White Star Line, R. J. Cortis, agent—In reference to repairs to Piers, new 44 and 45, North river.

From James Millward and F. Buse—In reference to repairs required to the bulkhead between Sixtieth and Sixty-second streets, East river, and also as to obstructions thereon. Engineer-in-Chief to be directed to examine and make repairs on same.

From Engineer-in-Chief—

1st. Reporting condition of Pier 19, East river. Engineer-in-Chief to be directed to report same.

2d. Reporting condition of bulkhead between Twentieth and Twenty-second streets, East river. Secretary to notify owners thereof to repair same in ten days, or this Department will make the necessary repairs, and charge the cost and expense thereof to them.

3d. Reporting quantity of dredging required in slip between Piers, 14 and 15, East river. Secretary to notify owners thereof to have same dredged to depth of twenty feet at mean water.

4th. Reporting condition of Pier at Fifty-first street, North river, and estimate cost of repairs, etc. Engineer-in-Chief to be directed to prepare plans and specifications for the repairs needed on same.

5th. Reporting on condition of Piers, new 44 and new 45, North river, and repairs needed thereto. Engineer-in-Chief to be directed to repair same.

6th. Reporting on condition of bulkhead, foot of Seventeenth street, East river. Engineer-in-Chief to be directed to repair same.

7th. Reporting completion of work, etc., etc., on Secretary's orders Nos. 2178, 2182, 2216, and 2233.

From William L. McConkey, Corporation Wharfinger—Reporting repairs required to roadway to Pier 44, East river. Engineer-in-Chief to be directed to examine and report, and if necessary, should be done by this Department, to repair same.

From John M. Smith, Corporation Wharfinger—Reporting bad condition of Pier at Fifty-first street, North river. Engineer-in-Chief to be directed to examine and report thereon.

From James Fitzpatrick, Corporation Wharfinger—Reporting bad condition of Pier at Fifty-first street, North river. Engineer-in-Chief to be directed to put same in a safe condition, until the Department can make arrangements to put same in thorough repair, unless the cost of such temporary repairs be too large to justify the outlay, in which case he will cause the pier to be closed.

A communication from Pim, Forwood & Co., agents of Atlas Steamship Company, agreeing to and accepting the terms of the proposed lease of Pier, new 55, North river, and suggesting the amendment thereof by substituting the words "between West Indies and this port," instead of "between Europe and this port," was received, read, and,

On motion, placed on file.

Commissioner Laimbeer offered the following resolution in relation thereto, which was unanimously adopted.

Resolved, That the resolution passed December 14th, instant, be and the same is hereby amended by striking out the word "Europe" where it occurs therein, and substituting therefor the words "West Indies."

A report from General John Newton, General Q. A. Gillmore, and William E. Worthen, Esq., who were, by resolution of the Board passed September 9, 1881, requested to act as a Board of Consulting Engineers, to examine and report on the construction, material used, and principles upon which the Bulkhead Wall along the water-front is being constructed, was received and read, as follows:

To the Commissioners of the Department of Docks of the City of New York:

GENTLEMEN—Agreeably to the instructions of your letter of September 14, 1881, and your personal explanations in the interview of the 23d of the same month, we have made "a thorough investigation of the manner of constructing the wall now being erected by the Department," and, as pertinent to your inquiries, an examination of the walls already built by the Department on the same general plan.

We have seen the manner in which the concrete blocks were made, the class of materials used, the proportions in which the cement, sand and broken stone were mixed, their deposit in the boxes, and the manner in which the manipulation was conducted, and have tested the absorption of salt water by the concrete.

At Twenty-fourth street, North river, where the wall is now in progress, we have observed the process of dredging, piling, ballasting, laying the concrete blocks, rip-rapping, and back-filling, and we understand the dimensions, quantities and character of material used, and the order of construction. We have been furnished by your Engineer with full plans and details of this work, with profiles of soundings and detailed items of cost.

And we have received, on our request, like plans and drawings of the old work, together with profiles and plans showing the present position of these walls, and what is their deviation vertically and laterally from the lines by which they were constructed. We have examined these displacements in the work, and find them to be, in general, very slight; none more than might be expected in so large a work, on a bed of soft yielding material. Between Piers 41 and 42, where the deviation from old lines is the greatest, and where at one time a vertical crack was apparent, we set *batirs* on the face of the wall, and found that there was a movement of the wall forward bodily, without revolution or overturning.

We find the same facts obtain on the wall between Piers 42 and 43, but in a less degree. The piles on which the piers are built have been carefully examined from time to time, at long intervals, by the direction of your Engineer, and no movement has been found in them.

In the above-named places, where the displacements are the greatest, there is nothing to impair, or evidence of a tendency to impair, the stability of the wall. Nor is there anything that would show movement without critical observation.

At Twenty-fourth street, we have had an experiment made on the laying of the cement mattress on the top of the piles, and a concrete block upon the mattress. To make the conditions as near as possible to those in actual use, and yet so that we could observe the operations and examine ourselves the mattress in position, the usual number of piles for the support of a block were cut off at the time of high water, but only to the level of low water, instead of at the usual depth. At high water, November 17, a diver, blindfolded, laid a mattress in the usual way upon these piles, under our own observation, and a concrete block was set on the mattress. On December 3, at very low tide, we had the concrete block removed, and examined the condition of the mattress. The result was very satisfactory. It proved that the weight of the block could thus be distributed well on the piles, and that the mattress supplied a suitable cup-capping to the same.

We consider this form of capping effective and economical. Of course its security depends largely upon the diver, but the same obtains with any kind of platform thus laid. It requires that discrimination should be made in the selection of men, and careful supervision by the engineers in charge.

The depth of the mud at Twenty-fourth street and neighborhood is much greater than at any place where a wall has hitherto been built.

Practically, hard bottom is too deep to be reached by piles, and their sustaining power depends almost entirely on the friction of the mud on their sides, or the skin resistance.

Preparatory to beginning this work your Engineer made some experiments on the tenacity of the mud, and had three experimental piles driven into the mud simply; a platform was placed upon them, and loaded successively up to about seventeen tons per pile. The results of these experiments were shown to us, but it seemed better that experiments should be made on piles in the work which had been driven through the usual layer of small stone, and which had also been ballasted with them.

Another platform was therefore made, resting on three piles in the work, and a load of nearly seventy tons placed upon it, about equally distributed at first on the three piles. Subsequent compression of one of the timbers of the platform varied this somewhat. This was completed November 14, and levels were taken on the piles supporting the platform, and on some contiguous thereto, at intervals of a few days. Levels were also thus taken, of the top of the wall in the rear of the pier, and, lately, of piles which were only ballasted, but not quite up to the full load, remote from the pier and the loaded platform. The results were, that the loaded piles sank at first somewhat faster than the unloaded piles that were contiguous, but the difference was trifling.

At present date, there is still some minute settlement, but it is nearly the same for the whole, viz. : the pier, the loaded piles, and the unloaded ones, both near and remote.

Our attention was called by one of your Board to the timbers of the platform in the rear of the wall. From our examination of the timber structures situated at about the same level and under the same condition along the dock front, and from our previous experience in like work, we are satisfied that the platform and its timbers will not be injured by rot or by the *teredo*.

In our previous report of 1876, to a former Board, we recommended additions of rear platforms to the walls then constructed at Canal and King streets, and the substitution of concrete blocks, constructed in air, and then submerged in the work, for the concrete in mass made *in situ*, and suggested a form of wall on the piles already driven.

Our recommendations were acted on, and your Engineer has designed the present form of concrete block, which secures equal stability with the one we suggested and at less cost. We did not expect that the wall would continue without settlement or delignment, and in reviewing the work, we are satisfied with our recommendation, and that so much stability was secured at so moderate cost.

The conditions obtaining on the present work are somewhat different, as we have already said, from those upon the old work, but from our experience and late observations on the latter, and from the investigations on the work now in progress, we feel prepared to answer the questions of your letter of September 14.

First Query. Is the wall now being constructed the most desirable one for all the interests of the city for the sections of water-front under improvement ?

In answer, we would say that this wall, taken as a whole, is the result of practical growth from the first inception of the work. It combines, in a suitable measure, the necessary elements of strength, endurance and stability ; it is ample in its dimensions, has a liberal factor of safety, is not difficult of construction, and appears thus far to have been well and faithfully built. We do not therefore recommend, as necessary, any essential changes of plan, but there are certain modifications which we do recommend, and which will be found in detail in answer to your second query.

Second Query. If it is not, what changes in its construction should be made to make it so ?

In answer, we are of the opinion that the concrete used in the blocks, as well as that formed *in situ* as backing, is unnecessarily rich in Portland cement, and that the best varieties of natural cement would answer very well for this concrete.

If natural cement be used, the proportions to be as follows :

Cement, 1.....	}	For the base of the blocks up to the height of one foot above the chain hole.
Sand, 2.....		
Broken stone, 5....		
Cement 1.....	}	For the balance of the concrete block and the backing.
Sand, 3.....		
Broken stone, 6....		

If Portland cement be used, the proportions may be :

Cement, 1.....	}	For the base of block to height above indicated.
Sand, 2½.....		
Broken stone, 6....		
Cement, 1.....	}	For balance of block and backing.
Sand, 3.....		
Broken stone, 7....		

We also recommend the use of a machine for mixing the concrete, whatever kind of cement be used, and that the blocks be kept, before they are put in the wall, at least sixty days, shaded from the direct action of the sun.

The rip-rap in front of the wall covers the head of the piles to about the depth of two feet ; whilst in this condition it is ample protection for the piles from the *teredo* ; but should the dredging

of the slips be carelessly done, and the excavation carried into the rip-rap, it will settle away from the walls, and the piles will be denuded, and this may obtain from settlement of the rip-rap without dredging, from the action of the screws of steamships or other causes; and if the piles be exposed, they might soon be destroyed by the worm. To obviate this, we recommend that the base of the concrete block be established at a level of seventeen feet below mean low water mark, that is, adding one foot nine inches to the depth of the bottom of this block, preserving the same curve of outer face, and the vertical rear; the position, as well as the bulk of the rip-rap, being kept as at present.

The thickness and weight of the revetment wall, increased by the expedient of your Engineer, by the inexpensive filling of cobble-stones between the piles, and forming a part of the wall, afford considerable resistance to the earth-thrust of the back-filling.

The rip-rap is also indispensable to prevent the heeling of the mass outwards around a lower point, and in this office, the bracing piles also lend their assistance. The weight of the wall is directly supported by the skin resistance of the piles, and by the mass of cobble-stones resting upon the mud. Contributing in considerable measure to this, the rip-rap extends the bearing surface on each side of the wall, and acts as braces to prevent overturn or settlement.

The whole mass resting thus upon a yielding foundation, and to be regarded, in some sense, as floating upon it, will, it is thought, be subject to settlement, but not considerable, and experience has shown that the whole mass will substantially settle together, with little variation, and the front of the revetment will retain its *batir*.

With walls thus supported on mud, it is always desirable to establish as great a symmetry of mass as the other conditions imposed on the structure will admit, in order that the settlement, if any, should take place without tilting.

In this view, we would recommend that the rip-rap on each side of the wall should be in nearly equal masses. Some excess may be given to the portion in the rear of the wall, as the extra thrust may be met by the inclined piles.

We recommend that the ballasting with small cobble stones, the placing of the concrete block, and rip-rap work, be completed as much in advance of the other work as possible, in order that settlement may take place before the wall is completed.

For back-filling, under these circumstances, any material will answer; sweepings of streets, collections from houses, ashes, garbage beneath the water, and even dredgings, if not in a liquid state, and all done slowly, working from wall toward shore.

We recommend that where no wall has yet been commenced, and where it will not interfere with wharfage, an experiment be made of filling in broadly on the line of the wall before doing anything else, as by this means the soft mud will be forced out, or in some degree consolidated by its mixture with firmer material.

The present cross-section of the wall, as designed by your Engineer-in-Chief, we regard as founded on correct principles of stability and economy, and the modifications we suggest seem to us to improve it without changing the ideas characteristic of the plan.

(Signed)

Respectfully submitted,

JOHN NEWTON,
Q. A. GILLMORE,
WM. E. WORTHEN.

NEW YORK, December 27, 1881.

The suggestions and recommendations therein contained were,

On motion, referred to the Engineer-in-Chief of this Department for consideration and report, and the Secretary was directed to have 2,500 copies of the report, with the prefatory proceedings of the Board in relation thereto, printed in pamphlet form.

The communication from A. Van Santvoord, lessee, asking for leave to sublet the northerly side of Pier at Twenty-second street, North river, to the New York, Lake Erie and Western Railroad Co., was,

On motion, taken from the table and placed on file, and the following resolution, offered by Commissioner Laimbeer, unanimously adopted :

Resolved, that leave and consent be and hereby is granted to A. Van Santvoord, lessee of Pier at Twenty-second street, North river, to underlet or assign to the New York, Lake Erie and Western Railroad Co., the northerly side of said pier during the unexpired term of the lease purchased by him at public sale, held April 21, 1876 (the Board having, by resolution adopted April 6, 1876, authorized the execution of such lease to the purchaser at said sale), provided that the said lessee and the sureties to the lease shall agree in writing, that their obligations under the provisions of the said lease shall not be affected in any way by reason of such consent and assignment.

John C. McCarthy appeared and was heard in reference to the bulkhead between Morton and Barrow streets, and the condition thereof.

On motion of Commissioner Laimbeer, the matter was referred to the President, to have such action taken and remedies applied as he may deem requisite in the premises.

Commissioner Laimbeer offered the following resolutions, which were,

On motion, referred to a Committee of the full Board in executive session :

Resolved, That John G. White be and is hereby removed, and that John Dunn be and is hereby appointed Master Dock-builder of this Department, both to take effect on January 1, 1882.

Resolved, that from and after the 1st of January, 1882, the following compensation shall be paid, to

Thomas J. Long, \$1,200 instead of \$1,800.

W. W. Maclay, \$2,000 instead of \$2,500.

Edward Dickel, \$1,500 instead of \$1,200.

On motion of Commissioner Laimbeer, the following resolution, offered by him September 9, 1881, and laid on the table, was taken therefrom :

Resolved, That R. M. Sterritt be and is hereby promoted to the Duane street office, as Clerk, compensation to be twelve hundred dollars a year, and that John Hoopes be appointed a Clerk at one thousand dollars a year, to the Gansevoort street office, and,

On motion, referred to the Committee of the full Board in executive session.

The Auditing Committee presented an audit of 19 bills or claims, amounting to the sum of \$12,382.20, and, being read, was,

On motion, accepted and adopted, and the Secretary directed to forward the said bills, together with proper requisitions for the amount, to the Finance Department for payment.

The following requisitions were,

On motion, approved :

Register No. 3424, for 4,850 oak treenails; estimated cost.....	\$10 00
“ 3425, for one piece oak, stem of tug “Manhattan”; estimated cost.....	12 00
“ 3426, for stationery, office of Engineer-in-Chief; estimated cost.....	30 00

On motion, the Board adjourned.

JOHN T. CUMING, Secretary.

At a meeting of the Board of Docks, held December 29, 1881.

Present—Commissioners Vanderpoel and Laimbeer.

Absent—The President.

On motion, Commissioner Laimbeer took the chair.

The annual report of the Department for the year ending April 30, 1881, being the Eleventh Annual Report, prepared in compliance with the requirements of subdivision 9 of section 6, chapter 574, Laws of 1871, and of sections 88 and 119 of chapter 335, Laws of 1873, was submitted, and, being read, was,

On motion, approved and adopted, and directed to be transmitted to his Honor the Mayor.

On motion of Commissioner Vanderpoel, it was

Resolved, That an opportunity be afforded ex-Commissioner Henry F. Dimock, and ex-Secretary Eugene T. Lynch, to affix their signatures to the said report, if they shall be so disposed.

On motion, the Board adjourned.

WM. M. WHITNEY, Secretary pro tem.

At a special meeting of the Board of Docks, held December 30, 1881.

Present—The full Board.

The Board went into executive session to take action upon the resolutions which were referred to the Committee of the full Board for consideration, at the meeting held December 28, 1881, and for the consideration of other business.

The following resolution was adopted, the President not voting :

Resolved, That John G. White be and is hereby removed, and that John Dunn be and is hereby appointed Master Dock-builder of this Department, both to take effect on January 1, 1882.

On motion, the communications from Edward Dickel, asking of increase of salary, were taken from the table and placed on file.

The following resolution was unanimously adopted :

Resolved, That from and after the 1st day of January, 1882, the rate of annual compensation to be paid to the following named persons, be as follows :

Thomas J. Long	\$1,500 per annum.
Edward Dickel.....	1,500 “
Villard A. Nichols.....	3,000 “
James Dana, Jr.....	1,200 “

On motion, the resolution offered by Commissioner Lainbeer, on September 9, 1881, promoting Robert M. Sterritt, was taken from the table, and the following resolution, substituted therefor, was unanimously adopted :

Resolved, That James Weir be and is hereby promoted, as Clerk in the office of the Department, to take effect on January 1, 1882, compensation to be twelve hundred dollars a year, and that John Hooper be appointed as Timekeeper on the section north of Canal street, in place of James Weir, promoted, compensation to be at the rate of 35 cents per hour, said appointment to take effect on January 1, proximo.

The following resolutions were also adopted, Commissioner Vanderpoel not voting :

Resolved, That Robert C. Morris be and is hereby appointed Doorman, at a salary of \$50 per month, in place of Amzi Cook, hereby removed, said appointment and removal to take effect January 1, proximo.

Resolved, That Patrick H. McCullough be and he is hereby appointed as a Roundsman, at salary of \$100 per month, to take effect January 1, proximo.

W. W. Shippen appeared and was heard in reference to repairing and building new ferry-house and racks, etc., at Barclay Street Ferry, North river. After discussing the matter, further action was postponed until Mr. Shippen should furnish the abstract of the title to the land on the bulkhead, claimed to belong to the ferry company.

On motion, the Board adjourned.

JOHN T. CUMING, Secretary.

At a meeting of the Board of Docks, held January 4, 1882.

Present—The full Board.

The minutes of the meetings held December 28, 29, and 30, were read and approved.

The following communications were received, read, and,

On motion, laid on the table to await action, as stated, to wit :

From C. H. Eldridge and another—In reference to Pier 53, East river, and claiming the ownership thereof. Engineer-in-Chief to be directed to report thereon as to water grants, etc.

From Benjamin D. Silliman, Attorney for Union Ferry Company—In reference to liability of company to make repairs to Pier 15, East river, under the lease given to them by Commissioners of the Sinking Fund. Referred to the President to confer with the Comptroller in relation thereto.

From Engineer-in-Chief—Supplementary report respecting the bulkhead at Twenty-third street, East river, used by the Greenpoint Ferry Company for ferry-house, etc.

From Engineer-in-Chief—Reporting repairs necessary to platform in front of bulkhead south of Pier, old 54, North river.

From Engineer-in-Chief—Reporting quantity of dredging necessary at slip, westerly side of Pier 12, East river.

From T. & A. Walsh—In reference to claim for compensation for extra work at Ninety-sixth street, North river. Referred to the President.

The following communications were received, read, and,

On motion, placed on file, action being taken where necessary, as stated, to wit :

From William F. Morgan—Application for leave to place for temporary use a steam-hoisting engine on Pier 55, North river. Permission granted for same temporarily, under direction of the Engineer-in-Chief.

From Counsel to the Corporation—Enclosing amount, \$45, collected from John W. Manning for rent of bulkhead at Thirty-second street, East river. Secretary directed to acknowledge receipt of communication, and to advise that the amount received would be duly credited to the Law Department.

From R. Richardson—In reference to building a dock at foot of One Hundred and Twenty-third street, East river.

From C. H. Mallory & Co.—In reference to approach to Pier 21, East river. Secretary to advise that the matter will be examined by the Engineer-in-Chief.

From Mayor Grace—Referring communications from C. H. Mallory & Co. and Department of Public Works, in reference to approach to Pier 21, East river, to this Department. Secretary directed to acknowledge receipt of communications, and to reply thereto, that the pavement in question is entirely within the jurisdiction of the Department of Public Works, which Department

in its letter of December 12, that the repairs would be made if the appropriation was available. As the appropriation for 1882 is now available, there is no reason why the repairs should not be at once done by that Department. When this pier was rebuilt, it was raised two feet higher than the adjoining piers, in compliance with the suggestions and wishes of the maritime community in that vicinity, the Messrs. Mallory, among others, having been heard in the matter. It being stated that, in case of high tides, the old pier was often overflowed, and the merchandise and freight thereon was often greatly damaged, and the interests of commerce thereby reduced, for these reasons the pier was so raised, and as it is stated that South street has settled somewhat below the proper grade, the cause of the abrupt approach to the pier is explained, and the defect caused thereby can be easily remedied, if the Department of Public Works will take the proper action in the matter.

From Department of Street Cleaning—As to piers and bulkheads to be used for dumping clean snow and ice from, during the present season. Secretary stating that he had, by direction of the President, forwarded to the Department copies of notice designating piers and bulkheads for this purpose, the action of Secretary was approved.

From Funch, Edye & Co.—In reference to approach to Pier, new 54, North river, and as to the lease of said pier.

From Department of Public Charities and Correction—Requesting that the slips in front of Bellevue Hospital and around the Deadhouse, foot of Twenty-sixth street, East river, be cleaned. Engineer-in-Chief to be directed to have soundings taken, and report quantity of dredging required to give proper depth.

From Department of Public Charities and Correction—In reference to condition of Branch Workhouse dock, at Hart's Island, East river. Secretary to advise that plans and specifications have been prepared by the Engineer-in-Chief, and that proposals for estimates to do the work under contract will soon be advertised for.

From Engineer-in-Chief—

1st. Reporting repairs necessary to bulkhead at Harrison street, North river, and the estimate of cost thereof at \$370. Secretary directed to notify lessees and owners to repair same in ten days, under supervision of the Engineer-in-Chief, or this Department will do the work and charge the cost thereof to them.

2d. Report of work done during the week ending December 24, ultimo.

3d. Report of work done during the week ending December 31, ultimo.

4th. Reporting repairs necessary to deck of Pier, old 54, North river, to make same safe for the present, and estimate of cost thereof at \$140. Engineer-in-Chief to be directed to repair same at cost of about \$140.

5th. Reporting as to condition of Pier 61, East river, and recommending three several plans for remedying the defect caused by the crib-work protruding beyond the lines of the pier and being

dangerous to vessels lying alongside said pier. Engineer-in-Chief to be directed to drive oak fender piles as stated in his third recommendation, and to do the work substantially pursuant to such plan.

The Secretary having stated that the five-pay-rolls for the month of December, 1881, amounting in the aggregate to the sum of \$5,660.27, had been approved and audited, and that the same had been forwarded, together with the proper requisitions for the amount, to the Finance Department for payment, the action of the Secretary was,

On motion, approved.

On motion, the pay-roll for the construction and general repairs force for the half-month ending December 31, ultimo, and amounting to the sum of \$6,325.18, was approved and audited, and the Secretary directed to forward the said pay-roll, together with the proper requisitions for the amount, to the Finance Department for payment.

On motion, the Board adjourned.

JOHN T. CUMING, Secretary.

At a meeting of the Board of Docks, held January 11, 1882.

Present—The full Board.

The minutes of the meeting held on January 4th, instant, were read and approved.

The following communications were received, read, and,

On motion, placed on the table, to await action, as stated, to wit :

From Counsel to the Corporation—Reporting the settlement for the sum of \$4,700 of the claim against R. Cornell White, for \$15,000, for rent of Pier 37, East river. Referred to the Treasurer.

From Engineer-in-Chief—Submitting specifications and form of contract for repairs to Pier 58, East river.

From John D. Crimmins—Application for permission to erect dumping board at foot of Sixty-second street, East river. Referred to President and Treasurer.

From James Gillies—Application for leave to build a pier or dock at the foot of Fiftieth street, North river. Engineer-in-Chief to be directed to examine and report as to water grants.

From Scott & Co.—In reference to repairs necessary to Piers at Thirty-fourth and Thirty-fifth streets, North river. Engineer-in-Chief to be directed to examine and report thereon.

From Engineer-in-Chief—Reporting that dredging has not been done by owners of Piers, 10 and 11, East river, as directed by Board. Secretary directed to notify the alleged owners to have dredging done in five days, or this Department will do the work and charge the cost thereof to them.

The following communications were received, read, and,

On motion, placed on file, action being taken where necessary, as stated, to wit :

From Counsel to the Corporation—Opinion as to right of Board to incur liabilities prior to appropriation of bonds for use of Department. Secretary directed to have same recorded.

From CITY RECORD—Requesting Department to furnish list of officers and employes, pursuant to section 111 of chapter 335, Laws of 1873. Secretary directed to furnish same.

From W. W. Shippen, President Hoboken Land and Improvement Co.—In reference to the abstract of title of the company to property at foot of Barclay street, North river, and asking for extension of time to present same. Secretary directed to advise that the additional time asked for be granted.

From Comptroller of the City—In reference to claim of Union Dredging Company, on requisition No. 2, November 3, 1881, having been deducted, as not being included in the agreement of May 9, 1881,

From Police Department—In reference to notice designating piers and bulkheads from which to dump clean snow and ice during the present season.

From George Ott, Jr.—In reference to the collection of money by foreman of dock-builders on Pier at Fortieth street, North river. Secretary directed to advise that upon investigation it was found that the money was not paid to any of the employes of this Department, that, at the time stated, the Pier at Fortieth street, North river, was being repaired under contract with Holmes Brothers, and that no one but the lessee of the pier had any authority to collect any moneys for wharfage or otherwise for use of said pier.

From John F. Doyle—In reference to notice served on him to dredge the slip between Piers 14 and 15, East river. Secretary directed to advise that further notice will be given to Mr. Doyle when dredging will be required to be done.

From Counsel to the Corporation—Decision of the General Term of the Supreme Court of the State of New York, in the suit of Thomas Keech against Hubert O. Thompson, Commissioner of Public Works.

From Engineer-in-Chief—

1. Reporting on the cause of delay on the part of the contractor in completing the repairs to Pier at Fortieth street, North river. Secretary directed to notify James McClenahan, lessee of pier, that his claim for \$380, by reason of failure of the contractor to complete the repairs within the specified time, cannot be allowed by this Board, they being of the opinion that they have no legal right to remit the payment of rent for premises leased by them, for any cause whatsoever, and that all applications of that character are required by law to be made to the Comptroller for his action thereon.

2. Reporting condition of Pier 15, East river.
3. Reporting on cause of delay on part of contractor John Gillies in completing contracts, No. 136, for repairing Pier 38, East river, and No. 139, for building Pier at Nineteenth street, North river.
4. Reporting on condition of approach to Pier 44, East river, and that the pavement requiring repair is not within the jurisdiction of this Department. Secretary directed to request the Commissioner of Public Works to have same repaired, it being under the control of that Department.
5. Report of work done during week ending January 7th, instant.
6. Reporting that Pile-driver No. 7, which had been delivered to Holmes Brothers, December 14th, ultimo, pursuant to order, was returned by them December 31st, ultimo. Treasurer requested to send bill therefor.
7. Reporting on condition of plank roadway to Pier, new 38, North river. Engineer-in-Chief to be directed to make necessary repairs thereto at a cost of about \$200.
8. Reporting repairs necessary to Pier at One Hundred and Ninth street, East river, and estimate of cost thereof at \$32. Engineer-in-Chief to be directed to repair same.
9. Reporting accumulation of dirt on bulkhead line from Spring street to Barrow street, North river, and estimate of the cost of removing same at \$115. Engineer-in-Chief to be directed to have the work done.
10. Reporting that the Union Ferry Company had driven 21 oak piles between the ferry-rack and easterly side of Pier 21, East river, and that the pier was seriously injured by the ferry boats striking against and jarring it, the piles having been driven so close to the pier as to rest against it, by reason of which, the pier has to bear almost the whole force of the blow when a ferry boat strikes the rack on entering into the slip. Secretary directed to notify the Union Ferry Company to remove said piles within five days, under the supervision of the Engineer-in-Chief.
11. Reporting the completion of work, etc., etc., on Secretary's Orders, Nos. 2188, 2224, 2231, 2244, and 2256.

A communication was received from the Counsel to the Corporation in reference to claim for \$1,927.50, against David Whipple, for rent of westerly half of Pier 12, East river, and recommending that the same be settled and compromised for the sum of \$963.75, and, being read, was

On motion, placed on file, and, in connection therewith,

A communication from the Comptroller of the city, approving of the proposed settlement, was received, read, and,

On motion, placed on file, and the Secretary directed to enter the same in full on the minutes, as follows:

CITY OF NEW YORK—FINANCE DEPARTMENT, {
COMPTROLLER'S OFFICE, January 9, 1882. }

Hon. JOHN K. VOORHIS, President Department of Docks:

SIR—Your communication of 7th instant, relating to a claim against David Whipple, for rent of Pier 12, East river, from November 1, 1880, to May 1, 1881, amounting to \$1,927.50, has been received.

It is proposed to settle and compromise this claim for the sum of \$963.75, for reasons fully set forth in correspondence with the Counsel to the Corporation, and as advised by him.

You ask my approval of this proposed settlement, pursuant to the provision of section 31 of chapter 335 of the Laws of 1873, and in view of the facts as stated, I do hereby give my consent to and approval thereof.

Respectfully yours,

(Signed)

ALLAN CAMPBELL, Comptroller.

On motion of the President, the following preamble and resolution in relation thereto were unanimously adopted :

Whereas, The claim of this Department against David Whipple for the sum of \$1,927.50, for rent of westerly half of Pier 12, East river, from November 1, 1880, to May 1, 1881, having been proposed to be settled and compromised for the sum of \$963.75, and the Counsel to the Corporation having advised that this Board accept the said sum of \$963.75 in settlement of said claim, and the Comptroller of the city having, pursuant to section 31 of chapter 335 of the Laws of 1873, given his consent to and approval thereof ; therefore,

Resolved, That the settlement of said claim be approved by this Board, and the Treasurer be and he is hereby authorized to accept the sum of \$963.75 in full settlement in discharge thereof.

A communication from Ogden & Co., in reference to notice served on them December 28, 1881, requiring them to repair bulkhead between Twenty-first and Twenty-second streets, North river, and asking for a suspension of the order, was received, read, and,

On motion, placed on file, and the following resolution was offered by the President in relation thereto :

Resolved, That the order above referred to be suspended temporarily, say until the 1st March, 1882, in consequence of the liability of frost entering the ground during the progress of the repairs, provided the lessees or owners of the bulkhead at once make the same safe and free from danger, this suspension, however, not to authorize the continuance of any obstruction on said bulkhead that may be in violation of law.

Which was lost by the following vote :

Aye—The President.

Noes—Commissioners Vanderpoel and Laimbeer.

And the application for suspension of said order was therefore denied.

The communication from the Engineer-in-Chief respecting repairs required to bulkhead south of Pier, old 54, North river, was,

On motion, taken from the table and placed on file, and the Secretary instructed to direct the Engineer-in-Chief to have the necessary repairs made thereto at a cost of about \$500.

Commissioner Laimbeer, to whom was referred the communication from John J. Astor, in reference to Pier at Thirteenth street, North river, reported thereon, that it would require a search to

be made to show in whom the title is vested, and offered the following resolution in relation thereto, which was unanimously adopted :

Resolved, That all papers and information now in the hands of this Department in regard to Pier at foot of Thirteenth street, North river, and the alleged ownership thereof by John J. Astor, be sent to the Counsel to the Corporation for his opinion as to what this Department should do in regard to the income thereof, collection of wharfage therefrom, and whether they would be justified in taking possession of said pier on behalf of the city.

The President, to whom was referred the form of the proposed agreement to be executed by the People's Ferry Company, to keep and maintain Pier 55, East river, in good order, and to repair any and all damage that might be done to said pier, by reason of the boats used by said ferry striking against and injuring the same, reported thereon and presented a form of agreement, which was,

On motion, approved, and the Secretary directed to inclose same to said ferry company to be executed.

The President offered the following resolution respecting Pier 15, East river, which was unanimously adopted :

Resolved, That the Counsel to the Corporation be and hereby is requested to advise the Department of Docks at as early a day as possible, as to the liability and duty of the Union Ferry Company, to repair, maintain, and keep in good and safe condition, the easterly half of Pier 15, East river, under the terms and conditions of the lease or agreement by virtue of which the ferry company occupy and use for ferry purposes the slip or bulkhead between Piers 15 and 16, East river.

The President offered the following resolutions, which were unanimously adopted :

Resolved, That the Treasurer be and hereby is directed to report at the next meeting of this Board a complete exhibit of the amount of moneys received by him from every source for or on account of the Department of Docks, for the period embraced between May 1, 1881, and December 31, 1881, inclusive, stating in detail from whom said moneys were received, and for or on account of what object or purpose, with the date of each receipt, and the disposition of such moneys so received, with the date of such disposition.

Resolved, That the Treasurer be and hereby is directed and required to report in detail as above, at the next meeting of this Board, the amount of money received by him for or on account of the Department of Docks, from January 1, 1882, to date, with the disposition and the date of such disposition.

Resolved, That the Treasurer be and hereby is directed to report at each stated meeting of the Board, each and every sum of money, check, obligation, or article of value received by him for or on account of the Department of Docks since the date of the preceding report, giving in detail the amounts received, the names of the parties paying or contributing the same, and the purpose or object on account of which such payments or contributions have been paid or made, and the disposition of such receipts, with the date thereof.

Resolved, That the Treasurer be and hereby is directed to report at the next meeting of this Board, a list of all sums and amounts owing or remaining unpaid on the 1st instant, on the part of

y and all persons, to the Department of Docks, for any privileges, permits, wharfage, or use of any article or property under the control or jurisdiction of this Department.

Resolved, That the Treasurer be and hereby is directed to report from time to time all and every omission or delay, on the part of any lessee or debtor of the Department, to promptly comply with the terms of payment of any lease, contract, or agreement entered into with or by the Department of Docks. It being understood, and the Commissioners unanimously agreeing, that the Treasurer be authorized to employ such additional clerical help as might be necessary to enable him to comply with the terms of the resolutions.

The following requisitions were read, and,

On motion, approved:

Register No. 3433, for 3 pairs each, Nos. 7, 8, 9 and 10 rubber boots, estimated cost, about	\$50 00
" 3434, for 4 coils manila rope, estimated cost, about	350 00
" 3436, for 6 feather dusters, Gansevoort street yard, estimated cost, about ..	9 00
" 3438, for 225 cubic yards broken stone, " " ..	410 00
" 3439, for 1 roll tracing paper, " " ..	3 00
" 3440, for repairs to 13 hoisting blocks, " " ..	50 00
" 3441, for ½ set of grates, Pile-driver No. 11, " " ..	30 00
" 3442, for 1 coil 5-inch manila rope, " " ..	125 00
" 3443, for labor and material to repair pipe on Pier 43, North river, estimated cost, about	25 00

On motion, the Board adjourned.

JOHN T. CUMING, Secretary.

At a special meeting of the Board of Docks, held January 13, 1882.

Present—The full Board.

The Auditing Committee presented an audit of twenty-two bills or claims, amounting to the sum of \$34,742.75, and, being read, was,

On motion, accepted and adopted, and the Secretary directed to forward the said bills, together with proper requisitions for the amount, to the Finance Department for payment.

Commissioners Laimbeer and Vanderpoel, pursuant to the terms of the resolution of the Board adopted August 12, 1881, and in accordance therewith, reported, and presented the following resolution, which was unanimously adopted:

Resolved, That Frederick Perry be and is hereby appointed Temporary Clerk to prepare such reports as may be required by the Treasurer, in order to comply with the resolution of the Board

adopted January 11, 1882, at a compensation of one dollar and a half (\$1.50) per hour for time so employed.

The communication from the Engineer-in-Chief in reference to repairs required to the platform in front of bulkhead south of Pier, old 54, North river, was taken from file and read, and,

On motion, replaced on file, and the Secretary directed to notify the alleged owners of that portion thereof, extending 122 feet south of Pier, old 54, North river, to repair same within ten days, under the supervision of the Engineer-in-Chief, or this Department will repair the same at their cost and expense.

Commissioner Laimbeer offered the following resolution in relation to the said premises, which was unanimously adopted :

Resolved, That the Counsel to the Corporation be and hereby is requested to give his opinion to this Board respecting the right of this Department to take possession of and receive and collect the revenue or income from wharfage, etc., accruing thereat, of the premises known and described as follows: The bulkhead on the water front of the North river, commencing at a point on the southerly side of West Eleventh street, and extending southerly a distance of about 363 feet along the said bulkhead line, said premises being claimed to be the property of the heirs or assignees of A. Hammond, and this Board being of the opinion that the title to the said premises is vested in and properly belongs to the Corporation of the City of New York.

A communication was received from the Engineer-in-Chief, in reference to the annual meeting of the American Society of Civil Engineers, and the inspection and examination of the work done by this Department, by members of the society.

On motion of the President, the following resolution was unanimously adopted :

Resolved, That the members of the American Society of Civil Engineers be invited to inspect and examine the works now in course of construction or under charge of this Department, and that the Engineer-in-Chief be directed to extend to the members of said society all facilities for such examination as may be within the control of this Board.

On motion, the Board adjourned.

JOHN T. CUMING, Secretary.

At a meeting of the Board of Docks, held January 18, 1882.

Present—The full Board.

The minutes of the meetings held January 11 and 13 were read and approved.

The following communications were received, read, and,

On motion, placed on the table to await action, as stated, to wit :

From Counsel to the Corporation—In reference to claims against various parties for rent of wharf property placed in his hands by this Department for collection, and inclosing check for \$375, collected for claim against William H. Wood, for rent of half Piers 56 and 57, East river; also two transcripts of judgments obtained as follows: one against John E. Hoagland, for arrears of rent of bulkhead between Piers 45 and 46, North river, amounting to the sum of \$960.95; the other against Jesse Ryder, for arrears of rent of Pier at Seventy-ninth street, North river, amounting to the sum of \$677.68. Secretary directed to transfer check to the Treasurer, and to have the amount thereof, as well as the amount of said judgments, properly credited to the account of the Counsel to the Corporation, and also to advise him of such action, and that as soon as the information desired by him as to other claims can be obtained, it will be promptly furnished.

From Department of Street Cleaning—In reference to dumping board at Thirty-seventh street, North river, as to whether it is inside or outside the bulkhead line. Engineer-in-Chief to be directed to examine and report, and Secretary to transmit his report thereon to the Department of Street Cleaning.

From Engineer-in-Chief—Reporting on Secretary's Order No. 1807, as to filling in on water-front between One Hundred and Fortieth and One Hundred and Forty-second streets, North river. Secretary directed to notify Mr. Hogue that Board have under consideration the advisability of revoking permit heretofore granted for filling thereat.

From Engineer-in-Chief—Reporting on Secretary's Order No. 2227, form of specifications for repairing the platform on bulkhead between Thirty-eighth and Thirty-ninth streets, East river. Specifications approved, and referred to Treasurer to obtain estimates for the performance of the work other than by the force of the Department.

From Reuben E. Knapp—In reference to office on bulkhead between Piers 16 and 17, East river. Referred to Commissioner Laimbeer.

From Edward H. Coffin—In reference to and requesting permission to replace the present hanging ferry-bridge at One Hundred and Thirtieth street, North river, by a floating bridge and other improvements thereat. Engineer in-Chief to be directed to examine and report thereon and to make a map of the premises.

From Comptroller of the City—In reference to ferry-bridge, etc., at One Hundred and Twenty-ninth street, North river.

From Samuel T. Mather, Ex'r, and William Crolius—In reference to and protest against the erection of platform and shed by the New York, New Haven and Hartford Railroad Company, between Montgomery street and Gouverneur slip, East river. Referred to the President.

From Commissioner Vanderpoel—Reporting statements of accounts in pursuance of resolutions adopted January 11, 1882. Referred back to the Treasurer for verification, sufficient time not having been allowed to properly verify same, prior to the meeting.

From Comptroller of the City—In reference to leasing Greenpoint ferry property at Twenty-third street, East river, and as to fixing an upset price therefor. Engineer-in-Chief to be directed to furnish plans and map, showing property in question and recently leased to the ferry company by the Corporation of the City.

The following communications were received, read, and,

On motion, placed on file, action being taken where necessary, as stated, to wit :

From Counsel to the Corporation—Copy of opinion furnished to the Commissioners of the Sinking Fund, as to the employment of special counsel for the Department of Docks, to protect the interests of the city in respect to property on the water-front. Secretary directed to record same.

From Counsel to the Corporation—In reference to claim against Frederick Schecker, for rent of Pier at Fifty-seventh street, North river, and requesting copy of the lease thereof to Schecker. Secretary directed to advise that the lessee purchased said lease at public sale, held March 22, 1881, and that no lease had been executed, and also to request the lessee to call and see the Commissioners.

From Counsel to the Corporation—In reference to, and requesting copies of all papers relating to claim against R. E. Allen. Secretary directed to reply thereto, and furnish copies of all papers and all information required.

From David Whipple—In reference to dredging the slip between Piers 10 and 11, East river, pursuant to notice served on him by this Department, and requesting an extension of time for such purpose. Secretary directed to advise that five days' further time be granted.

From CITY RECORD—Requisition for list of officers and employes of Department. Secretary directed to send list of same as soon as practicable.

From Counsel to the Corporation—In reference to proceedings taken to acquire title to the northerly half of Pier 33 and the southerly half of Pier 34, North river, and notifying this Board that the same had been discontinued for various reasons, it being claimed by the Rhinelander estate that no application had been made by the Commissioners of Docks to the owners, or their properly authorized representatives, of the piers to fix a price therefor. Secretary directed to communicate with the owners or their legal representatives requesting them to name a price for the said premises, in consideration of which they would be willing to sell the same to the city.

From Engineer-in-Chief—

1st. Reporting on Secretary's Order No. 2220, as to repairs necessary and required to the bulkheads between Piers 14 and 15, 27 and 28, and 28 and 29, East river. Secretary directed to notify owners of said premises to repair same in ten days, under supervision of the Engineer-in-Chief, or this Department will do the work and charge the cost thereof to them.

2d. Report on Secretary's Order No. 2232, as to condition of Piers 3 and 4, East river, and repairs necessary thereto. Secretary to notify lessee of east half of Pier 4, and owner of west half

of Pier 4, East river, to repair same in five days, under the supervision of the Engineer-in-Chief, or this Department will do the work and charge the cost thereof to them.

3d. Report on Secretary's Order No. 1867, as to condition of pier near High Bridge on Harlem river. Secretary to notify owner thereof to put same in safe condition at once, for use of foot passengers, to be done under the supervision of the Engineer-in-Chief.

4th. Report on Secretary's Order No. 1467, that permit to erect platform on south side of pier at Twentieth street, North river, had been revoked.

5th. Report on Secretary's Order No. 1844, as to alterations in plans for foundations of Pier, new 55, North river.

6th. Report on Secretary's Order No. 1826, as to plans for shed on Pier, new 55, North river, being withdrawn and others substituted therefor.

7th. Report on Secretary's Order No. 2101, as to repairs directed to be made to Pier 15, East river.

8th. Report on Secretary's Order No. 2263, that the owners of bulkhead between Twentieth and Twenty-first streets, North river, had not repaired same as directed by this Board. Engineer-in-Chief to be directed to repair the bulkhead between Twentieth and Twenty-first streets, North river, in case the owner thereof does not commence work thereon by Monday, 23d instant, also that if Ogden & Co. do not commence repairs to the bulkhead between Twenty-first and Twenty-second streets, North river, on or before Saturday, 21st instant, the Engineer-in-Chief prepare at once plans and specifications for repairing same by contract.

9th. Report on Secretary's Order No. 2156, that repairs were completed to bulkhead at Pier 60, East river.

10th. Report on Secretary's Order No. 2213, that repairs were completed to Pier at Thirty-eighth street, North river.

11th. Report on Secretary's Order No. 1913, as to Piers 58 and 59, East river, having been fenced off pursuant to order of December 9, 1881.

12th. Reporting that the slip between Piers 10 and 11, East river, had not been dredged by the owners, as required by order of the Board, and that the owners requested five days further time to do same.

13th. Report on Secretary's Order No. 2251, that the estate of G. W. Welsh, owners, and Messrs. Tremper and Coykendall, lessees of the bulkhead at foot of Harrison street, North river, had not made the repairs thereto, as required by order of this Board. Engineer-in-Chief to be directed to have the repairs made and report the cost thereof, same to be charged to the owners and lessees of said bulkhead respectively.

14th. Report on Secretary's Order No. 2248, that repairs have not been made to the bulkhead south of West Eleventh street, North river, by the alleged owners thereof, as required by order of this Board. Engineer-in-Chief to be directed to prepare plans and specifications for the repairing of the same by contract.

15th. Reporting that Aaron Raymond, owner of bulkhead between Ninetieth and Ninety-first streets, East river, has not repaired same, as required by order of this Board. Secretary to

notify owner to have repairs made in five days, or this Department will proceed to do same at his cost and expense. Engineer-in-Chief to be directed to have plans and specifications prepared to repair same by contract, if owner does not commence work in five days.

16th. Reporting on the condition of the street approaches to Piers, new 54, 55, 56 and 57, North river. Secretary directed to communicate with the Common Council, requesting that an ordinance be passed by them to regulate and grade, curb, flag sidewalk four feet wide, and pave Thirteenth avenue, from Twenty-fifth to Twenty-eighth street; also to regulate and grade, curb, flag sidewalk four feet wide, and pave Twenty-fifth, Twenty-sixth, Twenty-seventh, and Twenty-eighth streets, respectively, from Eleventh avenue to the North or Hudson river, where the same is not already done, this Board deeming it necessary and requisite that the same should be done to open up and maintain good and sufficient street approaches to the several new piers on the water-front, now in course of construction and nearly finished in that vicinity, and to afford access thereto, and the Secretary also to advise the Department of Public Works of the action of the Board in reference thereto, and request the concurrence of that Department in reference thereto.

From William L. McConkey, Corporation Wharfinger—Reporting on condition of Pier 55, East river, that same was injured by the ferry-boats colliding with the pier. Engineer-in-Chief to be directed to examine and report thereon.

A communication from the Commissioners of the Sinking Fund was received, read, and,

On motion, placed on file, and the Secretary directed to enter same in full on the minutes, as follows:

CITY OF NEW YORK,
COMMISSIONERS OF THE SINKING FUND. }

At a meeting of the Commissioners, held January 13, 1882, the following resolution was adopted, viz.:

Resolved, That the Comptroller, in accordance with subdivision 11 of section 6 of chapter 374 of the Laws of 1871, be and he is hereby authorized and directed to prepare and issue, from time to time, as he may deem necessary to meet the requirements of the Department of Docks, *Dock Bonds* of the City of New York, amounting to two hundred and fifty thousand dollars, for the purpose of raising moneys necessary to carry out the provisions of said act relating to the improvement of the water-front of the city, under its powers and duties, as per and on account of requisition of said Department, dated December 21, 1881, for the sum of seven hundred and fifty thousand dollars.

(Signed)

W. H. DIKEMAN, Secretary.

TO DOCK COMMISSIONERS.

A communication from the Counsel to the Corporation—In reference to dock and pier property belonging to the city, being stated to be in possession of persons having no right to it, was received, read, and,

On motion, placed on file, and the following resolution, offered by the President in relation thereto, was unanimously adopted:

Resolved, That the communication from the Counsel to the Corporation of the 13th instant, addressed to the President, calling for information as to the existence of cases, where city property is in the possession of other parties unlawfully, be referred to each Commissioner for answer, either through the President, or to the Counsel to the Corporation direct.

A communication from the Counsel to the Corporation, transmitting the proposed form of lease to be used by this Department, and approving the same, was received, read, and,

On motion, placed on file, and the following resolution, offered in relation thereto, was unanimously adopted :

Resolved, That the printed form of lease submitted to this Board and approved as to the form thereof by the Counsel to the Corporation, be and is hereby adopted as the form of lease to be used by this Board for wharf property leased at public sale on and after March 22, 1881, and that the Secretary is authorized to have such number thereof as he may deem necessary printed, and he is further directed to have a sufficient number thereof bound in book form for the use of this Department.

The communication from the Counsel to the Corporation, in reference to the settlement of the claim against R. Cornell White, for rent of Pier 37, East river ; was,

On motion, taken from the table and placed on file, and the communication from the Comptroller of the City, in relation thereto, was received, read, and,

On motion, ordered on file, after being entered in full on the minutes, as follows :

CITY OF NEW YORK—FINANCE DEPARTMENT,)
COMPTROLLER'S OFFICE, January 13, 1882. }

To Department of Docks :

I have received from the Corporation Counsel, in settlement of claim against R. Cornell White, a check for \$2,700 (which has been deposited January 4th to credit of dock and slip rent), and a note for \$2,000, dated December 19, 1881, payable three months after date, which is inclosed herewith for collection, said check and note being in full settlement of said claim made by the Corporation Counsel with my consent.

(Signed)

ALLAN CAMPBELL, Comptroller.

And the following resolution, offered by Commissioner Laimbeer in relation thereto, was unanimously adopted :

Resolved, That the Treasurer be and hereby is requested to cause the proper entry to be made upon the books of the Department exhibiting the settlement of the claim for \$15,000, against R. Cornell White, for the sum of \$4,700, in conformity with the said communications from the Counsel to the Corporation and the Comptroller, and giving credit for the \$2,700 deposited with the Chamberlain, and that the proper credit for the note of \$2,000 be given upon its payment at maturity.

The application of James Gillies for leave to erect a pier or dock at Fiftieth street, North river, was,

On motion, taken from the table and placed on file, and the report of the Engineer-in-Chief on Secretary's Order No. 2274, in relation to the issue of watergrants for said premises, being received and read, was,

On motion, placed on file, and the application for leave to build a pier or dock thereat denied, and the following preamble and resolution, offered by the President, was unanimously adopted:

Whereas, The Commissioners of the Sinking Fund having, as it appears by the records, on the 21st day of May, 1867, adopted a resolution whereby the Comptroller of the City was authorized to cause a grant to be issued to John J. Astor, Jr., William Astor and Henry Astor, for certain land under water on the Hudson river, between Forty-ninth and Fifty-first streets, and extending to the exterior line of the city as then fixed by law, at \$75 per foot front, running measure; and

Whereas, The said John J. Astor, Jr., William Astor and Henry Astor, have failed to comply with the terms and conditions in said authorized grant mentioned, by the payment by them of the consideration therein expressed; therefore,

Resolved, That the Commissioners of the Sinking Fund be and they hereby are respectfully requested to rescind and annul the resolution heretofore, on the 21st day of May, 1867, adopted by them, authorizing a grant to be issued to John J. Astor, Jr., William Astor and Henry Astor, for land under water between Forty-ninth and Fifty-first streets, North river, and to declare the grant so authorized to be made null and void and of no effect, the said grantees not having complied with the terms of said grant by the payment of the sum conditioned to be paid therefor.

The application of Perrin Payson & Co., dated June 28, 1880, for leave to fill in water-front between One Hundred and Fifty-eighth and One Hundred and Sixty-second streets, North river, was,

On motion, taken from the table and placed on file, and the report of the Engineer-in-Chief on Secretary's Order No. 1620, in relation thereto, having been received and read, was,

On motion, placed on file, and the Secretary instructed to direct the Engineer-in-Chief to examine and report as to water grants issued or authorized to be issued for the said premises.

Contract—North Brother Island.

On motion, the bids received and publicly opened on December 8, 1881, for building a new wooden pier at North Brother Island, was taken from the table and placed on file, and the following resolution in relation thereto unanimously adopted:

Resolved, That the contract for building a new wooden pier on North Brother Island, East river, be and is hereby awarded to Mahoney Brothers, of 63 Madison street, their bid for doing said work being the lowest under estimates publicly opened the 8th ultimo, and the Comptroller having approved of the sureties to the estimate of said Mahoney Brothers on the 10th ultimo.

Contract—Coenties Slip.

On motion, the bids received and publicly opened November 23, 1881, for removing certain old structures and building a crib bulkhead at Coenties slip, East river, was taken from the table and placed on file, and the following resolutions, offered by Commissioner Laimbeer, were unanimously adopted :

Resolved, That the resolution adopted by this Board on the 23d day of November, 1881, whereby the estimate presented by Warren Rosevelt for removing certain old structures and for building a crib bulkhead, etc., at Coenties slip, East river, was declined to be received, be and hereby is rescinded and annulled ; and be it further

Resolved, That the contract for removing certain old structures, and for building a crib bulkhead, with appurtenances, at Coenties slip, East river, be and hereby is (pursuant to the written advice of the Counsel to the Corporation, under date of December 1, 1881) awarded to Warren Rosevelt of 257 South street, his bid for doing said work being the lowest as well as the only regular and legal bid, as this Board is advised, under the estimates publicly opened on the 23d of November, 1881, such award, however, being made subject to the approval by the Comptroller of the City, of the sureties of the said Warren Rosevelt to the said estimate.

The following resolution, offered by the President, was unanimously adopted :

Resolved, That the Secretary be and hereby is directed to prepare and submit at the next stated meeting of the Board a full and complete list of all leases or agreements heretofore made or authorized to be made by the Board governing the Department of Docks, for or on behalf of the Corporation of the City of New York, with any and all parties who are lessees, tenants, or occupants of any pier, bulkhead, or wharf property of the City of New York, and for which no lease, agreement, or other instrument, in writing, has been executed by the parties thereto.

The following estimates for insuring the 100-ton derrick "City of New York" for \$75,000, were received and opened by the Treasurer :

J. L. Montgomery,	1 year,	42 cents ;	3 years,	85 cents.
Geo. H. Hallett,	"	41 "	"	82 "
Henry Hildbergh,	"	36 "		
Frank & Dubois,	"	40 "	and,	

On motion of Commissioner Laimbeer, the matter was referred to the Treasurer, with power to award the contract to the lowest bidder for effecting the insurance in first-class city companies, satisfactory to and approved by the Treasurer.

The Secretary stated that he had, by direction of the Commissioners, forwarded to the Counsel to the Corporation the papers served in the respective suits commenced, in which the Commissioners governing this Department are impleaded with the Mayor, Aldermen, etc., as defendants, as follows :

A suit commenced in the United States Circuit Court, Southern District of New York, in which George H. Ingersoll is plaintiff, and the Mayor, etc., are defendants, service made on Commissioner Vanderpoel on December 29, 1881, at 2.20 o'clock P. M., of subpoena, bill of com-

plaint, affidavits, order of injunction, and notice of motion, whereby this Department was enjoined and restrained from building or constructing the new bulkhead wall along the water-front between Twenty-third and Twenty-fourth streets, North river, transmitted to the Counsel to the Corporation on December 31, 1881.

A suit commenced in the Circuit Court of the United States, Southern District of New York, in which Edward A. Smith is plaintiff, and the Mayor, etc., are defendants, service made on Commissioner Vanderpoel, January 14th inst., at 10.30 o'clock A. M., of subpoena, bill of complaint, affidavits, and order of injunction, wherein and whereby this Board was enjoined and restrained from proceeding with the work of constructing and erecting the northerly half of the new bulkhead wall between Twenty-fifth and Twenty-sixth streets, North river, transmitted to the Counsel to the Corporation on January 14, inst.

On motion, the action of the Secretary was approved.

Commissioner Vanderpoel stated that a writ of subpoena, issued out of the Circuit Court of the United States for the Southern District of New York, returnable on February 6, proximo, in a suit in which Henry K. S. Williams is complainant, and the Mayor, etc., are defendants, had been served on him, January 17, instant, at 1 P. M.

The Secretary directed to transmit same to the Counsel to the Corporation, and to request him to appear therein and protect the interests of the city in the proceedings thereby instituted.

On motion, the pay-roll for labor and general construction account for the half month ending 15th inst., amounting to the sum of \$4,862.85, was approved, and the Secretary directed to forward the same, together with proper requisitions for the amount, to the Finance Department for payment.

The following requisitions were,

On motion, approved:

Register No. 3446, for 15,500 B. M., 12x12 spruce; estimated cost, about.....	\$186 00
Register No. 3447, for 22,000 B. M., 4-inch N. C. yellow pine; estimated cost, about....	418 00

On motion, George Lavery was appointed as a Watchman.

On motion, the Board adjourned.

JOHN T. CUMING, Secretary.

At a meeting of the Board of Docks, held January 25, 1882.

Present—The full Board.

The minutes of the meeting held January 18, inst., were read and approved.

The following communications were received, read, and,

On motion, laid on the table to await action, as stated, to wit :

From William Ryan—Application for reinstatement as night watchman in the Department. Referred to the Engineer-in-Chief for examination and report.

From Engineer-in-Chief—Report on Secretary's Order No. 2275, as to Union Ferry Company not having removed the piles driven between the ferry rack and Pier 21, East river, as directed by the Board.

From N. Y. Central and Hudson River Railroad Company—For permission to fill in on the North river, between Seventy-second and Seventy-sixth streets, to make additional track within the lines of the company's property. Engineer-in-Chief to be directed to examine and report.

From Mahoney Brothers—Asking for extension of time to complete contract for building a new wooden pier, at North Brother Island. Referred to President and Treasurer.

A report from the Engineer-in-Chief on Secretary's Order, No. 2191, as to grants of land under water on the East river between Third and Fifth streets, was received, read, and,

On motion, placed on the table to await action, and the following resolution in relation thereto, offered by Commissioner Laimbeer, unanimously adopted :

Resolved, That the Counsel to the Corporation be and hereby is requested to give his opinion to this Board, respecting the right of this Department to take possession and receive and collect the revenue or income from wharfage, etc., accruing thereat, of the premises known and described as follows: Bulkhead along the water-front between Third and Fifth streets, East river. The premises between Third and Fourth streets is claimed to be the property of John Dimond, and between Fourth and Fifth streets, C. H. Fay (executor of Stephen Smith), and this Board being of the opinion that the title to the said premises is vested in and properly belongs to the Corporation of the City of New York.

A report from the Engineer-in-Chief on Secretary's Order No. 2282, as to grants of land under water on the North river, between One Hundred and Fifty-eighth and One Hundred and Sixty-second streets, was received, read, and,

On motion, placed on the table, to await action, and the following resolution in relation thereto, offered by Commissioner Laimbeer, was unanimously adopted :

Whereas, The Commissioners of the Sinking Fund having, as it appears by the records of their proceedings, adopted resolutions authorizing the issue of grants for land under water to the following named parties, to wit :

1st. March 17, 1851, to Dennis Harris, between One Hundred and Fifty-eighth and One Hundred and Sixty-second streets, North river, at \$3 per running foot.

2d. December 13, 1852, to Shephard Knapp, from One Hundred and Sixty-second to One Hundred and Sixty-fourth streets, North river, at \$3 per running foot.

3d. November 8, 1858, to Plume and Lamont, from One Hundred and Sixtieth to One Hundred and Sixty-second streets, North river, at \$5 per running foot.

4th. December 27, 1865, to Bartolome Blanco, from One Hundred and Fifty-eighth to One Hundred and Sixty-first streets, North river, at \$50 per running foot.

5th. May 14, 1869, to William A. Wheelock, from One Hundred and Fifty-seventh to One Hundred and Fifty-ninth streets, North river, at \$10 per running foot; and

Whereas, It appears that the grants so authorized have not been issued, and that the aforesaid parties have failed to comply with the terms and conditions in said authorized grants mentioned by the payment by them of the consideration therein expressed; therefore

Resolved, That the Commissioners of the Sinking Fund be and they hereby are respectfully requested to rescind and annul the resolutions heretofore adopted by them, authorizing grants to be issued to the said parties, to wit:

1st. March 17, 1851, to Dennis Harris, between One Hundred and Fifty-eighth and One Hundred and Sixty-second streets, North river, at \$3 per running foot.

2d. December 13, 1852, to Shephard Knapp, from One Hundred and Sixty-second to One Hundred and Sixty-fourth street, North river, at \$3 per running foot.

3d. November 8, 1858, to Plume and Lamont, from One Hundred and Sixtieth to One Hundred and Sixty-second street, North river, at \$5 per running foot.

4th. December 27, 1865, to Bartolome Blanco, from One Hundred and Fifty-eighth to One Hundred and Sixty-first street, North river, at \$50 per running foot.

5th. May 14, 1869, to Wm. A. Wheelock, from One Hundred and Fifty-seventh to One Hundred and Fifty-ninth street, North river, at \$10 per running foot.

And to declare the grants for lands under water, so authorized to be made, null and void and of no effect, the said grantees having failed to comply with the terms of said grants, by the payment of the sums conditioned to be paid therefor.

The following communications were received, read, and,

On motion, placed on file, action being taken where necessary, as stated, to wit:

From G. B. Lawton—In reference to repairing bulkhead south of Pier, old 54, North river.

From J. B. & J. M. Cornell—In reference to building the new bulkhead wall between Twenty-sixth and Twenty-seventh streets, North river.

From Mahony Brothers—Accepting contract for building new wooden pier at North Brother Island, East river.

From John Hooper—Requesting that Board procure his appointment as a Commissioner of Deeds, to facilitate the transaction of the business of the Department under his charge.

From Aaron Raymond—In reference to repairing bulkhead between Ninetieth and Ninety-first streets, East river, as directed by the Board.

From Department of Public Works—As to pavement approach to Pier 44, East river, and that same would be repaired without delay.

From New York Steam Company—Application for lease of bulkhead at Eighteenth street, East river, for from one to five years. Secretary to advise that public sale of wharf property will be held probably in March next, and the notice of such sale will be duly advertised.

From Counsel to the Corporation—Transmitting copy of "Revision of the Special and Local Laws" affecting public interests in New York City, prepared by Commissioners Bliss, Olney, and Whitney, and stating that same has not yet been sanctioned by the Legislature.

From R. F. Westcott—Application for leave to rent from New York Ferry Company a portion of the ferry-house and premises at James slip, East river, for an express office. Application denied, and the Secretary directed to advise that the granting of such permission would be a violation of law.

From John P. Atkinson—Presenting his resignation as watchman in the Department. Resignation accepted.

From Engineer-in-Chief :

1st. Report of work done during week ending January 14th, instant.

2d. Report of work done during week ending January 21st, instant.

3d. Reporting the suspension of John P. Atkinson for being asleep while on duty.

4th. Report on Secretary's Order No. 1497, that dumping board between Forty-fifth and Forty-sixth streets, North river, had been erected by the Municipal Gas Company, in February, 1880, under permit granted by Board.

5th. Report on Secretary's Order No. 2046, that the slip between Piers 6 and 7, North river, had been dredged by the owners thereof, as directed by the Board.

6th. Report on Secretary's Order No. 2055, that borings of the concrete blocks at Gansevoort street yard had been made by Isaac Newton, Chief Engineer of Public Works, pursuant to permission granted by Board.

7th. Report on Secretary's Order No. 1898, that J. & R. Darrow had not erected the platform in front of the bulkhead between Forty-seventh and Forty-eighth streets, North river, as authorized by the Board under permit granted to them May 11, 1881. Permit revoked, and the Secretary directed to notify J. & R. Darrow of the action of the Board revoking same.

8th. Report on Secretary's Order No. 1866, that pile-driver had not been delivered to Holmes Brothers under the order.

9th. Report on Secretary's Order No. 1744, that the new bulkhead between Thirty-ninth and Fortieth streets, East river, had been built and completed under permit granted to W. L. Cutting, executor, etc., by this Board.

10th. Report on Secretary's Order No. 1607, that the cribwork between Fortieth and Forty-first streets, East river, had been built and completed under permit granted by the Board.

11th. Report on Secretary's Order No. 2245, that repairs had been made and completed to the roadway to Pier, new 43, North river.

12th. Report on Secretary's Order No. 1718, that repairs had been made to Pier 41, East river, by Warren Rosevelt, under permit granted by the Board.

13th. Report on Secretary's Order No. 2225, that Pier at One Hundred and Twenty-fifth street, Harlem river, has been repaired as ordered by the Board.

14th. Report on Secretary's Order No. 1750, that the platform between Piers 49 and 50, East river, had been erected under the permit granted by the Board, and that the shed authorized to be erected thereby, had not been built, the Board having revoked the permit granted therefor.

15th. Report on Secretary's Order No. 1659, that repairs being unnecessary to the bulkhead at Forty-fifth street, East river, the order directing the repairs to be made was rescinded by the Board December 7, 1881.

16th. Report on Secretary's Order No. 2272, that the necessary repairs had been made to Pier at One Hundred and Ninth street, East river.

17th. Report on Secretary's Order No. 2266, as to amount of dredging required at slip in front of Bellevue Hospital, and foot of Twenty-sixth street, East river. Engineer-in-Chief to be directed to prepare specifications for dredging same within the area indicated on the tracing accompanying report and colored red.

18th. Report on Secretary's Order No. 2194, as to the condition of Piers 51, 51½, and 52, East river, the repairs required thereto and the estimated cost thereof. Secretary to notify the lessees of the east half of Pier 51, Pier 51½, and the west half of Pier 52, and the owners of the west half of Pier 51, and the east half of Pier 52 to repair same within ten days, under supervision of the Engineer-in-Chief, or this Department will have the same done and charge the cost thereof to them.

19th. Report on Secretary's Order No. 1839, that no dredging had been done in the slip south of Pier, old 39, North river, under the permit granted to A. Van Santvoord and H. P. Farrington lessees. Engineer-in-Chief to be directed to have soundings taken and report if dredging is required to give proper depth of water thereat.

20th. Report on Secretary's Order No. 2278, as to condition of Pier 55, East river, and the damage occasioned thereto by the ferry-boats striking against and jarring it.

21st. Report on Secretary's Order No. 2190, that the shed erected on the bulkhead between Piers, new 20 and new 21, North river, by the New York, Lake Erie and Western Railroad Co., under permit by the Board, has been completed.

22d. Report on Secretary's Order No. 1012, that the New York, Alexandria and Washington Steamship Co., has not erected the shed on Pier 41, East river, as authorized by the Board, under permit of July 3, 1878. Permit revoked, and Secretary directed to notify the company of the action of the Board in relation thereto.

23d. Report on Secretary's Order No. 2279, as to location of dumping board on Pier at Thirty-seventh street, North river, and appending a tracing thereof, as requested by Department of Street Cleaning. The Secretary having stated that he had transmitted same to the Department of Street Cleaning, his action was approved.

From James Fitzpatrick, Corporation Wharfinger—Reporting that vessels could not get into berth at the pier at Nineteenth street, North river, in consequence of a bar formed about twenty

et from the outer end of the pier. Engineer-in-Chief to be directed to have an examination made and report thereon.

A communication from the Engineer-in-Chief in reference to performance of work by the Surveyors in taking soundings and surveying at Eighty-sixth street, East river, and requesting the Board to authorize the payment of the necessary expenses for car fares, etc., incurred in the prosecution of the work, was received, read, and,

On motion, placed on file, and,

On motion of Commissioner Vanderpoel, the Engineer-in-Chief was authorized, in this special case, to approve proper vouchers for such expenditures.

A communication from Frederick Schecker, lessee, in reference to Pier at Fifty-seventh street, North river, was received, read, and,

On motion, placed on file, and the following preamble and resolution, offered by Commissioner Laimbeer in relation to the occupancy of the Pier at Fifty-seventh street, North river, by Frederick Schecker, the lessee thereof, was unanimously adopted :

Dispossess F. Schecker.

Whereas, By virtue of the terms and conditions of a public sale held March 22, 1881, there was granted and assigned to Frederick Schecker, he being the highest bidder therefor, for the term of one year, from the said 1st day of May, 1881, at a yearly rent or sum of \$3,350, all the wharfage and crantage privilege arising or accruing from the use and occupation of that certain wharf property known and designated as Pier at Fifty-seventh street, North river, in the City of New York, and

Whereas, In and by the indenture agreed to be made by said Frederick Schecker, between the Mayor, Aldermen, and Commonalty of the City of New York, acting through its Department of Docks, of the first part, and himself of the second part, it is expressly agreed and provided between the parties thereto, that in the event of the said yearly rent or sum of money, or any part thereof, remaining unpaid for the space of ten days after the same should have become due and payable in accordance with the terms thereof, it should be lawful for the said Department of Docks to serve, or cause to be served, upon the said Schecker a notice in writing, declaring that the said grant and assignment so made as aforesaid had become utterly null and void; and thereupon to have again, repossess, and enjoy said wharfage rights and premises in all respects and in like manner as though such grant and assignment to said Schecker had never been made or executed; and

Whereas, The said Schecker has failed and neglected to pay the said rent or sum of money in and by said proposed indenture agreed to be paid in accordance with the terms thereof, and is now in arrears to this Department on account thereof; therefore it is

Resolved, That the said grant and assignment to the said Schecker as aforesaid, be and the same is hereby declared utterly null and void from and after February 1, 1882, and that notice in writing of such action and determination of this Board on behalf of the Mayor, etc., of the City of New York, to have again, repossess, enter upon, and enjoy said wharfage rights and premises from

and after the aforesaid date be and is hereby served upon the said Frederick Schecker, in conformity to the terms and conditions of said indenture agreed to be executed.

And the Secretary was directed to notify the Corporation Wharfinger to collect the wharfage accruing from vessels berthing at said pier, from and after February 1, 1882.

Astor Pier, Thirteenth street.

The communication from John J. Astor, in reference to Pier at Thirteenth street, North river, and proposing to dispose of his interest therein to the city was,

On motion, taken from the table and placed on file, together with the report of Commissioner Laimbeer, to whom the matter had been referred, and in connection therewith the opinion of the Counsel to the Corporation respecting the title to and ownership of the said pier was received, read, and,

On motion, ordered to be placed on file, after being properly recorded by the Secretary, and the following preamble and resolution, offered by Commissioner Laimbeer in relation thereto, was unanimously adopted :

Whereas, Because of the opinion of the Counsel to the Corporation, given to this Board in answer to letter of January 13, 1882, in relation to the Pier at West Thirteenth street, North river, one-half of which has been claimed by the estate of J. J. Astor, Esq., and the rents and income from which have been collected by the Astor estate, before and since 1850, continuously; and

Whereas, The Counsel to the Corporation says the title is in the city, and we have the right to demand and collect all income therefrom ; therefore

Resolved, That the Treasurer be directed to call for and obtain from the Astor estate an account of all money received by them for or on account of this pier in question, and that the Wharfinger be directed to collect from this date any and all wharfage from said pier, and that the firm of Delamater & Company be notified by the Secretary, that all rents must be now and hereafter paid to this Department.

Commissioner Laimbeer presented to the Board, in reference to communication from the Counsel to the Corporation of January 13th, instant, statements respecting several parcels of property on the water-front of the city, the title to which is believed to be in the city, but which is claimed by, and is at present in the possession of, various parties, who collect the revenue and rent derived therefrom, and have not accounted to the city for the same. The several parcels are described, as follows :

No. 1. Premises on the East river, between Forty-fifth and Forty-sixth streets, from original high-water mark to bulkhead line.

No. 2. Premises next to Pier 1, North river, occupied by the Pennsylvania Railroad Co.

No. 3. Premises on the East river, between Seventy-eighth and Seventy-ninth streets, from original high-water mark to bulkhead line.

No. 4. Premises on the East river, between Forty-seventh and Forty-eighth streets, from original high-water mark to bulkhead line.

No. 5. Premises on the East river, on the northerly portion of the block between Forty-eighth and Forty-ninth streets, from original high-water mark to bulkhead line.

No. 6. Premises on the East river, from a point 46 feet 3 inches south of the southerly side of East Thirty-sixth street, to the centre line of East Thirty-ninth street, from original high-water mark to the bulkhead line.

And offered the following resolution in relation thereto :

Resolved, That the papers and information prepared and herewith submitted, relating to property on North and East river fronts, together with maps of said property and numbered (No. 1), (No. 2), (No. 3), (No. 4), (No. 5), be forwarded to the Counsel to the Corporation for his opinion and instruction as to our duty, in order to obtain a proper income from the same, should he decide it to be within the power of this Board so to do ; and we desire to say that the Department will devote any time and give any attention that may be required by the Counsel to the Corporation, in order to have those several questions decided upon by him.

The President offered the following resolution as a substitute therefor :

Resolved, That the communication presented by Commissioner Laimbeer to the Board this day, in reference to certain pieces of property therein specified, and numbered from 1 to 6 inclusive, be received, and the Secretary directed to transmit the same to the Counsel to the Corporation as emanating from Commissioner Laimbeer, in response to the communication from the Counsel to the Corporation addressed to the President calling for information as to the unlawful possession of city property by other parties, and that the Counsel to the Corporation be and is hereby requested to advise this Board as to its rights and duties in relation to such property

Which was adopted by the following vote :

Ayes—The President and Commissioner Vanderpoel.

No—Commissioner Laimbeer.

Commissioner Laimbeer offered the following resolution in relation to premises at Seventh and Eighth streets, East river, occupied by the East River Ferry Company, which was unanimously adopted :

Resolved, That all papers in the Department, as also the opinion received from the Counsel to the Corporation upon the subject of property on the East river, and now used by the East River Ferry Company, be referred to Commissioner Voorhis, to report his opinion as to what this Board should do in the matter.

The President offered the following resolution in relation to rebuilding Pier, new 37, North river, which was unanimously adopted :

Resolved, That the plans prepared by the Engineer-in-Chief, for rebuilding Pier, new 37, North river, be and hereby are approved ; and that the printed form for the contract and specifications for doing the work submitted this date, in conformity with the draft therefor prepared by the Engineer-in-Chief, and presented at meeting held the 14th ultimo, be and hereby are approved and adopted, subject to the approval of the Counsel to the Corporation as to form, and that the Secretary be and hereby is directed to have proper advertisements, inviting bids for doing said work, inserted in the newspapers designated by law.

Henry L. Hogue appeared before the Board, and was heard in reference to the filling in on the water-front between One Hundred and Fortieth and One Hundred and Forty-second streets, North river, and in accordance with his request the consideration of the matter of revoking the permit heretofore granted was laid over.

The following requisitions were,

On motion, approved :

Register No. 3448, for material and labor, repairing Pile-driver No 1, and 10-ton derrick; estimated cost, about.....	\$30 00
Register No. 3449, for 3 dozen No. 2 Ames Steel Shovels ; estimated cost, about.....	35 00
“ 3450, for 2 dozen cane brooms (medium size) ; estimated cost, about.....	10 00
Register No. 3451, for 3 pairs, each Nos. 7, 8, 9, and 10, rubber boots; estimated cost, about.....	45 00
Register No. 3452, for 2 barrels, about 100 gallons lard oil ; estimated cost, about.....	100 00
“ 3453, for 10,000 pounds dock bolts ; estimated cost, about.....	400 00
Register No. 3454, for 7 pieces N. C. yellow pine, 12 x 12, etc., repairs at Harrison street, North river ; estimated cost, about.....	126 00
Register No. 3455, for 5,000 feet B. M. N. C. yellow pine ; estimated cost, about.....	125 00
“ 3456, for 1,000 cubic yards of cobbles ; estimated cost, about.....	980 00
“ 3457, for 1,000 cubic yards of rip-rap ; estimated cost, about.....	656 00
“ 3458, for 1,200 B. M. N. C. yellow pine ; estimated cost, about.....	25 00
Register No. 3459, for stationery for Engineer-in-Chief's Department ; estimated cost, about.....	95 00
Register No. 3460, for 4,950 feet B. M. N. C. yellow pine ; estimated cost, about.....	95 00

Requisition for stationery for Department.

On motion, the Board adjourned.

JOHN T. CUMING, Secretary.

At a meeting of the Board of Docks, held January 30, 1882.

Present.—The full Board.

Commissioner Laimbeer offered the following resolution, which was unanimously adopted :

Resolved, That the compensation to be paid to John Dunn, Master Dockbuilder, be and is hereby fixed at the rate of \$1,500 per annum, to take effect from and after January 1st, instant.

On motion, the Board adjourned.

JOHN T. CUMING, Secretary.

At a meeting of the Board of Docks, held February 1, 1882.

Present—The full Board.

The minutes of the meetings held January 25 and 30 ultimo were read and approved.

The following communications were received, read, and,

On motion, placed on the table to await action, as stated, to wit :

From Counsel to the Corporation—In reference to claim against George Brown, for rent of lower half of Pier 37, East river, from February 1 to May 1, 1875. Secretary to request Mr. Brown to confer with the Board at its next meeting, on February 8 instant, at 1 o'clock P. M.

From Comptroller of the City—Requesting the Board to furnish information as to the circumstances causing delay in the completion of the contract by John Gillies.

From the American Contracting and Transportation Company—Application for permission to enlarge their structure on Harlem river at One Hundred and Fifty-fifth street, and inclosing consent of Wm. Lynch, owner of premises, to make the same. Engineer-in-Chief to be directed to examine and report, as to objections, if any, to granting permission as requested.

From Theron R. Butler, president Sixth Avenue Railroad Company --In reference to dumping board for stable manure at Thirty-ninth street, East river.

From John H. Baxter, lessee—Requesting that repairs be made to the bulkhead or pier at Eighty-sixth street, East river. Engineer-in-Chief to be directed to examine and report as to repairs required and the estimated cost thereof.

From Engineer-in-Chief :

1st. Report on Secretary's Order No. 2054, that the lessee of Pier, new 41, North river, had not erected shed thereon under the permit issued by the Board.

2d. Report on Secretary's Order No. 2294, in reference to filling in on the water-front between Seventy-second and Seventy-sixth streets, North river, by New York Central and Hudson River Railroad Company. Secretary to notify company that the Board requires map of the premises showing the lines of the proposed filling.

3d. Reporting that repairs have not been made by the owners thereof, to Pier 4, East river, as directed by the Board. Secretary to communicate with the owners, and to request them to inform the Board what their intentions are in respect to repairing the pier.

4th. In reference to and recommending that additional length of bulkhead wall be built.

5th. Reporting on condition of water-front near Bellevue Hospital at Twenty-sixth street, East river.

6th. In reference to rate of pay for laborers on tide work. Referred to the President, with power.

From Captain of the Port—In reference to dredging required in slips between Piers 19 and 20, East river. Engineer-in-Chief to be directed to have soundings taken and report quantity of dredging required to give proper depth of water thereat.

From E. M. Willett and others— Application for permission to erect structure, pier, etc., between Piers 57 and 58, East river.

The following communications were,

On motion, taken from the table and placed on file, final action thereon having been previously taken, and the work ordered by the Board being finished and completed :

From P. White's Sons—In reference to dredging at north side of Pier 61, East river.

From Bogert & Morgan—In reference to occupation of Pier, new 37, North river.

From Engineer-in-Chief—As to repairs required to Pier, new 37, North river.

From Board of Commissioners of Pilots—In reference to timber, etc., cast adrift from piers being repaired.

From Benjamin Wright, lessee—To have repairs made to Piers 61 and at Thirty-eighth street, East river.

From Engineer-in-Chief—Report on Secretary's Order No. 2089, as to dredging not being required at Pier 61, East river.

From Scott & Co., lessees—To have repairs made to and dredging done at piers at Thirty-fourth and Thirty-fifth streets, North river.

From C. H. Mallory & Co.—To have repairs made and dredging done at Pier 21, East river.

From James McClenahan, lessee—To have repairs made and dredging done at Pier at Fortieth street, North river.

From Department of Public Charities and Correction—To have docks at Ward's and Randall's Islands repaired.

From New York, Lake Erie and Western Railroad Company—In reference to shed on bulkhead and use of the bulkhead, between Piers, new 20 and new 21, North river.

The following communications were received, read, and,

On motion, placed on file, action being taken where necessary, as stated, to wit :

From Counsel to the Corporation :

1st. Requesting copies of all water grants and other instruments on record, affecting the premises, bulkhead south of West Eleventh street, North river. Secretary directed to advise that Board will promptly furnish all papers or records which are in their possession or under their control, but that they have no means at their command at present to comply with the request.

2d. Requesting copies of all water grants made by the city for premises on the East river, between Third and Fifth streets. Secretary to reply in similar manner as above directed.

3d. In reference to claim against William H. Brown, for rent of half Pier 37, East river, and stating that the parties claimed that the same had been paid, the Board having satisfied itself by investigation that the rent claimed had been actually paid to and received by W. W. Burnham, the then bookkeeper of the Department, and had not been accounted for by him. The Treasurer was directed to credit the said sum to William H. Brown and charge same to account of W. W. Burnham, and the Secretary directed to advise the Counsel to the Corporation to discontinue the proceedings against said Brown.

4th. Transmitting copy of opinion rendered to this Department, October, 1877, in reference to title of premises at Desbrosses street, North river. Secretary directed to have copy thereof made for use of Department by type-writer.

5th. Inclosing transcript of judgment obtained against the Empire City Ice Company for rent of Pier at Thirty-fifth street, North river. Secretary directed to advise that the amount would be placed to the credit of the Law Department on the books of this Department.

6th. Opinion as to injunction served on Board restraining the prosecution of the work on the bulkhead wall, between Twenty-third and Twenty-fourth streets, North river. Secretary directed to have same recorded.

From Comptroller of the City :

1st. Approving of sureties of Warren Roosevelt on estimate for building new crib bulkhead at Coenties slip, East river.

2d. Requesting information as to the area in square feet of the offices and rooms now occupied by the Department. Referred to the President to reply thereto.

3d. Requesting Treasurer of this Board to furnish monthly statements of accounts current to the Finance Department. Treasurer requested to comply with the request.

From George W. Ryerson, lessee—Notifying Board of his acceptance of the terms of the resolution granting him permission to erect dumping board at Thirty-ninth street, East river.

From the Hartford and New York Steamboat Company—In reference to the expense incurred for repairs to Pier 24, East river. The President having stated that he had replied thereto, his action was approved.

From Hugh N. Camp—In reference to a new and improved cement, manufactured by himself and others, and requesting that the Board examine and have a sample of the same tested. Secretary to advise that the offer be accepted, and that a test would be made if the parties will send a sample thereof to the Gansevoort street yard, and the Engineer-in-Chief to be directed to have the same tested.

From C. H. Delamater & Co.—In reference to use by them of Pier at Thirteenth street, North river.

From Warren Roosevelt—Accepting contract for removing certain old structures, and for building a crib bulkhead at Coenties slip, East river.

From Edward Brown—In reference to premises at the foot of Ninety-second street, East river, and declining to pay any more rent therefor to this Department. Secretary to request the Counsel to the Corporation to dispossess Edward Brown and the Astoria Ferry Company from the premises.

From Department of Street Cleaning—Requesting twelve copies of notices designating piers, etc., for dumping clean snow and ice from on the water-front. Secretary having stated that he had sent to the Department all that was printed, his action was approved.

From Department of Street Cleaning—Requesting 100 additional copies of notices designating piers, etc., on the water-front for dumping clean snow and ice from. Secretary stated that he had replied thereto, that the Department was entirely out of them, having distributed all that was printed.

From Benjamin Wright, lessee—Requesting Board to delay making repairs to Pier 61, East river. The Secretary stated that by direction of the Commissioners, he had written to Mr. Wright, requesting him to appear before the Board at the present meeting, and state his reason for desiring delay in repairing the pier. The Secretary was directed to notify Mr. Wright, that having failed to appear and state the reason for delay, that the Board directed the Engineer-in-Chief to proceed with the work of repairing said pier.

From the Counsel to the Corporation—Transmitting twelve copies of contract for building new pier at Seventy-ninth street, East river, with his approval thereof indorsed thereon.

From Department of Public Charities and Correction—Requesting that an extra pile be put in at the Coal Dock, on Randall's Island. Engineer-in-Chief to be directed to have the same done.

From Daniel Dailey, lessee—In reference to lease of premises bulkhead at Fourteenth street, East river, and requesting that the same be executed and delivered to him. Secretary to advise that the form of lease as approved by the Counsel to the Corporation was now being printed and would soon be ready to be executed.

From M. Finn—In reference to offices in building No. 25 Chambers street, and inviting the Board to examine and inspect the same.

From Morris Wasel—Proposing to lease Pier at Fifty-seventh street, North river, for three months, from February 1 to May 1, 1882. Secretary to advise that the Department is about to repair the said pier, and that the same will not be rented until it is thoroughly repaired.

From Engineer-in-Chief:

1st. Report on Secretary's Order No. 2180, that the repairs directed to be made to the Upper Coal Dock at Blackwell's Island had been completed.

2d. Report on Secretary's Order No. 2015, that A. J. Kerwin has not built a retaining wall on the water-front between Fifty-ninth and Sixtieth streets, East river, under the permit issued by the Board.

3d. Report on Secretary's Order No. 2048, that the Morrisania Steamboat Company had not driven piles at the Harlem river, east of Third avenue bridge, under the permit issued by the Board. Permit revoked and the Secretary to notify the company of the action of the Board thereon.

4th. Report on Secretary's Order No. 2181, that repairs were made to Pier at Fifty-first street, East river, pursuant to order of Board.

5th. Report on Secretary's Order No. 2230, that iron mooring piles had been replaced on Pier, new 38, North river, by Williams & Guion, lessees.

6th. Report on Secretary's Order No. 2117, in reference to ownership of Pier at Thirteenth street, North river, and as to preparing plans and specifications for building a new pier thereat.

7th. Report on Secretary's Order No. 1846, that Robert Murray had made repairs to Pier between One Hundred and Nineteenth and One Hundred and Twentieth streets, Harlem river, and has extended the lines of said repairs and rebuilt the same outside of the original lines thereof, and also outside of the pier and bulkhead lines, in direct violation of the order of the Board, a permit having only been given to build the same within the existing lines. Secretary to notify Robert Murray,

ner thereof, to remove all that portion of said pier, so built by him outside of the original lines, within ten days, or in default thereof this Department will proceed to remove same at his cost and expense.

8th. Report on Secretary's Order No. 2100, that repairs had been made to south half of Pier 7, East river, by order of the Board, and that the cost thereof was \$416.37. Treasurer requested to collect the same from the owners of said premises.

9th. Report on Secretary's Order No. 2247, that repairs had been made to Pier at West Eleventh street, North river, by order of the Board, and that the cost thereof was \$489.54. Treasurer requested to collect the same from lessees or owners of said pier.

10th. Reporting that a lot of old tin, sold on October 20, 1881, at public sale, had not been removed by the purchaser thereof. Secretary directed to notify the owner and purchaser thereof to remove same in five days, or this Department will remove same at his expense.

11th. Reporting completion of Pier at Ninety-sixth street, North river, by the contractors, Messrs. T. & A. Walsh, and that the same is ready for use. Secretary directed to notify the Corporation Wharfinger to collect wharfage thereat.

12th. Reporting completion of Pier at Twenty-first street, North river, by the contractors, Messrs. T. & A. Walsh, and that the same is ready for use. Secretary directed to notify the Corporation Wharfinger to collect wharfage thereat.

13th. Report on Secretary's Order No. 2237, on condition of Pier at Forty-sixth street, North river.

14th. Report on Secretary's Order No. 2255, that repairs have been made to the bulkhead at Seventeenth street yard, East river, as ordered by the Board.

15th. Report on Secretary's Order No. 2264, that repairs had been made to Pier, old 54, North river, in accordance with the order of the Board.

16th. Report of work done during the week ending January 28, 1882.

From Wm. L. McConkey, Corporation Wharfinger—Reporting that the planking on Pier 19, East river, was in bad condition. Engineer-in-Chief to be directed to examine and report thereon.

From John Butler, Corporation Wharfinger—Reporting that dredging was required at the bulkhead at Sixteenth street, East river. Engineer-in-Chief to be directed to have same examined and report thereon.

From James Fitzpatrick, Corporation Wharfinger—Reporting bad condition of piers at Thirtieth and Forty-sixth streets, North river. Engineer-in-Chief to be directed to examine and put the same in safe condition.

From John M. Smith, Corporation Wharfinger—Reporting that Arkell & Co. would not pay wharfage bill of \$81.20, for Steamship "New York City," until the Department made an allowance of \$40, for the loss of two blooms of iron, which they claim fell through the deck of Pier, new 37, North river. Secretary directed to transmit bill and claim against Arkell & Co. for said wharfage to the Counsel to the Corporation for collection.

A communication from George T. May, proposing to resign his position as Temporary Clerk in the Department, was received, read, and,

On motion, placed on file, and the following resolutions, offered by the President in relation thereto, were unanimously adopted :

Resolved, That the services of George T. May, heretofore acting and designated on the pay-roll of this Department as Temporary Clerk, be and hereby are dispensed with from date.

Resolved, That Francis E. Moon be and hereby is assigned to the duty of Assistant Book-keeper.

A communication from the Engineer-in-Chief in reference to the title to that portion of the waterfront between Seventy-eighth and Eightieth streets, North river, was received, read, and,

On motion, placed on file, and the following preamble and resolution, offered by Commissioner Laimbeer in relation thereto, were unanimously adopted :

Whereas, The Commissioners of the Sinking Fund, having, as it appears by the records, on the 27th day of December, 1865, adopted a resolution authorizing a grant to be issued to George W. Pell, for land under water between Seventy-ninth and Eightieth streets, North river, at \$50 per running foot ; and

Whereas, The said George W. Pell has failed to comply with the terms and conditions in said authorized grant mentioned, by the payment by him of the consideration therein expressed ; and

Whereas, As it appears by the records of October 22, 1868, and June 29, 1871, O. B. Potter and George W. Pell and others had made applications for grants of land under water, between Seventy-eighth and Seventy-ninth streets, North river, which applications have never been acted upon ; therefore

Resolved, That the Commissioners of the Sinking Fund be and they hereby are respectfully requested to rescind and annul the resolution heretofore, on the 27th of December, 1865, adopted by them, authorizing a grant to be issued to George W. Pell for land under water between Seventy-ninth and Eightieth streets, North river, and to declare the grant so authorized to be made, null and void and of no effect, the said grantee not having complied with the terms of said grant, by the payment of the sum conditioned to be paid therefor, and to deny the applications of O. B. Potter and George W. Pell and others, for grants of land under water between Seventy-eighth and Seventy-ninth streets, North river, referred to above, and the Engineer-in-Chief to be directed to prepare plans and specifications for building bulkhead between Seventy-eighth and Eightieth streets, North river.

On motion, the application of Andrew Dettinger, lessee of Pier at Fifty-first street, North river, to have dredging done thereat, was taken from the table and placed on file, and the report of the Engineer-in-Chief on Secretary's Order No. 2243, submitting specifications and form of contract for dredging the same, was received, read, and placed on file.

A report from the Engineer-in-Chief on Secretary's Order No. 2295, submitting specifications and form of contract for dredging in front of Dead House Pier at foot of Twenty-sixth street, East river, also a report on Secretary's Order No. 1896, submitting specifications and form of contract for repairing Pier 58, East river, and also a communication submitting plans and specifications for rebuilding Pier 15, East river, were received, read, and,

On motion, placed on file, and the following resolution, offered by the President, was unanimously adopted :

Resolved, That the specifications and drafts of contracts for repairing the easterly half of Pier 15, East river, and the northerly half of Pier 58, East river, jointly with the owners of the westerly and southerly halves of said piers respectively, and for dredging on the East river at Twenty-sixth street and Bellevue Hospital, and on the North river at the Pier at Fifty-first street, be and hereby are approved and adopted, subject to the approval of the Counsel to the Corporation as to form, and that the Secretary be and hereby is directed to have a sufficient number of proposals, estimates, and contracts printed, and proper advertisements inviting estimates for doing the said repairs and dredging inserted in the newspapers designated by law.

The following resolution in relation to Pier 58, East river, offered by the President, was unanimously adopted :

Whereas, This Board has heretofore directed the Engineer-in-Chief of this Department to prepare plans and specifications and form of contract for making necessary repairs to Pier 58, East river, so as to put the same in a safe and usable condition for public use ; and

Whereas, It appears that the southerly half of said pier is alleged to be owned by and claimed as the property of Stephen D. Barnes, who is desirous of having the same repaired, under the direction of this Department ; therefore

Resolved, That Stephen D. Barnes, the alleged owner of the southerly half of Pier 58, East river, be and hereby is notified to file in this Department, within five days after receipt hereof, a written agreement, that he will enter into a contract jointly with the corporation for repairing said pier under the plans and specifications prepared by the Engineer-in-Chief of this Department, and will become liable for the payment of one-half of the cost and expense of doing said work.

The communication from the Comptroller of the City, in reference to the amount of rental to be fixed as the upset price for the premises occupied by the Greenpoint Ferry Company, at Twenty-third street, East river, was taken from the table and placed on file, and the report of the Engineer-in-Chief on Secretary's Order No. 2283, submitting maps of said premises, being received and placed on file, and the following resolution in relation thereto, offered by the President, was unanimously adopted :

Resolved, That the Comptroller of this city be and hereby is informed that it is the opinion of his Board that the annual rent of the wharf property at the foot of East Twenty-third street, now used for the purposes of a ferry to Greenpoint, comprising the bulkhead at the north side of East Twenty-third street, east of Avenue A, and about one-half of the bulkhead on Avenue A, between Twenty-third and Twenty-fourth streets, should not be less than \$4,000 per annum.

The application of William Ryan for reinstatement as night watchman in the Department was,

On motion, taken from the table and placed on file, and the report of the Engineer-in-Chief in relation thereto, on Secretary's Order No. 2298, being received, read, and,

Ordered on file ; the application was

On motion, denied, and the Secretary directed to transmit a copy of said report to Alderman Keenan.

The communication from the New York Central and Hudson River Railroad Co., in reference to erection of piers, etc., at Port Morris, East river, was taken from the table, and, with the report of the Engineer-in-Chief on Secretary's Order No. 2069, that the piers, etc., had been built and finished, which was received and read, was ordered on file.

The President and Treasurer, to whom was referred the communication from Mahony Bros., asking for an extension of time to complete the contract for building a new wooden pier at North Brother Island, East river, reported thereon, that, in their opinion, it would be improper to change the time or terms agreed upon in said contract, at the present time, but that it would be just to the contractors to address, at the proper time, a communication from this Board to the Comptroller, setting forth the facts and causes of the delay in not making an award of the contract within a reasonable time after the opening of the proposals for said work.

On motion, the report was received and the recommendation therein contained adopted, and the communication of Mahony Bros., with the report, was ordered on file.

The President, to whom the application of John Hoope to be made a Commissioner of Deeds, was referred, reported that he had made an application on behalf of this Board to Alderman Hawes, the Chairman of the Committee on Salaries and Offices of the Board of Aldermen, to have John Hoope appointed as a Commissioner of Deeds, and that such application was favorably received, and he was assured that it would be acted upon at the next meeting of the Board of Aldermen.

The President, to whom was referred the proposed form of agreement to be entered into by the People's Ferry Company, in reference to any injury or damage to Pier 55, East river, by reason of the ferry-boats used on that ferry striking against or jarring the same, reported thereon, and presented the agreement executed by the said company, which was,

On motion, approved and ordered to be placed on file.

Commissioner Vanderpoel offered the following preamble and resolutions in reference to the wharfingers' accounts on the books of this Department, which were unanimously adopted :

Whereas, The books of the Department show the several wharfingers employed by the Department to be charged with wharfage during the years 1877, 1878, 1879, 1880, and 1881, to the amount of \$577.86, which amount was credited to the city, but which remains uncollected, to wit :

John M. Smith.....	\$329 03
James Fitzpatrick.....	131 15
Wm. L. McConkey.....	1 50
John Butler.....	116 18
	<hr/>
	\$577 86

—therefore

Resolved, That the Bookkeeper of the Department be and is hereby directed to credit said wharfingers' accounts with the foregoing several sums, charging the amounts to the several debtors enumerated in their returns as owing the same.

Whereas, Certain wharfages, amounting to the sum of \$322.78, accruing from September 5, 1879, to September 23, 1879, for vessels lying at Pier, old 44, North river, has heretofore been charged to John M. Smith, Corporation Wharfinger, for collection by him ; and

Whereas, The wharfage accruing at said pier for the period mentioned was collected by or on account of John G. Dale, agent, in whose possession the said pier was, prior to the taking possession thereof by this Department ; and

Whereas, The said John G. Dale declines and refuses to account for and pay over to this Department the said sum of \$322.78, so collected by him ; therefore

Resolved, That the said claim be transmitted to the Counsel to the Corporation for collection.

The Secretary reported, pursuant to the resolution adopted January 18th ultimo, a list showing what premises had been sold or leased, with the names of the lessees or purchasers thereof, and for which no leases or instruments had been as yet made or executed by the parties occupying the same or on the part of the Corporation.

On motion, the report was received and placed on the table.

Commissioner Vanderpoei presented to the Board a statement respecting the title to the property foot of Stanton street, East river, and offered the following preamble and resolution in relation thereto, which was unanimously adopted :

Whereas, It has been presented to this Department that the property, at the foot of Stanton street (as per diagram), namely, all that in the colored portion, and incroaching upon the Pier No. 62, is the property of the city ; and

Whereas, The estate of William and Milton G. Smith are now in the possession of and collecting the wharfage from the same ; therefore

Resolved, That the annexed abstract and map be sent to the Counsel to the Corporation for his opinion and advice in the premises, to the end that if it be city property, the Department of Docks may collect the wharfage, etc., etc., at once.

The President presented forms of proposed rules for the government of this Department, and offered the following resolution in relation thereto, which was unanimously adopted :

Resolved, That the draft of the rules and regulations proposed to be established for the government and proper care of piers and bulkheads and slips, under the provisions of subdivision 7 of section 6, chapter 574, Laws of 1871, be and hereby is transmitted to the Counsel to the Corporation for examination and consideration, with the request, that if the said rules and regulations as proposed in the said draft are not in such form as will enable the Law Department to enforce, if necessary, the payment of any penalty imposed thereunder by this Board, that proper changes be made to accomplish that result.

The Secretary reported that the five pay-rolls for the month of January, 1882, amounting in the aggregate to the sum of \$5,880.85, had been approved and audited, and that the same had been forwarded, together with the proper requisitions for the amount, to the Finance Department for payment. The action of the Secretary was,

On motion, approved.

The following requisitions were,

On motion, approved :

Register No. 3461, for material and labor, repairing tug "Manhattan;" estimated cost,	about	\$50 00
" 3462, for 1,740 feet B. M. yellow pine plank; estimated cost, about		50 00
" 3463, for repairs to instruments, Engineer's Department; estimated cost,	about	41 00
" 3464, for 3,406 feet spruce plank; estimated cost, about		42 00
" 3465, for 100 tons coal; estimated cost, about		450 00

The Treasurer presented, pursuant to resolution of the Board, adopted January 11th ultimo, his report of moneys received by him from May 1, 1881, to January 1, 1882, marked Schedule "A," also statements of the amounts remaining due and unpaid January 1, 1882, marked Schedule "B," which were ordered on file, and the Secretary directed to have the said Schedules "A" and "B" entered in full on the minutes, as follows :

Schedule "A."

Statement of Receipts from May 1 to December 31, 1881.

I hereby present the foregoing in pursuance of the resolution passed at a meeting of the Board January 11, 1882.

(Signed)

JACOB VANDERPOEL.

On motion, the Board adjourned.

JOHN T. CUMING, Secretary.

At a special meeting of the Board of Docks, held February 2, 1882.

Present—Commissioners Laimbeer and Vanderpoel, and Henry J. Storrs, representing the Comptroller of the city.

Absent—The President.

On motion, Commissioner Laimbeer took the chair.

Six estimates were received for rebuilding Pier at Seventy-ninth street, East river, for repairing Homoeopathic Hospital Pier, at Ward's Island; for building an extension to Hospital Pier, at Hart's Island; and for repairing Branch Workhouse Pier, at Hart's Island, as classified, Nos. 1, 2, 3, and 4, respectively, in the proposals for estimates advertised for and opened this day, as follows:

No.	BIDDERS.	CLASS NO. 1.	CLASS NO. 2.	CLASS NO. 3.	CLASS NO. 4.
		Rebuilding Pier at Seventy-ninth street, E. R.	Repairing Homoeopathic Hospital Pier, Ward's Island.	Building Extension to Hospital Pier, Hart's Island.	Repairing Branch Workhouse Pier, Hart's Island.
1	From Joseph Walsh, with certified check for \$110	\$7,500 00	\$750 00	\$1,250 00	\$1,250 00
2	From Holmes Brothers, with \$85, in bills.....	8,070 00	1,090 00	No bid.	No bid.
3	From Bernard Kelly & William P. Kelly, with { \$85, in gold.....}	7,886 00	1,000 00	No bid.	No bid.
4	From John Gallies, with \$110, in bills.....	8,447 00	1,737 00	4,676 00	4,055 00
5	From I. Eugene White, with \$35, in bills.....	No bid.	890 00	1,260 00	1,198 00
6	From John F. Dawson, with \$25, in bills.....	No bid.	No bid.	1,062 00	875 00

On motion, the following resolution was adopted:

Resolved, That the bid No. 2, made by Holmes Brothers, be and is hereby rejected for informality, it not being signed, as required, by either member of the firm; that the bid No. 3, made by Bernard & William P. Kelly, be and hereby is rejected for informality, it not being signed, as required, by either bidder; that the bid No. 6, made by John F. Dawson, be and is hereby rejected for irregularity, one of the sureties to said estimate having failed to justify thereon, as required.

On motion, the bids were laid on the table for examination, and the Secretary was directed to transmit the estimate made by Joseph Walsh, for classes Nos. 1, 2 and 3, and the estimate made by I. Eugene White, for class No. 4, to the Comptroller, for examination and approval, as to the sureties on said estimates. The estimate of John F. Dawson, rejected for irregularity, to be also transmitted to the Comptroller for his examination.

On motion, the Board adjourned.

JOHN T. CUMING, Secretary.

At a meeting of the Board of Docks held February 8, 1882.

Present—The full Board.

The reading of the minutes of the meetings held February 1st and 2d instant was,

On motion, dispensed with.

The following communications were received, read, and,

On motion, laid on the table to await action, as stated, to wit :

From Thomas Ward—Application for lease of dock property at Seventy-ninth street, North river, for ten or fifteen years. Secretary to advise that Board will give due consideration to the matter.

From Charles Miller, Jr.—Application for promotion to the position of Clerk in the Department.

From Edward Roberts—Application for permission to build a dock and bulkhead at Ninety-fourth street, East river.

From Engineer-in-Chief—Report on Secretary's Order No. 2284, as to water grants on property at One Hundred and Thirtieth street, North river.

From—

Copy of assignment of lease from Morrisania Steamboat Company to the Columbia Steam Navigation Company, of the outer easterly end of Pier 22, East river.

The following communications were received, read, and,

On motion, placed on file, action being taken where necessary, as stated, to wit :

From Warren Roosevelt—In reference to and claiming extension of time to complete contract for work at Coenties slip, East river. Secretary to advise that the Department proposes to hold him to the terms of his contract.

From F. T. Walton—Requesting copies of notice designating piers, etc., from which to dump now and ice on the water-front. Secretary to advise that there are none in the possession of the Department.

From Bourne & Stafford—In reference to the use of "Disinfective" and proposal to furnish the same to the Department, if desired.

From Police Department—Reporting excavation at No. 207 West street as unsafe and dangerous.

From Canal Department—Requesting list of lessees of piers, etc., and amount of rental paid or the same. Secretary to send last Annual Report of the Department, containing all the information desired.

From Department of Street Cleaning—In reference to use of Pier 12, East river, by that department. Secretary to notify the Captain of the Port that the said pier has been assigned to the Department of Street Cleaning by resolution of the Board.

From East River Ferry Company—In reference to the payment of rent by them, not waiving their claim of superior title to premises at Thirty-fourth street, East river, occupied by them for ferry purposes.

From Department of Street Cleaning—In reference to dumping snow and ice from piers on the water-front. Action of the President in answering same approved.

From Martin H. Dickson—Application for appointment as a watchman in the Department.

From George T. May—In reference to and inclosing protest against his removal.

From Benjamin Wright, lessee—In reference to repairs to Pier 61, East river.

From John J. Astor—Requesting copy of opinion of Counsel to the Corporation as to the title to Pier at Thirteenth street, North river. Secretary to furnish Mr. Astor with a copy of same.

From Department of Taxes and Assessments—Requesting that this Department furnish list of all dock property owned by private parties, and the amount of rental received from adjoining property by the city. Secretary directed to transmit copy of Annual Report, containing the list of Corporation property and the rentals accruing therefrom, and to advise that any further information respecting any particular property which this Board can give will be cheerfully accorded.

From New York, Lake Erie and Western Railroad Company, lessees—In reference to having derricks placed on Pier 7, East river, and protesting against same. Secretary to advise that the Board would have no right to allow any infringement on property already leased, even if it desired so to do, and that the company may rest assured that their rights will be fully protected.

From Funch, Edye & Co.—In reference to inadequacy of approach to Pier, new 54, North river. Secretary to advise that this Department will take all proper measures to have the street approaches to the pier properly graded and paved.

From the Maine Steamship Company—In reference to rent of Pier 38, East river, and claiming that an allowance of twenty days should be deducted therefrom. Secretary directed to advise that Board cannot make an abatement in the amount of rent for said pier.

From Police Department—In reference to the dumping of snow from piers and bulkheads on the water-front. Secretary to advise that at Laight and Jay streets, North river, snow and ice were dumped improperly, as this Board is informed.

From Cobanks & Theall—Application for the loan of the 100-ton derrick "City of New York," to hoist boilers for the steamboat "St. John." Application granted, the charge for the use of said derrick to be \$200 per day when in service, such sum to cover the expenses of towing the services of the usual employees on said derrick, and for the use thereof, and the Treasurer requested to collect the same from Messrs. Cobanks & Theall.

From Engineer-in-Chief—Reports on Secretary's Orders, as follows:

1st. On No. 1998, that repairs were made to Steamboat Pier, Homoeopathic Hospital, Ward's Island.

2d. On No. 2189, that the ferry company having entered into an agreement with the Board to repair Pier 55, East river, in case of injury thereto by them, the order to remove the ferry rack was suspended.

3d. On No. 2228, that the Pier at Fifty-seventh street, North river, has been put in safe condition for use, also the cost of repairs thereto for the past year, and report on its general condition. Engineer-in-Chief to be directed to prepare and submit plan for the extension of the pier, and for a permanent approach thereto.

4th. On No. 2176, that the derrick on Pier at Thirty-eighth street, East river, had been changed and placed on the river bottom, as directed by the Board.

5th. On No. 2307, that an extra pile had been put in on the coal dock at Randall's Island, East river, as ordered by the Board.

6th. On No. 2246, that repairs were made as ordered to the passenger dock at Randall's Island, East river.

7th. On No. 2270, as to condition of Piers at Thirty-fourth and Thirty-fifth streets, North river, and the repairs required to Pier at Thirty-fourth street, North river. Secretary directed to notify the lessees of Pier at Thirty-fourth street, North river, to put in spring piles under the supervision of the Engineer-in-Chief, within ten days, or this Department will do the work and charge the cost thereof to them. Secretary also directed to request the Department of Street Cleaning to have the deck of Pier at Thirty-fifth street, North river, cleaned.

8th. On No. 2288, as to the condition of and the repairs necessary to Pier 4, East river. Secretary directed to notify the owner of the westerly half and the lessees of the easterly half of Pier 4, East river, to have repairs made to the same, under the supervision of the Engineer-in-Chief, within ten days, or this Department will do the work and charge the cost thereof to them.

9th. Report of work done during the week ending February 4th, instant.

10th. Reporting that snow and ice had been improperly dumped on the bulkhead and roadway at foot of Laight and Jay streets, North river. Secretary to advise Police Department, and to call their attention to this violation of the Corporation Ordinances.

11th. Reporting condition of Pier at Thirty-fifth street, North river.

12th. Reporting quantity of material removed by Union Dredging Company, in dredges and scows belonging to this Department, during the months of October, November, and December, 1881, and January 1882. Secretary directed to have bills made out for the same, and the Treasurer requested to collect the same.

13th. Reporting that repairs to bulkheads on the East river had not been made by the owners thereof, as directed by the Board.

From John M. Smith, Corporation Wharfinger, reporting that one of the blooms of iron lost through the deck of Pier, new 37, North river, had been picked up by one James Bogan, a river grappeler, and was now laying on the pier. Secretary directed to inform Messrs. Arkell & Co. of the same, and that it was subject to their order.

From James Fitzpatrick, Corporation Wharfinger, reporting that there was a hole in the deck of Pier at Fifty-seventh street, North river. Engineer-in-Chief to be directed to repair the same.

From John Butler, Corporation Wharfinger :

1st. Reporting that repairs were required to be made to the deck of Pier at One Hundred and Ninth street, East river. Engineer-in-Chief to be directed to examine and report as to repairs necessary thereto.

2d. Reporting that a canal boat had sunk at the Street Cleaning dump at Forty-sixth street, East river, and was blocking up the slip. Secretary to request the Department of Street Cleaning to inform this Department as to the ownership of said boat.

3d. Reporting that the bulkhead at Forty-second street, East river, required a backing log, the street being higher than the front of the dock. Secretary directed to notify the lessee to repair

same in five days, under the supervision of the Engineer-in-Chief, or this Department will do the work and charge the cost thereof to him.

The communications from the Counsel to the Corporation, in reference to the claim against George Brown for rent of lower half of Pier 37, East river, for the quarter ending May 1, 1875, was taken from the table, and after hearing Mr. Joseph V. Brown, who appeared before the Board and made a full statement and explanation of the facts and circumstances connected with the matter, the communication was,

On motion, placed on file, and the following preamble and resolution in relation thereto unanimously adopted :

Whereas, It appears from the records of this Department that a portion of the westerly half of Pier 37, East river, was taken possession of on December 16, 1873, for the purpose of erecting a dumping board for the use of the Street Cleaning Department, and that George Brown was at the time the lessee of the westerly half of said pier ; that by reason of the taking possession of the said portion of said pier, an allowance was made therefor in the settlement of the claim against George Brown, up to February 1, 1875, by the Board then governing this Department ; that the allowance so made appears to have been the sum of \$400 on each quarter's rental of the half of said pier, and it also appearing that the outstanding claim against George Brown is for the quarter ending May 1, 1875, and that the same state of facts existed during this period which affected the preceding quarters, acted on as aforesaid ; therefore

Resolved, That in the judgment of this Board the said claim for \$600, for rent of the westerly half of Pier 37, East river, for the quarter ending May 1, 1875, should be equitably settled on the same terms as those on which their predecessors in this Board settled the claims accruing prior to the one in question, it appearing, as it is claimed, that about two-thirds of the said premises were in the possession of and used for the purposes of the Street Cleaning Department during the period named, without any allowance therefor to the lessee of the said premises, and further that interest should be paid by said Brown from May 1, 1875, on amount of such settlement, and that should the Comptroller on the foregoing statement of facts, give his assent to and approval of the settlement of the claim for the sum of \$200 with interest from May 1, 1875, the Counsel to the Corporation be requested to compromise and settle the same in accordance therewith.

The application of E. M. Willett and others, for permission to erect platform and shed with an additional pier, between Piers 57 and 58, East river, was taken from the table and read. The following-named gentlemen appeared before the Board and were heard in opposition to granting such permission :

Alfred D. Snow, 66 South street,	} Committee on Wharfs and Piers, Maritime Exchange.
Elliott F. Smith,	
Henry Bergh, Jr., 372-7 South street, and 310-320 Front street.	
R. M. Nichols, southwest corner Delancey and East street.	
J. W. Boyle, Boat 8, foot of Delancey street.	
M. H. Sigerson, for C. Smith & Son, 18 East street.	
George R. Hobby, 242-3 and 244 South street.	
Charles F. Hobby, 110 and 116 Washington street.	
Effingham N. Lawrence, 27, 28, 29, 39 and 40 East street.	
C. A. Hedges, 292-3-4 and 5 South street.	

After considerable discussion on the matter, further action was postponed until the next meeting of the Board, on the 15th instant, at eleven o'clock A. M., parties in the meantime to hand in their objections in writing.

Mr. L. O. Reeve, Secretary of the Knickerbocker Ice Company, appeared before the Board and was heard in reference to the rental paid by the company for south half of Pier 59, East river, from December 8, 1881, when the pier was closed to public use as unsafe, and claiming repayment of the same, or that allowance be made therefor to the company. It appearing, as stated, that the ice barge of the company had occupied the slip for some time after the pier was closed, consideration of the matter was laid over.

On motion of Commissioner Laimbeer, the following resolution was unanimously adopted :

Resolved, That the Engineer-in-Chief be permitted to withdraw his report on Secretary's Order No. 2054, as to plans, etc., for shed on Pier, new 41, North river.

The Auditing Committee presented an audit of twenty-four bills or claims, amounting in the aggregate to the sum of \$59,160.04, which was

On motion, accepted and adopted, and the Secretary directed to enter the same in full on the minutes, as follows :

Audit No.	Amount.
7266. T. & A. Walsh, Estimate No. 3, and final, under contract for Pier at Twenty-first street, North river	\$19,179 39

(Signed)

JACOB VANDERPOEL, Treasurer.

The following requisitions were, on motion, approved :

Register No. 3466, for 20 tests of iron.....	Estimated cost, about \$40 00
" 3467, for lumber for general use on floating property ...	" 225 00
" 3468, for 10 ships' augers, etc	" 25 00
" 3469, for 3 rolls ferro-prussiate paper	" 10 00
" 3470, for stationery, etc., Engineer-in-Chief's office	" 50 00

On motion, the Board adjourned.

JOHN T. CUMING, Secretary.

At a special meeting of the Board of Docks, held February 9, 1882.

Present—Commissioners Laimbeer and Vanderpoel.

Absent—The President.

On motion, Commissioner Vanderpoel took the chair.

The communication from John Gillies, in reference to penalties incurred by delay in completing contracts for building Pier, new 54, North river, Pier at Nineteenth street, North river, and for repairing Pier 38, East river, was taken from the table, and with the communication from the Comptroller of the City in relation thereto, also taken from the table, were ordered on file, and the following resolution in relation thereto, offered by Commissioner Laimbeer, was adopted :

Resolved, That this Board hereby certify to the Comptroller that the failure of John Gillies to complete the work specified in his contracts with this Department for the building Pier, new 54, North river, dated December 22, 1880, and for repairing Pier 38, East river, dated August 6, 1881, within the time specified in said contracts have not caused any loss or damage to the Corporation, nor has any material interest of the city suffered any injury thereby; the principal cause of delay having been occasioned by unforeseen and unexpected obstructions being found in the prosecution of the work, and in part consisting of old crib-work in the mud at the river bottom, and which was not discovered until after the work was begun.

On motion, the Board adjourned.

JOHN T. CUMING, Secretary.

At a meeting of the Board of Docks, held February 15, 1882.

Present—Commissioners Vanderpoel and Laimbeer, at opening of meeting, and subsequently the President.

On motion, Commissioner Laimbeer took the chair.

The minutes of the meetings held February 1st and 2d, instant, were read and approved.

During the reading of the minutes, the President appeared and took the chair.

The following communications were received, read, and,

On motion, laid on the table to await action, as stated, to wit :

From New York and Manhattan Real Estate Association—In reference to rent of offices occupied by the Department at 117 and 119 Duane street.

From W. D. Morgan, lessee—Requesting that the slip between Piers 18 and 19, East river, be dredged. Engineer-in-Chief to be directed to have soundings taken, and report quantity of dredging required to give proper depth of water.

From Metropolitan Telephone and Telegraph Company—In reference to bill for service, and amounting to \$30. Referred to Treasurer.

From Engineer-in-Chief—As to repairs to Piers 51, 51½, and 52, East river, not having been made by the lessee thereof. Engineer-in-Chief to make additional report on amount of repairs required.

From Henry P. De Graff and others—Application for Department to build a Pier at One Hundred and Twenty-third street, Harlem river. Engineer-in-Chief to examine and report thereon.

The following communications were received, read, and,

On motion, placed on file, action being taken where necessary, as stated, to wit :

From Counsel to the Corporation :

1st. Opinion in reference to repairing Pier 15, East river, and the liability of the Union Ferry Company as lessees of one-half of said pier, to pay therefor. Secretary directed to have same recorded, and to send to the Counsel to the Corporation all the information required.

2d. Opinion as to right of Department to charge rental for additional privileges granted to lessees of wharf property. Secretary to have the same recorded.

3d. Opinion in reference to the awarding of contracts, that no amendment or correction can be made to proposals, after the bids are opened. Secretary to have the same recorded.

4th. Transmitting copies of contract for rebuilding Pier, new 37, North river, with his approval indorsed thereon.

5th. As to settlement of claim against Charles H. Longstreet for rent.

From Comptroller—Approving of sureties on estimates of Joseph Walsh and I. Eugene White, respectively, for work to be done under contract No. 150 for repairing Pier at Seventy-ninth street, East river, and other work.

From Department of Street Cleaning—In reference to the ownership of canal boat sunk at Forty-sixth street, East river. Secretary to notify the Albemarle Fertilizing Company to have same removed in five days, or this Department will have the same removed at their cost and expense.

From Department of Public Works—In reference to street approaches at Twenty-fifth, Twenty-sixth, Twenty-seventh, and Twenty-eighth streets, to Piers, new 55, 56, and 57, North river. Secretary directed to file the same, and the subject matter referred to Commissioner Laimbeer.

From Edward H. Coffin—In reference to ferry bridge at One Hundred and Thirtieth street, North river. Secretary to advise that when improvements on the water-front at that place are decided on, that due consideration will be given to his application.

From Henry Dubois & Sons—Requesting permission to replace three fender piles at Pier 20, East river. Application granted, and work to be done under the supervision of the Engineer-in-Chief of this Department.

From William H. Webb—In reference to the sinking of a canal boat at the bulkhead between Thirty-sixth and Thirty-seventh streets, North river. Secretary to advise that as the premises are claimed as private property, that it is the duty of the owner thereof to have same removed, and to request that the same be done at once.

From C. M. Bell—In reference to dredging slips between Piers 46 and 48, East river. Engineer-in-Chief to be directed to have soundings taken and report quantity of dredging necessary to give proper depth thereat.

From National Steamship Line—In reference to approach to Pier, new 39, North river. Engineer-in-Chief to be directed to repair same at once.

From Counsel to the Corporation—In reference to claim against Frederick Broege, and stating that it is claimed by the representatives of Broege that the same had been paid, they holding receipts therefor signed by one Joseph T. Kelly. Secretary directed to advise that the Board cannot recognize or allow the claim of alleged payment, the Treasurer, Mr. Vanderpoel, having given no authority to Joseph T. Kelly to collect or receipt for any moneys becoming due or payable to the Department.

From Sutton & Co.—Requesting that the slips at Pier 19, East river, be dredged so as to accommodate their vessels drawing twenty-four feet of water. Secretary to advise that Board have matter under consideration.

From Atlas Steamship Company—In reference to the condition of the approach to Pier, new 1, North river. Engineer-in-Chief to be directed to have the same repaired.

From Comptroller of the City—In reference to granting permit to Greenpoint Ferry Company to repair and rebuild the ferry-house and racks at Twenty-third street, East river, and withdrawing his objection thereto.

From Engineer-in-Chief :

1st. Report on Secretary's Order No. 2314, that three piles had been driven on south side of Pier at Twenty-first street, North river.

2d. Report on Secretary's Order No. 2235, that condition of Pier at Thirty-fourth street, North river, and the spring piles thereat had been reported on subsequent order.

3d. Report on Secretary's Order No. 2112, that repairs were not required to easterly half of Pier 57, East river.

4th. Report on Secretary's Order No. 1729, that specifications for Piers, new 54, 55, 56 and 57, North river, had been submitted, and that specifications for building Pier, new 53, were prepared and ready for use at any time.

5th. Report on Secretary's Order No. 2302, that a test had been made of the cement furnished by Mr. H. N. Camp, and the result was as appears in the cement report thereto annexed. Secretary to advise Mr. H. N. Camp that the cement does not appear to be suitable for use by this Department.

6th. Reporting suspension of John Campbell temporarily for one week, for inattention while on duty.

7th. Reporting work done during the week ending February 11, 1882.

From William L. McConkey, Corporation Wharfinger—Reporting that the piles on easterly end of Pier 37, East River, had been carried away. Engineer-in-Chief to be directed to repair the same.

A communication was received from the Comptroller remitting penalties imposed by this Department against John Gillies, contractor, for building Pier, new 54, North river, and for repairing Pier 38, East river, and, being read,

On motion, the following preamble and resolution was adopted :

Whereas, By virtue of the power vested in the Finance Department by section 31, chapter 335, Laws of 1873, the Comptroller has decided to remit the penalties imposed by this Department against John Gillies for non-completion of work within the time agreed upon under his two several contracts, as follows : For building Pier, new 54, North river, dated December 22, 1880, and for which there was deducted the sum of \$3,200 from Audited Claims Nos. 6916, 6995, and 7131, on June 29, August 24, and November 9, 1881, respectively, and for repairing Pier 38, East river, dated August 6, 1881, and for which there was deducted the sum of \$2,450 from Audited Claims Nos. 7122 and 7176 on October 26 and November 23, 1881, respectively ; therefore,

Resolved, That a requisition be and is hereby directed to be drawn upon the Comptroller for the sum of \$5,650, being the amount now due said John Gillies under said audited claims consequent upon the penalties being remitted, and that the bookkeeper charge the amount to the said contracts, so that the accounts of the Department shall exhibit Estimates Nos. 4, 5, and 6 (final), under contract (building Pier, new 54, North river), as settled and paid in full in the sum of \$6,065.88, \$10,109.80, and \$19,714.11, and Estimates Nos. 2 and 3 (final), under contract (repairing Pier 38, East river), as settled and paid in full in the sums of \$5,684.66 and \$11,404.29, respectively.

The communication from the American Contracting and Transportation Company for permission to enlarge their platform and structure at One Hundred and Fifty-fifth street and Harlem river, was,

On motion, taken from the table, and, after reading,

The report of the Engineer-in-Chief on Secretary's Order No. 2308, in reference thereto, was placed on file, and the following resolution, offered by Commissioner Laimbeer in relation thereto, was unanimously adopted.

“Resolved, That permission be and hereby is granted to the American Contracting and Transportation Company, to drive piles and erect and maintain, during the pleasure of this Board, at or near the foot of One Hundred and Fifty-fifth street, Harlem river, an additional temporary platform or structure (additional to and enlarging upon the present structure erected under permit authorized by resolution, adopted November 16, 1881), about 100 feet in length and 45 feet wide, and making with the original platform heretofore authorized a structure not to exceed 190 feet by 45 feet, such platform or structure to connect with the upland by trestle work, to facilitate the filling in of the sunken ground between One Hundred and Forty-third and One Hundred and Fifty-fifth streets, Harlem river, westerly of Eighth avenue, provided that the said structure shall not extend easterly of the established exterior pier and bulkhead line ; that all the work shall be done under the direction and supervision of the Engineer-in-Chief of this Department and upon the plans approved by that officer, and that the said company shall agree in writing to remove the said struc-

ture when ordered so to do by this Department, free of cost and expense to the Corporation, and will file in this Department the written consent of William Lynch, the owner of the said premises, that such improvement be made."

The Comptroller of the City appeared at 12 o'clock, and the Board proceeded to open the bids received for building a new pier, to be known as Pier, new 37, North river, advertised for, and which were opened this day at 12 o'clock M.

Three estimates to do said work were received and opened, as follows :

No. 1.—From Joseph Walsh, for \$66,700, with certified check for \$900.

No. 2.—From John Gillies, for \$57,965, with \$900 in money.

No. 3.—From Ross & Sanford, for \$62,775, with \$900 in money.

And, being read, were,

On motion, laid over for examination, and the Secretary was directed to transmit to the Comptroller the deposits made by the respective bidders.

On motion, the estimates received and opened on 2d inst., for rebuilding Pier at Seventy-ninth street, East river, and for other work, were taken from the table and placed on file, and the following resolutions, offered by Commissioner Laimbeer, were unanimously adopted :

Resolved, That the contract for rebuilding Pier at Seventy-ninth street, East river, for repairing the Homœopathic Hospital Pier at Ward's Island, and for building an extension to the Hospital Pier at Hart's Island (classes 1, 2, and 3 in contract No. 150), be and is hereby awarded to Joseph Walsh, of 114 Wall street, his bid for doing said work being the lowest under estimates publicly opened the 2d instant, and the Comptroller having approved of the sureties to the estimate of said Joseph Walsh on the 11th instant.

Resolved that the contract for repairing the Branch Workhouse Pier at Hart's Island (class 4 in contract No. 150), be and is hereby awarded to I. Eugene White, of 23 South street, his bid for doing said work being the lowest under estimates publicly opened the 2d instant, and the Comptroller having approved of the sureties to the estimate of I. Eugene White on the 11th instant.

The Treasurer submitted statements of account of the Department with the Comptroller, as follows :

Quarterly report, or balance sheet to October 31, 1881.

Two-months report, or balance sheet to December 31, 1881.

Monthly report, or balance sheet to January 31, 1882.

On motion of the President, the Secretary was directed to transmit the same, when verified, to the Comptroller.

The Treasurer presented the following statement of receipts from February 8 to 14, instant, which was ordered on file :

		<u>\$9,990 00</u>

(Signed)

JACOB VANDERPOEL, Treasurer.

On motion, the Secretary was directed to transmit the said claims to the Counsel to the Corporation for collection.

The Treasurer also presented trial balance sheets for December 31, 1881, and for January 31, 1882, which, on motion, were placed on file.

The Treasurer reported and presented a detailed statement of wharfages remaining uncollected on December 31, 1881, which was laid on the table, and,

On motion, the Secretary was directed to notify the Corporation Wharfingers to report to the Board on Tuesday, 21st instant, the reasons why the same had not been collected by them.

The following communications were,

On motion, taken from the table and placed on file, necessary action thereon having been heretofore taken :

From C. H. Mallory & Co., lessees—To have gangways cut in the side of Pier 21, East river.

From W. J. Warwick—In reference to condition of Pier at Fifty-seventh street, North river.

From J. S. Johnson and others—In reference to repairing Pier 21, East river.

From Frederick Lange—Application for position as Roundsman in the Department.

From Wm. L. McConkey, Corporation Wharfinger—In reference to the damage done to Pier 22, East river, by one of the Union Ferry Company's boats striking against it.

From The Old Dominion Steamship Company—In reference to rent of Pier, old 37, North river.

From John Russell's Sons and others—To have Public Bath removed from the Pier at Fifty-first street, North river.

From J. L. & D. S. Riker and others—In reference to the order of the Department for the removal of merchandise, etc., from bulkheads on the North river.

From John M. Smith, Corporation Wharfinger—As to incumbrances on the bulkheads on the North river water-front.

From Theodore F. Tone, lessee—To have dredging done at the bulkhead at One Hundred and Thirtieth street, North river.

From J. W. Brown—To have dredging done at the bulkhead at One Hundred and Thirtieth street, North river.

From Decker & Rapp, lessees—To have repairs made to the Piers at Jane and Bethune streets, North river ; and also to have dredging done thereat.

From Frederick Schecker, lessee—In reference to discharge of cargo at the Pier at Fifty-seventh street, North river.

From Lucene Gunning—In reference to and requesting the removal of the boat-house on line of Twelfth avenue, and between One Hundred and Fifty-second and One Hundred and Fifty-third streets, North river.

From James M. Oakley & Co—As to old material, etc., to be sold at public sale on June 3, 1881.

On motion of Commissioner Laimbeer, the following resolution was unanimously adopted :

Resolved, That the Chief Clerk be and hereby is directed to prepare and submit to this Board a list of the piers and bulkheads unleased, or on which the leases will expire in May next, in order to prepare for the sale thereof at the usual time, in March next.

Mr. Cruikshank appeared before the Board, and was heard in reference to the repairs required to be made to Pier 4, East river, and stated that the half of the pier owned by the Rhinelander estate, which he represented, was in fair order and did not need any repairs at the present time.

The Treasurer reported that the reports he was requested to make pursuant to the resolution adopted January 11, ultimo, having been prepared and submitted, and all the work required having been performed by Mr. Frederick Perry, who was employed for that purpose, that he had no further use for his services.

On motion, the following resolution was unanimously adopted :

Resolved, That the services of Frederick Perry as temporary clerk be and hereby is dispensed with from and after this date.

On motion of Commissioner Laimbeer, the report of the Engineer-in-Chief in reference to the repairs required to Pier at Fortieth street, North river, was taken up, and the Engineer-in-Chief was directed to do the required work thereto, of laying a plank roadway down the centre of the pier of 3-inch plank, twenty feet wide, and the whole length of the pier.

On motion of Commissioner Laimbeer, it was ordered that the cases of John Campbell, watchman at Charlton street, and Patrick Rinn, watchman at Gansevoort Street Yard, be brought before the Board for their consideration and action, and that the Engineer-in-Chief report to the Board all such cases in the future.

On motion, the Board adjourned to Tuesday, February 21st, instant.

JOHN T. CUMING, Secretary.

At a meeting of the Board of Docks, held February 21, 1882.

Present.—The full Board.

The minutes of the meetings held February 8 and 9, instant, were read and approved.

The following communications were received, read, and,

On motion, laid on the table to await action, as stated, to wit :

From Department of Street Cleaning.—In reference to and requesting that dredging be done at Pier at Forty-sixth street, East river.

From E. W. McClave & Co.—Application to have pier built at Forty-first street, East river, for the accommodation of the business men in that vicinity. Engineer-in-Chief to be directed to examine and report thereon.

From Joseph Cooper, lessee—In reference to repairs made to Pier 60, East river, and claim for damages in consequence of delay in making said repairs, the sum of \$1,200; also reporting that there was no string-piece on the bulkhead. Engineer-in-Chief to be directed to examine and report thereon, as to the facts in the case, and to make necessary repairs to the string-piece at the bulkhead.

From Engineer-in-Chief—Reporting on Secretary's Order No. 2318, on application of H. P. De Graaf and others, to have Pier built at One Hundred and Twenty-third street, Harlem river. Engineer-in-Chief to be directed to examine and report as to the best and most suitable locations for building new piers and bulkheads along the East river and Harlem river water-fronts in order to accommodate the business interests of that portion of the city. Such report to embrace the following sections respectively :

From Thirty-ninth to Sixty-fourth street, East river,
 From Sixty-fourth to Ninetieth street, East river, and
 From Ninetieth street to Third Avenue Bridge, Harlem river.

The following communications were received, read, and,

On motion, placed on file, action being taken where necessary, as stated, to wit :

From Counsel to the Corporation :

1st. In reference to and requesting full information respecting claim against John G. Dale, for wharfage collected at Pier, old 44, North river. Secretary directed to furnish all the information in the possession of this Department.

2d. In reference to the claim against Messrs. Arkell & Co., for wharfage on steamship "City of New York," at Pier, new 37, North river, and inclosing statement of counterclaim of Arkell & Co. for \$16, for moneys expended in recovering two blooms of steel lost through the deck of said pier. Secretary to advise that under all the circumstances of the case that it is deemed advisable by this Board to settle the case on such terms as will be most advantageous to the city.

3d. In reference to the claim against William H. Brown and inclosing transcript of judgment obtained against him for the following claims :

For rent of upper half of Pier 56, East river, and half of bulkhead, from November 1, 1874, to May 1, 1875.....	\$375 00
For rent of lower half of Pier 57, East river, and half of bulkhead, from November 1, 1874, to May 1, 1875.....	300 00
For rent of upper half of Pier 58, East river, and half of bulkhead, from November 1, 1874, to May 1, 1875.....	350 00
For rent of lower half of Pier 59, East river, and half of bulkhead, from November 1, 1874, to May 1, 1875.....	350 00
Making a total of claims for rent.....	\$1,375 00
Interest.....	636 31
Costs.....	17 90
Amount of judgment February 16, 1882.....	<u>\$2,029 21</u>

Secretary to advise that the same would be duly credited to the Law Department on the books of this Department; and the Chief Clerk directed to give the proper credit therefor to the Law Department on his books.

4th. In reference to premises at Ninety-second street, East river, occupied by the Astoria Ferry Company, and Edward Brown, as lessee, and requesting a particular description of the premises, with triplicate tracings thereof, for the purpose of instituting proceedings to obtain possession of said premises and to eject therefrom the said ferry company, and Edward Brown, their lessee. Engineer-in-Chief to be directed to report thereon, and to furnish the maps required by the Counsel to the Corporation, and the Secretary to transmit the same, when made, to the Counsel to the Corporation.

5th. In reference to form of rules for the government and care of piers, etc., submitted to him for approval.

From Comptroller of the City:

1st. Requesting information as to the cause of the delay on the part of John Gillies, the contractor, in completing the pier at Nineteenth street, North river, under the terms of his contract for building the same. Secretary directed to reply thereto that there seems to have been no good reason for the delay, but that the city has suffered no loss or damage therefrom, except the loss of wharfage, which might have accrued thereat for the twelve days intervening between the time specified in the contract and the time when the work was completed, and that such wharfage would probably amount to about \$40 for that period.

2d. In reference to penalties imposed on contractors for not completing their contracts within the time as agreed upon, and stipulated therein.

3d. In reference to the proposed settlement of claims against George Brown for rent of westerly half of Pier 37, East river, for the quarter ending May 1, 1875, and giving his assent to and approval of the same.

4th. In reference to obstructions in the street and avenue approaches to Pier, new 54, North river, and stating that the Commissioner of Public Works has full power to remove all the obstructions therefrom.

From Police Department—In reference to dumping snow and ice at Laight and Jay streets, North river, reported as being done improperly on the bulkhead and roadway.

From Knickerbocker Ice Company—Application for permission to make the necessary repairs to the bulkhead between Twentieth and Twenty-first streets, North river. The Engineer-in-Chief having been directed to make said repairs, the Knickerbocker Ice Company having failed to make such repairs after being notified by this Board so to do. Application granted, and the said repairs to be made under the supervision of the Engineer-in-Chief of this Department, and the expenses incurred by the Department in making repairs thereto up to the present time to be reported by the Engineer-in-Chief, and the Treasurer be requested to collect the amount thereof from the Knickerbocker Ice Company.

From Iron Steamboat Co., lessees—In reference to the condition of the roadway to Pier, new 1, North river, and requesting that the same be replanked or paved. Secretary to advise that the necessary repairs thereto had been ordered prior to receipt of their communication.

From Citizen's Steamboat Co. — Application for lease of Pier, new 43, North river, for a term of years,

From Police Department—Acknowledging the receipt of notice from this Department, suspending permission to dump snow and ice from the piers and bulkheads on the water-front.

From I. Eugene White—Accepting award of contract for repairing Branch Workhouse Pier at Hart's Island.

From John F. Doyle—Approving specifications and form of contract for repairing Pier 15, East river.

From Captain of the Port—In reference to the condition of the slip between Piers 18 and 19, East river, and that the same requires dredging to give proper depth of water. Secretary to advise that the Board have the matter under consideration.

From Benjamin Wright, lessee —Requesting that the Department defer making the repairs to Pier 61, East river, for the present, as it would interfere with the business of his tenants on the pier in question. Secretary directed to advise that, it being reported to the Board that the repairs proposed to be made thereto were very nearly completed, it would be unadvisable to defer the completion and finishing of the same.

From Engineer-in-Chief :

1st. Reporting that several masts and booms on the inner end of Pier 7, East river, were in the way of the contractor who is doing the work at Coenties slip, East river. Secretary directed to notify the several parties owning the same to have the same removed within five days, or otherwise the contractor will remove and take possession of the same under the terms of his contract.

2d. Reporting that the alleged owners of a portion of the platform south of West Eleventh street, North river, had commenced to repair the same.

3d. Report on Secretary's Order No. 2261, that repairs had been made to the bulkhead between Sixtieth and Sixty-second streets, East river.

4th. Report on Secretary's Order No. 2317, that 3 piles had been driven at Pier 20, East river, under permit granted to Henry Dubois & Sons.

5th. Report on Secretary's Order No. 2303, as to quantity of dredging required in slip between Piers 19 and 20, East river, to give proper depth of water thereat. Secretary directed to notify the owners of the easterly half of Pier 19, and the westerly half of Pier 20, East river, and the bulkhead between, to have said slip dredged to the depth of 20 to 25 feet at mean low water, under the supervision of the Engineer-in-Chief, said dredging to be commenced within ten days after notice, or Department will do the work at their cost and expense.

6th. Report on Secretary's Order No. 2310, that repairs had been made to the deck of Pier at Fifty-seventh street, North river.

7th. Report on Secretary's Order No. 2315, as to the condition of and repairs necessary to Pier at One Hundred and Ninth street, Harlem river. Engineer-in-Chief to be directed to repair same, and put it in good condition.

8th. Report on Secretary's Order No. 2301, that pile-driver No. 3 had been delivered to Holmes Brothers on the 8th instant and returned by them on the 11th instant, and that while

in their possession one of the doors thereon was broken and partially repaired, and the repairs thereto cost \$3.52. Treasurer requested to collect the bill for the use of the pile-driver, as well as the cost of said repairs.

9th. Report on Secretary's Order No. 1830, that the erection of the shed on Pier, new 54, North river, had been completed by Messrs. Funch, Edye & Co., in accordance with the plans therefor approved by the Board.

10th. Report on Secretary's Order, No. 2252, that dredging had been completed in the slip between Piers 10 and 11, East river, giving a depth of twenty feet at mean low water, except at the head of the slip.

From Wm. L. McConkey, Corporation Wharfinger, reporting that Pier 53, East river, was in a dangerous condition. Engineer-in-Chief to be directed to repair and put the same in a safe condition.

A report was received from the Engineer-in-Chief, submitting specifications and form of contract for repairing the Pier at Fifty-first street, North river; for repairing the Pier at One Hundred and Thirty-first street, North river; for repairing Pier at One Hundred and Thirty-eighth street, North river; and for repairing Pier at One Hundred and Fifty-second street, North river, and classified respectively as Nos. 1, 2, 3, and 4, and, being read,

On motion, it was

Resolved, That the specifications and form of contract, as prepared by the Engineer-in-Chief for repairing the Pier at Fifty-first street, North river; Pier at One Hundred and Thirty-first street, North river; Pier at One Hundred and Thirty-eighth street, North river, and Pier at One Hundred and Fifty-second street, North river, classified respectively in said specifications and form of contract as Nos. 1, 2, 3, and 4, be and hereby is approved, subject to the approval of the Counsel to the Corporation as to form, and that the Secretary be and hereby is directed to have a sufficient number of blank forms of proposals printed, and proper advertisements inviting bids for doing said work, inserted in the papers designated by law.

A communication from the Counsel to the Corporation, in reference to the settlement of the claim against C. H. Longstreet, was received, read, and,

On motion, placed on file, after being entered in the minutes, as follows:

LAW DEPARTMENT,
OFFICE OF THE COUNSEL TO THE CORPORATION,
NEW YORK, February 10, 1882.

To the President of the Department of Docks:

SIR—I have the honor to acknowledge the receipt of a communication from the Department of February 4, 1882, relative to the settlement of the claim against Charles H. Longstreet, with request that the Department be advised, if the claim is adjusted and settled in full, and if the adjustment is approved by the Comptroller, in order that the books of the Department may correctly exhibit the claim as settled, if such is the fact.

In answer to your inquiries, I would reply that the claim is settled in full; the statement of facts made by Mr. Longstreet's counsel in reference to the matter having been communicated to your Department, and the settlement having been advised by you. No consultation was had with

the Comptroller in reference to this matter, the claim having been received not from the Auditing Department of the Comptroller's office, but directly from the Dock Department. The responsibility for the settlement of litigations is solely upon the Corporation Counsel, under the law. I have made it a custom to consult, in every case, with the Department from which the claim came to the office of the Corporation Counsel, relying largely upon the advice and information thus obtained for wise action in the various matters in which this office is concerned, but the responsibility is placed upon the Corporation Counsel, the charter having given sole and exclusive charge of all the litigations in which the city is concerned into his hands.

I am, sir, yours respectfully,

(Signed)

W. C. WHITNEY, Counsel to the Corporation.

A communication from the Engineer-in-Chief in reference to the condition of the crane of Dredge No. 4, and reporting the same as unsafe and unfit for use, and also an estimate of cost of the repairs thereto at about \$800, was received, and read, and with the communication from the Union Dredging Co. in relation thereto, received, and read in connection therewith, were,

On motion, ordered on file, and the Union Dredging Company having offered to have the necessary repairs made thereto for a sum not to exceed \$700, the Engineer-in-Chief was directed to make requisitions for the material and labor necessary to make the necessary repairs to said Dredge No. 4, at a cost of \$700, and to supervise the repairs required to be made thereto.

A communication from the Comptroller of the city, approving of the sureties on estimate of John Gillies for building Pier, new 37, North river, was received, read, and placed on file, and,

On motion, the bids received and publicly opened on the 15th inst., for building a new wooden pier, to be known as Pier, new 37, North river, were taken from the table and placed on file, and the following resolution in relation thereto, offered by the President, was unanimously adopted:

Resolved, That the contract for removing all of Pier, new 37, at the foot of Charlton street, North river, except the crib-work below mean low-water mark, and for removing all the sheds and buildings on said pier westerly of the new bulkhead wall, and for preparing for and building a new wooden pier on the site of said pier, to be known as Pier, new 37, North river, be and is hereby awarded to John Gillies, of 137 Kent street, Greenpoint, L. I., his bid for doing said work being the lowest under estimates publicly opened the 15th inst., and the Comptroller having approved of the sureties to the estimate of said John Gillies on the 20th inst.

On motion, the communication from E. M. Willetts and others, making application for leave to erect a platform, shed, and pier in front of bulkhead between Piers 57 and 58, East river, was taken from the table, and, after considerable discussion before the Board by residents and business men in the vicinity, in opposition thereto, many of whom filed written protests against granting the permission, Mr. George C. Blanke presented a request in writing, asking leave to withdraw from before the Board the application heretofore made by Mr. Willetts.

On motion, leave to withdraw the same was granted, and the Secretary was directed to file the same with all papers relating thereto.

On motion of Commissioner Vanderpoel, the Secretary was directed to notify Mr. Theron R. Butler, President of the Sixth Avenue Railroad Company, that the Treasurer desires to see him in relation to fixing the amount of rental to be charged for additional privileges at bulkhead foot of Thirty-ninth street, East river.

On motion of Commissioner Laimbeer, the Secretary was directed to advise Vernon H. Brown & Co., agents of Cunard Steamship Company, that the Board desired to confer with them on Friday, 24th instant, at 1 o'clock P. M., respecting the removal of the shed and platform in front of bulkhead north of Pier, new 40, North river, and which is used and occupied by said company. The Secretary was also directed to request the Counsel to the Corporation to give his opinion in reference to the powers and duty of the Board to order and direct the removal of the shed and platform in front of the bulkhead, south of Pier, new 45, North river, which is used and occupied by the White Star Line; the said company claiming that the same is authorized by and embodied in a clause in the lease of the premises granted to them by the city, and this Board deeming that the said shed and structure is unauthorized by and is maintained in violation of the laws appertaining to and governing the wharf property of the city.

The Secretary reported that by direction of the Commissioners, the pay-roll, or labor and general construction account for the half month, ending 15th instant, amounting to the sum of \$5,756.52, had been approved and audited, and that the same had been forwarded, together with the proper requisitions for the amount, to the Finance Department for payment.

On motion, the action of the Secretary was approved.

The Treasurer presented statement of receipts for week ending February, 20th instant, as follows:

DATE.	FROM WHOM.	FOR WHAT.	AMOUNT.	TOTAL.	DATE DEPOSITED.

JACOB VANDERPOEL, Treasurer.

New York, February 21, 1882.

The application of the Greenpoint Ferry Company for leave to rebuild, enlarge, and improve their ferry-houses, platform, bridges, and ferry-racks, between Twenty-third and Twenty-fourth East River, the communication from the Comptroller of the city in reference to the same, and the reports of the Engineer-in-Chief in relation thereto, were,

On motion, taken from the table and ordered on file, and the following resolution relative to matter offered by the President was unanimously adopted :

Resolved, That the Greenpoint Ferry Company be and hereby is granted permission to remove the existing platform and to remove or repair the bridges and ferry-racks outside the bulkhead between Twenty-third and Twenty-fourth streets, East River, and to build and erect in place thereof new platform, to be laid on piles, and to be not higher than at about low-water mark, and to be laid on top of same with suitable solid filling, the outer edge of which platform is to be and extend not more than 155 feet easterly from the westerly line or side of Avenue A and parallel thereto, and outside of the said above described platform to build and erect an A pier and a new ferry-rack at the southerly line of Twenty-fourth street pier ; and the said ferry company are also granted permission to remove the present ferry-house, and to erect and build a new one in the place thereof, on said platform, and within the lines and upon such new and revised plans, to be submitted by the said company in place of those heretofore presented, as will be approved of by this Board ; provided, however, that the said ferry company file in this Department, within five days after notice hereof, an agreement in writing that the said platform, bridges, racks, and ferry-houses shall not be used for any other purposes than as and for ferry purposes, and that the same shall revert to and become the property of the Corporation of the City of New York, on the expiration or sooner termination of the lease made or which may next hereafter be agreed to be made by the city to the said ferry company of the said premises, free of all cost and expense whatsoever ; and also provided that all of the work done on said premises under and pursuant to this permit be done under the supervision and direction of the Engineer-in-Chief of this Department.

The following requisitions were read, and,

On motion, approved :

Register No. 3471, for one dozen Scotch gauge glasses, estimated cost about.....	\$5 00
“ 3472, for three dozen lbs. potash, estimated cost about.....	5 00
“ 3473, for twelve 14-feet ash oars, estimated cost about.....	15 00
“ 3474, for two barrels astral oil, estimated cost about.....	25 00
“ 3475, for two coils 2 and 3-inch manila rope, estimated cost about.....	125 00
“ 3477, for 7,000 feet B. M. Geo. pine plank, estimated cost about.....	250 00
“ 3478, for thirty samples of iron tests, estimated cost about.....	75 00
“ 3479, for six pieces yellow pine timber, estimated cost about.....	75 00
“ 3480, for divers' dresses, estimated cost about.....	50 00
“ 3481, for four pieces yellow pine timber, estimated cost about.....	34 50
“ 3482, for 5,000 feet N. C. yellow pine, estimated cost about.....	95 00
“ 3483, for “ “ estimated cost about.....	171 00
“ 3484, for “ “ estimated cost about.....	480 00
“ 3485, for wrought spikes, estimated cost about.....	94 50
“ 3486, for ships' augurs, estimated cost about.....	5 50

On motion, the Board adjourned.

JOHN T. CUMING, Secretary.

At a meeting of the Board of Docks, held February 24, 1882.

Present—The full Board.

A communication from Vernon H. Brown, Esq., agent of the Cunard Steamship Company, stating that on account of the pressure of business engagements it was impossible for him to meet with the Board at the present time, as requested by them, was received, read, and,

On motion, placed on file, and the following resolution, offered by Commissioner Laimbeer in relation thereto, was unanimously adopted :

Whereas, By a resolution of the Board governing this Department, adopted August 12, 1881, it was directed that the shed and platform in front of the bulkhead north of Pier, new 40, North river, should be removed on or before September 1, 1881, and as the correspondence that has ensued in relation thereto has failed to produce any satisfactory result or solution of the question, and Mr. Brown having failed to appear this day before the Board, as requested, in case he desired to be heard on the subject ; therefore

Resolved, That the Cunard Steamship Company be and are hereby notified and directed to remove the shed adjoining the bulkhead north of Pier, new 40, North river, within thirty (30) days from this date, under the supervision of the Engineer-in-Chief of this Department, and that in default of the same being removed, within such specified time, that the Engineer-in-Chief of this Department be and he hereby is directed to proceed at once and remove the same.

Captain Wright appeared on behalf of the Union Ferry Company, before the Board, and was heard in reference to the subject of repairing Pier 15, East river, the Union Ferry Company being desirous of having their slip enlarged, and to accomplish this purpose, they desired to have the pier moved south for a distance of 6 feet ; or in place thereof, to have the pier narrowed on the northerly or easterly side thereof so as to give them width enough to have two boats in the slip at the same time. The ferry company not having given any reply to the many communications sent to them by the Board in reference to the subject of repairs to the pier in question, and the Board having by its action heretofore taken, directed the advertisement for estimates to make the repairs thereto, under the specifications prepared by the Engineer-in-Chief and approved by this Board, it was determined that no action would be taken in the premises to defer or change the action of the Board so taken, unless the ferry company communicate in writing what it proposes to do in the premises, and also obtain the consent and approval of John F. Doyle, as the agent and representative of the owners of westerly half of said pier to the same.

On motion, the Board adjourned.

JOHN T. CUMING, Secretary.

At a meeting of the Board of Docks, held March 1, 1882.

Present—The President and Commissioner Vanderpoel.

Absent—Commissioner Laimbeer.

The minutes of the meetings held on February 15th, 21st, and 24th ultimo, were read and approved.

The following communications were received, read, and,

On motion, laid on the table to await action, as stated, to wit:

From Engineer-in-Chief—In reference to water grants for premises between Twenty-seventh and Thirtieth streets, North river.

From Union Ferry Company—In reference to repairing Pier 15, East river, provided that they be allowed to widen their slip by taking six feet from the easterly side of the pier.

The following communications were received, read, and,

On motion, placed on file, action being taken where necessary, as stated, to wit:

From Counsel to the Corporation—

1st. Inclosing check for \$3,250, collected for claim against Thomas Clyde for rent of one-half of Piers 33 and 34, East river. Secretary directed to advise that the same was duly credited to the Law Department on the books of this Department.

2d. Inclosing check for \$1,215, collected for claim against the Mutual Benefit Ice Company for rent of several piers, due February 1st ultimo. Secretary to advise that proper credit was given therefor on the books of this Department.

3d. Inclosing check for \$75, collected for claim against Truman Eldridge for rent of bulkhead at Forty-second street, East river. Secretary to advise that proper credit was given therefor on the books of this Department.

From the Comptroller of the City—In reference to various grants for land under water, which have been authorized but not issued, and as to action of the Commissioners of the Sinking Fund thereon.

From Captain of the Port—In reference to berthing vessels at Pier, new 37, North river, while old pier is being repaired.

From John H. Baxter, lessee—In reference to and requesting the removal of the old and worn-out dumping-board on the bulkhead at Eighty-sixth street, East river. Engineer-in-Chief to be directed to examine the same, and if unsafe for use, to have same removed.

From John Gillies—Accepting the award of the contract to him for building new wooden pier be known as Pier, new 37, North river.

From Theron R. Butler—In reference to amount of rent to be charged for additional privileges Thirty-ninth street, East river.

From S. A. Frost—In reference to dredging the lip between Piers 19 and 20, East river, stating that same will be commenced within ten days, weather permitting.

From William H. Hawes—Application for appointment as Engineer on the 100-ton derrick.

From P. J. Joachimson, attorney for Funch, Edye & Co.—In reference to obstructions on street approaches to Pier, new 54, North river. Secretary to advise that the obstructions referred to in their communication are located on what is claimed to be private property, and that this Department cannot properly assume any control over or exercise any jurisdiction in the premises, and the Engineer-in-Chief to be directed to furnish a map of said premises to be transmitted to Funch, Edye & Co.

From Ogden & Co.—Application for leave to repair the bulkhead between Twenty-first and Twenty-second streets, North river. Application granted, provided that said work be commenced within ten days, and be done under the supervision of the Engineer-in-Chief of this Department. The former action of the Board directing the Engineer-in-Chief to prepare specifications for repairing the same to be rescinded and annulled.

From Counsel to the Corporation—Inclosing four copies of contract for repairing Pier 15, East river, with his approval thereof indorsed thereon.

From Union Ferry Company—Requesting permission to repair the outer end of Pier 16, East river, and to drive about twenty-five piles thereat. Application granted on condition that the work be done under the supervision of the Engineer-in-Chief of this Department.

From Engineer-in-Chief—

1st. Report on Secretary's Order No. 2273, that the dirt on new bulkhead from Spring street to Barrow street had been leveled off.

2d. Report on Secretary's Order No. 1859, that repairs were made to the Pier at One Hundred and Seventeenth street, Harlem river, and also to the Pier at Eighty-sixth street, East river.

3d. Report on Secretary's Order No. 2142, that repairs were made to Pier 47, East river, under the supervision of the Engineer-in-Chief, by Christopher M. Bell, the owner thereof.

4th. Report on Secretary's Order No. 2276, that repairs were made to platform in front of bulkhead south of Pier, old 54, North river, pursuant to order of the Board.

5th. Report on Secretary's Order No. 2309, as to the use of the 100-ton derrick "City of New York" by Cobanks & Theall, and stating in detail its operations while in their service. Treasurer to make computation of time employed and the amount to be charged therefor, and also for the use of scow "C," in addition thereto, and to collect the same from Messrs. Cobanks & Theall.

6th. Report of work done for the week ending February 18, 1882.

7th. Report of work done for the week ending February 25, 1882.

8th. Reporting that repairs had not been made to Pier 4, East river, or to the Pier at Thirty-fourth street, North river, by the owners and lessees of the same, as directed by this Board. Engineer-in-Chief to be directed to report specifically as to repairs required to Pier 4, East river, and to make the necessary repairs to the Pier at Thirty-fourth street, North river, and to report the cost thereof to be charged to the lessee of said pier.

A report was received from the Engineer-in-Chief on Secretary's Order No. 2310, as to the quantity of dredging required to give proper depth of water in the slip between Piers 18 and 19, East river, was received, read, and placed on file, and in connection therewith the communication from W. D. Morgan, requesting that the said slip be dredged, was taken from the table, and,

On motion, placed on file, and it was ordered that the Engineer-in-Chief be directed to prepare specifications and form of contract for dredging the said slip to a depth of 25 feet at mean low water, the Secretary to advise W. D. Morgan of the action of the Board in relation thereto, and to notify him that he was required to file with this Department, within five days, a written agreement that he would execute the contract, jointly with the city, to have said dredging done, and would pay his proportion of the cost and expense thereof.

A report from the Engineer-in-Chief on Secretary's Order No. 2328, in reference to building a Pier at Forty-first street, East river, and that as the present structure was fully out to the established pier and bulkhead line, it would be unlawful to build a pier thereat, was received, read, and placed on file, and the communication from E. W. McClave & Co. in reference thereto, was taken from the table, and,

On motion, placed on file, and the Secretary directed to advise E. W. McClave & Co. that the construction of a pier at that place would be a violation of the law, and consequently no action could be taken by the Board on their application.

The Secretary was also directed to communicate with the Department of Public Works, and to request that the obstructions existing on Fortieth and Forty-first streets, between the First avenue and the bulkhead, be removed, so as to afford free access to and from the bulkhead on the water-front thereat.

A report from the Engineer-in-Chief on Secretary's Order No. 2187, that the repairs to Pier 23, East river, had been completed under his supervision, was received, read, and,

On motion, placed on file.

Commissioner Vanderpoel offered the following resolution, which was unanimously adopted :

Resolved, That the Treasurer be and hereby is requested and authorized to have the minutes of the Board for the years ending on April 30, in 1880 and 1881, printed in such quantity as may be necessary to complete the files of the Department, and that from May 1, 1881, and hereafter, the minutes of the Board be regularly printed and bound in annual volumes.

The President offered the following preamble and resolution, which were unanimously adopted :

Whereas, Certain wharf property at and north of the foot of Ninety-second street, East river, has been occupied for many years past for the purposes of a ferry, thence to Fulton street, Astoria, L. I. ; and

Whereas, From recent investigation made by this Department in relation to the title to said property, north of Ninety-second street, East river, used by and claimed to be controlled by the said ferry company, under and by virtue of an alleged lease, made by parties professing to own said property, it appears that the title to said property before mentioned is vested in the Corporation of the City of New York ; and

Whereas, This Board is of the opinion that the said wharf property, north of the foot of said East Ninety-second street, as now used and held by said ferry, is the property of the said Corporation, and that any and all revenue arising therefrom belongs to the city ; therefore

Resolved, That the Counsel to the Corporation be and hereby is respectfully requested to prepare in proper form and present for collection to the Astoria Ferry Company, or to whom it may concern, a claim as for rent for the use of the wharf property occupied for ferry purposes and located north of the northerly line of Ninety-second street, East river, extended, for such an amount as may result upon computation at the rate of \$250 per annum, from the date of the location of said ferry thereat, or for such portion of that period as can be legally claimed, and that in event the said claim be not acknowledged and paid, the said Counsel to the Corporation be and hereby is further requested to take such immediate action as may be necessary to dis-possess the said Astoria Ferry Company of the said wharf property, and secure to the Corporation the amount of the said claim.

The President, to whom was referred the communication from W. D. Andrews & Brother in reference to repairing Pier 59, East river, and requesting permission to repair the northerly half thereof, and also the communication from the Engineer-in-Chief, submitting plans and specifications for repairing Pier 59, East river, jointly with William D. & George H. Andrews, alleged owners of the northerly half of said pier, reported thereon, that having conferred with Mr. Andrews in relation thereto, without arriving at any satisfactory result, and that William D. Andrews & Brother having declined to enter into contract jointly with the Corporation for repairing the said pier, that the plans and specifications therefor be referred back to the Engineer-in-Chief to amend the same by providing for the entire work to be done by the city, and that one-half of the cost thereof be charged to the said William D. Andrews & Brother, the alleged owners of half of said pier, and that the Secretary advise Mr. Andrews that the application made by him in his communication of December 12, 1881, for leave to repair the half of the pier claimed to belong to him, be denied, as it would be impracticable to have the pier properly repaired in the manner proposed by him.

On motion, the report was received and adopted, the communication referred to placed on file, and the Secretary directed to advise William D. Andrews & Brother of the action of the Board in relation thereto.

The Secretary reported that the papers served on Commissioner Vanderpoel in the suit commenced in the Superior Court of the City of New York, by Robert Murray against Jacob Vanderpoel, John R. Voorhis, and William Laimbeer, enjoining and restraining the Board of Docks from removing the platform or pier erected outside the original lines and extending beyond the pier and bulkhead line as established by law, between One Hundred and Nineteenth and One Hundred and Twentieth streets, Harlem river, had been transmitted to the Counsel to the Corporation, with the request that he should take such action in the premises as may be necessary to protect the interests of the Corporation, the action of the Secretary was,

On motion, approved.

The Secretary reported that the five pay-rolls for the month of February, 1882, amounting in the aggregate to the sum of \$5,740.05, had been approved and audited, and that the same had been forwarded, together with the proper requisitions for the amount, to the Finance Department for payment, the action of the Secretary was,

On motion, approved.

Commissioner Vanderpoel, Treasurer of the Board, presented his report of receipts for week ending March 1st instant, as follows :

DATE.	FROM WHOM.	FOR WHAT.	AMOUNT.	TOTAL.	DATE DEPOSITED.
1882.					1882.
Feb. 23	Thomas Clyde.....	E. ½ 33, etc., E. R.....	\$3,250 00	\$3,250 00	Feb. 24
" 27	Wharfinger John M. Smith.....	Wharfage received	\$132 39		
" 27	" James Fitzpatrick.....	" balance.....	212 66		
" 27	" Wm. L. McConkey.....	"	25 50		
" 27	" John Butler.....	"	98 22	468 77	Feb. 27
			\$3,718 77	\$3,718 77	

Respectfully submitted,

(Signed)

JACOB VANDERPOEL, Treasurer.

NEW YORK, March 1, 1882.

The President offered the following resolutions, which were unanimously adopted :

Resolved, That Charles Miller, Jr., be and hereby is appointed a clerk in this Department, at a compensation of \$75 per month.

Resolved, That James R. Byrne be and hereby is appointed temporary clerk in this Department, at a compensation of \$100 per month.

Resolved, That Frederic Perry be and hereby is appointed as temporary clerk in this Department, at a compensation of \$125 per month.

Resolved, That John J. Moran be and hereby is appointed temporary clerk, at a compensation at the rate of \$75 per month.

The following communications were,

On motion, taken from the table and placed on file, necessary action thereon having been heretofore taken :

From Bell Brothers—In reference to removal of lumber from bulkhead between Twenty-first and Twenty-second streets, North river.

From E. Browne -For a lease of water-front between Ninety-second and Ninety-third streets, East river.

From Thomas Fitzpatrick, lessee—For use of pier at Thirtieth street, North river, after May 1, 1881.

From Alexander M. C. Smith- For use of pier at Thirty-second street, East river, as a steam-boat landing.

From Police Department --To have Thirty-sixth street, North river, set apart for dumping-board.

From Engineer-in-Chief—Report on Secretary's order No. 1748, as to condition of bulkhead at Thirty-sixth street, North river.

From Engineer-in-Chief As to penalty incurred by contractors for building Pter, new 54, North river.

From James Fitzpatrick. Corporation Wharfinger :

1st. Report as to incumbrances on bulkhead south of pier at Little Twelfth street, North river.

2d. Report as to incumbrances on bulkhead between Bank and Jane streets, North river.

3d. Report as to incumbrances on bulkhead between Twenty-first and Twenty-second streets, North river.

From Health Department—To have repairs made to pier at North Brother Island.

From Andrew Dettinger, lessee—To have repairs made to pier at Fifty-first street, North river.

The following requisitions were read :

Register No. 3476, 100 tons coal, estimated cost about.	\$438 00
“ 3487, for white-oak crane dredge No. 4, estimated cost about.....	700 00
“ 3488, for 13 pieces oak, estimated cost about.....	83 00
“ 3489, for 9 roller chocks, etc., etc., estimated cost about	40 00
“ 3490, for globe valves, etc	40 00
“ 3491, for repairing boiler flue, “Manhattan,” estimated cost about	100 00
“ 3492, for 2,000 feet N. C. yellow pine.....	38 00
“ 3493, for 1,000 cubic yards cobbles, estimated cost about	980 00
“ 3494, for services of tug during repairs to “Manhattan,” estimated cost about.	15 00
“ 3495, for 1 ton English cannel coal.....	15 00
“ 3496, for 1,000 pounds best navy oakum.....	100 00
“ 3497, for 5 barrels Star pitch.....	12 00
“ 3498, for 130 cubic yards sand.....	115 00
“ 3499, for 1 box glass, 20 x 34.....	5 00

—and,

On motion, approved.

On motion, the Board adjourned.

JOHN T. CUMING, Secretary.

At a meeting of the Board of Docks, held March 8, 1882.

Present—The President and Commissioner Vanderpoel.

Absent—Commissioner Laimbeer.

The minutes of the meeting held March 1, instant, were read and approved.

The following communications were received, read, and,

On motion, laid on the table to await action, as stated, to wit :

From the Department of Street Cleaning—In reference to filling in at the dump at West Thirty-seventh street, North river. Engineer-in-Chief to be directed to examine and report thereon.

From Engineer-in-Chief :

1st. Reporting the suspension of Frederick T. Ryberg, watchman, for being found asleep on duty. Referred to the President to examine and report.

2d. Report on Secretary's Order No. 2320, as to quantity of dredging required in slips between Piers 46 and 48, East river. Secretary to notify Christopher M. Bell, and request him to meet with the Commissioners on Friday, at 2 o'clock P. M., in relation thereto.

3d. Report on Secretary's Order No. 2331, as to repairs made to Pier 60, East river, and the delay in doing the work thereat, by the contractor. Secretary directed to request Mr. Joseph Cooper to appear before the Board at its next meeting, March 15, instant, when he would be heard respecting his claim.

From Green Wright and others—Application for leave to build a dock in Harlem river, between Lincoln avenue and the Morrisania Steamboat Dock. Engineer-in-Chief to be directed to examine and report thereon. Secretary to advise applicants that the Board desires to have plans presented more definite and specific than those handed in.

A report from the Engineer in-Chief on Secretary's Order No. 2267, as to water grants issued and affecting the title to Pier 53, East river, was received, read, and laid on the table, and

On motion, it was ordered, that the Engineer-in-Chief be directed to make necessary repairs to the said pier in accordance with his report on Secretary's Order No. 2204, and the following resolution in relation thereto was unanimously adopted.

Resolved, That the Counsel to the Corporation be and hereby is requested to give his opinion to this Board, respecting the right of this Department to take possession, and receive and collect the revenue or income from wharfage, etc., accruing at Pier 53, East river, which is claimed to be the property of C. H. Eldridge and others, and this Board being of the opinion, that the title to the said pier is vested in and properly belongs to the Corporation of the City of New York.

The following communications were received, read, and,

On motion, placed on file, action being taken where necessary, as stated, to wit :

From Counsel to the Corporation :

1st. In reference to the claim against Frederick Broege, and requesting information as to the appointment of Joseph T. Kelly in the Department, and his duties in the position he held, etc. Secretary directed to reply thereto giving all the information that the records of the Department may show in reference thereto.

2d. Inclosing check for \$200, collected from Thomas Patten, for rent of bulkhead, south of Ninety-third street, East river, due February 1, 1882. Secretary to acknowledge receipt of same, and to advise that credit would be given therefor on the books of this Department.

3d. Transmitting a revised copy of the proposed rules and regulations for the government and proper care of the piers, bulkheads, slips, and wharf property. Secretary directed to have the same printed.

From Department of Street Cleaning—In reference to the canal boat sunk at Forty-sixth street, East river.

From William D. Morgan, lessee—In reference to dredging the slip between Piers 18 and 19, East river, Secretary to notify Mr. Morgan that the Commissioners desire to see him on Friday, the 11th instant, at 2 o'clock P. M., in reference thereto.

From Theron R. Butler—In reference to the valuation to be fixed for the use of the dumping board, at the foot of Thirty-ninth street, East river.

From J. B. & J. M. Cornell—In reference to and complaining of filling in above the proper grade on the sidewalk in Twenty-seventh street, between Eleventh and Thirteenth avenues. Engineer-in-Chief to examine and report in respect to the complaint, and to direct such remedies as may be necessary and proper in the premises. Secretary to advise that the matter would be fully examined, and that proper steps would be taken to remedy the cause of complaint.

From F. Buse—In reference to the obstructions on the bulkhead at Sixtieth street, East river, preventing teams and trucks from having free access thereto. Secretary to notify the Corporation Wharfinger to examine into the same, and to have any incumbrances existing removed therefrom.

From S. H. Thayer, attorney for S. T. Mather and others—Affidavits made by Samuel T. Mather, Stephen Roberts, William Crolius, and Peter A. H. Jackson, as to the damages sustained by them in consequence of the occupation of the water-front at foot of Montgomery street, East river, by the New York, New Haven and Hartford Railroad Company, and the erection of sheds and freight depots thereon by said company.

From Department of Public Charities and Correction—In reference to the condition of the Pier at Twenty-sixth street, East river, and as to dredging the slips in front of Bellevue Hospital. Secretary to advise that this Board have under consideration plans for the permanent improvement of the water-front between Twenty-sixth and Twenty-eighth streets, East river, and embracing the construction of new Piers at Twenty-sixth and Twenty eighth streets, with an intermediate pier between, the erection of a bulkhead wall and the enlargement of the wharfage facilities in that vicinity.

From Philip J. Joachimsen, attorney for Funch, Edye & Co.—In reference to the obstructions existing on the westerly line of Thirteenth avenue between Twenty-fourth and Twenty-fifth streets, North river, and preventing free access to Pier, new 54, North river, and as to the validity of the title of the claimant of the said premises on which the obstructions exist. Secretary to acknowledge the receipt of the communication with thanks for the valuable information contained therein. Secretary to also request the Department of Public Works to have the obstruction existing thereat removed, so as to render free access to and from said pier, and the Secretary was further directed to request the Counsel to the Corporation to give his opinion, as to the duty of this Board in the premises, and what proper steps should be taken to remedy the evil complained of.

From Engineer-in-Chief :

1st. Reporting that the building of the bulkhead wall in the rear of Pier, new 55, North river, was sufficiently advanced to permit the building of the inner 100 feet of the said pier by the contractors. Secretary directed to notify Holmes Brothers, the contractors for building Pier, new 55, North river, to proceed at once with the work of building the 100 feet on the inner end of said pier.

2d. Report of work done during the week ending March 4, 1882.

3d. Report on Secretary's Order No. 2286, that order to repair the bulkhead between Twentieth and Twenty-first streets, North river, had been rescinded by the Board, the lessees thereof having agreed to do the work thereon.

On motion, ordered that the communication and report be placed on file, and that the application be granted ; the work to be done, however, under the supervision and direction of the Engineer-in-Chief of this Department.

The report of the Engineer-in Chief on Secretary's Order No. 2227, submitting specifications for repairing the bulkhead and platform between Thirty-eighth and Thirty-ninth streets, East river, was,

On motion, taken from the table and placed on file, and the following resolution, in reference thereto, was unanimously adopted.

Resolved, That the Engineer-in-Chief be and hereby is directed to make the necessary repairs to the bulkhead between Thirty-eighth and Thirty-ninth streets, East river, in accordance with the specifications prepared by him, by and with the force of this Department, the estimate made by him of the cost of said repairs being the lowest of all the estimates received by the Treasurer for doing the said work.

The communications from Edward H. Coffin, in reference to the ferry-bridge at One Hundred and Thirtieth street, North river, and from the Comptroller of the city in relation thereto, and also the report of the Engineer-in-Chief thereon as to water grants, etc., with map annexed thereto, were,

On motion, taken from the table and placed on file, and the following resolution, offered by the President, was adopted :

Resolved, That the Engineer-in-Chief of this Department be and is hereby directed to prepare plans and specifications for two new piers to be built at One Hundred and Thirtieth and One Hundred and Thirty-first streets, North river, respectively, and also for a bulkhead to be built between the southerly line of One Hundred and Thirtieth street to the northerly line of One Hundred and Thirty-first street, the said plans and specifications to be submitted as soon as practicable to this Board for approval.

The Comptroller appeared at 12 o'clock, M., pursuant to notice, for the purpose of opening bids publicly advertised for, to be opened this day at 12 o'clock, M., for repairs to Pier 15, East river.

The communication received from the Union Ferry Co., in reference thereto, was taken from the table and read, and after consultation with the Comptroller and Mr. John F. Doyle, representing the alleged owners of the westerly half of the said pier, it was decided to withdraw the proposals for doing the work of repairing the said pier by contract, and the following resolution was adopted :

Resolved, That the proposals for estimates to repair Pier 15, East river, advertised for, and which were to have been publicly opened this day at 12 o'clock, M., be and the same are hereby

A report from the Engineer-in-Chief, on Secretary's Order No. 2344, submitting specifications and form of contract for repairing Pier 59, East river, as amended by direction of the Board, was received, read, and,

On motion, placed on file, and the following resolution, offered in relation thereto, was adopted :

Resolved, That the form of specifications and contract, as prepared by the Engineer-in-Chief, for repairing Pier 59, East river, be and hereby is approved and adopted, subject to the approval of the Counsel to the Corporation as to form, and that the Secretary be and hereby is directed to have a sufficient number of blank forms of proposals printed and proper advertisements, inviting bids for doing said work, inserted in the papers designated by law.

The communication from Joseph V. Brown, in reference to repairs to Pier at Fifth street, East river, was,

On motion, taken from the table, and, with the report of the Engineer-in-Chief, on Secretary's Order No. 2032, in relation thereto, which was received and read, was ordered on file.

The communication from the Engineer-in-Chief, as to repairs to be made to Piers 51, 51½, and 52, East river, was,

On motion, taken from the table, and with the additional report from the Engineer-in-Chief, as to the amount of repairs required thereto, which was received and read, was ordered on file, and the Secretary was directed to notify the owners of the westerly half of Pier 51, and the easterly half of Pier 52, and Joseph V. Brown, the lessee of the balance of said premises, to repair the same within ten days, under the supervision of the Engineer-in-Chief, or this Department will have the same done and charge the cost thereof to them.

The communication from the Engineer-in-Chief as to the condition of the water-front near Bellevue Hospital, and between Twenty-sixth and Twenty-eighth streets, East river, was,

On motion, taken from the table and placed on file, and the following resolution, offered by the President, was unanimously adopted :

Resolved, That the Engineer-in-Chief of this Department be and is hereby directed to prepare as soon as practicable the necessary plans and specifications for the improvements proposed on the water-front between Twenty-sixth and Twenty-eighth streets, East river, in accordance with the plan indicated on map B, annexed to his report, made January 31, 1882, and to consist of two Piers at Twenty-sixth and Twenty-eighth streets respectively, with an intermediate pier, the construction of a river wall on the bulkhead line, and providing for the enlargement of the wharfage facilities in that vicinity, the said plans and specifications to be submitted to the Board for approval.

The communication from the New York Central and Hudson River Railroad Co., requesting permission to fill in on the North river, between Seventy-second and Seventy-sixth streets, to make an additional track, was

On motion, taken from the table, and the report of the Engineer-in-Chief in relation thereto, that there was no reason why a permit should not be granted therefor, being received and read, it was,

On motion, ordered that the communication and report be placed on file, and that the application be granted ; the work to be done, however, under the supervision and direction of the Engineer-in-Chief of this Department.

The report of the Engineer-in Chief on Secretary's Order No. 2227, submitting specifications for repairing the bulkhead and platform between Thirty-eighth and Thirty-ninth streets, East river, was,

On motion, taken from the table and placed on file, and the following resolution, in reference thereto, was unanimously adopted.

Resolved, That the Engineer-in-Chief be and hereby is directed to make the necessary repairs to the bulkhead between Thirty-eighth and Thirty-ninth streets, East river, in accordance with the specifications prepared by him, by and with the force of this Department, the estimate made by him of the cost of said repairs being the lowest of all the estimates received by the Treasurer for doing the said work.

The communications from Edward H. Coffin, in reference to the ferry-bridge at One Hundred and Thirtieth street, North river, and from the Comptroller of the city in relation thereto, and also the report of the Engineer-in-Chief thereon as to water grants, etc., with map annexed thereto, were,

On motion, taken from the table and placed on file, and the following resolution, offered by the President, was adopted :

Resolved, That the Engineer-in-Chief of this Department be and is hereby directed to prepare plans and specifications for two new piers to be built at One Hundred and Thirtieth and One Hundred and Thirty-first streets, North river, respectively, and also for a bulkhead to be built between the southerly line of One Hundred and Thirtieth street to the northerly line of One Hundred and Thirty-first street, the said plans and specifications to be submitted as soon as practicable to this Board for approval.

The Comptroller appeared at 12 o'clock, M., pursuant to notice, for the purpose of opening bids publicly advertised for, to be opened this day at 12 o'clock, M., for repairs to Pier 15, East river.

The communication received from the Union Ferry Co., in reference thereto, was taken from the table and read, and after consultation with the Comptroller and Mr. John F. Doyle, representing the alleged owners of the westerly half of the said pier, it was decided to withdraw the proposals for doing the work of repairing the said pier by contract, and the following resolution was adopted :

Resolved, That the proposals for estimates to repair Pier 15, East river, advertised for, and which were to have been publicly opened this day at 12 o'clock, M., be and the same are hereby

withdrawn, and that the estimates which have been handed in to this Department to do said work, being four in number, and from the following-named parties :

No. 1. S. A. Jenks & Co.,

No. 2. T. & A. Walsh,

No. 3. Holmes Brothers,

No. 4. John A. Flaherty and Thomas O'Connell,

be returned unopened to the respective parties making the same, and that the deposits made by the said several proposed bidders be transmitted to the Comptroller in the usual manner, with notice that the same is to be returned to the said parties on retiring the receipts given by this Department therefor.

Commissioner Vanderpoel, the Treasurer of the Board, reported that he had fixed the amount to charge Messrs. Cobanks and Theall for use of the derrick "City of New York," at the sum of \$768, and that he had presented a bill therefor to them.

On motion, the action of the Treasurer was approved.

Commissioner Vanderpoel pre-ented, as Treasurer, a statement of receipts for the week ending March 7, instant, as follows :

DATE.	FROM WHOM.	FOR WHAT.	AMOUNT.	TOTAL	DATE DEPOSITED.

JACOB VANDERPOEL, Treasurer.

NEW YORK, March 8, 1882.

The President and Secretary were, on motion, authorized to execute and subscribe for the usual form of agreement for the use by the Department of the instruments and service of the Metropolitan Telegraph and Telephone Company's line at the usual rent of \$150.

The Secretary was directed to notify the Captain of the Port not to berth any vessels at the bulkhead on the south side of Pier, old 39, North river, as this Department was about to proceed with the completion of the bulkhead wall at Pier, new 28, North river.

The Auditing Committee presented an audit of forty bills or claims, amounting in the aggregate to the sum of \$19,161.10, which was,

On motion, accepted and adopted, and the Secretary directed to enter the same in full on the minutes, as follows :

Audit No.		Amount.
7290.	The Greenwich Insurance Co.	\$88 00
7291.	The Commercial Fire Ins. Co.	84 00

42 Bills or claims amounting to.....	<u>\$19,161 10</u>

Respectfully submitted,

(Signed)

JACOB VANDERPOEL, Auditing Committee.

NEW YORK, March 8, 1882.

On motion, the Secretary was directed to forward the said bills, together with proper requisitions for the amounts, to the Finance Department for payment.

The following requisitions were read, and,

On motion, approved:

Register No. 3500, for 2,000 feet N. C. yellow pine.....	Estimated cost, about \$38 00
" 3501, for books and stationery, Engineer's Department..	" 20 00

On motion, the Board adjourned.

JOHN T. CUMING, Secretary.

At a meeting of the Board of Docks, held March 15, 1882.

Present—The President, and Commissioner Vanderpoel.

Absent—Commissioner Laimbeer.

The minutes of the meeting held March 8th, instant, were read and approved.

The following communications were received, read, and,

On motion, laid on the table to await action, as stated, to wit :

From J. S. Treadwell and others—Application requesting that a new pier be built at Fifty-second street, North river, for the accommodation of the business men of that vicinity.

From Engineer-in-Chief—Report on Secretary's Order No. 2347, as to the condition of the premises on north side of Harlem river, near Lincoln avenue, and recommending a plan to be adopted for the construction of the dock thereat, should the Board grant permission to Green, Wright, and others, who have made application therefor so to do.

The following communications were received, read, and,

On motion, placed on file, action being taken where necessary, as stated, to wit :

From Counsel to the Corporation :

1st. In reference to claim for \$81.20 for wharfage against Messrs. Arkell & Co., and enclosing check for \$67.20 collected in settlement of same. Secretary to advise that credit for the same was given to the Law Department on the books of this Department.

2d. In reference to claim against R. E. Allen & Co., for rent of south half of Pier at Laight street, North river, from August 1, 1873, to November 1, 1873, and stating that a defense had been made to the suit instituted therefor, setting up the statute of limitations.

3d. In reference to the proceedings to be taken to dispossess the Astoria Ferry Company and Edward Brown from premises north of Ninety-second street, East river, and requesting full information as to the premises, and a particular description of the same. Engineer-in-Chief to be directed to furnish tracings thereof, and to give the information desired.

From Commissioners of the Sinking Fund—Copy of resolution rescinding and annulling former resolutions granting and authorizing the issuing of grants for land under water to various parties, and for which grants have not been issued.

From Department of Public Works—In reference to obstructions, etc., in Fortieth and Forty-first streets, between First avenue and the bulkhead on the East river.

From Andrew Dettinger, lessee—In reference to repairing the Pier at Fifty-first street, North river, and also as to dredging in the slip thereat.

From McKay & Dix—Stating that a portion of Pier 45, East river, had fallen in and was not available for use.

From Wm. L. McConkey, Corporation Wharfinger—Reporting that a portion of the deck of Pier 45, East river, had broken down, and that about 125 tons of bloom iron had fallen through into the river. Secretary directed to notify Joseph S. Macy, the alleged owner of the said pier, to have the same repaired within ten days, under the supervision of the Engineer-in-Chief of this Department, or this Department will do the work and charge the cost thereof to him.

From Department of Public Charities and Correction—In reference to Pier and slip at Twenty-sixth street, East river, and also as to repairs to Branch Workhouse dock at Hart's Island. Engineer-in-Chief to be directed to examine and report as to repairs required at the Branch Workhouse dock, Hart's Island.

From Providence & Stonington Steamship Company, lessees—In reference to the condition of Pier 29, North river, and requesting that the necessary repairs be made thereto. Engineer-in-Chief to be directed to examine and report thereon.

From Department of Public Works :

1st. In reference to obstructions on Thirteenth avenue, between Twenty-fourth and Twenty-fifth streets, preventing access to the Pier, new 54, North river.

2d. In reference to the location of a Public Bath to be placed in the Fifth Ward of the City of New York, pursuant to chapter 447, Laws of 1881. Secretary directed to advise that the Board will be happy, so far as it is in their power, to comply with the law referred to whenever it may be necessary so to do.

From the Mayor—Referring communication received from Messrs. Vanderpoel, Green & Cuming, in reference to obstructions preventing access to the bulkhead at Pier, old 39, North river, in violation of the injunction heretofore served in the suit of Alexander Bonnell against the Mayor, etc. Secretary directed to advise that the obstruction had been removed prior to receipt of the communication from the "Mayor."

From New York, New Haven, and Hartford Railroad Co.—In reference to repairing Piers 51 and 52, East river, and stating their readiness to repair the westerly half of Pier 51 and the easterly half of Pier 52, in conjunction with the lessees of the other portions of said piers, or whenever the Department was ready to proceed with the work. Secretary to advise that a notice similar to that sent to the company had been served on the lessees of the other half of the said piers, and that on the expiration of the ten days' time, specified therein, action would be taken by the Board in the matter.

From Engineer-in-Chief :

1st. Report on Secretary's Order, No. 2340, that the dumping board at foot of Eighty-sixth street, East river, having been found unsafe for use, had been removed.

2d. Report on Secretary's Order, No. 2346, in reference to the filling up with dirt, etc., the sidewalk on Twenty-seventh street, between the Eleventh and Thirteenth avenues.

3d. Report on Secretary's Order, No. 2193, that repairs were made to Piers 19 and 43, East river, respectively, and that they are now in good condition.

4th. Report on Secretary's Order, No. 2306, as to amount of dredging required at the bulkhead at Sixteenth street, East river, to give proper depth of water thereat. Engineer-in-Chief to be directed to make requisitions for the necessary labor, machinery, and materials, to have the same dredged to a depth of fifteen feet, at mean low water.

5th. Report on Secretary's Order No. 2293, as to amount of dredging required to give proper depth of water in the slip south of Pier, old 39, North river. Secretary directed to notify the lessees of the slip to have the slip dredged to a depth of twenty-five feet at mean low water to give proper

depth of water therein within ten days, and under the supervision of the Engineer-in-Chief of this Department, or in default thereof that this Department will do the work, and charge the cost thereof to them.

6th. Reporting that the construction of the bulkhead wall was sufficiently advanced to permit the building of the one hundred feet on inner end of Pier, new 28, North river. Secretary directed to notify the contractor for building said pier to proceed at once with the work of building the one hundred feet on the inner end thereof, pursuant to article 67 of his contract.

7th. Reporting amount of work done during the week ending March 11, 1882.

8th. Report on Secretary's Order No. 2339, that repairs had been made to the Pier at Thirty-fourth street, North river, pursuant to the order of the Board, and that the cost thereof was \$191.17. Secretary directed to make a bill therefor, and the Treasurer requested to collect the same from Scott & Co., the lessees of said pier.

From Wm. L. McConkey, Corporation Wharfinger :

1st. Reporting that the bulkhead between Piers 10 and 11, East river, required repairs, Engineer-in-Chief to be directed to examine and report thereon.

2d. Reporting that Piers 19 and 24, East river, required repairs. Secretary directed to notify the Corporation Wharfinger to report to the Engineer-in-Chief the specific repairs necessary to the respective piers.

From James Fitzpatrick, Corporation Wharfinger, reporting the bad condition of the Piers at Thirtieth, Forty-sixth, and Fifty-first streets, North river. Engineer-in-Chief to be directed to examine and report as to the Pier at Forty-sixth street. As to Piers at Thirtieth and Fifty-first streets, North river, the Engineer-in Chief having existing orders to keep them in safe condition, until thoroughly repaired, no action was taken.

The communication from the Department of Street Cleaning in reference to filling in at the dump at Thirty-seventh street, North river, was taken from the table and, in connection therewith, the report of the Engineer-in-Chief on Secretary's Order No. 2345 in relation thereto, which was received, read, and,

On motion, was ordered on file, and the application for leave to fill in the said premises was respectfully denied, as it would be likely to interfere with the rights of the owners of the adjoining premises and injure their property, and the Secretary was directed to advise the Department of Street Cleaning of the action of the Board respecting the same.

The communication from the Union Ferry Co. in reference to repairing Pier 15, East river, was,

On motion, taken from the table and placed on file, and after hearing Mr. John F. Doyle, who appeared before the Board on behalf of the alleged owners of the westerly half of said pier, the following resolution, offered by the President, was unanimously adopted :

Resolved, That permission be and hereby is given to the Union Ferry Co. and to the alleged owners of the westerly side of Pier 15, East river, to repair said Pier 15, East river, jointly, in accordance with plans and specifications to be prepared by the Engineer-in-Chief of this Department, and approved by this Board ; which plans shall provide for straightening the easterly and westerly lines

of the pier as far as the same may be practicable, locating the outer or river end of the pier on existing lines, and widening the slip between Piers 15 and 16, at the junction of the ferry-house and Pier 15, about six feet, the deck or surface of the pier to be same width as at present; the said repairs to be made free of any charge or cost to the Corporation of the city, and a proper compensation to be paid by the said ferry company for the additional six feet made to width of the ferry slip; provided, that the said ferry company and the alleged owners sign an agreement within three days from adoption of this resolution, obligating themselves to a performance of the conditions herein recited, so far as they may severally apply to each of said parties.

The communication from Joseph Cooper, lessee of Pier 60, East river, in reference to the use and occupation of said pier, and claiming \$1,200 for damages for being deprived of the use thereof while it was being repaired, and also the report of the Engineer-in-Chief on Secretary's Order No. 2331, in respect thereto, were,

On motion, taken from the table and placed on file, and after hearing the representative of Mr. Cooper, who appeared before the Board, and was heard at length in support of said claim, it was decided by the Board, that they could not, in view of all the facts presented, entertain the claim, as it appeared that during the period the contractor was making the repairs to the pier, that the same was occupied by vessels, and the lessee, Mr. Cooper, was receiving revenue therefrom for wharfage accruing thereat; that the repairs made to the bulkhead were necessitated by reason of dredging the slip too deep in front thereof, and thereby causing damage thereto, which could not have been foreseen until it occurred, and also that in and by the terms of the sale to the said Joseph Cooper, of the right to collect and retain all wharfage accruing at the said pier, it was expressly stated and public notice given thereof, that no claim would be received or considered by this Department for loss of wharfage or otherwise, consequent upon any delay in doing the work of repairing or dredging, or consequent upon the premises being occupied for repairing or dredging purposes, and therefore as a conclusion, decided that there was no foundation for the claim made by Mr. Cooper, which could be based or established on any principle of justice or equity, and therefore denied his application. The Secretary was directed to notify Mr. Cooper of the action of the Board in reference to his application.

The President, to whom was referred the communication from the Engineer-in-Chief, reporting the suspension of Frederick T. Ryberg, watchman, for being asleep while on duty, reported thereon and recommended that the action of the Engineer-in-Chief be approved, and that the watchman be discharged.

On motion, the recommendation was adopted, and the watchman discharged.

The following communications were taken from the table, and,

On motion, placed on file, action having been heretofore taken thereon where necessary, to wit:

From W. S. Andrews—Requesting copy of map of the water-front of the city.

From J. J. Lawrence—As to condition of bulkhead at Thirty-second street, East river.

From Stephen A. Frost—In reference to repairs required to Pier 19, East river.

From Fire Department—To have spring piles driven at bulkhead at Pier, new 1, North river.

From Decker & Rapp, lessees—In reference to the repairs made to Pier at Bethune street, North river.

From White Star Line, lessee—To have repairs made to Piers, new 44 and 45, North river.

From Union Stock Yard and Market Company—To have runway cut in Pier at Fifty-eighth street, North river.

From Police Department—To have dredging done at various piers occupied as dumping boards.

From Metropolitan Telephone and Telegraph Company—In reference to bill for services not being paid.

From the Western Transportation Company—For permission to remove derricks from the inner to the outer end of Pier 7, East river.

From the New Haven Steamboat Company—In reference to repairs and dredging at Pier 25, East river.

From William Farrell and others—In reference to the order of the Department for the removal of goods from bulkheads, etc., on the North river water-front.

From the Mutual Benefit Ice Company :

1st. In reference to dredging, etc., to be done at Piers at Fifteenth, Sixteenth, and One Hundred and Twenty-ninth streets, North river.

2d. In reference to repairs made to Piers at Fifteenth, Sixteenth, and One Hundred and Twenty-ninth streets, North river.

3d. To have Pier at Fifteenth street, North river, widened.

4th. To retain platform for landing ice at Fourteenth street, North river.

5th. To erect platform on Pier at Fifty-fourth street, East river, for landing ice.

6th. To have repairs made to Pier 62, East river, and to have slip dredged and platform erected thereat.

7th. To have repairs made and dredging done at Pier 62, East river.

From Engineer-in-Chief :

1st. Reporting on condition of Pier 59, East river.

2d. In reference to water grants for premises, between Twenty-seventh and Thirtieth streets, North river.

3d. Report on Secretary's Order No. 2282, as to water grants for premises, between One Hundred and Fifty-eighth and One Hundred and Sixty-second streets, North river.

4th. Report on Secretary's Order No. 1648 on condition of the bulkhead at Forty-third street, East river.

5th. Report on Secretary's Order No. 2020, as to repairs necessary to pier and dumping board at Market street, East river.

The Secretary reported that by direction of the President he had called to see the Captain of the Port, for the purpose of requesting that officer to remove all vessels from the south side of Pier, old 39, North river, instead of sending a written communication, but as that officer was absent from his office on account of sickness, he had made the request to the Deputy in charge of the office, who informed him that Captain Cole would be down at the office in a day or two, and that in his temporary absence, he did not wish to do anything respecting the matter until Monday, when, if Captain Cole should be still absent, he would take some action in the premises.

Commissioner Vanderpoel reported that on Saturday afternoon, the 11th instant, papers had been served upon him in a suit commenced in the United States Circuit Court, in which Alexander Bonnell is plaintiff, and the Mayor, etc., are the defendants, enjoining and restraining the Department of Docks from proceeding with the work on the new bulkhead wall, south of Pier, old 39, North river, between Vestry and Laight streets, North river, and that he had handed the same to the Counsel to the Corporation with the request that proper steps be taken by that officer to fully protect the interests of the city in the matter.

The President stated that Wm. D. Morgan, the lessee of Pier 18, East river, had conferred with him in reference to dredging the slip between Piers 18 and 19, East river, and requested permission to do the dredging required in the west half of the slip at his own cost and expense, doing the work under the supervision of the Engineer-in-Chief of this Department.

On motion, it was ordered that the action heretofore taken by the Board on the 8th instant, directing the Engineer-in-Chief to prepare specifications and form of contract to dredge the slip between Piers 18 and 19, East river, jointly with Wm. D. Morgan, lessee, be rescinded and annulled, and that the Engineer-in-Chief be directed to prepare specifications and form of contract for dredging the easterly half of the said slip, the property of the city and unleased. That permission be and hereby is given to Wm. D. Morgan, to dredge the westerly half of the slip, between Piers 18 and 19, East river, under the supervision of the Engineer-in-Chief of this Department.

The Secretary reported that by the action of the Board on the 8th inst., the Engineer-in-Chief had been directed to make the necessary repairs to Pier 53, East river, but that the cost of the repairs required thereto as reported by the Engineer-in-Chief would exceed the sum of \$1,000; it was,

On motion, ordered that the action of the Board directing the Engineer-in-Chief to make said repairs be rescinded and that that officer be directed to prepare specifications and form of contract to have such repairs made by contract instead of by the force of this Department.

Commissioner Vanderpoel presented the following resolutions in reference to the premises south of Pier, old 39, North river, which were unanimously adopted :

Resolved, That Emory M. Van Tassell, the occupant and claimant of platform with all structures thereon erected, situated on land under water to the south of and adjoining Pier, old 39, North river, and in front of the existing bulkhead, be and hereby is notified and directed to remove the same within ten days after receipt hereof, and in case of his failure so to do, said occupant and claimant is hereby notified that the Department of Docks will remove the same at his cost and expense.

Resolved, That the Treasurer be and hereby is directed to prepare and forward to Emory M. Van Tassell a claim for \$27,000, for rent of land under water, the property of the Corporation covered by said platform, used and occupied by him during the years 1876, 1877, 1878, 1879, 1880, and 1881, with a request that he pay the same forthwith, in default of which the said claim for rent will be forwarded to the Counsel to the Corporation for collection.

Commissioner Vanderpoel, the Treasurer of the Board, presented his report of receipts for the week ending March 14th, inst., which was received, read, and,

On motion, placed on file, the Secretary to enter the same in full upon the minutes, as follows :

DATE RECEIVED.	FROM WHOM.	FOR WHAT.	AMOUNT.	TOTAL.	DATE DEPOSITED.
1882.					1882.
Mar. 9	Greenpoint Ferry Co.....	Tracing slip, 23d & 24th sts., E. R	\$12 00

" 3510, for services of tug boat during repairs, at \$5 per hour.		

For one ton English cannel coal, for office, \$15.

On motion, Peter Harrison was appointed as a laborer.

On motion, the Board adjourned.

JOHN T. CUMING, Secretary

At a meeting of the Board of Docks held March 22, 1882.

Present—The President and Commissioner Vanderpoel.

Absent—Commissioner Laimbeer.

The minutes of the meeting held March 15, instant, were read and approved.

The following communications were received, read, and,

On motion, laid on the table to await action, as stated, to wit :

From Health Department—In reference to the sanitary condition of the piers, slips, etc., in the vicinity of Canal and Watts streets, consequent upon the discharge from the sewer outlet at foot of Canal street, North river. Engineer-in-Chief to be directed to examine and report thereon, also what measures can lawfully be taken by this Department to remedy the evil complained of.

From Charles F. Wells—In reference to a cargo of granite furnished to this Department under a contract with John Hogan, and which was rejected as defective, not being in accordance with the contract, and requesting the Board to make an offer therefor. Engineer-in-Chief to be directed to examine the stone, and report as to whether the same would be required or could be made available for the use of the Department.

From N. Y. & Manhattan Beach Railway Co., lessees—In reference to dredging the slip at Pier at Twenty-third street, East river. Secretary directed to request from the Commissioners of the Sinking Fund a copy of the lease made by them to the railway company, of the said premises, and also to request from them copies of all leases made by them of wharf property for ferry purposes.

From Pennsylvania Railroad Company, lessees—Submitting plans for shed to be built on Pier, new 28, North river. Engineer-in-Chief to be directed to examine and report on the same to this Board.

From Comptroller of the city—Requesting the Board to fix an upset price for wharf property and slips occupied by the New York, Lake Erie, and Western Railroad Company, at Twenty-third street, North river, for ferry purposes, and also requesting this Department to furnish a diagram of the premises so occupied. Engineer-in-Chief to be directed to furnish a diagram of said premises, and the Secretary directed to transmit the same to the Comptroller, and to state that the Board would take action in respect to fixing an upset price therefor upon the return of Commissioner Laimbeer, who is at present absent from the city.

The following communications were received, read, and,

On motion, placed on file, action being taken where necessary, as stated, to wit :

From Counsel to the Corporation—Inclosing check for \$1,250, collected from Scott & Co., for claim for rent of pier at Thirty-fourth street, North river, due February 1st., ultimo. Secretary directed to advise that proper credit was given therefor to the Law Department on the books of this Department.

From the Common Council—Resolution adopted by the Board of Aldermen, in reference to the lease of Pier, new 1, North river.

From Department of Public Works—In reference to the condition of the sewer outlet at Beach street, North river. Engineer-in-Chief to be directed to examine and repair the same, reporting thereon to the Board at its next meeting.

From New York, New Haven and Hartford R. R. Co.—In reference to repairing the half of Piers 51 and 52, East river, claimed to be owned by the company, and stating its readiness to have the same done whenever the lessees of the other half of said piers, or the city is ready to proceed with the work.

From J. M. Duclos In reference to condition of bulkhead at One Hundred and Fourth street, East river, and requesting that same be repaired so as to meet the requirements of the business men in the vicinity. Secretary directed to advise that Board have under consideration the improvement of the wharfrage facilities on the East river water-front, and that due consideration will be given to the interests of that section of the city.

From Union Ferry Company—Accepting terms and conditions imposed by the resolution adopted by the Board authorizing the ferry company to repair Pier 15, East river.

From Police Department—Notice of the expiration of the certificate of qualification of Dennis F. Eagan as Engineer.

From John F. Doyle—Inclosing agreement as to repairing Pier 15, East river, executed by the Union Ferry Company of Brooklyn, lessees of the easterly half, and by himself as the agent of the owners of the westerly half of the said pier. The form of the agreement as executed was approved, and the Secretary directed to acknowledge the receipt thereof.

From Sanderson & Son—Requesting copy of the register of leases of the piers and wharves belonging to the city.

From Rowe & Denman—In reference to and requesting that a dock be built at One Hundred and Second street, East river, for the accommodation of business men located in that vicinity. Secretary to reply that the Board have under consideration the improvement of that portion of the city by building docks and piers to afford better wharfrage facilities along the East and Harlem river water-fronts.

From Robinson & Booth—In reference to furnishing Georgia pine timber and lumber to the Department, and offering to supply the same promptly as required. Secretary to hand to the Treasurer the name of the firm, with their proposal.

From Engineer-in-Chief :

1st. Reporting the suspension of Timothy Ring, watchman, for ten days, for being found inattentive while on duty March 18, instant. Action of Engineer-in-Chief suspending the said watchman for ten days approved.

2d. Reporting the suspension of Patrick Reilly, watchman, for ten days, for being found inattentive while on duty on March 18th instant. Action of Engineer-in-Chief suspending the said watchman for ten days approved.

3d. Reporting work done during the week ending March 18, 1882.

4th. Reporting that the first partial estimate on contract of Mahony Brothers for building Pier at North Brother Island had been handed in.

5th. Reporting the suspension of George Henry, Dockbuilder, he having been reported as being drunk on the work on 6th instant. Action of the Engineer-in-Chief approved, and the said George Henry discharged.

6th. Reporting the suspension of Hugh Murray, acting night watchman, for ten days, for inattention to duty on night of March 17, instant. Action of Engineer-in-Chief suspending said watchman for ten days approved.

7th. Report on Secretary's Order No. 2297, that the order to superntend repairs to Piers 51, 51½, and 52, East river, had been superseded by Secretary's Order No. 2350.

8th. Report on Secretary's Order No. 2299, that dumping board at Thirty-ninth street, East river, had been erected by George W. Ryerson under the perm t granted by the Board.

9th. Report on Secretary's Order No. 2323, that three piles had been replaced on the easterly end of Pier 37, East river, pursuant to the order of the Board.

10th. Report on Secretary's Order No. 2321, that repairs had been made to the plank roadway between West street and Pier, new 39, North river, as directed by the Board.

11th. Report on Secretary's Order No. 2356, as to repairs required to the Branch Workhouse Pier at Hart's Island, East river, and estimate of the cost thereof at \$55, if done by the contractor doing the work at that place. Engineer-in-Chief to be directed to make requisition for same, and the Treasurer requested to issue order therefor.

12th. Report on Secretary's Order No. 2265, that repairs had been made to the southerly side of Pier 61, East river, in accordance with the order of the Board.

From James Fitzpatrick, Corporation Wharfinger, reporting that the Pier at Thirteenth street, North river, was in an unsafe and dangerous condition. Engineer-in-Chief to be directed to repair the same and keep it in safe condition for use, until thoroughly repaired or rebuilt.

The following communications were,

On motion, taken from the table and placed on file, action thereon having been heretofore taken where necessary :

From Engineer-in-Chief :

1st. Reporting the suspension of Peter McDougle for being under the influence of liquor, and Isaac Willets for being found asleep while on duty as night watchman on January 16, 1881.

2d. Reporting that dredging had not been done in the slip between Piers 10 and 11, East river, by the owners thereof, as directed by the Board.

From Captain of the Port - Requesting that the slip between Piers 10 and 11, East river, be dredged to give proper depth of water thereat.

From Peter Gilligan—Application for appointment as sub-marine diver in the Department.

From Glasco Ice Co., lessees—Application for use of bulkhead between Fourteenth and Fifteenth streets, North river.

From Department of Public Charities and Correction—Requesting that repairs be made to the upper coal dock at Blackwell's Island, East river.

From Scott & Co., lessees—In reference to repairs required to Piers at Thirty-fourth and Thirty-fifth streets, North river.

From Theron R. Butler—In reference to dumping board at Thirty-ninth street, East river.

The special report made by John Butler, Corporation Wharfinger, as to removal of platform on bulkhead between Forty-ninth and Fifty-first streets, East river, was,

On motion, taken from the table and placed on file, and the following preamble and resolution, offered by the President in relation thereto, was adopted :

Whereas, W. C. Brainard, owner or occupant of platform between Forty-ninth and Fifty-first streets, East river, was notified by letter from this Department, bearing date August 16, 1881, to remove the same within ten days ; and

Whereas, The said platform still exists without authority of law and in violation of said order of the Dock Department ; therefore

Resolved, That the said W. C. Brainard, or the owner or occupant of platform between Forty-ninth and Fifty-first streets, East river, be and hereby is notified to remove the said platform within five days from date of adoption of this resolution, and in event of his failure so to do, that he be and hereby is notified that the said platform will be removed immediately thereafter at his cost and expense by this Department.

The communication from the Engineer-in-Chief respecting the suspension of Murtha Gallagher, night watchman, for being found inattentive while on duty on night of August 10, 1881, and the report made thereon by Commissioner Laimbeer, to whom it was referred, was,

On motion, taken from the table and placed on file, and the recommendation made in the report that the watchman be discharged was adopted.

The President, to whom was referred the communication from the Engineer-in-Chief in reference to the rates of pay for laborers on tidework, reported thereon, and offered the following resolution in reference thereto, which was unanimously adopted :

Resolved, That the rates of pay or wages for laborers employed upon tidework, be and are hereby established, to take effect on and after March 16, 1882, as follows, to wit : For two hours work or less on any kind of work in any one day at forty cents per hour ; for six hours work or more on any kind of work in any one day at twenty cents per hour ; for any time between two and six hours on any kind of work in any one day at the rate of forty cents per hour for the first two hours and ten cents per hour for the remainder of the time ; provided that any laborer who shall, for any reason, stop working before being ordered to do so by the foreman or other officer in charge of the work, shall be paid at the rate of only twenty cents per hour for the time he may actually have worked during the day he so stopped.

The rates as above established for laborers on tidework being as follows :

For 1 hour,	at 40 cents per hour	\$0 40
For 2 hours,	at 40 "	80
For 2½ "	{ 2 hours, at 40 "	85
	{ ½ " at 10 "	
For 3 "	{ 2 " at 40 "	90
	{ 1 " at 10 "	
For 3½ "	{ 2 " at 40 "	95
	{ 1½ " at 10 "	
For 4 "	{ 2 " at 40 "	1 00
	{ 2 " at 10 "	

For 4½ hours,	{ 2 hours, at 40 cents per hour	{ \$1 05
	{ 2½ " at 10 " "	
For 5 "	{ 2 " at 40 "	{ 1 10
	{ 3 " at 10 " "	
For 5½ "	{ 2 " at 40 "	{ 1 15
	{ 3½ " at 10 " "	
For 6 "	{ " at 20 "	{ 1 20

Commissioner Vanderpoel, to whom, as Treasurer, was referred the matter of fixing the amount of additional rental to be paid by G. W. Ryerson, for the additional privilege of having a dumping board at Thirty-ninth street, East river, reported orally that the same had been fixed and determined at the rate of \$700 per annum additional to the present rental of \$800 per annum, and that such additional rent should commence from and after May 1, 1882.

On motion, the report was accepted, and the additional rental for the said premises fixed at \$700 per annum.

The President offered the following resolutions, which were adopted :

Resolved, that the Engineer-in-Chief be and hereby is authorized to obtain cartage when necessary for the work of the Department, at the following rates, viz. :

For one-horse load or less, south of Thirtieth street.	\$o 75
On the North river, above Thirtieth street and below Sixtieth street	1 oo
On the East river,	" " " "
North of Sixtieth street.	2 25

and that the name of the cartman and the amount due be placed upon the pay-roll.

Resolved, That it be referred to the Engineer-in-Chief to examine for, and to report as soon as practicable, a suitable place on the Hudson river, between Reade and Canal streets for the location of a public bath, in pursuance of the provisions of section 4, chapter 447, of the Laws of the State of New York, passed June 3, 1881.

Commissioner Vanderpoel, the Treasurer of the Board presented the following report of receipts for the week ending March 21, instant, which was received, read, and,

On motion, ordered to be placed on file, and the Secretary directed to enter the same in full on the minutes.

On motion, William Cunliffe was appointed temporarily as painter, and Terence J. McIver as dockbuilder.

On motion, the Board adjourned.

JOHN T. CUMING, Secretary.

At a meeting of the Board of Docks, held March 29, 1882.

Present—The President and Commissioner Vanderpoel.

Absent—Commissioner Laimbeer.

The minutes of the meeting held March 22, instant, were read and approved.

The following communications were received, read, and,

On motion, laid on the table to await action, as stated, to wit :

From Buffalo Transportation and Warehouse Company—Requesting permission to erect a derrick on Pier 6, East river. Engineer-in-Chief to be directed to examine and report as to the advisability of erecting an additional derrick on the premises.

From Department of Street Cleaning—Requesting that the Piers at Thirty-seventh street, North river, and Forty-sixth street, East river, be dredged. Engineer-in-Chief to have soundings taken and to report the quantity of dredging necessary to give a proper depth of water in the slips adjoining the said piers respectively.

From Engineer-in-Chief :

1st. Report on Secretary's Order No. 2296, as to amount of dredging required to give proper depth of water in the slip between the Piers at Nineteenth and Twentieth streets, North river. Secretary directed to notify the Knickerbocker Ice Company, lessees of the Pier at Twentieth street, North river, to dredge the half of the slip on the south side of their pier to a depth of fifteen feet at mean low water, under the supervision of the Engineer-in-Chief of this Department, and in default of their commencing to do the same within ten days after receipt of notice, that this Department will have the same done and charge the cost thereof to them.

2d. Report on Secretary's Order No. 2360, as to plans for shed to be erected on Pier, new 28, North river.

From Providence and Stonington Steamship Company, lessees—In reference to the bad condition of Pier, old 33, North river, and requesting that the same be examined. Engineer-in-Chief to be directed to examine and report thereon.

The following communications were received, read, and,

On motion, placed on file, action being taken where necessary, as stated, to wit :

From Counsel to the Corporation—In reference to the duties required to be performed by Joseph T. Kelly, while in the employ of the Department as Assistant Bookkeeper, and as to the duties usually performed by the Bookkeeper of the Department in March, 1877. The Secretary having stated that by direction of the Commissioners he had replied thereto, that from the best information the present Board could obtain, it was the custom for the Bookkeeper to receive and receipt for moneys due the Department in and during the time stated, and that the Board as constituted at that time were cognizant of his performing such duty, it was ordered that the action of the Secretary be approved.

From Burns Bros.—Requesting permission to erect a platform on the bulkhead north of Pier 59, East river, to be used for the purpose of dumping coal. Application denied.

From Hartford and New York Steamboat Company, lessees—Requesting copy of lease of half of Pier 24, East river, leased to said Company. The President having stated that he had replied thereto, enclosing copy of their agreement to execute a lease therefor when prepared, his action was approved.

From S. A. Jenks & Company—In reference to estimate made by them for repairing the bulkhead between Thirty-eighth and Thirty-ninth streets, East river. Secretary directed to advise that the estimate made by the Engineer-in-Chief of this Department being much lower than the estimate made by them, the work was therefore ordered to be done by the force of the Department, it being for the best interests of the city so to do.

From Counsel to the Corporation—Enclosing six copies of proposed contract for dredging the slips at Piers at Fifty-first street, North river, and Twenty-sixth street, East river, with his approval endorsed thereon.

From M. C. Henry and others—Requesting that the Pier at Seventy-ninth street, East river, when repaired and ready for public use, be not sold at public sale, but that it be retained and kept under the direct management and control of the Department, for the benefit of the business men in that vicinity.

From New York and Charleston Steamship Company—In reference to the sanitary condition of Pier 37, North river. Engineer-in-Chief to be directed to examine and report thereon.

From Engineer-in-Chief :

1st. Report of work done during the week ending March 25, 1882.

2d. Report on Secretary's Order No. 2351, as to the condition of and repairs required to Pier, old 29, North river. Secretary directed to notify the lessee thereof to repair the said pier within twenty days, under the supervision of the Engineer-in-Chief, or this Department will proceed to have the same done and charge the cost thereof to them. The Secretary-also to notify the New York, Lake Erie and Western Railroad Company to remove the piles between the ferry-rack and the north side of Pier to old 29, North river, and to strengthen the ferry-rack on the south side of their ferry-slip, so as prevent it striking against and jarring the said pier when struck by the ferry-boats on entering the ferry-slip, all of the work to be done, under the supervision and direction of the Engineer-in-Chief of this Department, within ten days from the receipt of notice, or this Department will proceed to remove the said piles and charge the cost and expense thereof to them.

3d. Report on Secretary's Order No. 2357, as to repairs required to Pier at Forty-sixth street, North river, to keep it in safe condition for use. Engineer-in-Chief to be directed to repair the same, and to keep it in safe condition for use until otherwise ordered.

4th. Report on Secretary's Order No. 2325, that the platform at One Hundred and Fifty-fifth street and Harlem river had been constructed by the American Contracting and Transportation Company in accordance with the plans approved by this Board.

5th. Report on Secretary's Order No. 2341, that repairs had been made by the Union Ferry Company to the outer end of Pier 16, East river, pursuant to permit granted by the Board.

6th. Report on Secretary's Order No. 2322, that the plank approach to Pier, new 1, North river, had been repaired as directed by the Board.

7th. Report on Secretary's Order No. 2355, as to the condition of and repairs required to the bulkhead between Piers 10 and 11, East river. Secretary directed to notify the owners of the said premises to repair the same within 10 days, under the supervision of the Engineer-in-Chief, or this Department will do the work and charge the cost thereof to them.

8th. Report on Secretary's Order No. 2361, submitting diagram of premises at foot of Twenty-third street, North river, used for ferry purposes. Secretary directed to transmit the same to the Comptroller, and to request that no lease be granted for the land under water within 10 feet south of the northerly line of Twenty-third street, North river.

9th. Report on Secretary's Order No. 2330, submitting triplicate tracings of the premises at Ninety-second street, East river, used and occupied by the Astoria Ferry Company and Edward Brown. Secretary directed to transmit the same to the Counsel to the Corporation, as requested by him.

From William L. McConkey, Corporation Wharfinger :

1st. Reporting that the deck of Pier 6, East river, was in bad order, and that the easterly end of the pier was considerably sunk. Engineer-in-Chief to be directed to examine and report thereon.

2d. Reporting that the bulkhead between Piers 8 and 9, East river, was in bad condition and needed repairs, also that the bulkhead west of Pier 37, East river, was in a dangerous condition. Engineer-in-Chief to be directed to examine and report what repairs are necessary thereto.

From James Fitzpatrick, Corporation Wharfinger—Reporting that one of the spring piles on the south side of Pier at Nineteenth street, North river, was loose, the chain fastening the same having been broken. Engineer-in-Chief to be directed to repair the same.

From John Butler, Corporation Wharfinger—Reporting that the slip in front of the bulkhead at Forty-second street, East river, required to be dredged. Engineer-in-Chief to report on Secretary's Order No. 1888, heretofore issued.

The communication from Green Wright and others for leave to build a dock on the north side of Harlem river and Lincoln avenue, was,

On motion, taken from the table, and together with the report of the Engineer-in-Chief on Secretary's Order No. 2347, in relation thereto, and the form of specifications for the said work which was received and read, were ordered on file, and the following resolution in relation thereto was adopted :

Resolved, That permission be and hereby is granted to Green Wright and Thomas Rae to construct and build a dock on the north side of the Harlem river, between Lincoln avenue and the Morrisania Steamboat Dock, on a line 60 feet inside of the present established bulkhead line, and extending from Lincoln avenue to within 60 feet of the said Morrisania Steamboat Dock, the said structure to be constructed under the direction and supervision of the Engineer-in-Chief of this Department, and in accordance with the plans and specifications approved by this Board.

A report from the Engineer-in-Chief on Secretary's Order No. 2353, submitting specifications and form of contract for dredging the half of the slip west of Pier 19, East river, was received, read, and,

On motion, placed on file, and the following resolution, offered by the President, was adopted :

Resolved, That the specifications and form of contract as prepared by the Engineer-in-Chief for dredging the half slip west of Pier 19, East river, be and is hereby approved and adopted, subject to the approval of the Counsel to the Corporation as to form, and that the Secretary be and hereby is directed to have fifty blank forms of proposals printed, and proper advertisements inviting bids for doing said work, inserted in the papers designated by law.

The Secretary reported that he had transmitted to the Counsel to the Corporation the papers served on Commissioner Vanderpoel on the 23d instant, in a suit commenced in the Superior Court of the City of New York, by the Cunard Steamship Company against John R. Voorhis and others, whereby the Department was enjoined and restrained from removing or interfering with the shed on

the platform north of Pier, new 40, North river, and that he had requested the Counsel to the Corporation to assert the rights and protect the interests of the city in the proceedings instituted thereby.

On motion, the action of the Secretary was approved.

Commissioner Vanderpoel reported that the construction of the new bulkhead at Coenties slip was advanced sufficiently to permit filling in to be commenced thereat, and,

On motion, it was ordered that the price of tickets for filling in at Coenties slip be fixed at 25 cents for each load of clean dirt or material received thereat.

Commissioner Vanderpoel, the Treasurer of the Board, presented his report of receipts for the week ending March 29, instant, which was received, read, and,

On motion, placed on file, and the Secretary directed to enter the same in full on the minutes, as follows :

On motion, the Board adjourned.

JOHN T. CUMING, Secretary.

At a special meeting of the Board of Docks, held April 3, 1882.

Present—The President and Commissioner Vanderpoel and the Comptroller of the City.

Absent—Commissioner Laimbeer.

Two estimates were received for dredging at foot of West Fifty-first street, North river, and at the foot of Twenty-sixth street, East river, and designated as classes 1 and 2 respectively, in the proposals advertised for and this day publicly opened, as follows :

1st. From the Union Dredging Company, at 32 cents per cubic yard for classes 1 and 2, with certified check for \$70.

2d. From P. Sanford Ross, at 33 cents per cubic yard for class 1, and 37 cents per cubic yard for class 2, with \$70 in money, and, being read, were,

On motion, laid on the table for examination, and the Secretary directed to transmit to the Comptroller the security deposits made by the said bidders and accompanying their respective estimates.

On motion, the Board adjourned.

JOHN T. CUMING, Secretary.

At a meeting of the Board of Docks, held April 5, 1882.

Present—The full Board.

The minutes of the meetings held March 29, ultimo, and April 3, inst., were read and approved.

The following communications were received, read, and,

On motion, laid on the table to await action, as stated, to wit :

From Iron Steamboat Company, lessees—Requesting permission to sublet a portion of Pier, new 1, North river, to Wm. P. Clyde & Co. Secretary directed to request the Steamboat Company to set forth in their application what portion of the pier they desire to sublet, and the purposes for which the same is proposed to be used.

From Engineer-in-Chief—Report as to the cost of repairs and dredging required at certain piers proposed to be leased.

From William Fitzgerald and John Bruton—In reference to rate of wages received by them as stone masons, and asking for an increase of pay. Referred to Commissioner Laimbeer.

The following communications were received, read, and,

On motion, placed on file, action being taken where necessary, as stated, to wit :

From Counsel to the Corporation :

1st. Opinion as to the liability of the Board for acts done by Joseph T. Kelly, as Assistant Bookkeeper, while in the employ of the Department. Secretary directed to have the same recorded and to reply thereto, that there are no other or additional facts within the knowledge of the Board to communicate to the Counsel to the Corporation respecting the matter.

2d. Requesting copy of lease of the premises at Ninety-second street, East river, to the Astoria Ferry Company, and as to the payment of rent reserved under the same. The Secretary stating that he had replied thereto, that the rent for the premises covered by the lease had been paid to May 1, proximo, and also transmitting the lease proposed to be delivered to said company executed by the officers of this Department, but which had not been executed by the company, his action was approved.

3d. In reference to the claim against Frederick Habkemeier for rent of Piers at Fifteenth and Sixteenth streets, North river. Secretary to advise that this Board are not in the possession of any additional information to that already given to the Counsel to the Corporation by written communications, and orally to Mr. Clarkson of his office, who inquired particularly into all the facts of the case that were within the knowledge of the officers and employees of this Department at the time; and as to the advisability of prosecuting the claim, the Board considers that the matter is very properly left to the judgment and discretion of the Counsel to the Corporation to determine.

4th. In reference to form of contract for repairing Pier 59, East river, and as to the liability of Wm. D. Andrews & Brother, to pay one-half the cost thereof. Secretary to reply thereto, that Mr. Andrews had been requested to join with the city in the contract to repair the said pier, but that he had declined so to do, that the pier had been reported as unsafe by Mr. Andrews himself to the Commissioners, and was examined and reported on as being unsafe for use by the Engineer-in-Chief of this Department, and was therefore closed to public use, that the repairs required to the said pier were specified in the form of contract and are absolutely necessary to put the same in proper condition, and that the Board, after due consideration of the matter, deems it for the best interests of the Corporation to proceed with the work of repairing said pier, and when the same is done, to collect the one-half of the cost thereof from Wm. D. Andrews & Brother, the alleged owners of the one undivided half of the said pier.

5th. Enclosing twelve copies of the contract for repairing Piers at Fifty-first, One Hundred and Thirty-first, One Hundred and Thirty-eighth, and One Hundred and Fifty-second streets, North river, with his approval endorsed thereon.

6th. In reference to claim against R. Cornell White for rent of outer half of east side of Pier 22, East river, and enclosing check for \$750 for amount collected for six months' rent therefor to May 1, 1882. Secretary directed to advise that credit therefor was given on the books of this Department to the Law Department.

From the Comptroller of the City:

1st. In reference to the use of the Pier at Twenty-third street, North river, for ferry purposes.

2d. Requesting duplicate copy of estimate for \$756.39 forwarded to Finance Department on June 3, 1881, in favor of John M. C. Scully, for work done under contract with this Department.

The Secretary having stated that he had transmitted to the Comptroller a copy of the estimate requested by him, his action was approved.

From Department of Street Cleaning—In reference to the dredging done by the contractors who have done work for the Department, and complaining that the dredging has not been done close enough to the docks. Secretary directed to advise that the attention of the contractors will hereafter be called to the subject matter complained of by the Superintendent of Street Cleaning.

From Wallkill Portland Cement Company—In reference to the use of their cement by this Department and requesting that a test be made of samples furnished by them. Secretary to advise that the Board will accept their offer of sending a sample of their cement for testing, if the same be delivered free of charge at the Gansevoort street yard, and the Engineer-in-Chief to be directed to have the same tested and report thereon.

From Homer Ramsdell, lessee—In reference to extending the shed on Pier, old 35, North river.

From Department of Public Works—In reference to placing a public bath in the Fifth Ward of the City of New York, pursuant to Act of the Legislature. Secretary to reply that the matter has been referred to the Engineer-in-Chief to report thereon, as to the best location of the same in the Fifth Ward.

From Inman Steamship Company, lessees—In reference to the lease of Pier, new 36, North river. Secretary to advise that the lease is now ready for execution, and that the delay in having it executed was in consequence of its having been mislaid, while being examined with other leases by the Commissioners of Accounts.

From John M. Duclos—In reference to the unsafe condition of the Pier at One Hundred and Fourth street, East river, and requesting that it be repaired and put in safe condition for use.

From Thomas D. Mather—Affidavit as to the damages sustained by the owners of property on the East river water-front between Gouverneur and Montgomery streets by reason of the occupation and use of the bulkhead by the New York, New Haven, and Hartford Railroad Company, as a freight depot, etc.

From Maine Steamship Company, lessees—For permission to drive 10 fender piles at Pier 38, East river. Permission granted, work to be done under the supervision of the Engineer-in-Chief.

From Atlas Steamship Company, lessees—In reference to the approach to Pier, new 55, North river, and requesting that the same be enlarged so as to afford adequate facilities for the transaction of their business thereat. Engineer-in-Chief to be directed to widen the approach thereto by erecting and constructing on the south side thereof a platform from the south line of Twenty-fifth street to the southeast corner of the said pier.

From Henry L. Sprague—In reference to Assembly bill No. 330, and requesting that any suggestions in regard thereto, by way of amendment or otherwise, which the Commissioners might believe would make the proposed law more beneficial to the City, should be communicated to him. Secretary to acknowledge receipt of communication, and to request that a few more copies of the bill be sent to the Board for their examination.

From Patton, Vickers & Co.—Requesting permission to land the elephant “Jumbo,” expected to arrive per their steamer “Assyrian Monarch,” at the bulkhead south of Pier, new 1, North river. Permission granted; the Corporation Wharfinger to supervise the landing of the same at the bulkhead south of Pier, new 1, North river.

From A. H. Heilner—As to the jurisdiction of the Department of Docks of the City of New York over the Docks of the City of Brooklyn. Secretary directed to reply thereto.

From Engineer-in-Chief:

1st. Reporting amount of work done during the week ending April 1st, instant.

2d. Report on Secretary's Order No. 2359, that the slip on the south side of Pier, old 39, North river, had not been dredged by A. Van Santvoord and H. P. Farrington, the lessees thereof, as directed by the Board. Engineer-in-Chief to be directed to prepare specifications and form of contract, to have the same dredged to give a depth of 25 feet at mean low water. Secretary to advise the lessees of said premises of the action of the Board in the matter.

3d. Report on Secretary's Order No. 2289, that the bulkhead between Piers 14 and 15, East river, had been repaired by the owners thereof, pursuant to direction of the Board.

4th. Report on Secretary's Order No. 2290, that the bulkhead between Piers 27 and 28, East river, had been repaired by the owners thereof, pursuant to the order of the Board.

5th. Report on Secretary's Order No. 2291, that the bulkhead between Piers 28 and 29, East river, had been repaired by the owners thereof, as directed by the Board.

6th. Report on Secretary's Order No. 2373, that the spring piles on the south side of the Pier at Nineteenth street, North river, had been repaired as directed by the Board.

7th. Report on Secretary's Order No. 2249, that the bulkhead, between Ninetieth and Ninety-first streets, East river, had been repaired by A. Raymond, the alleged owner thereof, pursuant to the order and direction of the Board.

8th. Report on Secretary's Order No. 2327, that the slip between Piers 19 and 20, East river, had been dredged by the owners thereof to a depth of 20 feet at mean low water, pursuant to the order of the Board.

9th. Report on Secretary's Order No. 2108, that the repairs to Pier 22, East river, had been made by the lessees thereof, as directed by the Board.

10th. Report on Secretary's Order No. 2380, as to the condition of and repairs required to Pier, old 33, North river, and the estimated cost thereof. Engineer-in-Chief to be directed to make the necessary repairs to the southerly half of the said pier, at a cost not to exceed the sum of \$880. Secretary directed to notify the owners of the north half of said pier to make the necessary repairs thereto, under the supervision of the Engineer-in-Chief, within 10 days, or this Department will proceed to do the same, and charge the cost thereof to them.

A report from the Engineer-in-Chief as to the non-removal of the platform between Forty-ninth and Fifty-first streets, East river, was received, read, and,

On motion, placed on file, and the following preamble and resolution, offered by the President, in relation thereto, was unanimously adopted :

Whereas, It has been reported to this Board that the platform heretofore erected and constructed between Forty-ninth and Fifty-first streets, East river, and now existing thereat, was erected, and is now retained at the said premises, without due authority of law, and in direct violation of the order of the Dock Department; therefore,

Resolved, That Gerard Beekman, or the owner or occupant of the platform between Forty-ninth and Fifty-first streets, East river, be and hereby is notified to remove the said platform within five days after the receipt of a copy of this resolution, and in the event of his failure so to do, that he be and hereby is notified that this Department will immediately thereafter proceed to remove the same at his cost and expense.

A communication, from the Engineer-in-Chief, reporting the estimated cost of building bulkheads north and south of the Pier at Seventy-ninth street, North river, was received, read, and,

On motion, placed on file, and the President offered the following resolution in reference thereto :

Resolved, That the Engineer-in-Chief be and is hereby directed to prepare plans and specifications and form of contract, for building a bulkhead from the southerly line of Seventy-eighth street to the southerly line of the pier at Seventy-ninth street, North river.

Commissioner Laimbeer moved to amend the resolution so as to read as follows :

Resolved, That the Engineer-in-Chief be and is hereby directed to prepare and submit to the Board, plans and specifications and form of contract for building a bulkhead from the southerly line of Seventy-eighth street, to the northerly line of Eightieth street, North river.

On the question being put it was declared lost, and the question recurring on the original resolution, it was adopted by the following vote :

Ayes—The President, and Commissioner Vanderpool.

No—Commissioner Laimbeer.

The communication from the Manhattan Beach Railway Company, lessees, in reference to repairs and dredging required at the Pier at Twenty-third street, East river, was,

On motion, taken from the table, and, on reading the communication from the Comptroller of the city in reference to the terms of the lease to be granted by the city to the said company of the said premises for ferry purposes, it was,

On motion, ordered that the several communications be placed on file and the Secretary directed to advise the Manhattan Beach Railway Company that this Board do not consider that under the terms of the lease, the Department can be called upon to have any repairs made or dredging done at the premises in question, the lessees being the proper parties under the provisions of the lease to have the same done at their own cost and expense.

A report from the Engineer-in-Chief as to the quantity of dredging required to be done in the slip at Forty-sixth street, East river, was received, read, and, with the communication from the Department of Street Cleaning, requesting that the same be dredged, it was,

On motion, taken from the table, was ordered to be placed on file, and the Engineer-in-Chief to be directed to make requisition for the necessary materials, labor, and scows to dredge the same to a depth of fifteen feet at mean low water, and the Treasurer requested to issue his order therefor.

The communication from Charles F. Wells, attorney for R. P. Walker, in reference to some granite delivered to the Department on August 15, 1878, under the contract with John Hogan, and which was rejected as defective, was,

On motion, taken from the table, and, on reading the report from the Engineer-in-Chief on Secretary's order No. 2364 in reference thereto, which was received, it was ordered that the several communications be placed on file, that the Treasurer present a bill for the storage accrued on the said stone and the Secretary directed to advise, that as soon as the expenses accrued on the said stone for storage was settled and paid, that the Department would consider what they could do in respect to using the same.

The communication from the New York and Manhattan Real Estate Association, in reference to the renewal of the lease of the premises at 119 Duane street, now occupied by this Department for its offices, was,

On motion, taken from the table, and placed on file, and on the report of Commissioner Vanderpoel, the Treasurer, that he had conferred with the officers of the association, the owners of the building, and that the premises now used and occupied by this Department at 119 Duane street for offices could be rented for the sum of \$6,750 per annum, it was,

On motion of Commissioner Laimbeer, unanimously

Resolved, That this Board lease the offices and premises now occupied and used by them at No. 119 Duane street, New York City, for the term of one year from May 1, 1882, at the yearly rent of \$6,750 per annum.

A report from James Fitzpatrick, Corporation Wharfinger, in reference to repairs required to the deck of the Pier at Bethune street, North river, was received, read, and, on motion, placed on file, and the Secretary directed to notify the lessees of said pier to repair the same within ten days, under the supervision of the Engineer-in-Chief, or this Department would do the work, and charge the cost therefor to them.

The following communications were, on motion, taken from the table and placed on file, action having heretofore been taken thereon where necessary :

From Charles E. Boardman, lessee—Requesting consent to assign lease of a part of the bulk-head at West Eleventh street, North river.

From John H. Benner, lessee—In reference to repairs ordered to be made to the Pier at Forty-sixth street, North river.

From Engineer-in-Chief :

1st. Reporting on Secretary's Order No. 1800, as to repairs to the Pier at Forty-sixth street, North river.

2d. Report on Secretary's Order No. 2080, as to the repairs necessary to Pier 25, East river.

From New Haven Steamboat Co., lessees—In reference to repairs required to the westerly half of Pier 25, East river.

From Daniel T. Robertson—Application for lease of Piers at Sixtieth and Sixty-first streets, East river, and the adjoining bulkhead.

From John H. Rogers—Application for position as Master Dock Builder in the Department.

From Thomas F. Meagher—Application for position as Draughtsman in the Department.

From William B. Findley—Application for the appointment of George Martin as a stone-cutter in the Department.

The Secretary reported that copies of the warrants of attachment in three several suits against the property of the Hartford and New York Steamboat Co. had been served on Commissioner Vanderpoel on the 3d instant, attaching all the interests which the said Company may have in and to the lease of the east half of Pier 24, East river.

The Secretary reported that, by direction of the Commissioners, the five pay-rolls for the month of March, 1882, amounting in the aggregate to the sum of \$5,878.99, and the pay-roll for the construction and general repairs force for the half month ending March 31, 1882, and amounting to the sum of \$5,995.25, had been respectively approved and audited, and that the same were forwarded, together with proper requisitions for the amount, to the Finance Department for payment. The action of the Secretary was,

On motion, approved.

Commissioner Laimbeer offered the following resolution, which was unanimously adopted :

Resolved, That Hugh J. Kelly be and hereby is appointed as temporary clerk, for the purpose of comparing and balancing the accounts between this Department and the Finance Department, at a compensation not to exceed \$100 per month.

On motion, it was ordered that the price of tickets for dumping at Coenties slip, East river, to be sold to the Department of Street Cleaning, be fixed at 12½ cents for each load.

A report from the Engineer-in-Chief as to the quantity of dredging required to be done slip at Forty-sixth street, East river, was received, read, and, with the communication from Department of Street Cleaning, requesting that the same be dredged, it was,

On motion, taken from the table, was ordered to be placed on file, and the Engineer-in-Chief to be directed to make requisition for the necessary materials, labor, and scows to dredge the slip to a depth of fifteen feet at mean low water, and the Treasurer requested to issue his check therefor.

The communication from Charles F. Wells, attorney for R. P. Walker, in reference to granite delivered to the Department on August 15, 1878, under the contract with John Hoga which was rejected as defective, was,

On motion, taken from the table, and, on reading the report from the Engineer-in-Chief and the Secretary's order No. 2364 in reference thereto, which was received, it was ordered that the communications be placed on file, that the Treasurer present a bill for the storage accrued on said stone and the Secretary directed to advise, that as soon as the expenses accrued on the said stone for storage was settled and paid, that the Department would consider what they could do in reference to using the same.

The communication from the New York and Manhattan Real Estate Association, in reference to the renewal of the lease of the premises at 119 Duane street, now occupied by this Department for its offices, was,

On motion, taken from the table, and placed on file, and on the report of Commissioner Vanderpoel, the Treasurer, that he had conferred with the officers of the association, the owners of the building, and that the premises now used and occupied by this Department at 119 Duane street for offices could be rented for the sum of \$6,750 per annum, it was,

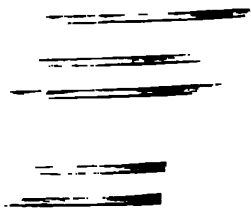

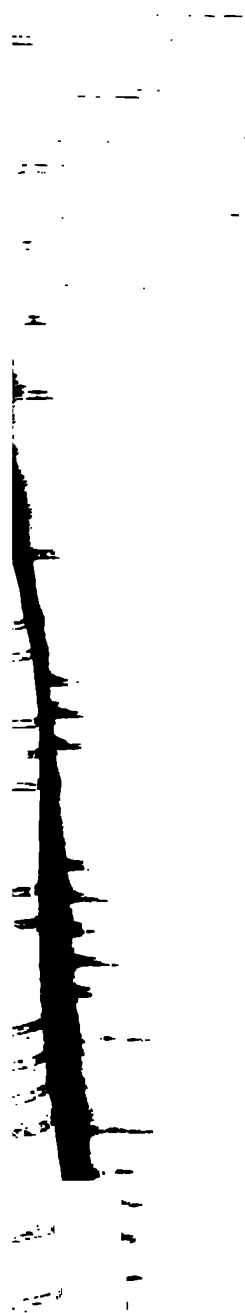

On motion of Commissioner Laimbeer, unanimously

Resolved, That this Board lease the offices and premises now occupied and used by them at 119 Duane street, New York City, for the term of one year from May 1, 1882, at the year of \$6,750 per annum.

A report from James Fitzpatrick, Corporation Wharfinger, in reference to repairs required on the deck of the Pier at Bethune street, North river, was received, read, and, on motion, placed on file, and the Secretary directed to notify the lessees of said pier to repair the same within ten days, under the supervision of the Engineer-in-Chief, or this Department would do the work, and pay the cost therefor to them.

The following communications were, on motion, taken from the table and placed on file, having heretofore been taken thereon where necessary :

From Charles E. Boardman, lessee—Requesting consent to assign lease of a part of the pier head at West Eleventh street, North river.

The Secretary reported that he had transmitted to the Comptroller the account of the Department for March 31, 1882.

On motion, his action was approved and the account ordered to be entered in the minutes in full.

THE MAYOR, ALDERMEN, AND COMMONALTY OF THE CITY OF NEW YORK IN ACCOUNT WITH

The following were appointed as laborers :

Thomas Stewart, John Gillen, Daniel McDonald, Philip Warren, James Fitzpatrick, James Jealy, Thomas Mulligan, Owen McIntyre, George Meade, Michael Farrell, William Moore, James McCell, Max Stangler, John Slattery, James McAnallen, Roger Waters, and Gottlieb Streicher.

On motion, the Board adjourned.

JOHN T. CUMING, Secretary.

At a special meeting of the Board of Docks, held April 10, 1882.

Present—The full Board and the Comptroller of the city.

Four estimates were received for repairing the respective Piers at Fifty-first street, One Hundred and Thirty-first street, One Hundred and Thirty-eighth street, and One Hundred and Fifty-second street, North river, and classified as Nos. 1, 2, 3, and 4 in the proposals for estimates advertised for and publicly opened this day, as follows :

	CLASS No. 1. Repairing Pier at 51st Street.	CLASS No. 2 Repairing Pier at 131st Street.	CLASS No. 3. Repairing Pier at 138th Street.	CLASS No. 4. Repairing Pier at 152d Street.
No. 1. From Joseph Walsh, with certified check for \$285.....	\$7,560 00	\$7,800 00	\$3,630 00	\$2,040 00
No. 2. From John W. Flaherty and Thomas O'Connell, with \$300 in bills.....	5,975 00	5,700 00	3,975 00	1,775 00
No. 3. From John Gillies, with \$135 in bills...	9,715 00	No bid.	No bid.	2,673 00
No. 4. From Holmes Brothers, with \$285 in bills.....	8,445 00	6,716 00	3,986 00	2,132 00

And, being read, were,

On motion, laid on the table for examination, and the Secretary directed to transmit to the Comptroller the deposits made by the said bidders, respectively, on the estimates made by them for doing the said work.

The bids received and opened on the 3d instant, for dredging at Fifty-first street, North river, and Twenty-sixth street, East river, were,

On motion, taken from the table, and after reading, the communication received from the Comptroller approving of the sureties on the estimate made by the Union Dredging Company, the following resolution, offered by Commissioner Laimbeer, was unanimously adopted.

Resolved, That the contract for dredging at the foot of West Fifty-first street, North river, and at the foot of East Twenty-sixth street, East river, be and is hereby awarded to the Union Dredging Company of 83 and 84 Astor House, their bid for doing said work being the lowest under estimates publicly opened the 3d instant, and the Comptroller having approved of the sureties to the estimate of said company this date.

On motion, the Board adjourned.

JOHN T. CUMING, Secretary.

At a meeting of the Board of Docks, held April 12, 1882.

Present—The full Board.

The minutes of the meetings held April 5 and 10, 1882, were read and approved.

A communication was received from Thomas Storm, advising that a number of owners and lessees of property in Old slip, and South and William streets, would meet the Board this day at 12 o'clock M., to remonstrate against the maintaining of the dumping board on Pier 12, East river, and, being read,

On motion, the representatives of said owners and lessees present were afforded a hearing, and Allen J. Cuming, on their behalf, presented a remonstrance against the further maintenance of the said dumping board, signed by many property-owners, merchants, and others engaged in business below Wall street.

Percy R. Pyne, Charles Belloni, and Thomas Storms, and Messrs. Cuming, Whitlock, and others addressed the Board, earnestly requesting the Commissioners to cause the immediate removal of the dump, claiming it to be so great a nuisance in its present location as to most seriously reduce the value of all property in the vicinity of Old slip, and causing many tenants in that locality to notify their landlords that they should vacate their present premises on the 1st proximo.

The President stated in reply that the Board regretted that no action to prevent the erection of the dumping board complained of had been taken by the parties present, prior to its erection; that the Law of 1881, creating the Department of Street Cleaning, and under which the said dumping board had been erected, was held to be mandatory upon the Commissioners of Docks to furnish proper dumping facilities, at such points on the water-front, as should be convenient for the uses of the Commissioner of Street Cleaning, if under their control, and that the members of the Board are disposed to locate the dumping boards at any place under their jurisdiction wherever it would be less objectionable, and which might be named and approved of by the said Commissioner of Street Cleaning.

On motion, the remonstrance was laid on the table for further consideration.

A communication was received from A. Van Santvoord and Harvey P. Farrington relative to the dredging of the slip south of Pier, old 39, North river, and, being read,

On motion of the President, the following preamble and resolution were adopted, to wit:

Whereas, The lessees of Pier, old 39, North river, have been notified and directed to dredge the slip on the south side of and adjacent thereto, to a depth of twenty-five feet at mean low water,

and in default of proceeding with the work within ten days from receipt of notice, that it would be done by this Department at their cost and expense; and

Whereas, By a communication received this day from A. Van Santvoord and H. P. Farrington, the lessees of said pier, and also from an examination of the terms of the lease under which they occupy the premises, it does not appear to be one of the obligations of said lease that the lessees shall keep the water adjacent to the pier dredged to any specified depth; therefore

Resolved, That the action of this Board on the 17th ultimo, directing the lessees of Pier, old 39, North river, to dredge on the south side thereof to a depth of twenty-five feet at mean low water, and also the subsequent action had on the 7th instant, directing the Engineer-in-Chief to prepare specifications for said proposed dredging, be and hereby is declared null and void.

A communication was received from the Iron Steamboat Company, lessees, relative to the proposed occupation of a part of Pier, new 1, North river, by Wm. P. Clyde & Co., and, being read,

On motion of the Treasurer, the application of said company to sublet a part of said pier was taken from the table and placed on file, and the following resolution adopted:

Resolved, That leave and consent be and hereby is given to the Iron Steamboat Company, lessee, to sublet a portion of Pier, new 1, North river, to W. P. Clyde & Co., to be occupied only for the discharging and receiving of cargoes by steam transportation, it being understood hereby that the said lessee and the proposed sureties to the lease agree that their obligations under the provisions thereof shall not be affected consequent upon such consent and subletting.

A communication was received from G. W. Ryerson, lessee, requesting that the lease for the bulkhead at Thirty-ninth street, East river, be made in the name of the Long Island Land Fertilizing Company, and, being read,

On motion of the President, it was

Resolved, That leave and consent be and hereby is given to G. W. Ryerson, lessee, to assign all his right, title, and interest in the lease of the bulkhead at Thirty-ninth street, East river, to the Long Island Land Fertilizing Company, it being understood hereby that the said lessee and the proposed sureties to the lease agree that their obligations under the provisions thereof shall not be affected consequent upon such consent and assignment.

A communication was received from the Wilson Line of Steamers, for permission to erect a temporary office on the bulkhead of Pier, new 43, North river, and, being read,

The President moved that the permission applied for be denied.

Commissioner Laimbeer called for the ayes and noes upon the motion, and the permission applied for was denied by the following vote:

Ayes—Commissioner Vanderpoel and the President.

Noes—None.

An application was received from Geo. W. Wanmaker, a carpenter in employ of this Department, for an increase of pay from thirty cents per hour to thirty-five cents per hour.

Commissioner Laimbeer reporting that he had considered the application of Wm. Fitzgerald and John Bruton for an increase of pay as masons, referred to him on the 5th instant, and was in favor of an increase to forty cents per hour,

On motion, it was

Resolved, That the rates of pay or wages of carpenters, masons, and stonecutters be and are hereby established, to take effect on and after April 16, 1882, as follows :

Carpenters, 35 cents per hour.

Masons or stonecutters, 40 cents per hour.

A communication was received from Pim, Forwood & Co., agents of the Atlas Steamship Company, lessees of Pier, new 55, North river, relative to the prompt action of the Department in widening the approach to said pier, and, being read, and

A report from the Engineer-in-Chief stating that the said pier was occupied, and that the said approach would be widened immediately for use before the 1st proximo,

On motion of the Treasurer, the following preamble and resolution were adopted :

Whereas, Through an unforeseen delay in the work of the Department, Pier, new 55, North river, was not completed and ready for occupancy on February 1, 1882, as was contemplated it should be when the resolution leasing it for ten years, from that date, was adopted by the Board on December 20, 1881 ; and

Whereas, The Engineer-in-Chief of the Department now reports that the said pier and its approach will not be completed for use and occupation prior to 1st proximo ; therefore

Resolved, That the resolution adopted by this Board on December 20, 1881, whereby a lease of Pier, new 55, North river, was granted to Pim, Forwood & Co., agents for Atlas Steamship Company (limited), for a term of ten years from and after February 1, 1882, be and hereby is amended and changed so as to make the said term of ten years commence on May 1, 1882.

The following communications were received, read, and,

On motion, laid on the table to await action, as stated, respectively, to wit :

From Platt & Bowers, attorneys for Gerard Beckman—Advising that platform between Forty-ninth and Fifty-first streets, East river, cannot be removed, as directed by Board on 5th instant. Counsel to the Corporation to be requested to give his opinion as to the right of the Department to remove said platform, pending the proceedings in the U. S. Supreme Court in the matter of A. Van Dolsen, whereby the Department was enjoined and restrained from building, under a contract awarded under estimates opened November 15, 1880, a rubble wall and platform in place of the existing platform directed to be removed.

From the Department of Street Cleaning—Relative to dredging required at Jackson and Forty-sixth streets, East river, and Thirty-seventh street, North river. Engineer-in-Chief to be directed to examine and report as to dredging needed at Jackson street, East river.

From Knickerbocker Ice Company—Application for permission to remove platform and bridge on southerly side of Pier 59, East river, to the bulkhead south of Pier 58, East river.

From Williams & Guion, lessees—Applying for permission to place a mooring post in the ground northeasterly of Pier, new 38, North river. Engineer-in-Chief to be directed to examine and report as to mooring facilities, if any, now required.

The following communications were received, read, and,

On motion, placed on file, action being taken where necessary, as stated, to wit :

From the Comptroller—Advising as to dredging and repairs required by the terms of lease proposed for the Pier at Twenty-third street, East river, to the New York and Manhattan Beach Railway Co. Engineer-in-Chief to be directed to prepare plans and specifications for making necessary repairs to said pier, and to make requisition for necessary dredge, labor, etc., to dredge adjacent thereto, but not to exceed a depth of 10 feet at mean low water, nor a cost of \$950, and the Comptroller and the said company to be advised of the action taken.

From Counsel to the Corporation—Transmitting \$1,125 for rent collected from Charles E. Boardman, for Pier at Eleventh street, North river, due February 1, 1882. The Treasurer requested to give the necessary credit upon the books of the Department.

From Department of Street Cleaning—Applying to have an approach constructed to the dump at Thirty-seventh street, North river. Engineer-in-Chief to be directed to do the work with the force of the Department.

From C. C. Peck—Asking if bulkhead at Eighteenth street, East river, will be leased. To be advised that the Department contemplates erecting a pier at that place as soon as practicable, and that the bulkhead will not be leased.

From William H. Webb—Relative to the removal of canal-boat claimed to be sunken at Thirty-sixth street, North river. To be informed that the Department has no power to remove the said boat, as it is reported to float at high water.

From L. J. N. Stark and others—Protesting against filling in Coenties slip, East river, with garbage and filth of the city. Engineer-in-Chief to be directed to prohibit the deposit of all improper material and of all material objected to by the Health Department, and the Department of Street Cleaning to be notified of such action and requested to comply therewith.

From Knickerbocker Ice Company—Requesting twenty days' additional time in which to dredge slip south of Pier at Twentieth street, North river. To be informed that ten days' further time is granted, to dredge as directed on the 29th ultimo.

From Joseph V. Brown, lessee—Requesting an inspection of Pier at Twenty-eighth street, East river, as further repairs and dredging are required to conform with terms of sale of lease thereat. To be informed that the Department has made all the repairs and done all the dredging required in the judgment of this Board, and that Department declines to do anything more.

From John G. Dale, agent—Acknowledging receipt of lease of Pier, new 36, North river.

From E. C. Reynolds—Resigning his position as Assistant Draughtsman. Resignation accepted, to take effect from and after 6th instant.

From J. A. Affleck, executor estate of George Law—Application for permission to repair Pier at Eleventh street, East river. Granted, the work to be done under the supervision of the Engineer-in-Chief.

From Union Dredging Company—Accepting award of contract for dredging at Fifty-first street, North river, and Twenty-sixth street, East river, under estimates opened 3d instant.

From Corporation Wharfinger McConkey—Reporting unsafe condition of Pier 6, East river.

From Engineer-in-Chief, the following, to wit :

1st. Report of work performed week ending April 8, 1882.

2d. Report that dredging at westerly half of slip between Piers 14 and 15, East river, had not been commenced. Engineer-in-Chief directed to prepare specifications and form of contract for doing the work, and the Secretary directed to have the forms printed and advertised for estimates when completed, and the owner or owners of said premises to be notified of the action of the Board.

3d. Report that Patrick McGuire has been suspended for being intoxicated and abusive on the works on the 8th instant. Approved, and McGuire dismissed from service in Department.

4th. Report that Daniel Doran, Night Watchman, had been suspended for five days for inattention on duty on 7th instant. Action approved.

5th. Report that bulkhead west of Pier 25, East river, had been repaired. S. O. 2139.

6th. Report that platform and shed thereon, adjoining bulkhead westerly of Pier 44, East river, had been erected and the dredging done. S. O. 2242.

7th. Report that bulkhead between Thirty-eighth and Thirty-ninth streets, East river, has been repaired. S. O. 2348.

8th. Report that Pier at Fortieth street, North river, has been repaired. S. O. 2324.

9th. Report that the dredging at Pier 44, bulkhead at Fourteenth, Thirty-third, Thirty-seventh, and Thirty-eighth streets, East river, had been done. S. O. 1874.

10th. Report that the bulkhead between Piers 8 and 9, East river, requires repairs to the extent of about \$450. The owner or owners to be notified to do the work within ten days, under the supervision of the Engineer-in-Chief, and if not commenced at the expiration of that time the Department will make the repairs at his or their cost and expense.

11th. Report that dredging had been done in front of bulkhead at Sixteenth street, East river. S. O. 2352.

12th. Report that Pier at Eighty-sixth street, East river, requires repairs to the extent of about \$500. Engineer-in-Chief to do the work. S. O. 2304.

13th. Report that southerly half of Pier 22 and adjoining bulkhead, Piers at Bethune, Jane, Horatio, and north of Bloomfield streets, North river, have been repaired. S. O. 1851 ; and

14th. Report that Dredge No. 4 had been repaired. S. O. 2332.

From John Butler, Corporation Wharfinger—Report that Forty-first street, from First avenue to the East river, is not graded, and that the obstructions in said street and Fortieth street, east of First avenue, have not been removed. Commissioner of Public Works to be requested to remove the obstructions in said street, as desired under date of March 1, 1882, to enable the Department to secure the revenue for the city from the property on the water-front thereof.

The Treasurer presented the following report of receipts for the week ending this date, to wit :

JACOB VANDERPOEL, Treasurer.

NEW YORK, April 12, 1882.

Which was being read, was,

On motion, placed on file.

Two communications were received from the Engineer-in-Chief, submitting plans and specifications for building a new pier at Forty-sixth street, North river, and for a bulkhead from Seventy-eighth street to Pier at Seventy-ninth street, North river, and, being read,

On motion, it was

Resolved, That the forms of specifications and contracts for doing the aforesaid work be and are hereby approved and adopted, subject to the approval of the Counsel to the Corporation as to form, and that the Secretary be and hereby is directed to have a sufficient number of blank forms of proposals printed, and proper advertisements, inviting bids for doing said work, inserted in the papers designated by law.

On motion of the President, the Engineer-in-Chief was directed to prepare specifications and form of contract for dredging the westerly half of slip between Piers 18 and 19, East river. Wm. D. Morgan, the lessee of the easterly half of said Pier 18, having neglected and failed to do the dredging required.

On motion of Commissioner Vanderpoel, it was

Resolved, That Frederick Lange, Messenger, be and hereby is designated as Stationery Clerk and Messenger to the Engineer-in-Chief, and that his compensation be at the rate of \$100 per month from and after the 1st instant.

On motion of Commissioner Laimbeer, it was

Resolved, That Theodore S. Craft be and hereby is appointed as a Messenger, with compensation at the rate of \$50 per month, in place of Charles Miller, Jr., appointed a Clerk, to take effect from and after 11th instant, inclusive.

On motion of the President, it was

Resolved, That William Kennelly, auctioneer, be and hereby is authorized and directed to offer at public sale, to be held on 25th day of April, 1882, at 12 o'clock M., for purchase by the highest bidders, the right to collect and retain all wharfage accruing at certain 16 lots of Corporation piers and bulkheads, the leases of which have already expired or will terminate on or prior to June 1, 1882, as designated by the Commissioners, subject to the terms and conditions as set forth in the form of advertisement as approved by the Commissioners, and that the Secretary be directed to cause the notice of the sale to be published for 10 days in the CITY RECORD and other newspapers designated by law for Corporation notices, and in the "New York Herald," "New York Times," and "Journal of Commerce."

The Auditing Committee presented an audit of twenty-nine bills or claims, amounting to the sum of \$73,389.08, which was,

On motion, accepted and adopted, and the Secretary directed to enter the same in full in the minutes, as follows :

Audit No.	Bills or Claims.	Amount.
7356.	Holmes Bros., Estimate No. 7 and final, under contract for Pier, new 55, North river	\$25,120 00
7357.	Warren Rosevelt, Estimate No. 1 and final, under contract for bulkhead, East river	18,471 40
7358.	John Gillies, Estimate No. 5, under contract for Pier, new 28, North river....	7,980 00
7359.	A. J. Murray, yellow pine piles	4,250 00
7360.	Union Dredging Co., dredging at Pier, new 37, North river.....	3,026 40
7361.	John A. Bouker, rip-rap	1,259 22
7362.	Theodore Smith & Bro., repairing boiler tug "Manhattan"	147 03
7363.	Thomas C. Townsend, plumbing at Pier, new 43, North river.....	134 20
7364.	T. A. Atwater & Co., mattress, sheets, etc	64 05
7365.	Thomas J. Crombie, North Carolina yellow pine plank	62 48
7366.	Annin & Co., ensign, etc	40 00

APRIL 12, 1882.

Respectfully submitted,

(Signed)

JACOB VANDERPOEL, Auditing Committee.

NEW YORK, April 12, 1882.

In answer, the Secretary was directed to forward the said bills, together with proper requisitions for the amount, to the Finance Department.

and that all Rules and Regulations heretofore adopted and established for the government and proper care of the said wharf properties, be and are hereby repealed and annulled from and after the said May 1, 1882.

On motion of Commissioner Laimbeer, it was

Resolved, That the Treasurer be and hereby is authorized and requested to have one thousand copies of the Rules and Regulations adopted and established this date, printed on card-board, and five thousand copies in small form for convenient use and distribution.

On motion of Commissioner Laimbeer, it was

Resolved, That the compensation of Robert M. Sterritt, Foreman of Gansevoort Street Yard, be and hereby is made \$100 per month, from and after May 1, 1882.

The President offered the following resolution, to wit :

Resolved, That the Engineer-in-Chief be and hereby is directed to proceed with the construction of the bulkhead or river wall from the northerly end of the West Twenty-third street section, as ordered to be built (which is at a point about 150 feet northerly of the northerly side of Twenty-seventh street produced), to about the northerly side of Thirtieth street produced, a distance of about 660 feet, upon the same plans as that of the West Twenty-third street section, already built, and that all of the work hereby ordered be performed otherwise than by contract, as required by subdivision 5 of section 6, chapter 574, Laws of 1871, and that it be done by day's work, except so much of the labor as is now or may hereafter be directed to be contracted for, and that all of the dredging and material necessary therefor, not heretofore contracted for, or which may not hereafter be contracted for, be purchased by the Treasurer otherwise than by contract.

And the vote being taken upon its adoption, it was declared by the President as not adopted, consequent upon Commissioner Laimbeer having voted in the negative, and the law requiring for its adoption the concurrent affirmative vote of all the members of the Board.

Commissioner Laimbeer offered the following resolution, to wit :

Resolved, That the Engineer-in-Chief be and hereby is directed to prepare plans and specifications for the construction of crib bulkhead, of suitable dimensions, from the terminus of present bulkhead at Twenty-seventh street to the north side of Thirtieth street, on the North river.

The ayes and noes being called for and taken upon its adoption, the resolution was declared not adopted by the following vote :

Aye—Commissioner Laimbeer.

Noes—Commissioner Vanderpoel and the President.

Commissioner Laimbeer offered the following resolution, to wit :

Resolved, That the Engineer-in-Chief be directed to prepare plans and specifications for constructing bulkhead wall from the present terminus Twenty-seventh street to north side of Thirtieth street, on North river, the same as now being built from Twenty-third to Twenty-seventh street, the same to be prepared as soon as it can be done, in order that a contract may be made for the same.

The ayes and noes being called for and taken upon its adoption, the resolution was declared not adopted by the following vote, to wit :

Aye—Commissioner Laimbeer.

Noes—Commissioner Vanderpoel and the President.

The President offered the following resolution, to wit :

Resolved, That the Engineer-in-Chief be and hereby is directed to proceed with the construction of the bulkhead or river wall northwardly from the northerly end of the Chambers street section to a point about the centre of Pier, old 33, North river, a distance of about 130 feet, upon the same plans as that of the Chambers street section, already built, and that all of the work hereby ordered be performed otherwise than by contract, as required by subdivision 5 of section 6, chapter 574, Laws of 1871, and that it be done by the force of the Department by day's work, except so much of the labor as is now or may hereafter be directed to be contracted for, and that all of the material and dredging necessary therefor, not heretofore contracted for or which may not hereafter be contracted for, be purchased by the Treasurer otherwise than by contract.

And the vote being taken upon its adoption, it was declared by the President as not adopted, consequent upon Commissioner Laimbeer having voted in the negative, and the law requiring for its adoption the concurrent affirmative votes of all the members of the Board.

A communication was received from Benedict, Taft & Benedict, applying for the services of William Livingstone, Draughtsman, to obtain for them certain information relative to the water-front between Clinton and Montgomery streets, East river, and, being read,

On motion, the Engineer-in-Chief was directed to detail the said draughtsman for the service required, and report to the Board the time occupied in such service.

On motion of Commissioner Laimbeer, it was

Resolved, That the Engineer be and is hereby directed to furnish to this Board a statement, at its next meeting, of the condition of the work now in progress not by contract, and the needs of the continuance of the force upon the sections south and north of Canal street, with his opinion of what amount of material now on hand at each section can be used in such work as may be done in repair work by the day, and also a statement of derricks, pile-drivers, dredging machines, scows, etc., etc., not now being used by the Department, and what, in his opinion, can be best done with the same until the several suits now pending to test ownership of property are settled.

On motion of the President, the Secretary was directed to inform the Counsel to the Corporation of the facts relative to the platform erected and occupied by the Twenty-third Street Railway Company, at Twenty-third street, North river, northerly of the ferry-rack, under resolution adopted by the Board, May 2 and 15, 1877, and October 23, 1878, and to request his opinion whether the injunction in the matter of George H. Ingersoll, transmitted to him on December 31, 1881, will restrain the Department from removing the said platform at once.

On motion of Commissioner Laimbeer, the Engineer-in-Chief was directed to prepare plans and specifications for building a proper pier at Eighteenth street, East river, as soon as practicable.

On motion of the President, the Secretary was directed to insert, twice each week, in the "Herald," "Sun," "Times," "Tribune," "World," and "Star" newspapers, for six weeks, a brief notice advertising the Rules and Regulations established this date for the government of wharf property, stating that copies thereof may be had upon application at the office of this Department.

On motion, the Board adjourned.

WM. M. WHITNEY, Secretary pro tem.

At a special meeting of the Board of Docks, held April 17, 1882.

Present—The full Board, and Henry J. Storrs, representing the Comptroller of the city.

Four estimates were received for repairing Pier 58, East river, and its bulkhead, advertised for and publicly opened this day, as follows :

No. 1, from Warren Roosevelt, for \$10,700, with certified check for \$200.

No. 2, from Holmes Brothers, for \$11,995, with \$200 in money.

No. 3, from P. Sanford Ross, for \$13,000, with \$200 in money.

No. 4, from Joseph Walsh, for \$10,500, with certified check for \$200.

And, being read, were,

On motion, laid on the table for examination.

Three estimates were received for dredging the easterly half of the slip between Piers 18 and 19, East river, advertised for and publicly opened this day, as follows :

No. 1, from Charles M. Pratt, at 23 cents per cubic yard, with certified check for \$60.

No. 2, from Union Dredging Co., at 32 cents per cubic yard, with certified check for \$60.

No. 3, from P. Sanford Ross, at 29 cents per cubic yard, with \$60 in money.

And, being read, were,

On motion, laid on the table for examination, and the Secretary directed to transmit to the Comptroller the deposits made by the respective bidders and accompanying the estimates presented by them.

The estimates received and opened on the 10th instant, for repairing the Piers at Fifty-first street, One Hundred and Thirty-first street, One Hundred and Thirty-eighth street, and One Hundred and Fifty-second street, North river, were,

On motion, taken from the table, and, together with the communication received from the Comptroller, approving of the sureties on the estimates respectively made by John W. Flaherty and

Thomas O'Connell for classes 1, 2, and 4, and by Joseph Walsh for class 3, were ordered on file, and the following resolutions, offered by the President, were unanimously adopted :

Resolved, That the contract for repairing Piers at Fifty-first street, One Hundred and Thirty-first street, and One Hundred and Fifty-second street, North river, be and is hereby awarded to John W. Flaherty and Thomas O'Connell of 41 Peck slip, their bid for doing said work being the lowest under estimates publicly opened the 10th instant, and the Comptroller having approved of the sureties to the estimate of said Flaherty and O'Connell the 14th instant.

Resolved, That the contract for repairing Pier at One Hundred and Thirty-eighth street, North river, be and hereby is awarded to Joseph Walsh of 114 Wall street, his bid for doing said work being the lowest under estimates publicly opened the 10th instant, and the Comptroller having approved of the sureties to the estimate of said Walsh the 14th instant.

A communication from the Engineer-in-Chief, reporting the quantity of dredging required at the various piers and bulkheads proposed to be leased by the Department, and the estimated cost thereof, was received, read, and,

On motion, placed on file, and the following resolution in relation thereto was unanimously adopted :

Resolved, That the Engineer-in-Chief be and hereby is directed to make requisitions for the necessary dredge, scows, labor, and material to excavate and remove in accordance with his communication of the 14th instant, from the following premises :

North River.

Pier at Eleventh street and bulkhead extension.....about 700 cubic yards

East River.

Bulkhead between Piers 20 and 21.....	about	500 cubic yards
Bulkhead between Piers 51 and 52.....	"	1,000 "
Pier 53, east half.....	"	1,250 "
Pier 55, south half, and 54 feet of bulkhead.....	"	100 "
Bulkhead at Twentieth street.....	"	1,000 "
Bulkhead at Thirtieth street.....	"	200 "
Bulkhead at Thirty-fifth street.....	"	100 "
Bulkhead at Forty-fifth street.....	"	400 "
Bulkhead and stone dump at Forty-ninth street.....	"	300 "
Bulkhead at Fifty-third street.....	"	200 "
Pier at Fifty-fourth street.....	"	1,000 "

A communication from the Engineer-in-Chief, reporting the repairs necessary to and required at certain piers and bulkheads, to put them in proper condition for a three years' lease, was received, read, and,

On motion, placed on file, and the following resolution respecting the same was unanimously adopted:

Resolved, That the Engineer-in-Chief be and is hereby directed to repair the following piers and bulkheads in accordance with the recommendations made in his report dated April, 13th instant, and at the cost estimated for the same, respectively :

North River.

Pier at Eleventh street	at a cost of about	\$600 00
Pier at Eleventh street, for approach thereto.....	"	357 00
Bulkhead on south side of Eleventh street	"	850 00
Pier at Gansevoort street.....	"	175 00
Pier at Fifty-fifth street.....	"	110 00

East River.

Bulkhead between Piers 20 and 21.....	"	950 00
Pier 22, outer half of east side	"	150 00
Pier 23, outer 211 feet of west side.....	"	350 00
Pier 40 and one-half bulkhead easterly.....	"	450 00
Platform east of Pier 40.	"	10 00
Bulkhead at Corlears street	"	600 00
Pier 55, south half, and 54 feet of bulkhead	"	500 00
Pier 56, north half, and Pier 57, south half, and bulkhead.	"	360 00
Bulkhead at Twentieth street	"	600 00
Bulkhead at Forty-fifth street	"	250 8
Bulkhead at Forty-eighth street.....	"	600 00
Bulkhead at Forty-ninth street and stone dump.....	"	60 00
Pier at Fifty-third street.....	"	100 00
Pier at Fifty-fourth street.....	"	375 00

Harlem River.

Platform at One Hundred and Twentieth street.....	"	200 00
---	---	--------

And to prepare plans and specifications for repairing the following piers by contract :

Pier at Fifth street, East river.

Pier at Twenty-fifth street, East river.

The Engineer-in-Chief also reported that the following premises required to be dredged, and estimating the quantity of material necessary to be removed therefrom :

Slip between Piers 56 and 57, East river.....	about	4,000 cubic yards.
Pier at Twenty-fifth street, East river.....	"	10,000 " "

On motion, the Secretary was directed to notify the lessees of the premises, respectively, to have the same dredged within ten days, under the supervision of the Engineer-in-Chief, or this Department will have the same done and charge the cost thereof to them.

On motion, the Board adjourned.

JOHN T. CUMING, Secretary.

Meeting of the Board of Docks, held April 19, 1882.

Present—The full Board.

The reading of the minutes of the meetings held April 12, 13, and 17 was,

On motion, dispensed with.

The following communications were received, read, and,

On motion, laid on the table to await action, as stated, to wit :

From the laborers on tide work—Petition asking for increased compensation for labor done by them on tide work. Referred to the President.

From Engineer-in-Chief—Reporting that no repairs had been made to the bulkhead between Piers 10 and 11, East river. Referred back to the Engineer-in-Chief to make further report thereon.

From the Hartford and New York Transportation Company—Requesting that the lease of the north half of Pier 24, East river, be made out to them. Secretary to advise with the Counsel to the Corporation as to the proper action to be taken by the Board in the matter.

The following communications were received, read, and,

On motion, placed on file, action being taken where necessary, as stated, to wit :

From Counsel to the Corporation—

1st. Inclosing three copies each of the contracts for repairing Pier 58, East river, and for dredging the slip between Piers 18 and 19, East river, with his approval endorsed thereon.

2d. In reference to the premises occupied by the Astoria Ferry Company at foot of Ninety-second street, East river. Secretary to advise that the Board had communicated to the Counsel to the Corporation all the information of which they were in possession respecting the same.

From Department of Street Cleaning—Requesting that the slips at Jackson street and Forty-sixth street, East river, and at Twelfth and Thirty-seventh streets, North river, be dredged. Engineer-in-Chief to be directed to have soundings taken, and report the quantity of dredging required at Twelfth street, North river, and Secretary directed to advise that action had been already taken by the Board in respect to having the required dredging done at Jackson street and Forty-sixth street, East river, and also Thirty-seventh street, North river.

From John F. Doyle—In reference to dredging the slip between Piers 14 and 15, East river. Secretary to advise that it having been reported by the Captain of the Port that there was not

sufficient depth of water in the said slip to accommodate the vessels using the same, and the matter of repairing the pier having been satisfactorily adjusted, that the Board deems it proper to have the work done at the present time.

From Thomas Clyde, lessee—In reference to bill for repairs made to Pier 33, East river. Secretary directed to advise that the bill was duly audited and had been forwarded to the Finance Department for payment.

From National Steamship Company, lessee—In reference to the condition of the approach to Pier, new 39, North river. Secretary to advise that the same will be paved, so as to afford a proper approach to said pier.

From the United States Illuminating Company—Enclosing certificate of Board of Fire Underwriters, that the electric light at the offices of the Department was put up in accordance with their rules.

From Decker & Rapp, lessees—Stating that the repairs were made to the Pier at Bethune street prior to the receipt of the notice from this Department.

From Manhattan Beach Railway Company, lessee—In reference to repairing the Pier at Twenty-third street, East river, and as to dredging the slip adjacent thereto. Secretary directed to advise that the Engineer-in-Chief has been directed to prepare plans and specifications for having the same done by contract.

From Ridgewood Ice Company—In reference to leasing the Pier at Fifty-third street, East river, and requesting that the same be included in the sale of leases to take place on 25th instant. Application denied. Secretary directed to advise the company of the action of the Board.

From Benedict, Taft & Benedict—In reference to the services of Mr. Livingstone to make searches for them as requested. Secretary directed to advise that the services of Mr. Livingstone is placed at their disposal, if they still desire to employ his services.

From Engineer-in-Chief—

1st. Report on Secretary's Order No. 2281, that the occupants of the bulkhead south of West Eleventh street, North river, having made the necessary repairs thereto, the order to prepare specifications and form of contract for repairing the same was returned. The previous action of the Board directing the Engineer-in-Chief to prepare specifications, etc., was rescinded and annulled.

2d. Report on Secretary's Order No. 2374 as to quantity of dredging required at Thirty-seventh street, North river, to give proper depth of water thereat. Engineer-in-Chief to be directed to prepare specifications and form of contract for dredging the same to a depth of fifteen feet at mean low water.

3d. Report on Secretary's Order No. 2383, that fender piles had been driven on the upper pier 38, East river, under permit granted to the Maine Steamship Co.

4th. Report on Secretary's Order No. 2371, on the condition of Pier 6, East river, and as to the repairs required thereto. Secretary directed to notify the lessees thereof to make the repairs necessary thereto within ten days, under the supervision of the Engineer-in-Chief, or this Department will have the same done and charge the cost thereof to them.

5th. Reporting the completion of Pier, new 28, North river, by the contractor.

6th. Reporting the completion of the new crib bulkhead at Coenties slip, East river, by the contractor.

A communication from the Counsel to the Corporation was received, read, and,

On motion, was ordered on file, and the Secretary directed to enter the same in full on the minutes, as follows :

LAW DEPARTMENT,
OFFICE OF THE COUNSEL TO THE CORPORATION, }
NEW YORK, April 14, 1882.

JOHN T. CUMING, Esq., *Secretary of the Department of Docks :*

SIR—The action against Alexander Mason and others for rent of Pier 46, East river, was tried April 11, before Judge Larremore and a jury, and a verdict obtained in favor of the city for the sum of \$1,726.45, which includes the principal sum of \$1,377.50 and interest, \$348.95.

The claim of the city for the rent of this pier amounted to \$1,680, being a balance of \$105 on the quarter due February 1, 1878, and the sum of \$1,575 for the quarter due May 1, 1878. The defendant in his answer denied that there remained due any unpaid balance for the quarter due February 1, 1878, and further alleged that he paid on account of the quarter due May 1, 1878, the sum of \$197.50. Upon the trial of this action the defendant produced a receipt dated February 17, 1877, signed in the name of Jacob Vanderpoel, Treasurer, by W. W. Burnham, for the sum of \$5,802.50, being for rent of all piers leased by him from the city for the quarter ending November 1, 1877. He further produced three separate receipts, signed in the name of Jacob Vanderpoel, Treasurer, by Joseph T. Kelly, dated March 11, May 1, and May 28, 1878, for the sums of \$3,000, \$2,000, and \$1,000, respectively, and aggregating the sum of \$6,000. This amount extinguished the claim for the rent of all the piers held by him, due February 1, 1878 (amounting to \$5,802.50), and left the aforesaid balance of \$197.50 to be applied to the payment of the quarter's rent of Pier 46, East river, due May 1, 1878. The Court allowed this application and a verdict against the defendant, as stated in the opening paragraph of this letter, for the sum of \$1,377.50, with interest from May 1, 1878.

Two other actions are now pending against Mr. Mason and his sureties, for the quarter's rent due May 1, 1878, of Piers 19 and 44, East river, and 47, North river, for the aggregate sum of \$4,227.50.

These actions will be pressed to a speedy conclusion.

I return you herewith the original lease of Pier 46, East river, and a transcript of judgment for the sum of \$1,862.08, which is inclusive of the sum of \$135.63, costs.

Please have placed to the credit of the Department the sum of \$1,680, as against any charge of that amount heretofore made against it upon the books of the Department of Docks.

Yours respectfully,

(Signed)

W. C. WHITNEY, Counsel to the Corporation.

A report from the Engineer-in-Chief, under the resolution adopted by the Board on April 13th instant, was received, read, and,

On motion, was ordered on file, and the Secretary directed to enter the same in full on the minutes, as follows :

To the Board of Docks :

NEW YORK, April 18, 1882.

GENTLEMEN—In accordance with the following resolution of the Board, adopted on 13th instant, viz. :

Resolved, That the Engineer be and is hereby directed to furnish to this Board a statement, at its next meeting, of the condition of the work now in progress, not by contract, and the needs of the continuance of the force upon the sections south and north of Canal street, with his opinion of what amount of material, now on hand at each section, can be used in such work as may be done in the repair work by the day, and also a statement of derricks, pile-drivers, dredging machines, scows, etc., etc., now not being used by the Department, and what, in his opinion, can be best done with the same until the several suits now pending to test ownership of property are settled.

I have the honor to submit the following :

In regard to the condition of the work now in progress not by contract.

This embraces the work on the North river in two divisions, namely :

The sections south of Canal street and the sections north of Canal street.

Upon the sections south of Canal street the following lengths of wall have been ordered to be built by unanimous resolution of the Board, and are not yet completed :

North Moore street section, 28th April, 1880.....	about 300 feet
Beach street section, 16th July, 1879.....	“ 175 “
Laight street section, 30th July, 1880.....	“ 500 “
A total length of about.....	975 “

The injunctions restrain the work on about 311 feet of this, and in consequence of the injunctions the work on about 400 feet is delayed while about 180 feet has been built, leaving about 350 feet now ready to be proceeded with. Pier, new 28, North river, is just finished, with the exception of mooring posts or cleats which can be put on in a few weeks at any time, and the filling between the wall and the approach thereto is in progress and we are now ready to proceed with the building of the wall to the southward through the old Red Fort (a part of Pier, old 39), or to proceed to the northward from Pier, new 26, North river, at foot of Beach street. By proceeding southwardly from Pier, new 28, we shall remove the cribwork foundations of the old Red Fort, which will be of great advantage on account of its obstruction to the current.

Upon the sections north of Canal street, Pier, new 37, North river, is building by contract, and the construction of the wall from the north line of Twenty-third street to about 150 feet north of Twenty-seventh street has been ordered by an unanimous resolution of the Board, adopted 5th November, 1880. This is a length of about 1,200 feet, upon about one-fourth of which, or 300 feet, the Department has been enjoined from work, leaving about 900 feet to be carried on, of which 200 feet are completed and ready for use, and upon the remaining 700 feet work is proceeding as

rapidly as possible under the circumstances. During the past six months there has been an unfavorable run of tides for the work and there is not enough high water work for as large a force as can be employed upon low water work, consequently we are obliged to proceed with a comparatively small force. If the wall should be proceeded with from its present northerly end to the northerly side of Thirtieth street, the dredging for which is already contracted for, it would furnish high water work for a force large enough to greatly hasten the completion of the 700 feet of wall now partly done.

In regard to the needs of the continuance of the force upon these sections :

Under a resolution of the Board adopted unanimously on 30th November, 1881, I have prepared plans and specifications for paving the newly made land in the vicinity of Pier, new 1, North river, and they are now ready for printing and advertising. The plans and specifications for paving on sections north of Canal street have been begun and will be submitted as fast as possible ; moreover, there is on the northerly end of the Chambers street section (as reported by me to the Board on 30th January, 1882) a section of 130 feet in length where the wall can be built, which only requires the order of the Board to begin it, and which is wholly upon property owned by the city where no injunction can be expected. Upon the sections north of Canal street only the action of the Board is needed for the continuance of the wall to the northward. The dredging is already contracted for, some of the piles and timber are on hand, and the granite is bought and paid for, having been contracted for before the injunctions were issued. In addition to the above, the force of the sections north and south of Canal street is engaged in the necessary soundings, borings, and examinations for contract work in repairing the piers and bulkheads, and in preparing plans and specifications for the same, and for the new wall and piers to be built at Twenty-sixth to Twenty-eighth street, East river, and at One Hundred and Twenty-eighth to One Hundred and Thirtieth street, North river (Manhattanville), and for various other new piers ordered to be built by the Board and in supervising such work. The proper supervision and management of all this work will fully occupy all the force at my command for some time to come and will probably require its increase. In regard to materials on hand obtained for the wall covered by the injunctions and which can be used for repairs : There is at the section south of Canal street about 3,300 feet B. M. of 12 by 12 inch spruce, and at the section north of Canal street about 40,000 feet B. M. of the same, which can be used for repairs. The other materials on hand obtained for the enjoined parts of the wall and consisting of 8 by 8 inch spruce, 8 by 8 inch oak, treenails of various sizes, granite, and about 700 large piles 80 to 85 feet long, is not suitable for use in repairs.

In regard to the derricks, pile-drivers, dredging machines, scows, etc., not now in use :

The dredging machine and scows are hired out to the Union Dredging Company.

The following is a list of the floating property not in use at present :

Pile-drivers Nos. 1, 2, 9, and 11. Waiting orders.

Derrick scow "Joe." Waiting orders.

Pile-drivers Nos. 7 and 8. Under repairs.

The 100-ton derrick City of New York is in use, but not constantly.

All the other floating property of the Department is in use, and that now under repairs and waiting orders will be in use in making repairs before long :

In regard to what, in my opinion, can be best done with the derricks, pile-drivers, etc., until the several suits now pending to test the ownership of property are settled :

I beg leave to submit that, in my opinion, the best and wisest course to take for the interests of

the city and of the Department, and the Department's work, is to proceed at once with the work in places where there are no injunctions, and with energy and vigor, as to employ to the fullest extent possible all the floating property and plant and every tool and facility of the Department.

I have already suggested one place at the north end of Chambers street section where work can be done, and another from Twenty-seventh to Thirtieth street, and I beg leave to submit still another, namely, the North river water-front, from Thirtieth to Fifty-fifth street.

Here nearly all the site of the wall except at foot of the streets is covered by water-grants duly authorized and issued.

The course to be pursued by the Department under such circumstances is clearly defined by law, and it is hardly possible that any cause for injunctions can be found.

Much of this water-front is in a condition detrimental to the public health, and the recent movements of various railroads to obtain uptown depots upon this water-front indicate that there will be use for improved piers, etc., as soon as they can be built.

Very respectfully, your obedient servant,

G. S. GREENE, Jr., Engineer-in-Chief.

The communication from Williams and Guion, lessees, in reference to placing a new mooring pile on the bulkhead at Pier, new 38, North river, was,

On motion, taken from the table, and on reading the report received from the Engineer-in-Chief on Secretary's Order No. 2396 in relation thereto, it was ordered that the several communications be placed on file, and that the Secretary advise Messrs. Williams & Guion that on the report of the Engineer-in-Chief the Board do not deem it proper to grant a permit to place a mooring pile on the bulkhead, but if they desire to place one on the pier, as suggested by the Engineer-in-Chief, there will be no objection.

A communication from the Engineer-in-Chief, submitting plans, specifications, and form of contract for paving the newly made land in the vicinity of Pier, new 1, North river, and also a report on Secretary's Order No. 2398, submitting specifications and form of contract for dredging the westerly half of the slip between Piers 18 and 19, East river, was received, read, and,

On motion, placed on file, and the following resolution, offered by the President in relation thereto, was unanimously adopted :

Resolved, That the plans, specifications, and form of contract for paving the newly made land in the vicinity of Pier, new 1, North river, and the specifications and form of contract for dredging the westerly half of the slip between Piers 18 and 19, East river, as prepared by the Engineer-in-Chief, be and the same are hereby approved and adopted, subject to the approval of the Counsel to the Corporation as to form, and that the Secretary be and is hereby directed to have a sufficient number of blank forms of proposals printed, and proper advertisements, inviting bids for doing said work, inserted in the papers designated by law.

Mr. John W. Boyle appeared on behalf of William H. Wood, and was heard in reference to the claim against Mr. Wood as lessee for repairs made to Pier 57, East river, for which a bill has been rendered to him, it being claimed on his behalf that the repairs made were not necessary or required on the said premises.

Commissioner Laimbeer offered the following resolution, which was unanimously adopted :

Resolved, That the Bookkeeper be and he is hereby directed to prepare a statement in detail of the amount of the receipts of this Department, for or on account of the use and service of the dredging plant owned by the Department, in and during the past two years, and also a like statement of all the expenses incurred in the maintenance of the same for the same period.

Commissioner Laimbeer offered the following resolution :

Resolved, That any man in the employ of this Department who is not a citizen of the United States, or if an alien, who has not declared his intentions to become a citizen, or who does not reside in the City and County of New York, and who may not be registered as a voter under the law, his place shall be declared vacant, and his name shall be stricken from the pay-roll of this Department on May 1, 1882, which was,

On motion, laid on the table, and the Secretary directed to request the Counsel to the Corporation to give his opinion as to whether the provisions of the resolution can be enforced, and if the same is in accordance with the laws regulating or affecting the matter.

The President offered the following resolutions :

Resolved, That the action of the Board taken on the resolution offered by the President at the meeting of the Board held on the 12th instant, relating to the construction and extension of the bulkhead wall on the North river for a distance of about 660 feet north of a point about 150 feet north of West Twenty-seventh street, be and hereby is reconsidered.

Resolved, That the action of the Board taken on the resolution submitted by the President at the meeting of the Board held on the 12th instant, relating to the construction and extension of the bulkhead wall on the North river for a distance of about 130 feet from the northerly end of the Chambers street section to a point about the centre of Pier, old 33, North river, be and hereby is reconsidered.

Which were adopted by the following vote, taken on each resolution, respectively :

Ayes—The President and Commissioner Vanderpoel.

No—Commissioner Laimbeer.

The President offered the following resolution :

Resolved, That the resolution adopted by the Board August 12, 1881, in relation to the building of bulkhead wall, and requiring that any such wall thereafter shall be done by contract, be and hereby is rescinded.

Which was adopted by the following vote :

Ayes—The President and Commissioner Vanderpoel.

No—Commissioner Laimbeer.

Commissioner Laimbeer offered the following resolution :

Resolved, That the Chief Engineer be directed to prepare plans and specifications for constructing bulkhead wall from the present terminus Twenty-seventh street to north side of Thirtieth street, on North river, the same as now being built from Twenty-third to Twenty-seventh street, the same to be prepared as soon as it can be done, in order that a contract may be made for the same.

The President moved to amend the same by striking out the words "in order that a contract may be made for the same," and the question being put on the motion to amend the resolution, it was adopted by the following vote :

Ayes The President and Commissioner Vanderpoel.

No Commissioner Laimbeer.

The resolution, as amended, was then adopted by the following vote :

Ayes The President and Commissioner Vanderpoel.

No Commissioner Laimbeer.

The Secretary reported that, by direction of the Commissioners, the pay-roll for the general repairs and construction force for the half month ending 15th instant, amounting to the sum of \$6,231.69, had been approved and audited, and that the same had been forwarded, together with the proper requisitions for the amount, to the Finance Department for payment.

The action of the Secretary was,

On motion, approved.

Commissioner Vanderpoel, the Treasurer of the Board, presented his report of receipts for the week ending April, 19th instant, which was received, read, and,

On motion, placed on file, and the Secretary directed to enter the same in full on the minutes, as follows :

DATE RECEIVED.	FROM WHOM.	FOR WHAT.	AMOUNT.	TOTAL.	DATE DEPOSITED.
1882.					1882.
April 15	C. H. Haswell.....	Tracings of W. F. on N. R., near Barclay street.....	\$15 00		
" 17	Wharfinger John M. Smith.....	Wharfage received.....	145 73		
" 17	" James Fitzpatrick.....	"	250 27		
" 17	" Wm. L. McConkey.....	"	265 33		
" 17	" John Butler.....	"	105 05		April 19
			\$981 98	\$981 98	

Respectfully submitted,

(Signed)

JACOB VANDERPOEL, Treasurer.

The following requisitions were received, and,

On motion, approved :

Requisition No.	Estimated Cost.
3548. For 130 cubic yards of sand	\$110 00
3549. For 9,000 feet yellow pine	288 00
3550. For 20 spruce piles	160 00
3551. For 15,000 feet yellow pine	285 00
3552. For 1 bolt cotton canvas	12 00
3553. For 50 oak piles	550 00
3554. For 1,000 cubic yards rip-rap	620 00
3555. For 6 quires paper	30 00
3556. For dredge, etc., Twenty-third street, East river	935 00
3557. For test, 20 samples iron, Pier, new 37	50 00
3558. For dredge, etc., West Eleventh street	245 00
3559. " Piers 20 and 21, East river	170 00
3560. " Piers 51 and 52, East river	340 00
3561. " Pier 55, East river	35 00
3562. " bulkhead, Twentieth street, East river	340 00
3563. " " Thirtieth street, East river	70 00
3564. " " Thirty-fifth street, East river	35 00
3565. " " Forty-fifth street, East river	140 00
3566. " " Forty-ninth street, East river	105 00
3567. " " Fifty-third street, East river	70 00
3568. " Pier 53, East river	425 00
3569. For 500 bbls. Portland cement, Pier, old 57, North river	1,500 00
148. Lighting hallway Department office, per day	2 00
149. 1 ton English cannel coal	17 00

On motion, the following were appointed Laborers :

Joseph O'Rourke, Michael McCarthy, John H. Scip, and William B. Foley.

On motion, the Board adjourned.

JOHN T. CUMING, Secretary.

At a meeting of the Board of Docks, held April 26, 1882.

Present—The full Board.

The minutes of the meetings held April 12th, 13th, 17th, and 19th instant were read and approved.

The following communications were received, read, and,

On motion, laid on the table to await action, as stated, to wit :

From Department of Street Cleaning—Requesting that the slip at Canal street Pier, North river, be dredged. Engineer-in-Chief to be directed to have soundings taken and report the quantity of dredging required to give proper depth of water thereat.

From Joseph Naylor—Application for lease of land under water at East and Water streets, East river, and for leave to build a dock thereat. Engineer-in-Chief to be directed to examine and report thereon.

From N. Y., Ontario and Western Railway Co. —Application for leave to enlarge the present buildings, and to erect new ferry-house, racks, etc., between Forty-second and Forty-third streets, North river, accompanied by plans of the proposed improvements. Engineer in-Chief to be directed to examine and report thereon at as early a day as possible.

From Engineer-in-Chief —Report on Secretary's Order No. 2399, submitting form of specifications and contract for dredging the slip between Piers 14 and 15, East river.

From Charlton B. Kid—Requesting that an increase of salary be granted to him.

The following communications were received, read, and,

On motion, placed on file, action being taken where necessary, as stated, to wit :

From Counsel to the Corporation—

1. Enclosing letters, etc., transmitted for his examination.
2. Transmitting answer in suit of Williams against the Mayor, etc., for verification by the Commissioners.

3. Enclosing check for \$1,125, collection from Scott & Co., for rent of Pier at Thirty-fifth street, North river. Secretary to advise that proper credit was given therefor on the books of this Department.

4. In reference to the suit of Murphy against the Mayor, etc., for damage to boat at Twenty-sixth street, North river. Secretary directed to request the Counsel to the Corporation to endeavor to obtain an extension of time, two weeks, in order to allow the Department to obtain all the possible respecting the same. Engineer-in Chief to be directed to report all the facts th the matter.

From Department of Public Works—Application for 100 tickets for dumping at Coenties slip, East river. The President reported that he had replied thereto, and had sent the tickets, as requested, at the same rate as supplied to the Department of Street Cleaning. Action of the President approved.

From Sisters of the Good Shepherd—Requesting the Department to remove a canal-boat drifted to the edge of their garden at Ninetieth street, East river. Engineer to be directed to have the same removed.

From Pacific Mail Steamship Company, lessees—In reference to the dangerous condition of the approach to the Pier at Canal street, North river. Engineer-in-Chief to be directed to make the necessary repairs and to keep the same in safe condition.

From Manhattan Gas Company—Application for leave to place mooring post on the bulkhead between Fifteenth and Sixteenth streets, East river. Application denied, as the Board considers the title of the premises to be vested in the Corporation of the City of New York. Secretary to advise the company of the action of the Board thereon.

From Atlas Steamship Company, lessees—In reference to the action of the Board as to the terms of the lease of Pier, new 55, North river.

From The Farmers' Protective Union, lessees—In reference to the condition of the bulkhead at Twentieth street, East river. Secretary directed to advise that the Board has ordered the necessary repairs to be made thereat.

From Thomas Fitzpatrick, lessee—Application for lease of Pier at Seventy-ninth street, North river. Application denied. The Secretary to direct the Corporation Wharfinger to collect wharfage at the said pier from and after May 1, 1882.

From John F. Doyle—In reference to dredging the slip between Piers 14 and 15, East river. Secretary to advise that the Board adheres to the action heretofore taken by it and directs that the owners of the said premises have the slip dredged to a depth of twenty feet at mean low water, under the supervision of the Engineer-in-Chief, and that the same must be commenced within ten days, or this Department will proceed to do the work at the cost and expense of the owners thereof.

From the Long Island Land Fertilizing Company—In reference to lease of the premises at Thirty-ninth street, East river. Secretary to advise that the lease will be made to Mr. G. W. Ryerson, and that the Board will have no objection to the assignment of the same being made to the company.

From Counsel to the Corporation—Enclosing answer to be verified by the Commissioners in the suit of Edward A. Smith against the Mayor, etc.

From Hoboken Land and Improvement Company—For permission to drive piles not exceeding ten in number at the lower end of the Pier at Christopher street, North river, in connection with their ferry-rack thereat. Application granted, the work to be done under the supervision of the Engineer-in-Chief of this Department.

From Western Union Telegraph Company, lessees—In reference to the use and occupation of the Pier at Fifty-fifth street, North river, by them at the same rental as paid last year.

From Engineer-in-Chief—

1st. Reporting the quantity of material removed by the Union Dredging Company in the dredges and scows belonging to this Department during the month of March, 1882. Treasurer requested to collect the bill for the same from the Union Dredging Company.

2d. Reporting that the construction of the bulkhead wall in the rear of Pier, new 56, North river, was sufficiently advanced to allow of building the inner 100 feet of the said pier. Secretary directed to notify the contractor building the said pier to complete the inner 100 feet thereof.

3d. Reporting as to location in the Fifth Ward available for placing the public bath directed by law to be located therein. Secretary to advise the Department of Public Works that the most suitable place within the limits of the Fifth Ward, and under the control of this Department, is situated on the north side of Pier, old 34, North river, and that so much of the same as may be requisite be assigned to the use of and for the purposes of the public bath to be located thereat.

4th. Report of work done during the week ending April 15, 1882.

5th. Report of work done during the week ending April 22, 1882.

6th. Report on Secretary's Order No. 2334, that repairs were made to the bulkhead between Twentieth and Twenty-first streets, North river, by the Knickerbocker Ice Company, pursuant to the order of the Board.

7th. Report on Secretary's Order No. 2362, that the temporary sewer extension at Beach street, North river, had been repaired. Secretary to advise Department of Public Works that the same had been repaired by this Department.

8th. Report on Secretary's Order No. 2164, that the platform at One Hundred and Fifty-fifth street and Harlem river had been constructed under the permit issued to the American Contracting and Transportation Company.

9th. Report on Secretary's Order No. 2385, that the approach to Pier, new 55, North river, had been widened and enlarged as directed by the Board.

10th. Report on Secretary's Order No. 2387, that no repairs had been made to the north half of Pier, old 33, North river, by the owners thereof, as directed by the Board. Engineer-in-Chief to be directed to make the necessary repairs thereto, and to report the cost thereof, the expense incurred to be collected from the owners of the said premises.

11th. Report on Secretary's Order No. 2377, that the outer end of Pier, old 29, North river, had been repaired by the Providence and Stonington Steamship Company, as directed by the Board, and that the piles between the ferry-rack and the north side of the said pier had been removed by the New York, Lake Erie and Western Railroad Company, pursuant to the order of the Board.

From William L. McConkey, Corporation Wharfinger—

1st. Reporting the dangerous condition of bulkhead west of Pier 37, East river. Engineer-in-Chief to be directed to examine and report thereon.

2d. Reporting that the bulkhead between Piers 47 and 48, East river, was in need of repairs. Engineer-in-Chief to be directed to examine and report thereon.

3d. Reporting that the bulkhead at foot of Water street, East river, was in bad condition. Engineer-in-Chief to be directed to examine and report thereon.

4th. Reporting that Pier 8, East river, was in a dangerous condition. Engineer-in-Chief to be directed to examine and report thereon.

A communication from the Comptroller of the city, approving of the sureties on the proposals of Joseph Walsh for repairing Pier 58, East river, and of Charles M. Pratt for dredging the east half of the slip between Piers 18 and 19, East river, was received and read, and,

On motion, the bids received and publicly opened on the 17th instant for doing the said work were taken from the table, and, with the communication from the Comptroller, ordered to be placed on file, and the following resolutions, offered by the President in relation thereto, were unanimously adopted :

Resolved, That the contract for repairing Pier 58, East river, and its bulkhead, be and is hereby awarded to Joseph Walsh of 114 Wall street, his bid for doing said work being the lowest under estimates publicly opened the 17th instant, and the Comptroller having approved of the estimate of said Walsh the 19th instant ; provided, however, that the alleged owners of the southerly half of said pier file in this office their written approval to this award being made.

Resolved, That the contract for dredging the easterly half of slip between Piers 18 and 19, East river, be and is hereby awarded to Charles M. Pratt of 128 Pearl street, his bid for doing said work being the lowest under estimates publicly opened the 17th instant, and the Comptroller having approved of the sureties to the estimate of said Pratt the 19th instant.

The Secretary reported that at the sale held on the 25th instant by William Kennelly, auctioneer, at the Exchange Salesroom No. 111 Broadway, the following described lots were not sold, in consequence of being withdrawn or of no bid being received therefor at the upset price fixed thereon :

On North River.

For and during the term of three years from 1st May, 1882 :

Lot 1. Pier at West Eleventh street, and bulkhead extending easterly from southerly side thereof, to west line of West street ; upset price, \$6,000 ; no bid.

Lot 3. Pier at West Fifty-fifth street (these premises will not be repaired or dredged by the Department, and the purchaser of this lot will be required to take the premises in the condition in which they may be on 1st May, 1882) ; upset price, \$1,000 ; no bid.

On East River.

For and during the term of one year from 1st May, 1882 :

Lot 5. Bulkhead at East Thirtieth street ; upset price, \$300 ; no bid.

Lot 10. Pier at East Fifty-fourth street ; withdrawn.

For and during the term of three years from 1st May, 1882 :

Lot 12. One undivided ninth part of Pier 42 (these premises will not be repaired or dredged by the Department, and the purchaser of this lot will be required to take the premises in the condition in which they may be on 1st May, 1882) ; upset price, \$750 ; no bid.

Lot 14. Bulkhead at Corlears street ; upset price, \$300 ; no bid.

And that the right to collect and retain all wharfage accruing at the following-named piers and bulkheads had been sold to the highest bidders therefor, as named below, at the public sale held at No. 111 Broadway, on the 25th instant, by William Kennelly, auctioneer, and for the terms and at the prices as stated opposite each lot, respectively, to wit :

Lot 2. Pier at Gansevoort street, North river, for the term of three years from 1st May, 1882 (except reservation of the right to cancel the lease at any time during its existence, should the premises be required for the uses and purposes of a public market, erected in the vicinity thereof), to Daniel Shea, for \$2,500 ; upset price, \$2,500.

On East River.

For and during the term of one year from 1st May, 1882 :

Lot 4. Bulkhead at East Twentieth street, to Farmers' Protective Union, for \$660 ; upset price, \$500

Lot 6. Bulkhead at East Thirty-fifth street, to G. L. Schuyler, for \$500 ; upset price, \$500.

Lot 7. Bulkhead extension (stone dump) at East Forty-fifth street, to Schwarzschild and Sulzberger, for \$250 ; upset price, \$250.

Lot 8. Bulkhead at East Forty-seventh street, to Owens & Co., for \$1,000 ; upset price, \$500.

Lot 9. Bulkhead at East Forty-ninth street, to M. Goodwin, for \$460 ; upset price, \$300.

For and during the term of three years from 1st May, 1882 :

Lot 11. Outer half of easterly side of Pier 22 (the shed on these premises was erected for a waiting-room for steamboat passengers, and will not be permitted to remain during any portion of the term for which the lease is now offered, if it is occupied for any other purpose), to Samuel L. Storer, for \$5,100 ; upset price, \$1,500.

Lot 13. Easterly half of Pier 51 and westerly half of Pier 52, and bulkhead and small pier between (except reservation at outer end of easterly side of Pier 51 for berth for public bath during summer season), to Joseph V. Brown, for \$2,200 ; upset price, \$2,000.

Lot 15. Southerly half of Pier 56 and southerly half of Pier 57, and bulkhead between (these premises will not be dredged by the Department, and the purchaser of this lot will be required to

take premises in the condition in which they may be on May 1, 1882), to William H. Wood, for \$1,500; upset price, \$1,500; for and during the term of three years from 1st June, 1882.

Lot 16. About 211 feet of outer end of westerly half of Pier 23, to Samuel L. Storer, for \$2,125; upset price, \$2,125.

On motion of the President, the following requisition was unanimously adopted :

Resolved, That the sale of the right to collect and retain all wharfage which may accrue for the use and occupation by vessels of more than five tons burthen at the said several lots of wharf property, upon the terms as reported by the Secretary, be and is hereby approved and confirmed, and the officers of the Board be and are hereby authorized and empowered to execute the necessary leases therefor, when prepared, and in the form as approved by the Counsel to the Corporation.

The President called the attention of the Board to the provisions of Assembly Bill No. 514, now before the Legislature, providing for filling in and extending Avenue A, from Twenty-third to Fifty-fourth street, and offered the following resolution in relation thereto, which was unanimously adopted :

Resolved, That the Secretary be and is hereby directed to transmit to the Chairman of the Assembly Committee on Affairs of Cities the map of the East river water-front, from Twenty-third to Fifty-fourth street, prepared by the Engineer-in-Chief of this Department, showing the bulkhead and pier line as established by law, the present wharfage facilities as constructed and now existing thereat, the line of the Avenue A as proposed to be made by the bill, and also showing from soundings that the depth of water on the proposed line is from 40 to 60 feet at mean low water, and to convey to the said Committee the most earnest protest and remonstrance of the Commissioners governing this Department against the passage of the bill.

Commissioner Laimbeer offered the following preamble and resolution, which were unanimously adopted :

Whereas, Doubts have arisen as to the legality and sufficiency of the publication heretofore made of the Rules and Regulations heretofore established by this Board for the government and proper care of piers, bulkheads, slips, and other wharf property ; and

Whereas, Penalties were imposed on August 12, 1881, by resolution of the Board, on the following :

Ogden & Company.....	\$200 00
Decker & Rapp.....	first penalty, \$250 00
	second penalty, 250 00
	———— 500 00
Drew & Bucki.....	250 00
Bell Brothers.....	200 00
—for violation of the said Rules and Regulations ; therefore	

Resolved, That the resolution heretofore adopted by this Board on the 12th day of August, 1881, imposing the penalties aforesaid, be and the same is hereby rescinded and annulled.

APRIL 26, 1882.]

318

Commissioner Vanderpoel, the Treasurer of the Board, presented the following report of receipts for the week ending April 26, 1882, which was received, read, and,

On motion, ordered to be placed on file, and the Secretary directed to enter the same in full on the minutes :

3581. For 1,000 cubic yards of cobbles.....	"	980 00
3582. For 12,000 feet N. C. yellow pine.....	"	240 00

On motion of the President, the Secretary was directed to enter in the minutes the rules and regulations for the government and proper care of piers, bulkheads, slips, and other wharf property, adopted by the Board on the 13th instant and published to take effect on and after May 1, 1882, as follows :

No. 1.—No piles shall be driven, nor shall any platform be erected, nor shall any filling-in of any kind be made on any part of the water-front of the city, without a written permit therefor being first had and obtained from the Board, under a penalty of two hundred and fifty dollars for every such offense, to be recovered from the owner, lessee, or occupant of any pier or bulkhead, or of any water-front property or right, who shall cause or permit any such work to be done upon his premises before such permit therefor has been obtained, and under the further penalty of fifty dollars for each and every day which shall elapse before any piles so driven, or platform so erected, or material so filled in, without such permit being first obtained, shall be removed, after the expiration of the time which may be allowed for such removal, by a notice served upon such owner, lessee, or occupant, by the Corporation Wharfinger for the district, to be also recovered from such owner, lessee, or occupant.

No. 2.—No shed, building, office, tally-house, or other structure shall be erected, nor shall any derrick, hoisting-mast, coal-hopper, sign, or advertising device, or other erection or obstruction of any kind be placed or maintained upon any pier, bulkhead, or other wharf structure, nor upon any reclaimed land, without a written permit therefor being first had and obtained from the Board ; and if the owner, lessee, or occupant of any such premises, or the owner, lessee, or agent of any such structure, erections, or obstructions shall fail to comply with a notice served by the Corporation Wharfinger for the district to remove any such structure, erection, or obstruction, after the expiration of the time allowed by such notice for the removal, such owner, lessee, occupant, or agent shall forfeit and pay a penalty of twenty-five dollars per day for each and every day which shall elapse before any such structure, erection, or obstruction shall be removed, after the expiration of the time for the removal thereof specified in said notice.

No. 3.—No cargo shall be discharged from any vessel upon any bulkhead or wharf structure at which such vessel is being unladen, after service by the Corporation Wharfinger for the district, upon the owner, consignee, master, or other officer or stevedore of such vessel, of a notice that such

bulkhead or structure will be endangered by the placing of additional cargo thereon, under a penalty of two hundred and fifty dollars for every such offense, and a further penalty equal in amount to the damages of every description which shall be caused by the further discharging of cargo upon such bulkhead or wharf structure, after the service of the said notice, both of such penalties to be recovered from such owner, consignee, master, or other officer or stevedore, severally and respectively.

No. 4.—All goods, merchandise, and materials of every kind, landed or placed on any pier, bulkhead, or other wharf structure, or upon reclaimed land, must be removed therefrom without unnecessary delay, and within twenty-four hours after the Corporation Wharfinger for the district shall have served upon the owner, shipper, or consignee of such cargo a notice to remove the same, under a penalty of fifty dollars per day for each and every day during which any part of said cargo shall remain upon such pier, bulkhead, structure, or land, after the expiration of the said twenty-four hours, to be recovered from such owner, shipper, or consignee, severally and respectively.

No. 5.—All goods, merchandise, and materials of every kind incumbering any pier, bulkhead, or other wharf structure, or reclaimed land, after the time designated for the removal thereof shall have expired, will be liable to be removed by the Board to any warehouse or yard, at the sole risk and expense of the owner of any such property, and all expense incurred for such removal and storage or otherwise shall be and become a lien thereon, and such goods, merchandise, and materials will not be delivered to the owner until the expense of such removal and storage has been paid.

No. 6.—No person shall construct or maintain any engine-house, tally-house, or other small structure, under a permit of the Board, on any unshedded pier, or other wharf structure, unless the same be placed on wheels so as to admit of easy removal thereupon when required, and to prevent the accumulation of dirt or refuse thereunder, under a penalty of twenty-five dollars per day for each and every day which may elapse before the discontinuance of such offense.

No. 7.—No vessel of any kind shall be loaded or discharged by horse power, nor shall stones or similar cargo be discharged from any vessel upon any pier, bulkhead, or other wharf structure, unless proper planking be provided to protect the surface of such pier, bulkhead, or other wharf structure from injury consequent upon the travel of the horse, or the throwing of the stones or similar cargo thereupon, under a penalty of five dollars a day for each horse so employed, and of twenty-five dollars for each offense of discharging such stones or like cargo upon such pier, bulkhead, or other wharf structure, to be recovered from the owner, consignee, master, or stevedore of any such vessel, severally and respectively; and if such penalty be recovered for using horses, or discharging stones or similar cargo, upon wharf property belonging to the Corporation, under lease, it shall be paid to the lessee thereof; but if such penalty be recovered for using horses, or discharging stones or similar cargo, upon wharf property not owned by the Corporation, it shall be paid to the owner thereof.

No. 8.—No sand shall be discharged from any vessel unless canvas or similar material be extended from the vessel's side to the bulkhead or wharf structure at which such vessel is being unladen, to prevent the falling of the sand into the water, and if the surface of any such wharf structure is not sufficiently tight to prevent the sand dumped thereon from going through into the water, then no sand shall be discharged thereon from any vessel, unless canvas or similar material

be first laid thereon to receive the sand, under a penalty of twenty-five dollars for each offense, to be recovered from the owner, consignee, master, or stevedore of any such vessel, severally and respectively ; and if such penalty be recovered on account of sand discharged upon wharf property belonging to the Corporation, under lease, it shall be paid to the lessee thereof ; but if such penalty be recovered on account of sand discharged upon wharf property not owned by the Corporation, it shall be paid to the owner thereof.

No. 9.—The owners, lessees, and occupants of every pier, wharf and bulkhead in the City of New York shall keep the same in good repair, and the slips adjacent thereto properly dredged ; and whenever, in the judgment of the Board, it shall be necessary so to do, written notices, signed by the President or Secretary of said Board, shall be served upon the owners, lessees, or occupants, or collector of wharfage of any such pier, wharf, or bulkhead, or the slip adjoining the same, on or in which repairs or dredging are required by said Board, specifying the nature and extent of the repairs or dredging so required, and the time within which such repairs must be made or such dredging done ; and in case the owners, lessees, or occupants so notified fail to comply with the terms and requirements of such notice, they shall forfeit and pay a penalty of fifty dollars per day for every day which shall elapse before they comply with such notice.

No. 10.—No ashes, refuse, offal, fruit, vegetables, or any other substances shall be thrown into the waters surrounding or adjacent to any pier or bulkhead, or any other part of the water-front of the city, under a penalty of twenty-five dollars for every such offense, to be recovered from the owner, lessee, or occupant, severally and respectively, of any pier, bulkhead, wharf structure, or other property from which any such substance shall be thrown, or from the person actually throwing the same ; or if any such substance be thrown from any vessel lying in waters within the jurisdiction of the Department, whether berthed or not, then such penalty to be recovered from the owner, consignee, or master of such vessel, severally and respectively.

No. 11.—No snow or ice shall be dumped into the waters adjacent to the water-front of the city, except from the piers, bulkheads, and other places designated from time to time by the Board for such dumping, under a penalty of twenty-five dollars for each offense, to be recovered from the owner, lessee, or occupant of any pier, bulkhead, or other wharf property from which any such snow and ice shall be dumped, or from the person actually dumping the same, severally and respectively.

No. 12.—All lumber, brick, or other material in bulk, discharged on any bulkhead not shedded, shall be at once removed, or, if not so removed, shall be placed at least twenty feet from the edge of the bulkhead, pending removal, under a penalty of fifty dollars per day for each and every day such lumber, brick, or other material shall remain on the bulkhead, to be recovered from the owner or consignee of such lumber, brick, or other material, or from the person placing, or causing the same to be placed, on such bulkhead, severally and respectively.

No. 13.—The charges for wharfage and dockage of all vessels admitted to any of the piers or bulkheads constructed under the new plans adopted by the Department, shall be at the same rates

as are now, or shall hereafter be, fixed and established by laws of this State, until otherwise ordered by the Board.

No. 14—The term "Board," when used in the foregoing rules and regulations, shall be taken to mean "The Board of the Department of Docks of the City of New York," and the term "Corporation," when so used, shall be taken to mean "The Mayor, Aldermen, and Commonalty of the City of New York."

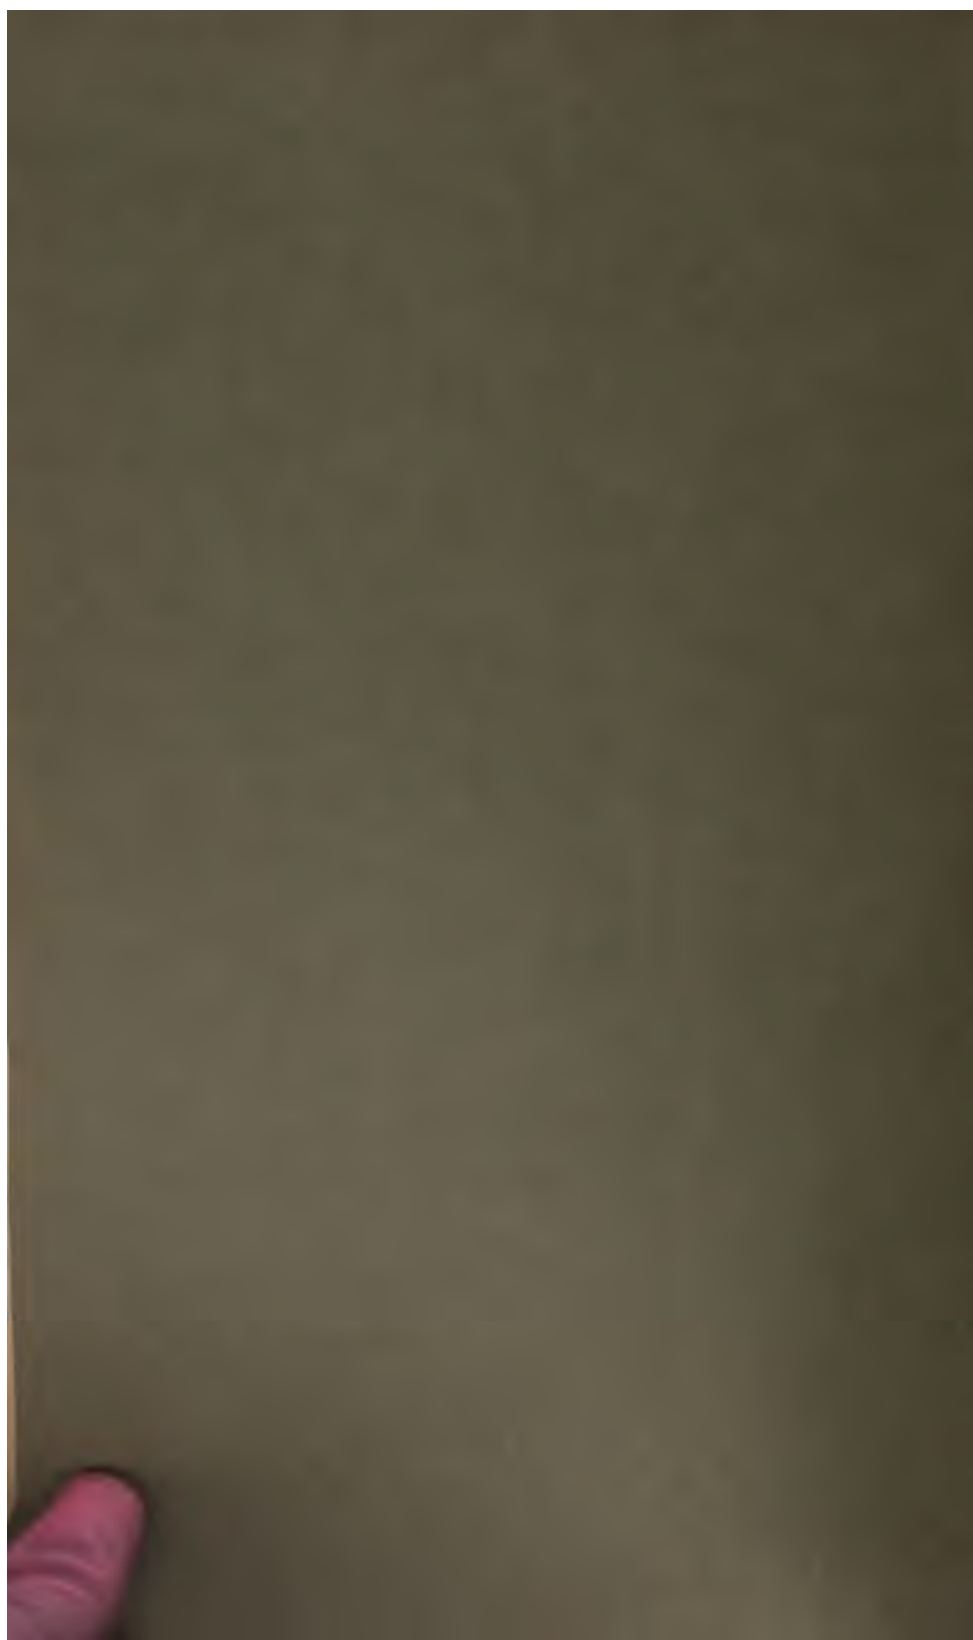

On motion, William Kiernan, Daniel Sheehan, and Frank M. Brady were appointed as laborers, and John Gibson as a dock-builder.

On motion, the Board adjourned.

JOHN T. CUMING, Secretary.
